DECEMBER 1973

FROM THE EDITOR

I want to let everyone know that I'll be open to any news items they can contribute for the bark. Please call me at 475-2241 and give me any news you have on club members, amateur radio in general, or anything else you want the rest of the club to know about.

This is a hard job to do alone so please help fellow members and gals. I will need it.

We're very short on Club member news this month due to the fact that none of the writers were available at the meetings. Due to a prior commitment, I will not be at the meetings. If you have anything at all for the paper either call me or give the articles to Roy, W7AZI, and I can get them from him.

Thanks, '73 Margie, K7AMJ

WHY THEY DON'T USE US

By W7IEU, courtesy: H.A.M.S. 'Feedline'

Have you wondered why we don't get asked by the Public Service agencies to provide them with emergency communications? In just the few short weeks I've been SEC I've heard the answer to that question many times. Most of the time it was just hinted at and I'd have to sit there and listen. This came from both local and state officials. Then at one meeting an official finally came right out and said it. "We've tried to use amateurs for emergency communications but they can't be depended upon." He wasn't talking about their operating ability, which he admired, it was the lack of response when they were called. That is what has hurt us. He told of a time when amateurs were asked to go and one was around to help. This particular incident I happen to recall because I was on the band at the time the request came through. Countless long-distance phone calls were made on it and the

(continued next column)

Why They Don't Use Us (cont)

response was nil and the agency used other means to accomplish the mission.

Another official told me of the efforts some agencies have put forth to include amateurs in their plans only to change plans because the amateurs would not respond when called. These are not isolated cases either, it's happening all over. Even some of the amateurs charged with working on these plans are taking a second look. It's getting to the point where they won't even suggest a type of operation to officials for fear they'd wind up with egg on their face. Again. The official told me about the lack of response also told me, "They'll overlook the lack of response the first time, in some agencies, but the second time it happens the agency starts looking for something they can control and depend upon." No wonder some of the FCC officials have made remarks about the amateur radio fraternity. Some of them have classed us in the same category as CB, and that's getting bad. Anyway, I found out why they don't use us anymore.

COMING PROGRAMS & EVENTS

Dec. 12 - Speaker Tom Sanford, K7YMG. Antarctic Antennas

Dec. 25 - MERRY CHRISTMAS!

Dec. 26 - Elections!

SURPLUS

W7SJ, Rennie Heatly of Aberdeen, died a couple weeks ago, and Dewey Wilson, W7HF, and others trying to sell his amateur station. He had a complete Collins rig, a Mosly TA33 Classicenna (beam) and a 50 foot aluminum tower, not a pickup.

I thought you might be interested in the tower beam. Price will be \$100 or less on each m. You'd better phone Dewey as soon as possible if interested. Tower has been taken down beam disassembled.

W7SJ has a lot of surplus. Maybe you could get for the Club's auction sale.

NOVEMBER SWEEPSTAKES CONTESTS

By W7BUN

It is too soon to know how well the Radio Club performed, but very preliminary counts indicate about 50 members participated in the Phone contest and about 25 members in the CW portion. This is twice last year's turnout. The committee will be meeting shortly to add up the scores, (be sure your logs are in to the club secretary or W7BUN or W7UBA) and a full report will appear in the January Bark. It also seems that our own Chip, K7VPF, operating W7RM has possibly swept the entire nation in both modes for the third consecutive year.

FROM UP NORTH

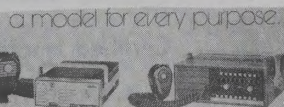

2 meter FM is more popular, I believe, in the northern half of the state than in Tacoma. Bellingham is very busy on 146.76, as is Mt. Vernon, Burlington and Sedro Wooley. I have had an eyeball with Doc's old buddy Lou, W7HF, after meeting him on 2 meters. Also Chuck, K7KOT from Mt. Vernon, visited me in my trailer for coffee and a swell QSO. That 2 meter FM rig is swell company when you are away from home. Also an economical way of getting messages to your wife, thanks to the W5/7 in south Tacoma. Sorry I can't remember his handle or call.

I wanted to attend the Skagit Valley Club, but they meet on Friday nights and I am headed for home by then. I visit Dwayne, K7KSZ, about once a week and will have some news from the Everett Club next month. I will try to get more news from Anacortes and Mt. Vernon next month, too.

Scotty, K7CYZ

CODE KEYS "AND"

By W7MRX

The little unit described in the following paragraphs has turned out to have several more uses than I imagined when I first conceived it. Originally I built it as a means of sending code to a class of novices and it started out as a hand key, a buzzer and a battery clip holding 3 "D" cells, all mounted on a plywood base long enough to rest your forearm on while keying. I didn't care for the one-tone monotony or battery drain of the buzzer, so I added a transistorized crystal oscillator for the 80 meter band plus a switch to allow selection of buzzer or oscillator. The crystal oscillator is actually a milliwatt 80 meter transmitter, which keys cleanly and without an antenna will pick up nicely on the station receiver.

In addition to its use as a code class training aid, the crystal oscillator has proven to be a handy source of clean, stable RF signal for use in tuning receivers. With a receiver badly out of tune, the receiver antenna is brought closely to the oscillator or even wrapped loosely two or three times around the coil. As the circuits are peaked and the response picks up, the unit is moved further away.

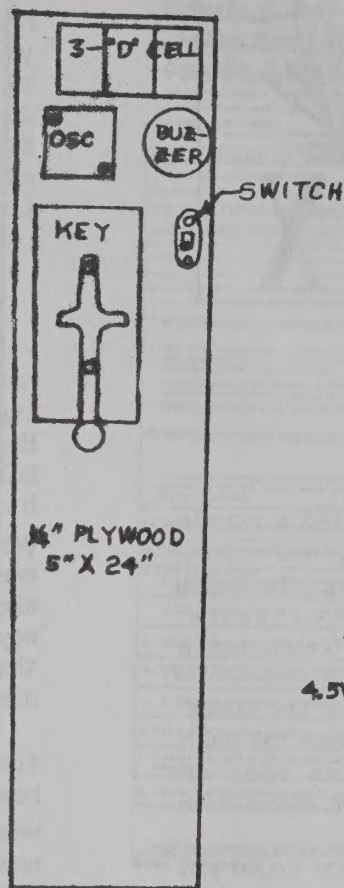

The crystal normally used in this oscillator is a 3.5 MHz rock, which (with harmonics) makes a dandy lower band edge marker on the four main high frequency bands. So far I have used it to correct calibration of receiver dials for two novices and one soon-to-be (I hope) novice. Oscillator tuning is not critical at all and crystals anywhere in the eighty meter band can be plugged in without need to retune the tuned circuit.

I've never tried the thing for actual communication, but if any super-QRP enthusiast wants to put it on the air, it shouldn't be hard. If you have an end-fed 80 meter antenna, simply attach it

(continued next column)

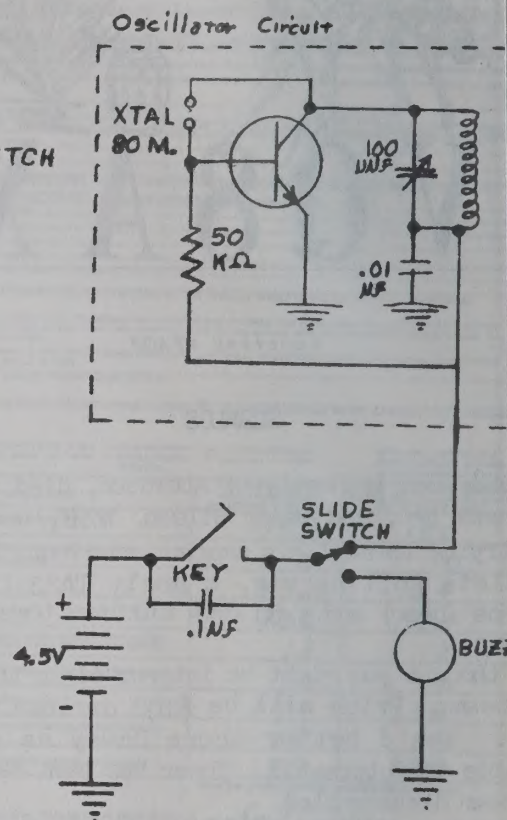

PHYSICAL LAYOUT

Oscillator & Switch mounted on standoffs. All other components mounted flat.

ELECTRICAL CIRCUIT

Oscillator Unit is built on a 2" X 2" Piece of Per.

CODE KEYS (conclusion)

to the hot end of a tuned circuit (stator of tuning capacitor). For low impedance feed (such as coax cable) make a five or ten turn loop of insulated wire around the cold end of the coil and attach to the transmission line.

See figures for diagram and layout.

AUXILIARY NOTES

APFL News In Brief (cont)

December meeting will be on December 19th at Clubhouse, 7:30 p.m. Inez will be co-hostess. We will have a special Christmas-type surprise program. The business portion of this meeting will include election of officers. Nominations will be accepted from the floor, but we also have a following slate of people willing to serve. Applications will be eliminated as we elect one person at a time. The candidates are:

President: Marge Hazelmyer

Sandy Chudy

Vice-President: Ethel Devish

Secretary-Treasurer: Amy Ahlstrom

Sandy Chudy

Board Members: Kay Allen

Inez Churchward

We have tried to offset the fear of the December meeting by having all of these candidates stand at election, so we will expect a good turnout.

The November meeting was well attended and Sandy Chudy brought along her friend Maxine Peter, who demonstrated and provided materials for some of us to do some decoupage. We all felt we learned a new craft while having the fun of working and enjoying each other for a very full evening.

Don't forget your lists of things to save gifts, to those who don't know what this is all about - come and see!

Ethel, W7WLX

ARRL NEWS IN BRIEF

By W7BUN

FCC released a Notice of Inquiry October 30th, asking suggestions on rules for a "new" Amateur Satellite Service. The amateur stations aboard Oscar satellites have been authorized by waivers from FCC on an individual basis. The Commission is concerned about 435 to 438 MHz, which is shared worldwide with radio positioning. So, comments are sought on types of stations, station requirements and privileges, licensing processes and classes of license, technical standards, tele-command and telemetry requirements, sessions, and identification and logging. ARRL will request a postponement of the January 7 deadline so comments can be sought from the Directors starting early in 1974.

ARRL will have special QSL cards available for 1976, the 200th anniversary of the U.S.A. Also, ARRL is exploring ways in which the call signs of K stations might be changed during 1976 to attract attention to the Bi-Centennial.

The International Telecommunications Union

(ITU) has set 1979 rather firmly as the year for the World Administrative Radio Conference.

Don't forget the new 10 meter contest December 15 and 16. Full details were in November QST.

The next ARRL Simulated Emergency Test (SET) will be January 26 and 27. Every amateur should participate to help justify the amateur service in terms of public interest, convenience and necessity. Contact your local Emergency Coordinator (EC) or the Section Communications Manager (SCM) to see how you can help. Details are in December QST.

FCC has received 118 volumes of comment in Docket 19759, the matter of CB on 220 MHz. The majority of the material consists of opposition by amateurs. There has been little documentation by industry or others to show the "need" for the service. The League has filed a 72 page Opposition to Proposed Rulemaking and also requested an Oral Argument with FCC. A summary will be in December QST. (any member who would like to read the whole thing, see W7BUN for a copy - it makes for some very interesting reading and the ARRL should be commended for the excellent work they did on this matter).

At Press Time-THE CHRISTMAS PARTY

The Christmas Party was a very festive affair with 66 attending. Smitty, K7ATD, decided there should be a "past-presidents club". The attending past presidents had their pictures taken together.

Bill Rohrer, W7ZFY (KH6IAB), was here from Honolulu. He was on his way to Norway so had to leave early. Here with him was a fellow Coast Guardsman and his parents John & Thelma Rohrer.

I don't believe anyone went hungry as they had a real fine buffet. I'm sure everyone had a fine time.

VERTICAL COLINEAR FOR 2 METERS

This antenna is under test at K7CYZ qth and proving very satisfactory. The 4.5 db gain over a dipole that is claimed is very conservative.

This antenna is easy to construct, and if you bought all the material used, it will cost you about \$6.00. 1/4 O.D. copper tubing was used for the elements. 1"X1"X10' fir was used for the mast. This fir was given three coats of Rez, but any good spar varnish is O.K. The ends of the copper tubing protruding into the mast were tapped for 6/32 bolts and the mast was drilled only 1/2 way through to clear the tubing, then the hole was drilled to clear the 6/32 bolt. This is a very solid and easy way of construction.

The shorting bars on the 19 inch stubs were soldered to the tubing. They were made of 1/4 copper straps.

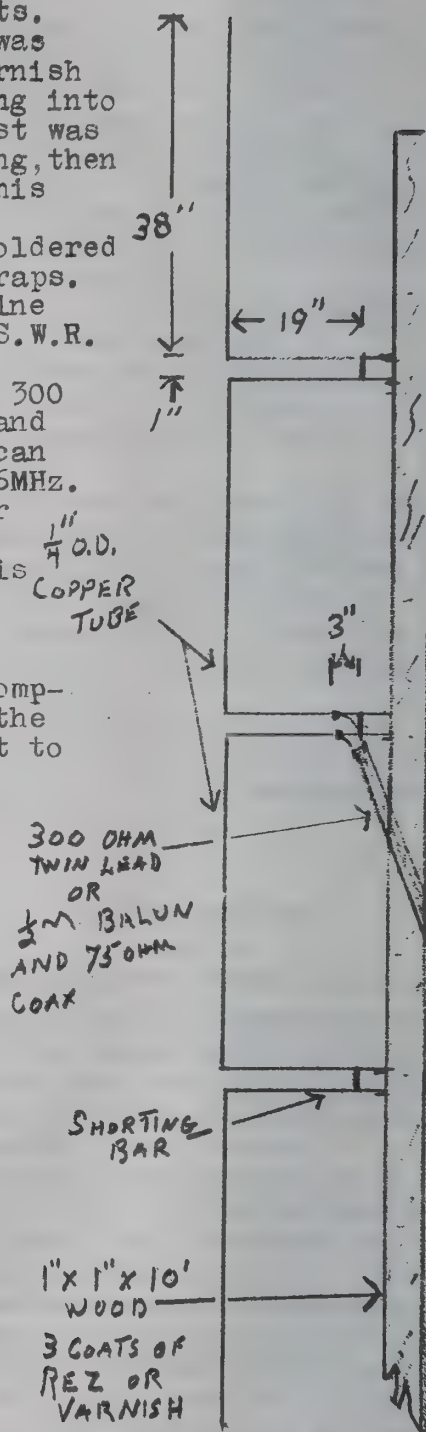

The three inch spacing of the 300 ohm. feedline may change depending upon the construction. A S.W.R. bridge will give you the answer.

The antenna under test is fed with T.V. type 300 ohm twinlead, through a V.H.F. antenna tuner and S.W.R. bridge. Using this method, the antenna can be set to 1.1 to 1 from 145 to 148 MHz. At 146 MHz. it is 1 to 1. But, if you do not have a tuner a 4 to 1 balun can be installed at the antenna and 75ohm. coax can be used for the leadin. This antenna fed in this manner runs 1.3 to 1 at 146.76 MHz.

The lead-in should be brought out 1/2 wave before letting it drop vertically. This was accomplished by bolting a 1/2 x 1 x 38 inch board at the center of the mast and bringing the lead-in out to the end before letting it drop to the shack.

Antenna tuners are more than worth the time to build. Information on them can be found in the A.R.R.L. Antenna book, The Handbook or the V.H.F. book. Build one, you won't be sorry.

Scotty K7CYZ

GAIN = 4.5 DB OVER

10/24/73 MINUTES

The regular meeting of the Radio Club of Tacoma, Inc. was called to order at 8:05 p.m. on October 19, 1973 by President Len Goodwin, WA7HHI, with members present standing and pledging allegiance to the

The minutes were read and approved.

Doc Spike, W7OS, led us in a moment of silence for Herman I. Cahn, W7LGN, who is now a silent

Treasurer's report:

Building Fund, \$228.55
Savings Account, \$722.58
Checking Account, \$135.12

Bill Deatherage, WA7SCN, announced some of the interesting programs which the Club will have in coming weeks.

Ray, WN7WMC, announced that the letters which he and Dennis, W7UBA, prepared concerning the proposed 220 MHz allocation have now been sent to our important officials in Washington, D.C.

Jerry, W7BUN, stressed that this is our last meeting before the Sweepstakes Contest begins. As were given to all the Club members present. We will have to do their share in order to win trophies back.

Don Grant, WA7PIN, will let the Top of the mountain know that we anticipate from 75 to 100 people to attend our Christmas Party.

Thyl, W7WLX, invited us all to come to the Pot Luck Dinner at the Clubhouse at 6:30 p.m., October 26.

Ray, WN7WMC, and his committee gave the clubhouse added floor space after taking a truck load of radio parts, etc. to the Mike & Key Club building. A profit of \$4.80 was realized.

Doc Spike, W7OS, expressed his sincere appreciation for the honors bestowed on him at Homecoming 1973.

Congratulations to Patrick Wells, WN7UWF, who was elected into full membership this evening. There being no further business, the meeting adjourned at 8:50 p.m.

Rather than a program on home brew, we enjoyed a film on how commercial brew of the good variety is made.

Secretary

11/14/73 MINUTES

The regular meeting of the Radio Club of Tacoma, Inc. was called to order at 8:00 p.m. on Nov. 14, 1973 by President Len Goodwin, WA7HHI, with members present standing and pledging allegiance to the flag.

The minutes of the last meeting were not available for reading at this time.

Treasurer's Report:

Checking Account, \$146.00
Savings Account, \$722.58
Building Fund, \$228.55

Bills:

Phone - \$12.74
Utilities - \$27.42
C & G - \$7.35
Prizes - \$3.58

A motion was passed that the bills be paid.

Jerry, W7BUN, reported that 41 members from the Club were on phone for the Sweepstakes Contest. Be sure to turn in your logs to Dennis, W7UBA, or Jerry, W7BUN. Jerry also reminded us to be thinking of nominees for the Ham of the Year Award coming up soon.

The nominating committee for Club Officers is Joe Winter, WA7RWK, Jerry Seligman, W7BUN, Ed Coles, K7CZM, and Chris Jensen, WA7MJK.

Doc, W7OS, received a letter from Bill Hiller, W7QHX. He will be aboard the Coast Guard Cutter Winona and will be looking forward to radio contacts with members from the Club.

Ron Chudy, WN7UQV, announced that the tower hole concrete has been poured and that the base and anchors are installed.

Janet Patjens, WN7WMB, will be taking over the job of collecting articles for the Loggers Bark.

Len, WA7HHI, reminded us all to save Saturday, Dec. 1st for the Club's Christmas Party at the Top of the Ocean.

Congratulations to those who were elected into full membership this evening:

Randy Wells

Arne W. Skoog, WN7WKT

Robert W. Kempter Jr., WN7WJA

There being no further business the meeting was adjourned at 8:46 p.m.

This evening's program consisted of eyeball QSO's which all enjoyed.

Secretary

SLIVERS AND SPLINTERS

That was some decorating job with the pink and blue toilet tissue on Ye Ole Editor's house! Some "clean-up" job, huh, Scotty?

The Hoods, K7NPG and K7NKZ, are off to their winter grounds in Arizona. Should have more details next month after they're settled.

Dick Hazelmyer had his leg in a cast again. Broken knee this time. Better try ballet lessons, Dick.

Scotty finds his new trailer really great while batchin' away from home. Dick, W7RGD, finds his trailer getting smaller by the day. They get that way after a few weeks.

A few of the local club members got together and had a nice weekend at Copalis Beach. Churchwards, Hoods, Rawlings and Chavis's really braved the elements for the 2 day stay. They had all the different weather you could encounter outside of a tornado. Even 2 inches of snow. Churchwards gathered a few pounds of mushrooms while the rest of us caught a cold. Lotsa fun, though.

Tim Blair, WA7FVT, will be moving back to our part of the country in December. His mother just got out of the hospital and is improving, we were informed.

Bill Hiller was contacted by Doc, W7OS, the other night on 14.255 instead of 14.260. If you are going to try to contact him you had better tune around all the frequencies.

Speaking of the Hazelmyer's, daughter Terry Joe was confined to the hospital following Thanksgiving.

Roy Myers, WN7UZL, has a complete novice station for sale: DX 60 transmitter, HR IOB receiver, HG IO VFO, all in good condition. Package deal only, \$135.00. Call Roy at 759-1247.

RCT TO TROUNCE BEARS

By W7BUN

Let's send the **BEARS** (Boeing Employees Amateur Radio Society) into permanent hibernation. sent plans, for the Sweepstakes contest, **MUST** supported by ALL club members. This is the t year of our 5-year contest with the **BEARS**. score is tied and this year's winner keeps the phies forever!!

This is one time, when EVERY member is request- to help our club to his/her maximum capability. can't let "eorge" do it, we mast ALL partici- e.

The Sweepstake Contest committee is contacting members, with quotas for the contest and Jerry UN has contest logs and forms. Prizes will be rded for the **RCT** Members, who surpass their tas by the greatest percentage, in each mode.

REMEMBER - Phone weekend November 10th and h; CW weekend-November 17th and 18th. Please n to stay home and help!

Our club was 5th in the nation last year-a tty good by-product of our local competition | not quite good enough to put the **BEARS** into ervation for the year, so with that little ra effort and the help of ALL members, we CAN d-up this five year plan on **TOP!**

Turn in all logs to the Secretary by the b's meeting night, November 28th..

NEW HONORARY MEMBER TO DK

Picture in next column

It was during Homecoming night, at the RCT, t the members nominated and voted into Honorary e Membership, Winifred (Dow) Williams. Along h this honor, she was also crowned as ecoming Queen for the year.

Winifred does not hold an active call now but the distiction of being one of the first YL's be licensed, West of the Mississippi, back in e days when the Radio Club of Tacoma was being

I crown thee
'HOMECOMING QUEEN 73'

born into existence. Winifred is now living in Alaska. We are happy and fortunate to be able, once more, to list her on our current membership role. Congratulations to Winifred.

COMING PROGRAMS & EVENTS

NOV. 14-Speaker Bob Thurston W7PGY

NOV. 28 -Speaker Rick Schaak K7GGD. Telephone switching.

NEWS RELEASE
By W7UD

October 8

An organizational meeting was called, for the purpose of forming a new public-service amateur radio club.

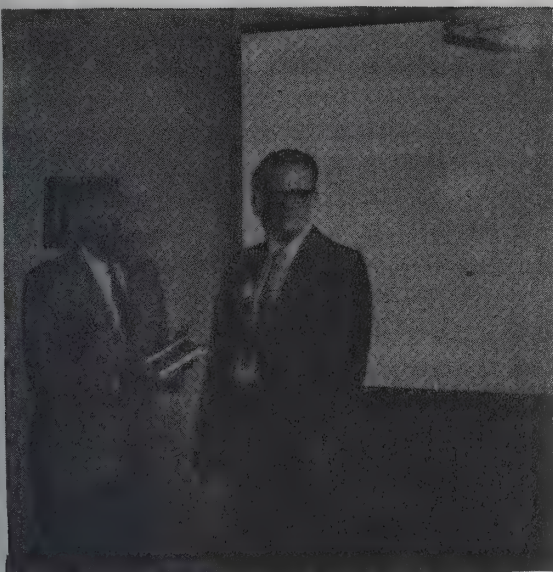

The purpose of the club is to construct and operate a station to handle free messages and phone patches for the overseas and domestic public. A MARS-type station for civilians, primarily, although contact will be established with military outposts as well.

The club is to be sponsored by the Church of God of Prophecy, at 909 Dartmouth in Fircrest, where the meeting will be held at 7:30pm on Tuesday, October 16th. This address is just across the street from Wainwright School, one block South of 19th and South Pearl.

The public is invited to this open meeting, although active membership will be limited to non-smokers holding General Class license or better.

It is interesting to note that Senator Barry Goldwater sponsors a similar station in Arizona.

DURING A FIERY SERMON A PRIEST SHOUTED: 'EVERY ONE IN THIS PARISH IS GOING TO DIE!' WHEN A FELLOW IN THE BACK OF THE ROOM BEGAN LAUGHING, THE PRIEST ASKED, 'WHAT DO YOU FIND SO FUNNY ABOUT THAT?' 'I'M NOT IN THIS PARISH,' THE FELLOW INFORMED HIM.

W7MFG & W7OS
Plaque Presentation

HOMEcoming "73"

By W7WLX

Since Doc W7OS worked so hard to make sure his buddies, from all of the years would be present, the Radio Club thought it a very appropriate time to say "Thanks Doc for all you've done continue to do for W7DK".

Scotty K7CYZ arranged the surprise and got Max and Cliff W7MFG to **LAY-IT-ON W7OS**. They did a marvelous job of giving a run down (or running down) of Doc's accomplishments, through his 58 years of hamming. Slide pictures caricaturized these highlights and Max & Cliff alternated with these events in chronological order.

From a humble beginning of a \$3.00 gift from Dad in 1915, Doc put together his first rig with the help and guidance from Ardis Reeder, Art Nichols, Father Sebastian Ruth and others.

Dwight Mason, Winifred (Dow) Williams and Al also were on hand to verify Doc's stories of the winning days of our club, when they were the officers and "clique" that ran the club. Also present from early days were some that were involved with the National **ARRL** Northwest Convention in Tacoma in 1931 with Doc as Chairman, while he was President of W7DK, the first time. He has been our President five times, 1930, 1931, 1956, 1957 and 1966.

During the '30's he commanded a Naval Reserve Communications unit training many, who stayed on and became career radio operators, when World War II called them to active duty. Bob Gilroy, ex-W7ZY and Roy W7AZI were on hand to recall memories of these busy times.

During the 40's Doc headed the Tacoma Civil Defense Communications and built up an efficient organization with about 500 citizens taking part. Present from that involvement were W7's AEA, AZR,

(cont. next col.)

W7OS & XYL HELEN
Cutting the cake

Homecoming (cont.)

AZI, MFG, NMO, RXS, RGD and MRX.

W7OS saw to it that W7DK kept active and alive even during his very busy years with the Dental Society, Masonic Lodge and Service clubs and served as President in 1956 and 1957. In 1956 he decided the large number of hams of long standing, should form their own chapter of the National Quarter Century Wireless Association and he gathered the interested ones together and they obtained their charter for the Northwest Chapter. Doc has served the offices of this group and is now their representative to the National.

In 1965 he undertook his most ambitious task - compiling a history in word and picture of the Radio Club of Tacoma. He never misses an opportunity to obtain a picture for the album of anyone, who was ever a member of DK and the books containing all of those 8 X 10 photos, are a priceless treasure. Along with this, he has collected museum pieces of ham gear and kept records of each item.

Through the years W7DK members have all appreciated his efforts but in 1971 we presented his accomplishments to the Puget Sound Council of Amateur Radio Clubs and they awarded him the "Ham of the Year" award for 1970.

He has had many other awards and credits throughout his life and we are justly proud of "OUR GOLDEN SPIKE" and hope he can continue to enjoy amateur radio and his fellow hams for many years to come because we all cannot help but benefit from his active interest.....Ethel.

W7OS RECORD DISPLAY BOARD

HOMEcoming LETTER

Friends,
I am not really sure just how much our active membership realizes the tremendous effect of our two (1971 & 1973) Homecomings have meant to all around picture of the Radio Club of Tacoma. Yes, I do know how much work went into the 1971 coming in 1971, for I was deeply involved in planning. I was very happy to see Scotty Wiley K7CYZ, Ethel Devish W7WLX and so many others dig in and I did not know just how they were planning this year's event. It wasn't until I saw Osborne W7MFG asked Helen and me to come up and face you all that I realized the well kept secret, of This is your life, Doc W7OS. As my life was bared and my sins and successes told by the skillful narrations by Max Bice and Cliff W7MFG, I realized how much ham radio and the Radio Club of Tacoma had played in
(cont. next column)

YL'S ATTENDING HOMEcoming

Homecoming Letter (cont.)

such a large part of my life.

7CS 'OUR GOLDEN SPIKE' W7OS

by the RADIO CLUB OF TACOMA

W7DK OCTOBER 10, 1973

and seeing the beautiful pictures of my life and seeing the golden banner displayed on the wall, I knew the feeling of complete humbleness and so much gratification to those who have meant so much to me through-out my 58 years of ham radio,

I hesitated, with deep concern, when asked to introduce those present - for fear that I might omit or leave some out. I knew almost every one with many wonderful memories but time has its way so I keep most of you locked securely in my sacred chest of wonderful memories.

There were several, so highly regarded and so much a part of Homecoming '73". We were all so happy to honor Mrs. Winifred (Dow) Williams 7CB and

7FG of the 1919 era and voting her an Honorary life member. Another highlight of the Homecoming was listening to the tape, sent by C. Ron Plant, G5CP, of England in lieu of his presence. Ron is of the 1927 era. I hope Johnie Mardesich, W7MX and others of that time period, enjoyed the tape. (We have it copied and can re-run it at any time)

No one could possibly appreciate how wonderful it was to see Adm. Robert H. Gilroy, (exW7AZY) of my Naval Reserve days and to have Ardis H. Reeder (ex7GQ) with whom I started my ham radio career, 58 years ago, present.

I can not find words to thank all those, who made Homecoming 73 the greatest experience of my life.

I shall live that night Homecoming 1973, as your Golden Spike ever grateful, loyal and wishing and praying that this, our Radio Club of Tacoma will live on to help others as it has helped me for so many years. Thanks and 73,

/s/ Doc W7OS

(Dr. F.Clifford J. Spike)

WAY NORTH LETTER

Oct. 15, 1973
Route 5 Box 1125
Port Angeles, Wa.

RADIO CLUB OF TACOMA
YLs, XYLs, OMs and OTs,

Thank you very much for the invitation to the Homecoming of the Radio Club of Tacoma, Inc. I was unable to attend but I did appreciate the thought that was expressed by the invitation.

Considerable electro-magnetic radiation has passed over the ionosphere since I last had any real connection with the W7DK bunch but it is good to know that the club is still very much alive and healthy. It seems in this present day and age that too many such organizations have grown stagnant and fallen by the wayside.

I'd like to expressly pass along best wishes to RGD, AZI, AZR, NIL, RXS, RXT and RMD should any one have connections with her---ex OVW. Also to Cliff Osborne and the gang at "Cheat-em and Gloat" and anyone else still around the bunch from the early "50s" and invite anyone, who may be interested, to sked with me from approximately November 20 to December 14th at around 0100GMT, either on 14.280 or 14.260 (One sked to Port Angeles and the other to Seattle) while I am floating around the area of 30 deg. North Latitude, 140 Deg. West Longitude---Ocean Station November---on the Coast Guard Cutter, WINONA, from here in Port Angeles.

Again, Many thanks and

very 73

/s/

Bill Hiller, W7QPX

YESTERDAY I PAID 80 CENTS FOR A DOZEN OF EGGS. NOWADAYS WHEN CHICKENS SAY 'CLUCK!', I THINK THEY MEAN US!!

7CB
WINIFRED'S RIG EARLY 1900'S

CHRISTMAS PARTY

The Radio Club of Tacoma, Christmas Party, will be held December 1st at the Top-of-the-Ocean. It will not be necessary to make a reservation, to attend but if you intend to be there, please notify Don Grant, WA7PIN, so that he can give an estimation to the "Top". Don's phone number is LO 4-4508 and will be there evenings to take calls except on Tuesday and Thursday nights.

Cocktail time is 6:30 pm and the buffet dinner will start at 7:00pm. After the dinner you may dance to the music of Louie Grenier's band. See you in the Stern Room, Top of the Ocean on December 1st..

LEAVING FOR AWHILE

By K7CYZ

Sorry, but my work calls me to the North part of the State, for several months.

Margie Chavis, K7AMJ, the first editor of the Loggers Bark, has agreed to take over as Editor in my absence.

I will get articles from the area and forward them to her for publication.

So far, I have only 2 meters in my trailer but will have other bands later. I will pass on information on the amateur activities from the Bellingham, Mount Vernon, Anacortes, etc. every month.

Thanks to Margie and I know she will do her usual good job.

.....Scotty

During the last meeting of October, the club started out on a new meeting event. A drawing was held for prizes donated to the club. This will be a regular event, each meeting night, from now on. An ARRL handbook, ARRL antenna handbook and packages of goodie radio parts were drawn for four happy members went home with their prizes. Remember, if you have some item you would like donate to the club for the drawings, contact Vice President, Bill WA7SCN and he will make arrangements.

AUXILIARY NEWS

By W7WLX

Due to regular meeting date coming on the eve of Thanksgiving, we have moved the meeting up one night and will meet at the clubhouse on Tuesday, November 20.

Sandy Chudy is arranging an active program of cupage so bring that cute picture of verse and like to permanently mount and we can make it fun and learn while doing.

At the October meeting, Amy Ahlstrom took us on a cruise to the West Indies by film, before the business meeting. We decided to try for the Community Club Award, sponsored by KJR and we will use everyone's help, in saving points for this. You should be called by the cash calls, made every day, you can receive your own award of an additional \$500.00 for the Auxiliary if, called, you tell them you are a CCA member of the Radio Club of Tacoma Auxiliary. This information has to be volunteered. They are counting on you to forget in your excitement of being called - if one of us is lucky, I hope we can re-enter the club too.

Points are earned by saving lots of items, and what they are; Pay-n-Save and Lucky Stores cash register receipts; labels from Pedersen Fryers; decent products (spices, gravies, sauces etc.); Why Bar-S; U & I sugar with poundage markings; Wyndwood bread wrappers; Heidelberg beer caps, beer bottles; Pepsi-Cola caps and 6-pack folders and many more that will be listed later. In the meantime, toss these items in the same container, with the MJB tops and labels.....Ethel

ARRL NEWS IN BRIEF

By W7BUN

October 15th was the first anniversary of the launch of OSCAR 6, the world's first long life amateur satellite. Over 1500 stations in all states and at least 70 countries have communicated through OSCAR 6 and three operators have worked the States using the satellite. ARRL congratulates AMSAT and affirms its continued support of the amateur satellite program.

Reciprocal operating privileges are now available to U.S. and Canadian amateurs visiting the mark. Contact ARRL for details.

(cont. next column)

It is planned to have a program on amateur radio at the IEEE Convention in New York, in March. Doug DeMaw will act as the manager and the accent will be on space communications.

The eventual impact, on the League, of the economic picture is uncertain but serious. A 10% postage increase in September was expected but now a series of postal increases is planned by the postal organization. The price of paper is scheduled to rise 25% in December, which could raise the cost of ARRL publications by \$40,000.00 per year. League officials are reluctant to use a cheaper grade of paper, especially for QST, since the eventual yellowing would detract from the historical value of the journal.

The Executive Committee met September 29th in Hyannis, Mass. and voted affiliation to 11 radio societies, granted life membership to 225 applicants and voted in favor of a 5 band WAC Certificate.

A poll of the officials and appointees in the Communications Department, showed the following results. Make Conditional Class licensees eligible for OO appointment - opposed. Make Technician Class licensees eligible for OO - opposed. Reduce or eliminate 4-year experience requirement for OO's - opposed. Raise measuring ability requirements for Class I and II OO's - affirmative. Make Novice Class licensees eligible for ORS appointment - opinion divided. Combine ORS and OPS into OTS and create a new repeater appointment - opposed. Change terms of appointments from one to two years - affirmative. Restrict CD Parties to SCM and SCM appointees only - opposed. New Q (QN) signal to indicate partial break-in - opposed. Changes needed in ARRL ending signals - opposed. CW exclamation point needed - opposed. New ARL texts needed - affirmative for adding texts for Mother's Day, Father's Day, General Holidays and General congratulations. Include traffic count as factor in PSHR and eliminate BPL - opposed. Change name of BPL to cover any mode - opposed. Make PSHR achievement more difficult - affirmative. Space lines for message text on ARRL Message forms - opinion divided. Add line for telephone number on ARRL message form - affirmative.

In Remembrance

HERMAN I. CAHN
W7LGN

Herman was born January 26th, 1906 in Fairbanks, Alaska. He had been a resident of Tacoma for 40 years and had Cahn's Jewelry store on 13th and Broadway for many years, retiring just a few years ago.

Herman first joined the Radio Club of Tacoma in February of 1948 and although not a "club person", he could always be counted upon to take part in any radio service. He took an active part in the Tacoma Civil Defense Communications during the 50's. He recently became eligible to join the Quarter Century Wireless Association and enjoyed checking into their nets regularly and attending their section dinners.

He attended the Homecoming '71 and was looking forward to this year's Homecoming but an attack on Saturday, October 13th was too much for his heart and he died as a result of that attack.

He is survived by his wife Reba, who had been a life-long companion and wife for 43 years, their only child, Dorothy Suzanne Quinlan of Concord, California and three Grandchildren. Herman and Reba spent their childhood years together in Seattle and he was laid to rest in the Hills of Eternity Mausoleum, following services in Arthur Wright funeral home, in Seattle on Monday, October 15, 1973.

Many of the club members, who did business with Herman, found him to be very generous with discounts to fellow hams and he had a sincere attachment for all those he met on the air and welcomed them to come to the store and let him take them for coffee to get to know them better. All who knew him, knew he would be a good friend for life.

We of the Radio Club extend our sympathy to Reba and family.

...Roy W7AZI

ASTRONOMERS GET READY

By K7CYZ

This winter will be one to remember for not the amateur astronomers but for all of us. comet Kohoutek will give us the display spectacular of the century, Starting around the 1st of November, the comet will appear near the horizon, in the Southeast 2 to 3 hours before sunrise. You will need a telescope or good binoculars to see it. Near the middle of November you will be able to see the comet with the naked eye still near the Southeast horizon 2 1/2 hours before sunrise until the sun blinds you.

During the latter part of December until the middle of February, the comet will appear from the Northwest to high above the Western horizon, still visible to the naked eye, early in the evening until twilight ends. After February 15th you will need the binoculars or telescope again and Kohoutek will be low, near the Western horizon.

For the camera buffs, around January 4th Kohoutek will be as bright as magnitude 4 or 5. (as 4 and Jupiter 2) as two brilliant objects. Use a tripod, set lens wide open and infinity. Expose for several seconds. (Exposures longer than one minute will be badly distorted)

A word to the wise; don't look directly into the sun with binoculars or telescopes or with the naked eye (even with colored or smoked glasses). Permanent eye damage may result.

This is a once-in-a-lifetime spectacular, don't miss it.

BOARD MEETING 9/5/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma, was called to order at 8:00pm on September 5, 1973 by President, Len Klum, WA7HHL.

Treasurer's report:

Checking account	\$856.01
Savings account	269.21
Building fund	216.82

Letters of appreciation will be written to Hal Hutton and Rush Drake, who were guest speakers at the HamFair. A letter will also be written to the Park Board, who furnished the chairs.

Don Grant, WA7PIN, reported that all the surplus communications vans available for clubs, have been only junk. Don will keep looking for a better one.

After discussion, it was decided that a list of available ham radio courses, in the area, should be made for distribution at our exhibit at the Western Washington Fair.

Jerry W7BUN is now in the process of getting supplies and equipment for our fair exhibit. Volunteers will be needed to help set-up the exhibit and the antennas. Jerry will take time, between the next regular meeting, to give an orientation to those who will be working at the (cont. next page)

Board (cont.)

fair booth.

Joe WA7RWK suggested that we be on the look-out for chairs for the club house. He also reminded us of the need to paint the exterior of the club house.

Doc W7OS announced that Homecoming is just a month away. Scotty K7CYZ has been working on addressing invitations for this event.

Dennis W7UBA said that we will need to be planning for Sweepstakes. This contest is very important to the club this year.

There being no further business, the meeting was adjourned at 9:50pm.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (sect)

CLUB MINUTES 9/26/73

The regular meeting of the Radio Club of Tacoma was called to order on September 26, 1973 at 8:05pm by President Len Goodwin, WA7HHL, with members and guests present standing and pledging allegiance to the flag.

The minutes of the previous meeting were read and **APPROVED** as corrected.

Doc W7OS led us in a moment of silence for Don Klum, WA7AFO and Leon Jacobsen, W7WOF, former members of our club, who are now "Silent Keys".

Treasurer's report:

Building fund	\$228.55
Savings account	722.58
Checking account	309.77

Bills:

Telephone	\$12.74
Postage	1.04
Homecoming exp.	13.49
Desk rental	5.00
Oil	22.12

A Motion was **PASSED** that the bills be paid.

Jerry W7BUN reported that 317 messages were sent from our Fair exhibit and the 377 visiting hams signed the guest book. We have also received approval to have the exhibit again next year.

Jerry also read the letter, which he and Chris WA7MJK, compiled for sending to the FCC. This letter represents the club's view in opposition to the proposed 220MHz allocation. (ED'S NOTE: Letter printed in last month's issue of Bark) Rick K7GGD has also sent in letters for those members, who arranged for this during the last meeting.

Scotty K7CYZ reported that Homecoming plans are (Cont. next page)

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

progressing smoothly. Cliff Osborne, W7MFG, will be the M.C. and Max Bice, W7AEA, will be a featured speaker. Club members volunteered to help clean up the club house for Homecoming night.

Doc W7OS announced that a photographer and a reporter from the TNT will be here on Homecoming night. Doc also confirmed that Winifred (Dow) Williams, a member of our club in 1917, will be a featured guest.

Don Grant, WA7PIN, announced that our annual Christmas Party will be at the Top-of-the-Ocean on December 1st at 6:30pm..

Ethel W7WLX invited us all to the Potluck, to be held at our clubhouse on October 26th at 6:30pm

Cheers and sighs of relief followed the announcement by Ron Chudy, WN7UQV, that the tower hole is now complete!

A Motion, Tabled from last meeting, concerning disconnecting the telephone was defeated. This action was followed by a Motion to refer the entire telephone matter to the Board of Directors. This motion was **PASSED**.

It was Moved, Seconded and **PASSED** that the club will have a door prize at future meetings. Bill WA7SCN will be in charge of the event.

The Sweepstakes Committee encouraged all present, to get their equipment and contest skills ready.

Jerry W7BUN announced that Bruce Vanderhoff offered our radio club some free space at the Broadway Plaza for an amateur radio display.

It was Moved, Seconded and **PASSED** that the club purchase the antennas, coax and associated hardware used for the Fair exhibit antenna set-up. This will enable us to leave the antennas in place rather than take them down after each fair week.

Congratulations to Arthur E. Hoppe, who was elected into full membership at the meeting.

There being no further business, the meeting was adjourned at 9:15pm. We then enjoyed a film on computers, compliments of Dick Hazelmyer.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (secre.)

SPLINTERS & SPLINTERS

It was sure great to see the wonderful turn-out for Homecoming '73'. Lots of old and new faces were seen from all eras of the RCT's history. The club owes a big thank you to Max W7AEA, Cliff W7MFG and Scotty K7CYZ for making it the great event that it was. Not to be slighted, were the many others, who worked in the background to make things work out right.

Merl W7IKG getting ready to crystal up to get on the 2 fm band. Has the equipment ready to fire up.

(Cont. next column)

Bob and Inez (W7FSS & W7RXT) off on a week-end camp-out at Ft. Warden. One tire blew out on the Narrows bridge. Didn't want to stop on the bridge so continued on to the end of the bridge. Anyone want one shredded tire? Bob would probably sell it cheap.

Bob Gates Jr., K7INE, trying to get together with dad K7IND on the WARTS Net but it seems INE's working hours don't 'jive' with son's hours.

Ralph W7COP back on his feet after a bad back session. Getting ready for SS.

Dennis W7UBA noticed by his absence from meetings and Homecoming. Seems he is doing his civic duty by serving on jury duty. Hung anyone lately Dennis?

Dick W7RGD has a new 2fm rig and 2 meter beam. Getting ready to get the beam up, where it can do some good.

Mac W7FAB has a new 22 element beam up and operating with it. Has been working over the mountain into Yakima, with it.

Speaking of working Yakima, has anyone worked through the new East/West repeater near Wenatchee yet?

Jerry W7BUN busy contacting all club members to let them know we need their help on the SS contest. He went to all the trouble of checking past SS contest entries and figuring out a quota for contacts by each member's entry from past years. If everyone meets or betters their quota, the **BEARS** will feel the 'might' of DK. How about it? Are you going to walk that extra mile for DK?

Rene Smith has signed up to bowl on the radio club's bowling team again. Seems she will have a little time for relaxation, now that Grandson Jerry has passed the critical period of his recovery from the tragic auto accident this summer. We of the RCT, have been pulling for Jerry and it seems prayers are answered.

Both the Editor and Publisher of the Logger Bark have new jobs and will be absent from their home QTH's. the biggest part of the time. Luckily Margie K7AMJ and Janet WN7WMB have volunteered to help both Scotty K7CYZ and Dick W7RGD with the work load that goes into the Loggers Bark. A big thanks to both. The work that goes into the Bark is not hard but very time consuming.

See you on the bands, during Sweepstakes. He is wishing you lots of contacts. **BEARS**, prepare for the long hibernation!!

LATE FLASH AS WE GO TO PRESS !!

The Radio Club of Tacoma has placed 6th in the total scores of Field Day. Also the club was number one in it's 13 class group. Now if we can apply the now-how to Sweepstakes!!! How about it??

OCTOBER 1973

HOME COMING

HAMFAIR 73

Home coming time is upon us! October 10th is tonight, the club house is the place. Don't miss this grand meeting. We have a big program planned. Max Bice, W7AEA, Cliff Osborne, W7MFG, are the guest speakers. M.C..

Come and meet your old friends and have an eye-ful QSO with some of the old timers, who originated the Radio Club of Tacoma. This will give you the opportunity to meet some of the newer members, also.

The Ladies Auxiliary has promised to have some tid-bits and plenty of coffee.

Some of you may remember Winifred Dow Williams. She is presently in Alaska and promises to be at the meeting. Winifred will be visiting the Tacoma area and will attend the Home Coming. It is not necessary to be a club member to attend. Everyone is welcome, just don't miss this

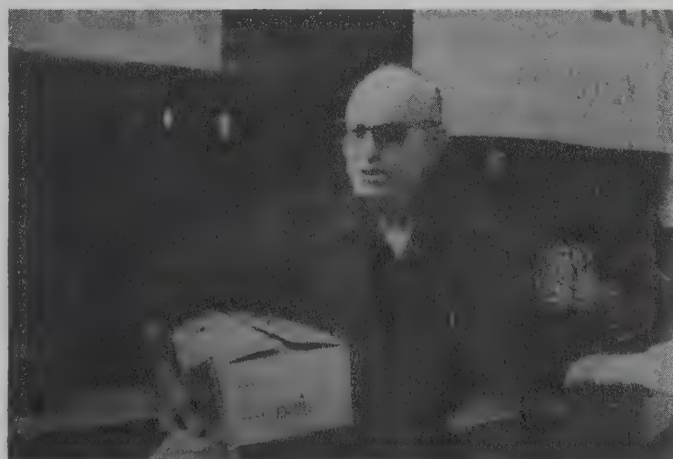

Remember, October 10th at the RCT club house, 9 South Washington.Scotty K7CYZ

CHRISTMAS PARTY PLANS

The club voted and agreed on the date and location for this year's Christmas party, during the next meeting of September. It was the consensus of opinion that a reservation should be made after the party to hold it at the same location next year. It seems that reservations have to be made at least a year in advance if you want a reservation for a weekend date.

The party will be at the Top-of-the-Ocean on September 1. The "Happy-Hour" will commence at 7:00pm. (Buffet style) We will have the back room to our selves

PUYALLUP FAIR

By W7BUN

The Western Washington Fair (Puyallup) was a great publicity success again this year.

While fair attendance was up, over last year, and interest in our display was as great as ever, our message count was only 317. (We had over 500 last year) 377 visiting hams signed our guest book, including 46 novices, 7 ex-hams, 5 DX calls and 23 U.S., other than the 7th call area.

My sincere thanks to all, who helped in this most rewarding project.

Jerry, W7BUN

SWEEPSTAKES

The R.C.T. is preparing for a big Sweepstake contest this November 10th. This is the contest that counts on the trophies, that the BEARS NO hold. If they win this year, we have lost the trophy for all time. So keep this in mind and prepare to get in this and win the trophies for our club.

We will have a full report on this in the November Loggers Bark.

YOU THINK YOU HAVE THINGS BAD? CONSIDER A RE

JOE W7IG - DOC W7OS

PRESENTATION

Every year the Radio Club of Tacoma meets at Asplund's, W7IG, chicken ranch and airstrip field day. This year, the Club presented to a set of 1973 call books in appreciation of hospitality.

The above picture was taken, after the dinner, the R.C.T. Hamfair. On the left holding the books, is Joe W7IG, with Doc W7OS making the presentation.

WILEY CREEK CAMPOUT

By N7CYZ

The camp-out is over for one more year and it was as usual. We had a very good turn out at this year. There were eight trailers, plus people in the bunk house. Everyone seemed to enjoy themselves and no complaints about the food. The weather was the best that we have ever had. The river was down and the fish were scarce. Next year will be just as big, so don't forget to plan for this get-together NOW so that you don't miss a grand time. Keep your hiking shoes oiled and your trail bike greased because you

(cont. next column)

K7CYZ, BARK EDITOR DOING SOME BARKING

Campout (concl.)

will need them. Plan to bring the fishing pole and maybe we will have more rain next summer and the river will be better.

See you there, next year.....Scotty

POTLUCK

The Ladies' Auxiliary has scheduled the Fall Potluck Supper for Friday, October 26th at 6:30pm at the club house - 1249 South Washington.

We hope everyone will mark their kitchen calendar for this event and come and enjoy an evening together. The children are welcome. Bring a hot dish, salad or dessert (big eaters you know) and we will have a grand spread.

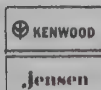

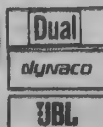

We will collect \$1.00 per family, which will fit everyone's budget.

The cake walk was lots of fun last year and we will try to do that again. Naturally we will need some cakes for this but the more cakes there are the better your chances of taking one home.

WALLA WALLA HAMFEST
By K7AMJ

W7rgd print

I would like to congratulate W7DP on their very nice Hamfest. The crowd at the pot-luck was well over 300.

Got to meet a lot of nice hams there. With the large crowd there, there still was plenty of food go around for everyone. Even with Mary W7QGP first in line, there was food left for the last-in liners.

No great prizes were won by the DK people but we will be there again next year to try.

Thanks again to W7DP, for the very nice time.

AUXILIARY NEWS
By W7WLX

The October meeting, of the Auxiliary, will be October 17th at the club house. Come at 7 if you want to play cards before the meeting.

Amy will have a film of the South Pacific or some other exotic place to go, for our program segment. We welcomed Marge Hazelmeyer back, by making her co/hostess for this meeting. All heart!

The September meeting at Amy Ahlstrom's was lots of fun and I'm sure she thought we all came without eating supper, first. It is a long drive to Federal Way, Amy! I'm sure she knows we enjoyed her refreshments.

At this meeting we planned the Pot-luck for October 26th (notice elsewhere in Bark) and we urge each lady to bring a cake for the Cakewalk.

Since we can't legally play BINGO, we will charge \$1.00 per family, in addition to the hot dish, salad or dessert you may bring, to make an adequate spread for all of our hungry people.

We all look forward to these potlucks and we hope you will all plan to come.....Ethel

EVERYBODY SMILE!

WSN NOTE
By W7BUN

The Washington Section Net (WSN) needs a representative from Tacoma to check-in and pick-up traffic.

The net meets on 3590KHz at 6:45 pm (local time) daily, with a code speed of around 18wpm.

Also, for those whose speed is not quite up to 18. Northwest Slow-speed Net (NSN) meets on 3700KHz at 7pm..

VISITOR FROM WASHINGTON D.C.

Thursday, September 20th., Tacoma had a visitor from the FCC. Commissioner Benjamin Hooks gave a talk to the radio and television workers in the Puget Sound area. Mr. Hooks theme was "Common Carriers and Competition". He will return to the Tacoma area, in the near future and meet with others, interested in radio and communication other than the commercial radio people.

P.S.C.A.R.C. NEWS
W7BUN RCT delegate

The Thurston County Amateur Radio Breakfast was voted in to Council membership.

The Council picnic at Lincoln Park, Seattle August 26th was a great success, with participation by many member clubs.

The Council sponsored resistor hunt, at the RCT Hamfair 73, had good participation with several nice prizes purchased by the Council.

58 Years (cont.)

in Tacoma". It was a real privilege to hear from this quiet man who has been right in the middle of the "hams" here in his own home town since before World War I. With time out to go through dental college, he has been active all this time. To his credit are three call letters with the final one, W7OS having a continuity since right after WW-1. It was easy to see that he could have talked to us all night without running out of the string of facts and items that make up the local and national scene of the radio amateur. In the limited time available he did tell us that he was only one of some half million in this nation alone and way over a million in the world. This is a group to be reckoned with. It is a group of un-official scientists and technicians that form a ready made backlog to supply the man-power for many of the technical branches of the service in time of war. They are, during peace-time, a ready made network for communications that have stepped in so many times and filled a gap that existing facilities were unable to cope with. Even though their hobby is self-serving in one sense, it still has its own special potential for critical community and national services.

With so many virtues to it's credit, it is not surprising that he should be inclined to "lobby for his hobby" in a big way. One big point that he made was regarding the local Radio Club of Tacoma. Will you believe it, this group is rated the earliest, (oldest) such organization in the world. In recent years they have been conducting a research campaign into their local history, along with a continuing project of a museum of old equipment. The results are very creditable. We saw a few samples of this world in memorabilia and ancient devices. Many thanks to Irv Friese for this very specialized and interesting program. It is only fitting that we should be in the mood of

ARRL NEWS IN BRIEF

By W7EUN

FCC indefinitely extended the licenses of repeaters, licensed prior to October 17, 1972, provided an application for re-newal under the new rules has been filed, prior to August 30, 1973 and the station is operating in accordance with the rules set forth in Docket 18803.

FCC has extended the time for filing comments and replies in Docket 19759, Class E citizens band for 30 days. If you haven't submitted a petition to FCC, be sure to do so before October 20th.

Germany has been deleted from the ARRL countries list and the Federal Republic of Germany and the German Democratic Republic are added, effective September 18th., 1973.

On September 19th., Don Mix, W1TS, retired Assistant Technical Editor of QST, passed away. 50 years ago he made communications history from WNP (Wireless North Pole) by keeping the polar expedition in touch with civilization, through amateur radio.

ARRL has petitioned FCC to seek a second chance, without additional payment of the fee, for applicants who fail the code test the first time. The Puget Sound Council of Amateur Radio Clubs filed a similar petition two years ago but no action has ever been taken by FCC.

License manuals will be in short supply, during October and November, due to the paper shortage.

WA7LZL has petitioned FCC to permit high-seas amateur operation in 3500-3800 and 7100-7300KHz., in addition to presently allocated subbands. (RM-2243)

The radio committee of the Motor Vehicle Manufacturers Association is studying what effect vehicular impulse noise has on radio receiving equipment. ARRL will participate in the study.

A set of supplementary instructions and worksheets are being made available by FCC for those applying for repeater licenses. (See W7EUN if you need a copy)

FCC has a telephone recording service, giving highlights of Commission actions for public information. Updates are made shortly after 11am and 3pm. The number is (202) 632-0002.

FCC has been using new examinations, covering element 3 for the Conditional-Technician. New revised General class tests will be in use shortly. Elements 4 (A) for the Advanced class and 4 (B) for the Extra class are now undergoing revision.

In an effort to improve occupancy of 10 meters the ARRL will sponsor a new 10 meter contest during the week-end of December 15th and 16th. This activity is open to all amateurs, world wide. Full rules will appear in the November issue of QST.

BOARD MINUTES 8/1/73

The regular Board meeting was opened at the RC at the club house on August 1, 1973.

Confirmation of the dates for the Radio Club of Tacoma for HamFair, August 18 and 19th.

A letter received from a Mrs. Gran Smith, inquiring about a search group. K7CYZ reported not being able to contact her, as yet.

The fishing derby was reported on by Scott K7CYZ. Set for Sunday, August 5th with alk, set to go. Dick W7RGD had to cancel his reservation but he felt that the vacancy would be filled with no trouble.

A visitor to the board meeting was Mr. Samuel A. Steere Jr. WA7TVT. He is a retired air-force and part time instructor at a Junior College, nearby. He did not know this was a board meeting but had a few technical questions. He was invited to attend and also attend the regular meeting.

It was suggested we have a first aid instruction course and set it up as a program for the membership.

Scotty K7CYZ reported an emergency call he had made on 146.76MHz while at the scene of a head-on collision accident. He was able to get police and ambulance immediately. "One for ham radio".

Discussion on the emergency activity of the RC

Scotty K7CYZ reported on the limited hydro-boating races, with several clubs of the Puget Sound area participating for the "American Outboard Association" on the week-end of July 28 and 29. This was arranged by Dwayne K7KSZ and others. High praise for the job was given and plans for next year are cooking. There were 26 mobile stations and fixed stations, using the call of W7LAW for the base station.

Doc W7OS reported on the Pierce County library

WEEKDAYS 11AM. TO 9PM.

SATURDAY 10AM. TO 7PM.

work shop set up for August 9th, 10th and 11th. Margie Thomas, librarian. Craig WA7HTN and WA7IVO will act for the RCT at the County grounds, near Roy.

Doc W7OS reported on the gift for Joe W7IG. A key had been made and it has been recommended that we give him a US and foreign Amateur Call sign. Estimated the cost at \$16.00.

Doc W7OS reported on the very successful museum display at the Tacoma Mall on July 25th thru the 31st. The memberships of the RCT and the Q&WA did a wonderful job of helping man the booth. A report will appear in the Loggers Bark in September.

A discussion, reference the telephone bill, was held by Joe WA7RWK, our Treasurer. He reported that about \$150.00 was spent on the service last month. Dr. Spike reminded us that for a good many years, we kept a monitor on 29.6MHz. during the evenings. If we re-activated some frequency and had a watch as we used to, we could eliminate the expense, with the accompanying cost. The discussion was terminated and the discussion would be taken up at the regular club meeting for any determination. An important discussion was held, reference a work order to finish the work on the hole for the tower. In its present condition, is very dangerous.

Doc W7OS returned the receiver and speaker (nos 60 and 61) taken from the museum items. He urged the finish of the up-stairs museum room before Homecoming night, October 10th. Scotty K7CYZ announced plans for a committee meeting for mailing and addressing letters for the Homecoming. It is only 2 months away.

Dennis W7UBA, committee chairman for HamFair, was not present for a report.

Respectfully submitted,

/s/

Doc Spike W7OS

(acting Secretary)

CKUB MINUTES 8/22/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:10PM., August 22, 1973 by President Len Goodwin, WA7HHI, with members and guests present standing and pledging allegiance to the flag.

Treasurer's report:

Building fund	\$216.82
Savings account	269.21

Some bills for Hamfair expenses were presented this time.

Doc W7AZI reported a profit of \$66.00 from the fairer's breakfast. Also reported was a profit of \$23 from equipment sales at the HamFair.

Jerry W7BUN will need help on September 8th to set up our booth at the Puyallup Fair. There will be an orientation meeting at the next regular meeting for those who are going to work in the Fair booth.

(cont. next column)

meeting for those who are going to work in the Fair booth.

Scotty K7CYZ reminded us of the Club's camping activity scheduled for September 8th and 9th.

Jerry W7BUN reported on the overall success of this year's HamFair. The county fair grounds has already been reserved for the same time next year. Jerry announced that the deadline for filing reports to the FCC regarding C.B. on 220 MHz. is September 20th. Jerry also reminded us that the Puget Sound Council picnic for its member clubs, will be on August 26th at 2pm at Lincoln Park.

It was Moved, Seconded and PASSED that the Club write a letter to the FCC against the allocation of 220MHz frequencies to the Citizen Band.

Doc W7OS reported on a letter from Winifred Dow Williams, one of our pioneer members. She will try to be at our Homecoming this year.

Scotty K7CYZ and others on the Homecoming committee, will be meeting on August 28th., to verify addresses for invitations to Homecoming.

Jerry W7BUN is open for suggestions and ideas on where to have this year's Christmas Party.

Bill Morgan W7GPR and Clarence McDaniel W7FAB were voted into full membership this evening.

There being no further business, the meeting was adjourned at 9:00pm..

We then enjoyed an interesting and informative demonstration of auto-patch by W7UD.

Respectfully submitted,

/s/

Chris Jensen WA7MJK (sect.)

CLUB MINUTES 9/12/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:10pm on September 12, 1973 by President Len Goodwin WA7HHI with members and guests present standing and pledging allegiance to the flag.

Treasurer's report:

Building fund	\$216.82
Savings account	269.21
Checking account	816.85

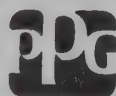

Bills:

Utilities	\$25.50
Exhibit supplies	.79
	2.84

Jerry W7BUN described our Fair exhibit and gave an orientation for those who would be working at the exhibit.

Scotty K7CYZ reported on the fun and success of the fair.

Remembrance

DONALD E. KLUMB

EX/W7AFO

Don was born July 22, 1909 in Aurora, Nebraska and lived in Tacoma 55 years.

He will be remembered as a tall handsome lad, who joined the Radio Club in about May, 1927, when we were so active in building our new Radio Club house on South Oaks and his name appears regularly in the log books and roll call books to operate W7DK. Don was always very interested in CW operating and even in these last few years, enjoyed listening to 20 meters CW. He was active until September, 1931.

Don, has through the years, been employed by the Bell Telephone system, having been plant staff supervisor in Seattle and responsible for the personell serving the Washington and Idaho departments. He served in the Tacoma, Longview and Seattle areas.

Don was a member of the Marine View Presbyterian Church, where he was an Elder. He also belonged to the Tacoma Mountaineers Club, The Telephone Pioneers and the Radio Club of Tacoma.

He attended our Homecoming of the Radio Club in 1971 and was planning to attend our upcoming Homecoming, to be held October 10th.

His picture can be located in the Northwestern Division ARRL Convention in 1931, held at the Tacoma Hotel.

Don passed away August 22 and is survived by his wife, Francis, a daughter Karen R. of California and a brother John J. of Sacramento California.

Memorial services were held August 27th at the Marine View Presbyterian Church in Dash Point.

We of the Radio Club of Tacoma, extend our sympathy to Francis and family.

Doc W7OS /HON Member

Before the
FEDERAL COMMUNICATIONS COMMISSION
Washington, D.C. 20554

in the Matter of

the creation of a new class of Citizens
Radio Service and the reallocation of
frequencies between 224 MHz and 225 MHz
in the band 220 - 225 MHz now allocated
for shared use by stations in the Amateur
Radio Service and Government Radiolocation
stations for that purpose.

Docket No. 19759

RM-1633, RM-1656, RM-1747,
RM-1761, RM-1793, RM-1841

to: The Commission.

PETITION OF OPPOSITION TO CREATION OF A CLASS E CITIZENS RADIO SERVICE

The Radio Club of Tacoma, Inc., representing 146 amateur radio operators in the Tacoma, Washington, area, opposes the Commission's proposal to expand the Citizens Radio Service.

In support whereof, the following is respectfully submitted.

1. The Commission, in its proposal, has not established an unquestionable need for the assignment of additional radio spectrum to the Citizens Radio Service. The Commission, by law, is charged with the responsibility of insuring the efficient management of radio frequencies as a valuable public resource, but has failed to sufficiently enforce the proper use of the 27 MHz Class D Citizens Radio Service. In this area of the United States, and presumably in most other areas, a very large percentage of operation on that band is illegal. An incredible amount of unlicensed and otherwise unlawful activity seriously limits the availability of frequencies for legal communications. If these abuses were stopped by strong enforcement, the legitimate licensed CB operator could more effectively use the presently allocated channels as intended by the Commission. Only after such a step has been taken, and a survey of the spectrum needs of the legal users of this band has been made, can the Commission conceivably justify any frequency expansion in the Citizens Radio Service.

2. The creation of a Class E Service would jeopardize licensed operations of other services on adjacent frequencies. Due to the availability of reasonably priced communications equipment with variable frequency capability, unauthorized operation on frequencies other than those allocated for Class D usage is presently very common. There is no reason to believe that operators using the proposed Class E Service would behave any differently than those using the existing 27 MHz allocation. With the insufficient manpower of the Commission, and the lack of communications technology for proper enforcement, there appears to be no means to effectively prevent illegal use of adjoining frequency bands which include frequencies used for public interest and safety.

3. The Commission in its Notice of Proposed Rule Making has conceded there is an area of conflict with present international frequency allocations. It is incredible that the Commission would propose new rules in violation of the International Table of Frequency Allocations without having first resolved such an issue. We feel that this is a matter of enough international importance to warrant a formal Conference of VHF Frequency Allocations by the International Telecommunications Union.

Wherefore, the above points considered, and in the interest of the most efficient use of the radio spectrum, the Commission is respectfully requested not to implement the creation of a Class E Citizens Radio Service.

Respectfully submitted,
THE RADIO CLUB OF TACOMA, INC.

the recent club camp out. Scotty also announced that the Homecoming invitations will be sent out soon.

Bill Deatherage, WA7SCN, described some of the future club programs.

Doc W7OS showed us some of the new pictures of members he has recently added to the club's albums.

Jerry W7EUN announced that the Governor's Certificate will again be available this year. See Jerry for details.

The annual Christmas Party will be held at the Top of the Ocean this year. Don Grant, WA7PIN, will make the arrangements.

Dennis W7UBA reminded us that the Sweepstakes contest will soon be here. This is our last chance to win the trophies back from the BEARS. Also the "hole" digging committee will meet at the club house next Saturday to finish their project.

It was Moved and Seconded that the telephone in the club house be removed. However, during the discussiin, it was decided that some form of emergency communication should be set up to take the place of the telephone before it is disconnected. The motion was **TABLED** until the next meeting.

Ron Chudy, WN7UQV, has volunteered to construct a wheelchair ramp for the club house entrance.

Dick K7GGD has volunteered to send in letters to the FCC against the 220MHz proposal for any member who is interested.

Dennis W7UBA pointed out that we will need to be considering a source for a new furnace for the club house. The present one is near its end.

Len WA7HHI read a letter from Joe Asplund, W7IG, thanking us for the set of call books.

The Secretary was directed to write a letter of thanks to Mrs. Weber, the mother of the late William F. Blum, who donated some equipment to the Club.

Congratulations to those who were voted into full membership:

Janet M. Patjens, WN7WMB

Clay Freinwald, WN7WMC

Kathy J. Freinwald, WN7WMD

There being no more business, the meeting was adjourned.

It was then our privilege to have Bill Bennett W7PHO present a most entertaining and informative talk on DX.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (sec.)

The gold diggers of Tacoma are at it again. Dick W7RGD, Bob & Inez W7RXS-W7RXT, Beryl K7NP and LaVerne K7NKZ spent some time in the high country of northern California looking for the yellow stuff. Ended up at Crater Lake Oregon for a grand time.

Vivian Huntley didn't win any prizes for the Chavis's at the Walla Walla hamfest. She blamed it on her bum foot. (Fell down the front steps plum sober at the time)

Merl W7 I Kiss Girls, installing extra gas tanks on his pick-up. Must be planning to take one for a ride.

Don't forget, we will be needing help getting the club house ready for Home Coming the first meeting in October. Contact Scotty K7CYZ or Doc W7OS if you can give a hand on this project.

Steve K7SSC with head down, really sailing along on his Honda trying to keep up with Merl W7IKG on his big bike, on the road up to Monte Carlo during the camp-out on the "Stilly".

The Hazelmyers are now settled down in their new QTH. Got a new job lined up also. Will have to start the civilian grind now.

Emil K7GPK has a new rig on W meters now. Thinking about getting his antenna a little higher. More miles per watt Emil?

Tykie Rawlings back home and getting along ok. Now the OM Ralph W7COP is off work for a while, with a bad back. Maybe sympathy pains Ralph?

Bud W7HMQ all smiles as he took the big prize at the HamFair. No excuse for not getting on the air on 2 meters more often now. Congratulations Bud on your good luck!

Remember! schools are back in business. Watch those cross walks!

PUYALLUP FAIR EXHIBIT

By W7BUN

The Radio Club will again operate an amateur booth at the Western Washington Fair in Puyallup, September 15th to 23rd. Chairman of the exhibit will be Jerry, W7BUN. If you are able to man the counter or operate the station, contact Jerry at TH 5-7652 (evenings) or 597-6103 (days).

Also needed, is a 2 meter transceiver, with an power supply, that can be used for the 9 days of the fair.

The exhibit will be in the Hobby Hall, in the fair area as previous years. Equipment set-up will be Saturday, September 8th at 10:00AM..

AUXILIARY NEWS

By W7WLX

The first meeting, for the fall season, will be on Wednesday, September 19 at the home of Amy Strum, at Federal Way. Those wishing to attend are asked to call Ethel (472-4213) or Donna (4064) to arrange transportation. The address is 656 South 300th, in case Joan Reanier and Frances Hanson want to surprise us. Amy's phone number is 839-7359, in case anyone gets lost. Now we will have to remember to take the Loggers Bark with us!

We wish to thank all of the Auxiliary members, who took part in the HamFair and gave so generously of their time and hard work. Shirley Rose was responsible for the delicious banquet meal and we are so sorry she had to suffer a severe finger injury, in the process and hope it is well soon. Otherwise, the auxiliary came ahead for their reports and full report will be made at the meeting.Ethel W7WLX

STILLAGUAMISH CAMP-OUT

A REMINDER!

The weekend of September 8th & 9th Wiley Creek Campground. This is the last big get-together of the season. So don't miss this outing!

There is a lot of things to do. So don't think that you will just sit around.

Look for the map in the back of this issue of the Loggers Bark. If you miss it, there is a map in last month's issue. Come up Friday evening, if you wish. Some of us will be there earlier.

Remember, no charge and bring enough food for yourself. We go potluck. See you at Wiley Creek.

HAMFAIR '73'

HamFair 73 is now behind us and ideas are in the hopper for next year. The weather was good (a bit nippy in the early am) and a good turn-out was had. There were prizes galore and a lot of happy faces when the drawings were over. The dinner was finger-licking good right down to the apple pie.

Following are the winners of some of the main contests;

Mobile installation judging contest.

1st. K7YRQ

2nd. WA7FHD

3rd. WA7OMZ

ARRL NEWS IN BRIEF
By W7BUN

The 1973 Net Directory is available, free for sending an addressed 6 1/2 X 9 1/2 envelope, with 24¢ postage to ARRL. To receive both a Net and a Repeater Directory, affix 40¢ postage.

On July 28th, the 2 meter band opened between Hawaii and California. This is the first such opening in 16 years. If you were involved in this event in anyway, report your observations, in detail, as soon as possible to ARRL for a full report to be in October QST.

The new Emergency Communications Advisor Committee is now in operation, with 11 members appointed. From this area, Bob Klepper, W7IEU has been chosen.

K4MSG has withdrawn his petition (RM-2211) asking for increased Technician frequencies.

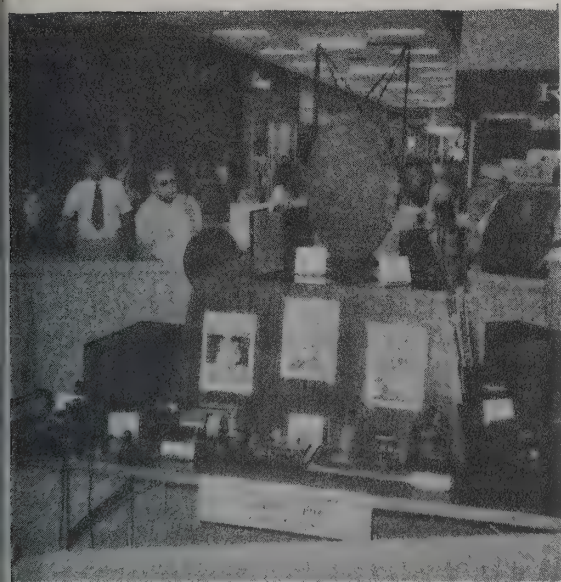

Radio Club member, Richard Schaak K7GGD, has been granted Life Membership in ARRL.

W5BQZ has petitioned FCC (RM-2219) to allow Technicians below 50.1MHz and in all Novice band with A-1 emission.

WA1CYT has petitioned (RM-2229) to require fee refund if FCC doesn't act on a license application within 60 days.

FCC has denied WA1GFJ's petition (RM-1857)

(cont. next page)

TACOMA MALL DISPLAY 1973

News (cont.)

requested regulations concerning r.f. noise. The FCC has proposed to increase the Class D antenna height limit from 20 to 60 feet. The FCC has adopted an arbitrary rule that no more than 3 repeater licenses will be issued to one club or group.

The ARRL sponsored technical symposium on space communications will take place September 14th, in Washington D.C.. Moderators are George Jacobs, K, frequency manager of the Voice of America and Ray Spence, W4QAW, FCC Chief Engineer.

Recently, we had another case of 20 meter band interference from spurious emissions from radio-type stations in Havana and Moscow. ARRL is pressing complaints through FCC in an effort to use diplomatic pressure to solve the problem.

At the July, Board of Directors meeting, the Foundation was established, this being an organization dedicated exclusively to the pursuit of innovative charitable, educational and scientific programs to enhance the future of amateur radio. The Board established a license renewal notification service, voted to petition FCC for repeater rules changes, directed the President General Manager to vigorously oppose the set-

ting up a Class E Citizens Band in the amateur 220MHz band and authorized \$1200.00 for station expenses of 4U1ITU, the International Amateur Radio Club at ITU Headquarters in Geneva, Switzerland.

ARRL will request an extension of the September 20th deadline for filing on the 224MHz proposal. Official Observers are monitoring the 27MHz CB channels to obtain data on illegal activity for inclusion in the ARRL's comments to FCC.

THANK YOU NOTE

Aug. 15, 1973

To: All the amateur radio operators and their helpers that participated in the OPC 225 and the Seafair Trophy race held on Lake Washington, July 28/29 and August 5, 1973.

I would like to thank each and everyone of you that helped to put these two big races over, with the great success that we, as amateurs, like to see. The communications for the races were highly praised by the Northwest Marathon Association. Inc., the OPC (Outboard Performance Craft) officials, Seafair officials, Coast Guard and all else concerned with the operation.

Without your help and effort the two races would have been greatly hampered. I know there were several problems, such as not enough patrol boats showing up on August 5 but you people (the radio operators) were there ready and willing and that's what counts. We also had some confusion in getting the OPC 225 underway but if you stand back and take a good look at the confusion and problems versus the accomplishments achieved, I'm sure you'll agree that our problems were very small by comparison. Plans are already in the fire for a bigger and better operation next year.

Thank you again for a job very well done by putting amateur radio out in front again.

/s/

Dwayne M. Lewis, K7KSZ
Everett, Washington

(The following is a list of amateurs, who participated in one or both races)

Keith WA7PBU, John WA7NXP, Bob WA7IPR, Don W7KTM, Fred WB5ILZ, Jim W7GLC, Cole W7TWS, Dick W7THA, Gordy WA7AVC, John WA7LFJ, John K7PFR, Earl WA7QIU, Dick WA7UEW, Al K7ENR, Roger WA7CYY, Chet W7JAX, Ozzie K7QAI, Dennis K7SCU, Emil K7GPK, Patty K7NQR, Tom WA7FJC, Helen WA7HKB, Scotty K7CYZ, John WA7OFC, Harold WN7UQB, Al W7CSK and Dwayne K7KSZ.

FIELD DAY RESULTS

Field Day has passed into the records now and plans are already in the hopper for the next upcoming f-d. The following is a run-down of the scores, as turned into the contest department of ARRL.

BAND	QSOs	X-MTR	POWER
80 c.w.	83	TX-4	180 W
75 phone	509	KWM-2	85 W
40 c.w.	209	SB-102	180 W
40 phone	567	32S-3	200 W
20 c.w.	207	32S-3	200 W
20 phone	525	SWAN	200 W
15 c.w.	28	SWAN	200 W
15 phone	275	32S-3	200 W
10 phone	18	CENTRAL	90 W
6 phone	50	SWAN	180 W
2 phone	43	HR-2A	15 W
OSCAR 6	12	HOME-BREW	50 W

The club is entered under the 13 transmitter classification. We had 33 members participating and have a total QSO count of 2,586 and with our multiplier, this comes to 5172 claimed score (less bonus points.)

Not a bad claimed score but room for improvement next year. Thanks to all, who made it possible.

CONFUCIUS SAY: "MARRIAGE LIKE BOXING EVENT...
PRELIMINARIES OFTEN BETTER THAN MAIN BOUT!"

(The following is a letter mailed out by the club and is published here as a reminder to all club members, past and present)

April 20, 1973

To present and former members of
The Radio Club of Tacoma

Hi there,

The Radio Club of Tacoma, its officers and members were all so thrilled with the turnout and the wonderful time we all had at the first Home Coming in 1971, that it was decided then that we would not wait another fifty years before we all got together again. So now, we are starting early to make plans and we INVITE and URGE you all to come to:

THE SECOND
RADIO CLUB OF TACOMA INC.
HOME COMING
1973

We have set aside the night of October 10th., Wednesday at 8:00 P.M., at our Club house at 1249 South Washington Street, Tacoma.

We invite all Alumni (former members) of all years from 1915 to 1973 to come and renew acquaintances and to enjoy a good old fashioned "Eye-Ball" visit with others, whom they may not have seen, for years. Coffee too, of course.

We will have the wonderful pictures we took at the last Home Coming and we hope to take some more, so do come and if you can't make it, let us hear from you. Tell us how you are and maybe send us a picture. If you know of some former member we haven't contacted or lost their address, please drop us a line at 1249 South Washington St., Tacoma, Washington 98405.

73,

Scotty Huntley, K7CYZ
(Chairman)
Doc Spike, W7OS
(Asst. Chmn.)

CLUB MINUTES 7/25/73

The meeting was called to order at 8:10pm. by President, Bill WA7SCN, with all rising and singing allegiance to the flag.

The minutes of the previous meeting were read and approved.

The following visitors were welcomed: David Kelly, WB2SCN, from Verona N.J.; Roy Meyers, Mobile Alabama; Sam Steere, WA7TVT; Don Tyler, W7ZMG and John Cathery W7DAZ.

There were no reports of sickness.

The Treasurer's report was as follows:

Checking account	\$393.70
Savings account	269.21
Building fund	216.82

(cont. next column)

A phone bill for \$12.74 was presented. It was PASSED to pay the bill.

COMMUNICATIONS

A card was received from the Shriver's Hospital in Portland, expressing thanks for the donation to Clara E. Thurman, mother of Barbara Osborne, W7FUL and Barbara also sent a note of thanks on behalf of her and her father.

Doc W7OS presented the club awards to Chip, K7VPF, for the 1972 phone and CW Sweepstakes contest. Chip was nr. 1 nationwide on both modes.

Dennis W7UBA made a plug for the club competition between the Tacoma and Boeing clubs for this year. The competition is at a 2-2 tie and this year the winning club gets to keep the trophies. Get planning now, fellas!

Doc W7OS presented Roy Devish, W7AZI, with his 40 year ARRL pin. Congratulations, Roy!

Dennis W7UBA reported on HamFair. Costs are down, which is a switch! He has been in contact with several factories. Hy-Gain has sent a DB-204 beam. Mosely has presented some problems but they are sending a 2-meter antenna of some kind. Collins is not coming to HamFair but they are taking out a full page advertisement in the handbook for the HamFair. R.L. Drake is sending a W-4. Swan is not sure. C & G is a sure bet. Several other companies will be represented either by advertisements or booths at the Ham Fair.

Dick Ryan, W7RGD, reported on the SeaFair boat race operations. Dwayne, K7KSZ, needs help for the operation, which will take place the 28th and 29th of July and we hope this will become a permanent institution, perhaps leading to amateur communications for the Un-limited race.

UNFINISHED BUSINESS:

A letter was read from the Mt. Rainier Council Boy Scouts of America, thanking the Radio Club for coverage at the recent Camporal. A letter of thanks was also read from Tykie Rawlings. Dennis, W7UBA, read a letter of thanks from a local CB group, who expressed gratitude over local emergency help provided by a Radio Club member.

NEW BUSINESS:

Chip, K7VPF, announced the Northwest DX Convention, to be held in Vancouver, B.C., the (cont. next page)

CLUB MINUTES 8/8/73

The meeting was called to order at 8:15pm by President, Len WA7HHI with 31 members and guests present. There were no minutes of the previous meeting read.

Treasurer's report:

Checking account \$158.48
Savings account 269.21
Building fund 216.82

There were no bills presented.

COMMITTEE REPORTS:

Doc W7OS reported that the display at the Tacoma Mall was a huge success. He further stated he would like to have the upstairs room ready for the museum, before homecoming October 10th. Doc also advised the committee had suggested a set of call books would be applicable as a "thank you" gift for Joe Asplund W7IG for our "field day" use of his property. A Motion was made and Seconded, to purchase a set of callbooks for Joe. After discussing the possibility of waiting until December for the 74 issue, it was decided to purchase the books immediately and present them to Joe at the HamFair. PASSED.

Scotty K7CYZ reported the Westport trip was successful, with Ralph W7COP having the biggest fish, a 35 pounder. Scotty also reminded everyone of the Stilligumish campout; details in the Loggers Bark. Scotty further reported, there was a good coverage at the outboard races in Seattle and we have been invited to return next year with many thanks from the committee.

Jerry W7BUN informed the members of the Pot Luck picnic and Country Store at Lincoln Park, in Seattle the weekend after the HamFair. This event sponsored by the Puget Sound Council. Jerry also reported in regards to the Western Washington Fair to be held September 15th through the 23rd. We will have some space as last year. Help will be needed to man the display and the loan of a desk and a rig would be needed. Details to be formulated after HamFair.

WA7HIN reported on the display at the Pierce County Fair.

(cont. next column)

Mary W7QGP asked that everyone write the FCC 1 reference to the proposed Class E (citizen band slot on 220MHz. There was much heated discussion by the membership.

NO UNFINISHED BUSINESS

NEW BUSINESS:

Jerry W7BUN reported that Marion Wylie had a number of MJB coffee lids for someone to pick-up.

Doc W7OS brought up the matter of the telephone bill. A Motion was made and Seconded that the phone service be terminated. After discussion, a Motion was made to Table the first Motion until other possibilities were explored. Two possibilities were suggested; one a radio relay set up and two; the possible use of LOLITA. Table Motion PASSED.

Dennis W7UBA suggested a display for Amateur Radio Week. After some discussion it was decided to forego any display, as the club was already busy with other projects. Perhaps, next year.

Jerry W7BUN reminded the members that plans for the X-mas party should be started as soon as possible. He volunteered to look into some possibilities.

One new member, Samuel A. Steere Jr. WA7TIVT was accepted, after which the meeting was adjourned at 9:20pm. Program for this week was, final plan and discussion for "HamFair 73".

Respectfully submitted,
/s/
Bob (railroaded) K7IND
(acting secretary)

SLIVERS & SPLINTERS

We are sorry to report that Don E. Klum ex-W7AFO, one of our very early Alumni has passed away on August 22. It being to late to get a fitting memorial into this months issue of the Bark we will have one next month.

If you have any ideas on the X-mas party please contact Jerry, W7BUN. Location? Program?

Dennis W7UBA reports the HamFair came out in the black this year, Congratulations, on a big job well done by him and his many helpers, too numerous to list individually.

(cont. next page)

TELEX COMMUNICATIONS DIVISION

J. Lowell Mashburn
AREA MANAGER

Certified Hearing Aid Centers

SPECIALISTS IN CUSTOM FITTED HEARING INSTRUMENTS
REPRESENTATIVES IN YAKIMA, WENATCHEE AND TRI-CITIES

If you over-hear any C/B operations on the 10 meter band, contact Ron WN7UQV. He is compiling facts and figures.

Bob W7FXS just completed constructing the Heath 500 fm transceiver. First signal, BawFaw re-ceiver pumping out a QSO in the Hoquiam area. Got contact with Cliff, W7MFG.

Max W7AEA and M. J. off on a trip in their boat, in the San Juan Islands. Taking a vacation before starting on some new projects.

The Chavis's (W7IKG & K7AMJ) back from a trail-vacation just in time for HamFair. Have lots of slides of their trip around the loop and some of the trips. Merl has the Club's 20 meter beam and is in the process of putting it back into shape for the field day. (Said something about re-building from the center out)!

Tom W7PK back home again after another bout with the local hospital. Feeling better but only hanging with Grandmas with one broken leg. Getting ready to turn on the station power and get back to the dx bands.

Pick Hazelmyer and family back in Tacoma after starting the service. Plans on settling down in Tacoma.

Scotty K7CYZ and family back from outing with Chavis's (W7IKG & K7AMJ) up in the Mossy Rock area. Came back with a large sampling of agates, quartz and petrified wood from the lake bottom. The club's rock hounds are busy getting maps pictures etc., from them as to how to find the locations.

Emil K7GPK waiting for the mail. Has ordered the 2 meter fm gear and anxious to get on the air.

The Lewis's (W7JWJ & W7QGP) had their mobile rig at the HamFair. A steady stream of hams were looking it over. A beautiful rig and ideal for their traveling around the State to the various ham fests and picnics.

Tykie Rawlings back from her visit to the local hospital and doing fine. Getting ready for more sailing before the winter sets in.

Bob W7PGY (Northwest Director) back from his trip into Alaska and overheard on 2 meters.

Dave K7BBO now has 47 states and 4,060 QSO's on OSCAR 6. Also was on the receiving end of the first aeronautical mobile contact, via OSCAR 6.

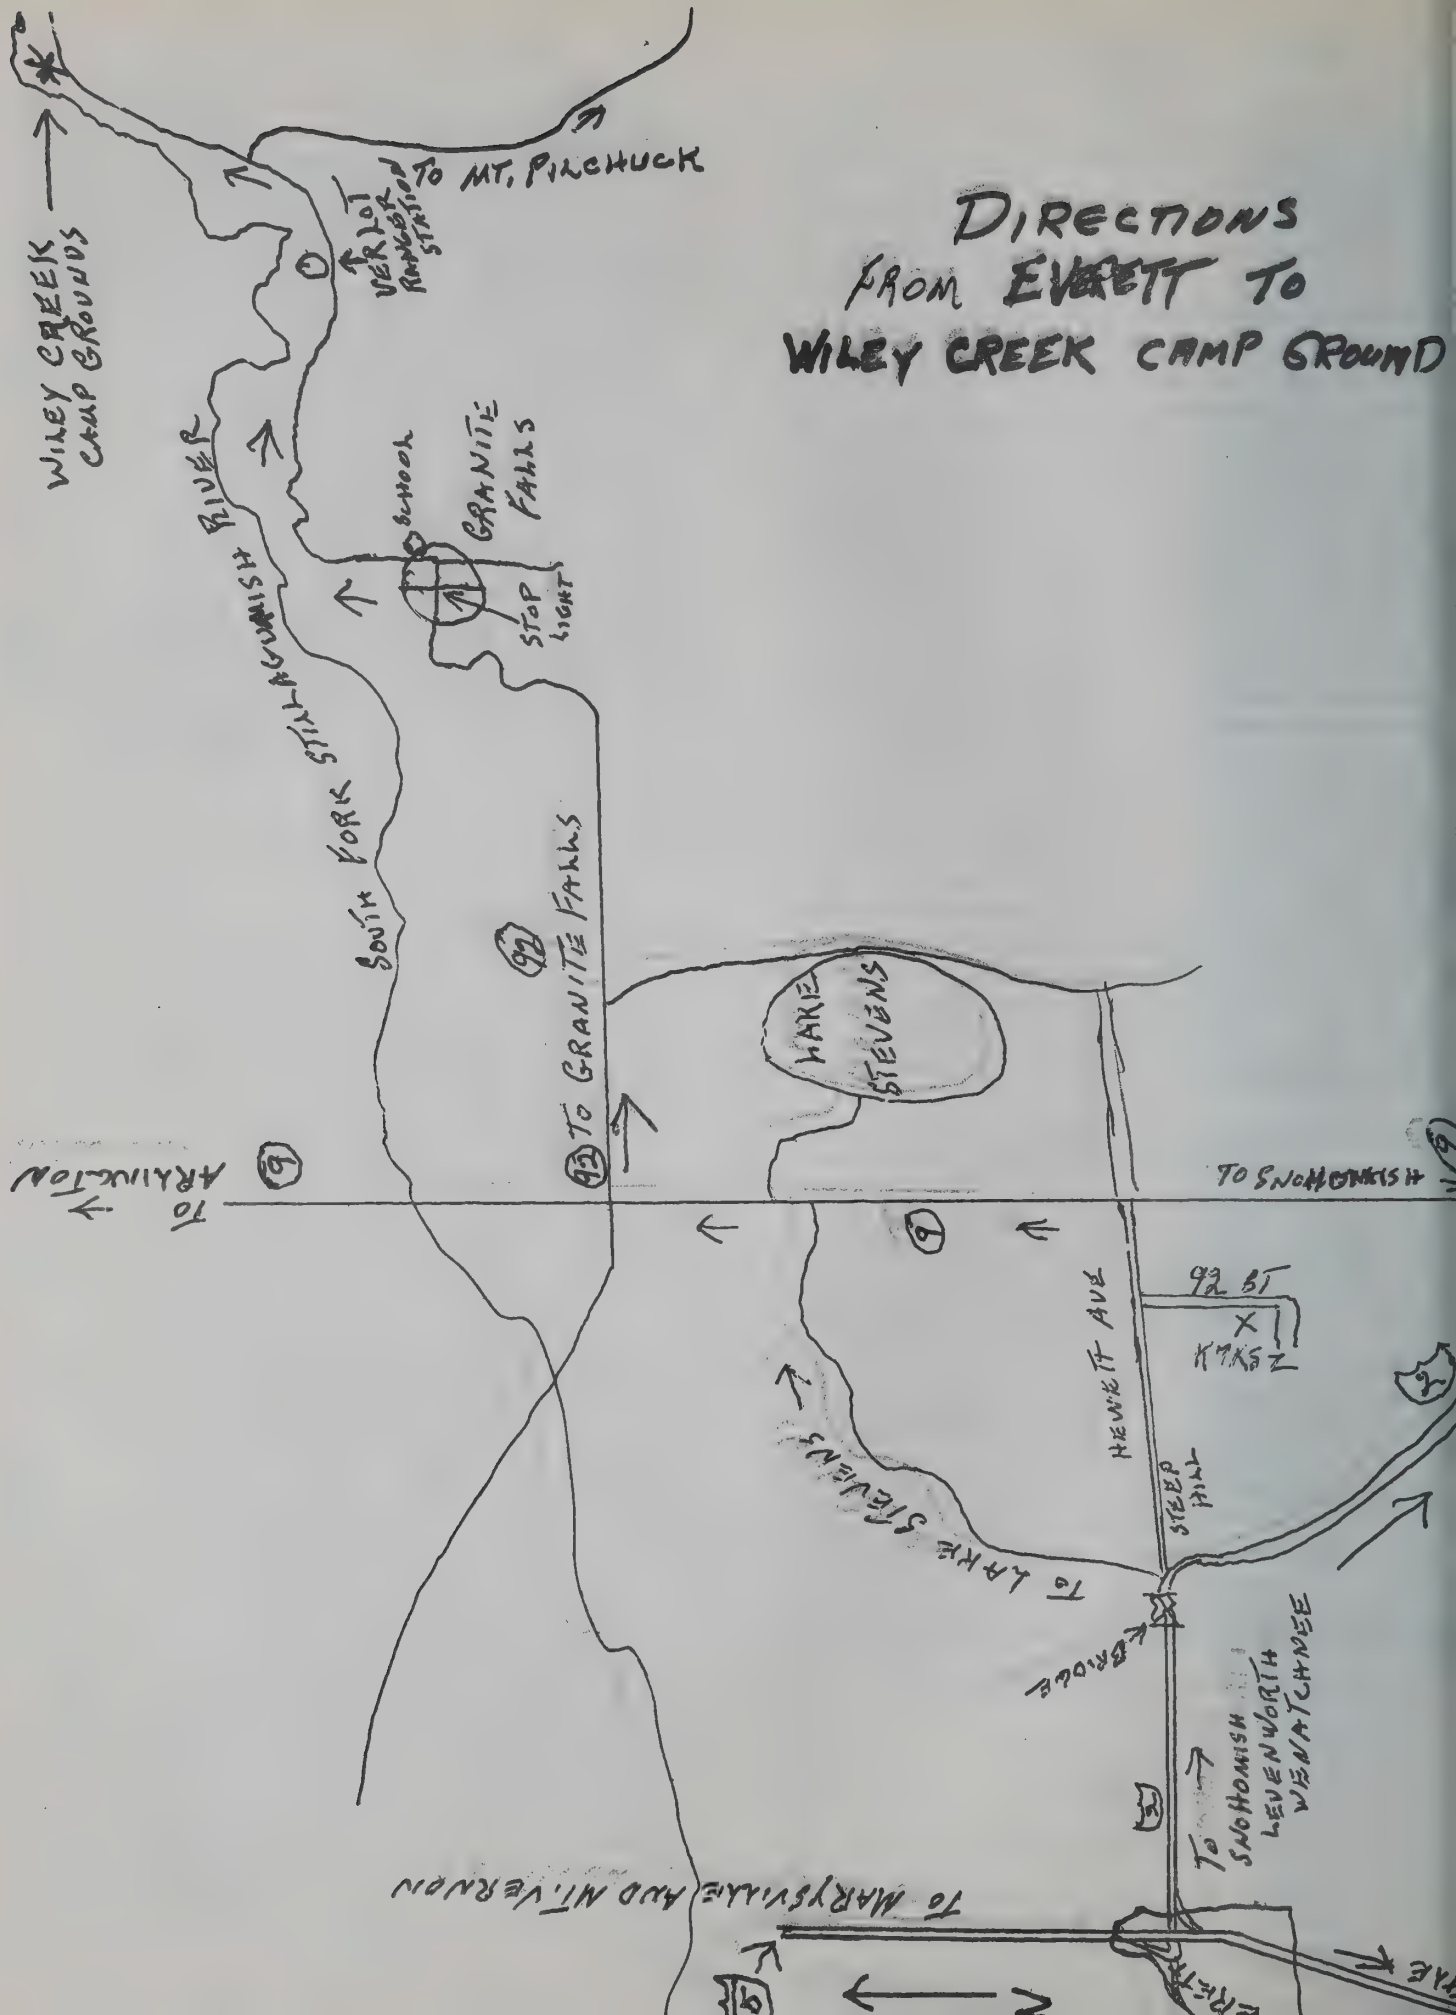

Remember, schools are open! Watch the cross-streets and school ground areas!

Remember when you could go to a pal's house and operate under your call? Some stations made DXCC and WAS and the like, that way. But not anymore. Why? The privilege was abused and the FCC changed the rules. Every time the rules get abused, the FCC changes them. Look at the new repeater rules we have to contend with, for example. If we keep abusing the ID'ing privileges, they're liable to tighten up a little there too.

Where I look for them to tighten up on us is with this thing, that some have going, of only identifying their station and not the other station, when they are through talking to each other. If you want it to be known that you're through, clear or monitoring. But, after you sign with the station you've been talking to. Who knows, someone may want to know who you have been talking with! By the way, you won't be abusing the privilege if you sign with just one of the stations in a round-table or net. But make sure you sign with someone. Let's not ABUSE IT AND LOSE IT!

.. Bob W7IEU

STILLAGUAMISH CAMP-OUT

This Loggers Bark will be on the press too early to give you any information on what took place at Westport. We will have a full report in September issue.

The next big get-together, is the annual Stillaguamish River camp-out. This affair is a joint venture of the H.A.M.S. Club of Everett and Radio Club of Tacoma.

To date this has been a wonderful affair, so don't miss it. Bring your tent, trailer, camper or just a sleeping bag (and of course some food). There's a lot to see in the area and you should bring a fishing pole, your trail bike, your 10 speed bike, your hiking shoes or you can spend a lot of hours just driving and looking at the magnificent scenery. After all, you are almost in the North Cascades.

This year we again have Cougar's Den and Eagle's Nest in the Wiley Creek Camp grounds. Exclusive to us on September 8th and 9th. (SEE MAP ELSEWHERE IN THIS ISSUE). For more information about this trip, contact Scotty SK 2-0332.

(concl. next column)

Camp-out (concl.)

A lot of us will be there the evening of the 7th (Friday night). The campground will be open and if we know you are coming we will be looking for you. Also we will monitor 146.76KHz.

Scotty K7CYZ has promised 'clam fritters' for Sunday breakfast! See you at Wiley Creek Campground on the South fork of the Stillaguamish River!

COUNCIL PICNIC

At the July 11th meeting, the Club decided to make the Puget Sound Council of Amateur Radio Clubs picnic an official club function. The date is Sunday, August 26th and the place is Lincoln Park, in West Seattle. The picnic will be a potluck style, so bring plenty to eat and plan on eating at 2pm. Afterwards, there will be a no-charge "country store", so bring all your goodies to sell or swap, or fill your wallet and plan on some real bargains. To get to Lincoln Park, take I-5 to Seattle and get off on the Spokane Street exit. Continue West on the Spokane Street viaduct, which eventually runs into Fauntleroy Ave. Continue on Fauntleroy and it will take you directly to the Park. The picnic is at the upper level of the South end. Be sure to plan on this date and meet many members of other Council Clubs (Several other clubs are also making this an official club function).

NOTE: SEE MAP ELSEWHERE IN THIS ISSUE.

ARRL NEWS IN BRIEF

By W7BUN

The U.S. Court of appeals, in New York, denied a petition by two New York hams, to review the newly promulgated regulation of the F.C.C. prohibiting the use of an amateur station for the transmission of messages of a commercial nature (the "Eyeband" docket). The court ruled that the new regulation did not violate the freedom of speech provision of the first amendment or the anti-censorship provision of the Federal Communications Act of 1970, as claimed by the petitioners.

TACOMA MALL DISPLAY

By W7OS

The management of the Tacoma Mall Corporation invited the Radio Club of Tacoma and the Northwest Chapter of the Quarter Century Wireline Association to display their museum pieces on the occasion of the opening of the new section of Tacoma Mall, being opened on the 25th, 26th, 27th and 28th of July 1973, along with the Tacoma radio broadcasting stations.

We were assigned a most prominent spot in the Mall. Mr. Warren Green W7JY, curator of the QCWA museum, added many of his choice pieces to those of the QCWA and the Radio Club, making up a really interesting and educational display.

Many of the members of the Radio Club spent many hours preparing this exhibit and many more hours, serving in the booth, protecting the display and explaining these interesting items (Some going back to 1910)

We wish to give thanks to the many participating in this activity. W7AZI for display card W7BUN for lettering cards, W7JY for arranging the display and those who manned the booth. Those manning the booth were; WA7IPR, WN7SBC, WN7UQ, K7CYZ, W7AZI, W7IKG, WN7UNH, K7CZM, WN7UZI, WA7UVA, WB7AXK, K7VQM, W7MRX, W7UBA, WA7HIN, W7W7JY and the many others who cheered us on.

It was great fun and we think we promoted the radio once more in the eyes of the general public. Thanks too, to Mr. Mike Ferrill, manager of the Tacoma Mall for the fine opportunity and wonderful cooperation.

W7JWJ-HARRY WA7BBJ-GARRY W7QGP-MARY GOVERNOR EVANS W7PWP-JIM K7BBO-DAVE

STATEMENT BY THE GOVERNOR

Radio Amateur operators have provided numerous services to the public through-out many years as commercial volunteers. During emergencies they have rendered their services to bridge the gap where the normal communication media has been needed thereby facilitating aid and assistance to disaster area.

The Radio Amateurs, using their privately owned operated equipment, have proven their ability to contribute to the advancement of the field of Natural and Sciences in Radio Communications. Daily communications with Radio Amateurs of other states have enhanced international good will. In times of any possible war-caused emergencies, Radio Amateurs maintain close liaison with Defense officials through the Radio Amateur Emergency Service to provide their services when they may be needed. During peace time they maintain a daily network of communications throughout the nation and function as the official emergency communication arm of the American Red Cross during times of disaster.

Each year the Radio Amateurs of the 50 states conduct a state project. In 1973 the Radio

Amateurs of the State of Washington will conduct a week of activity designed to enhance the relationship between the State of Washington and the other states and Canadian Provinces, through the intercommunication and exchange of messages by Amateur Radio.

Now, therefore, I, Daniel J. Evans, Governor of the State of Washington, do hereby designate September 9 through September 16, 1973 as

WASHINGTON STATE AMATEUR RADIO WEEK

and call upon all citizens to join in saluting the amateur operators in expressing our grateful appreciation for the unselfish service rendered by these private individuals who contribute without remuneration to the welfare of our state and nation, both in time of emergency and in the expansion of the existing reservoir of trained operators, technicians and electronic experts.

/s/

Daniel J. Evans
GOVERNOR

In the July issue of the Loggers Bark, we announced the RCT night at the Salmon Bake at Owens Beach.

We had a fairly good turn-out but not as many as expected.

Here are the ones seen by this reporter; Roy W7AZI and Ethel W7WLX, Verna Ryan, Ed Coles K7CZM, Merl W7IKG and Margie K7AMJ, Don WA7PIN, Greta Warburton, Rex W5QQQ, Bob WA7IPR and xyl Virginia and Scotty K7CYZ and Vivian. Sorry, if I missed anyone but yours truly had to leave early to go to the Seattle Race meeting.

If you missed the Salmon Bake, you missed a grand meal. Congratulations to the Tacoma Park Board.

RACE MEETING

Wednesday, July 18th, several members of our club traveled to Seattle to attend a meeting with the outboard boat racing association. The meeting was in preparation for the big race on Lake Washington, July 28th and 29th..

Several of our members will be on duty with portables in the patrol boats and at stations on shore.

Also discussed at the meeting, was the big-big unlimited hydro's, that will be run on August 4th and 5th..

In the September issue of the Loggers Bark we will have a full report on these races. Also a report from Dwayne K7KSZ on organizing a group to take care of this type of activity in the future. This will enable us to be prepared for just such occasions.ED

LETTERS RECEIVED

July 23, 1973

To all my friends, both old and new, in the Radio Club and the Auxiliary, I extend my deepest thanks.

Your expressions of sympathy and your contribution to the Shrine Children's Hospital in Mother's name are sincerely appreciated by both my Dad and me.

(cont. next col.)

Thank you and God bless you all.

Barbara (W7UYL)

June 25, 1973

Mr. Roy Devish

On behalf of the Scouts and Scouters, I want to express our sincere appreciation to the Tacoma Radio Club for their support of our Camporal on June 8 and 9. Please extend our special thanks to the folks who ably manned the radios. Fortunately there were no emergencies that required immediate radio assistance but it is always reassuring to know it is available.

Sincerely,

/s/

Arlen D. Davison
Chairman, Council
Camping Committee

WASH. STATE QSO PARTY

The eighth annual Washington State QSO Party sponsored by the Boeing Employees Amateur Radio Society (BEARS), will be on the final weekend of Washington State Amateur Radio Week (September 8, 1973 thru September 16, 1973) and will start at 2000 GMT September 15, 1973 and end at 0200 GMT September 17, 1973. All amateurs are invited to participate.

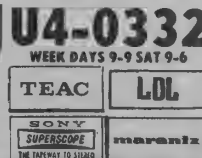

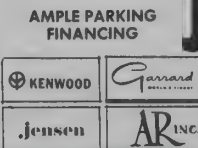

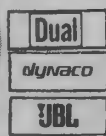

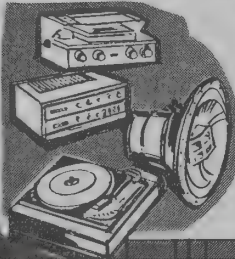

All bands and modes may be used. Stations may be worked each band and each mode for contact points and more than once each band/mode if there are additional multipliers. Washington station score one point for each contact (including contacts with other Washington stations). All other stations score two points for each contact with a Washington station. Washington stations multiply total contacts points by the total of different state Canadian Provinces and other foreign countries worked. All others multiply total contact points by the total of different Washington counties worked (maximum of 39).

Washington stations send QSO number, RST and County. All others send QSO number, RST and State Province or Country.

Certificates will be awarded to the highest working stations (both single and multi-operator) in each state, Canadian Province, foreign country and Washington county. Additional certificates may be issued at the discretion of the contest committee. Worked five BEARS Award are also available to anyone working five club members before, during or after the QSO Party (unless previously issued). All QSO Party entries will be judged by the contest committee for possible earned Five BEARS Awards. Worked Three Cubs Award is available for working three novice members.

Suggested frequencies: CW 3560, 7060, 14060 and 21060. Phone 3935, 7260, 14280, 21380 and 28660. Voice 3735, 7125, 21150 and 28160.

Logs must show dates, times in GMT, stations worked, exchanges sent and received, band and class used and scores claimed. Include check sheet for entries with more than 50 QSOs. Each entry must include a signed statement that the decision of the Contest Committee will be accepted final. No logs can be returned. Results of the QSO Party will be mailed to all entrants. No log is N O T required.

Log sheets and scores must be postmarked no later than October 15, 1973 and sent to: Long Employees' Amateur Radio Society in care of Contest Committee, Willis D. Propst K7RSB, 15-38th Ave. South, Seattle Washington 98188.

W7JGN

standing and pledging allegiance to the flag.

The Secretary was absent, so the minutes of the previous meeting were not read.

The following visitors were introduced: Lou Hansen, WA7MKR; Mike Sear WN7???; Nick Winter WA7IVO brought along friend and dupe-sheet operator, Janet.

Under reports of sickness, Dave Reichlein, W7GBG, was reported in the hospital but doing fine. Spence, WA7HKR, of Port Angeles, who is not a club member but known to many RCT members, was also reported in the hospital.

Treasurer's report:

The following bills were presented; one for \$20.74 for field day food, one for \$3.50 to reimburse Joe Asplund, W7IG, for field day gasoline, Jerry Seligman, W7BUN, presented one for \$7.07 for parts for the generator. It was moved and seconded that they be paid and the club voted and **PASSED**.

COMMITTEE REPORTS:

Jerry W7BUN reported that the Puget Sound Council of Amateur Radio Clubs is ready to send out letters to broadcast stations, etc., detailing the differences between amateur radio and the Citizen Radio Service, in order that more accurate information may be issued on news releases, etc.. Jerry further reported that August 26th (Sunday) is the date of the joint **PSCARC**/Western Washington DX Club picnic. The much-traveled visitation trophy is presently at the Bremerton Club. The Thurston County Breakfast Club will, according to Jerry, be in attendance at the next **PSARC** meeting.

Scotty K7CYZ reported that there has been little enthusiasm for the emergency transceiver project. He said also that he needs money for the August 4-5 Salmon fishing outing at Westport by July 4 or 5. The rate is \$21.00 for reservation, pole and bait and he says to bring along an armload of firewood to replenish Mrs. Warburton's supply.

Jerry W7BUN reported on HamFair; Don Stoner, W7INS, has agreed to come to HamFair and present a seminar. Also Washington State Amateur Radio Week is the week of September 9-16, culminating with the Washington State QSO Party the 15th-16th. Check WST or write to the Boeing Employee ARS for details.

Doc W7OS reported on the Mall display of vintage radio equipment; Warren Green has the materials ready; the Mall people are cooperating very well in helping with the display; volunteers are needed to help with policing, explaining, etc. during the exhibit. The project is scheduled for July 25-28.

Bill WA7SCN reported on field day; everything went well except for the rain, cross-talk, lousy activity, cows, mosquitoes, Murphy, ..ad nauseum. Make a list of suggestions **NOW** for improvements for next year and put it in a place, where you will

(cont. next column)

run across it next May.

UNFINISHED BUSINESS:

Bill WA7SCN reported that the scheduled program for the July 11 meeting will be a talk by John Ball from Tacoma City Light. Tonight's program will be the Canadian film "Fine Business".

NEW BUSINESS:

Jerry W7BUN reported that FCC has released docket, which would if adopted, create a new "Citizen Band" frequency assignment of 1 MHz out of the existing 220MHz amateur allocation. Details will appear in QST and after careful reading comments may be made to FCC and/or ARRL.

An application for Club membership from Crai Larsen, WA7HTN, was read and **APPROVED**.

The meeting was adjourned at 8:45 by Presidential decree. After a coffee hour, the Canadian promotional film "Fine Business", providing an introduction to amateur radio to the un-initiated was presented.

Respectfully submitted,
/s/
Charles Margelli K7VPF
(acting Secretary)

CLUB MEETING 7/11/73

The Radio Club of Tacoma was called to order 8:10pm by Bill WA7SCN as President Len Goodwin WA7HHI was on vacation. Members and guests then pledged allegiance to the flag.

Minutes of the June 27, 1973 meeting were read and **APPROVED** as corrected. Guests included Mike Sear and with Nick WA7IVO was Janet.

Three cases of illness were reported: Art W7 outgoing Washington SCM, was recovering from ear operation, Tom W7PK will have more surgery in the near future and Jerry (Grandson of Smith K7ATD) fell out of a car on the Hurricane Ridge road and is in critical condition at Children's Orthopedic Hospital in Seattle.

The Treasurer's report revealed \$436.44, \$269.21 and \$216.82 in the checking, savings and building funds accounts respectively. Current bills included \$12.74 for one month of Ma Bell jump and jerk service in advance, \$27.10 for telephone

(cont. next page)

TELEX COMMUNICATIONS DIVISION

GR 4-0546 • 8234 Pacific Ave. • Tacoma 98408 • VE 8-1781

of other utilities and \$21.00 for posters and flyers for promotion of the HamFair. It was 3d, Seconded and **PASSED** to pay the bills. Dennis W7UBA reported that Bob Osborne donated equipment racks to the club, that were rest-outside the clubhouse and needed to be moved before they dissappeared. It was suggested the frames be lugged in during the meeting break.

The tower committee indicated the hole to a requires more digging. Two volunteers are able to help complete the job and Dennis is to have the base of the tower installed in two weeks.

Concerning the HamFair, John K7COQ will not be to hold a seminar as he is booked at a C/B and Tom W7AFG will be busy with business. Will not be available. The communications instructor sessions will be presented, however.

Dennis expects to spend about \$30.00 in telephone call charges to verbally contact manufacturers for prizes to be used at the HamFair. Dick RD will print the HamFair applications and W7BUN now has the posters, soft sheet flyers and some material from the ARRL to be used as door prizes. A possibility exists to have old time after dinner at the HamFair. Notice of the fair will appear in the August 1973 issue of QST. This has been confirmed by the League.

W7CS reports all materials for the Tacoma project are ready for the July 25-28 display. It will be 9:30am to 9:30pm Wednesday, Thursday and Friday and 9:30am to 6:30pm on Saturday. All markers are finished and Warren W7JY will be there. Location of the articles will be in the center of the Mall at the cross. Help is needed to police the area and answer questions from the public. A sign-up sheet for the proposed shifts will be available during the meeting break. Two hundred thousand people are expected to pass the display in four days. A room is also available to lock up any exceptional items overnight.

Betty K7CYZ reports that interest in the Agency Communications group is small...only a few members have signed up to date. Also the next fishing trip for August 4-5 has nine members confirmed. The boat will hold sixteen people. Saturday, July 14 is the last day to get a \$5.00 deposit in. In addition, Wednesday July 18 is the date of the Salmon Bake at Owen's Point at Point Defiance. The feed starts at 4pm. Members should plan on meeting at 4:30pm. It will be about \$2.50 per adult.

Wayne K7KSZ has requested help to provide communications for the Seafair marathon race in Seattle on July 28-29. Interested parties must attend the initial meeting on July 18 at 7:30pm in

(cont. next column)

the City Light Building auditorium at 97th and Stone Way in Seattle.

Jerry W7BUN reports that 40 people with 2 meter portable equipment operating on .64 are needed. Transceivers should be able to operate for ten hours on battery power. If this project works out well a possibility exists to do a repeat performance at the unlimited Seafair race the following week-end. An article in the Loggers Bark will give more details.

Jerry also noted that the Puget Sound Council of Amateur Radio Clubs voted in the Thurston County Amateur Radio Breakfast Club. In addition, the Council sent 40 letters to major newspapers, radio and television stations delineating the differences between the amateur radio and citizens radio services.

Sunday, August 26th, is the date of the PSCARC pot luck picnic and country store at Lincoln Park in Seattle. Location is Fauntleroy SW and SW Webster, upper level at the South end. (See map this issue) The picnic starts at 2pm. Dennis W7UBA suggested this be a RCT function and a sign be taken so the RCT can remain as a group.

The full docket on part of 220MHz for CB use is on the bulletin board. Jerry W7BYN suggests the club sign a petition against this docket and that one original and fourteen copies be sent to the FCC. He requests all members to also send the FCC individual comments.

Harry W7JWJ noted the FCC will begin placing all test questions in a computer and print the tests on an individual basis to help keep the memory communications schools from having professional test flunkers obtain the license exams.

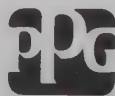

Bill WA7SCN indicated that future programs will be as follows: Tonight, John Ball from Tacoma City Light radio interference division with a talk on interference problems. July 25th will present Harry Lewis W7JWJ with a technical talk and slides. Bill is looking for more programs and wants a balance between technical and entertainment type formats. The RCT will be receiving about 250 military training films for use at future programs...hopefully they deal with electronics.

UNFINISHED BUSINESS:

A reminder by Harry W7JWJ about the Amateur Radio Picnic, July 14-15 at Lewis and Clark State Park.

Jerry W7BUN checked on progress of the field day contest sheets and noted they are due by August 1st. Bill WA7SCN will coordinate this

(cont. next page)

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

project and also had some pictures of field day for all to view. The field day generator needs to be returned and Bill WA7SCN and Ron WN7UQV will get it.

Doc W7OS agreed to get a suitable present for Joe W7IG for the RCT for the use of his property on field day.

A display cabinet was donated by Ron WN7UQV. Ron also questioned, when the room up-stairs might be finished so it could be used for Sweepstakes. After a brief discussion, Ron became our new building chairman.

Under club welfair, Scotty K7CYZ, noted that 6 meters is open to W1 and W2 areas and Dennis W7UBA reminded us all to not forget Sweepstakes. A club award from the ARRL for Chip's K7VPF operation of W7RM during both modes of Sweepstakes was announced. Membership certificates for Craig WA7HIN and Dick W7WQT were ready for presentation. Craig received his and Dick was not present.

There being no new business or applications for membership, the meeting was adjourned at 9:12pm..

Respectfully submitted,

/s/

Rick Schaak K7GGD
(acting secretary)

Chip K7VPF presented two top awards from ARRL for top scores in the CW and Phone section during the last Sweepstakes Contest. Doc W7OS presented them on behalf of ARRL at last meeting in July.

Verna Ryan given a certificate by Mac W7AEA and an outing at W7AZI and W7WLX's QTH. Several club members were present. A good time was had by all. Oh yes, the certificate is now framed and on display for all to see.

The Chavis's (W7IKG & K7AMJ) down at the ocean watching the movie stars in the process of making a movie. Got to meet 'Big John'.

Dick W7RGD, the Churchwards (W7FXS & W7RXT) the Chavis's (W7IKG & W7AMJ) and the Huntley K7CYZ all down to the canal for the week-end. Lots of fun and plenty of oysters on the table.

Hank W7UD giving a demonstration of his autopatch from his mobile parked outside the club house. Who was he calling? Why the club, of course.

Joe W7IG was overheard saying, "clams on the half shell are better than chicken". Wash your mouth out Joe.

Jerry W7BUN due back from his vacation to the East any day now. Should be home by the time you read this. Will have pictures to show. WA7SCN please take note.

Bob K7IND and Len WA7HHI back from their vacation trip together, in Canada. Got to do some gold panning while there.

Dwayne K7KSZ sporting a new coat, while talking to the group getting ready for the big boat race.

Welcome back to Tacoma Ed. Ed K7CZM back at club meeting in July. Has moved back to Tacoma.

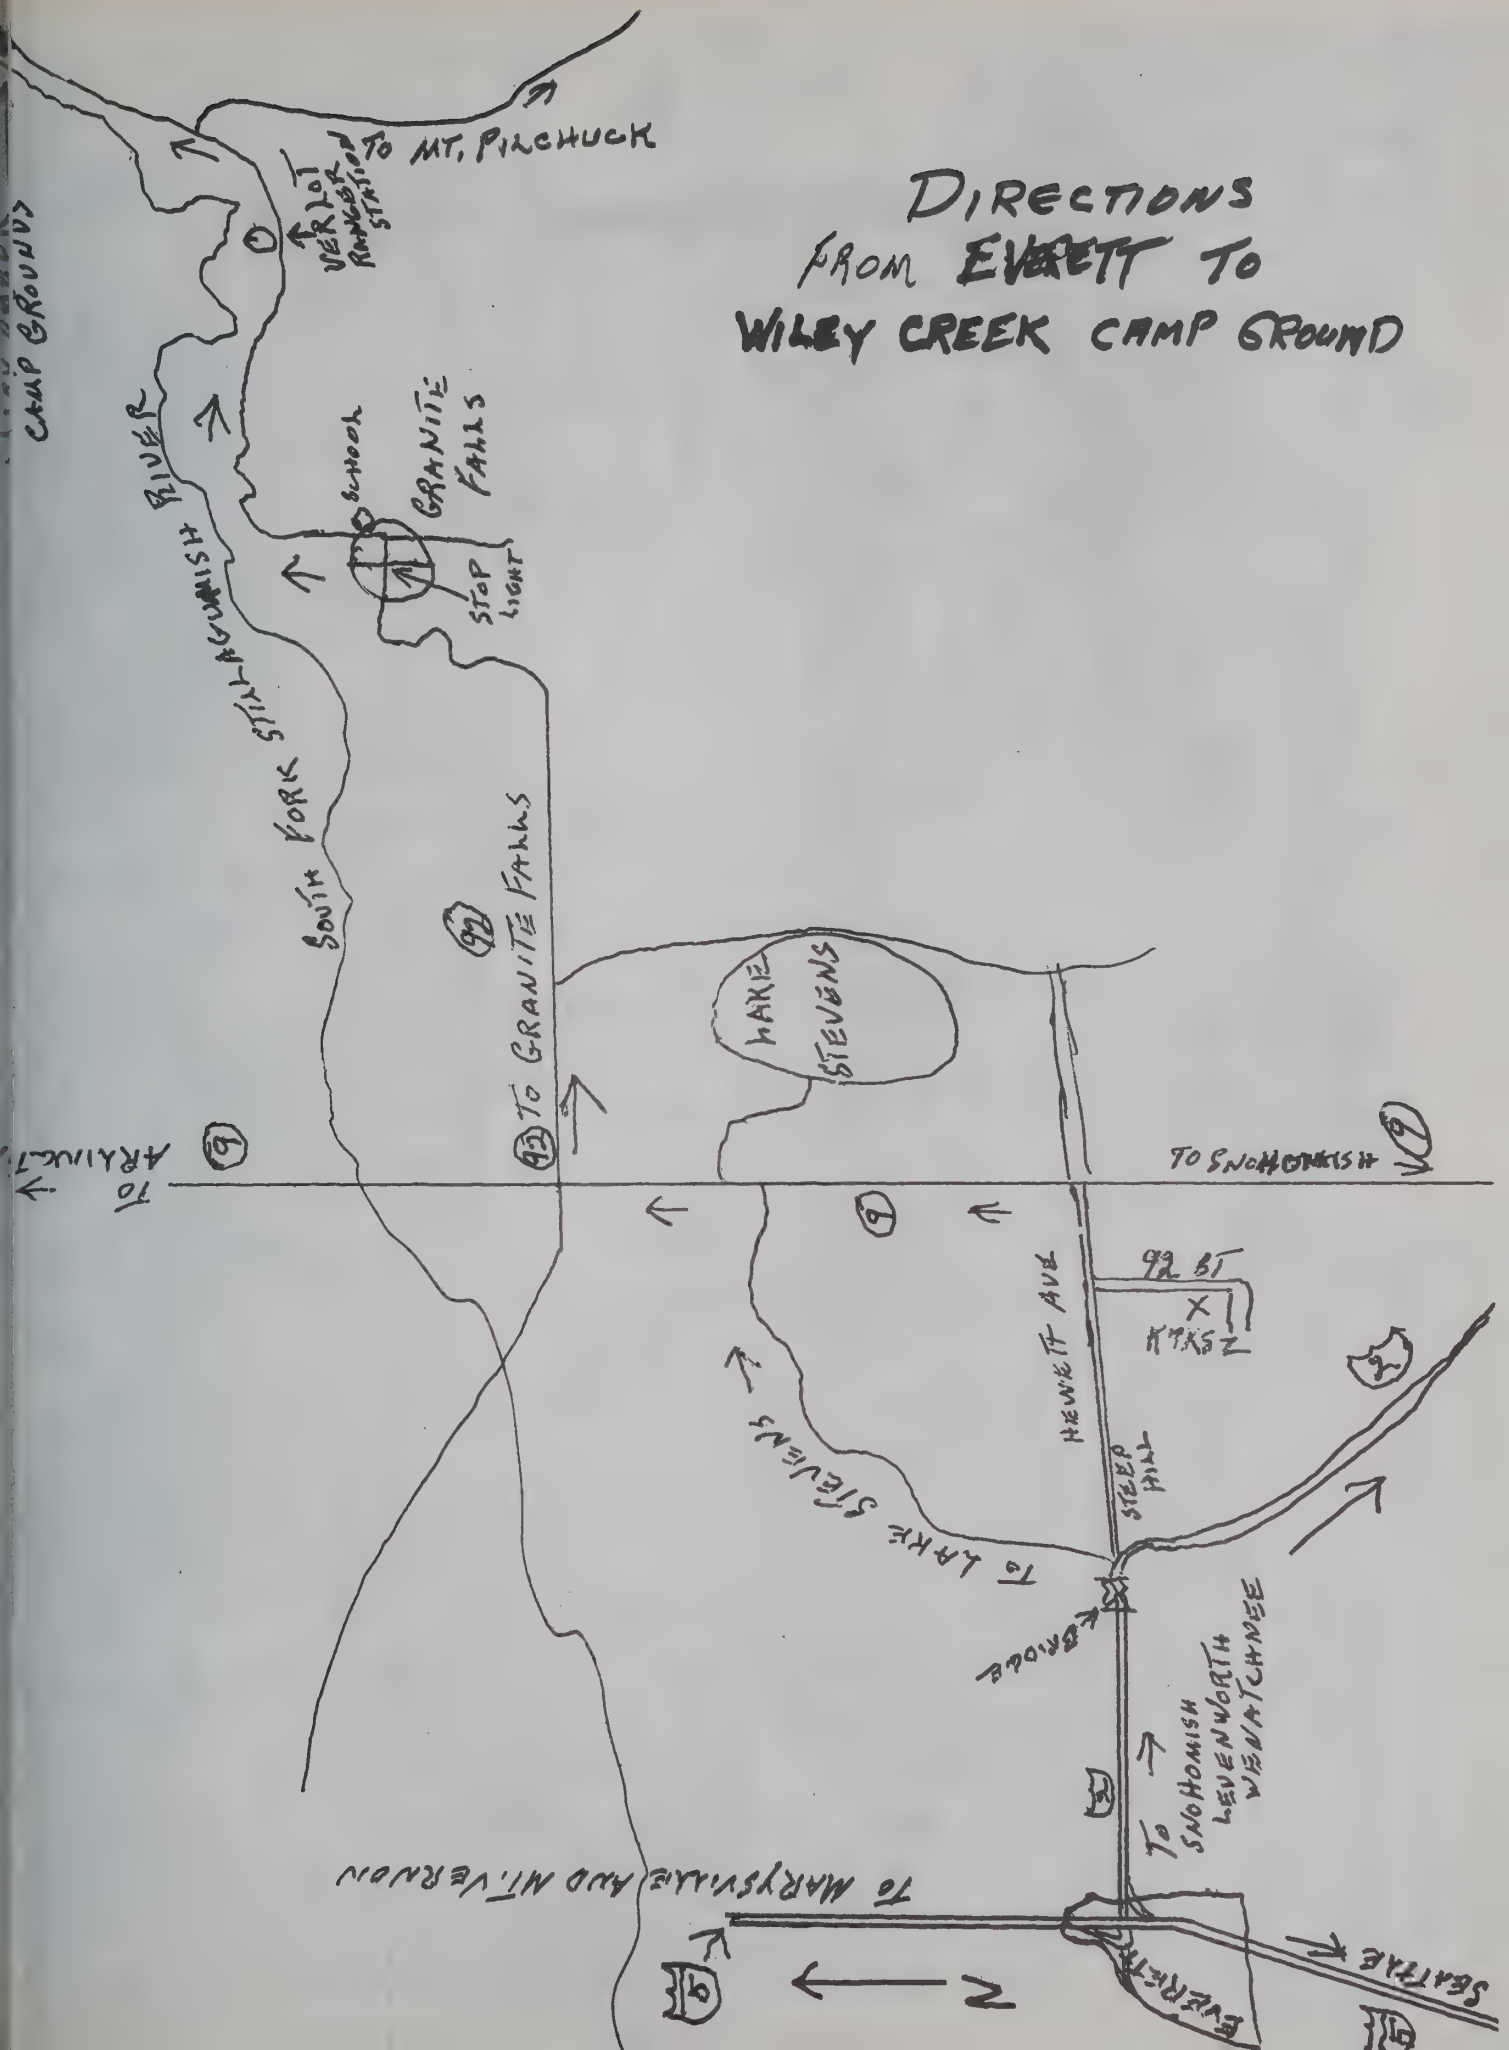

Roy W7AZI has received his 40 year pin and certificate from ARRL. Has been a member, with the League for 42 years.

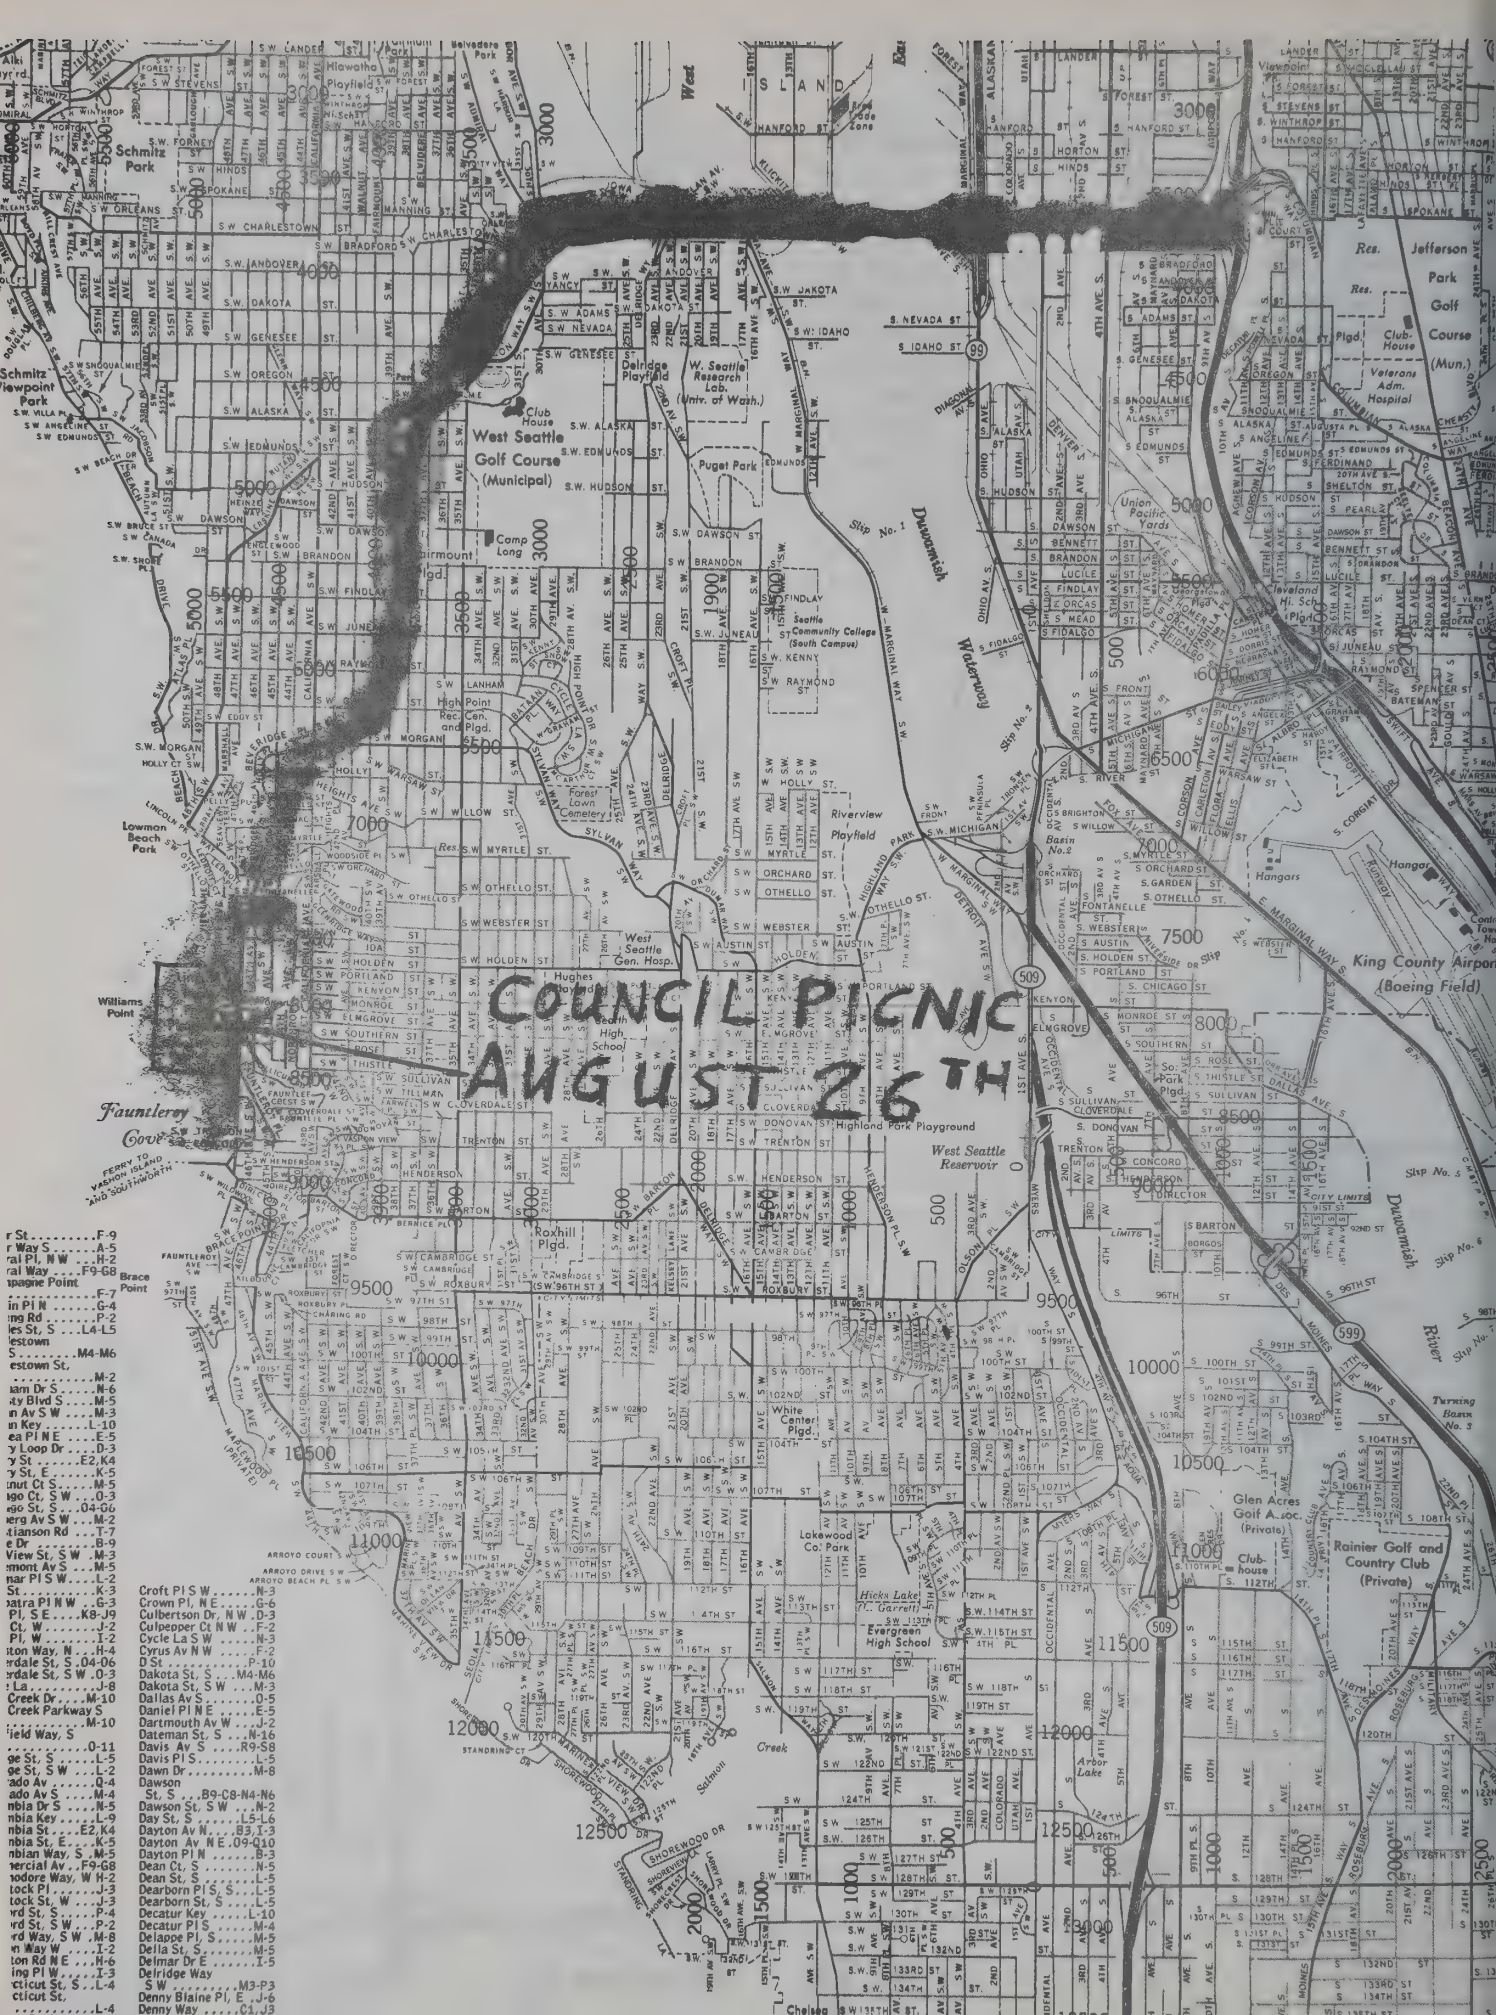

Emil K7CFK getting introduced to operations on the two meter fm band, during the boat races on Lake Washington. He says "I like it, I like it".

The Lewis's W7JWJ & W7QGP over in Okanogan at the Ham fest and checking in on the nets.

Last month we had a picture on the front page of the Bark, of Mary Lewis. We printed her call in error as K7 instead of W7QGP. Also we printed Hank's old call W7DIJ under happy birthdays. Of course it should have been W7UD. Our apologies to both.

MARY K7QGP

Field day (cont.)

NEW SCM!

Mary Lewis, K7QGP, is the new SCM for Washington. We know Mary will do a good job. Congratulations and lots-of-luck.Ed

FIELD DAY HING-LIGHTS

By W7RGD

Another Field Day is behind us now and plans are already in the hopper for next year. Things went fairly well this year until Murphy's law took effect at the tear-down time.

A big thanks to Dave K7BEO for his big effort working 12 contacts thru OSCAR 6. It took a lot of equipment but the satisfaction was worth it.

All WA7SCN, the chairman for field day, was pleased with the way things went.

But W7JCN was displeased on losing his money. The food was excellent and everyone raved about the breakfast.

The rain was the only thing working against us this year. Trailers were getting muddied up and tents had drippy covers but the cq's continued.

(cont. next col.)

used on all during the night and up to the last minute, when the big switch was pulled on the faithful generator. The generator didn't miss a beat the whole 24 hours and was shut down only once for a minute for purposes of checking the oil level and then fired right back-up.

Thanks again to Joe W7IG for the use of his property for the week-end. Things should be back to normal on the farm now that the mob has departed the premises.

We overheard the usual comments at closing time. "We did pretty good but just wait to next year, I'm going to get a better set-up on rigs and the antenna is going to be something else, a lot better and...and..etc"

Sorry we have no pictures at press time. Maybe next month a picture or two will show up.

SALMON BAKE

Wednesday, July 19th, will be the Radio Club of Tacoma night at the annual Salmon Bake at Owen's beach. (Point Defiance) The bake is sponsored by the Tacoma Metropolitan Park Board. Time will be 6:30pm. Put a string on your finger, so that you do not forget. The salmon and corn is the mostest so don't miss this. See you there.....Ed

WESTPORT FISHING TRIP

It is getting late, so get your reservations in for the fishing trip and get together at Westport.

Here are the figures again for the last time. Charter \$16.00. Bait \$2.00. Tax .90. A total of \$18.90. If you need a pole, add on \$2.00 with tax of .10 for a total of \$21.00. A \$5.00 deposit must be in by July 5th.

Gull charters boat, "Sirod" will leave the dock at 6:30am., so you will have to clear the office by 6:00am. Bring a lunch and warm clothing and rain gear, even though it will be in August. It can be cold and wet on the briny deep.

For those that do not fish, come on anyway. We have a ball at Greta Warburton's "Whispering

(cont. next col.)

Trip (cont.)

Pines". Bring along some food and a sleeping bag and you are sure to have a fun time.

Refer to the map, located elsewhere in this issue, for details on how to find Warburton place and the Gull Charter's office.

Come one, come all!Scotty K7C

HAM-FAIR AUG 18 & 19

Pre-registration \$6.00 (includes dinner Sat.)

Admission at door \$3.00 (no dinner)

Trailer, Camper and motor home space \$1.50 per night. (Includes electricity-no sewer hook-up and water available)

Sunday morning Loggers Breakfast \$1.50. Children under 12 years \$1.00.

The Puget Sound Council of Radio Clubs will sponsor the resistor hunt.

Bob Artico, W6GFS, chief application engineer for C.T.C. will give 2 seminars on solid state linear amplifiers.

Saturday the 18th., Tom Campbell, WA7FJC, will hold a seminar on solid state receiver design.

The Radio Club of Tacoma, Ladies auxiliary will set-up the snack bar as they have in the past.

Jerry Seligman, W7BUN, will run the puzzle contest, mystery circuit and the mobile judging. There will be two transmitter hunts. One on 160 meters and one on 75 meters, on Sunday the 19th.

There will be a swap & shop and possibly an auction. Bob WA7IPR and Scotty K7CYZ will have a hole-in-one contest.

The grand prize will be a 2 meter F.M. transmitter.

Registration chairman is Emil Koth, K7GPK. Send your checks or money to Emil, early. His address is 13616-10th ave. East, Tacoma 98444. Phone is LE 1-2670.

REPEATER NEWS

The Badger Mountain repeater (Wenatchee) is in full operation. It is licensed under the call W7CCY and access is by carrier only. Input 146.34 and output is 146.940.

A LITTLE MORE EFFORT IS THE DIFFERENCE BETWEEN BEING GOOD AND BEING GREAT.

LETTER TO ALL AMATEURS

DROOLING CORNER

June 29, 1973

Dwayne Lewis K7KSZ Comm. chmn.

Comm. for Seafair Races 7 -28 & 29

All interested amateurs

We have been asked and have accepted the responsibility to furnish communications for the S U Class Outboard Race, which is a 225 mileathon being run on the 29th of July. This race will kick off the Seafair Week and should be every as exciting and packed with a thrill a minute any race ever run on the unlimited course. The boat will be here from all over the country in competition for a fairly large purse. These boats are capable of speeds in excess of 30 plus miles per hour.

Seafair, in the past, had not used amateur radio because it was thought that the only way to get a clear channel and reliable coverage was to use a commercial band. This limited the number of amateurs available to them. They knew that CB radio would not work and they thought that amateur radio would be much the same way. They have been assured that amateur radio will do the job very well, but a lot of the pudding is in doing it and doing a job superior to anything they have had in the past. This can be done but will take a consolidated effort on our part to see that it works.

We will be setting up a meeting, somewhere in the Seattle area, hopefully in the next two weeks, for all those interested will meet to be registered and the pit passes will be issued. There will be no way for anyone without a pass to get in the area, so you will have to be at the meeting to be signed up. There has been a rule of the road in the past, as far as the pit crews, boat owners, sailors, etc. are concerned and that is a Seafair pass must be worn with the pass. This means we will be buying a pin at a dollar each but also remember that the dollar goes toward a very worthy cause and is used by Seafair to aid other needy people and projects much in the same way as the use of dimes and others do with their donations, throughout the year.

We will need forty (40) portable units and operators that can operate on 146.64MHz from 7:00 AM to 7:00 PM for an eight hour period. We will need operators for both the 28th and 29th of

(cont. next col.)

Letter (cont.)

July and would like to have the same people for both days. The 28th is the Saturday before the big race and will be a full dress rehearsal as to who is in which patrol boats, etc., plus time trials and whatever else needs to be taken care of before the race. So it is very desirable that you be there on both days, if possible.

I would like a list of those who can make it mailed to me as soon as possible, so we can start compiling our operation before our special called meeting. Remember we have less than 30 days to put this together and all your help will be greatly appreciated.

Please include in your list, your name and call your gear and whether you are available for both days or not.

This race will be televised and will be a big boost to amateur radio, so try to make it.

Thank you in advance,

/s/

Dwayne Lewis K7KSZ

2026-92 Ave. S.E.

Everett, Wa 98205

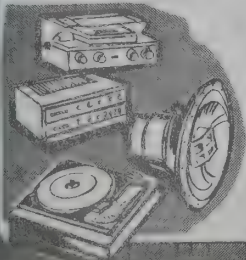

NOTE: THE FOLLOWING RECEIVED AT PRESS TIME.

The meeting has been set for July 18th at the Seattle City Light auditorium at 7:30pm. (97th and Stone) If you plan to give your needed help, be sure to be there to get the details. Remember, without your help, we could fall down on this job. With everyone pitching in, and doing the job the way we know it can be done, all amateurs in the Puget Sound area will benefit by the results.

ALL THAT IS NECESSARY FOR THE TRIUMPH OF EVIL IS THAT GOOD MEN DO NOTHING.

The FCC has granted ARRL's request for a 60 day postponement of the comment date in Docket 19723 the RACES study. The ARRL also had requested postponement from June 30 to October 30, the effective date of the new repeater rules and on June 28, FCC extended the compliance date to August 30th.

The Administrative Council of the International Telecommunications Union voted to hold a worldwide conference on radio regulations in the 1978-1980 period. This is the first official ITU action towards a worldwide conference on radio allocations and regulations.

The Supreme Court will be reviewing Federal Communications Commission licensing and application fees and this may delay any FCC action to increase present fees by as long as a year.

On June 6th, the FCC released a notice of inquiry and notice of proposed rule-making to action on RM1747, the Electronics Industries Association petition to re-assign part of our 220 MHz band to CB, along with five other related rule-making requests (RM's 1633, 1656, 1761, 1793 and 1841). Basically FCC proposed that 40, 25KHz channels of a new class E Citizens Radio Service be established between 224 and 225MHz. FCC seeks detailed suggestions on what activities should be permitted in such a new service and what regulations should govern, with particular interest in enforcement procedures. The comment date is September 20th (NOTE: The complete FCC notice will be posted on the club's bulletin board)

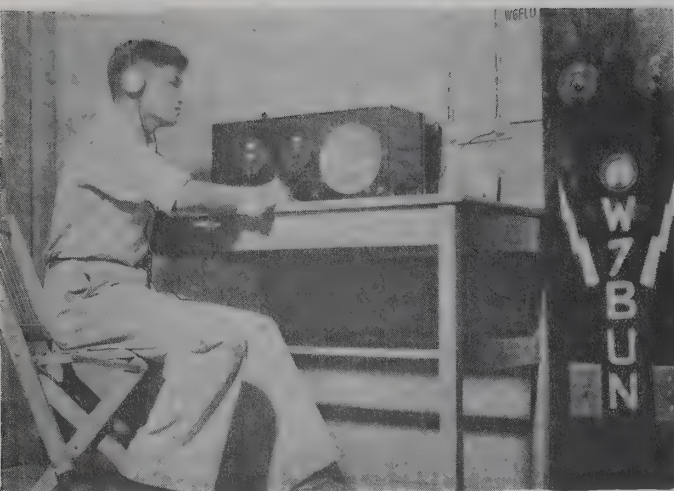

A severe paper shortage has caused a 10% increase in the cost of paper for QST. Additional rises in cost and a lower grade of paper is forecast.

The new FCC examination, especially the Novice seems to be a test of ability to read tricky English sentence construction, rather than a test of electronic knowledge. Many unfavorable reactions are being expressed to the League.

The League's January resolution, will be formally presented to the FCC on July 9th at a meeting of the full Commission.

A 1974 maritime-mobile ITU conference will not effect any amateur regulations.

(cont. next page)

Jerry, W7BUN, would like any information, concerning the original holder of his call letters. Pictured, above, is a photograph taken about 1932 of the first W7BUN. If you have any knowledge of this ham, please call Jerry at TH 5-7652.

AUXILIARY NEWS

By W7WLX

The Auxiliary will have no summer meetings, except for one special meeting on Thursday, August 2nd at 7:30pm at the clubhouse.

All hands are needed at this meeting to plan our part in the activities of the HamFair. Bingo will be one of the happenings and if you have anything suitable to donate, that we can use as a prize, it will be much appreciated. The snack bar will be our main concern. If you can't attend this meeting but would like to help on August 18th and 19th, please call Ethel at GR 2-4213.

We will take care of these details quickly and spend the remainder of the evening playing 5-card Pinochle.

We usually have about eight at our auxiliary meetings but this last month we did some extra phoning, with the result that we did have some new faces at the meeting for a total of 8.

All who did not come, were real losers on this one. Amy Ahlstrom showed us how to make leis with gorgeous fresh Hawaiian flowers. Amy had bags of Orchids, Plumeria and Crown flowers and we each made several beautiful leis. Our special thanks to Amy for the fun and very special thanks to her mother in Hawaii for sending the fresh flowers.Ethel

P.S.C.A.R.C. NEWS

By W7BUN Delegate RCT

The Western Washington DX Club will hold their annual picnic in conjunction with the Council's picnic and country store, Sunday, August 26th at Lincoln Park in Seattle. Full details and a map will appear in the August Loggers Bark.

The second 1973 meeting of the ARRL Board of Directors is scheduled for July 19th. Be sure to communicate your ideas to Director, Thurston, before he leaves for the meeting.

A new edition of the ARRL Repeater Directory is available free by sending an addressed envelope larger than 6 X 9 inches, with 24 cents postage, to ARRL, 225 Main Street, Newington, Conn. 06111.

VISITING SPEAKER

Rush Drake, W7RM, gave a very interesting talk on low band antennas during the meeting in June. He gave us some very fine pointers on our field sight and our mistakes we have been making with our antennas.

Thanks to Rush and we hope to have him back soon.

M. J. B. LIDS
By W7WLX

Keep those lids coming!

We've had excellent response and will again be able to supply a 40 cup automatic percolator as a prize from the Auxiliary.

We also still have enough credits to obtain one case of coffee for club use. This is a very worthwhile trash saving project.

SWAP COLUMN

W7ALE:

Progress line mobile. Converted to 53.528 volt - \$100.00

Base station converted to 53.528 110 volt .00

2E1 not converted. 12 volt \$30.00.

Get Norris Nelson, 1302 So. 68th. GR 2-9555.

BUILDING FUND NEWS

The building fund is \$6.00 richer, thanks to Tom, W7PK and Frank Hemenway, K7CTN.

Tom and Frank had flowers coming to them, but Tom was hospitalized but suggested that the auxiliary give the money, instead to the building fund.

This is indeed appreciated by the entire club and we hope they are feeling good too!

CLUB MEMBER LETTER

Friends,

Thank you for your contribution to my recent sign for Washington SCM. Even though our efforts were not successful, the experience was enlightening. We made a lot of friends and certainly gave our competition a "run for their money".

(cont. next col.)

We had many forward-thinking positive ideas, especially implementation of a state-wide public relations organization, overhaul of the AREC and appointment system and a program of inter-club activities.

We shall now strive to help the elected SCM to further these plans.

Again, my most sincere thanks for your support.

73,

/s/

Jerry Seligman, W7BUN

DX MAIL

W7OS DE G5CP

Dear Doc.,

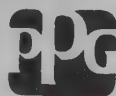

How very pleasant to receive a letter from you this morning - glad indeed to hear of the success of the 'First Homecoming' and of your decision to hold a second one later in the year. It would give me a great deal of joy to be with you at that time, but the distance from here to Tacoma, together with the cost, will alas, rule out the possibility. I shall however be with you in thought at that time and I wish you and all the members of your enterprising Society every success.

Thank you for your letter, which I received in reply to the one I sent to you in 1971, on my return home from my U.S. & Canadian trip. No, I did not see a copy of the article you wrote about me in July 1972 - can you please let me have a sight of it?

Sorry to hear about Don Klumb's illness but very glad to hear that he is now recovering - I'll write to him in the near future. I keep in regular mail contact with John Mardesich, W7MX. We keep prodding him. Whilst on the subject of visits, please be sure to let the Club members know that they will be very welcome to visit us here in one of the most beautiful parts of England. I live in a 300 year old stone cottage and we have one spare room, which is often occupied by visiting amateurs and wives. This is the extent of available accommodation but there are several hotels within easy reach in case of need.

Perhaps I might record a tape, using the modern cassette, to be played at the 'Homecoming' if you would wish me to - of course if the Club sent me an air ticket, I would undertake to address you all!!!! Seriously, I will be pleased to do a tape, please say what you think about this idea.

Membership Services

BOARD MEETING 5/2/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma was called to order May 2, 1973 at 8:10pm. by President Len Goodwin W7HHI.

The minutes of the previous board meeting were read and approved.

The Mike and Key Club and the BEARS have challenged us for Field Day. We are going to look at the conditions of the challenge, etc. before we accept.

Len W7HHI announced that plans are being made to help the Boy Scouts with a camping activity in

(cont. next col.)

early June. The Radio Club and Army MARS will provide emergency communications capability.

Len W7HHI asked if the club would be interested in having some sort of emergency communications set-up, which would be available to help in this locality, when needed. There was general agreement that such a set-up is needed. This will be brought up at the next general meeting. An emergency communications coordinator will need to be appointed.

Dennis W7UBA asked for volunteers to help complete the tower hole.

Bill WA7SCN reported on plans for field day. Those interested in operating should contact him.

Doc W7OS reported that he talked to one of the Puyallup Fair directors. He will work on getting us 3 or 4 more feet for our display.

Dennis W7UBA announced that the Spanaway library would like to have a program presented on amateur radio. Can anyone help?

Len W7HHI reminded us that we will need to elect a new Vice-President and program chairman during the next regular meeting.

Scotty K7CYZ reported that the drawing for the home-coming queen will take place at the HamFair. There being no further business, the meeting was adjourned.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (secretary)

BOARD MINUTES 6/6/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma was called to order on June 6, 1973 at 8:05pm. by President Len Goodwin WA7HHI.

Doc W7OS announced that a portion of the museum equipment of the QCWA and the Radio Club of Tacoma will be on display at the Tacoma Mall on the 25th, 26th and 27th of July. Volunteers will be needed to help with this project. Scotty K7CYZ and Bob WA7IPR volunteered. More volunteers will be asked for at the next meeting.

Doc W7OS suggested that one of the upstairs rooms should be used for storage of museum equipment. Doc needs the room in his basement, which is currently being taken up by this equipment.

Doc W7OS recommended that there always be a club member appointed as museum curator to take care of antique equipment. Doc presently holds this position.

Pill WA7SCN reported that plans for field day are coming along well. Bill also informed us that other radio clubs, he has been to, have sold raffle tickets at the beginning of the meeting and then have a drawing for a prize during the meeting. This is a money maker and also creates interest.

(cont. next page)

This idea will be brought up at the next regular meeting.

There being no further business, the meeting was adjourned at 9:37pm.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (secretary)

CLUB MINUTES 5/23/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:07pm., on May 23, 1973 by President Len Goodwin WA7HHI with member and guests standing and pledging allegiance to the flag.

The minutes of the previous meeting were read and approved as corrected.

There was no treasurer's report, since the Treasurer was absent.

Bill WA7SCN gave the field day report. June 9 and 16 will be the antenna raising dates.

Don WA7PIN went to Bremerton to check on a surplus communications van for the club. The vans available were in very poor condition. Don will keep checking for better ones. Don is also working on the club's emergency communication project. He will have a questionnaire in the next Loggers Bark concerning this. Please complete yours and send it in.

Jerry W7BUN announced that the Puget Sound Council has a picnic planned for all members of the Council on August 26th. Also the ARRL has a new pamphlet available on amateur satellites.

Scotty K7CYZ thanked those who participated in setting up a mobile communications system at a recent sports car club event. Although many volunteered to help only two club members actually showed up to help.

Dennis W7UBA still needs volunteers to help finish up the antenna tower hole. He is also still looking for an inexpensive source of chairs for the HamFair.

It was announced that on Wednesday, May 30th a meeting will be held at the club house to make further plans for the HamFair.

Jerry W7BUN suggested that a ramp be installed at the back entrance for wheel chairs. This will be discussed with the building chairman.

Congratulations to David Kist WN7UNH and Larry Seaman WA7QEW, who were voted into membership this evening.

There being no further business, the meeting was adjourned. We then enjoyed an interesting and informative program on antennas presented by Rush Drake, W7FM.

Respectfully submitted

/s/

Chris Jensen, WA7MJK

Don Stoner, W6INS outstanding technical author, will tentatively give a technical seminar at HamFair 73

Dave W7GVG has undergone surgery at Doctor's Hospital. We wish him a speedy recovery.

The QCWA will have their museum display set-up at the Tacoma Mall July 25th through the 28th.

Two more members of the club showed up for field day with new trailers. Ralph W7COP and Merl W7IKG. Got big plans for the summer months.

Dwayne K7KSZ and Patty K7NQR in the Tacoma area for the boat races on American Lake. Brought the harmonics along and all were in the H.A.M.S. communication bus, which was used for the communications for the race.

Joe W7IG had a visiting plane literally drop in on him the week before field day. Seems a twin-engined aircraft tried to land on his strip but after touching down he slid off the run-way, when he tried to apply his brakes on the wet grass. About \$6,000.00 damage to the plane but the passengers walked away with minor injuries.

Roy W7AZI and Ethel W7WLX caught Dick W7RGE working over his own lawn with a new metal detector. Dick found 2 coins and some other pieces of assorted metal junk.

Bob K7IND patching up some problems on his trailer. Getting ready for his vacation in July. Also he was heard mumbling something about the new female radio operator just hired at the State Patrol office. Seems he got stuck with working with her on a busy Saturday shift.

Dick K3PIW has now received his 7 call. Will be using WA7UVA from now on.

LEN
W7DXH / KG6SW

Visitor (cont.)

VISIT FROM CLUB MEMBER
By W7OS

Leonard Kaufer, W7DXH/KG6SW made a surprise visit to the Radio Club of Tacoma on the 9th of June. After the regular club meeting, Len was invited to tell of his experiences in Saipan. I asked him to jot down a few interesting bits of information and I will give them as he wrote them. First of all he earned his Doctor of Philosophy. He first joined the club in 1956. Len is Staff Services (Personnel Officer) for the West Territory of the Pacific Islands, located at the Headquarters Education Division on Saipan. (160 miles from Guam) He is running the Drake "C" line with a Johnson Underbolt into a Mosley classic 33, at 1,000 feet above sea-level, with the Pacific Ocean about 100 miles to the east and the Phillipine Sea to his west. He is hoping to get a 80 and 40 yagi pointed towards the U.S. up soon. He can be found on

(cont. next col.)

the Confusion Net (2330-0100z) Friday-Saturday evening (Tacoma time) on 21400. He has a regular schedule with W7YBX at 0400z Saturdays on 14240. A 280 degree bearing should poke a signal down his way.

Len has been and will be looking for members of the DK Club, so give it a try. I know I will be trying.

.....Doc

NEW VICE/PRESIDENT

During the regular meeting, May 9th., the club went about the election of a new Vice/President, as required by the By-laws of the club.

Bill Deatherage, WA7SCN, was voted to the post, replacing Frank Connely, WA7CWL, who resigned because of a change of residence. (Bremerton)

The V/P job is not an easy one, so everyone give Bill a helping hand.

.....Ed

FIELD DAY

Now that field day is only one month away, final plans are pretty well set. However we still have some openings for operators, loggers and helpers.

If you have not been contacted, be sure and get a hold of me and let me know what your desires are.

We will be having a field day antenna raising party on June 9th. So now is the time to be getting equipment out of storage and checking it over.

.....Bill WA7SCN

OLYMPIA RACE REPORT
By K7CYZ

Sunday, May 20th, the Club supplied three mobiles for the cross country race and rally, held in the Rock Candy Creek and Capitol Peak area. We had stations set-up on the two most dangerous hills. There were some thrills and near mishaps but only one car had to be pulled out of the ditch. If he had gone off the roadway on the other side, it would have been a 300 foot lift, to get him out. As it was, just a crumpled fender.

The mobiles working the race for the communications, were Len WA7HHI, Jack K7SRU, Gene K7EEK and Scotty K7CYZ.

The SSR Club liked our work and said that they would be looking forward to using us again.

HAVE YOU CHECKED OUT THAT GEAR FOR FIELD DAY??

ARRL NEWS IN BRIEF

By W7BUN (OB Station)

Docket 19723 is a notice of inquiry from the FCC, soliciting comments and suggestions about the Radio Amateur Civil Emergency Services (RACES). Interested parties should read the full information in June QST and make comments before July 1.

AMSAT again asks for cooperation of OSCAR users in observing the operating schedule and power limitation. It appears the one year design lifetime will be achieved.

The ARRL has a free pamphlet called, "Member Guide to Amateur Satellites". Send an addressed envelope, larger than 6"x9", with 16 cents postage to ARRL for this very informative publication.

Rex Maner W5QQQ, Glenn Ewing K7GBW (ex club member), Bob Weightman WA7IPR and Jerry Seligman W7BUN were granted Life Membership in the ARRL at the May 5th Executive Committee meeting in Birmingham, Alabama.

The League will request postponement of the July 1st effective date for the new repeater rule so that repeater licensees, who have not been able to meet the deadline for filing applications, will not be forced off the air pending completion of paperwork. Along similar lines, the FCC has issued some very liberal interpretations of its own rules covering applications for repeater licenses. (See W7BUN for copies of this)

The FCC denied the petition of Docket 1731 filed by the New York Civil Defense Commission, requesting facsimile operation in the 160 and 80 meter bands by RACES stations.

As a result of increased QRM to the 80 and 40 meter Canadian phone bands, precipitated by the recent expansion of the U.S. phone bands, the Department of Communications will drop the Canadian phone privileges to 3650 KHz and 7075 KHz on or about June 15th..

RM-2187 (by WA7HCQ) petitions the FCC to permit assignment of preferred calls to holders of Extra Class licenses.

SUMMER'S HERE. YOU KNOW WHAT SUMMER IS, DON'T YOU? THAT'S THE SEASON THE CHILDREN SLAM THE DOORS THE LEFT OPEN ALL WINTER.

DIPLOMACY IS THE ART OF DIVIDING A CAKE SO THAT EVERYONE THINKS HE HAS THE BIGGEST SLICE.

THERE HAS BEEN NUMEROUS ATTEMPTS OVER THE YEARS TO ORGANIZE A DISASTER
R EMERGENCY COMMUNICATIONS SECTION IN W7DK. A NUMBER OF MEMBERS HAVE EX-
RESSED A DESIRE TO TRY AGAIN. IN AMATEUR RADIO THERE IS SOMETHING FOR
EVERYBODY, IT JUST DEPENDS WHERE YOUR INTEREST LIES. IT WOULD BE
BETTER TO HAVE FIVE MEMBERS WHO ARE DEFINATELY INTERESTED IN EMERGENCY
COMMUNICATIONS AND ARE WILLING TO DEVOTE THEIR HAM RADIO EFFORTS IN THAT
DIRECTION RATHER THAN HAVE THIRTY OR FORTY MEMBERS GOING AROUND IN CIRCLES.

IF YOU ARE SINCERELY INTERESTED IN FORMING AN EMERGENCY AND DISASTER
COMMUNICATION SECTION FOR W7DK PLEASE FILL OUT THE FOLLOWING QUESTIONNAIRE
AND RETURN IT TO DON WA7PIN, SCOTTY K7CYZ OR ROY W7AZI. ALSO ANYONE
WISHING TO DONATE OR LOAN STATION EQUIPMENT TO THE CLUB TO USE FOR A CLUB
STATION. PLEASE CONTACT DENNIS W7UPA. THIS EQUIPMENT WOULD ALSO BE USED AS
W7DK EMERGENCY OR DISASTER STATION.

DO YOU HAVE ANY OF THE FOLLOWING EQUIPMENT?

Mobile..... What frequencies?

Portables..... What frequencies?

Emergency power?.....

Four wheel drive vehicle?..... Pick-up?.....

Boat and trailer?

First aid card (current) ☒

PLEASE ALSO ANSWER THE FOLLOWING AND GIVE ANY SUGGESTIONS YOU HAVE.

1 Would you be able to leave work in case of a REAL emergency and operate?.....

2 Be prepared to stay in the field?

3 Your thoughts on using the clubhouse for a base station for all frequencies?

4 What frequencies would you suggest for emergencies?

(USE THE BACK SIDE, IF MORE SPACE NEEDED FOR ANSWERS OR COMMENTS)

SCOTTY K7CYZ SERVING VERNA RYAN

MOTHER'S DAY BREAKFAST

The annual Mother's Day Breakfast was a good one, compared to last year. We fed 32 adults, almost as many kids.

Roy W7AZI was chief number one cook on the hot-plate griddle. The cakes were delicious, as usual. Scotty K7CYZ was chef number two, in charge of bacon and eggs. Even an amateur couldn't ruin the fresh eggs that Ethel W7WLX brought. Burt WN7QQK took the honors, keeping the dishes cleaned up.

Each mother was presented with a planter of geranias, donated by one of our club's best friends Howard Harman. Thanks for the flowers and best wishes on your retirement, Howard.

See you all on our next annual Mother's Day Breakfast.Ed.

AUXILIARY NEWS
By W7WLX

The next meeting of the Auxiliary will be June 1st, 7:30 PM. at the clubhouse. Amy Ahlstrom will show us how to make fresh flower leis and how to have some special blossoms from her mother, in Hawaii. There is lots of room in the clubhouse so we will hope to see some of the wives who are automatically members of the auxiliary, in their QMs club membership, so come and let us get better acquainted.

The last meeting's program was devoted to travel with slides and a representative of the Safari Air Travel Club, who gave us enticing details of how to do our own traveling for less.

The THIRD PARTY NITE in June will be part of Wild day since most of us will be there - we will do our usual horseshoes, jarts and cards in the picnic area of the airstrip. We had a good time at the May party night and it was nice to see singles come since that is part of the idea to make these fun sessions available to one and all.

W7AZI
ANOTHER BATCH COMING-UP!

MINOW REPORT

By W7WLX

Last year the MINOWS net held their annual meeting in our clubhouse and had 17 YL ops present from Washington, Oregon, Montana, Idaho and California. This year the meeting was in Coeur d'Alene, Idaho on Sunday, May 20th., with 15 ops and their QMs and families. Washington, Oregon and Idaho were represented.

This being the 10th anniversary of the MINOW net, the club treated everyone to a free dinner at the Iron Horse Restaurant and in addition gave away \$40.00 in cash door prizes. The treasury was saved some of its cash by the fact that some of our members attended the Yakima Hamfest that day. Another one of those conflicting date situations that seem to be part of life these days.

Next year's meeting will be in Richland but we will also be at the Walla Walla Hamfest - in Milton Freewater this year. ...Ethel

ROSTER BOOK CHANGES

During the month of May, the club gained 4 new members to its ranks. The following are their names and should be added to your roster book on the pages provided for that purpose. We hope the new members will attend meetings as often as possible and join in on the many club projects.

WESTPORT OUTING

Remember the Westport week-end and fishing trip. Bob WA7IPR and son Dick are the first ones to sign-up for the fishing. This may seem a little early to remind you, but we have to have a confirmed list before the end of July and this is June!

The July issue of the Loggers Bark will have a map of Westport, showing how to get to Greta Warburton's "Whispering Pines" and to the charter boat office and dock.

Time is creeping on us fast, so, get your name in soon. Don't forget, that although you are not a fisherman, the outing at "Whispering Pines" is a fun outing for all and that part is free!

.....Scotty K7CYZ Chmn.

WORLD OF NOVICE

By WN7UQV

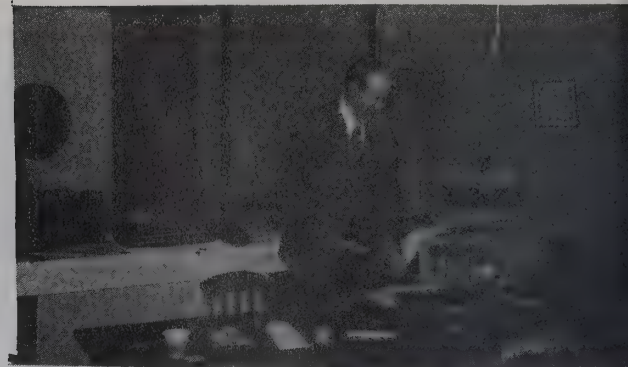

Rumor has it, that the Generals are going to show us up at Field Day this year (2m, 6? & 10m C.W. that is) but we know different! As a matter of fact, we challenge the 2m, 6m & 10m C.W. crews, to out do us.

I'm sure we will be extremely thirsty after our triumphant Field Day ordeal, so we will allow the losers (that means you guys) to furnish a little something to quench our thirst.

We anxiously await your answer to our challenge! May we suggest that if you accept, you purchase the two cases of beverage (1 beer, 1 pop) prior to your arrival at the site, so as to eliminate any unnecessary trips to the market -- after you LOSE.

April 12, 1973

Dr. F. Clifford Spike W70S
Tacoma, Washington

Dear Doc:

Many thanks for your letter re toping W6GCM with a total of 41 League membership certificates. Sure would like to see a photo if it's not too much trouble. Might find a spot for it as a Stray in a future issue of QST.

73, Morgan W. Godwin W4WHL /1
Assistant Secretary for
Membership Services

May 15, 1973

Mr. Morgan Godwin
Newington Conn.

Dear Mr. Godwin:

Thank you for your nice letter in reference to my letter, regarding the article in April QST, on page 34, the subject of which was displaying 39 ARRL membership certificates.

My letter intimated I was the proud owner of 41 membership certificates, the earliest being dated November 11, 1919. Since my letter, I have just received my latest 1973 membership certificate (now 42) and in accordance with your suggestion, I have just taken a picture of my trying to display that many certificates and still get in the picture, Hi. I came up with the idea of fanning them out, with the oldest one on top. My previous letter gives a few more details and one other, which I tried to show, is my pretty complete file of QST. (In the picture background)

Not to be outdone, I took another view with the old Royal Order of the Whoof Hong, hanging up on the wall, as a back ground.

I am pretty sure that by now you have been flooded by many members, who have many more certificates but none more proud than I am. I am pretty sure that I did send a QSK card, so 73

LETTER EXCHANGE WITH ARRL

In the April issue of QST, page 34, there is a picture of W6GCM with a background of ARRL certificates on the wall. The caption states that there are 39 different certificates with the challenge "How many amateurs can top that?" W70S took the challenge and sent in the following letters and picture. (See picture at this article)

April 1, 1973

Editor
Newington Conn.

Sirs,
I read with interest our April 1973 issue of page 34. Article entitled Strays. Quote, "cent 25 year recipient W6GCM sends along this photo of his collection of ARRL membership certificates." Clarence says that this picture was taken three years ago-he now has 39 certificates. "How many amateurs can top that?" I'm sure this will bring the certificates out of the woodwork, just as some of my friends have asked me to send in this note. While I don't have a picture or even a wall to prove it. Still I am proud owner of 41 ARRL certificates, all neatly piled in a frame with the first one dated November 11, 1919 and signed by Hiram Percy Maxim, President and H.B. Warher Secretary. The first is beginning to show its age and I would have several more but I was in the University of Pennsylvania during the early 20's. I guess I am one of those savers, for I have most of the QST's from the early 20's also. I could be persuaded to get a picture too, if I thought it would be of interest. Hi. Enclosed, a rather old QSK card.

73, Doc W70S

(cont. next col.)

The regular meeting of the Board of Directors of the Radio Club of Tacoma was called to order on April 4, 1973 at 8:10pm., by President Len Goodwin WA7HHI.

The minutes of the previous board meeting were read and approved.

Don WA7PIN reminded us that the Puyallup Fair managers will need to be hearing from us soon, concerning our plans. Also Don will need funds to purchase food for the coming party - Spaghetti feed. It was decided that a collection could be taken at the meal and that the difference would be made up from club funds.

Chris WA7MJK suggested that we have another club group picture. This will be discussed at the next regular meeting.

Dennis W7UBA suggested that the club could improve itself by being involved in more activities such as conducting Novice classes. Dennis also mentioned that because the Antons are moving, Jill WA7KSD will need a replacement for her project of teaching about amateur radio at the Spanaway library.

Don WA7PIN suggested that an entertainment committee might be useful for planning club banquets and other functions. Don also mentioned that our club needs to do some thinking and planning, as to how we could be of service in times of emergency. With proper planning we could have the capability of supplying emergency communications.

Len WA7HHI mentioned that we could have a time set aside during the meeting, during which, members could describe radio projects, etc..

There being no further business, the meeting was adjourned at 9:37pm..

Respectfully submitted,

/s/

Chris Jensen WA7MJK, secretary

CLUB MINUTES 4/25/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:10 pm., on April 25, 1973 by President Len Goodwin, WA7HHI, with members and guests present standing and pledging allegiance to the flag.

The minutes were read and approved as read.

All members stood and introduced themselves.

It was our pleasure to have JH1FZG as a guest.

Treasurer's report:

Savings account \$269.21

Checking account 340.99

Building fund 213.82

Bills:

Spaghetti feed expenses \$19.32

Wicks trophies 2.27

Telephone 11.91

A Motion was PASSED that the bills be paid.

Scotty K7CYZ has reserved a boat for the

(cont. next col.)

Westport outing on August 4th and 5th. Scott must have your reservations for the boat along with a \$5.00 deposit by July 5th..

The Gardners of Paradise will be using the services of the Radio Club of Tacoma again this year, on May 5th and 6th..

Joe Asplund, W7IG, has invited us to his far for field day this year. The auxiliary has volunteered to take care of the cooking for this event.

Dennis W7UBA reported that the hole for the tower is now in progress.

Jerry W7BUN announced that the FCC has released new study questions for the Novice and General license. Jerry has also been in contact with Puyallup Fair official about our exhibit plans.

Joe WA7RWK told about the accomplishments of the last work party. Many members pitched in to make it a success. However, we still need some volunteers to paint the window sash.

Dennis W7UBA is still looking for a source of chairs for the coming Ham Fair.

Len WA7HHI confirmed that we will be helping the Boy Scouts with one of their camping activities, early in June. With the help of Army MARS the Club will be supplying a communications link.

Scotty K7CYZ announced that we will have a homecoming queen this year. The drawing for this honor, will take place at the Ham Fair.

The Secretary read a letter from the Shelton Correctional Center. They will contact us if our help is needed for the radio club, there.

Frank WA7GWL resigned as Vice/President. A new Vice/President will be elected.

Jerry W7BUN reported that Marion Wylie's antenna is now installed but still needs adjustment. Marion K7CTY is sending us a new check to replace the one missing from our mail box.

Don WA7PIN announced that there is a possibility that electronics classes will be offered at Tacoma Junior High's next fall.

Jerry W7BUN told us about some of the interesting programs for future club meetings.

Dennis W7UBA will be in contact with the postal inspectors, concerning our missing mail.

There being no further business, the meeting was adjourned at 8:55pm..

We then enjoyed a slide program on the AMSA satellite project presented by Dave Robinson K7BB.

Respectfully submitted,

/s/

the regular meeting of the Radio Club of Tacoma called to order on May 9, 1973 at 8:10pm. by President Len Goodwin, WA7HHI, with members and guests standing and pledging allegiance to the flag.

The minutes of the previous meeting were read and approved.

Treasurer's report:

Savings account	\$269.21
Checking account	412.57
Building fund	216.82
Bills:	

Utilities	\$29.98
-----------	---------

Motion was PASSED that the bills be paid.

Doc W7OS has 5 new pictures for our albums of members.

Scotty K7CYZ reminded us to get in our reservations for the salmon fishing at Westport on the 4th and 5th.

Our traditional Mother's Day Breakfast will be held next Sunday morning. All are invited. Help will be needed, Saturday afternoon to arrange tables, clean floors, etc.

It was the honor of the Radio Club of Tacoma to have as a Special Member, Dr. Leonard Kaufer, KC6SW, present at our meeting. Len took time from his busy visit and busy schedule, to be with us for the evening.

The Auxiliary will hold their meeting next Tuesday at 7:30. A number of interesting projects are being planned.

Bill WA7SCN discussed field day plans and assignments.

Don WA7PIN will be going to the navy yard, this weekend, to look for a possible communications site for the club.

Dennis W7UBA reported that the antenna tower is progressing. He also mentioned that he is looking for an inexpensive source of chairs for the Ham Fair.

Jerry W7BUN has contacted one of the Puyallup officials, who will submit our request for additional space and a more suitable antenna area. Doc W7OS also has spoken to one of the fair directors about our needs.

An election for a new Vice/President was held. Bill WA7SCN and Dennis W7UBA were both nominated. Congratulations to Bill Deatherage, WA7SCN, the new Vice/President of the Radio Club of Tacoma.

Bob W7AZI volunteered to call the Boy Scout office to find out when their camping activity will be. The club has volunteered to assist at the activity.

Jerry W7BUN inquired if there are any amateur radio training classes being conducted at the present time?

Our club is in favor of having an emergency communications group. Don WA7PIN volunteered to

(cont. next col.)

be chairman. Roy W7AZI and Scotty K7CYZ will help.

It was decided that the club will have its next auction at the coming Ham Fair.

See Scotty K7CYZ if you would like to help with an emergency communication set-up at the coming Sports car club event.

A teletype message from K7KSZ to Dick W7RCD was read. The message concerned needing help with radio communications for the future Seafair boat races.

Congratulations to Jerry Kreger, WN7VTK and Gaylord Mattes WN7VIJ, who were accepted into membership this evening.

There being no further business, the meeting was adjourned at 9:15pm.

We then enjoyed talking with Len Kaufer, KC6SW/W7DXH. He told us of his many interesting experiences in the Pacific Island Trust Territory.

Respectfully submitted,

/s/

Chris Jensen WA7MJK secretary

SLIVERS & SPLINTERS

Maxine Thurston (XYL to W7PCY) reported in the hospital, seriously ill but on the mend now.

Frank Hemenway and Tom Gilmore also on the mend at home after a bout with the hospital.

Don WA7PIN made a trip to Bremerton to check on the possibility of purchasing a emergency van for the club. The ones that were available for the GSA sale, were junkers so Don will wait for another shipment to check over.

Bon WN7UQV is looking for a rotator. Has a control head but needs the other half for field day. Contact him at SK 2-0182 as soon as possible.

Merl W7IKG had a bout with his back. Strained muscles is blamed for the trouble and the Doc kept him one step away from the hospital. Doing better now but don't ask him to indian wrestle.

Bill WA7SCN still looking for operators and ideas to help out for field day.

Ralph W7COP and XYL out looking at trailers. Bob W7PXS along with them one night to give pointers on what to look out for.

Dick W7PGD still working out the bugs on his 2 meter teletype circuits. Can copy ok but having difficulties on the transmitting circuits. Dwayne K7KSZ giving ideas via the twisted pair.

Joe WA7RWK back on the east coast for a week. Harmonic, WA7IVO, assured the club that Joe wasn't buying a new car that the club's securities were safe.

Marion K7CTY heard on 75 meters from his new QTH. Good signal too! Good to hear you on again Marion.

Don't forget the antenna parties, up at Joe's W7IG for field day on the 9th and 16th of June. This is more fun than work fellows. See you there!

VISITOR TO W7DK

APRIL SPEAKER

JH1FZG & JAØLAH

It isn't often that we are privileged to have a visitor from Japan. However, at our regular meeting on April 25th., Doc W7OS introduced Mr. Akira, JH1FZG and JAØLAH, who is a graduate student at the University of Puget Sound, in business administration.

Akira did his early studying at the University Aoyama-Gakuin. There he was granted a Bachelor Law degree, Master of Law degree and a Doctor Law degree in Japan. Akira expects to finish his studies at the University of Puget Sound, in September of this year.

He is now residing at 3407 North 18th Street, Tacoma and his home is in Tokyo Japan. He also has a home in Nagano Japan, where his family have business.

We extend a warm welcome to Akira, to visit the Radio Club of Tacoma whenever his time will permit.Doc W7OS

K7BBO

Dave, K7BBO, presented AMSAT slides and gave a fine talk on OSCAR 6 during the meeting April 25. He played some actual contacts, recorded during his contacts, via the satellite. The recordings were of both, cw and phone contacts.

MAIL LOSS

All members, please note!!

Some club mail has been lost, so if you haven't received your club membership card and you paid your dues by mail, contact Joe Winters (club Treasurer)

FIELD DAY NOTE

The ladies auxiliary are going to take over the cooking, for Field Day. Roy W7AZI, who has been chief cook for the past several years, requested to be relieved of this duty, so that he can do some operating for a change. A big thank you to Roy for the job he has done for the club, during the past numerous successful field days and we hope he is as successful with the operating, as he has been in the preparation of those wonderful rounded out meals.

Judging from the meals the ladies auxiliary has put together, on our many outings, we are sure that no one will go hungry field-day. Good luck to both Roy and the Auxiliary.....Ed

BUILDING REPORT

by WA7RWK

The work party, scheduled for Saturday April 24 was indeed a success. Yours truly arrived at the club house at 9am., only to find Don WA7PIN and George WA7BHH preparing the spaghetti feed. Shortly thereafter, members began arriving and immediately things started to be accomplished.

The last of the sheetrock was put on in the upstairs radio room. It is now ready for taping and texturing. The upper front room is now cleaned and tidied - wonder what happened to all that stuff?

At about one o'clock, Don and George did their thing and put on the spaghetti lunch. Those that were not there, missed a darn good meal.

The weather was just great for working on the storm windows, which now are installed but still unpainted. We still need someone to weild the brush and paint them. One has been primed.

Tower chairman, Dennis W7UBA, got an assist through Bob WA7IPR, who enlisted the aid of a local electrical contractor to donate his time and equipment to remove the old pole and to drill several holes, close together, as a good start on the excavation for the tower foundation. It is now necessary to shape the three holes into one, large one, by hand, and pour the concrete. Contact Dennis W7UBA if you can help, as this work must be done as quickly as possible.....Joe

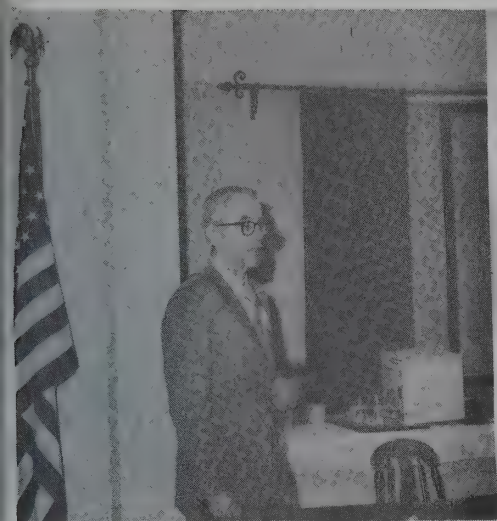

ATTENTION FIELD DAY COOKS!

Recipe for Elephant Stew.

1 elephant
Salt & Pepper
2 rabbits (optional)

Dice elephant into small pieces (takes about 6 weeks). Add enough brown gravy to cover and season with salt and pepper. Cook over kerosene stove about 4 weeks at 465 degrees. Serves 3,800 people. If more are expected, two rabbits may be added but only if necessary because most people do not like to find hares in their stew.

AUXILIARY NOTICE

BY W7WLX

The May 16th meeting of the Ladies Auxiliary will be held at the clubhouse and will start at 7:30 P.M. Our program will concentrate on travel. Ethel will tell us and show us pictures of her trip to New Zealand, last December. Ethel will have a number of pictures to add, of their trip to the Virgin Islands, in January.

We will also have a representative from the Travel Club telling us how we can go to exotic places for less.

We hope to get all of the rags together this month, so give another look around and see what we can be tossed our way.

Keep in mind, "Third Party Night" May 18th at the clubhouse and look for the special article about it.

THIRD PARTY NIGHT

MAY 18, 1973

7:30 PM.

CLUBHOUSE 1249 SO. WASH.

There were some who missed the Third Party Night, in April. It really is a fun evening and a nice to get together in relaxation with no obligations, club-wise. In the room, where I was, there were people playing 4-handed cribbage, some playing 5-card Pinochle and some playing 4 hand Pinochle. I didn't see what the people in the other room were playing but there is always a game going on. When these get together. Not everyone has cars, so Aggravation and Scrabble are also available.

(cont.)

Third Party (cont.)

The "Third Party" theme, means singles are welcome as well as friends, not otherwise associated with the Radio Club. It is on the 3rd Friday to make remembering easier.

The turnout for the May party, will decide about future parties like this. Any "goodie" you want to bring will be set out at the end of the evening, to go along with a cup of coffee. We went heavy on salami, cheese and crackers at the last one but there is variety even in that.

For these first "Third-Party" nights, we are making it **ADULTS ONLY** but there are no hidden charges and we hope it proves worth the price of the sitter.

M. J. B.

By W7WLX

Someone in our club is not aware that MJB coffee can lids are valuable. I found one in our garbage can!!!

The coffee we drink and the percolator that makes it, were earned by saving MJB coffee lids. The tin lid you cut off is what we need. If you drink instant MJB, we need the paper label from **AROUND** the jar. If you drink tea, drink MJB tea and save us the top cover of the box. All sizes of each have point values and for 900 points, we get a case of coffee.

The MJB Company knows the Radio Club if Tacoma and it pays us to know MJB.

Save those lids and bring them to club for me to count and redeem.

-.....Ethel

GARDNERS OF PARADISE

The RCT has been invited to participate in our usual role, in the Gardners of Paradise flower show at Pt. Defiance Park, May 5th and 6th.

The club supplies communications and a P.A. system during this annual City Parks Division Show. Contact Roy W7AZI, Smitty K7ATD or Scotty K7CYZ if you wish to help out with this club activity....Ed

NOTICE!

The June issue of the Loggers Bark deadline is May 21st. Get your reports and articles in before that deadline. With Field Day activities coming we have to get into print early. Anything after the 21st will be too late. (sorry).....Ed

CONGRATULATIONS!

Congratulations to Patty Lewis K7NQR, Bob Klepper W7IEU and Stan Johnson K7KXN all members of Hams Amateur Mobile Service Club (H.A.M.S.) of Everett. They were awarded the ARRL Public Service Award for their participation, in providing communications in the search for the lost hunter in the North Cascade mountains, last October. Congratulations again, guys and gal.

CLUB PROGRAM MAY 23

Rush Drake, W7RM, will present a program on antenna construction, with emphasis on high performance field day antennas.

Rush will also have slides and discussions on the latest monster antenna installed at W7RM site. You have to see em to believe it!!

DON'T FORGET TO PATRONIZE OUR ADVERTISERS!

PART OF THE CHOW LINE

MOTHER'S DAY BREAKFAST

On Mother's Day, May 13th, the men of the RCT will put on their annual Mother's Day breakfast. This is moms day, so be sure you bring the ladies in to the club house and treat them to an excellent breakfast with no cooking, serving or clean-up details involved on their part. and of course no cost to them. There will be a charge of 50¢ for the men but all ladies are guests. Even if she does not want to eat, she can have a cup of coffee, tea or milk and visit with the other ladies. Don't forget, May 13th.!!

REPEATER NEWS

From the Feedline

The latest work on the Seattle repeater, is that they will make the change in frequency by July 1st. Probable frequency will be 146.28 in and 146.88 out. Narrow band at 7KHz. Possibly one site location and Green mountain has been mentioned. Paper work is in progress and the process of lining up control stations is progressing. There is a possibility that new equipment will also be purchased. Thanks to WA7CYY for the information taken at the meeting.

WA7PIN (THE MAN WHO SET IT UP)

LETTER FOR RCT

our former members of
Radio Club of Tacoma

there,

The Radio Club of Tacoma, its officers and members were all so thrilled with the turn out and a wonderful time we all had at the first Homecoming in 1971, that it was decided then that we would not wait another fifty years, before we all get together again. So now, we are starting early to make plans and we *INVITE* and *URGE* you all to come to:

THE SECOND

Radio Club of Tacoma

HOME COMING

1973

We have set aside the night of October 10th., a Wednesday at 8:00 P.M., at our club house at 1249 South Washington Street, Tacoma.

We invite all alumni (former members) of all years from 1925 to 1973 to come and renew acquaintances and to enjoy a good old fashion "Eye-Ball" with others, whom they may not have seen for years. Coffee too, of course.

We will have the wonderful pictures, we took at last Home Coming and we hope to take some more. So do come and if you can't make it, let us hear from you and let us know how you are and maybe send us a picture. If you know of some former member we haven't contacted or lost their address, please drop us a line at 1249 South Washington, Tacoma, Washington 98405.

73,

Scotty Hantley, K7CYZ Chmn.

/s/

Doc Spike, W7OS Asst. Chmn.

/s/

WA7IPR (OK, BRING ON THE GIRLS)

QUARTER CENTURY WIRELESS ASSN.

Section 88 of the Northwest Chapter of QCWA held their annual meeting April 28th., in Centralia. Roy W7AZI, Chairman of the group, was master of ceremonies and introduced Dave Robinson, K7BBO, as guest speaker after a very nice buffet dinner.

The old timers were very much interested in the workings of OSCAR 6 and the plans for OSCAR 7, now in the development stages. Communications have come a long way from "spark-gap" days.

Bill Lucas, W7AEF, of Portland Radio and member of Section IV, brought along a dozen very nice prizes, that made 1 out of 3 people attending, very happy. There were 27 members and 10 XYLs in attendance - not a large crowd but most congenial and everyone went home with a good feeling of an evening well spent.

.....Roy W7AZI

HOME-COMING QUEEN CONTEST

We are adding a new twist to the Home-Coming and old timers night, October 10th., 1973. We will be drawing for a Home-Coming Queen.

Here are the rules;

She must be a mother, sister, wife or (hi) sweetheart of a licensed amateur.

She must be able to attend the meeting on Home-Coming night. (October 10th)

Her name must be turned into Doc W7OS or Scotty K7CYZ on or before the Ham-Fair. (August 18th & 19th. Drawing on the 19th.)

Age 16 to 216.

That's it - Get the names in early.Ed

WESTPORT AGAIN:

August 4th and 5th is the date set for the Club's "get-to-gether" and deep sea salmon fishing. We have a new chairman and a new boat this year. (See above picture)

We would like to thank Ralph W7COP for the wonderful job he has done these many past years as chairman for this annual club affair. Ralph has asked to be relieved of this duty because of other commitments. Len WA7HHI has appointed Scotty K7CYZ as the fishing trip chairman.

We would also like to pass along many thanks to "Charlie" the skipper of the good ship "Chinook". Our club members have brought a lot of salmon to her decks. The Chinook is not available this year so Scotty arranged for another boat. This year we will have the 50' "Sirod" skippered by Jack Silfors for Gull Charters. The price is the same as last year. Charter is \$16.00, bait \$2.00, tax is 90¢. Total \$18.90. If you need a pole that will be an extra \$2.00. Coffee will be served on board. But, bring your own lunch! Also don't forget to bring warm clothing and rain gear. Although this is in August, it can be cold and damp out there on the ocean.

The boat leaves dock #5 at 6:30 A.M. so you should be clear of the Gull office by 6:00 A.M.. The office is just across the street from dock #5.

We must firm up the reservations by July 5th so the \$5.00 deposit **MUST** be in to Scotty before that date.

The Sirod is a 16 man boat so we most likely will have room for some non-club members. So, anyone wishing to join us please contact Scotty K7CYZ 802 South Lawrence Street Tacoma Washington. Phone is SK 2-0332 and of course, club members come first, so anyone interested get a hold of Scot.

This outing is not only for fishermen, it is a weekend family affair. Greta Warburton has
 (cont. next col.)

MORE CHOW HOUNDS

Westlort Kcont.)

invited the club to their "Whispering Pines" ocean retreat on the 4th and 5th of August in Westport.

We will have more information including a map in the June issue of the Loggers Bark.

...Westport Committee

ARRL NEWS IN BRIEF

By W7BUN

The FCC released an order March 26, which gives authority to its Safety and Special Radio Services Bureau to grant waivers to amateur space stations on rules dealing with location, emission, identification, logging and operator privileges. Up to now such waivers had required the vote of seven commissioners in formal session.

ARRL has filed strong opposition against the FCC's proposal to raise license fees. Also more services are requested from the FCC in justification of present fee levels.

An agreement for reciprocal operating privileges has been signed between Fiji and the U.S. An agreement for handling third party message traffic has been signed between Jordan and the U.S.

The FCC has released new study questions for Novice and General examinations. The level for the Novice has been raised noticeably, including several questions involving schematics, while the General has dropped a notch and there are no more questions involving schematics. Some of the new exam papers are already in use. The next License Manual will have all the new questions and June QST will carry the full story on the changes.

Answering a letter, which expressed concern over the effects of the environmental Docket 19555, the FCC General Council said, "the effect of environmental regulations on the amateur radio service will be very slight. I appreciate your concern but am confident that it is not warranted".

(cont. next page)

ARRL (cont.)

Four special postage stamps will be issued in New York on July 10th, the fourth anniversary of the first man on the moon. An 8 cent stamp, commemorates transistors and pc boards; a 6 cent stamp shows Marconi's spark coil; a 11 cent stamp shows Forest's audion and a 15 cent stamp shows a vacuum tube with an early mike, gooseneck speaker and vacuum tube.

More petitions to the FCC:

-2105 from W6WEQ requests grand-fathering to Extra, any amateur licensed prior to December 1941.

-2162 from WA1HDX, wants Novice privileges for Technicians.

-2166 from WB6HDB, wants Novice privileges for Technicians, who have upgraded from Novice.

-2167 from K6BX, seeks new regulations to license and control net operations.

-2168 from Maryland C.D., wants expanded RACES frequencies and RACES privileges for Technician

-2270 from WA6WUI, wants H.F. facsimile privileges.

-2163 from WA9HCZ, wants facsimile privileges on the 10 meter band and higher bands.

-2165 from WA9FCI, wants restrictions relaxed on message traffic.

-2150 from WB2EXK, wants power limitations by output rather than input, new allocations for the 160 meter band and re-allocated subbands for higher class licensees.

-2151 from K2GCL, wants mandatory repeater input and output subbands and mandatory frequency separation.

-2154 from Ft. Worth Texas C.D., wants expanded RACES subbands, primarily for repeater usage.

The League participated in a NASA community educational program, held recently in Little Rock. Involvement of amateur radio uses amateur satellite communications as a teaching aid in the space sciences. A curriculum supplement for use by science teachers has been printed by the ARRL. SK

BOARD MINUTES 3/7/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma Inc. was called to order at 8:00 P.M. on March 7th 1973 by President Len Goodwin, WA7HHI.

The President WA7HHI recommended that all those bringing something to say at our regular meeting be recognized and then stand while speaking. This will be brought up at the next meeting.

Treasurer's report: Checking account \$365.97; Savings account, \$198.33; Building fund \$207.50. Doc W7OS and Ron WN7UQV will contact members whose dues are past due.

Scotty K7CYZ volunteered to be chairman for our next Home-Coming on October 10th, 1973.

Don Grant WA7PIN received a letter from a warden of the Shelton Correctional Center asking

Board (cont.)

our help with a Ham Club there. However, because of past experience a letter will be sent to the warden asking his opinion on the matter and for a definite date we could meet with him if he is interested.

Ron WN7UQV volunteered to help Phil Allred install the alarm system.

Dennis W7UBA reported that the Top of the Ocean would be satisfactory for the club banquet. April 7th is the tentative date.

Bon WA7PIN presented his ideas about the Junior Auxiliary program. Each junior member should have a senior member, who would volunteer to spend some time with him helping with theory, code, etc.. Dues would be \$2.00 per year payable \$1.00 at a time. Members will be 14 years old and under.

Joe WA7RWK reported that Bob WA7IPR may be able to arrange for vocational school students to install a 200 amp service at the club house at a much reduced cost.

Dennis W7UBA suggested that we need more discussion about ham radio's technical aspects at our club meetings.

Members will be asked at the next regular meeting whether we want a booth at the Puyallup Fair this year.

There being no further business, the meeting was adjourned at 9:55 P.M..

Respectfully submitted,
/s/
Chris Jensen, WA7MJK
secretary

CLUB MEETING 3/28/73

The regular meeting of the Radio Club of Tacoma was called to order on March 28, 1973 at 8:10pm. by President Len Goodwin, WA7HHI, with members and guests present standing and pledging allegiance to the flag.

The minutes were read and approved as corrected.

Treasurer's report:

Checking account	\$419.30
Savings account	198.33
Building fund	210.50

Bills:

Telephone 11.91

A Motion was *PASSED* that the bills be paid.

A letter was read from Larry Ziegler, WA7JFC.

Dennis W7UBA reminded us of the Club Banquet, on April 8 at the Top of the Ocean.

Bill WA7SCN will be contacting club members to see what bands they want to operate on field-day.

Dennis W7UBA reported on plans for the coming Ham Fair. He said that the Pierce County fair-grounds will be a good location but that we will need to supply chairs.

Jerry W7BUN announced that the Puget Sound Council is planning an inter-club activity for August 26th., possibly involving a country store and picnic.

Dennis W7UBA requested volunteers, to help put up the club tower.

Joe WA7RWK asked for volunteers for our various building projects.

A Motion was *PASSED* that we have a work party and spaghetti feed on April 21st. Don WA7PIN will be in charge of the spaghetti.

Dennis W7UBA has received a request for phone patch help. See him if you can be of assistance.

As of yet, the club has not been asked to help at the Daffodil Parade.

Joe WA7RWK reminded us that dues are now late and the club is in need of the money. As of April 1st., those who have not paid their dues are former members.

There being no further business, the meeting was adjourned at 9:10 pm..

We then enjoyed a slide show on the Canadian Rockies, presented by Jerry W7BUN.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (secretary)

CLUB MEETING 4/11/73

The regular meeting of the Radio Club of Tacoma was called to order on April 11, 1973 at 8:10pm by President Len Goodwin, WA7HHI, with members and guests standing and pledging allegiance to the flag.

The minutes were read and approved as corrected. Ethel W7WLX introduced our guests.

Scotty K7CYZ reported on plans for this year's Westport outing. It is tentatively scheduled for August 4th and 5th..

Bill Deatherage, WA7SCN, reported on field-day planning. Both the BEARS and the Mike and Key Club have challenged us to a contest, involving field-day results. The board of directors will discuss accepting these challenges.

The Auxiliary will have a card party on April 20th. A number of other interesting programs are

(cont. next col.)

also planned.

Don Grant, WA7PIN, reminded us of the spaghetti feed and work party coming up on April 21st..

Jerry W7BUN announced that the FCC will soon have all new questions for the Novice and General license test.

Ron Chudy, WN7UQV, has been calling members who have not paid their dues.

Marion Wiley, K7TCY, needs help getting an antenna set up. Don WA7PIN and several others volunteered to help.

Larry Ziegler, WA7JPC, will enter the service soon and was voted into Special membership. Larry has donated a number of back issues of the QST, to the club library.

Roy W7AZI received a request from the Boy Scout organization to help with communications, during an outing on June 15, 16 and 17. A Motion was *PASSED* that the club participate in this project.

A Motion was *PASSED* that the club provide postage for the letters, Dr. Spike will write, concerning the Home-Coming on October 10th.

Bob Gates, K7IND, reported a problem, concerning interference with citizen band communications. This situation will be discussed at the next board meeting.

Len WA7HHI inquired if the club wished another club group picture taken? The membership, present was in favor and thought that the next Home-Coming activity would be an appropriate time.

Bill Watson, W7BQ, Mary Lewis W7QGP and Jerry Seligman W7BUN; all SCM candidates, presented campaign speeches for the office they are seeking.

Dick W7RGD announced that 2 meter portable equipment will be needed for the coming Daffodil Parade and operators.

There being no further business, the meeting was adjourned at 9:20 pm..

Respectfully submitted,

/s/

Chris Jensen (secry)

SLIVERS & SPLINTERS

Congratulations to Burt Caley on obtaining his Advanced ticket.

Slivers (concl.)

Jim Mashburn W7ESW umpired the Tacoma Twins baseball game at home on the 24th. Seems they are having troubles getting a full crew of umpires for the game and it was announced on the radio. Jim was listening and volunteered to help out.

The Chavis's (W7IKC & K7AMJ) number one daughter Merlinda is in town for a visit from California. She attended the club's banquet and got to visit with many of the club's members.

Bob & Inez (W7PXS & W7RXT) out for a week end camping with Peryl & LaVerne (K7NPC & K7NKZ).

Hood's have a new 5th wheeler trailer to make it a cinch to back-in.

Don WA7PIN getting itchy feet to get out and pick-up some of those gold nuggets up north. We heard swapping stories with Dick W7PGD.

Bob WA7IPP having difficulties with his pack-trail during the Daffodil Parade. Had to use the large WA7CSF set to do the job. Other than the troubles with the 6 meter fm gear at the start, things went along pretty good. Kept Smitty WA7ID and Del K7ATF busy on the bus.

Don't forget Mother's Day breakfast at the club house. Help her to make it a day to remember. Along the same lines, don't forget Third Party meeting at the club house on the 18th.

Have you thought about advertising in the Rogers Bark? We need some more advertisers. One of our long time advertisers has stopped in this year so keep us in mind and above all, don't forget to patronize and use our advertisers products. They help make this paper possible in its present form. We can always go back to the mimeograph era without pictures etc., so keep it in mind.

APRIL 1973

TREASURER'S NOTE

BY WA7RWK
To date, 63 full paying members have paid their dues, including 8 family members. In 1972, the club had 99 full paying and 15 family members, in addition to our Honorary and Special members. Therefore, 26 full and 7 family members have not paid '73' dues, leaving outstanding, \$215.00 or approximately 26.6% of our regular income from dues.

Our four major expenses of the year, amounts to approximately \$675.00 and to date we have received \$11.00. These expenses are taxes, phone, fuel and utilities. (Not including other expenses)

So much for the facts and figures. As I scan the roster, I feel that all that have not remitted their dues, will continue their memberships although the only one we can count on is the one who pays.

I also realize that sending in that check can be forgotten or put off until later, because it isn't all that important. Don't you believe it!!! It's darn important - so I urge you to make a special effort right now, to get your check in the mail. If you do, we will make it - if you don't??
....Joe

ANNUAL BANQUET

This is rather short notice but the Club's banquet will be held at the Top-of-the-Ocean restaurant, 2217 Rustin Way, near the municipal dock, at the end of McCarver Street on April 7th. Happy hour, 6:30pm with dinner at 7:00pm. (White shirts and ties not required) Dance to the music of Louis Grenier, W7WCJ, and his orchestra, on the first floor in Tacoma.

The last turn-out, at this establishment, was a bar record. Let's make this year a record.

WOMEN'S AUXILIARY NEWS

BY VIVIAN HUNTLEY

The Women's Auxiliary met March 15th at the home of Margie Chavis, K7AMJ, for a cake decorating demonstration. Every one had a good time, making up their own designs.

The next meeting will be at the club house, April 19th. Michie Seligman will demonstrate flower arranging.

On May 17th there will be a travel-log by Ethel Devish, W7WLX and Jill Anton, WA7KSD.

June 21st., Amy Ahlstrom will show us how to make flower leighs.

We would like to see a good turn-out and every one is welcome.

ANNUAL SKAGIT HAMFEST

BY W7BUN

The Skagit Amateur Radio Club will hold their Hamfest, Saturday April 28th., at the Bryant Grange Hall near Arlington. Activities include a tour of the million watt Navy radio station, at Jim Creek, 2 and 75 meter "bunny hunts", country store (bring your goodies to sell), excellent dinner, after-dinner entertainment, many door prizes and a demonstration of LASER communications by the phone company.

This year, only 300 tickets will be sold and none will be sold at the door. Price of tickets is \$4.00. (\$3.00 for kids with no door prizes) Contact Jerry, W7BUN, as soon as possible if you plan to go.

October is the month. The date will be announced in the May issue of the Loggers Bark Awards will be presented to the oldest license ham, the newest licensed and the ham coming the greatest distance to the meeting. (DX Award)

We will have a guest speaker and refreshments. Best of all, an old timers eye-ball QSO hour.

Keep this in mind and let's have a grand turnout. Plan to vote for your Home Coming Queen.

REPEATER NEWS
BY W7RGD

Repeater cont.

During the last month, Denny W7ZTG, has been working on the new repeater package and doing some minor changes on the present, Tacoma repeater. He topped by one day and passed on a couple of pictures of the new package, that will be going in shortly. No changes in frequency but the two present sites will be combined at the Ollala site and the output power will be upped.

On listening to the Tacoma repeater, (04 in/64 out) it is obvious that more and more of the hams in the Puget Sound area are crystalizing up on the new repeater frequency. Lot of the fellows had crystals on the 146.64 channel but the shortage for crystals was on the 146.04 crystals for the in-input frequency. Supply and demand are finally catching-up with each other, They are in stock now at the local crystal emporium.

See the picture below and following description.

FRONT VIEW BACK VIEW
Starting from the top in the picture you will see the following or not see as the case may be:
The open space, at the very top, will be the code identifier. Directly below, on the first cases, is the keying control. Next is the 146.04 receiver with monitor speaker mounted on the side. Below that is the receiver power supplies. Next is the 450MHz control receiver and the space below is blank and is the planned spot for the 146.64 linear in the 200 watt class. The next occupied section is the 100 watt 146.64 transmitter with
(CONT. NEXT COL.)

the low voltage supply below that and the bottom contains the B plus power supply for the transmitter.

When this new rig is set-up at Ollala, the present 450MHz link, with transmitter on 146.64, will no longer operate in its present configuration at the KINT-TV site. Instead it will have a receiver and transmitter set-up to receive on the 450 band and repeat out on 146.64. Also it will receive 146.76 and repeat out on 450. This is designed for hams, who may, for one reason or another have a bad location for receiving or transmitting on 146.76.

The BawFaw repeater group held a meeting in Olympia, during March, to discuss some changes that were being talked about on the air. The plan was to put in some transistorized equipment but since the treasurer reported less money (a lot less) than what was needed, the plan was put aside for the future. Anyone with a transistorized repeater package at a real good price, could go to the head of the list on the list high in the sky, by getting in touch with the BawFaw repeater group. (Will be glad to pass the info for anyone to the group)

Also, the group discussed the feasibility of changing frequencies to help alleviate some of the interaction with the Portland and Canadian groups. All of them are using the '34/'94 configuration for operations. The group was informed that the receiver, input, could be changed but that the transmitter could not be changed in frequency, that the owners of the site would not permit them to change the transmitter frequency. The permission to operate at the site, depends completely on the premiss that there will be no interference with the other services operating at the site. With the frequency of transmitting now, there is no interference and they want it to stay that way. Nothing was decided on changes of frequencies and left to continue, as is, for the time being.

BUILDING COMMITTEE REPORT

BY W7RWK

WELL SPRING HAS SPRUNG!!! THIS IS THE TIME TO get out and maintain the yard and our houses. It is also the time to get some work done on our own club house.

This spring and summer, it will be necessary to paint the exterior of our building. When we paint the building this time, we should thoroughly CLEAN the painted surface with a high pressure water blaster, which can be rented for a small fee. A good latex finish coat should be applied over the primer and possibly a second coat applied. More on this later.

The four window sashes still remain to be primed and painted. We have the paint and brushes but need someone to do the work, which can be done inside the building. Who would like to come forward to do this work? Please call me. After the window sash is painted, I would like two or three members to assist me to fit and put them in place. Please call me.

Some work has yet to be done, on the upstairs radio room. I estimate, three or four members will be needed for two or three week-ends, to finish the job. Again, please call me.

Phil Allred has donated and offered to install an intrusion alarm system and could use some help within the next three weeks for sure - contact Phil or call me.

All those interested in erecting the club's tower, get in touch with Dennis W7UBA.

I solicit your help - Please call me -

Joe, BLD. COMM. CHMN

ARRL NEWS IN BRIEF

BY W7BUN

The ARRL will be sponsoring a technical symposium on "Space Communications", to be held in Reston, Virginia, September 14th. Charles Dorian, W3JPT, will supervise the project.

WA6GLD has filed a petition with the FCC, to permit 1X3 calls to Extra Class licensees, who have been licensed for 10 years. (RM-2133)

CQ Magazine has a telephone recording, giving propagation predictions. Special up-dates are made just before week-ends of major contests. The number is (516) 883-6223.

The Kansas City police have a volunteer community patrol. The FCC granted a citizens license for 1,000 units to be installed in the patrol's automobiles.

WA7ECK has petitioned the FCC for easing the rules concerning presently required contour maps for repeater license applications. (RM-2148)

K6QXE has petitioned the FCC to permit CW operation on 21 and 28MHz by technicians. (RM-2149)

The Department of Commerce is considering, terminating or reducing propagation services, as an effort to reduce federal spending. Comments from users are invited to: Office of Telecommunications, U.S. Department of Commerce, Boulder,

Colorado 80302.

It now looks rather definite, that there will be a world administrative radio conference, to deal with H.F. allocations, some time before 1980. A study group to prepare a position for the Amateur Radio Service, has been set up by the Interdepartment Radio Advisory Committee (IRAC). Members, thus far, are: Merle Glunt, W3OKN, as chairman; A. Prose Walker, W4BW and Frank Williams, K4GTS. While this is a government committee, the ARRL will be working closely with them. Planning for such a conference has been going on for some time by the League and now that the holding of such a conference is reasonably definite, the plan will begin to be finalized.

FCC Chairman, Dean Burch, told the Senate Commerce sub-committee on communications, that the FCC needs a larger computer to handle a "potential" 10,000,000 licenses in the EIA - proposed 30MHz Citizens Radio Service. He admitted that, there was interference, enforcement and administration problems and indicated there would likely be, "notice of inquiry" to seek further background on such points.

BOARD MINUTES 2/7/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma Inc. was called to order on Feb. 7th 1973 at 8:15 pm by President, Len Goodwin WA7HHI.

The minutes of the previous board meeting were read and approved.

Treasurer's report: Checking account \$362.76, Savings account \$198.33, Building Fund \$207.50.

Jerry W7BUN reported that due to new rules affecting non-military organizations, we will not be able to hold our club banquet at the McChord Club. Ron WA7PIN will look into other possible facilities.

Doc Spike W7OS will present the name of Jerry W7BUN at the next regular club meeting to be considered as our nominee for the Ham of the Year award. Ethel W7WLX has agreed to prepare the application for the award.

Doc W7OS noticed that the present membership application forms have no specific space for city, code or previous calls. He also mentioned that we should be thinking of an area, in which we could store or display the club's museum equipment. He is running out of storage room in his basement. Jerry W7BUN mentioned that the State Capitol Museum, in Olympia, might wish to display some of the museum equipment.

Some of the equipment could be displayed at the club, if we had a display case. This matter will be brought up at the regular club meeting.

(CONT. NEXT COL.)

Dick W7RGD brought up the names of present Special members, which will need to be voted on at the next regular meeting in order to have their Special membership reviewed.

Ron W7UQV reported on the success of the Novice Roundup, held at W7DK, last week-end.

Thanks to Phil Allred, WA7UGF, who has offered to donate a burglar alarm system to the club.

Don WA7PIN will present his ideas about the Junior Auxiliary to the next regular club meeting.

Don WA7PIN also requested a letter, authorizing him to procure surplus equipment for the club. This will be brought up at the regular meeting.

Jerry W7BUN asked that the Board recommend that the club approve the resolution of ARRL, protesting proposed restrictive FCC regulations.

There being no further business, the meeting was adjourned.

respectfully submitted

(secretary)

CLUB MINUTES 2/14/73

The regular meeting of the Radio Club of Tacoma was called to order on February 14, 1973 at 8:13pm by President, Len Goodwin, WA7HHI, with members standing and pledging allegiance to the flag.

The minutes of the last meeting were not available for reading.

Ethel W7WLX introduced our guests.

It was reported that Don Grant WA7PIN and Joe Winters, WA7RWK, were ill.

There was no Treasurer's report.

Dennis W7UBA agreed to look into a possible location for our annual club banquet. The possibility of having the club pot-luck dinner, serve as the club's banquet was discussed.

Kent WA7NVX volunteered to paint the window-sash at the club house.

Len WA7HHI asked for a volunteer to head Field-Day, this year.

Frank Conelly WA7GWL described a number of interesting programs coming up for future meetings.

Dennis W7UBA hopes to have the club tower put up some time this April.

Ron WN7UQV reported that the Novice Round-up, held at W7DK, was a success. A good time was had by all, who participated.

Don WA7PIN will be in charge of planning for the proposed formation of a Junior Auxiliary, to the club. Dues and possible meeting times for this organization were discussed.

It was the pleasure of Doc W7OS to place in nomination for Ham-of-the-Year, the name of Jerry Seligman, W7BUN. A well written report by Ethel W7WLX, describing the many achievements and services of this outstanding amateur. The membership present, unanimously elected Jerry as our candidate.

A Motion was PASSED that a letter be written to Don WA7PIN, authorizing him to procure surplus equipment on behalf of the Radio Club.

A discussion followed, as to what the qualifications should be for Special Membership in the club. A total of twelve Special memberships were then approved by the members present.

Cards from Ed Coles, K7CZM and Lois Noonan were read.

Arthur L. Jennings, W7EZJ, was received into membership.

After adjournment, Bob Thurston, W7PGY, gave an interesting and informative program.

Respectfully submitted,

/s/

Chris Jensen WA7MJK (sect.)

CLUB MINUTES 2/28/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm., February 28, 1973 by President, Len Goodwin WA7HHI with members present, standing and pledging allegiance to the flag.

The minutes were read and approved.

Treasurer's report:

Savings account	\$198*33
Building fund	207*50
Checking account	266*14

Bills presented:

Telephone	\$11*91
Furnace	24*99
Taxes	186*33

A Motion was made and PASSED to pay the bills.

It was the pleasure of Dr. Spike W7OS to announce to the club, an honor, which has been given to one of our own members. Jerry Seligman, W7BUN, has been chosen, Ham-of-the-Year for 1973. Jerry received a well deserved standing ovation from all those present. Congratulations Jerry!

Joe WA7FWK reported that the building committee needs more volunteers in order to complete the room, upstairs. (CONT. NEXT COLUMN)

Bob Gates, K7IND, noted that the outside of the building will need to be painted, definitely by this summer.

Jerry W7BUN announced that new officers have been elected for the Puget Sound Council and that Amateur Radio Week has been set for the 16th thru 23rd of September. The Governor will again be visited by the radio amateurs from the Puget Sound area.

Phil Allred, WA7UGF, demonstrated the alarm system, that he is donating to the club. A Motion was PASSED, that a letter be written, thanking Phil for this much appreciated donation.

Don Grant, WA7PIN, is looking into the possibility of having our banquet at the Old Elks Club.

Jerry W7BUN suggested that the club needs to send a letter to the ARRL supporting their resolution, regarding restrictive regulations for radio amateurs. Letters to legislators, involved with this matter, need to be written to also. A Motion to this effect was PASSED.

Jerry W7BUN and Dennis W7UBA are trying to contact the Fruitland Grange, to determine if the Ham-Fair can be held there.

David K7BBO, operator for W7DK, during the OSCAR 6 satellite activity, presented the log recording 57 QSO's via this satellite. This log will be kept in W7DK's station records.

Doc W7OS proposed that we plan another home coming night for the fall this year. This home coming would be especially for members, who have recently become in-active. This subject will be discussed further at the next board meeting.

Don't forget the club's Pot-Luck Dinner, on March 16th. at 6:30pm.

There being no further business, the meeting was adjourned at 9:30pm.

Although there was no program, members appreciated the opportunity for a snack and a rag chew after the meeting.

Respectfully submitted,

/s/

Chris Jensen WA7MJK (sect.)

CLUB MINUTES 3/14/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:04pm., March 14, 1973 by President, Len Goodwin, WA7HHI with members and guests present, standing and pledging allegiance to the flag.

Paid Adv.

Ethel W7WLX introduced our visitors
The minutes were read and approved as corrected
Treasurer's report:

Checking account	\$397.97
Savings account	198.33
Building fund	205.50

Bills:

Utilities	\$29.02
-----------	---------

A Motion was PASSED that the bill be paid
The President WA7HHI recommended that all those
having something to say, at the meeting, be re-
cognized and then stand, while speaking. This
should help our meetings to be shorter

The Club Banquet will be on April 7th at the
Bo-of-the-Ocean. Social hour at 6:30 and dinner
7:00pm. Cost \$4.25

Jerry W7BUN announced the new officers for the
Puget Sound Council of Amateur Radio Clubs,
President-Mike Schone, WA7BZY, Vice President-Ed
Kert, WA7GRE, Treasurer-Carl Butler, W7PRW and
Secretary-Jim Grinton W7VNI

The Skagit Valley Hamfest will be on April 28.
Tickets are available from Jerry W7BUN for \$4.00.

Don WA7PIN described the Junior Auxiliary pro-
gram. Dues will be \$2.00 per year, payable semi-
annually. Boys and girls up to and including 14
years of age would be eligible for membership.
Their by-laws will be approved by the Board. Don
stressed the importance of having an 'Elmer' for
each Junior Auxiliary member. This would be a
person from the regular club, who would help a
 youngster with code, theory, etc

Scotty K7CYZ announced the Club's next home-
coming will be on October 10, 1973

Dave Reed WA7QGI and Bill Deatherage WA7SCN
volunteered to be field day chairmen

Don Grant WA7PIN received a letter from a res-
ident of the Washington Corrections Center, in
Waton, asking for help for its Amateur Radio
club. The RCT would like to help but due to past
experience, it was decided that a letter would
be written to the supervisor of this in-
stitution, for his opinion in this matter

Jerry W7BUN reported that the Fruitland Grange
hall will not be available for our Hamfest

Dave WA7QGI and Bill WA7SCN looked into the
Frederick County fair grounds, as a possible site for
the Hamfest. The facility and price was excellent.
A motion was PASSED that this site be confirmed
for the Hamfair

A Motion was also PASSED that we again have a
banquet at the Puyallup Fair. Jerry W7BUN was vol-
unteered to be chairman

Dennis W7UBA announced that the tower mounting
manual is now at the clubhouse

Doc W7OS thanked Pat Wells, WN7UWF, for his
contribution of the picture of the 1931 ham convention
and our historical records

(cont. next column)

Jerry W7BUN warned that we are in danger of
losing part of the 220MHz band.

Dennis W7UBA gets many requests for phone
patches. Contact him if you can be of help

Among those running for SCM are Mary Lewis,
W7QGP and Jerry Seligman, W7BUN, both from the
RCT

Doc W7OS urged us all to read the article on
pacemakers in the March, 1973 QST. The informa-
tion in this article can save a life.

Jerry Seligman, W7BUN was honored with the
presentation of the 1973, Ham-of-the-Year plaque,
by Mike Schone, WA7BAY, President of the Puget
Sound Council. Jerry also received a standing
ovation from all those present.

There being no further business, the meeting
was adjourned. We then enjoyed an interesting and
informative program by Judge Glanzer, K7GCC, a
leading authority on antennas

Respectfully submitted,

/s/

Chris Jensen, WA7MJK (SECRETARY)

SLIVERS & SPLINTERS

Bob McCullough, W7SFO, selling Smith built
canopies at the R.V. show at the Puyallup Fair
grounds

The Smith's (K7ATD) and Huntley's (K7CYZ) in
Seattle, celebrating their son and daughter's
wedding anniversary at Ruby Chow's

Thanks to George WA7CSF, the club library has a
few more ham magazines

Bob Jenks W7ZVA in Madigan Hospital for an
operation on both eyes

Inez W7RXT celebrating her birthday, camping
out at Belfare Park with OM W7RXS and other
friends and relatives. Good time had by all

Bob K7IND has his mobile 2 meter rig working
again. Was overheard in QSO with Dick W7RGD

Don WA7PIN overheard checking into WARTS. Good
signal too! How do you ever find time Don? Busy-
busy-busy.

Beryl K7NPG still working at the steam plant
down in Centralia area. LaVerne busy pushing the
little white ball around on the greens and doing
good at it! With Beryl out of town all week, it
probably will be a while yet before he can get
antennas up

Henry W7UD on radio teletype punching away at
the green keys. Good copy in Tacoma on his con-
tact with VE3KE, Glenn. Hank was complaining a-
bout a head cold at the time

Mary W7QGP busy making the rounds of the
area radio clubs, campaigning for the SCM elec-
tion. Jerry W7BUN, not to be out-done, is making
the tour also. Rather unique, that the radio club
has two active members running for the same office
at the same time. Good luck, to both,

Anyone have the new address for Larry Ziegler, WA7JPC? His Bark has been reutned from his local mailing address with no new address noted

It pays to advertise in the Bark. Dick W7RGD listed an auxiliary generator for sale and had 4 calls on the phone regaring it. First to call was Tom W7PK and needless to say, he has a generator now for his camping trips.

The two radio bowling teams met to play each other, on the 27th of March. You guessed it right if you figured out nr.2 team took nr 1 team. Seems it always ends up that way.

Ralph W7COP busy helping number one son Tom, on building a tri-plex building on 12th street. Seems this year will go down as build a house year.

Be sure and take notice of the calendar for this month. There are quite a few activities going on in the local area this month.

MARCH 1973

CAPITOL MUSEUM

During the Board meeting of the Radio Club, Spike, W7OS, announced that there is a possibility that there will be a museum display of ham gear set up in the Capitol, in Olympia. It will be sponsored by the Q.C.W.A. and the Radio Club of Tacoma.

This will be the best thing for ham radio, that has been proposed in this state for a long time. Let's get behind Doc, 100% and not let it be dropped if it was dropped for lack of support.

AUXILIARY NOTE

by WA7KSD

Those who like to accent their best facial features, learned how, at the last Auxiliary meeting, February 21st.

We are looking forward to the Pot-Luck and Bingo night, March 16th.

Then Margie K7AMJ will show us how to decorate cakes on March 21. See you all at the Pot-Luck dinner and at Margie's. ..Jill

JUNIOR AUXILIARY

A Motion was made and PASSED, to reinstate the Junior Auxiliary, on a slightly different set-up from the previous Junior Auxiliary.

The new auxiliary will be limited to youngsters 14 years old and under. The dues will be \$2.00 a year. They will have their own meetings, in the club house on Saturdays. They will have their own officers, under direct supervision of at least two regular club members.

Their By-laws and activities will be approved by the regular club's Board of Directors. The Junior Auxiliary members will be welcome to attend the senior club meetings but will not have vote on the floor.

We will report on the progress.....ED

PAST MEMBER NEWS

by W7OS

One of our alumni of the Radio Club of Tacoma, Don E. Klumb, formerly W7AFO of 1919 Austin Road N.E., Tacoma and has been employed by the Pacific Northwest Bell in the engineering department, Seattle was in the Tacoma General Hospital for surgery last week. He is now reported to be home recuperating. We are told he will be home for several weeks recuperating. We hope he will have time to whirl the dials of his Halicrafter receiver and maybe the bug will infect him with his old problem of HAMITITUS.

Don was very active in the Radio Club of Tacoma during the late twenties and early thirties. He joined the RCT on about May 10th, 1927.

Many of you will remember seeing Don at the RCT "Homecoming" in October, 1971.

We all wish Don a very speedy recovery.

Don's picture is in our club album.

ARRL NEWS IN BRIEF

by W7BUN

Plans for the Daytime National Traffic System are progressing. Some volunteers are still needed to assume leadership roles.

The FCC has extended the time for filing comments on Docket 19658, to February 28th. This docket proposed increases in filing fees for all Commission regulated radio services.

The FCC released instructions on filing out applications for additional station privileges which primarily covers repeaters.

End-of-the-year membership figures, show 87,998 full ARRL members, with 4,021 in the North Western Division.

Effective September 1, 1973, the DXCC PHONE AWARD will be discontinued. Those holding phone DXCC, will continue to receive credits, when submitting endorsements. Full details on page 115 of March QST.

REPEATER CORNER

by W7RGD

As we go to press, the new Puget Sound Repeater has just been put in operation. The site for the equipment and the equipment itself, are both the same as the old repeater that operated on 146.34/146.94, located at Olalla and KINT-TV in Tacoma. Benney W7ZIG, who built the original and made the change, advised it was changed over on February 22. The new frequencies are, 146.04 and 146.64. The first frequency, 146.04, is for input and the latter is the output frequency. Denny has taken pictures of the installation and we hope to have a copy printed in the next issue of the Bark. Also the input frequency is open, no tone needed.

Dwayne K7KSZ mentioned the fact that there is talk of another repeater, to be used on the teletype net. There is quite a bit of activity on 146.7 using AFSK. Quite a few fellows brushing up on their typing and beating the green keys.

Bawfaw was having troubles, during the latter part of February but was expected to be back in full operation shortly.

P.S.C.A.R.C. NEWS

by W7BUN

Washington State Amateur Radio Week is set to be September 9th to 16th, with the Washington State QSO Party scheduled for 2000GMT, September 15th to 0200 GMT September 17th.

Jerry W7BUN, of the Radio Club of Tacoma, was elected, Puget Sound Council of Amateur Radio Club's "Ham-of-the-Year" for 1972. Runners up were W7UMH of the Mt. Baker ARC, WA7JCB of the Western Washington DX Club and K7KOT of the Mike and Key Radio Club.

The new officers of the Council are: Mike Schone, WA7BAY President; Ed Eckert, WA7GRE, Vice President; Jim Grinton, K7VNI, Secretary and Carl Butler, W7FRW, Treasurer.

Interesting items from club activity reports - Mt. Baker ARC is giving 1 year subscriptions to Ham magazine, as door prizes at meetings.

The North Seattle ARC has a 5 minute "Show and Tell" of home-made equipment after each business meeting.

The Western Washington DX Club raises money by raffling off several items at each club meeting.

The Skagit ARC will have their annual Skagit Hamfest at the Bryant Grange Hall, April 28th.

The QCWA will hold a section meeting and dinner in Portland, March 10th..

The Mike & Key RC will have an auction March 3rd, Daturday morning at King County Civil Defense Headquarters.

The Thurston County Amateur Radio Breakfast Club will meet at Smitty's Pancake house in Tumwater, March 3rd at 8am..

The QCWA has agreed to undertake the project of displaying old-time radio gear at the State

Council (cont.)

Capitol Museum, in Olympia. Warren Green, W7JY will head-up the project.

BOARD MEETING 1/14/73

The regular meeting of the Board of Directors of the Radio Club of Tacoma, was called to order at 8:15 on January 4, 1973 by President L. GGoodwin, WA7HHI.

Don Grant WA7PIN felt that our club is missing many possible new members because our dues are too high for youngsters to be able to afford. Don wished the Board to consider this situation and possible ways to correct it.

The general feeling of the Board was that the Junior Auxiliary, of the Radio Club of Tacoma needs to be revived. This would allow young people to affiliate with our club, without having to pay as much as a regular member. They could also have their own meeting at an earlier time than the regular club, whose meetings are often too late for some youngsters. Junior Auxiliary members would be welcome to attend the regular meetings, but it was felt that they should have a vote. This entire matter will be brought up at the next regular meeting.

Ron WN7UQV would like to have a multi-op station at the club house for the coming Novice Roundup. It was felt that this was a good idea and will be discussed at the next regular meeting. Ron also volunteered to assist the Vice-President in planning future programs.

Doc W7OS, after re-totaling the membership credits for 1972, found that Joe Winter WA7RWK is still number one. Congratulations to Joe.

Len WA7HHI will appoint a membership committee at the next regular meeting. The function of this committee would be to contact members, who are in danger of losing membership because of non-payment of dues. They would also be looking for reasons why we seem to be losing so many members after just one year of membership.

Scotty K7CYZ suggested that we should be thinking about plans for the club banquet.

Ron WN7UQV will look into the possibility of

Chris Jensen WA7MJK

SECRETARY

CLUB MEETING 1/24/73

The regular meeting of the Radio Club of Tacoma
s called to order at 8:05pm by President, Len
ZHHI, opening with the Pledge of Allegiance.

Ethel W7WLX introduced the guests as follows;
h Haase WA7PUF, Dave Martin WN7UQZ, Floyd Taylor
RGS and Art Jennings W7EZJ.

Doc W7OS gave us word of the death of Chris
hsen's father. Chris is the Club's Secretary.

Joe WA7RWK gave us the treasury report as
llows:

Checking account	\$279.13
Savings account	198.33
Building fund	268.40

It was Moved, Seconded and PASSED we pay the
0.00 bill for the construction of the window
shes for the south wall.

Jerry W7BUN, delegate to the Puget Sound
uncil of Radio Clubs, reminded everyone to think
out the Ham-of-the-Year award nomination, due
on.

He announced also that call plates will not be
ected by the newly passed "Vanity" license
ates bill passed by the State House and Senate.

Roy W7AZI has finished the windows for the
uth wall. Thanks also to Bill WA7SCN for the
nation of the plexi-glass.

John K7CZF, Pierce county emergency coordina-
r, announced plans for the Simulated Emergency
st (SET) coming this weekend.

It was discussed about getting a van or bus for
e club's purposes. George WA7EEH Moved that a
committee be appointed to look into the possibili-
y of acquiring a vehicle for the Club. Hunt
7AKW Seconded the motion. PASSED. Don WA7PIN
lunteered to check into it further.

Doc W7OS introduced Arthur Jennings W7EZJ from
cey. His first visit to "DK" was last October
Jill WA7KSD announced that the Ladies Auxiliary
eds money. Bring rags to their pot luck dinner
March 16th at 6:30pm. This event will replace
eir annual skating party.

Jill also announced the beginning of the 3rd
arty night for April and May. This is for
(cont. next column)

singles and married. There will be cards, bingo
etc..

Under committee reports, Ron WN7UQV announced
plans to set-up a station at the club house on
Saturday 27th for "Novice Round-up".

Dennis W7UBA got trophies to have engraved for
presentation to the BEARS at their next meeting,
February 3. Jerry will lead a caravan, to leave
the club house at 9:00am to attend the meeting.

Dennis W7UBA suggested getting ready for this
year's "SS" contest. Dennis listened to sugges-
tions for this years "Ham Fair".

Don WA7PIN was appointed committee chairman for
the Junior Auxiliary.

Dennis W7UBA announced the plans to raise our
tower seem to be finalized.

Doc W7OS remindd the members again, that all
club members should get their picture in the club
album. Contact him for an appointment to have the
picture taken in front of your rig.

Chip K7VPF, operating W7RM, won both modes in
the "SS" contest, nation wide.

Jerry W7BUN announced the FCC denied petitions
for reconsideration of the phone band expansion.
He also told us it is time for our annual banquet.
It is being planned for, some time in March.

Rex W5QQQ Moved to put some price tags on the
used and left over auction items. It was Seconded
by Frank WA7GWL. Motion PASSED.

Dennis W7UBA will mail the application to re-
new W7DK's station license.

Bill WA7SCN suggested to Frank, to get in touch
with Jan King, in regards to possible Oscar
Satelite program in April.

David Martin WN7UQZ and Floyd Taylor W7RGS were
voted into membership and welcomed to W7DK.

Meeting adjourned at 9:25pm.

After coffee break, the second half of the
slide show of the Islands was shown.

Respectfully submitted,

/s/

SLIVERS & SPLINTERS

Don WA7PIN reported sick with the flu bug.

Patty K7NQR back home after a short stay in the hospital.

Beginning on February 28th the AREC two meter net will start operating on 146.64 at 7:30pm in the Everett area. Don't forget the Pierce County AREC net on the 1st and 3rd Wednesdays at 7:30pm

The Lower Columbia Amateur Radio Asn. will be celebrating their 25th anniversary with their annual dinner on April 14th. Jerry W7BUN has a map showing the location of the activities.

The club is looking for a Field-Day Chairman. Ron WN7UQV volunteered for the Novice section.

Ron WN7UQV reported on the Novice Roundup results from the Club's entry, operated from the Club house. 21 sections worked. Worked W1AW, a HP and a VK2.

It is with regret we report the passing-away of Lydia Coles, xyl of Ed K7CZM. Ed is rumored to be coming back into the Puget Sound area.

Howard W7MRX reported his beginners class, that he was conducting at his QTH, dwindled down to one member. However he finished and passed his Novice test and will be licensed shortly. Congratulation to both, on a job well done.

Bob W7RXS busy installing a blower fan on his trailer's furnace. Used a car defroster motor and it works good. Only problem, in this cold weather, is that he now has a problem keeping the trailer's battery charged-up. Worked good camping out on the Carbon river with Smitty K7ATD & XYL Rene and Dick W7RGD.

Roy & Ethel (W7AZI & W7WLX) back from their trip to the Virgin Islands. Got some good stories if you can catch up with them long enough.

Beryl and LaVerne (K7NPG & K7NKZ) all settled down in their new home. Not on the air yet, except from the mobile. Beryl is back working in the steam plant in Centralia and commuting back and forth,

Scotty K7CYZ and family out camping on a lake. Got himself a nice mess of fish.

Jerry W7BUN getting rid of crystals for the new repeater frequency, 146.04. Seems he ended-up with 6 of them and needs only one. Just mentioned the fact he had them and they went like hot-cakes.

Larry WA7JPC checking into WARTS every once in-awhile for a patch to home.

Don't forget dues are due for the year. This issue of the Bark is the last one you will receive, if your dues are not paid up. The grace period is up, as of March 31st. I'm sure you don't want to miss out on the club's activities and WE don't want to lose YOU!

BANQUET !

BEARS VISITATION BY DK

A caravan will leave the Clubhouse promptly at 8 am., Saturday, February 3rd, to visit the Boeing Employees Amateur Radio Society in Renton, in order to present the Sweepstakes trophies, which they won in 1972.

Let's have a good turnout and show the BEARS that while we may have lost the contests, we did not lose our pride or honor.

SWEEPSTAKES CORRECTION

The Sweepstakes scores, reported last month, for the BEARS were found to be in error. The correct scores should read: CW score - 511,010 with 21 entrants. Phone score - 771,755 with 33 entrants.

P.S.C.A.R.C. NEWS

By W7BUN

It appears that the Everett tower case may have gone one badly for hams. The State Board of Appeals has ruled that local governments MAY regulate tower heights.

Ham-of-the-year nominations are due by the February 23rd Council meeting. Elections for 1973

(cont. next col.)

officers will also be held at that meeting.

Amateur call-letter license plates will not be affected by the recently passed "vanity" license plate bill in the State Legislature.

Recent FCC actions are quite disturbing and have limited many of the traditional freedoms enjoyed by amateurs. The Council urged individuals and clubs to write letters to support the ARRL in its policies in this matter (see Official Bulletin Nr. 410 elsewhere in this issue) and suggested that copies of such letters be sent to appropriate government officials.

The project to set up amateur training classes at the Shelton Correctional Institute has bogged down, apparently due to lack of interest by the administrators there.

A report was made on the January 17th meeting in Kent with guest speaker Jan King, Executive Vice President of Amsat, who kept the group fascinated for three hours with his report on the Oscar 6 satellite and plans for Oscar 7 (seven Tacoma members were at this meeting).

COMPLETE COUNCIL MINUTES ARE POSTED ON THE CLUB HOUSE BULLETIN BOARD.

NEW MOONBOUNCE RECORD

FROM AUTO-CALL

A new UHF record for moonbounce has been set by Bill Smith, K4RJ, in North Carolina and Stephen Mieth, W6YFK, in California.

The new record of a terrestrial distance of 2,080 miles was accomplished on 2304 MHz C.W. between 0619Z and 0646Z on November 22, 1972. This breaks the old record of 750 miles set in October 1970 by Bill Smith, when he was operating as W3GKP in Maryland and W4HHK in Tennessee.

A story about Bill's moonbounce activities and a picture of his antenna appeared in the January 1972 issue of Auto-Call.

LETTER RECEIVED

Letter (cont.)

Editor Loggers Bark
Radio Club of Tacoma

Dear:

We were so glad to have a short but wonderful chat with one of our former members, John Fraiser Wallister, W7MSR, who for quite a spell, lived in 3 land and held the call WB2NDA and the QTH was Willingboro, N.J. More recently he was transferred to 29 Palms in California with RCA (I believe)

Mac was in Tacoma January 10th, gone, to attend his father's funeral, which I attended. It was there
(cont. next column)

and under these conditions, we held our first eyeball QSO in many years. We have a very recent picture of Mac in our albums and he tells me now that he has moved to Honolulu, Oahu, Hawaii and I have his address, if any one is interested in contacting Mac. Mac also tells me that he hopes to get the call of KH6MSR, if he can arrange it and I hope he will get on the air and give us a chance to have, as in the past, many good old rag chews with Mac. Good luck Mac.

We, of the Radio Club of Tacoma, send Mac our sympathy in the passing of his father (John K.) I visited him in the Bel Air Nursing Home many times. We hope Mac will keep us informed of his travels.
....Doc W7OS

ARRL NEWS

By W7BUN

The FCC has denied a number of petitions for the decisions in the repeater Docket 18803. The Commission refused to relax requirements for control operators on continuous duty at a repeater station.

For Novices who might wonder about the 10-meter beacon station on 28.175MHz., it is VE3TEN in Ottawa operating 24 hours a day for study of propagation phenomena. Identification is by fsk with 850 Hz. shift.

FCC has issued a notice of proposed rule making to increase its various fees. Amateur fees would go from nine dollars to ten for new and renewal licenses and from four to five for modifications. Special call sign would remain at \$25.00 and duplicate licenses at six. Novices would remain free. The Docket number is 19658 and deadline for comments is February 13, 1973.

The highest claimed single operator CW score for the November Sweepstakes is W7RM operated by K7VPP and the highest claimed phone score is also W7RM operated by K7VPP. This is the second year that Chip has won both modes, nationwide.

Athos has been added to the ARRL countries list. DXCC credit may be made for contacts after March 1, 1973. Swan Island, KS4, has been deleted.
(cont. next page)

THE WHITE HOUSE WASHINGTON

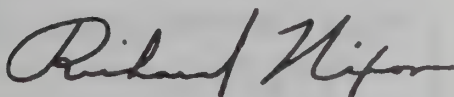

November 15, 1972

Dear Mr. Dannals:

During the disastrous floods that hit South Dakota and the eastern part of the United States this year, amateur radio operators played an important role in rescue operations. Under hazardous conditions, and even at the risk of their own personal safety, amateur operators helped coordinate emergency transportation and evacuation and aided rescue workers in countless situations.

While the nation's amateur radio operators have a proud tradition of emergency service, their efforts during the past summer merit special recognition. I hope you will convey to all the members of your organization, and particularly to those who took part in flood rescue operations, my warmest congratulations on a job well done.

Sincerely,

Mr. Harry Dannals
President
American Radio Relay League, Inc.

ed and all contacts made after September 1, 1973, will be considered the same as Honduras.

The 1973 ARRL Advisory Committee are composed as follows: Contest Committee - W1BGD (chairman), W2EIF, W3BQV, K4BAI, K5TSR, W6DQX, K7NHV, WA9AUM, W0HP, VE2NV and KH6IJ; DX Committee - WA2FQG (chairman), W1BIH, W3BWZ, K4IKR, W5AO, W6RGG, W7LFA, W8BF, W9NN, W0ELA and VE3MJ; VHF Repeater Committee - W2ODC (chairman), K1ABR, W3JIN, K4GHR, W5VPQ, W6MEP, W7FHZ, W9BUB, WA0WZY and VE3BUI.

The Internal Revenue Service has ruled again that the League's publications will remain in the non-taxable category. Advertising income is taxable but the IRS has not finalized its guidelines so the matter remains open to negotiation.

The ARRL has filed comments in support of Docket 19605, which would permit paid control operators at certain amateur stations, such as W1AW, provided that such a station is operated at least 40 hours weekly, operates on all HF amateur bands and publishes a schedule of times and frequencies at least 30 days in advance.

Amateur performance in the Nicaraguan disaster has been outstanding. Operators and equipment were flown in from several areas. Press and TV coverage has been superb. In Latin America, hams are about the only backup means of communications.

The FCC affirmed its rules adopted in Docket 19162, the Phone Expansion Docket. All requests for reconsideration were denied, including the League's request for General Class operation down to 3825KHz. rather than the present 3890. The Commission stated it did not agree that a solution to overcrowding on 75 meters was to compromise the upgrading system by authorizing additional privileges of some licensees at the expense of others.

Final action has been taken by the FCC on Docket 19572, which pertains to the radio control of remote model craft and vehicles using amateur frequencies. Rules were eased as far as identifying and logging of such signals.

End-of-year membership figures show a 2.5% increase in full members to 87,998 with 10,349 associate members. The Northwestern Division increased 7.1% to 4,021 full members.

FCC is using up its supply of Novice exams with questions still involving pre-November rules. Examinees should select the most-correct answers and the FCC will make due allowances for any discrepancies between present rules and obsolete answers.

ARRL BOARD MEETING HIGHLIGHTS:

The Board of Directors of the American Radio Relay League met in Hartford, Conn., January 18 and 19 for two days of intensive evaluation of amateur radio matters in general and League affairs in particular. A major action was the unanimous adoption of a resolution expressing deep

was again voted for AMSAT, with ARRL assuming responsibility for educational, public relations and international promotional aspects of amateur space communication. Study will be made of a space tracking station installation at League Headquarters.

An evaluation of amateur performance, in providing emergency communications during recent disasters, prompted the formation of an emergency communications advisory committee. Its task is a study of frequency plans, as well as duty assignments at headquarters, seeking improved emergency communications capabilities. The responsibilities of section communications managers were expanded to include voluntary activity in the areas of public relations, clubs, recruitment and training. The Board approved specific goals and objectives submitted by the President and the general manager.

It re-elected the present directors on the executive committee, Messrs. Clark, Eaton, Griggs and Thurston. The Board additionally directed a study of the League organizational structure, including duties and responsibilities of the President.

Minutes of the meeting will appear in March QST.

ARRL BULLETIN

TO ALL AFFILIATED CLUBS:

Our ARRL Board of Directors had its annual meeting last week and a major topic of discussion was the apparent trend by FCC toward progressively restrictive and unrealistic regulation governing amateur radio. Dockets 18803 (repeaters), 19245 (phone band suballocations) and 19555 (environmental protection) were cited as examples.

Directors reported considerable adverse reaction among amateurs generally, with concern that such a philosophy could inhibit the desired growth, development and upgrading of capabilities and accomplishments of amateurs. Accordingly, the Board directed that a vigorous program be undertaken to seek more reasonable regulation of the amateur radio service. A copy of the enabling resolution is attached.

I recommend that this be read at your next club meeting and I request that you let me know (via Q.) what are the views of your members toward this Board action. If there is general agreement, I also suggest that you point out the need for as many amateurs as possible to join and support ARRL, for if we are to be successful in accomplishing the objective of stemming this apparent trend to verily-restrictive regulation, all amateurs must be united.

sincerely yours

/s/

WHEREAS, the highly developed radio communications technology existing in the world today is
(cont. next col.)

the direct outgrowth of contributions made by radio amateur enthusiasts over a period of more than 70 years; and

WHEREAS, the government of the United States including various administrative agencies, has traditionally followed the policy of permitting and encouraging the development and growth of the amateur radio service by adoption of only minimal regulations and broad general policies; and

WHEREAS, under the policy of minimal regulation the amateur radio service has developed to an extremely high level of proficiency and service to the nation in times of disaster and national emergency as well as in normal periods; and

WHEREAS, the Federal Communications Commission in recent months has adopted a number of amendments to its regulations and issued a number of interpretations of these and other regulations, which evidence an abandonment of the policy of minimal and self regulation followed so successfully over the years and has other proposed restrictive amendments under consideration which, if adopted, will further increase the level of governmental regulations; and

WHEREAS, these developments and trends are a matter of the greatest concern to amateurs throughout the nation and to the American Radio licensees of all ages and interest; and

WHEREAS, a great number of amateurs, individually as well as through their local clubs affiliated with the League, have expressed deep concern over the apparent trend toward progressively restrictive and unilaterally-imposed regulations governing the Amateur Radio Service and the potential inhibiting effect of this upon the orderly development of the Service as a public resource, as well as in carrying out the charter in Section 97.1 of the rules,

Now, therefore, BE IT RESOLVED, that the President and the General Manager are directed to undertake a vigorous program to seek reasonable and technically viable philosophies of regulation and interpretation, conferring at all necessary levels with appropriate Government departments and officials and recommending to the Board of Directors courses of action, which may be required

to assure the continued availability of traditional latitudes and freedoms and the full public service capabilities essential to the growth, improvement and usefulness of the amateur radio service.

Adopted unanimously January 18, 1973 by the Board of Directors of the American Radio Relay League.

CLUB MINUTES 12-13-72

The regular meeting of the Radio Club was called to order at 8:20pm by President Len Goodwin WA7HHI, opening with the pledge of allegiance.

Ethel W7WLX introduced the following guests: Pat Wells W7UNF, Roy Myers, Dick Prout W7VIC and Dick Hazelmyer (Member now living in California).

Doc W7OS read eulogies to two ex-members, who recently, joined Silent Keys.

Laurence Q. Kelly ex-W7BPC, Secretary of the RCT during 1931-32, who passed away December 5 1972:

Cmdr. James C. Pickens Jr. W4EF, who lived in Florida.

Club members stood in a moment of silence in memory of these two men.

Treasurer's report

Checking account	\$214.00
Savings account	141.00
Building fund	268.00

A bill for liability insurance of \$48.00 was ordered paid on a vote by the membership.

BUILDING COMMITTEE

Joe WA7RWK reported the windows are now being made and will be available soon. They are being glazed with plexiglass to prevent breakage. He also reported the furnace would have to be replaced in the near future--that it cannot be converted to gas. It is working OK for the present. The committee will make recommendations in due time.

Jan. 11th:	"GSP gear and its construction" by Charlie Milhens WA7QYI

AUXILIARY

Vivian reported a meeting will be held at Jill's house on December 20th.

Dick W7RGD said he and Editor Scotty K7CYZ planned to get the Loggers Bark out early in January. They are also working on the new roster book and have set a deadline of Monday, December 18th for all corrections and changes of addresses to be in.

TOWER COMMITTEE (Dennis W7UBA)

The concrete company has changed its policy regards supplying surplus concrete: it now sells (cont. next column)

the stuff for \$10.00 a yard. (Our estimated requirement is from 4 to 5 yards) A discussion ensued regarding separating the pours; it was felt there would be no weakness of the concrete, provided steel rods were used to tie it together.

UNFINISHED BUSINESS: None.

NEW BUSINESS:

Vivian brought to the attention of the membership the need for funds to pay for the telephone bill. She passed on the information, discussed the board meeting, viz., that donations of clean buttonless rags from the membership would net the club, 30¢/lb. and it was a good way to raise money. Raising the club dues was also discussed. It was Moved by Dick W7RGD, Seconded by Bob K7IN that the club absorb the cost of the telephone bill. Motion PASSED unanimously.

NOMINATING COMMITTEE (Chmn. Bill WA7SCN)

President	Len Goodwin WA7HHI
	Dennis Reanier W7UBA
Vice-Pres.	Frank Connely WA7GWL
Secretary	Chris Jensen WA7MJK
Treasurer	Joe Winter WA7RWK
Board (2)	Dave Reed WA7QGI
	Emil Koth K7GPK

Dennis reported he had a call from a school librarian, who requested a program on "Amateur Radio" to be presented at the library in Parkville. Volunteers were asked for to present the program. Jill Anton K7ESD and Tom Kelsh WA2NPC responded. The ARRL film, "This is Ham Radio" was recommended for use in the program.

Dick Hazelmyer donated to the club a 16mm movie projector, which he obtained while on the east coast. This is an excellent piece of equipment and the club tendered Dick a hearty vote of appreciation; especially since he risked the hazards of treacherous road conditions delivering it from his new QTH in California. He also donated three W.E. tubes, including two 205-Ds, one of which was in service for over 22 years; these to the museum. Scotty K7CYZ was appointed custodian of the projector; Doc Moved to accept it with thanks. Ron Chudy W7UQV suggested space be set aside and a film cabinet be installed.

TUNING & TRAFFIC

OSCAR has been utilized by club members. Joe WA7RWK worked Paul Anton HL9BL, who has been in Korea for a month. Look for him on 21450 and down at 3:30pm. PST and at 2am PST on 28530.

Ron W7UQV announced a birthday party for Charlie K7VPF to follow the meeting. Also in recognition of his achievements in the many contests, in which

(cont. next page)

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

has participated. All joined in singing "Happy Birthday" to Chip on his 21st birthday. Chip responded by passing around a picture taken by him from the top of W7RM's tower.

MEETING ADJOURNED.

Following the meeting Dick Hazelmyer showed a film on the MARS net operation. Our new projector performed superbly.

Respectfully submitted,

/s/

E.H. Burton W7SF Sect.

CLUB MEETING 12/27/72

The regular meeting of the Radio Club of Tacoma was called to order at 8:12pm by President, Len Goodwin, opening with the Pledge of Allegiance.

Ethel W7WLX introduced the following guests: Mike Donahue WA7GII, Terry Howard WA7LGY, Dave Martin WN7UQZ, Dave Reichlein W7GVG, Jane Reichlein W7LXQ, Bob Christenson WA7KLX/7, Ted Burns W3PWK and Pat Wells WN7UNF.

TREASURER'S REPORT

Checking account	\$214.56
Savings account	143.07
Building fund	266.39
Total	\$624.02

A bill for the trailer license was presented for \$12.90 and it was Moved and PASSED to pay it.

Joe WA7RWK announced the windows will cost approximately \$60.00. The frames are complete; Roy W7AZI will pick them up this week-end and fit the plexiglass.

A greeting card was read from Ed & Lydia Coles by the Secretary. Doc said he had worked Ed, who lives in Woodburn, Oregon and that Ed will be on Saturdays at 9:30pm on 3950KHz. Ed is anxious to contact club members.

PROGRAMS (Dennis W7UBA)

January 10th: Charles Milhans WA7QYI program "QRP Construction"

Coming soon: "Caroline Islands". (2nd part)

ADJUTANT REPORT (None)

POWER COMMITTEE (Dennis W7UBA)

The anchors have been donated by Lyle Seehorn and are worth \$180.00. There is a separate anchor for each leg and four rods. Secretary was directed to write a letter of appreciation to Lyle.

VEEPSTAKES REPORT (Jerry W7BUN)

W7DK was "royally smashed" by the BEARS in both modes. This leaves the score at two wins each. The trophy will be retained permanently by next year's winner.

Jerry announced the Western Washington DX Club station W7ER has created a certificate, "Washington Totem Award". This certificate will be sent to any amateur who works 100 Washington State

(cont. next col.)

stations, 20 of which must be member stations of the WWDX Club. Purpose of the award is to stimulate interest by DX stations to look for Washington stations.

Jerry also announced an FCC proposal to increase the license fees.

ANNUAL MEMBERSHIP (DOC W7OS)

New members '72' 24

Participants signing 24

Winner of award for the most recommendations: Joe WA7RWK. Dennis Moved, Chris Seconded a Motion that the club continue to grant an award of one year free membership to the man who participated in the most recommendations. Motion PASSED.

UNFINISHED BUSINESS (Dennis W7UBA)

We have a pole (70 ft.) and a shack for the transmitter available at the N.E. Tacoma site. Installation of the gear awaits completion.

NEW BUSINESS:

Bob Gates K7IND recommended two door mats be donated for the clubhouse porches. George Abbott WA7BHH agreed to furnish the mats.

Larry W7BUN announced that SET was just a month off; John Austin is co-ordinator.

The Secretary was directed to write a letter of appreciation to Dick Hazelmyer for donating the movie projector.

Dennis reminded that the club station license expired March 5th and that we are now within the 90-day period during which application for renewal should be made. Bob Moved, Phil Seconded a Motion to send a check to FCC for license renewal. Motion PASSED.

Jerry asked for auction results. Treasurer Kent reported we realized \$113.71 from the auction. APPLICATIONS FOR MEMBERSHIP

Applications for club membership were approved unanimously for Jane Reichlein W7LXQ and Dave Reichlein W7GVG, both effective January 1.

Following a brief adjournment, the meeting reconvened for the election of officers. All officers were elected by secret ballot as follows:

President	Len Goodwin WA7HHI
V-Pres.	Frank Connelly WA7GWL
Secretary	Chris Jensen WA7MJK
Treasurer	Joe Winter WA7RWK
Board Member (2)	Dave Reed WA7QGI
	Emil Koth K7GFK

TUNING & TRAFFIC

Chip K7VPF announced a program "Touch of Nostalgia" over station KRAB (107.7MHz FM) directed by W7EXM and K7JCA.

Joe WA7RWK said that traffic for the Nicaragua earthquake was being passed on 14,345 (in & out); 14,269 (in & out); 14,227 (in only). Official station working on official frequency in YNLYN.

Ron Chudy asked permission to use the club house for the Novice round-up in February. The President ruled the matter would be taken up

(cont. next page)

at the Board meeting next week.

Phil offered to donate a burglar alarm module for the club house. Moved by Burt W7SF, Seconded by Howard W7MRX, to accept the offer with thanks. Motion PASSED.

There being no further business, the meeting adjourned at 9:42pm..

Respectfully submitted,
/s/
E.H. Burton W7SF (sect.)

CLUB MINUTES 1/10/73

The regular meeting of the Radio Club of Tacoma was called to order at 8:03pm., January 10 by President, Len WA7HHI, with the members standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved as corrected.

Ethel W7WLX introduced our guest, Dave Kist.

TREASURER'S REPORT

Checking account	\$268.81
Savings account	143.07
Building fund	286.40

Bills:

Utilities	\$29.66
Telephone	12.06
Insurance	48.00

A Motion was PASSED that the above bills be paid.

Jerry W7BUN received a letter from the BEARS indicating that their Sweepstakes score had been figured incorrectly. However, the correction does not change the outcome of the contest between our two clubs.

Len WA7HHI reported that Dennis W7UBA will try to have a base for the club tower by March.

Jerry W7BUN asked us to be mindful of the Ham-of-the-Year Award and possible candidates.

Scotty K7CYZ Moved that the club give a donation to the Puget Sound Council of Amateur Radio Clubs. Motion PASSED.

Doc W7OS announced that the father of a former club member, John McGallister, passed away.

Dick W7EGD expects to have our new roster books ready for the next meeting.

Frank WA7GWL reported that our program for the next meeting will feature slides of the Marianas Islands. Interesting programs for future meetings were also described.

Ron W7UQV will be making plans for having the club house open for the Novice Roundup activities.

It was MOVED, SECONDED and PASSED that we have a Hamfest this year. Possible locations were discussed. It was felt that Dennis W7UBA should again have the honor of being chairman.

Scotty K7CYZ reported the ideas of the Board on re-activating the Junior Auxiliary of the Radio Club of Tacoma. The dues would be less than that
(cont. next col.)

of the regular club and the meeting time would be earlier. Hank W7UD Moved that a committee be formed to plan a Junior Auxiliary program. Motion PASSED.

Jerry W7BUN reported that the ARRL field film from the early 1950's, which featured W7UD has finally been replaced by a more recent edit. Jerry also relayed the regards of Marv WB4JBS and Jean Wheeler WA7OII.

Received into full membership were: Roy Myer and Robert D. Christenson WA7KLX.

After adjournment, we enjoyed an interesting program presented by Charlie Milhans WWA7QYI on QRP rigs.

Respectfully submitted,
/s/

Chris Jensen WA7MJK (sect.)

SLIVERS & SPLINTERS

Emil K7GPK had his HW-12A Heath transceiver stolen from his truck, January 19th, while it was parked in front of his house. The thief got Emil's mike but missed his power supply.

Jerry W7BUN will hold beginners code classes on Saturday mornings, as soon as enough interest is shown.

Marianne Simonsen, daughter of Lind W7JHK and Kathleen Simonsen was married to Robert L. Smith. The couple will make their home in Coulee City.

Leila May Grant, daughter of Club member Don WA7PIN, was married to Michael Lee Hrenchir. The couple will reside in Winter Park Florida until Michael finishes school. After school they will be stationed in Norfolk Virginia. The bridegroom is a member of the US Navy.

Jill Anton, K7KSD, returned to Tacoma, January 14th from Hastings New Zealand, where she stayed two weeks with ham friends, Jack ZL2AWZ and XYL Pat. Now Jill is a New Zealand booster and is even thinking about N.Z. as a retirement possibility for herself and OM Paul, K7ESD.

Beryl and LaVerne Hood (K7NPG & K7NKZ) are back from Utah to stay. Still waiting for their house to catch-up with them. Should arrive any day now.

Our sympathies go out to the Radio Club of Tacoma Secretary, Chris WA7MJK, on the passing of his father, Arnold F. Jensen, on January 19th.

Bob W7RXS still trying to work the bugs out of his new home-brew 2 meter transceiver. Looks good and should be a hot rig, when the bugs are worked out. At the present, can get a signal all the way across the back yard. Keep with it, Bob.

HELP! HELP! HELP! The Ladies Auxiliary is still looking for old rags. The members said they would help out but the rags are very slow coming in. Why don't you check right now, while it's fresh in your mind to hit up the XYL for some to take to the next meeting!

JANUARY 1973

BEARS MAUL TACOMA

By W7RUN

It appears that the two Sweepstakes trophies will hibernate in the den of the BEARS for another year. In the annual competition between the Radio Club of Tacoma and the Boeing Employees Amateur Radio Society for high score in the November Sweepstakes contest, the BEARS have emerged victorious this year. The trophies are to be permanently held by the Club that wins the greatest number of times in a 5 year period. Tacoma won both modes the first two years and the Boeing Club has taken them the next two, making the score a tie for the first four years.

The winner in 1973 will keep the trophies. The 1972 scores as tallied follow:

Phone contest - Tacoma 646,588 with 26 participants; BEARS 766,855 with 32 participants.

CW contest - Tacoma 286,578 with 11 entries; BEARS 515,900 with 22 entries.

Added to Tacoma's score, for the National competition, will be the score of W7RM, operated by K7VPP, who made 241,050 points on phone and 7,325 on CW. Under an agreement between the two clubs, this score is not considered in the local contest, due to the quasi-commercial nature of this particular station.

THE EDITOR'S DESK

Ten Years! Yes we are starting into the tenth year of publishing "The Loggers Bark".

Yours truly started as a reporter in '64' and has never worked at this type of job before as you have probably noted but I have enjoyed being both amateur radio operator as well as an amateur newspaper editor. It has been ten wonderful years working with and now leading the staff, who put this paper together. People like Dick W7RGD, Margie K7AMJ, Ralph W7COP, Merl W7IKG, Emil K7GFK, Gayl K7NPG, Bill K7VQM, LaVerne K7NKZ, Jerry
(cont. next column)

Editors Desk (cont.)

W7EUN and the many, who have submitted articles and schematics to make-up the paper each month.

Special thanks to our advertisers, Smitty K7ATD of Pittsburgh Paint Center and Tacoma C.D. Radio Officer; Bowlero Lanes (A wonderful place to bowl); Jim W7BSW (certified hearing aid center); Art W7JGN (Shop-Mart Department Store) and of course, Channel 11 (KINT-TV) headed by our good member Max W7AEA. Over the past nine years, there have been others and we thank them as well, for without all of them the road would have been tough and maybe even blocked.

When we started the Loggers Bark, the Puget Sound Council gave us six months to live. We have survived five times that and we will be going, with your support, another five times that time.

Elsewhere, in this issue, you will find a guest editorial on the history of the Loggers Bark by my predecessor, Margie K7AMJ. I want to thank Margie for this and her many other articles and editorials. It has been ten wonderful years working with her and the rest of the gang putting out YOUR Club newspaper.
... Scotty K7CYZ

ANNUAL PARTY REPORT

W7BUN

92 members, guests and visitors enjoyed a delicious dinner and get-together, December 9th at the McChord AFB, NCO Club. However the dancing was damped by the appearance of a "soul" band, who were unable to play any music decent enough for dancing.

The date for the party was reserved last January but the band wasn't booked until October. Under these conditions we have to take "pot luck" on the music. Ordinarily we get by with danceable music but this year was an exception.

My sincere apologies to all those who came prepared to spend the entire evening and were driven away by the music.
.....Jerry

Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

FEED BACK

The December issue of the Bark carried a picture of Bob Weightman WA7IFR being presented with an award from Mr. Nysen at his retirement party.

Mr. Nysen's correct title, with the City Light Department, is Chief Electrical Inspector, not Engineer. Are apologies for the error.

Also the award was Ham Operator of the Year but Bob wanted it known that this is not the coveted ham award presented by the Council. This award, from City Light members, was intended as the fun part of the program. Sorry for any misunderstandings caused by our not noting this fact.

REMEMBER, DUES TIME IS WITH US FOR ALL REGULAR MEM-

ROSTER BOOK CHANGES

Please add to your roster book the following:

ALLEN, Robert WN7UQS JU 2-0699
9716 Hinkings Road SW.
Tacoma, 98498

Bob will be the last member to join the for this year and his name will be in the roster book.

There are no other corrections for this month and all of the corrections listed during the year will of course be incorporated in the new book which will be out shortly after the first of the year. Dick W7RGD

ARRL NEWS IN BRIEF

By W7BUN

ARRL has a new manual available, "FM and Repeaters for the Radio Amateur". Initial sales have been slow in spite of the tremendous interest in this area.

The usual arrangement between Korea and the U.S. allows for holiday phone-patching December 21 to January 4th.

The FCC has denied RM-1804, which asked for exclusive segments of 15-20-40-80 meters for am use. W-1711, which asked for a prohibition of am below 1.8 MHz was also denied.

The League's technical department has sent a letter to all foreign and domestic manufacturers of vhf-fm equipment, requesting cooperation to remedy excessive wide bandpass characteristics of receiving equipment and reduce harmonic and spurious output energy of all fm transmitting equipment.

The semi-annual Director's meeting will take place shortly. Notify Bob Thurston, W7PGY, Northwestern Division Director, if you have any ideas, proposals or comments for the board to consider.

"Popular Electronics" has an amateur section in their annual "Communications Handbook". Most of this work was done by Don Waters, the League's Public Relations Coordinator.

William J. Porter (chief negotiator in the Sino-Soviet peace talks) has been nominated as Under-Secretary of State for Political Affairs. He is K1YPE, who has also operated as HL9AA and K1YPE/15.

The ARRL Intruder Watch has completed eight years of vigilance and work to aid in having intruders removed from the amateur bands. Additional volunteers are welcomed. Requirements are several years amateur experience, good receiving equipment and time to spend two hours per week logging non-amateur calls in the amateur bands.

"Broadcasting" magazine reports that the General Accounting Office has issued a report criticizing the FCC for spending too much time inspecting amateur broadcasters and not enough monitoring mobile radio and citizens band, "where the problems are". The GAO also suggests that the Civil Service Commission have the responsibility for conducting radio operator examinations.

The FCC issued a notice of proposed rule making to increase its various fees. The broadcast industry will take the brunt of the increase. For amateur licenses, it is proposed to go from the present \$9.00 to \$10.00, for new and renewal applications and from \$4.00 to 5.00 for modifications without renewal. Novices will continue to be exempted from payment of fees.

SECRET OF STOCK MARKET SUCCESS: BUY LOW, THEN SELL HIGH TO THE NEXT GUY WHO WANTS TO BUY LOW.

AUXILIARY NEWS

By Rene Smith

Another great meeting at Jill's home, for our December party and elections. There were just 5 of us but we always have fun. Please join us next year. We will have the same slate of officers, next year.

We have a full year planned.

January 18th (Thursday this month only) at Rene Smith's will be strictly a social night.

February 21st will meet at the home of a friend Bea Brokow, a demonstration of Mary Kay cosmetics. Let's have a nice turn out ladies.

March 16th (Friday) 6pm will have a potluck instead of the annual skating party-more about this later.

March 21st. Auxiliary at Margie Chavis's home. Program to be announced later.

April 18th. Flower arrangements at the club house.

April 20th. Save! for a third party. More on this next month.

May 16th. Auxiliary movies by Jill, taken in New Zealand, over the New Years Holiday, at the club house.

May 19th. (Friday) Party???

June 20th. Auxiliary at Jill Anton's. Amy Ahlstrom will show us how to make Hawaiian Lais.

That's all for now, except we still need rags before January 18th. At least 50 pounds, so please start collecting and call some one to pick them up.

See you next month.

...Rene

LETTER RECEIVED

EDITOR LOGGER BARK
RADIO CLUB OF TACOMA

It has been reported in the "Retired Officers Official Magazine" in the section TAPS, which is the section reporting "Silent Keys", during the monthly issue of December, the passing of Comdr. James C. Picken Jr. of Florida.

It is not known yet whether Jim was ever a member of the Radio Club of Tacoma but many of you will recall that Jim held the call of W7BZ. He

was a member of the Tacoma unit of U.S. Naval Communications Reserve. I helped him get his Commission as an Ensign in the Naval reserve.

As a civilian, he was very active in design and construction of the very first police radio station.

He served in WW-II and retired a few years ago in Fort Lauderdale, Florida and was active on the ham bands as W4EF.

His first wife, Alberta, died in 1950, when he was in Washington D.C., while in the service. He later re-married to Ann. When I last heard from him, in October 1967, he appeared to be in good health.

I'm sure, those who knew Jim, would like to join me in extending our sympathy to his family.

73,
Doc W7OS/HQN

COUNCIL NEWS

By W7EUN

The Ham-of-the-Year nominations for 1972 will be due soon.

The Council's Visitation Trophy is back in circulation, from the Lake Washington ARC, to the Mt. Baker ARC, to the Western Washington DX Club.

The Council is preparing a chart showing the differences between amateur and citizen's radio services, to be sent to all area t-v, radio and publication news services.

The Council is exploring ideas for inter-club competition between member clubs.

The Mike and Key Radio Club is now ARRL affiliated.

A new Olympia club is the Thurston County Amateur Radio Breakfast Club, which meets the first Saturday of each month for a breakfast meeting.

The Western Washington DX Club now has an award certificate available. See details below.

Full Council minutes are posted on the Club house bulletin board.

THE WASHINGTON TOTEM AWARD

The Western Washington DX Club, the Northwests largest and most active DX group takes pleasure in issuing the first major W7 award. This award is issued to any licensed radio amateur who submits proof of two-way radio contact with the State of Washington. The Totem Pole shown on our card and colorful certificate is typical of the Totem Poles once found in the State of Washington,

1. Applicants must submit proof of confirmation of QSOs with 100 different Washington stations. Twenty (20) of these must be confirmed contacts with different Western Washington DX Club members.

(cont. next column)

2. General certification rule applies. Submission of QSL cards is not required. Your cards must be checked and certified by an officer of a recognized Amateur Radio Society or Club.
3. All contacts must be dated January 1, 1973 or later.
4. Certified lists submitted should be in alphabetical order with date and time in GMT.
5. The WASHINGTON TOTEM AWARD is free to all stations outside of the United States. U.S. stations must include an application fee of \$1.00. If QSL cards are sent to WWDXC for checking, sufficient postage must be included with the application and confirmation list for their return via first class mail.
6. SPECIAL ENDORSEMENT: The Washington Totem Award may be issued for specific bands or modes if all supporting information is included with the application.
7. The WWDXC will furnish a current membership list upon request including a ASAE. Send airmail to: Awards Chairman, Western Washington Club Inc., PO Box 224, Mercer Island, Washington 98040, U.S.A..

X-MAS PARTY

By K7CYZ

The annual Christmas Party is now in the past and a good turn-out was present. 92 to be exact. Of the 92 there were 13 visitors from out of town. Coming from Shelton, were George K7MVF and Arlene WA7EGI Doak. From the State Capitol, Olympia, were W7HMS and XYL Barb W7GJL Ashley, Ira W7IEI and Molly McCullough, Dick WA7AQR and Pat Williams and Glenn W7ZMC and Sis Smith. From Seattle were Harry W7JWJ and XYL Mary W7QGP Lewis. The Lewises are members of the North Seattle Radio Club as well as members of the RCT.

The Northwest Director for ARRL, Bob Thurston W7PGY and his lovely XYL, Maxine were present also from Seattle.

Everett was represented by Dwayne K7KSZ and Patty K7NQR who are Special members of the RCT as well as being charter members of H.A.M.S. Club.

Coming all the way from California to attend

he party was Dick and Marge Hazelmyer. Dick is stationed at the Hamilton AFB in California. We hope to put a call sign behind your name, Dick, one of these days, soon.

The food? You can't beat it any-where, at any price. The music? Well, that depends on how old you are. At least a hearing aid was not needed.

A special thanks to Jerry W7BUN for arranging the party. We hope to go back again to enjoy the "getting together" with old friends over wonderful how. K7CYZ

TENTH ANNIVERSARY

By K7AMJ

As we embark on our 10th year of publishing this newspaper, we would like to reminis with you a little.

When we started the Loggers Bark, we made a trial issue and brought it before the club meeting to get the approval of the membership. After getting the go-a-head, we sat down and made some plans. We agreed on Emil K7GPK as Editor, Margie K7AMJ as Assistant Editor, Scotty K7CYZ, Merl K7IKG, Ralph W7COP and Dick W7RGD as reporters. Dick also started out with the publishing. Max K7AEA offered the printing facilities (mimeograph). A few nights were spent on how to lay it out. Ralph designed the first mast-head and Merl drew it up. A name for the publication was needed and Merl came-up with The Loggers Bark. Many changes have taken place but the title is as permanent as the Radio Club of Tacoma.

The first 6 issues were run at KTNF. Then it was decided to go big time, so that we could run pictures. A printer was contacted, after many phone calls, to get a price we could afford. Then followed many more phone calls and many miles on Margie's car to sell advertisements, to pay for the printing of our fledgling paper.

Our first offset printed paper was published on July 1964. The front page contained 12 pictures, 1 by Emil K7GPK, with his arm around LaVerne K7NKZ & one of the Field Day Chairman, Ralph W7COB. Mr. John Vitzum printed our paper until April, 1965.

At that time, Dick answered an ad in the local paper and purchased our first offset press. (Multilith Model 80) It was planned to do other printing jobs (QSL cards, announcements, etc.) to pay for the press. A checking account was set up, along with record books, in the name of The Loggers Bark. We were in business printing a club newspaper on our own.

Many a night was spent in Dick's basement, running the paper, on that old machine. Merl and Dick spent as much as 4 and 5 nights just to run the paper off. The new publisher, listed in the Bark, was C & R. The C being Chavis and R was Ran. Some nights were a real nightmare. If you

(cont. next column)

could have seen two grown men sitting on the floor shaking their heads with tears in their eyes, you would know what I mean.

In the meantime, we started collecting things to help with the chore. C & G donated a colying camera, for producing half tone negatives and photographing art layouts. It was minus the lense but Charlie W7ELB came up with a special lense made just for the job. We purchased a used plate burning stand from our first publisher, John. Now we had all this fine equipment but still printing the newspaper on the crummy old model 80 Multilith machine. Finally our present model 1250 Multilith machine was purchased and even more fortunate we managed to sell the old machine at a \$0 loss. What used to take two men to do in 3 or 4 nights, could be done by one in about 1 hours time. What a delight! With the better equipment it was possible to do out-side printing jobs and with-in 2 years the machine was paid off and all free and clear.

In order to set up our advertising accounts and other outside jobs, it was necessary to have help from Elaine Leffler, xyl of Bud K7IZA. She would set up the lettering and after cutting and pasting, it could be photographed on our camera. This was very tedious and time consuming. We got a break when an used Verityper machine became available in Seattle. It was purchased in February of 1967. This was a great addition to our equipment list. We could now print almost anything and make it look professional. Shortly after acquiring the Verityper, Andy W7ONL noted the fact that we were using a verityper to print the Bark. He receives a copy of the paper through our exchange paper set-up among club newspapers. He wrote to our Editor, inquiring if we could use some extra fonts for the typer. We replied with a hearty yes! and low and behold, arriving in the next mail was 18 different fonts for the verityper. This increased our capabilities a hundred fold and represented quite a cash savings. (Normally, used fonts go for about \$35.00 each!)

Last, but not least, Roy W7AZI made available a shadow box, complete with tilt stand, lights etc

an invitation to anyone wishing to work OSCAR, to drop in at his home. The satellite passes over at 100 minute intervals. Dave also announced there is available free, at the Oswald airport hangar at 19th and Mildred, rolls of half and three-quarter inch, 75 ohm coax cable.

Ethel W7WLX reported that Marion K7TCY had his tracheotomy tube removed and is doing well.

Don WA7PIN appealed for donations or loan of receivers for several novices. Needed to copy W1AW code practice transmissions. Also requested the return of a Motorola manual he loaned out to someone.

Frank WA7GVL announced the up-coming 160 meter contest.

MEMBERSHIP APPLICATIONS

Nils R. Olson WN7LBM and Robert Allen WN7UQS were accepted and welcomed to membership.

Meeting adjourned.

Following the business meeting a most lucrative auction took place, which must have left the meeting room in a some what tidier condition following the departure of the successful bidders, with their loot.

Respectfully submitted,

/s/

E.H. Burton W7SF, Secretary

SLIVERS & SPLINTERS

Many thanks are in order for Dick Hazelmyer for his donation of the new 16mm sound projector to the RCT.

Merl W7IKG is holding regular Sunday skeds with Bill KH6IAB (W7ZFY) on 14.290. Bill recently poured the concrete base for his new tower.

Bob W7RXS joined the ranks of the Radio Club members, who have worked on the steam plant down in Centralia.

George WA7BHH getting ready to move into his new QTH. Will have a better set-up for a ham shack. Hope the location proves out good for antennas too.

Max W7AEA serving on the Board of Directors for the National USO Clubs.

Merl and Margie (W7IKG & K7AMJ) back from their visit to California. Got a taste of 2 meter operating while on the trip. Borrowed a rig from Dick W7RGD for the trip and were in communication with the Huntley's (K7CYZ), who were also vacationing south. Merl whistled his way down and back trying to key-up repeaters along the way.

Dick and Marge Hazelmyer visiting the Tacoma area during the holiday season. Came all the way up to be at the RCT Banquet. Plan to be back in California for X-mas.

Beryl and LaVerne (K7NPG & K7NKZ) settled down in their new home. Furniture shipped from Tacoma (concl. next column)

and all in place for the holiday season. For some new muscles after shoveling snow day after day.

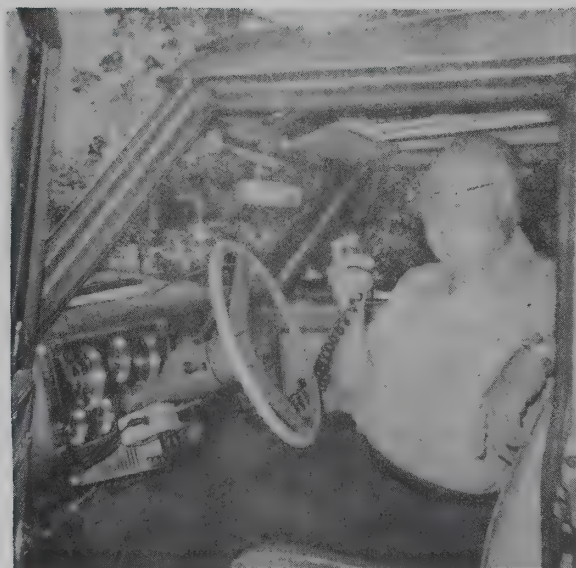

Del W7JG had the rig turned off and bent on the chess board with brother John. Quietest ole ham shack has been in a long time.

Jim W7BSW back to work and feeling a lot better after his stay at the hospital following surgery. Getting a little tired of all the traveling required on his job. Keeps him busy watching for those white cars with blue lights on them.

Will close this column a little early this month since I've got to get upstairs. Some old man in a red suit is running around on my roof and I'm afraid he might damage my antennas. Have a good Holiday season and best wishes for the new year from the whole gang of your Loggers - Be

Iz

Remembrance

LAWRENCE Q. KELLY

EX/W7BPC

Lawrence Kelly will be remembered by those who were active in the 1930 era of the long history of the Radio Club of Tacoma as our genial Secretary during 1931 and 1932. We find his picture in the official group picture of the Northwestern Division ARRL Convention, held in Tacoma, August 27, 1931 at the Tacoma hotel. He is in the front row with the officers of the Radio Club of Tacoma.

Lawrence Q. Kelly, ex/W7BPC, age 69 of 8207 Phillips Road SW., Tacoma passed away December 8th, 1972. He was born in Walla Walla and lived in Tacoma 65 years. He was past President and co-owner of Kelly Furniture Co., which kept him busy and prevented him from continuing his amateur radio hobby. He was a past member of Tacoma Elks Lodge 174.

In recent years he had traveled extensively with his trailer, which he did equip with CB radio (KDM-6437) but only a few months ago he told me it never took the place of his interest in ham radio.

He is survived by his wife Helen, two daughters Leah Lemon and Lauralee Lundgren, a brother Robert D. Kelly, four grandchildren all of Tacoma.

We of the Radio Club of Tacoma, join his many friends in extending to Helen and his family, our sincere sympathy.

.....Doc W7OS/HON

ANNUAL CHRISTMAS PARTY

Report (cont.)

Once again, we will hold our annual Christmas Party at the McChord AFB, NCO Club, Saturday evening December 9th. Bar will open at 6:30pm., dinner at 7:00 and dancing to the SOFT music of cameos, (8 piece band) from 9 to 1am. Minors stay for the dancing but of course, won't be served hard drinks.

Dinner will be the usual fine roast beef and chicken, buffet style (all you can eat!) and costs \$5 per person, which includes the tip.

All reservations must be made in advance; deadline is December 6th. Contact Jerry, W7BUN, at 67652 for reservations.....W7BUN

BUILDING COMMITTEE REPORT

BY WA7RWK

Western Builders have completed the work of leveling the Club House and placing a concrete block foundation under it together with new concrete front and back porches, including concrete posts. New front porch posts were also installed. This work marks a major progressive step in the improvement of the building since it was purchased.

However, there still remains some necessary work to be completed.

The most urgent is to install a new window sash on the south side. We have sufficient pieces of plexiglass to glaze four windows. The plexiglass is quite thick and considered unbreakable and it should eliminate our broken window problem. We should plan to paint the exterior as soon as weather permits, in the spring. Ralph, W7COP, says that the furnace may last this season but not predict beyond that, so we'll have to replace the furnace soon.

Early last spring, the second floor rooms and ceiling were insulated and should reflect a decrease in the heating costs.

Our upstairs radio room is just about ready for
(CONT. NEXT COL.)

pletely re-wired; however, before we can use the radio room for its intended purpose, we will be required to install a 200 amp service to the building.

The building has been improved considerably since it was purchased in 1958. I have been told by the members that were around in 1958, that we wouldn't recognize it today if we saw it then. A lot of work was accomplished by the members since then and if we can retain the support of all the present members, we will complete the work and be in first class shape in a short while.

I wish to take this opportunity to thank all those many members, who worked on the building.

.....Joe WA7RWK

BLDG. CHMN.

CLUB AUCTION

The club had its annual auction following the regular club meeting. A fair turn-out was present including 11 guests. This year the auctioning was handled by 3 auctioneers taking some of the load of just one. They were Roy Devish W7AZI, Bob Gates K7IND and Ron Chudy WN7UQV. Frank Connelly WA7GWK acted as cashier.

Items ranged from coax connectors to a transceiver for all bands. Sales amounted to over \$200.00. Some items were sold on a commission basis, with minimum prices placed on the item. Many items sold for 25¢ and ranged up to \$27.00 for some of the better goodies.

The treasurer will have the net results and pass the information on to the club during the next club meeting. A good time was had by all.

Roster (cont.)

A new roster book will be out, shortly after the first of the year. If you have noted any errors or changes in the present roster, please contact Dick W7RGD and he will up-date them before going to press.

ARRL NEWS IN BRIEF

BY W7BUN

The next ARRL Simulated Emergency Test (SET) will take place January 27 and 28, 1973. Plan to participate and do your share to justify the amateur service.

The results of the election for Director of the Northwestern Division are: Robert B. Thurston, W7PGY, 1,192; Harry W. Lewis, W7JWJ, 779; William R. Watson, W7BQ, 506. There was no opposition for Vice Director and Dale Justice, K7WWR, was elected unanimously. These offices start January 1, 1973 for a two year term.

The following petition have been filed with the FCC: RM-2074 by the Puget Sound Council of Amateur Radio Clubs, to waive the second application fee, when an amateur attempts, within one year to pass an examination element previously failed. RM-2076

by W2WLR, to authorize simultaneous voice and facsimile long-time sequence per frame transmission of a.m., ssb and fm voice. RM-2080, by K1IGD, W1NXY and WA1DXT, to adopt a system of call sign prefixes, primarily to indicate class of license.

A satellite DX Achievement Award, relating to Oscar 6 only, will be available for contacts made through the satellite after December 15. QSO's count as 10 points, each new country worked counts 50 points and each new continent 250 points. 1,000 points will obtain the award and only one contact per station will count, regardless of mode.

ARRL affiliation was granted to the Mike and Key Radio Club of Federal Way, along with 8 other clubs.

Complete sets of League publications will be available to affiliated clubs at reduced prices on condition that the material will be donated to a local library.

FCC is calling in some Conditional Class licensees for examination.

The League has filed a vigorous protest against the FCC becoming involved in the Environmental Policy Act of 1969. ARRL contends that congress never intended FCC to create rules under this act, that there is no environmental damage from radio apparatus and that someone in the FCC "must be involved in the role of empire-building". Passage of rules, proposed, would mean that even amateur stations would have to have approval of a board in order to erect any type of antenna system or modify an existing system. One neighbor would be able to veto a proposed antenna system on the basis of environmental damage.

The ARRL has filed a petition asking for reconsideration of the phone band docket in that 3825 to 4000KHz should be available for General and Conditional licensees. Reason given were crowding of upper portion of this band, extensive net operation in this band and the fact that most emergency communications take place in this band.

(THE FOLLOWING BULLETINS WERE RECEIVED AT THE TIME OF GOING TO PRESS AND THE COMPLETE TEXTS WILL APPEAR LATER)

The ARRL President received a notice of praise from President Nixon, praising the radio amateurs in their help in rescue operations during the recent flood conditions in South Dakota.

Notice of review has been filed asking for a review of the recent "Eye Bank" decision.

The FCC has received criticism for spending too much time monitoring B.C. stations instead of mobiles, Citizen band operations etc..

FURTHER DETAIL WILL BE PUBLICIZED IN FUTURE ISSUES OF THE LOGGERS BARK.

BIG WHEELS ARE SOMETIMES JUST LITTLE WHEELS RUNNING AROUND IN CIRCLES.

Dr. F.Clifford Spike W7OS
3418 No. 19th Street
Tacoma, Wa 98406

Dear Doc

I was so pleased to hear from you. I want to thank you especially and all the other members of the Club for the beautiful Memorial to my dad.

I had started several letters to you in the months previous to my fathers death, but it seems as I never finished them. The last few weeks someone had to be with him all the time.

I apologize for not returning your letter sooner but it seems that conditions just don't give me a minute sometimes.

I am still working in the office for A. & L. Electric Co. Inc. We are now in the process of installing the electrical work in the Opry House at Opryland U.S.A. We have a little over \$1 million dollars worth of work under contract at this time. This is spread out between Nashville, Knoxville and Orlando, Florida.

Doc, I haven't been on the air since November of 71. I have a shorted winding in the high voltage transformer of my Henry 2 K and then about the second week of February, we had a small tornado come through and it broke almost all of the bolts on my beam. I haven't put it back up yet. This same storm wiped out completely six other towers and beams in this area. I hope to have a little spare time in the near future hopefully.

(CONT. NEXT PAGE)

Happiness Is Saying
MERRY XMAS
To Your Friends

K7NPG-K7NKZ

Letter. (concl.)

these items repaired and get me back on the air. Possibly when I do get back on the air we can set up a schedule.

I have included a couple of clippings from the local paper. As for the exact date my grandfather passed away, I can't readily tell you. I do know he was in the year of 1926. I will try and get more information for you.

I was wondering if you would rather have a picture of my father, when he was younger, for the club history. I have photos taken from the time he was in college, on. If you think one of these would better serve the purpose. Just let me know.

I have neglected to tell you that we have a new little Noll at our house. Her name is Regina Marie, she was born January 22 of this year. She is a real doll and another reason that I haven't had much time for hamming. We are so grateful that my dad got to see and love her.

Please express our deepest thanks to all the members of the club for the beautiful tribute to my father. I would especially like to thank you for all the time and your kindness involved since our first meeting. I hope possibly to be in your part of the country next spring and if we can make a trip, I will surely look you up.

Thanks again, please write when time permits.

Yours truly

/s/

BOARD MEETING 11-1-72

Meeting called to order at 8:00pm.

Present were Doc W7OS, Len WA7HHI, Dennis W7UBA, Burt W7SF, Emil K7GPK, Rick K7GGD, Joe WA7RWK and George WA7CSF.

BEESTAKES:

Inter-Club competition with the BEARS is still on. SS week-end November 11/12 and 18/19.

SCHOLARSHIP:

Jerry W7BUN wants one for needy novices. Dennis W7UBA wants to spend money to make available in Tacoma schools information, on amateur radio. He stated there were no classes in ham radio.
(CONCL. NEXT COLUMN)

Board meeting (concl.)

radio in the schools at present. "We need a program for such a project".

PROGRAMS:

November 22 - AUCTION

BUILDING COMMITTEE:

Joe WA7RWK advised the foundation all completed except for porches, which will be poured tomorrow.

Doc concerned by fact that the contractor told him he (the contractor) had a key to the Club, made from one he borrowed!

Jerry reminded the club of the Christmas party at the main NCO Club at McChord AFB.

Respectfully submitted,

/s/

Burton W7SF (Secretary)

CLUB MINUTES 10-12-72

The Radio Club of Tacoma's meeting of October 11, 1972 was called to order by President Len, WA7HHI, at 2015. Visitors included Floyd Meyers, Robert Allens, Mr. and Mrs. A.L. Jennings and their son Fred.

Doc W7OS reported that Ted Bentz, ex 7WM, had passed away. President Len stated that Bob Gates K7IND was in the hospital recuperating from a recent operation.

(CONT. NEXT PAGE)

"The charm of Christmas lies in the thought that we live in the memory of our friends."

The Ryan's
Verna *Dick*

Joe WA7RWK reported that the work on the foundation was underway. Joe thanked all who helped clean blocks.

Jerry W7BUN expressed his appreciation to all who helped at the Club's State Fair booth. A number of visitors to the booth expressed interest in getting into amateur radio and their names are being forwarded to area clubs.

Jerry W7BUN, our P.S.C.A.R.C. representative, report was centered on the sponsorship of a Council float. Scotty K7CYZ made a MOTION that a committee be formed to investigate the feasibility of a float. After discussion, the motion was withdrawn and W7BUN was appointed to carry out further investigation. The Council is considering a 1974 Division Convention and some forms of inter-club competition.

Jerry advised that all members of the Radio Club of Tacoma had been invited to the October 17 meeting of the North Seattle Radio Club. A group will leave the club house at 7pm.

President, Len, announced that George WA7CSF has recently donated a Drake 2A receiver to the club.

Jerry W7BUN gave a report on the FCC action, resulting in the expansion of the phone band and the deletion of the Novice crystal control requirement. Jerry proceeded to read a drafted letter to the FCC, requesting reinstatement of the crystal control requirement for Novices. He then made a MOTION that the letter be sent in, as read, by the Club. Much discussion followed with valid points for both sides being brought up. Motion was SECONDED, voted on and DEFEATED.

Ron Chudy donated a book to be used to keep track of the Club's loaned out magazines.

Dennis W7UBA stated that he had spoken to Frank Cooper and that he wanted to repossess the transmitter he had donated to W7DK.

Frank WA7GWL reported that future programs would be:

- October 25 - Dewey Wilson Night
- November 8 - How to beat the BEARS in SS
- November 22 - Club Auction!
- December 13 - QRP construction and Operation by Charlie Milhans WA7YQI

Under tuning and traffic, W7BUN reported that Oscar VI was to be launched shortly. Joe WA7RWK requested, all that could, to check into the Club's ten meter net.

Dennis W7UBA said that Paul Anton should be on the air as HL9KV before long.

A MOTION to adjourn was made, SECONDED, PASSED. A slide show on the Mariana Islands followed.

Respectfully submitted,

/s/

Frank Connelly WA7GWL

(ACTING SECRETARY)

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm by President I Goodwin and opened with the Pledge of Allegiance.

It was MOVED and SECONDED that the reading of the minutes be dispensed with. Motion PASSED.

In view of the special occasion being celebrated this night and the large number of out-towners present, everyone was asked to stand and identify themselves.

SICK REPORT

Reported that Marion Wylie is back in hospital.

W7OS MOVED that all further regular business be suspended and the special business of the evening be dealt with forthwith. PASSED.

President Len turned over the meeting to Doc M.C. for the evening, who commended the building committee for the completion of the foundation.

Doc referred to the successful home-coming meeting of the previous year, in honor of the timers of the club and that this year it was decided to add special significance to the homecoming by honoring one of the oldest O.T.'s in the State: Dewey Wilson W7HF. He referred to Joe Asplund W7IG, Dewey's long-time friend and of regular almost nightly QSO's between the two for the past 25 years. Joe then read from the latest issue of the Loggers Bark, the salutation to Dewey on the 60th anniversary of his initiation to the hobby of amateur radio. A special issue of the Bark, with three blank pages for signatures, was then presented to Dewey.

The following honored guests were then introduced: Roy Devish W7AZI Chairman of NW Chapter QCWA; Joe Asplund W7IG; Ray Davies W7EHO; Wayne Pasco W7TZ; Warren Green W7JY museum curator QCWA; Phil True W7AQB; Greta Warburton and Ma Lewis W7QGP representing North Seattle Radio Club.

Wayne was then asked to read a tribute, verse, to Dewey - the author was unrevealed. While this was going on, large streamers of congratulations were pinned along the walls.

Phil then spoke in tribute to Dewey and of his association with him for 42 years.

Max Bice W7AEA and Phil's "boss" was introduced and paid tribute to Dewey.

SATURDAY 10AM. TO 6PM.

SUNDAYS NOON TO 5PM.

W7JGN

Doc then called on Roy W7AZI, Past President of and President of Northwest QCWA, who presented Joe Asplund W7IG a framed certificate commemorating 50 years membership in the hobby and signed by Senator Barry Goldwater, National President of QCWA. Joe produced his first license issued in 1922, which was never signed by the radio inspector. Two years later, when he presented his license for renewal, the radio inspector made him take the exam over again!

Roy W7AZI then presented Joe with an impressive clock sign, made by Don Grant WA7PIN, to mark his 50th birthday as a token of appreciation for Joe's generosity, in hosting Field Day activities for many years.

Doc then escorted Dewey to a special leather chair, reserved for him and pictures were taken of the two men.

Joe referred to the schedule, kept between Dewey and himself since 1948, along with two other O.T.s from Aberdeen and Pacific Beach and a third, who then joined them.

Doc produced pictures of Dewey's QTH and several others of by-gone days, which were passed around. He then told of his request from the National Executive Secretary of QCWA, Gus, for a 60 year certificate to present to Dewey and that there was no such parchment in existence but that he had received four de-cals endorsements, marked 54-56 and 58 to place in each of the four corners of his 50 year certificate. Doc also recalled that each member of QCWA has a number and that Dewey held golden certificate number 35.

Doc then asked President Len to make the presentation to Dewey, of a 60 year plaque, with his name and call inscribed thereon and held in a box lined with purple velvet. Pictures were taken of the plaque and of the presentation.

Doc spoke of the albums with pictures of the club's activities, members' shacks, etc.. He also produced a mammoth key, which reportedly had been used at one time at Dewey's summer home on Hood Canal. A picture was produced showing Bob Archward W7RXS using the key with his left foot during a party there.

Doc then gave a brief history of his recollections of Dewey and mentioned his office as historian and librarian of QCWA. He also referred to letters received from old friends sending their regrets for not being able to attend the anniversary meeting. He passed around a letter of congratulations from Sen. Goldwater.

Then followed the singing of Happy Birthday to Dewey, whose birthday was due in a couple of days. Pictures of Harry Ubil W7OHW, former historian and librarian of QCWA and now a silent key, were shown.

The special Loggers Bark copy was next presented.

(CONT. NEXT COL.)

ed to Dewey by Scotty K7CYZ and Dick W7RGD.

Doc then presented Dewey with an Honorary Life Membership certificate in the Radio Club of Tacoma and made note of the fact that he is already a Special Member of the Club. (Dewey is the 7th member of the Club to be so honored) Pictures were taken, Dewey responded and there was loud applause.

Doc then introduced Ethel W7WLX, Vice President of the Auxiliary, who in turn introduced Auxiliary members Vivian Huntley, Greta Warburton, Rene Smith, Sophie McCullough, Virginia Rose and Shirley. Jill Anton, Auxiliary President, was unable to attend.

Auxiliary members then produced a birthday cake with 6 candles and inscribed "60 Years a Ham W7HF Dewey". Dewey was handed a knife and he cut the cake, accompanied with a flurry of flash-bulbs going off. He then blew out the candles and was invited by Doc, to make a response. He gave a brief history of his experiences as a ham, dating back to 1911, when as a small boy, he was in the habit of sneaking up the hill behind his house, to watch the blue sparks thru the window of the Naval relay station in Aberdeen. This provided the spark in his own life, which guided him in his choice of a hobby, which was to serve him thru-out his life.

A group picture was then taken of the five O.T.s, who make the evening possible: Roy Davies W7EHO; Dewey W7HF; Doc W7OS; Roy W7AZI and Joe W7IG.

The balance of the evening was strictly of a social nature. Old friendships were renewed, new ones sealed and all joined in greeting Dewey and wishing him many years of continuing happiness, in his chosen hobby.

Respectfully submitted,

/s/

E.H. Burton (SECT.)

CLUB MINUTES 11-8-72

The regular meeting of the Radio Club of Tacoma was called to order at approximately 8:00pm. by President Len Goodwin, opening with the Pledge of Allegiance.

Guests were introduced by Ethel W7WLX as follows: Bob Christianson WA7KLX, Dave Reichlein W7GVG, Jane Reichlein W7LXQ, Craig Larsen WA7HTN and Joyce Keyport and harmonics Larry and Jeannete Porter.

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

SICK REPORTS:

Marion K7TCY is in Good Samaritan Hospital. He is improving, following an emergency tracheotomy.

TREASURERS REPORT:

Savings account	\$1143.07
Checking account	406.89
Building fund	257.39

Taxes on property have been paid. Bills presented: Western Furnace \$28.46. It was MOVED by Joe WA7RWK that the bill be paid. Motion PASSED.

Three communications were read.

BUILDING COMMITTEE: chmn. Joe WA7RWK

Joe reported that the foundation to the building is in place, all that remains is leveling up the center beam supporting the flooring. The next project scheduled is to replace the windows in the south annex room.

OLD BUSINESS:

The repeater is not completed, yet.

Under programs, Frank WA7GWL announced;

Nov. 22 - AUCTION

Dec. 13 - QRP construction and operation.

Dec. 27 - Election of Officers. Balance of slides & taped commentary by WA7RWP OX4AB at his Greenland Dew Line station.

Jerry W7BUN announced this year's competition with the BEARS in the SS contest will be held with the same rules applicable as last year. If W7DK wins this year, the trophy remains with us permanently. Read a letter from Bill Goodloe, petitioning the FCC to allow applicants, who fail in their examinations, to repeat the exam without charge. Frank WA7GWL MOVED we write a letter to the FCC supporting Goodloe's petition. Motion PASSED.

AUXILIARY (W7WLX)

Meets November 15th at Donna Dightman's home. All wives are automatically members of the Auxiliary.

Jerry W7BUN announced the Christmas Party will be held December 9th at the NCO Club, McChord AFB. Music by the CAMEOS. Dancing from 9 to 1am. Cost \$2.75 each, including dinner and tip.

Doc W7OS produced several photographs from the album, including those of silent keys of long ago and other O.T.'s. The name of Carl Hoffman W7EBD will be added to the "Silent Key" memorial plaque.

President Len reported on the trip to the North Seattle Radio Club to accept the Field Day inter-club trophy. He also reported receipt of a check for 75¢, from Harry Lewis W7JWJ, in payment for said trophy, as agreed by radiogram from Seattle to the Radio Club of Tacoma, June 10, 1972.

NEW BUSINESS:

Nominating committee appointed as follows:

(CONT. NEXT COLUMN)

Chairman - Jerry W7BUN
Dennis W7UBA
Bill WA7SCN

Dennis W7UBA initiated a discussion on the need for replacing the chairs in the meeting room. He said that Boeing surplus sales has some chairs available for sale from time to time and that he has some inside contacts and could get them but needs prior authority to spend up to a fixed amount. President Len ruled that we should wait until after the bill for the foundation has been satisfied and we see what our financial situation is like at the end of the year. There were no further comments.

WELFARE OF THE CLUB:

Don Grant WA7PIN had a long distance call from Marv and Gene Wheeler from Georgia, saying they would be on 14,290KHz on Sunday at 4pm. PST during the SS contest.

On Saturday between 11:00 and 11:30am, Novice tests will be given at the Club house.

Joe WA7RWK announced there was a metal tree upstairs, which he would like to see installed in the Club house window to add to the X-mas cheer on the street, to be turned on and off by a time switch. Requested members bring some ornaments to string on the tree.

There being no further business, meeting adjourned at 8:50pm..

Following the recess, Frank WA7GWL, acting chairman of the SS contest committee, in the absence of Rex W5QQQ, who was sent to California for a refresher course, gave a spirited talk on the forthcoming SS contest. He gave many helpful hints on how to rack up a large score. All present went home imbued with great determination to assist W7DK in its bid for a high place on the honor roll in this year's contest.

Respectfully submitted,

/s/

E.H. Burton W7SF, SECRETARY

SLIVERS & SPLINTERS

The 'ole' Club house is looking better every day. At least we know for sure that it won't fall into the basement now! Thanks to Joe and his many hard working helpers.

Thanksgiving is past now and many of the Club members deserted the town over the weekend of Turkey Day. Smitty K7ATD and XYL Rene spent them down at the ocean. The Chavis's (W7IKG & K7AMJ) and their harmonics took off for California to spend their time with number one daughter. Scotty K7CYZ and XYL Vivian and Scot also took off south to California. The Churchward's (W7RXS & W7RXT) flew back to Mississippi to visit with number one son and family.

(CONT. NEXT PAGE)

Slivers & Splinters, (concl.)

erry W7BUN very busy winding-up a lot of paper etc. getting ready to break-in to a new civilian job. Will be working in electronics on altogether different field.

oy W7AZI busy supervising the big job of operating the County/City Building, getting ready for the Christmas holiday season. Matter of hanging a few hundred light bulbs on some trees and taking them up etc..

ob K7IND back to full time work schedule. Not challenging anyone to any foot races but sure is seeing those troopers out on the road running and.

congratulations to Ron Chudy on getting his new job. (WN7UQV)

he Hoods. (Beryl K7NPG & LaVerne K7NKZ) have finally settled down in Price Utah. Beryl has moved down to a new job there. No antennas up about when the weather permits, we hope he can come up and get on the air! That's right, snow on the ground and time for the long woolies.

liff W7MFG has his new printed circuit board completed and getting the rest of the parts together for his new miniaturized 2 meter rig.

rt K7CYQ overheard on 75 meters testing a new band checking with stations on NAMS.

alph W7COP helping number 2 son, Gregg, build a new home in the Parkland area. Started building in October and expect to move in before Christmas. Following this venture, number 1 son, is planning on using 'dad' to start another building project.

congratulations to Bob W7PGY on his re-election to the post of Northwest Director for ARRL.

Merry Christmas to all from the staff of your
ERS BARK..SCOTTY..DICK..MARGIE..BILL..JERRY

TERRIBLE EXPERIMENT

From Auto-Call

(WHEN THE LEYDEN JAR WAS DISCOVERED IN 1745, THE DUTCH SCIENTIST PIETER VAN MUSSCHENBROOK WROTE THE FOLLOWING)

I wish to inform you of a new but terrible experiment, which I advise you on no account personally to attempt. I am engaged in a research to determine the strength of electricity. With this object I had suspended by two blue silk threads, a gun barrel, which received electricity by communication from a glass globe which was turned rapidly on its axis by one operator, while another pressed his hand against it. From the opposite end of the gun barrel hung a brass wire, the end of which entered a glass jar, which was partly full of water. This jar I held in my right hand, while with my left hand I attempted to draw sparks from the gun barrel. Suddenly I received in my right hand a shock of such violence that my whole body was shaken as by a lightning stroke. The vessel, although of glass, was not broken, nor was the hand displaced by the commotion; but the arm and body were affected in a manner more terrible than I can express. In a word, I believed that I was done for.

NOVEMBER 1972

FACE LIFTING JOB

At last - The club voted to have Western Builders put a new foundation under the Club house. The work is now well under way and things are temporarily a mess but we can use the building while the work is underway.

Parking is a problem but please bear with us. The work is a longtime overdue so we should not complain about the inconvenience. The front and back porches will be replaced with concrete, after the October meetings. Next comes the paint, we hope!

A big vote of thanks goes to those members, who gave their time and effort to cleaning up the many concrete blocks that were used. They all worked during the week and on the week-ends. Thanks to Bill K7VQM, Joe WA7RWK, Rex W7NP, Emil K7GFK, Dick K3RIW, Jerry W7BUN, Bill WA7SCN, Len WA7HHI, Chris WA7MJK, George WA7CSF, Dick WA7IHA, Steve K7SSC, Ed WN7TVZ, Nick WA7IVO, Jesse WA7INY, Bob W7SFO and Ron Chudy

S.S. CONTEST

This year's Sweepstakes Contest tells the story between the BEARS and the Radio Club of Tacoma. The Radio Club can win the trophies, permanently if every one does their share.

So all members!-enter in and turn in your S.S. logs. The dates? November 11th and 12th for phone and November 18th and 19th for the cw section. Don't leave it up to the "other guy". Everyone from the oldest member down to the "just joined" member has to get in and work them stations. (See rules elsewhere in this issue)

CLUB AUCTION

The Annual Radio Club of Tacoma Auction will be on November 22nd. This is usually a "wing-ding".

The club has a pile of "goodies" and if you have anything you wish to have auctioned, the usual 10% fee will be the rule. ED

WA7HHI PRESENTING AWARD TO W7JWJ
NORTH SEATTLE VISIT

Nine members of The Radio Club of Tacoma made a trip to North Seattle on October 17th to attend the North Seattle Radio Club meeting. During the meeting, Len, WA7HHI, President of our club, presented their President Harry Lewis, W7JWJ, on behalf of the RCT, the certificate, which was read in the club's last meeting.

The meeting was great and the eyeball QSO's were as much fun as the meeting. The meeting was followed by coffee and doughnuts, that were delicious. Should have more of these club visits.

WHAT IT'S ALL ABOUT

ARRL NEWS IN BRIEF

BY W7BUN

The major news this month is that the F.C.C. released Docket 19245, the so-called Eyebank matter. (See official bulletin number 395, else where in this issue)

The other big event is the successful launching of Oscar 6, the 2 to 10 meter repeater satellite. It is on 145.95 to 146.0 MHz. and output is 145 to 29.55 MHz. A cw telemetry beacon transmits on 29.45 and 435.1 MHz. Users are requested to keep their effective radiated power below 100 watts; any higher power causes excessive battery drain.

The F.C.C. denied the Chicago Area Radio Club Council's request for elimination of license fees, as they caused financial hardship.

FM-2074 is assigned to the Puget Sound Council Amateur Radio Clubs petition to allow a 2nd license exam without further fee if the applicant fails the first time.

The F.C.C. has a petition from WB8DEN requesting 470 to 476 MHz. for a class D CB. The F.C.C. has asked congress for stronger disciplinary authority over unlicensed operation.

The ARRL manual "A Course in Radio Fundamentals" is now available in a completely revised edition.

The new daytime traffic net, under the auspices of the National Traffic System, will go into operation in February on 20M SSB. It will be called the Continental Traffic Net. Locally there will be the Continental Regional Net. NTS officials are looking for a manager for the Pacific area.

P.S.C.A.R.C. NEWS

BY W7BUN

Thirty-five repeater groups attended an October 7th meeting in Olympia. W7FHZ was named frequency coordinator for Washington for VHF repeater frequencies.

(cont. next column)

60 YEAR CAKE CUTTING

News (cont.)

The Council will prepare a chart, explaining the differences between the amateur radio service and the Citizen's Radio Service. This will be distributed to all local radio and TV broadcast stations to help their news departments to correctly identify either service when the subject comes up during a news broadcast.

Inter-club competition was discussed at the last Council meeting--ideas include: contest scores, most annual publicity or maybe the most new hams.

Read the full Council minutes on the bulletin board in the club house.

AUXILIARY NEWS

By Rene Smith

It's getting to be that time of year again, when we have to be seriously thinking about X-mas.

The Auxiliary had a great time during the October meeting, making beautiful wreaths out of cones under the supervisor, Inez Churchward, W7RXI. Thanks Inez. She really knows how to do things. Thanks to Diane Salatino, WA7HXL, for inviting us into her home, where 9 attended.

The next meeting will be on Wednesday, November

15th at the home of Donna Dightman, XYL of Steve, K7SSC. Let's have a big turn out. They have a new address, 5946 South Sheridan.

Don't forget gals, we are all members and it's really a great night out. Bring any ideas, you may have for making stocking stuffers.

Our December meeting will wind up the year, with one of our oldest club members. Greta Warburton will host at her new apartment, the Islander Apt. 3010 North Highland, Apt. 16. This should really be great gals. Put it on your calendar. We will also have elections of officers that night.

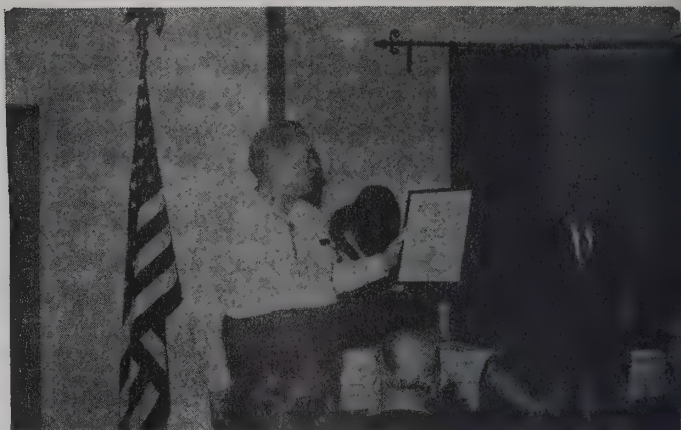

We have really had an exciting year with different creative things each meeting. Next year will be just as great. Thanks to Jill. See you all at Auxiliary. If you need a ride, call!!

ARRL BULLETINS

NR 394 OCT. 12

FCC has issued a policy statement easing compliance with the repeater docket Nr 18803. All amateur applications filed on or after October 17, 1972, must comply with the new rules. A station operating as a repeater station and/or one authorized for remote control, whose license was granted as a result of an application filed prior to October 17, 1972, should comply with the new rules to the extent possible after that date but must fully comply by no later than June 30, 1973. Applications for such stations received prior to October 17, 1972, will only be granted authorization for operation through June 30, 1973. These stations and any other station whose license must be modified to comply with the new rules may file an application for modification for the balance of the original license term without payment of additional filing fees. If a renewal or additional privileges are requested, normal filing fees will

(cont. next column)

W7AZI PRESENTING CERTIFICATE

ARRL (cont.)

be required. Applications for station license modification filed after April 30, 1973, may not be processed in time to permit continuity of operation. The granting of waiver requests except under the most exigent circumstances are not contemplated. The report and order and the rules speak of limiting repeater station coverage to intra-community amateur radio communication. In consonance with the rules limiting to two the number of repeater stations operating in tandem, intra-community is considered the maximum area covered by such a network. Beginning October 17, 1972, a license issued for a repeater station will authorize a call sign having the prefix WR followed by the number of the applicable FCC district. The suffix will be three letters assigned systematically starting with AAA AR

NR 395 OCT. 12

More from FCC. Effective December 1, docket 19248 the so called Eyebank matter, has been concluded by amendment of section 97.39 to remove the words quote "nor for its use" unquote. Third party traffic is prohibited if it involved material compensation, either tangible or intangible, direct or indirect to a third party, a station licensee, a control operator or any other person. A new rule forbids the use of amateur radio in

SPECIAL W1AW BULLETIN NR 922 OCT. 5

In connection with the imminent launch of Oscar 6, third party communications have been authorized between amateurs of the Federal Republic of Germany and the United States, relative to an exchange of technical data concerning the satellite only. There is no change in the status of general third party communications. That is, such traffic remains prohibited between the two countries. Oscar messages may be handled throughout the orbital period BT

MEMBER LETTER

Oct. 14, 1972

Radio Club of Tacoma-

Hello, to all. It seems like ages since we've talked to any of you on the air. But that's because we haven't been on very much lately. We do have a weekly sked with Marv and Jean Wheeler (WB4JBS & WA7OII) plus about two of the YL Nets, is the extent of our operation.

We miss all of you and wish we were back in Tacoma. Soon, we will come up for a visit.

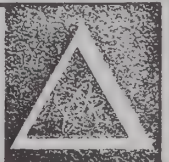

Tom, WA7IKA, is presently serving his year over (cont. next page)

in Viet Nam. He left the States on August 1, 1972. Billie, WA7MKQ, is living in Santa Clara, Calif. and operating portable 6. The kids and myself are doing well but sure do miss the OM. I wish we were living up there near all our wonderful friends.

We look forward to receiving the Loggers Bark every month and reading about the Club's activities. After reading all the news, etc., I then send the Loggers Bark on to Tom. He sure wishes he could operate a rig over there!

Well, our best to all and hope we will get an opportunity to talk to you on the air one of these days.

CLUB LETTERS EXCHANGED

MSG NR 1 W7JWJ R SEATTLE WASHINGTON JUNE 10, 1972.

FILED 1800 PST

To the Radio Club of Tacoma

WHEREAS the Radio Club of Tacoma has been loudly and boisterously challenging all other Washington State Clubs to a field day contest and with the winner, obviously presumed to be the Radio Club of Tacoma. And

WHEREAS the Radio Club of Tacoma comes equipped with unlimited funds, double kilowatts on each band, oversize antennas, fully automated digital c.w. keyers, automatic tape recorders for calling CQ, computerized log programming, and not least---an over extended ego.

And WHEREAS this challenge should not go unnoticed THEREFORE: with limited equipment, inexperienced operators and no possible chance of winning whatsoever; The NORTH SEATTLE AMATEUR RADIO CLUB does

(cont. next column)

W7RGD & K7CYZ PRESENTING "BARK" TO DEWEY

Club letters (cont.)

accept this challenge.

And further: In anticipation of noble defeat, the North Seattle Amateur Radio Club has set aside some meager resources to provide a trophy that the North Seattle Club deems appropriate, and if absolutely necessary, and only then, the North Seattle Amateur Radio Club will present said trophy to the Radio Club of Tacoma when they prove that their mouth's are not bigger than their transmitters.

September 6, 1972

TO THE NORTH SEATTLE AMATEUR RADIO CLUB

WHEREAS: The Radio Club of Tacoma DID humbly and unassumingly challenge other Washington clubs to a Field Day contest at which we naturally knew in advance that no other club could possibly outdo us and WHEREAS: the Radio Club of Tacoma boasts the most outstanding Field Day operators and the most advanced and sophisticated radio equipment in the Northwest, it was with the utmost humility and meekness we noted the acceptance of our challenge by the North Seattle Amateur Radio Club.

And WHEREAS: in certain anticipation of brilliant triumph and exalted conquest we made plans to accept the florid honors we knew would soon be ours.

THEREFORE: by presenting us with this trophy, the North Seattle Amateur Radio Club has proven beyond any doubt that our transmitters ARE bigger than our mouths.

And further: since the ingenuity shown in designing the trophy ALMOST matches the resourcefulness of our Club's Field Day planning, we shall forevermore cherish this resplendent symbol of our "HANDS-DOWN" victory.

PLEASE DO NOT SMOKE IN BED. THE ASHES THAT FALL ON THE FLOOR MAY BE YOUR OWN !

RCT AND BEARS S.S. RULES

THE FOLLOWING 8 RULES WERE THE INITIAL RULES
ADOPTED BY BOTH CLUBS IN 1969)

This shall be an annual contest between the
Boeing Employees Amateur Radio Society and the
Radio Club of Tacoma and shall continue until
terminated by mutual agreement of the 2 clubs.

The object of this contest will be the attainment
of the highest total scores in the annual
ARRL Phone Sweepstakes and CW Sweepstakes
Contests.

Two trophies will be awarded, one for the Phone
Contest and one for the CW Contest. The cost
of the trophies and engraving will be equally
shared by the two clubs.

The trophies will be a "traveling type" and
will remain in the possession of the winning
club until the following year. In the event
that one club wins either trophy for three
consecutive years, that club will retain permanent
possession of that trophy, and a new
trophy will be purchased the following year.
In the event that neither club wins a trophy
for three consecutive years, the club that has
won the greatest number of times during a five-
year period will retain permanent possession of
that trophy, and a new trophy will be purchased
the following year.

The winner will be deemed the club with the
highest total score for each mode as announced
in QST Magazine. If one club is obviously the
winner of either mode, then the scores reported
to the ARRL by the club secretaries will be
used to determine the winner, without waiting
for the published results. NOTE: Message points
have been eliminated for 1970.

These rules will be reviewed annually by both
clubs, after the Sweepstakes rules have been
announced in QST but before the actual contests
have taken place.

In case of any unresolvable conflict between
the two clubs over these rules or about this
competition, the trophies will be retained
permanently by the club that has won each one
the greatest number of times.

The trophies will be presented to the winning
club by a delegation of members from the
losing club at a regular meeting of the winning
club.

THE FOLLOWING RULE WAS ADOPTED BY BOYH CLUBS IN
1970)

Eligible scores for the purpose of this competition,
will be only those scores submitted by
bona-fide club members, operating single-operator
class and using their own or other bona-
fide club member's station and location.
Multioperator scores will be allowed only from
the two respective club stations, K7NWS and
K7DK, provided that both stations are operated
(cont. next column)

Rules (cont.)

in any particular Sweepstakes Contest; however,
either or both club stations may be operated as
singleoperator category by a bona-fide club
member. A bona-fide member is any club member
who regularly attends club meetings.

POET'S RETREAT

60 YEARS

We have a member in our Club
So dear to all of us.
Who has been a ham for sixty years
And shooting for seventy plus.

He is quiet, reserved but full of life
With a sparkle in his eye.
A friendlier guy you will never find,
No matter how you try.

He is known by many through out the State
And other places too.
He has earned the respect of all of us,
'Cause he's an amateur thru and thru.

We honor him this special night
With pride and some remorse.
And who is this man we're speaking of?
Why it's Dewey Wilson, of course.

.....K7GPK

BOARD MEETING 10/31/72

The meeting was called to order at 8:10pm.
Present were:

Len WA7HHI	Kent WA7NVX	Doc W7OS
Jerry W7BUN	Emil K7GPK	Scotty K7CYZ
George WA7CSF	Joe WA7RWK	Rick K3RIW
Bob WN7UKM	Rick K7GGD	Burt W7SF

Plans for "Dewey Wilson" night, scheduled for
October 25th, were discussed. Doc will be MC.
Speakers will be Phil True W7AQB, Joe Asplund W7IG
and Doc W7OS. Roy W7AZI will present the plaque.
Scotty, editor of the Bark, will present to Dewey
a special copy of the club newspaper, containing
(cont. next page)

several blank pages for signatures, of all those present at the welcoming party. Doc has written the Executive Secretary of the QCWA for a 50 year certificate with endorsement for 60 years, to present to Dewey. Barry Goldwater, national President of QCWA, is expected to send a letter of congratulations to Dewey on his attainment of his 60th anniversary of membership in hamdom. Doc will present his history to the meeting. The Auxiliary is baking a cake in honor of Dewey's birthday, which falls on November 1st. Following refreshments, the party will be informal. Dick W7RGD will be the photographer. A recommendation to the membership was made for presentation at the next regular meeting to grant to Dewey, Honorary Membership in the RCT. W7IG, Joe, is to escort Dewey to the club promptly at 8:00pm and Doc will move to disperse with the business meeting, in honor of Dewey.

Jerry W7BUN made the following reports:

1. Announced a visit by club members to the North Seattle Radio Club on October 17th for the purpose of replying to their acceptance to our Field Day challenge and presenting them with the losers certificate.

2. Reminded us that the club station license runs out in March.

3. Requested the Secretary write a letter of appreciation to George WA7CSF for his generosity in donating to the club a Drake 2A receiver.

4. ARRL intends to petition the FCC to stay its repeater docket order.

Jerry also expressed his displeasure at the FCC's deletion of x-tal requirements for novices. He said, we have until November 1st to file comments on the proposed fone band expansion.

Doc MOVED, Emil SECONDED that we recommend to the club membership that we petition the FCC to cancel its deletion of the x-tal requirements for novices. Motion PASSED.

Jerry made a report on the Puyallup Fair. 362 amateurs signed the guest book. 420 radiograms sent (compared with 380 last year). John Porter (Fair Director) whose call is W7PA, signed the guest book and promised us more space next year.

The club owes Dennis W7UBA \$5.00 for a desk rental.

Scotty announced an auction to be held November 22nd.

The up-coming S.S. Contest was discussed. Announcement of ARRL Directors meeting and election of director for our division.

Jerry announced the X-mas Party, December 9th.

At the request of Doc, the meeting closed with a minutes silence in memory of the daughter of Max W7AEA. Marilyn Bice passed away this past week-end.

Meeting adjourned.

The regular meeting of the Radio Club of Tacoma was opened by President, Len Goodwin at 8:05pm, with the pledge of allegiance.

Visitors were introduced as follows:

Joyce Keuyport
Dick Lundstrom WA7UEW
Fred VanCamp
Mike Cummings
Bert Klann W7FKD
Don Walter W7JEG
Homer Spence W7EXM
Dan Eskinazi K7JCA

Doc W7OS read an obituary notice, mourning the loss of Wayne Burnham K7HBO and members stood in honor of him with a moments silence.

Jerry W7BUN reported on the sick list.

A note was read from Ethel W7WLX, who is recovering from recent surgery, thanking the club members for their good wishes for a speedy recovery.

BUILDING REPORT (JOE WA7RWK)

Three bids have been received for the concrete block foundation and concrete porch and steps. The low bid was for \$1210.00 less a credit for the old blocks leaving a net cost of \$1177.26 by Western Builders Inc. The work should take a week to 10 days to complete. It was MOVED by Scotty K7CYZ, SECONDED by Bob K7IND to accept the bid of Western Builders and to proceed forthwith with the work. PASSED unanimously.

There was a discussion on the windows in the south ante-room, which are in need of replacement. Joe suggested eliminating the two outside windows and placing a shutter over the center window, following its replacement (the shutter to be kept closed when the building is not in use). Ron Chudy offered to donate a plate glass window, mounted in an aluminum frame. No action was taken.

PUYALLUP FAIR REPORT (LEN WA7HHI)

Everyone seemed happy with the radio booth. Jerry said 420 messages were handled and several replies were received during the 10 days. 359 signatures were recorded in the guest book. Many inquiries were made by prospective amateurs and their names will be sent to the appropriate clubs in their areas, so that they might be contacted.

AUXILIARY REPORT (VIVIAN HUNTLEY)

The next meeting is being held at Diane Salatino's residence and will be devoted to making Christmas wreaths.

UNFINISHED BUSINESS:

President Len reported on the Walla Walla
(cont. next page)

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

Paid Adv.

fest.
October 25 is being designated "Dewey Wilson"
nt and there will be no business meeting that
nt. Doc W7OS is to be the M.C. The auxiliary
l bake a cake to be decorated with six candles
e for each decade of Dewey's activities as an
teur) and this will be presented at the con-
sion of the official greetings. A personal
y of the Loggers Bark, with his picture and
line of his history, will be presented to him,
well as a plaque to honor his 60 years of
eur radio activity. Joe W7IG will escort him
the meeting.

CHRISTMAS PARTY (LEN WA7HHI)

After some discussion, it was MOVED by Chris
W7JK, SECONDED by Scotty K7CYZ to hold the X-mas
party at the NCO Club, McChord AFB. Motion PASSED.
Frank WA7NFF announced he has a list of equip-
ment for sale from the estate of WA7KKB. He read
the list to the membership present.

DX AND TRAFFIC:

Chip K7VPF reported DX activity on 10 meters
recently.

Frank WA7GWL said that any automatic identifier
which is used for identification purposes only,
must be limited to a speed of 20 wpm.

Joe WA7RWW reminded members of the 10 meter SSB
on 28.6 MHz, daily at 8:00pm.

Phil announced that Bob Crawford WA7UKM has re-
newed his Novice license.

Frank W7UD reported not well.

Meeting adjourned at 9:00pm.

Following the meeting, Frank WA7GWL showed some
slides, accompanied by a taped description made by
Mongells WA7RWP, who is stationed at a Dew
station in Greenland and operates there as
W7EB. His slides and talk were so fascinating
he was tempted to apply for a job up there to es-
cape the "rat-race" for a little while.

Respectfully submitted,

/s/

E.H. Burton Secretary

Don't forget Sweepstakes, November 11, 12,
18 and 19. The BEARS won't forget!!

Congratulations to Ron Chudy and XYL on new
daughter, Jenifer Born September 30th. Ron is
still waiting for his new call. Passed the exam
and hoping to get his ticket before SS.

A card was received from the Hoods' (K7NFG &
K7NKZ). They are now in Huntington Utah for a
spell. Haven't had a chance to put up an antenna
yet.

The club voted to have our representative,
Jerry W7BUN, take our approval to the Puget Sound
Council in their efforts to build a float to
be used in parades in the area. According to
Jerry, there are plans on the board already for
building same.

Bill K7VQM has placed a book near the book rack
at the club house. When you make a loan of one of
the many magazines or books in the club's library,
please enter your name into the book, so that a
record can be kept.

Max, W7AEA, and XYL MJ are proud grandparents.
Baby girl! born October 24. Max was briefly in
the hospital for a minor operation and back out
within 48 hours. Showed up at the Dewey Wilson
night meeting with his usual smiling face.

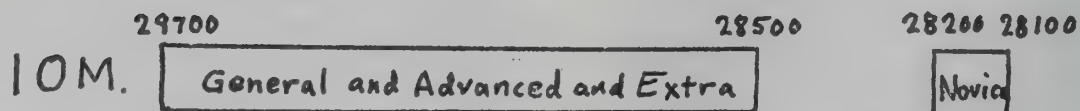

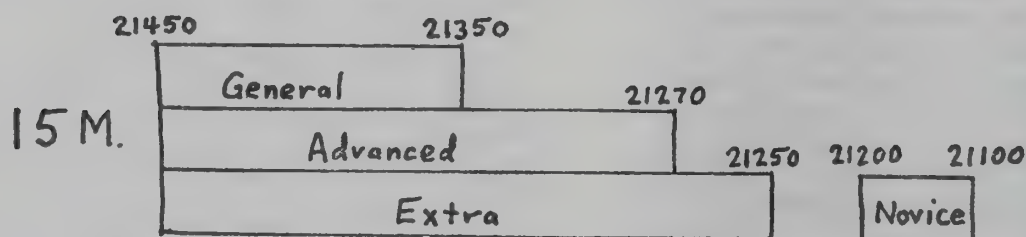

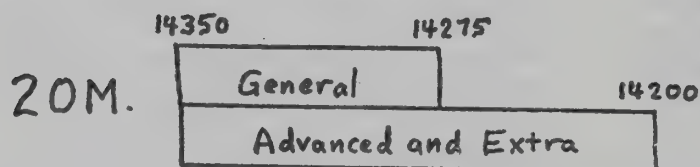

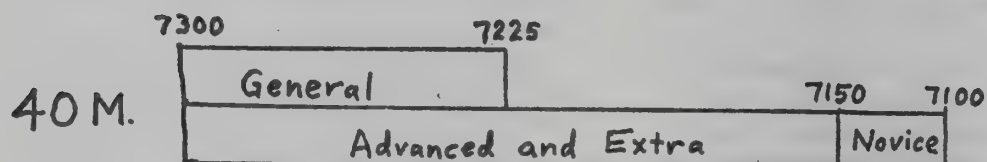

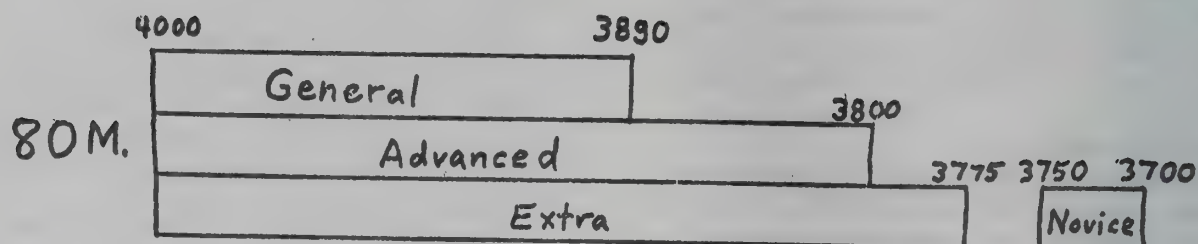

Another 3-11 fire in Tacoma during October.
Mel, K7ATF, was the only one of the drivers avail-
able to take the communications bus to the scene.
Smitty K7ATD and Bob W7RXS were on vacation, down
at the ocean. Ralph, W7COP, was on vacation, down
in California. Dick W7RGD was having his car
worked on and Cliff, W7MFG, was not available.
Rather unusual that all drivers but one were not
around.

Bob K7IND recovering fine after surgery and
getting ready to report back to work first week in
November. Should be in good shape for SS!
Wonder if he did any hamming, while recovering at
home?

John W7ZTH busy with new project. He is now on
amateur TV. Hope to have an article, with some
pictures, of his operation, soon.

We can't say it too many times. Don't forget
Sweepstakes contest!! The BEARS won't forget!
If you didn't get in on the fun last year, do so
this year. If you participated last year, we need
you again this year, hopefully with at least
another 50 contacts. If we can top them this
year, we can have a pair of trophies forever and
ever and ever and ev.....

Phone - band and Novice Changes Effective November 22, 1972

"DEWEY WILSON W7HF 60TH ANNIVERSARY NIGHT"

DEWEY WILSON W7HF

The Radio Club of Tacoma is proud and happy to
on so many other radio amateurs, from all seg-
ments of the amateur radio fraternity in saluting

DEWEY WILSON W7HF
(formerly W7CKZ)

the 60th anniversary of his becoming an amateur
radio hobbyist. We are proud to claim Dewey
a member of the Radio Club of Tacoma for many

years and we are anxious and looking forward to
honoring Dewey Wilson W7HF on October 25th, 1972
at 8:00pm at our club house, when we will
celebrate and dedicate this night as:

"DEWEY WILSON W7HF 60TH ANNIVERSARY NIGHT"

We hope all of our members and friends will
come and help us congratulate Dewey.

W.W. FAIR EXHIBIT

by W7BUN

The Radio Club sponsored a display and exhibit at the Puyallup Fair again this year. Total fair attendance was down this year due to the poor weather but we still originated 420 messages. (340 last year) 362 visiting hams signed our guest book, of which 35 were novices and 11 DX calls; 17 signed last year. Over a thousand handouts were distributed to the many thousands of fairgoers, who stopped by the booth.

This year, in addition to the 75 and 2 meter stations, we had a teletype unit typing out souvenir messages for all who dropped by. This activity proves to be a most outstanding public relations project. Many people learned first hand about amateur radio and many were given an opportunity to sign up for training classes for a license.

My sincere appreciation to the 27 club members who helped on the counter and with the operating duties and special thanks to all those, who helped install the antennas and equipment and take the display apart afterwards.....Jerry

LADIES AUXILIARY

By RENE SMITH

The ladies auxiliary will have their next meeting on October 17th at Diane Salatino's (WA7HXL), 32 East Q Street. We will be making Christmas gifts, so bring all those goodies you have been gathering and come and get ready for Christmas.

If you need any further information or a ride, call Jill WA7KSD or any officer. Jill will be bringing the goodies to eat!

We sure missed Ethel W7WLX at the last meeting.

SWAP & SHOP

PAUL WA7ESD ON THE MIKE. FRANK WA7GWL BEHIND THE COUNTER. Bob W7DL IN BACKGROUND.

FLASH!! FCC BULLETIN!

The FCC has taken action in Docket 19162, dealing with voice band expansions. Effective November 22 General class licensees will be authorized the following privileges. 3890 to 4000KHz., 7225 to 7300KHz. and the 20, 15 and 10 meter bands will remain the same as present.

Advanced class licensees will be authorized 3800 to 4000KHz., 7150 to 7300KHz. and 21270 to 21450KHz..

Extra class will have exclusive voice segments 3775 to 3800KHz. and 21250 to 21270KHz..

Novice licensees remain the same on 80 meters. A change on 40 meters: 7100 to 7150KHz., will lose 50KHz. on 15 meters, 21100 to 21200KHz.. They will gain a 10 meter segment of 28100 to 28200MHz. and will lose all 2 meter privileges. The present requirement for crystal control will be deleted.

Extra class cw segments will remain the same as they are, presently.

Full details will be in the November QST.

P.S.C.A.R.C. REPORT

By W7BUN

The effort to form a repeater advisory group was not too successful with only two groups attending on September 9th. Another attempt to consolidate old and new repeater groups will be made September 30th in Olympia. The present Council from SW Washington will try to expand to include the Puget Sound area and form a Northwest Repeater Council.

The PSCARC is still trying to locate worthy needy hams to recommend for a year's free ARRL membership.

The possibility of a float to be sponsored by the council and used at all area parades, will be discussed in detail at the October meeting.

A move is under way to hold a Division Convention in Spokane to co-incide with Expo-74.

Inter-club competition has been brought forth again - this time perhaps a trophy to the club with the highest total points for all contests during the year. Get your ideas and suggestions to your delegate, (Jerry W7BUN) and read the full minutes on the bulletin board at YOUR club house.

YOU MAY BE DECEIVED IF YOU TRUST TOO MUCH, BUT YOU WILL LIVE IN TORMENT IF YOU DO NOT TRUST ENOUGH.

CLUB HOUSE CONSTRUCTION

During the last meeting in September, Joe RWK, announced the bids the club received for foundation work on the club house. The low was \$1177.26 and included a new front porch rear porch as well as the foundation work around the club house. This of course included \$90.00 reduction if the club cleans up the concrete blocks necessary for the foundation. The members, upon hearing the bid price and discussing the construction work contemplated, VOTED, SECONDED and PASSED, that the Radio Club accept the low bid and get started on the project. Now the only problem is getting the blocks (most of the 500 or more blocks) cleaned up before construction starts. This is one of the requirements of the contract if we want to save \$90.00. I would like to see a good turn out on October 10 to get the job done. With a crew of 10 or more it will be done post haste so that the big job can be done.

So make a note on your calendar and let us all give Joe a vote of confidence for the big job he is trying to get done for all club members by showing up and bring along a chisel and hammer. Remember too, it is your club house being fixed up for YOUR use. If you can be there, give Joe a call

NSARC VISIT BY W7DK

By W7BUN

The Radio Club of Tacoma will visit the North Seattle Amateur Radio Club for their monthly meeting Tuesday, October 17th. A caravan will leave the clubhouse at 7:00pm, or you may proceed directly there; the meeting is at the Seattle City Center's North Center, 97th and Stone Avenue North, Seattle.

Purpose of the visit is to present them with a

(cont. next column)

LIAR CONTESTANTS

DK visit (concl.)

loser's trophy and proclamation in answer to the one presented our club for winning the Field Day competition between the two clubs. Let's all make an effort to go on this night and make a good showing for our club.

STILLAGUAMISH CAMP-OUT

More fun, even in the rain. Again this annual camp-out was well attended. There were 6 trailers, and one Datsun from our Club; two campers and several individuals, with sleeping bags, from Everett....plus several "day-callers".

Mt. Pilchuck got a good "looking over" from the group, plus the usual pilgrimage to the Maiden-Of-the-Woods tree, plus a lively walk to the ice caves. Some even explored the Monte Cristo diggins.

Two, of the young set, braved the river and came out looking like the brave men of Northern Slobovia. Fun? Yes! Eats? Man, out of this world! Going back next year? You betch your sweet Bippy!

ARRL NEWS IN BRIEF

By W7BUN

The big news this month is that the FCC finally released Docket 18893, the "repeater docket". Effective October 17th, half of each amateur VHF band and 8MHz. of the 420 band will be authorized for repeater usage. Technicians will be authorized 145 to 148MHz. After July 1, 1973, all repeaters must have a separate station license with a WR prefix call sign. Applicants for repeater licenses must be at least a Technician class or higher licensee and must submit certain data regarding the technical and operational characteristics of the proposed station. The new rules permit a licensee to use his own repeater station while he is operating mobile or portable; provide for auxiliary link stations to be used when terrain makes multiple-hop control links necessary; and provide for wire remote control.

New rules limit effective radiated power and require the licensee to maintain supervision and control of both technical and operational performance. Automatic identification of repeaters by phone or CW will be required. This repeater docket was also used as a vehicle to provide the following rule changes for the amateur service: Every operator will have a primary station license so that every amateur will have a call sign. For those not having a permanent address, the address of a friend or relative will be furnished.

Additional station privileges will include: repeater stations, control stations, auxiliary link stations and secondary stations (presently described as additional stations). Every collec-

(cont. next column)

HOLE-IN-ONE CONTEST

SEATED: SCOTTY K7CYZ

SWIFCING: JOE W7RWK

ARRL (cont.)

tion of radio gear will have its own call sign which will be used whenever the station is on the air.

A visiting ham will use the host station's call sign and not his own as a portable. If the visiting (control) operator holds a higher class license than the station licensee, he may use his operating privileges but must sign a dual call sign; i.e. a general operates a novice station in the general sub-bands and signs WN7ABC/W7DEF.

The mention of an unlicensed operator only using radiotelephone or radioteletype is gone; anyone may now operate an amateur station on any mode, provided the control operator is present and monitoring.

A mobile station is no longer required to notify the FCC in advance of proposed trips. Portables will be required to notify the FCC only if the portable operation exceeds 15 days at one location.

Logging has been simplified, especially for mobile operation and also logging by tape recorder is now permitted and repeater logging will be unnecessary.

When mechanical devices are used for identifying in CW, the speed will be limited to 20WPM.

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

CHAIRMAN JERRY W7BUN & CHAIRMAN DENNIS W7UBA

ARRL (concl.)

Only two repeaters may be linked together and subband or multiband repeating will be forbidden. Full details will be in the October issue of

The following petitions have been submitted to FCC:

RM-2015 - prohibit calling CQ or contest operation during periods of declared emergencies.

RM-2016 - grant Advanced privileges to Generals Extra privileges to Advanced holders, who have licensed 50 years or more.

RM-2030 - provide for a 5 year renewable Novice license; Novice privileges available to Technician licensees; allow Technicians on 29.0 to 29.7MHz provide equal privileges for Extra and Advanced holders.

RM-2032 - allow RACES on 146 to 147MHz and allow Technicians to be eligible for RACES authorizations.

RM-2043 - grant Novice privileges to Technicians.

RM-1951 - proposed by the Academy of Model Aeronautics, would amend the amateur rules to simplify station identification, logging and portable operation for radio control of model aircraft using amateur band frequencies. The ARRL will file comments in support of this proposal.

General Motors has authorization to conduct research on the effects of radio signals on electronic braking systems using the 220MHz. band.

ARRL Headquarters has gone to a 4-day work week for its employees. A Daylight National Traffic Emergency Net will likely go into effect about January. Ed Tilton, "Mr. VHF", has retired from ARRL staff.

The FCC released Docket 19163, which reduces the waiting period from two to one year as a condition of eligibility to take the Extra exam. Present holders of the Advanced class, who at one

AUXILIARY COFFEE SERVERS

LEFT: RENE SMITH RIGHT: VIVIAN HUNTLEY

ARRL (concl.)

time held the old Amateur Extra First and have been continuously licensed since, will get credit for the 20WPM code test for the Extra exam. Also holders of commercial operators licenses will be granted credit where the code requirement is comparable.

Recently, the FCC issued a Notice of Proposed Rule Making, Docket 19555, which would implement the National Environmental Policy Act of 1969. While the major objective is to control possible adverse effects of tall towers, the language might be construed to apply even to amateur stations. The ARRL will be filing comments on the proposals to ensure minimum impact on the amateur rules.

The new ARRL Repeater Directory and 1972 Net Directory are now available, if you send a 6" X 9" self addressed envelope with 32 cents postage to the League.

BOARD MEETING 8-2-72

The regular monthly board meeting was held August 2, 1972, with the following in attendance:

Pres. Len WA7HHI

Board members

Joe WA7IVO

Emil K7GFK

Club members

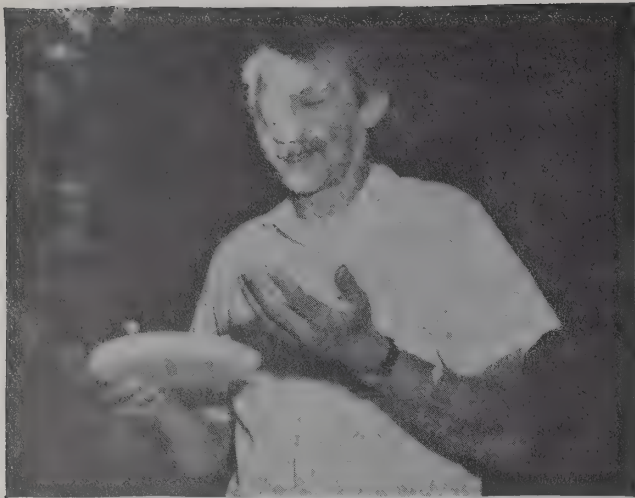

Joe WA7RWK, Jerry W7BUN, Scotty K7CYZ,

Dennis W7UBA, Dick K7ITX, Burt W7SF,

Bob WA7IPR.

It was announced that Bob Thurston, W7PGY, is having a meeting of all SCM's of the area in Seattle the 3rd week of August. Charles Compton, 1st Vice President of ARRL is expected to be here for the meeting. He is being invited to the Ham Fair and there will be an ARRL forum held at the Fair.

John South will be at the Ham Fair. He makes

AFTER DINNER SKIT
UNDERNEATH THE PIE IS RON CHUDY

and sells badges, stickers, etc.

Emil stated that reservations were coming in slowly.

The following were recommended to the membership for special membership in RCT.

Ed & Lydia Coles K7CZM/WN7OVO

Terry Howard WA7LGY

Gary Kohtala WA7NIF

Ham Fair report;

Scotty announced there will be a golf tournament at the PLU golf course early on Sunday morning. It will be a best ball twosome, - players to get together on their own. Virge, assisted by Scotty, will set up a putting contest. Dwayne is providing a PA system for the Fair. Dennis and Jerry will try to get a rig for use on 3965KHz to direct people to the site also a 2 meter rig. The Auxiliary will be planning activities also for the children.

Respectfully submitted,

/s/

E.H. Burton (sect.)

BOARD MINUTES 9-16-72

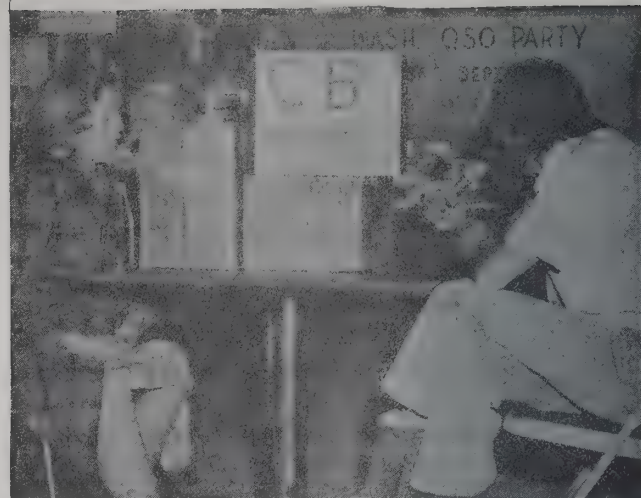

The meeting opened at 8:25pm..Present were:

President Len WA7HHI	Joe WA7FWK
Joe WA7IVO	Scotty K7CYZ
Dick K7ITX	Doc W7OS
Jerry W7BUN	Dennis W7UBA
Don WA7PIN	Burt W7SF

Scotty K7CYZ asked that October 25th be set aside as "Dewey Wilson" night. M.C. to be Doc W7OS, assisted by Roy W7AZI. Dennis will invite Joe Asplund, W7IG. Dewey will be presented with a 60 year certificate.

Doc W7OS urged that all radio gear, owned by the club and by members, be engraved in an inconspicuous place for identification of ownership.

(cont. next column)

AFTER DINNER SKIT
THE CHUDY'S LEGAL CB GEAR

Minutes (concl.)

Jerry W7BUN suggested a plaque be prepared to honor Dewey Wilson.

Doc W7OS suggested that "Home-Coming" be instituted as an annual affair and that this year it be incorporated with "Dewey Wilson" night. He promised to make available pictures.

Jerry W7BUN answered the challenge from the North Seattle Radio Club to prove our transmitters are "bigger than our mouths". A picture of the trophy, along with the challenge and answering statement will be printed in the "Loggers Bark". Planned is a visit to NSARC in person, to answer their challenge.

Jerry W7BUN announced work parties to set up the Puyallup Fair booth on Saturday, September 9th at 1pm. Also on Monday September 11th at 6pm. He proposed a closed loop tape to print out souvenir messages to hand out to visitors. It was decided to have a display only, of a teletype machine, rather than making it operational. The station equipment has not yet been selected.

Respectfully submitted,

/s/

E.H. Burton W7SF (sec.)

CLUB MINUTES 8-23-72

The regular meeting of the Radio Club of Tacoma was opened at approximately 8:20pm on Wednesday August 23 by President Len Goodwin, WA7HHI, with members and guests pledging allegiance to the flag.

Visitors introduced by Ethel W7WLX were:

Deb & Roy Willson WA6EVU/W6YKF
Mike Kost
Sid Ingram WB6ESS

A "thank you" card was read from Beryl K7NPG recently recovered from operation.

Marion Wylie K7TCY is now living in a nursing home and has been provided with all the conveniences of office space and antennas.

Doc W7OS announced the passing of a pioneer ham Lloyd Peek W7FA on Thursday of last week. Lloyd earned his first amateur license in 1913. He made the ARRL "Brass Pounders League" for 19 consecutive years, received three special citations of the Edison Amateur Radio Award and was honored by Vernon Evans in 1970 for his outstanding contributions to amateur radio communications during the past 50 years. He also belonged to a select group of radio men who have had to send the SOS from ships at sea. As chief operator of the S.S. Stila, Lloyd was instrumental in the safety of passengers and crew after the ship was totally wrecked on Inubo SaKi beach in March, 1918. He was a member of the Society of Wireless Pioneers.

TREASURER'S REPORT:

Savings account	\$1143.07
Checking account	254.77
Building fund	257.39
Ham Fair (gross)	1231.00

COMMUNICATIONS:

Doc W7OS read a letter from W7IEE requesting information on membership. He was invited to the Ham Fair and to the Radio Club meetings. He also received letters and pictures from Ralph Westgren who received donations of pictures, certificates, clocks, old gear and personal call sign plaque from the widow of former club member Ed Moe W7AG. Ed was a pioneer member of the club. Doc MOVED to accept these items, SECONDED by George WA7CSF and to direct the secretary to write a letter of appreciation to Mrs. Lillian Moe.

PUBLISHERS NOTE: NO MENTION IN MINUTES IF PASSED.

Don WA7PIN reported on a meeting with a group from the Correctional Institution in Shelton. FCC approval has been granted by FCC, giving permission for a station license, subject to the approval of the Superintendent of the Institution. Letter from FCC to L.E. Connor read by President, (a) Now waiting for letter from Superintendent for permission to set up code/theory classes. The tests were given and all passed. Vince W7GYP emphasized the importance of outside contacts with the inmates. They were very appreciative of the club members efforts to help them.

At this point, Omar Spalding WA7HEK arrived, with a guest, Mary Brinkmeyer, who was introduced. BUILDING COMMITTEE (WA7RWK)

A contractor will look at foundation in 3 weeks and give a price.

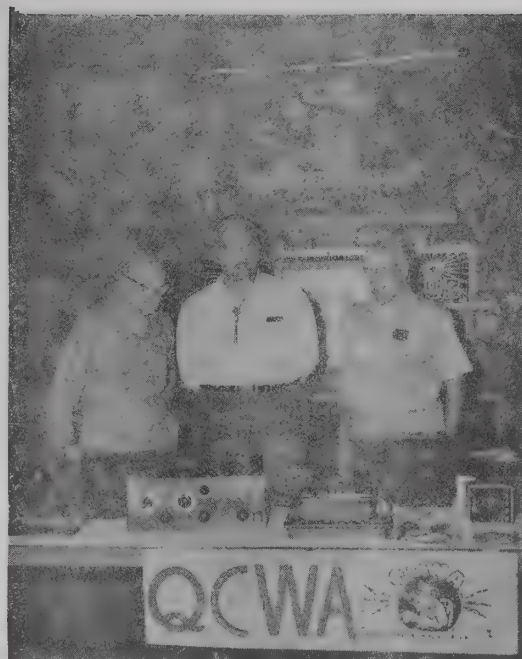

FISHING EVENTS (K7CYZ)

Fishing expedition at Westport August 26/27. Everyone invited, whether fisherman or not.

Camp-out at Raven's Roost on Stillaguamish River (Early September) Map showing route will be in the Loggers Bark.

Minutes (cont.)

house.

REPEATER COMMITTEE:

Power supply has been built and tested.

Operating frequency to be announced.

SIGN COMMITTEE (WA7PIN)

Sign for Joe Asplunds' (W7IG) place, will be ready next week. Also agreed to make sign indicating elevation.

UNFINISHED BUSINESS:

P.S.A.R.C. news; Mike and Key Club suggests a float be assembled for use in parades by the radio clubs in the area.

Jerry W7BUN announced space will be available for exhibit at the Puyallup Fair September 16th-24th., with an additional 2 feet for a teletype station. Bob K7IND agreed to furnish a model 19 machine for the display. Vince W7GYP will furnish a 'scope' monitor. Several teams will be needed to operate the station.

President, Len, read letter from the North Seattle Radio Club, awarding their losing trophy to our club in Field Day contest. Trophy was presented. Dennis W7UBA MOVED to answer letter, SECONDED by Jerry W7BUN.

*Publisher note: not stated if passed.

Emil K7GPK was commended for cleaning up yard and mowing the lawn.

NEW BUSINESS:

Scotty K7CYZ announced that Dewey Wilson W7HF, an old member of the club, is celebrating his 60th anniversary of hamming. The Walla Walla Hamfest (Sept. 22-24th) will honor Dewey at their meeting. Scotty MOVED and Doc W7OS SECONDED that one of our October meetings be set aside as "Dewey Wilson" night. PASSED unanimously.

(cont. next page)

Minutes (cont.)

Jerry W7BUN announced that Amateur Radio Week has been proclaimed for September 9th-17th.

President, Len, read letter from Hank W7UD resigning from Program Chairmanship. Frank WA7GWL was appointed Vice-President and program chairman to serve out the remaining term.

Jerry W7BUN announced there will be a class in amateur radio at Bates Vocational School on Tuesday and Thursdays from 7 to 10pm for 18 weeks, beginning September 7th.

NEW BUSINESS:

Joe WA7RWK announced the formation of a "Chit Chat Club" meeting at the club station at 8pm., starting tomorrow night (August 24th) on 28.6MHz.

Dennis W7UBA announced that a code an theory class will be held on Tuesday and Thursdays from 7 to 9 pm starting the first Tuesday after Labor Day, for the training of Novices. Don WA7PIN will be in charge.

GOOD OF THE ORDER:

Bob K7IND MOVED, SECONDED by Joe WA7RWK, that the club go on record to thank the Chairman Dennis W7UBA and co-chairman, Jerry W7BUN for their superb efforts in making the Ham Fair an outstanding success. They were given a standing ovation. Chairman Dennis responded appropriately.

Scotty K7CYZ announced the golf trophies awards to Bob K7IND with a score of 85 and to Merl W7IKG.

Frank asked for volunteers to help erect antennas.

Meeting adjourned.

Following the meeting, Frank WA7GWL gave an informative and interesting talk on his experiences as assistant Communications Manager at ARRL while there one year.

CLUB MINUTES 9-13-72

The regular meeting of the Radio Club of Tacoma opened at 8:10pm on Wednesday September 13, 1972 by President, Len WA7HHI, with the members and guests pledging allegiance to the flag.

Visitors were introduced by Ethel W7WLX as follows:

Mark Lewis WN7SAF
Bob Church WA7GQO
John Christianson WA3OXF
Mark O'Halleck W7LEA
Mary Lewis W7QGP
Harry Lewis W7JWJ
Gary Lewis WA7BBJ

TREASURER'S REPORT:

Savings account \$1143.07
Checking account 377.06
Building fund 257.39

Bills were presented for payment as follows:

Taxes.....\$113.21
City treasurer..... 27.34
C & G Electronics 2.94

(cont. next column)

Minutes (cont.)

Stationary.....\$4.73

Total... \$148.22

MOVED, SECONDED and PASSED the bills be paid.

COMMITTEE REPORTS:

The FCC will grant a station license to the Shelton Correctional Institution, in the name of the Superintendent. Vince W7GYP and Don WA7PI went down to Shelton on Monday, September 11th and set up equipment for a station.

Dennis W7UBA requested the Treasurer give financial report on the Ham Fair. Treasurer, Ken reported he will have an up-to-date report at the next meeting.

Western Washington Fair report made by Jerry W7BUN. Requested that everyone, willing to help out at the Fair, remain after the meeting for last minute instructions. Jerry also reported on the FCC Docket, concerning repeaters, the rules of which go into effect on October 27th, 1972. Licensing of repeaters goes into effect next year.

Auxiliary report made by Jill WA7KSD. There will be a card party on 9-20-72 and a decoration party in October.

Program report by Frank WA7GWL. September 27th: an antenna talk by K7GCO or slide show by Jerry W7BUN. October 11th: slides of the Mariannas, Marshall Islands and Caroline Islands, narrated on tape by KG6SW. October 25th is open. November 8th preparatory talks on the up-coming Sweepstakes contest. November 22nd is open.

UNFINISHED BUSINESS:

Scotty K7CYZ announced that Dewey Wilson W7HD can be here on October 25th for the party in his honor. Doc W7OS will be the main speaker. Doc, Joe W7IG and Roy W7AZI will be the committee to present Dewey with a plaque in honor of his 60th anniversary of continuous licensure as an amateur.

Scotty K7CYZ reported a good time was had by all at the Stillaguamish camp-out over the week-end. There were five trailers from the RCT as well as several from the Everett club.

SS Chairman, Rex W5QQQ gave a pep talk on the up-coming Sweepstakes contest. He said all stations can use multi-operators this year.

Frank WA7GWL reminded members of the QSO Party this coming week-end.

NEW BUSINESS:

This week is designated Amateur Radio Week by Governor Evans. Instructions on how to obtain a certificate, commemorating the event, are printed in the Loggers Bark.

Chip K7VPF requested a clarification from the FCC reference the regulations for mechanical identifiers, particularly the regulation pertaining to speed of sending identification. It was pointed out that repeaters are restricted to 20wpm for identification purposes.

WELFARE OF CLUB:

Marion K7TCY needs help to erect his antennas.

(concl. next page)

E.H. Burton (sec)

Smitty, K7ATD, and XYL Rene spent some time
at the ocean, resting in the rain after a hard
summer.

Margie K7AMJ recovering from a bad back. Bead
work coming along good while staying home. Aren't
beads for Indians?

Scotty K7CYZ telling everyone how to take the
short-cut to the Stillaguamish camp-out, then get-
ting lost, going and coming.

Congratulations to Bill W7ZFY and XYL Peggy.

It's a boy, Jefferey Lansworth Rohrer. Born Sept.
9th, 10:33am. Grossed at 8lbs and 5 ozs. Keel
length 21 inches.

Ethel W7WLX back home after a short stay in
Doctors Hospital. How many beads did she string?

Verna Ryan back home after a short stay in
Reno. Richer or poorer?

Dave W7QER recooping from a visit in a local
hospital, after some surgery. Already been heard
on 2 meters. Has his rig set-up at home.

Congratulations to Bill WA7SCN on passing his
General class ticket. Has been checking into
WARTS regularly.

The club voted and passed to hold the X-mas
party at the NCO Club, McChord AFB on December 9th
Remember, good food at resonable prices.

Marv and Jean Wheeler (WB4JBS & WA7OII) send
regards to the club. WA7TAD and W7BUN have had
recent QSO's with them. They plan to return to
this area some day.

We heard that Emil K7GPK won a prize at the
Walla Walla Hamfest. Apparantly he is the only
one bringing home the bacon. RCT attendance was
not very good, due to weather conditions etc...
Dewey W7HF (the guest of honor) came out pretty
good, with one king sized cake.

A moment of silence was observed during the
last meeting in September for Wayne Burnham,
K7HBO, who just recently joined the club. He
joined the "Silent Keys" September 26.

Bob K7IND showed up at club meeting with his
hospital identification tag still on. Has home
privileges. Will still have to put more time in
Madigan.

Congratulations to Bob Crawford on passing his
exam and coming up with a new call, WA7UKM.

It is with deep regret we report the death of
Marilyn Bice, daughter of Max and MJ Bice. (W7AEA)
She will be remembered by many of the older mem-
bers of the RCT, as one of the sparkling bits of
the Bice family.

Remember the second meeting in October will be
Dewey Wilson night. Be sure to be there to visit
with Dewey. We also ask that if you should talk
to Dewey or see him before that time, don't men-
tion the big plans for him. We are not sending
him a copy of the Loggers Bark but will give him
his copy on that night. We want to surprise him
if that is possible.

HAM FAIR '72'

Ham Fair '72' is now history and will go down in the books of W7DK as one of the best of the club's many activities.

The doors opened at 9:00am., Saturday and was a hive of activity until closing time Sunday. The club wishes to extend thanks to all club members, who worked so diligently to make this fair a success. A special thanks to Ham Fair '72' chairman, Dennis W7UBA for getting this going. We don't try to list each and everyone who worked hard to make it the success it was.

It is a little early to report, but so far no complaints received about the activities and meals. Everyone must have liked the dinner, the food disappeared. No steaks but roast beef and potatoes with sauce sure went over good.

A special thanks to the Ladies Auxiliary and Sunday morning breakfast committee. As we know before, we could list names and committees all day long but space does not permit it.

Get prepared for next year. Let's go to Ham Fair '73'!!

....ED

WALLA WALLA HAMFEST

Don't forget the Walla Walla Hamfest, on September 23rd and 24th!

This Hamfest will be of special interest to all members because one of our most loved members will be the guest of honor.

Dewey Wilson, W7HF, long time member of W7DK, will be honored for his 60th anniversary as a licensed ham. Let's have a good representation and show the world that W7DK is proud of its affiliation with Dewey.

Remember, Jefferson Park Fieldhouse, Walla Walla on September 23rd and 24th..

EDITORIAL NOTE: "THERE WILL BE LITTLE CHANGE IN THE CLUB'S POCKETS THIS SEASON."

ROSTER BOOK CHANGES

The Club has two new members to add to the club's roster since the last issue. Please add their names into your roster book on the pages provided for this purpose.

Welcome to the new members and we hope both will participate in the many club activities.

RADIO EXHIBIT

The Western Washington Fair will be September 16th through 24th and the Radio Club of Tacoma will again have a display in the Hobby Hall. Stations are planned for 75, 20 and 15 meters and 2 meters FM. There is also a possibility of including a teletype station.

Messages will be solicited from the fair-going public and the radiograms will be sent from the fair station, whenever possible. This is an outstanding chance to inform the general public about amateur radio.

Volunteers are needed to help set up the stations and to man the booth during the fair. Contact Jerry, W7EUN, as soon as possible and sign up for a shift.

THANKS FOR HAMFAIR HELP

Many thanks to all, who volunteered and responded to our request for help on HamFair '72'.

.....W7UBA, Chairman

P.S...FULL SCOOP AND ACCOMPANING PICTURES WILL BE IN NEXT MONTH'S "BARK".

AMATEUR RADIO COURSE STARTS

A course, leading to the Advanced Class license will begin September 7th at the L.H. Bates Vocational-Technical Institute, 13th and Yakima Avenue. Classes will meet each Tuesday and Thursday from 7 to 10pm. Total cost for the 18 week course is \$17.00.

Beginning CW, beginning and advanced theory, regulations and practical work will be covered. Textbooks will be the Radio Amateurs Handbook and the license manual. Call the school for more information or, better yet, be ready to start at 7pm Thursday, September 7th. Name of the course is, Communications I.

DRIVE DEFENSIVELY. BUY A TANK.

AMATEUR RADIO WEEK

By W7BUN

Once again the Puget Sound Council of Amateur Radio Clubs will issue certificates signed by Governor Evans for contacts made during Washington State Amateur Radio Week, September 9th through 17th. Washington State hams must work 20 other Washington hams and out-of-State hams must work 10 Washington hams during this week. Send list of stations worked, dates and locations along with your name, call, address and a legal size self-addressed stamped envelope to the Puget Sound Council of Amateur Radio Clubs, 12306-80th Avenue East, Puyallup, Washington 98371

AUXILIARY NEWS

The Auxiliary will meet September 20th for a busy fall season. All women are members of the Auxiliary. Come and have a fun night. Bring your favorite snack.

Remember to bring all the rags to the meeting to be turned in.

GOD GRANT ME THE SERENITY TO ACCEPT THE THINGS I CANNOT CHANGE: THE COURAGE TO CHANGE THE THINGS I CAN: AND THE WISDOM TO KNOW THE DIFFERENCE.

P.S.C.A.R.C. NEWS

By W7BUN

An organizational meeting, to establish a repeater advisory council, will be held Saturday, September 9th,, at 10am at the King County Civil Defense Headquarters in Kent.

If you have any interest in repeater operation, be sure to attend this very important meeting.

A Council sponsored float, for area parades, was suggested; might be a good means of obtaining publicity for amateur operations.

Will Akins, W7KZ, of Olympia will be the new RN7 net manager, succeeding Bill Watson, W7BQ.

Loyd Peek, W7BA, of Seattle passed away August 17th; Loyd had made the BPL certificate for the last 249 consecutive months.

READ THE FULL COUNCIL MINNTES ON THE BULLETIN BOARD AT THE CLUB HOUSE.

ARRL NEWS IN BRIEF

By W7BUN

The combined total of ARRL Life Members and applicants on the installment plan is now well over 4,000.

The Electronics Industries Association formed a new committee on "Electromagnetic Compatibility in Vehicles". The ARRL has been invited to designate a representative and Bob Myers will take that responsibility.

The Board of Directors met for the 2nd 1972 session in Hartford, Conn. on July 20th. The following actions were taken; A "pie-chart" will be published annually in QST to show the major sources of ARRL income and expense. Several new committees were established with extensive new responsibility in International Affairs, Plans and Programs, Membership Affairs, Management and Finance and Legal and Regulatory. A small display unit will be made available to all Directors for use at Hamfests and Conventions. \$5,000.00 was funded to begin preparation of a new film to replace "The Ham's Wide World". New long range plans and goals were adopted. A competition to design an official ARRL QSL card will be used to celebrate the upcoming Bi-Centennial of the US in 1976. The ARRL Museum of Amateur Radio was dedicated to the memory of Roland B. Bourne, W1ANA. The FCC will be requested to give license exams in Spanish. A technical symposia will be sponsored by the League in 1973 in Washington, D.C.. The board expressed opposition to any call letter changes as reported in the amateur press. The FCC will be petitioned to grant single letter call signs to amateurs who have been licensed for 50 years.

The possibility of having Civil Service offices throuout the country to give amateur license exams has been suggested to the FCC by the ARRL.

RM-1907, to restrict SSTV to certain high frequency portions of the subbands was DENIED by the FCC.

A new system of data processing of membership records will be brought into use by October.

On August 4th, the FCC issued a Public Notice, warning amateurs against using their phone patches to handle commercial traffic. Repeater-type auto patches were specifically mentioned as well as phone latches on the HF bands.

Doug Blakeslee, W1KLK, left the League in August to take a position in the National Telephone Company of East Hartford.

(concl. next column)

ARRL (concl.)

FCC DENIED the following petitions: RM-1520, which asked for Advanced Class segments in the 6 meter band; RM-1830, which would change the name of the amateur license to "Radioman License"; and RM-1877, which would prohibit delivery of third party messages by collect telephone call.

WASHINGTON STATE QSO PARTY

The 7th annual Washington State QSO Party, sponsored by the Boeing Employees Amateur Radio Society (BEARS) will start at 2000 GMT, September 16th and end at 0200 GMT, September 28th. Check any recent amateur radio magazines for full details and rules.

HAMFAIR PRIZE WINNERS

The main 1st. prize of the Hamfair was won by Kirk, WN7UES, from Bonney Lake. The HR-2, 12 Regency trans-ciever will be put to good use. Kirk, just recently became a Novice licensed ham with the help of his Uncle Art W7CYQ. He is 14 years old, so will have lots of years of hamming ahead.

Len Westbo, W7MCU, of Auburn, won the second prize (classic 36 antenna). Len didn't seem disappointed on taking second.

Jill Anton, WA7KSD, of our own club, won the 3rd grand prize of a TH-6 antenna. OM, Paul will be the one to make use of it. Right Paul?

The ladies first prize was a 32 piece set of ovenware and Pat, WA7REA, from Eugene Oregon walked off with that one.

The rest of the hundred or more prizes went to happy recipients and are too numerous to try and list their names in the pages of this small paper.

The following is a list of the special awards given:

Spiro Agnew Award....Margie K7AMJ
BASS Award.....Arlene Anderson (W7WJM-XYL)
Missing Husband Award..Joan Rainier (W7UBA-XYL)
1st. Speech Processing Award..Len WA7HHI
2nd. Speech Processing Award..Jerry W7BUN

CLUB MINUTES 7-26-72

The regular meeting of the Radio Club of Tacoma was held on July 26th, 1972 and called to order at 8:13 p.m. by President Len Goodwin with the pledge of allegiance to the flag. Minutes of the last meeting were approved as

Visitors introduced were as follows: Dan Choff, Jessie Steeley WA7INY, Andy Baird, Ole Ksen, Vick Clark and Mike Kost.

Dennis reported that Marion Wylie K7TCY, is in health and is entering a nursing home.

Dennis reported the death of Bertram Francis Noll, member of the Radio Club of Tacoma at its inception in 1916. Bert became a silent key on 25, 1972 at the age of 69. A MOTION was made PASSED to add his name and also the name of father, Bertram John Noll, to the Club's list "SILENT KEYS".

Beryl Hood K7NPG was reported home from St. Joseph's Hospital following an appendectomy.

AM FAIR: Dennis said that last minute details be discussed at the August 9th meeting. He reported good publicity is being given to it in radio magazines.

AUXILIARY: Vivian announced the next meeting at her house on August 2nd.

Scotty K7CYZ, reminded members about the upcoming trip August 26-27 at Westport and to make reservations with Ralph, W7COP.

Dick W7RGD, announced a camper/trailerhevous at the Stillaguamish River on September and 11th.

Dennis reported that Bob Thurston made a motion at the recent ARRL Board meeting that our call signs not be changed. Thus the ARRL motion gone on record as being opposed to the proposed changes.

UNFINISHED BUSINESS: Dennis asked if anything other had been done on the building foundation plans. Nothing to report.

NEW BUSINESS: None.

HF REPEATER: No report.

Phil WN7QZE/7 reported he had passed his General License exam.

Dennis announced that the Western Washington Radio Club is hosting a DX convention on August 5-6 at the Double-tree Inn in South Center.

Minutes (concl.)

PROGRAMS: Tonite, Common Carrier Systems Operation by John Kelly W7KKN. August 9th, Up-coming Ham Fair.

Doc W7OS, reported that Bert Noll K4UVH, is looking for contacts from Club members to qualify for the Loggers Certificate.

Meeting adjourned.

Following the meeting, former member John Kelly W7KKN gave a highly informative, as well as entertaining talk, on the Common Carrier Systems Operation in the Tacoma area. The system is designed to page individual subscribers, wherever they might be for emergency messages.

Respectfully submitted,

/s/

E.H. Burton /Sec/

CLUB MEETING 8-9-72

The regular meeting of the Radio Club of Tacoma was opened at 8:10pm Wednesday, August 9, 1972 with the pledge of allegiance.

Visitors were introduced as follows:

Dan WA7BOI, Sid WB6ESS, Jess WA7INY, Ron WN7SUP, Larry Seaman WA7QEW, John Chestnutt, Nick Olsen, Mike Kost and Chad Starr.

SICK REPORT:

Scotty K7CYZ announced that Beryl K7NPG has recovered from his illness. Also confirmed, that Marion K7TCY is in a nursing home.

TREASURER REPORT:

Savings account	\$1143.07
Checking account	256.02
Building fund	257.39

A bill for \$1.25 for bug spray was ordered paid.

FUTURE PROGRAMS:

Dennis W7UBA advised none scheduled. Suggested the next program to be post-Ham Fair discussion.

BUILDING COMMITTEE:

Joe WA7RWK had no report.

OLD BUSINESS:

Scotty K7CYZ announced there was one reservation open for the Salmon Derby, August 27. He

Minutes (concl.)

also reminded members of the camp-out on the Stillaguamish River on September 9th and 10th.

Jerry W7BUN reported on the picnic at Dewey Wilson's W7HF last week-end. There were 8 or 10 adults present. The weather, swimming and food was all good. Poor attendance, due to poor publicity.

AUXILIARY:

Jill WA7KSD advised a meeting and card party on September 20th. at the club house.

Dennis W7UBA reminded that Sweepstakes Contest coming in November.

UNFINISHED BUSINESS:

Volunteers were sought to clear up the yard. Emil K7GPK volunteered.

Doc W7OS appealed to those still not in the picture album, to ask to have their shacks photographed. He also read a letter from H.H. Olsen W7IIE, requesting an application to join the RCT. He has been a ham for many years. Doc will contact him.

Tim WA7FVT requested a set of RCT by-laws for purpose of forming a radio club on a military base at which, he is serving.

NEW BUSINESS:

MOVED by Scotty K7CYZ, SECONDED by Joe WA7RWK, to act on the Boards recommendation to make the following Special members of the Radio Club:

Ed & Lydia Coles (K7CZM & WN7OVO)

Gary Kahtala WA7NIF

Terry Howard WA7LGY

*PUBLISHER NOTE: MINUTES DID NOT STATE IF PASSED OR NOT.

Don WA7PIN has been approached by certain residents of the Washington State Correctional Institute, who want to form a Radio Club. Don has volunteered the services of the RCT to assist them and set-up a meeting for the purpose on Tuesday, August 15th. President, Len, advised anyone wishing to attend the meeting should first contact Don Ashley in Olympia. Inmates of the institution may take the tests for licensure and providing the offense for which they are being incarcerated has nothing to do with communications, may qualify for licensure on their release from custody.

APPLICATIONS FOR MEMBERSHIP:

John H. Chestnutt N.C.

Bess Steele WA7TNY

Both approved unanimously.

Meeting adjourned 8:50pm.

The program was devoted entirely to plans for the Ham Fair.

Respectfully submitted,

/s/

E.H. Burton W7SF, Sec.

SLIVERS & SPLINTERS

The 1972 Hamfair is over and it looks like a real success. We noticed quite a few tired but happy DK members...after the drawing Sunday.]

Ask Beryl K7NPG, what kind of a trailer Tom W7PK has?

All you ladies, that envied those prizes you didn't win at the Hamfair, can find them at Art's W7JGN Shop Mart. They were sure nice prizes this year.

At the Walla Walla Hamfest, September 23 & 24, Dewey Wilson, W7HF will be honored for his 60 years of being in ham radio. A number of RCT members are planning on attending.

Dick, W7RGD, back from vacationing in Idaho and taking time out to put the Bark together and then off again to look for the yellow stuff.

Beryl K7NPG and LaVerne K7NKZ have packed-up and moved off to Arizona. Wish them lots of luck and hope they don't forget the RCT members back in Tacoma. Promised to keep us posted how things are going with them.

Cliff W7MFG, looking very thin since he started pushing away from the food trough. Says he now weighs less than he did before he got married.

Paul WA7ESD looking good without even one cane. Not running any foot races yet but getting around good and doing some scubba diving.

Many thanks to the many contributors of prizes for the Hamfair especially to Art W7JGN, who supplied do many prizes for the ladies. Also Art has been a steady advertiser with the Bark since we first had advertisers along with Smitty K7ATD and KTNT. Without them, the Bark could not exist.

Last minute notice! for the Skagit Club Salmon Bake on September 9th., Saturday starting at 1pm. The bake will take place at the city park at Oak Harbor. Camping space available. Contact W7REC for additional information.

A 3-11 fire was called on the Tacoma water front on the last day of the month. Dick W7RGD, Ralph W7COP and Mel K7ATF responded with the communications bus. Smitty K7ATD attempted to get to the scene but was not permitted to pass the fire lanes. He ended up standing by at the fire alarm radio, ready to go if necessary.

Remember, this month is loaded with activities. Kids are back to school, watch the cross-walks!

AUGUST 1972

ARRL NEWS IN BRIEF

By W7BUN

The historical collection of amateur equipment the headquarters lobby will be designated as a priam to the recently deceased, R.B. Bourne, VA, whose efforts to build it to the outstand-display it is today, have been so dedicated so many years.

The ARRL Repeater Manual has been held up pend-FCC action on repeaters. The 'Mobile Manual Radio Amateurs' will be deleted from the ARRL t of publications. The new repeater manual l have much FM mobile information and the dbook" will contain the basic information a: mobile operation. "A Course in Radio Funda-tals" is being revised by George Grammer, W1DF. new book will have in-depth coverage of true elemental radio theory.

Guyana and the U.S. have completed a third-ry amateur message handling agreement, effec-e July 6th.

General Manager John Huntoon, W1RW, has de-ed that VHF beacons in domestic areas are lack-in meaningful purpose but that encouragement support should be given to such VHF projects remote areas.

Hurricane "Agnes" resulted in activation of y amateur message-handling networks and a de-cation of emergency frequencies by the FCC. n favorable publicity has resulted from the eur efforts.

AMSAT, ARRL and Oscar representatives met to anize an amateur Satellite Service. Bill el, W6UF, has been named interim chairman. new committee will assume responsibility for: Develcping plans for funding of satellite projects.

Coordinate staffing of projects.

Advise on regulatory matters affecting amateur satellites.

Plan public service applications of amateur satellites.

AREC ACTIVITIES

On July 21, 22 and 23 the Pierce County AREC
and the Explorer Scouts of the Rainier Council
of Scouts of America joined forces, in a search
operation for a downed plane, with 2 people aboard
the plane was reported down on Spider Mountain,
near Sequim, in the Olympic National forest.

The Explorer Scouts were led by Mr. Smith of
Tacoma, who had units from the Puget Sound area.
Reports from people on the scene, said the boys
performed with precision, that comes only from
training. Although the plane was not found,
these boys should be commended for their efficient
operations.

The AREC group was led by John Austin K7CZF,
in control, who had his station in his trailer,
at the scene.

Amateur stations, checking in and handling the
traffic from John were; K7VAS in Yakima, K7PPK
on Federal Way, K7IEU from Everett and WA7MXE,
KZ, W7RGD all from Tacoma.

These people should also be commended for giving
of their time and efforts.....ED

TEST OF EINSTEIN THEORY

from AUTO-CALL

Scientists at the space agency's Marshall
Space Flight Center plan to put a clock into orbit
late 1974 to test a portion of Einstein's
theory of relativity.

The hydrogen maser clock, selected because its
stability rate varies only a few parts in one
trillion, is being especially designed for the
test by the Smithsonian Institution Astrophysical
Observatory.

Scientists of the National Aeronautics and
Space Administration said the device will be pushed
into an elliptical orbit 11,185 miles high.

In its simplest terms, Einstein's theory is
that two similar objects - in this case clocks -
in different gravitational fields would appear to
operate at different rates because of gravity's
effect on the geometry of space and time.

If that is true, the orbiting clock, to be
monitored by telemetry, should appear to be oper-
ating more rapidly than a similar instrument to be
situated at NASA's Bermuda ground station.

SCIENCE MAKES THE HEART GO WANDER.

Some of our newer members and a lot of hams
elsewhere, have never heard of this certificate,
so the following information will be of benefit
to them.

First of all, all members of the Radio Club of
Tacoma are "Loggers". Loggers is the nick-name,
so to speak, of the members of the club. That is
the reason for the name, "Loggers Bark", "Loggers
certificate", etc..

Second; any licensed ham contacting ten (10)
Loggers, on any band, any mode, is eligible to re-
ceive a certificate. This means that any RCT mem-
ber, by contacting ten other RCT members, or Joe
Doaks in Tim-buck-two contacting ten RCT members,
may apply for this award. Here is how you do it..
When contacting a ham in Tacoma, ask him/her, if
they are a Logger, or if they are members of the
Radio Club of Tacoma. If so, keep a separate list
of the call, the time and date and name. When
you contact the tenth one, who is or confesses to
be, a Logger, you give the list of the other nine
worked and they will turn in the list to the club
and the club will see to it that a certificate is
mailed to you.

If you wish, you can send this list to the
Loggers Bark and we will see that it gets to
Barbara W7UYL, who issues the certificates. The
Club Officers and Loggers Bark staff addresses are
listed on page 2 of each issue of the "Bark". (In-
side page of front cover)

LETTER RECEIVED

July 8, 1972

Radio Club of Tacoma, Inc.
1249 S. Washington Street
Tacoma, Washington 98405

Gentlemen:

Our daughter will be attending the University of
Puget Sound this fall and I am seeking a weekly
Tacoma phone patch, a schedule starting this fall.
I would be able to keep schedules any evening af-
ter 5:30pm. Pacific time on any band that is open.
I can operate in the Advanced class part of the

Carl Lee WB6AWU

QCWA NEWS

Mr. Claude D. Grow W7AS of route 1, Chimacum Washington has joined the ranks of Silent Keys. We were saddened by the rumor but later established, by a letter from Claude's son, Bon Grow, K7ATL/6 whose address is Arcadia, California that his father had passed away over a year ago while on a vacation in Tennessee on April 14th, 1971. W7AS had assisted in the early struggling days of the N.W. Chapter and who had only a few weeks before, renewed his membership in the QCWA.

We are happy to report that Ray Runnells, W7LQ, past chairman, is doing nicely in his recovery from a heart condition and some surgery. So much so, that he was able to attend the annual meeting at Victoria B.C..

We had some excitement at the annual meeting. Warren L. Gree, W7JY, fell on board the Princess Margret enroute to Victoria and put him on crutches with an injured knee. Dr. John Nelson, W7AOB, took care of Warren until he came down with a flu bug and put him to bed for the remainder of the meeting. However, both were able to pose for the annual N.W. Chapter picture. We hope that both are fully recovered by now.

Roy J. Devish, W7AZI, an old timer at presiding and being tops at administration, was elected chairman of the Northwest Chapter, QCWA for the year 1972/1973. W7MEA was elected Vice Chairman and W7PN was re-elected Secretary. Committees and appointments will be announced shortly and the nets were suspended only until the week end after Labor Day.

There is nothing slow about our meetings. We settled on Seattle for the annual meeting to be held the second week end in June 1973. Plans are already forming to go back to Canada in 1974, when the boys from Penticton, B.C., Canada made a great bid for 1974. Victoria was a wonderful host.

Submitted by.

Dr. F. Clifford J. Spike W7OS

IT IS SAID THAT REMBRANDT PAINTED 700 PICTURES AND AMERICANS HAVE ALL 5,000 OF THEM.

Field day fund. 36.68

FIELD DAY REPORT (Kent WA7INVX)

There was good publicity for the event, consisting of two newspaper articles, a T-V appearance by Jerry W7BUN and a radio spot announcements by Kent all day Friday on KMO. Chairman, Kent was commended for his efficient management of the event. Also commended was Dick Seifert.

The 40 meter cw crew won the award, within the club for the best improvement in score during the past five years, with a score of over 288 qso's.

Don Grant WA7PIN was commended for his sign, giving directions to the club site.

A Motion by Jerry W7BUN, Seconded by Scotty K7CYZ to replace the sign at Joe Asplund's QTH, as a gesture of appreciation for his generosity, was PASSED unanimously. Don offered to create the sign of wood.

HAM FAIR (Jerry W7BUN)

Plans are well advanced, with events and speakers scheduled for the entire time. Posters will be forthcoming next week. A grand prize of a 2 meter, solid state transceiver will be given.

AUXILIARY MEETING

Will be holding a special meeting on August 2 at Vivian Huntley's.

NEW BUSINESS:

Jerry W7BUN announced the FCC, through Chairman Prose Walker, head of the amateur and citizen band radio division, is considering revising the entire call system, by cancelling all present calls and (cont. next page)

sueing new ones to conform to the proposed new stem. He said that director Thurston plans to to ARRL Headquarters on July 16th to protest the FCC plan before it goes on the docket. President Len appointed Jerry to head a committee to formulate a letter of protest to give to Bob Thurston, W7PGY, to present to the board.

Scotty K7CYZ announced the annual trailer camp- at Raymond's Roost on Wiley Creek will be held September 9th and 10th.

Charlie WA7QYI announced he is mailing letters to the high schools to publicize Amateur Radio week. He has been named Publicity Chairman for Puget Sound Amateur Radio Council.

NEW COMMITTEE (Doc W7OS)

Doc announced that Sully W7EOP was killed on Hwy 99, last week. He was a member of QCWA.

Also that Barney W7FXD passed away last week. Other men were members of ECT.

FINISHED BUSINESS:

Doc has provided a chain, on loan to the club, to secure the tower sections. Kent will purchase padlocks for same.

BUSINESS:

President, Len, appointed a QSL committee, consisting of Nick WA7IVO and Tom WA7TAD.

Charlie WA7QYI was authorized to send publicity letters to the high schools on the occasion of amateur radio week.

Doc W7OS called the club's attention to the article by Howard Hanson W7MRX in the July QST.

Phil Allred announced he was helping to set-up station at the North End Boy's Club and would appreciate some help in the project.

Charlie WA7QYI suggested we secure a central telephone number for use by the public for emergency traffic. It was pointed out the problem could be solved as soon as the club station could be activated and manned.

WELFARE OF THE CLUB:

W7DXX is now editor of '73' magazine.

Don WA7PIN announced that Marvin and Jean Heller have sent their new address from Fort Benning, Ga..

FUTURE PROGRAMS:

(Concl. next column)

July 12th, two meter operation (seminar program)
July 26th, "Radio Page" service of Tacoma.

NEW MEMBERS:

Wayne Burnham K7HBO

Robert J. Crawford N/C

MEETING ADJOURNED.

Following the business meeting a highly entertaining description, with slides of a DX-pedition to the Caribbean Islands of Barbados, Martinique and Grenada was given by three Bellingham amateurs Dick W7VRO, Mike W7EKM and Al WA7BAY. The men were introduced appropriately early in the business session by Jerry. They provided several thousand QSLs to hams, many of whom needed these countries for their DXCC awards.

E.H. Burton W7SF (Sec.)

SLIVERS & SPLINTERS

Remember to contact Emil K7GPK as soon as possible to get your reservation in for the Ham Fair. Its later than you think!

Beryl K7NFG back from a weeks stay at St. Joes Hospital. Had his appendix removed in a hurry!

Marion K7TCY reported to be in a rest home, in Puyallup. Visitors welcomed!

Question for Rene Smith. What ever happened to your bowling ball? Did you ever find it?

Jerry W7EUN and family back from vacation trip up into VE land. Checked into WARTS several times while up there. Has some slides, taken while there and will be showing them to the club one night soon.

Dennis W7UBA going around in circles, getting ready with the last minute details for the Ham Fair.

Ralph W7COB has a new 18 foot in-board-out-board boat. Ralph also advised he still has one opening for the Westport fishing trip but if you are interested, get in touch right now!

Scotty K7CYZ back from vacationing in California in time to work on this month's Bark.

Howard W7MRX had one of his articles published in a recent issue of QST. How many does that make now, Howard?

Bob K7INE back from vacationing and back to the grind at WSP getting ready to let Dick W7RGD leave on his. KOA431.

Bob W7RXS all set now for mobiling with two new antennas mounted on his trailer. Still fighting the noise problem from his generator.

In Remembrance

BERTRAM FRANCIS NOLL

Born 1903

Died May 25, 1972

We are always saddened to hear of the passing of a loved one, especially one who we only recently, were able to trace through life from his early affiliation with the Radio Club of Tacoma, from its very beginning in 1916, down to the present. You may enjoy re-reading the articles in the *Loggers Bark*. The first article appears in November, 1969 entitled "53 Years Later", where we were able to locate Bert through his son, Bertram Bersvind Noll, K4UVH and how through our first group picture we located Bertram Francis Noll and his father Bertram John Noll.

The top picture was extracted from that first Radio Club group picture. The second article, appearing in the *Loggers Bark* August 1970, entitled "The Best Kind of DX". The third article, in December 1970, was written by Bertram Bersvind Noll included a picture taken recently of K4UVH and his father, now our most recent "Silent Key". It was taken in front of K4UVH's rig. This is the lower picture of the two at the top of this page.

Bert's XYL, Ruby, was in Tacoma this week and personally called on me to tell me of Bert's passing and how proud he was of the Radio Club of Tacoma and how they all enjoyed reading the *Loggers Bark* each month.

Bert retired three years ago as a professional electrical estimator for the Edenfield Electrical Company of Nashville, Tennessee.

He is survived by his XYL Ruby, one son Bertram Bersvind Noll K4UVH, daughter Mrs. Robert Manners and five grandchildren.

We of the Radio Club are so very proud of all those early members, who have given us our wonderful heritage and history and we join in extending to his family, our sincere sympathy.

NEW ARRL FILM

The new film on Amateur Radio, edited by ARRL, is shown at the May 24th meeting. This film is good and will help to improve the general public's opinion of amateur radio. The ARRL should be commended for the editing of this film and it is the obligation of all affiliated clubs to see that this film is presented to the public, whenever possible. Thanks to Jerry, W7BUN, for showing this to our club.

BOWLING FINALS!

Radio Club #1 landed 13th place in the City tournament. They were only 90 pins out of 1st place.

On team #1 are: Ralph W7COP, Bob WA7IPR, Bob KXS, Smitty K7ATD and Rick K3RIW.

Very good fellows - shake hands with team #2 and see if it will rub off.

Team 1 realized \$50.00 for their efforts.

PAST PROGRAM

Speaker Clay Freinwald

The talk on the trials and tribulations of commercial broadcasting, by Clay Freinwald, Chief Engineer of radio station KMO was very informative. He brought to light, things that we never realized we needed to get the best coverage of their radio signal.

The choice of location and the construction details for KMO's new antenna site was very well presented by Mr. Freinwald.

We should have more talks by this gentleman or others of his calibre, about the commercial aspects of broadcasting, which is so closely related to amateur radio. ...ED

MINOW PICNIC

W7DK got all slicked-up this Father's Day weekend so Ethel W7WLX, Lois K7MFY, LaVerne K7NKZ, Jill WA7KSD and Jane W7LXQ could host the 9th annual MINOW Picnic at the clubhouse on Sunday.

MINOW stands for Montana, Idaho, Nevada, Oregon and Washington and the YLs from those states who meet on 75 meters each Friday. This net was formed in 1963 and LaVerne is a charter member. She is the new Vice President of the group, whose year runs May to May. Ethel served as President May 71 thru May 72 and turned the gavel over to the new President, June WA7FRM from Colville at this meeting. The new Secretary/Treasurer is Vicki K7VSG from Richland.

There were 17 MINOW members in attendance - 1 from Montana, 3 from Idaho, 2 from Oregon and 10 from Washington and 1 from California. Lucie WB6RFE is our California member and is net control

Minow's (cont.)

for the 20 meter, Friday net. The MINOW's have other associate members in Arizona, British Columbia, North Carolina and New York, with a total membership of 60.

While the YLs had their business meeting, Roy W7AZI and Dave W7QFR took the visiting QMs on a tour of Tacoma.

There were 32 at the noon potluck, with food enough to have fed 100 AZIs.

On Saturday evening there were 25 at Brads on Pacific Ave. for a social get-together and LaVerne showed pictures of her European trip, enjoyed by all and especially by the several camera buffs among the QMs.

(concl. next column)

It was very gratifying to have Doc W7OS, Dr. Burton W7SF, Dennis W7UBA, Rich WA7IHA, George WA7CSF and Roy W7AZI show up Saturday morning and really make the clubhouse and yard look great for our visitors. A very special thanks to Roy, who worked so very hard and cooperated so willingly with all the tasks and chauffeuring requested by his very grateful wife.

Those present for the festivities were:

YLs-WA7FERM, WA7QMX, W7HHH, W7JFC, WA7KSD, W7LX K7MFY, W7NJS, K7NKZ, K7NZO, K7PVG, WB6RFE W7RRS, K7TWQ, K7UBC, K7VSG, W7WLX. QMs-WA7FRO, W7EHQ, W7GVG, W7QFR, K7UFY, K7PFG WN7TLI-exKN7TWP, WB6NWX and W7AZI.

P. S. C. A. R. C. NEWS

by W7BUN

The director of the Washington State Capitol museum has agreed to display old-time radio gear. The Council will contact the QCWA for assistance in setting up such a display.

The Council President named Chuck Milhans, WA7QYI, a member of the Radio Club of Tacoma as Council Public Relations Coordinator. Chuck will arrange radio and TV shows on ham radio and talks for interested groups and schools.

Don Ashley, W7HMJ, will head-up the organization efforts of a repeater advisory group.

The ARRL has donations on hand to provide needy worthy hams with paid up League membership, on a year by year basis. The Council will propose to the ARRL, any names supplied by member clubs, providing there is sufficient justification.

The Radio Club of Tacoma challenged other Council Clubs to a contest for total field day score. No other clubs accepted the challenge, However the Mike and Key Club and the Boeing Employees Amateur Radio Society have a contest between them. (*)

The complete minutes of the Council meetings are posted on the bulletin board, at the clubhouse.

(*) EDs Note: The North Seattle Radio Club made a last minute challenge, which was accepted.

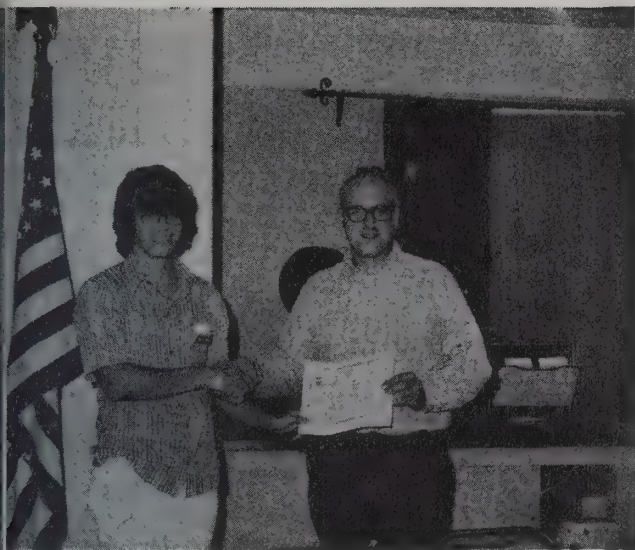

ARRL NEWS IN BRIEF

by W7BUN (ass't. to Director)

The second ARRL Board of Directors meeting for this year will be July 20th at Hartford, Conn.. The Northwestern Director, Bob Thurston W7PGY, will be leaving about the 16th, so if you have any items for him to bring up at the board meeting, be sure to contact him before then.

Bob also wants letters from hams (ARRL members or not) expressing their opinions on the FCC's call sign proposal. Prose Walker, head of the amateur and citizens radio division, has proposed that the call sign structure be changed to reflect the class of license in the call, e.g. WE7ABC for extra class, WA7ABC for advanced class, WC7ABC for general class, WJ7ABC for conditional class and WT7ABC for technician class. Among the reasons given for this idea, are easier identifi-

ARRL news (cont.)

cation by FCC monitoring stations. Letters to Bob are requested from individuals and clubs. This will be brought up at the board meeting for possible early action before the FCC makes a formal docket out of this plan.

Due to resignations, the following changes are made in the advisory committees: K1ABR and W3DTN replace W6GDO and W0CXW on the VHF Repeater Advisory Committee; W2EIF replaces K1ZND on the Contest Committee and W1BIH replaces W1RAN on the DX Committee.

The medical relief ship S.S. Hope is now in Jamaica and third party traffic is authorized for purely personal messages of ship personnel to family and friends in the U.S..

With the reversion of the Ryukyu Islands to Japan in May, third party traffic to Okinawa is now banned.

The expected release of the Repeater Docket by the FCC has been delayed as much as two months or more. The Amateur Division finished the draft on schedule but approval at higher levels has not been forthcoming.

The Director of Posts and Telegraphs for Viet Nam has indicated to the FCC and the ITU that there is no objection to XV5AC (this station ONLY) communicating with amateurs in other parts of the world.

Two more petitions for rulemaking -- RM-1976 would allow a Communicator Class of licensee, with a codeless mail type exam to be authorized on the 220 MHz. band. This was proposed by a California radio club. RM-1980 would allow waiver of license application fees if the amateur furnishes an
(concl. next column.)

ARRL news (concl.)

affidavit that he can't afford them; this was proposed by a Chicago club council.

The ARRL's new repeater manual has been delayed, awaiting the FCC's action on proposed repeater rules. The Mobile Manual will be discontinued, since so much mobile activity is on VHF and is well covered in the Handbook and the soon-to-be published, repeater manual. "A Course in Radio Fundamentals" is undergoing revision and will be out in a month or so.

TRIP TO NEWHALEM

or "See Washington Fire

Four trailer loads and one small tent of Radio Club members, made a week-end trip to Newhalem. In case you don't know, Newhalem is located about 40 miles East of Mount Vernon, on the Skagit River. The Skagit is known worldwide, as the best Steelhead river in the nation. Newhalem is better known as the gateway to the Ross, Diablo and Gorge dams. It is the West entrance to the North Cascade's National Park. The State of Washington fails miserably for not advertising this section of the State more. The park at the Gorge powerhouse, at Newhalem, is out of this world. The ladder falls are guaranteed to take your breath away under normal lighting but if you stay around till dark and see the falls under the fluorescent lighting, with its multi-colored display, you will never forget it. The mighty Skagit, under the swinging bridge leading to the park, is something to see. Another swinging bridge crosses the river at Newhalem, that leads to a 45 minute walk along a nature trail, which is lined with giant cedars, douglass fir and stately pines, some towering 250 to 300 feet above you. There are lesser trees and foliage that abound in our States great forests.

The drive, up the Skagit past Gorge dam and across the top of Diablo dam, is spectacular.

The group camped at Goodell Creek camp grounds, a National forest camp, with the Skagit on one side and Goodell Creek on the other.

If you are a nature buff, fisherman or just a sight-seer you will be in paradise. Goodell Creek will yield some very fine Brook trout and Rainbow,

JU 40212

Pd Adv.

Newhalem (concl.)

of course the mighty Steelhead.

The group that camped there, all agreed that RCT should consider a Club trip to the area. Members and families that were there, were; Al and LaVerne (K7NFG & K7NKZ), Bick W7RGD, Bob Inez (W7FXS & W7EXT), Churchwards's son Bud and XYL JoAnne, Scotty K7CYZ and XYL Vivian and Scott. Everyone enjoyed the trip and are ready to go back, anytime.

Two big surprises of the trip were an encounter with a huge Brown bear, more grand than any seen in Yellowstone and a four-point Mule deer, that a hunter would give his right arm for, to take as a trophy.

All boiled down, let's just say, Washington is good!
.....ED

BACK ISSUES OF THE BARK

EMBER, 1963

The Koth's are still trying to recruit help to finish their roof before the rainy spell sets in. W7COP slid a full "hot" pot of coffee down KG's pants the night of CD net.

UARY, 1966

Everyone had quite a shock at the last club meeting. Cliff W7MFG appeared and had to be introduced to our President, even though he had been a member for umpteen years and the only one who knew him was Roy W7AZI.

The attendance at the February 9th meeting was, without a doubt the largest one of this year and the year as well. A count of noses showed 36 members and guests. We need more like this one.

The ten meter band has had some good openings lately and fifteen is doing fine also. On 20 a long path to Africa has been good for some at the right time. Stations in Mexico, Canada and Hawaii were heard on ten meters, with the usual pop into California.

BER, 1967

POETS RETREAT

Whatever happened to 29.6?
The frequency of, Club DK
683 sits on the shelf
and it's on all night and day.

Why a peep do I hear come out
That worn old speaker cone
I go on about my business
Doing odd jobs around the home.

Call C Q on my mobile rig
But do I get a reply?
I can bet your bottom dollar I don't
There's no R F in the sky.

(concl. next column)

So come on you silent Loggers

Cook those finals for awhile

Just push that button on your mike

The results might make you smile.

.....Emil K7GPK

BOARD MEETING 6-7-72

Meeting was called to order at 8:10 pm.

Chris WA7MJK reported that Western Union has surplus FAX machines available to all amateurs licensed as Technicians or higher grade. The procedure to obtain one is to call or write to Hap King W7QCV, 451-145th Place N.E., Bellevue Wa. 98007 and have him reserve a machine for you. He is representing the BEARS, who are the releasing agent for the W.U. surplus gear. The machines cost \$1.00 and you must sign a release from W.U., stating you will not re-sell the equipment. Only one per person is allowed.

Jerry W7BUN announced a meeting will be held in Seattle on Friday, June 16th at the Dog House restaurant, to organize a repeater advisory group for the Puget Sound area. This advisory group will be separate from the P.S.A.R.C.. He reminded members that ideas for a bi-centennial prefix (optional) are being solicited by ARRL.

There has been a challenge by our club to other area clubs for the highest field day score. The total score shall decide the winner, who will receive a trophy.

There will also be an intra-club competition. Suggestion is that the winning team is the one that surpasses the highest score attained in the past 5 years on the same band and mode, by the greatest amount. The field day chairman is authorized to work out the details and arrange for award (s).

Kent WA7NVX, F.D. Chairman announced there would be a work party for F.D. on Saturday, June 10th starting at 9.00am. There is \$45.00 in the F.D. fund. Roy W7AZI will again do the catering.

Ethel W7WLX announced the MINOW picnic will be held Sunday, June 18th at the club house. She expects an attendance of around 40 YL's.

Emil K7GPK has agreed to mow the lawn with the

donated lawn mower by Bob Weightman. A work party will meet at the club house on Saturday, June 17th to clean it up for the picnic, the next day.

Joe WA7RWK reported that the tower lying on the lot, should be bound together to prevent vandalism.

Ethel W7WLX reported that Dewey Wilson W7HF, has invited members to a picnic on August 6th at his Hood Canal place. There will be no local picnic this year.

Antenna parties for F.D. are scheduled for June 10th and 17th.

Joe WA7RWK expressed concern about the state of dis-repair of the windows in the meeting room and asked for help in boarding them up to secure the building.

Dennis W7UBA urged action on the foundation. Joe agreed to get estimates from contractors for the job.

Meeting adjourned.

Respectfully submitted,

/s/

E.H. Burton W7SF (Sec.)

CLUB MEETING 5-24-72

The regular meeting of the RCT was called to order at 8:05pm., May 24, 1972 by President Len Goodwin with members and guests standing and pledging allegiance to the flag.

Visitors introduced were:

Dick Yager W7IOB

Dave Martin

Rick Noll WA7IHA

Clay Freinwald, Chief Engineer KMO (guest speaker)

Scotty K7CYZ reported that Dave Noonan is in the Allenmore Hospital, in isolation ward. Expect to be home this week-end.

Treasurer's report:

Bill for postage of 96¢ ordered paid.

Dennis W7UBA reported that the Ham Fair plans are progressing well. Jerry W7BUN has sent a letter to various publications, notifying them of the Fair.

Mother's day breakfast report:

Net profit of \$3.00 was made with 48 plates of ham, bacon and eggs served. There was a record turn-out this year. Dennis W7UBA proposed a resolution, commending the cooks.

Joe WA7RWK reported a work party will be putting up sheet rock this Saturday.

Jerry W7BUN, representative to the PSCARC, announced facsimile machines are available from Western Union. Contact W7QCV, WA7LWP or K7QXL. He also advised the W7DK's suggestion that the bicentennial optional prefix 2C, be adopted for

(cont. next column)

use in 1976, has been rejected, since this prefix is assigned to the UK. The new ARRL film on Ham Radio activities was shown to the club.

The auxiliary announced the June meeting will be held June 13th at Jill Anton's QTH. Ice candle making was the program at the last meeting.

Chris WA7MJK reported he had received two awards from ARRL for Chip K7VPF, for his outstanding performance in the SS contest.

Unfinished business:

Scotty K7CYZ reported the fishing trip scheduled for August 26/27 is confirmed. Ralph W7COP is taking reservations at \$5.00 down by July 1st. Total cost of the trip is \$17.50.

A BFL certificate was presented to the club.

Doc W7OS reported he had made a request from Navy MARS, 13th district for the PA systems, reported available. He was informed there were none available at present but that we will be put on the list, to receive them as soon as available.

Ten letters were sent out to former TARS members, offering remission of dues in RCT. Two applications have been received.

Field Day:

Kent WA7NVX announced that work parties are set for June 10th and 17th at the F.D. site. Joe W7IC has been notified. No guns or dogs are allowed on the site. The variacs are still missing.

Future Programs:

June 14th will be Field Day plans.

June 28th--DX pedition to the Caribbean.

Jerry W7BUN announced a delegation from the Puget Sound Council met with Governor Evans on May 23rd, on the occasion of the signing of a proclamation designating the Amateur Radio Week in Sept. The Governor expressed his appreciation for the volunteer work performed in the national interest by radio amateurs. Representing W7DK, besides Jerry, was Doc W7OS.

A Motion was made by Dennis W7UBA that the Board of Directors be directed to proceed with construction of the club building foundation, with all possible speed. Seconded by George VanKleek, WA7CSF. PASSED unanimously

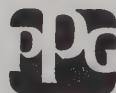

Future activities:

Rock-hunting party is being held east of Lebanon Oregon in June 3rd and 4th. All agate buffs are invited.

Wenatchee Valley Amateur Radio Club Hamfest June 10th/11th.

QCWA meeting in Victoria June 10/11.

CLUB MINUTES 6/14/72

(Not approved at press time)

The regular meeting of the RCT was called to
er at 8:00 pm. on June 14, 1972 by President
Goodwin, with members and guests standing and
dging allegiance to the flag.

Visitors introduced were:

n Chestnut

Seligman WN7IVE

n Moberg

e Martin

k Schoak K7GGD

Hank W7UD was reported sea-sick on a boat trip
California.

"Pinky", XYL of Hunt WA7AKW, is laid up with a
ctured ankle.

Dave Noonan is home from the hospital and do-
fine.

Introduced, by Ethel W7WLX, were June WA7FRM,
OM Ken WA7FRO and daughter Joan, from
ville. June is the new President of Minows.

Volunteers were called for to clean up the club
se and grounds on Saturday, in preparation for
MINOW picnic, to be held Sunday.

Jerry W7BUN announced the FCC decision on the
eater proposal is held up for several months.
reminded the group of the meeting of the re-
ter advisory group this Friday evening in
ttle. He said the "Field Day Club", in Port-
d, offered to challenge W7DK in the field day
test. It was ruled by President, Len, that
llenges would be accepted only from members of
Puget Sound Council, the winner to be the club
n the highest total score.

Ham Fair Chairman, Dennis W7UBA, reported he
Emil were both in attendance at the Ham fests
Menatchee and Yakima and that interest in our

(cont. next column)

Fair, was growing. On the program are talks on
facsimile machines and also on SSTV. Dennis asked
for suggestions for specific activities or on
talks on subjects of interest to hams.

W7OAK, Don Jacobsen, is going to give a talk on
the Magnum 6, RF speech processor.

Doc W7OS passed around some recent photographs
of hams and ham shacks, which will go in the
historical album.

He announced that Roy Devish W7AZI is now
chairman of the N.W. Chapter of QCWA.

Jill Anton reported for the auxiliary. The
girls had a cotton (rag) picking party during the
last week. They get 30¢ a pound for cotton rags
and need another 50 pounds. Jill requested calls
after 6:00 pm and she will make arrangements to
pick them up. They are also planning a beauty
contest at the Ham Fair and will meet August 2nd
for this purpose.

Under unfinished business, Dennis W7UBA Moved
that we pursue and obtain bids from commercial
firms for the building foundation, select a con-
tractor and oversee the construction of the
foundation. Seconded by Bill K7VQM. Don WA7PIN
noted, we previously had a bid of \$1000.00 or
\$1200.00. Motion PASSED unanimously.

Under Novice training, Charlie WA7QYI, re-
ported he had passed his 3rd novice.

Jerry W7BUN noted that ARRL dues go up on July
1st.

Under new business, Jerry W7BUN, volunteered
to be chairman of the Puyallup Fair booth this
year, again, because of its success last year.

There was some discussion regards the chain a-
cross the road entering the parking lot. Charlie
said he would provide a post-hole digger.

Charlie WA7QYI was presented an award from ARRL
for winning the SS contest, Washington Section, in
the Novice class by President Len.

Membership certificates were presented to six
new members.

Jerry W7BUN said the ARRL has \$400.00 in a fund
to provide ARRL memberships to needy hams. They
requested names of any prospective candidates.

Chip K7VPF was presented certificates for
winning the SS contest in both CW and SSB modes.
Both awards were for attaining the highest scores
in the country. Awards were presented by Presi-
dent Len.

Pictures were taken of the out-going and in-
coming Presidents of the MINOWS (Ethel & June) by
Dick W7RGD. Pictures of Charlie and Chip being
presented with their awards were also taken.

The applications for membership of Phil Allred
WN6QZE and Michael Deal W7IYH were read and
approved.

Coming program: W7VRO and the Bellingham group
with pictures of their recent DX-pedition to the
Caribbean.

(concl. next page)

Minutes (concl.)

Meeting adjourned followed by plans for field day discussed and Chip K7VPF gave some valuable hints on how to win contests.

Respectfully submitted,

/s/

E.H. Burton W7SF (Sect.)

SLIVERS & SPLINTERS

Congratulations to Joe Winters Sr., who made the big trip to Seattle FCC and passed the exams. Dropped the 'N' and now WA7RWK!

Congratulations to Roy W7AZI on his election to office with the QCWA.

Hunt Mitchell's XYL 'Pinky' back from the hospital after suffering an injured ankle.

Jerry W7BUN's number one harmonic, Ken, at the club meeting displaying his newly acquired call WN7TVE. Don't know who is prouder of the new license, Jerry or Ken.

A Motion was made and PASSED at the June meeting to get on with the business of getting a new foundation under the club house.

Ralph W7COP advises the deadline for signing-up for the Westport fishing trip is coming up soon so if you plan on reserving a spot on the boat, better get in touch with him.

Merl & Margie (W7IKG & K7AMJ settling) down from their 25th anniversary celebration. From what was heard, I guess they agreed to try another 25 years.

Jerry W7BUN and Len WA7HHI getting ready for a 5 minute spot on channel 11 to advertise field day with host Don St. Thomas. Gene W7FTV will be there behind the scene, running audio gain on Jerry and Len.

Bob K7IND on vacation but hopes to get back so that he can participate part time on field day.

See, Emil K7GPK back from Reno. Didn't see a new Cadillac but he sure has a satisfied smile.

Patty K7NQR overheard on two meters in qso with Scotty K7CYZ. They were discussing the club picnic and outing coming up soon. Patty has the arrangements all set up and an announcement on dates and the location will be made at the club shortly, I'm sure.

The Tacoma repeater has been on the air for a couple of weeks now and no troubles so far. The frequencies are 340 in and 940 out with a 2100 cycle note to activate the system.

Otho K7ATD out trying out his new trailer. Had some troubles with the brakes. Working too good!

Dave W7QFR back on 2 after a short go at the hospital routine. Good to hear you again Dave.

Don't forget the Ham Fair is coming up soon! Start talking it up, when you are on the air or having an eye-ball qso!

K7VNI PRESENTING AWARD TO W7OS

COMING PROGRAMS

JUNE 14TH
Final plans, preparations and strategy for field trip will be discussed.

JUNE 28TH
Three members of the Mount Baker Amateur Radio Club, in Bellingham, will present their films of last year's DX-pedition to the Caribbean Islands. This will be an outstanding program and has been viewed by the Western Washington DX Club and has been highly acclaimed.

WESTPORT FISHING TRIP

The date is confirmed. Aug. 26th and 27th at Mr. Burton's ocean retreat. The charter boat is reserved for Sunday, August 27th. If you are planning on fishing this year, call Ralph W7COP before the 1st of July and place your \$5.00 (cont. next column)

reservation fee with him.

Some of us will be going down on Friday evening the 25th. The place will be open so if anyone wants to go Friday it's OK. You don't have to go on the charter boat, fishing.

This is one of the "Fun Weekends", the Radio Club of Tacoma is planning for this summer. Don't miss this one. We will have a BALL!

AMATEUR WEEK PROCLAMATION

BY W7BUN

In a brief ceremony at his office in the State Capitol, Governor Daniel J. Evans signed the proclamation declaring the week of September 10th to 17th as Washington State Amateur Radio Week.

Attending the signing were: Doyel Burleson WA7HKD President of the Boeing Employees Amateur Radio Society; Pat Miller WA7GVB representing the women operators of the State; Bob Thurston W7PGY Director of the Northwestern Division of ARRL; Bill Tueminen WA7KKC, who provided outstanding emergency communications during the recent Vancouver tornado; Doc Spike W7OS, recently voted the Ham-of-the-Year for providing 56 years of service to amateur radio; Jerry Seligman W7BUN Secretary of the Puget Sound Council of Amateur Radio Clubs and Norm Ray, representing the Skagit Amateur Radio Club.

The Governor expressed his appreciation to amateurs over the State for the services provided during emergencies and disasters and especially during the Vancouver storm. After being told that Doc had been licensed for 57 years, he remarked on the fantastic evolution of radio equipment over that period. Jerry presented an honorary certificate of the type issued by the Puget Sound Council of Amateur Radio Clubs, each year during Amateur Radio Week. The Governor laughed at the fact that the signature on the certificate was his own, even though he had never seen it before!! (The certificates are printed by the State for the Council).

LADIES AUXILIARY NEWS

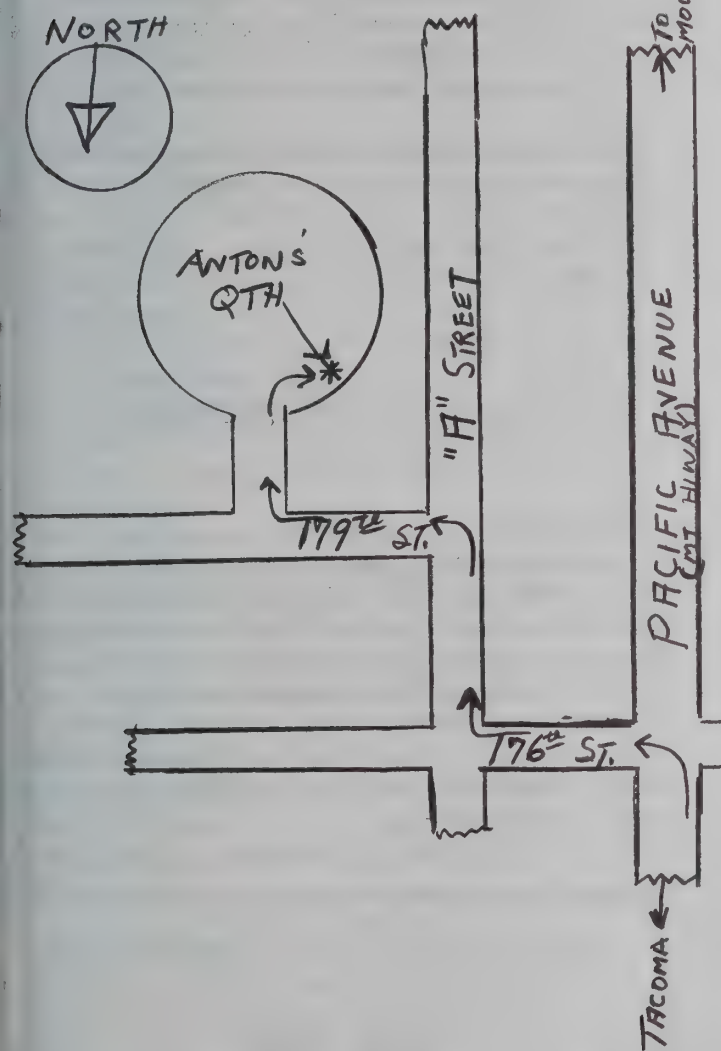

by Rene Smith

We had another great Auxiliary meeting, making ice candles. Thanks to Diane Salatino and Jill Anton. We all went home with such beautiful candles. (Scented, no less) You gals, that did not show up sure missed a lot.

We've changed the time and place for the June meeting. We will meet at Jill's K7KSD, Tuesday, June 13th at 7:30. Helen Asplund will be co-hostess, so we will really have something yummy to eat. Bring all of your cotton type rags. This is a good money making project. Anyone who has rags but can not make it to the meeting, call any officer and we will make arrangements to pick them up. Let's have a good turn out.

We will be making plans for Field Day food. This will be the last meeting until Sept. Please call if you need a ride. See you there.

(Please note map included for directions to get to Jill's QTH.)

To get to Jill Anton's QTH, go out Pacific Avenue (Mt. Highway) until you reach 176th. Turn to the left and go to the next intersection which is "A" street and turn right. Go to the next street (179th) and turn left. Go to the next intersection and turn right into the 1st. Avenue circle and Jill's QTH is the first house on the right.

ROSTER CORRECTIONS

Last month was a good one for signing up new members. A few of them are from the former Tacoma Radio Society. We are very glad to see them join the ranks of DK. Welcome aboard to all new members.

Please add their names to your roster book on pages 4, 15 and 16.

ARRL NEWS IN BRIEF

By W7BUN Asst. Director

Last month's column contained a typographical error. It mentioned that the IRS claims the League owes \$200.00 for taxes for 1968 and 1969. The correct figure should be \$200,000.00.

Don't forget to renew your ARRL membership NOW. The dues go up to \$7.50 after July 1st. Better yet, sign up for life membership for \$130.00 (payable in eight payments of \$16.25 if you wish); after July 1st the rate will be \$150.00.

The Academy of Model Aeronautics has petitioned the FCC to relax certain amateur rules which apply to radio control model flying. They request that when amateurs are using frequencies above 50.1MHz and less than 3 watts pwr that call signs not be required, notice of portable operation not be required and log entries need only show starting and ending times rather than each transmission.

Petition RM-1959 asks the FCC to grandfather general class operators as well as advanced class operators to extra class, provided the operator has been an amateur for over 40 years or has reached 60 years of age.

Projected estimates of FCC action appear as follows: June 7, Docket 18803 (VHF repeaters) mid or late July, Docket 19162 (phone band expansion); around mid August, Docket 19245 (the eyebank matter); and around the first of September, the FCC's call sign proposal.

The League now has 1665 paid up Life Members and an additional 1235 signed up on the installment plan.

BOARD MEETING 4/5/72

The regular meeting of the Board of Directors of the Radio Club of Tacoma, Inc. was called to order April 5, 1972 at 8:11 p.m. by President Len Goodwin WA7HHL.

The minutes of the last meeting were not available for reading.

George VanKleek WA7CSF will send membership applications to the former TARS members. Dues will be free for the first year of membership.

Roy W7AZI, Scotty K7CYZ and Smitty K7ATD will take care of communications for the Gardners of Paradise program this year.

Joe W7RWK, building committee chairman, said that after the upstairs is complete our next priorities should be the windows and the back steps.

It was the opinion of the Board, that the Club should not accept the offer of a certain repeater to be used as the Radio Club of Tacoma's 2 meter repeater. It was felt that since this particular repeater would not be in the full control of the Club, that our best interests would not be served. However, the offer was appreciated.

Jerry W7BUN is helping Dennis W7UBA with
(cont. next col.)

Board meeting (cont.)

advertising for the Hamfest. There are still many other Hamfest jobs available.

Kent WA7INVX, field day chairman, discussed band assignments.

Dennis W7UBA suggested that Chip K7UPF be asked to go over the WF7ARW QSL cards and apply for the awards, for which we qualify.

Dick Ryan W7RGD reported that our newspaper The Loggers Bark, has more than paid for itself. He also described the various assets of the paper.

Doc W7OS has agreed to contact those members who have not paid for their dues this year.

There was a discussion about the length and content of the regular meetings. Some felt that the meetings are too long.

A suggestion was made that new members be voted on at the beginning of a meeting, rather than at the end.

Nick Winter WA7IVO stressed the importance of the need for club members to be more friendly to our visitors and new members. We are losing them.

It was also suggested that we have a changing of officers ceremony at the first meeting in January.

We were reminded that Mother's Day is near and that we will need to be planning for our annual breakfast.

There being no further business, the meeting was adjourned.

Respectfully submitted,

/s/

Chris Jensen WA7MJK

Acting Secretary

CLUB REPEATER

Steve K7SSC reports that he has a receiver and transmitter just about ready to go. A small problem with the power supply but should have it going soon. Don't confuse this with the Tacoma repeater on 34-94. The one Steve is working on is The Radio Club of Tacoma repeater.

Steve also reports that the handy talkies are progressing, but slow. Some problem with modulation. He has some assistance on this now and should have it whipped soon.

CLUB MINUTES 4/26/72

The regular meeting of the Radio Club of Tacoma, Inc. was called to order at 8:05 p.m. on April 26, 1972 by President, Len Goodwin WA7HHI with members present standing and pledging allegiance to the flag.

Treasurer's report:

Savings account	\$1143.07
Checking account	221.37
Building fund	245.34
Field day fund	28.00

The Treasurer announced that the donation by TARS totaled \$282.98. Property taxes of \$3.21 were paid under protest.

Doc W7OS reported that he has been presented with the minutes and club information of the Tacoma Amateur Radio Society.

Our annual Mother's Day breakfast will be on Sunday morning, May 14th.

Scotty K7CYZ requested volunteers to help with P.A. systems at the Gardners of Paradise program on May 6th and 7th.

Congratulations to Chip K7VFF, the winner of 1st mode in the Sweepstakes Contest. His picture is in the May issue of QST.

Doc W7OS announced that he received, from Mrs. Julian Moe, Ed Moe's widow, a full page newspaper article on the Radio Club of Tacoma, dated January 21, 1972.

Candles will be made at the next meeting of the Ladies Auxiliary.

A motion was PASSED to allow surplus insulation in the Club's building project, to be sold at auction to a club member.

A letter to the News Tribune editor by W7UD describing the service of amateurs during emergencies was read.

Steve Dightman K7SSC has been working on the 20MHz handy-talkies. He hopes to have one operating for the next meeting.

Jerry W7BUN reported that many of our members attended the Skagit Valley Hamfest.

Kent WA7NVX talked about field day plans. There will be a contest for the best station sign at the field day site.

There being no further business, the meeting was adjourned at 8:45. We then enjoyed an informative program on MARS, presented by Doc W7OS and Chris MJJK.

Respectfully submitted,

/s/

Chris Jensen WA7MJK

Acting Secretary

CLUB MINUTES 5/10/72

The regular meeting of RCT was called to order at 8:00 pm., May 10 by President Len Goodwin, WA7HHI, with members and guests standing and pledging allegiance to the flag.

(cont. next page)

Minutes (cont.)

Visitors were introduced as follows:

Mel Tempelman	WN7TEC
Edward Johnson	WN7INN
Jack Reich	WA7CDT
Rich Nell	WA7IHA
Dick Yager	W7IOB
Bob Crawford	

Reported sick were:

W7UD Hank

Dave W7OGP had a stroke two weeks ago, home from hospital and progressing.

Otho Smith's daughter home from hospital.

Treasurer's report:

Savings account	\$1043.07
Checking account	206.16
Building fund	245.34
Field day fund	34.86

Bills for oil (\$32.14) and light (\$28.38) were presented and ordered paid.

Dennis W7UBA reported on plans for the Hamfest. Four technical displays have been arranged for. He asked for suggestions from members as to projects for the event. Volunteers thus far are Joe Winters (directional maps), Scotty (transmitter hunts), Jerry W7HDG (golf tournament), Jerry W7BUN (publicity), Emil K7GPK (reservations) and Bob Weightman (signs). The auxiliary has plans for a beauty contest, among other events for the ladies.

Jerry W7BUN announced a meeting with Governor Evans on Tuesday, May 23rd, for the signing of the proclamation for Amateur Radio Week during September 10th through the 17th. He also announced the Yakima Hamfest to be held May 21st.

Field Day chairman Kent WA7NVX made an appeal to all members to pitch in this year to put W7DK in the lead. There followed an enthusiastic discussion on ways and means to stimulate competition for high scores; action was promised at the next meeting.

Novice training.

Charlie Millhan's group has two successful licensees; Don Grant's group has three.

The President read a letter from the Park District, thanking the club for participating in the Gardeners Paradise Day's program.

The charter boat fee for fishing at Westport will be \$17.50 this year.

Scotty announced the Mother's Day breakfast will be held as usual from 8:00am. to noon.

Jill Anton announced the next auxiliary meeting.

Dennis W7UBA announced that Steve K7SSC has a transmitter/receiver operating on 450MHz. using walkie-talkie equipment.

Roy W7AZI said Al Stenso, one of the two original officers of the club, had visited him yesterday. Al is 81 years old.

Under new budiness, Ethel W7WLX announced that Greta Warburton's cottage at Westport would be available again this year for the club picnic but the dates would have to be changed. Scotty said he would contact Ralph to arrange a date for the charter boat.

Future programs.

Charlie suggested a program on public services rendered by hams.

Scotty inquired about the PA systems used by MARS - the TIQ/3 and TIQ/2. He said he wanted to get two for the club.

Dennis announced that a Tacoma repeater fund had been established. Its address is:

Tacoma Repeater Fund

P.O. Box 9305

Tacoma, Wa. 98409

Under tuning and traffic it was announced the Young Republican Convention had passed a resolution, commending the Amateur Radio Fraternity.

Two new applications for membership were approved: Wilbur E. Smith and Frank Emigh W7YDS.

Meeting was adjourned at 9:20 pm.

Following the meeting a very interesting program was presented on the subject, "The Use of Electronics in Aviation" by Mr. Jack Reich, General Electronics Inspector, F.A.A..

MOTHER'S DAY BREAKFAST

We served 48 plates full of hot cakes and eggs for the 1972 Mother's Day breakfast. That is very near, if not, a record for this annual affair. Sorry we couldn't present each mother with a corsage, as we have in the past but you caught us with our flowers down. The Lilac center pieces were beautiful, so we did have flowers.

We won't list all the help we had, because each man was supposed to wait on his mother (or wife), but we do have to commend the kitchen crew! Smitty K7ATD (pinch cooking for Roy this year) on hot cakes, Scotty K7CYZ on bacon and eggs, Paul W7ESD in the dishpan and Bob Crawford on cleaning and dish towel.

We will also commend but not list, the cleanup crew, who turned out Saturday. The club house looked real nice.

Smitty K7ATD, Civil Defense Radio Officer reports that the C.D. Bus was called out on a 211 fire, an apartment fire at 406 South Cushman. Mel K7ATF drove the bus and Smitty responded from his QTH in Lakewood. Several members report in by mobile and some stood by on 146.76 base. other civil defense activity for this month....

SLIVERS & SPLINTERS

The N.A.R.C.S. are having a blister raising party on Capitol Peak. Seems they have to dig a ditch 2 feet deep and several feet long to bury some electrical cables for the repeater. Happy blistering fellows.

Merl W7IKG and Margie K7AMJ should have an interest in one of the banks in Reno by now. Happy fun kids but leave some for Verna Ryan and Em K7GPK.

Marv Wheeler WB4JBS is now home from Viet Nam and is stationed in Georgia. Marv and XYL Jerry WA7OII/4 will be looking for W7DK during field day this year. Marv was recently accepted as a Life Member of the ARRL.

Joe Winter W7RWK and Jerry Seligman W7BUN will be sporting new Advanced class tickets, hopefully in time for field day. Jerry's son Kenneth was one of several, who successfully completed the club's Novice training classes. OM has a DX-100 and a SX-100 ready for Ken---just won't let him near that KWM-2!!!

Emil Koth K7GPK hasn't decided whether to put in for an additional station license for Reno, or just join "Gamblers Anonymous". Sure gives the mobile rig a workout going back and forth!

Mike Deal W7IYH (ex/K7GCK) back after only one day at the Yakima Hamfest. Was it the rain or the thunder that scared you off, Mike?

John Austin K7CZF taking up residence in new QTH.

A big thanks to Joe and Helen Asplund for their offer of the use of their QTH for field day and the donation to the Loggers Bark.

Max Bice W7AEA and Gene Dodge W7BTV getting ready to operate from their boats during field day

MR. CLEAN

(cont.)

W7AEA

The Radio Club of Tacoma and the Northwest Chapter, Quarter Century Wireless Association are both very proud of one of our members, who has just received great recognition for his ability in the field of television and radio broadcasting. Our own Max Bice W7AEA, a long time ham, is a graduate of the University of Washington Electronics Department, with much experience both in technical and administration fields has been chosen as Chairman of the "National Association of Broadcasters". A honor never before bestowed upon an independent station affiliate. He was installed at the NAB Convention in Chicago, April 14, 1972. Term is one year.

Max has held all offices and has been a member of the board of the Radio Club of Tacoma, which is the oldest Amateur Radio Club in America.

He has been President of Kiwanis, Chairman of the Greater Tacoma Daffodil Association, active in communications of the Tacoma Tribune Publication Company. (Besides being General Manager of KINT)

Mr. Bice has been described as "TV's Mr. Clean"

(cont. next col.)

but we of the Radio Club of Tacoma and Northwest Chapter QCWA hold that Max Bice is a wonderful, typical ham and very deserving of this honor, that we expect that if those Easterners find out how really efficient Max is - he may be called to even greater responsibilities.

Congratulations Max!

..... Doc W7CS

COMING PROGRAMS

MAY 10

Mr. Jack Reich (pronounced Rich), General Electronics Inspector, F.A.A., will tell us about the electronics on the airliners and other aircraft. You may recall Mr. Reich and his wife showed some Alaska earthquake slides about 4 years ago. This program promises to be "uplifting" as well as informative.

MAY 24

Broadcast Engineering Basics, like audio and field strength and FCC requirements will be presented by Mr. Clay Frienwald, Chief Engineer of KMO. Remember the old song, "The Music Goes Round and Round and it Comes Out Here"....

GARDNERS OF PARADISE

W7CYZ

Saturday and Sunday (May 6th & 7th) is Gardners of Paradise Days. This year the theme is "Down to Earth".

The Radio Club of Tacoma will man the P.A. system, as usual.

The activities will start Saturday at 2pm at both locations. One at the shell in the pond area and the other at the open air stage in the picnic area. The flower show, in the pagoda, will be open from 12 noon until 5pm.

Sunday the band will begin at 1pm and the entertainment at the picnic area will start at 2.

Visit us at the Gardners of Paradise "Down to Earth" flower show, Point Defiance Park May 6 & 7.

AUXILIARY NEWS

by W7WLX

Some of us have a new attractive string o beads, thanks to Helen Spike's lesson in April.

This month-May 17th- we will learn candle making with Diane and Jill as our teachers. Those interested in completing an ice candle, should bring any long tapered candle and a one-quar milk carton or whatever item they would like to use for a mold. Jill will furnish candle wax coloring, scent and ice.

The Auxiliary has been asked to help with entertainment for the xyls and yls attending the August Hamfest. Bring ideas to the meeting.

In June, we want to collect your throw-away cottons and we will work on removing buttons zippers and trim while we discuss Hamfest and Field Day plans.

SWAP COLUMN

2-6-10 meter converter. RME 152A. Oldie but goodie. 7MHz output. Swap for something that takes less storage room. Every ham should have one to impress visitors to his shack. Also excellent for museum. Contact W7UD.

 . Jim Grinton K7VNI
 . Jerry Selligman W7BUN
 members of the Radio Club of Tacoma

Dear Friends:

Words can not possibly convey me deep appreciation for the expression of freindship, confidence, honor and amateur fraternalism you have expressed in your presenting to me the beautiful engraved plaque "The Ham of the Year 1971" award at the Radio Club of Tacoma meeting on April 12, 1972.

I must confess I could not suppress a feeling of being inadequate as I listened to the kind words of Mr. Jim Grinton, K7VNI representing the get Sound Council of Amateur Radio Clubs, as he presented me with this beautiful plaque and the pouring of confidence in the standing ovation of the members of my Radio Club of Tacoma.

I am grateful to Mr. Jerry Seligman, W7BUN, who ably represents the Radio Club of Tacoma and my many friends in the Council and all the amateur radio clubs, represented in the council.

Your confidence will serve to stimulate and encourage me to try to do more to further amateur radio. Thanks.

73, Doc W7OS

(F. Clifford J. Spike, DDS)

ARRL NEWS IN BRIEF

W7BUN Asst. Director

The Internal Revenue Service claims the League owes over \$200.00 for 1968 and 1969 on the basis that sales of ARRL publications constitute a business unrelated to the basic purpose of the League. Meeting with IRS in Washington is being requested in order to settle this matter.

William I. Dunderley, Jr., WA2INB, will succeed Bird Campbell, W1OUT, as managing editor of QST, effective May 1st.

FCC has received a petition (RM-1947) to limit General Class voice operation to 250 watts on 75, 40 and 20 meters.

(cont. next column)

QST will continue to publish annual articles listing sources of radio components for those who build their own equipment and find such parts increasingly difficult to obtain.

The 1971 Sweepstakes score of the Mad River Radio Club has been disqualified by the Headquarters Awards Committee and the Communications Manager, since they didn't meet the criteria of an affiliated club.

FCC Chairman, Dean Burch, in testimony before the House Appropriations subcommittee in March, asked for additional funds to set up two mobile teams to go after violators in the citizens radio service. Each team will consist of 8 engineers and two clerks and travel to widespread areas, where abuse of the rules is prevalent. Also proposed, is a system of mandatory automatic call sign identification and an examination on the rules as a pre-requisite to obtaining a CB license. Prohibition of the advertisement or sale of amplifiers to increase power above the 5 watt legal limit is also planned.

FIELD DAY 1972

By WA7NVX Chm.

This year, at Field Day, I would like to see a few changes in our policy. Our club score, for the last few years has been going DOWN DOWN DOWN..

I think it is about time to go out and have a REAL contest, instead of a picnic, like we have been doing the last few years. If you want to have a picnic, then let's leave the radio gear at home!

Our club has the potential of winning but it's going to take some effort to do it. With the number of members we have, we should have people fighting to operate but instead, you can't find enough members to fill the positions we have.

I want to get the people that have been on the same band, year after year, to get off that band and try something new. Take a less popular band and/or CW for a change. I will be the first one next year to take the least popular band and/or a CW mode.

Remember SS? The BEARS beat us! So let's show them and the whole country that we can win...

CLUB MINUTES 3-8-72

The regular meeting of the Radio Club of Tacoma was called to order by President, Len Goodwin at 8:00pm., March 8, 1972 opening with the pledge of allegiance. There were 37 members present.

Visitors introduced by Ethel Devish, W7WLX, were Jim Sutton WA7PHD, Leslie Heplin WA9COZ and Hal Stahlhut K7ODC.

TREASURER'S REPORT:

Savings account.....	\$1001.58
Checking account.....	275.87
Building fund.....	117.91
Field Day bank.....	9.70
Total	\$1405.06

A bill for oil for \$44.86 was presented for payment. It was Moved, Seconded and passed to pay the bill.

NOVICE TRAINING. W7UD Chairman

Volunteers were asked for, to coach novices in upgrading their licenses.

PROGRAMS. W7UD Chairman

Hank announced the program for the next meeting would be "Antenna Tuners" by Hank.

Suggestions were solicited for the April programs.

HAMFEST. W7UBA Chairman

Dennis announced plans are progressing and we have a firm commitment from the Sportsmans Chateau for the use of their facilities on August 19th and 20th and the night of August 18th. (Friday) \$50 dollars for use of the hall.

Catering will be provided for by the Chateau. Meals will cost slightly less than the last Hamfest. Seating is available for 500 at one time. We have a verbal commitment by the Chateau to allow us to use the kitchen for a pancake breakfast at \$5.00 per hour.

Several people have already been chosen for different tasks.

Dennis read a letter from Director, Bob Thurston, W7PGY addressed to all affiliated ARRL Club SQM's and SEC's in the Northwestern Division, advising them of the cancellation of the 1972 Divisional Convention in the Tacoma area. The Director will advise their clubs and officers

(Cont. next column)

about the Tacoma Hamfest in his next newsletter.

BUILDING COMMITTEE. WN7RWK Chairman.

Joe announced that Merl W7IKG will do the texturing and taping of the sheet rock, this week following its installation by Emil for this Saturday.

AUXILIARY. WA7KSD Chairman.

Programs: March 15th. Ethel W7WLX; "Gorgeous Natives of the Antipodes" with slides. March 23. Pot Luck Dinner at Club house 6:30pm. Skating Party 7:30pm. April.. Crochet and beads by Mrs. Helen Spike.

BUSINESS:

Charlie Milhans WA7QYI announced he expects a verification from Barry Goldwater soon, as to his availability, as a speaker to the area hams in June.

Doc W7OS has another album (nr. 7) ready for inscription of pictures of W7DK members ham shacks. He also announced his friend, Walt King W7ETK, in St. Charles, Mo. is looking for contacts with members on Saturday mornings, 10:00am on 21.290MHz. Dr. Milton Durham W7AQQ, a thoracic surgeon in Spokane and a former Club member (ex-W7IVV) in on 3950KHz. Saturdays at 9:30pst. He has agreed to provide his shack picture for Doc's club history.

Jerry W7BUN announced the annual banquet for Saturday, March 11th with 60 people already signed up. He also announced a "bunny hunt" by the PSARC to be held Saturday March 25th at 10am., starting at the White Front store in Bellevue. Sponsor: Lake Washington ARC. Frequency: high end of 3.5MHz band.

Bob K7IND reminded all members to post their QSL cards on the display board.

Nick WA7IBO announced the winners of the contest for an appropriate caption for the "20,000 mile South Pacific Tour" by Roy and Ethel Devish, which was so colorfully presented at the previous meeting. Runner up was Len WA7HHI with the title, "See that Car"; the grand prize went to Doc W7OS, who came up with the title, "Gorgeous Natures".

Doc announced that Henry Gepke, WA7HFG, will be in town tomorrow night visiting Doc. Henry also promised to attend the banquet. He is still very active on the Post Office Net, on Wednesday at

(cont. next page)

Pd Adv.

Minutes (cont.)

00pm on 3.920MHz. He also read a letter from a in Arizona requesting code tapes and enclosing CO.

Dennis W7UBA visited the P.C. Equalization and was given forms to fill out protesting tax assessment on the club house property. Deadline for filing protest for second half taxes July 15th. He suggested writing "Paid under protest" on the first half tax check. President will see that forms are completed and filed.

Jerry W7BUN wants the BPL certificate, won at Western Washington Fair station, suitably matted. Tom Kelch, WA2NPC/7 (currently WA7TAD) needs to have it framed. Jerry also announced tickets for the Skagit Valley Hamfest in April are now available.

Joe W7RWK requested volunteers to help clean the upstairs floor following completion of the ventilation installation this Saturday. A pick-up truck would be most appreciated.

BUSINESS

Jerry W7BUN announced that an ex-club member, Dane, was a key figure in a mission of mercy recently. While working the MARS net in the Pacific, Wayne copied an SOS from a Colombian station, requesting blood for open heart surgery. Through his efforts, the blood was supplied by the Army in the Canal Zone. (See article in last month's Bark)

Dennis W7UBA appealed to the auxiliary to conduct a club survey, requesting information on member stations. They have taken the request under consideration.

Doc W7OS was called by the publicity department of the Tacoma Public Library (Miss. Olson) asking the names of the club's officers for 1972. The library has been placed on the mailing list of Loggers Bark.

Don WA7PIN made an appeal for donations of gear suitable for novices, who are unable to afford it. Dennis W7UBA announced an antenna party at his house for this Saturday. Refreshments are guaranteed.

MAILING & TRAFFIC

Merl W7IKG announced that Bill Rohrer W7ZFY (VK4WR) is being stationed in Hawaii and is applying for a KH6 call. He says "some rare DX will be coming up next winter and spring".

There being no further business, the meeting adjourned.

Following the business meeting, Paul Anton presented a most professional talk on the production of printed circuits by photographic techniques. This method of unit construction, in which the "wiring" is done before installation of components, is indeed superior to the traditional method of construction, insofar as ease of replication is concerned. Mastery of the

(concl. next column)

Minutes (concl.)

technique, as always, remains the critical factor.

Respectfully submitted,

/s/

E.H. Burton W7SF (Sec.)

CLUB MINUTES 3-26-72

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm., March 22 by President, Len Goodwin WA7EHI, with members present standing and pledging allegiance to the flag.

Since the Treasurer was ill, there was no report.

It was reported that our property taxes have been revised downward for 1973. George Abbott WA7BHH has been given the job of filing forms for protesting our 1972 taxes.

Dennis W7UBA suggested that an appraisal of our property might help us get a lower tax assessment. A Motion to allow the club to pay for such an appraisal was defeated.

Jerry W7BUN reminded us of the Skagit Valley Hamfest. He has tickets available.

NEW BUSINESS

Hunt WA7AKW asked for donations of usable equipment to help get a ham station started at the American Lake Veterans Hospital.

Jerry W7BUN asked for those who would volunteer to be listed with the FCC for giving Novice and Technician tests. Those who volunteered were: Dennis W7UBA, Doc Spike W7OS, Jack Hills K7SRU, Bob Gates K7IND, Emil K7GFK, Oliver Larson W7WIA and Hank W7UD.

Hank W7UD announced that the first program in April would be a debate concerning the pros and cons of ARRL. Doc W7OS warned that such a debate could have harmful effects.

Dennis W7UBA requested volunteers to help with the coming hamfest. There are many jobs and projects for the hamfest, which need your help.

COMMUNICATIONS:

A letter from Dave Dohr K7BCL was read to the club. He coordinated the donation of funds and equipment of the Tacoma Amateur Radio Society to our club. A delegation and a letter from our club will be sent to Dave, thanking him and the TARS for the generous donation.

Charles Milhans WA7QYI announced that Barry Goldwater will not be able to meet with us this June.

Joe W7RWK, building committee chairman, re-

(cont. next page)

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

ported that the insulation is now complete but that more sheet rock still needs to be installed.

The Auxiliary reminded us of the coming Skating Party and pot luck dinner.

Volunteers are needed for Field Day!

Otho Smith K7ATD asked for volunteers to help at the Daffodil Parade. This led to a discussion of the need for amateurs to have equipment necessary for emergency communications work. At present the CBers have the advantage in this area.

Harold Stahlhut K7ODC was accepted as the newest member of the Radio Club of Tacoma, Inc.

There being no further business, the meeting was adjourned. We then enjoyed an informative program about the theory, use and construction of antenna tuners.

Respectfully submitted,
/s/
Chris Jensen (acting Sec.)

CLUB MINUTES 4-10-72

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm April 10 by President, Len Goodwin, WA7HHI, with members present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved as corrected.

TREASURER'S REPORT:

Savings account	\$1158.00
Checking account....	361.58
Building fund.....	93.94
Field Day bank.....	23.56

It was the privilege of the members present to witness the presentation of the Ham-of-the-Year Award to our own Doc Spike, W7OS. In recognition of this honor, Doc received a well deserved standing ovation. Jim Grinton K7VNI, of the Puget Sound Council of Amateur Radio Clubs presented the plaque. It was Moved, Seconded and PASSED, that a photograph of the plaque be taken to be put on display at the club house. Roy W7AZI will frame the picture.

Hank W7UD informed us of many interesting programs for our coming club meetings.

Len WA7HHI announced that volunteers are still needed to get a few last pieces of sheet rock installed upstairs.

Jerry W7BUN reminded us of the Skagit Valley Hamfest coming up next weekend.

The Women's Auxiliary will be giving a class in jewelry making and crocheting.

Scotty K7CYZ, on behalf of Smitty, K7ATD thanked all those who helped with communications at the Daffodil Parade. Next year, mobiles will be used in addition.

Thanks to Dick W7RGD, the new 1972 roster books are now available. First copy free to members and

Doc W7OS will contact those members who are in arrears on club dues.

It was Moved, Seconded and PASSED that the club not accept an offer of a repeater, to be used as the Radio Club of Tacoma's 2 meter repeater. It was felt that since this particular repeater would not be in full control of the club, that our best interests would not be served. However, a letter of thanks for the offer will be written.

A Motion was approved to authorize \$200.00 of club funds for use by the Hamfest committee.

Jerry W7BUN announced that the club now has a code oscillator, courtesy of the TARS.

Scotty K7CYZ and Smitty K7ATD volunteered to help with our annual Mother's Day Breakfast. Ethel W7WLX was volunteered for corsages.

Kent WA7NVX, Field Day chairman, asked for more volunteers for field day positions.

Save your MJB coffee can lids for Ethel W7WLX. They are exchanged for more coffee for the club.

There being no further business, the meeting was adjourned. We then enjoyed a debate between Jerry W7BUN and Charles WA7QYI, regarding the ARRL. Although both presented good arguments, the debate judge, Mike Deal K7GCK, felt that Jerry who defended the ARRL, was the winner.

Respectfully submitted,
/s/
Chris Jensen WA7MJK
(Acting Sec.)

A MONOLOGUE

As the scene opens, we find Mary in the home of a ham who has hired her to baby sit with the Junior OP:

"Well, the little monster is asleep. I think I'll just nose around the house a little."

"I wonder what this room is? Hmmm, what does that sign say? W7BUN? Must be his lodge or maybe some fraternity."

"Jeepers! Look at that. It must be a stereo. Collins? Never heard of that kind. Must be a cheap one. Probably made in Japan. Wonder where the records are?"

"On-----OFF-----N.B.-----Cal. Let's try 'ON' 3.5, 7.0, 14.0, 21 and 28. What kookie record speeds."

"Hey, who's the guy talking? What gives? When I talk something goes 'plip-plop'."

"Hello ----Hi-----How are you? I think that guy is talking to me. What did you say? 'You are Mary?' Yeah, I am Mary. How'd you know my name? Oh, Q.R. Mary. No, they just call me Mary."

"My call? Oh, it is Lennox 7-9541, No, silly I'm not a C.B. but my dad was a seebee in World War 2. How come you're talking back? Is this one of those intercoms or something?"

"I'm what? 5 and 7? Say, that's pretty close."

(cont. next page)

Monologue (concl.)

SLIVERS & SPLINTERS

5 feet 6 in my stocking feet. Yours? Oh, I'd
ess about 6-2. I am NOT trying to be funny."
"What am I running? Oh, I borrowed my big
ther's TR4 for tonight. A license? You better
lieve I got a license. You don't think I'd
ve that thing without one, do you? A what? A
tlegger? Funny man! No foolin', my gramps was
ugh. He was from Kentucky."
"You say your handle is Otto? You sound cool,
o. You're going on 20? Neat! I'm going on
Yes, I did say 18. Well, I ought to know.
s, ---18---well, I never----"
"We what? We doubled? Oh. I don't think so
o. You must have me mixed up with someone else.
e doubled with Bill and Betty, but that's all."
"An eyeball? Are you saying, 'eyeball?' Oh,
y are blue, Otto. Ha ha, you talk funny. Will
hat? Will I QSL? Did you say QSL? That's not
e LSD, is it? Good, cause the people I'm baby-
ting for wouldn't like it if I used LSD."
"Oh, it's a card. Oh, sure. I'll send you a
d. We're going to San Diego next month to see
and Woody and I'll mail you a card."
"What did you say, Otto? Someone is trying to
ak in? Oh, goodness, who is trying to break
Oh! No! Emergency! Gotta keep calm. I
ter call the POLICE!"
"Telephone? Oh, here it is. Operator----
erator!-----send help quickly----Police! Please
rry! Some terrible monster is trying to break in
re. Oh, this is awful--terrible. Please
urry!-----"

At the Skagit Hamfest, April 22 held at Bryant
Grange Hall, Patty K7NQR won a digital clock radio.
There were 352 registered and of them, 20 were
RCT members. A total of 196 door prizes were
won. It seems everyone had a good time. Most of
the XYL's had good luck on the prize drawings but
the QM's didn't do so good. RCT members in atten-
dance were: Roy W7AZI, Ethel W7WLX, Dennis W7UBA,
Chris WA7MJK, Merl W7IKG, Margie K7AMJ, Emil
K7GPK and xyl Irene, Jerry W7BUN and xyl Mishi,
Don WA7PIN, Dwayne K7KSZ and Patty K7NQR.

Jim Mashburn W7BSW still in the hospital re-
cooping from surgery. Should be ready by field-
day.

The club custodian is still looking for the
club's variacs. Are out on loans but not listed
in the records as to who they were loaned to.
If you have one or know where they are, please
contact Jerry W7BUN so the records can be set
straight.

Steve K7SSC has two sets in operation on the
456 MHz band and will demonstrate their operation
during the May meeting. He also has one converted
and operating, receiver wise, on the two meter
band.

Remember that June 10th will be the antenna
party for field day preparing, at Joe's QTH near
Eatonville. It's not too soon to start thinking
about F-D!!

Verna Ryan back home after a brief stay at a
local hospital. Feeling good and ready to head
to Reno to try and win some of the money back that
Emil K7GPK left there after a weeks vacation.

Bob and Inez (W7RXS & W7RXT) have a new trailer
to break-in. Bob has the first trailer up for
sale. How about it? Got the wandering lust yet?

Don't forget the annual Mother's Day breakfast
at the club house on Mother's day. Free to all
Mothers. Will be serving from 9am to 12 noon.

A BC-348 and code oscilator was recently donat-
ed to the club by the TARS.

Have you received your new roster book? Come
to club meetings and pick yours up. Free for the
asking.

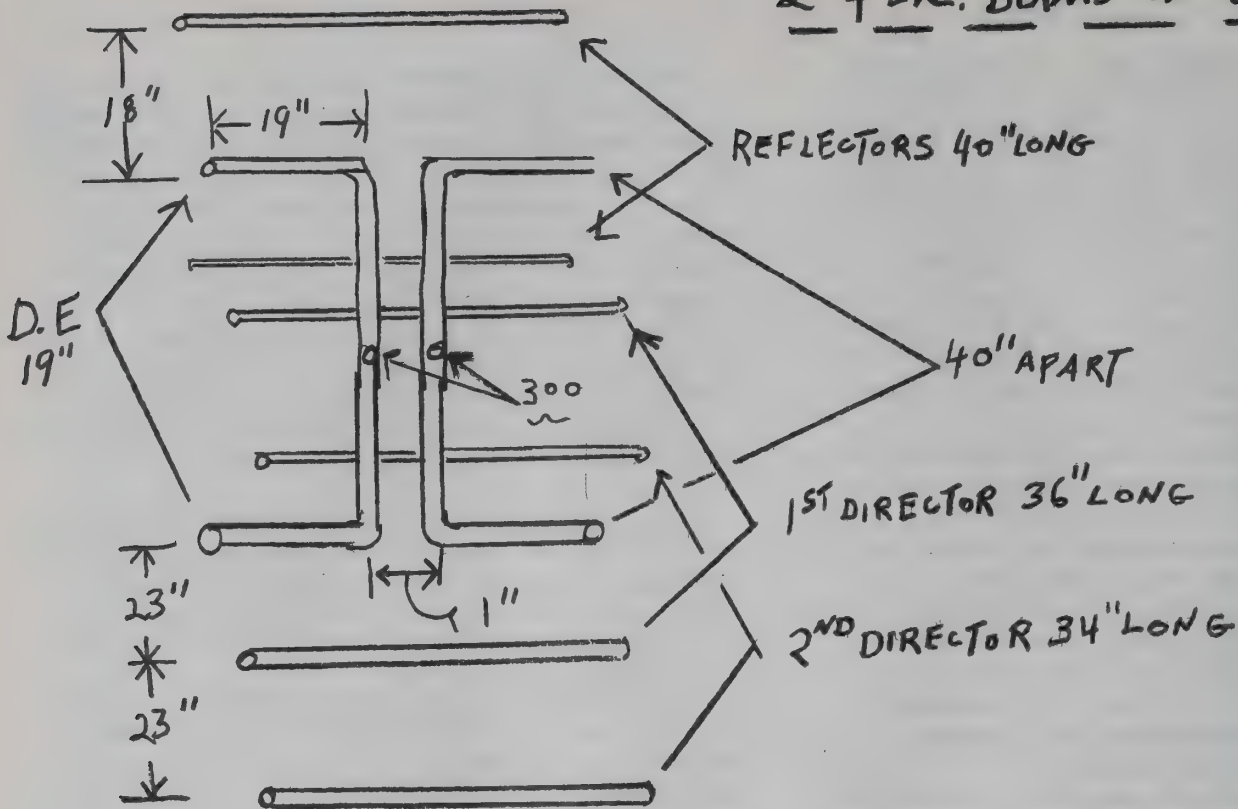

Another 2-11 fire during April behind C & G
Electronics. Bus showed with Smitty K7ATD and
Dick W7RGD. Lots of smoke and not too much fire.

The Huntley's (K7CYZ) were out for opening day
of the fishing season. Seems number one son gave
dad the razz-ma-tazz. Had his limit before dad
could get the right hook to do the job. At any
rate, they brought home a nice catch for Vivian to
put into the pan.

Dick, K7ITX, being heard quite regularly on
146.76. Good way to keep tabs, on what is going
on at the QTH.

SEE YOU at the Club house!

2-4 ELE. BEAMS ON ONE BOOM

A DOUBLE "Q" ARRAY

1948 APRIL Handbook Chapter 14

An easy way to stack 2-4 el. Yagis on one support. The horizontal or vertical portion of the half-wave 'H' acts as a 'Q' section, matching the antenna impedance to the 300 ohm line. Or a 4 to 1 balun and 75 ohm coax line. This antenna is in use at K7CYZ's QTH and will be used on field day for W7DK on 2 meters A.M. & A.M. K7CYZ uses the lumped-constant, symmetrical-bridge balun featured in December 1968 ham radio magazine by Bill Orr, W6SAI and Willy Sayer, WA6PAN. The Loggers Bark will feature the VHF version of this Balun in the June issue.

SELECTIONS FROM BACK ISSUES OF BARK

SEPTEMBER 1964

The first 2-11 fire was on the tide flats, with Ralph W7COP, Smitty K7ATD and Dwayne K7KSZ turning out with mobiles and the bus. Patty K7NQR, Roy K7USF, Rich K7ONA and Scotty K7CYZ stood by in case they were needed.

OCTOBER 1965

Tom W7FUL and Max W7AEA were discussing DX and some of its problems, after the bowling game Tuesday night. Were discussing the use of 2 meters for a back-up frequency for chasing down the rare ones.

JUNE 1966

Del W7UMJ, one of our newest members, gave a very informative talk on satellite tracking at the April 27th meeting. The talk was of a general and technical nature and was enjoyed by all.

TACOMA REPEATER NEWS

Denny, W7ZTG, reports that the Tacoma 34-94 repeater is coming along fine. The receiver is installed at the site at Olalla. The antenna is 120 feet above ground level and the site's elevation is 500 feet above sea-level.

The transmitter is ready to go and the antenna for it will be 180 feet up on the KINT tower at 11th and Grant. The elevation there is 400 feet above sea-level.

These two locations should provide real fine coverage in the South Puget Sound area. The transmitter will run around 20 to 30 watts out.

Denny advised; that anyone wanting to donate to the up-keep of the repeater, is welcome to do so. He stressed the fact that this is not necessary for the use of the repeater and that no donations will be accepted, over \$10.00. If you decide to donate, please mail to: Tacoma Repeater Fund, P O Box 9305, Tacoma Washington, 98409.

PUBLISHER NOTE:

Pictures have been taken of the equipment and they will appear in later article by Denny.

CONFUCIOUS say: "MAN WHO SIT ON TACK IS BETTER OFF."

COMING PROGRAMS

By W7UD

APRIL 12TH

Try W7BUN and Charlie WA7QUI will come out smiling and full of "fax" and "figgers". Quote, "F.L. to be or not to be" unquote! Or, do the others have another plan.

APRIL 26TH

Be a trip through MARS (in our own club house) Navy, Navy and Alfa-Foxtrot. All three in one. It should be interesting.

APRIL 9TH

Yodil parade! The C.D. bus will be parked at Cam. at 3rd and Stadium Way. There is no parking at that area so you will have to walk in from further up.

APRIL 15TH

Ice and Key Club will hold an auction in the 10th King County C.D. building just east of Kent. Hank W7UD needs more ideas for programs for our meeting nights. If you know anyone, who you think could give a good talk or technical demonstration, get in touch with Hank. He will do the leg work.

NEW ROSTER BOOKS

The new roster books are now completed and ready for distribution. As a club member, you are entitled to one, free for the asking.

The ink had hardly dried, when a new member joined the club so as soon as your copy has been picked up, add his name to your book on page 15.

BASKET, Bryan WA7PVE LE 7-8582
8620 East Vanburen
Tacoma, 98445

In addition to the new member there are a few other corrections. Refer to page 2, 9th item up from the bottom is WA2NPC Thomas Kelsh Jr. Change Toms call to WA7TAD.

Add the call WA7PVE to the bottom of the list page 3.

Roster (cont.)

On page 7 change the address for Darrell Erickson to read Route 1 Box 227-A, Centralia Wa. 98531 and cross out the phone number.

On page 10 correct the call for Kelsh to WA7TAD.

On page 5 correct the address for Max Bice to read Rt. 6 Box 6547, Gig Harbor, Wa., 98335.

On page 6 correct the address for Bob & Inez Churchward to read 3719 South 7th Street.

LADIES AUXILIARY NEWS

By W7WLX

More of our members should be enjoying our good times. All wives and mothers of Radio Club members are automatically members of our Auxiliary and we have no dues.

The active members are very active. We enjoy crafts, games, demonstrations and travelogues at our monthly meetings. Eight of the gals bowl together once a week and ten of us enjoy monthly Pinochle sessions. Amateur radio is seldom mentioned, when we are together. Try it - you'll like it!

This month, April 19th, Helen Spike will show us how to crocheted bead ropes and for those who would like to be prepared to start as Helen gives instructions, will need: 4 packages of nr. 3 beads, a ball of IMC nr. 30 thread to match beads and a nr. 10 crocheted hook. Good selection of beads at "Things" shop at Lakewood Center, 6126 Motor Ave. S.W. but also can be found at most craft shops. Meeting starts at 8pm. but from 7 to 8 we visit or play "31". After program and refreshments the game starts again for those, who can stay awhile. We can arrange transportation, if needed - just call any of the officers..Ethel.

REMEMBER DUES ARE NOW OVERDUE! SOME MEMBERS WILL RECEIVE THIS ISSUE EVEN THOUGH THEIR DUES HAVEN'T BEEN PAID BUT THIS WILL BE THE LAST ISSUE UNLESS DUES ARE PAID BEFORE THE NEXT ISSUE GOES TO PRESS.

Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

BASE OPERATING WITH HR-2

For those of you who won the popular 2 meter transceiver, HR-2 Regency and have wanted to put it on as a base station, you will do well to read the article by James Weir Jr., WB6BHI in the current issue of "73" magazine on page 51.

There are schematics of an a.c. power supply, a zeroing meter circuit, modifying circuit for a "transmitter on" light and a base antenna.

Not trying to sell magazines but this is a good article!

CONFUCIOUS SAY: "LIPSTICK ON COLLAR MORE DANGEROUS LIPSTICK ON KIP!"

MARS HELPS SAVE LIFE

Grand Forks AFB, N.D..

Because of the Military Affiliated Radio System (MARS), the life of a heart patient Colombia, South America, has been saved.

Francisco Cardona had to undergo emergency open-heart surgery at San Jose di Dios Hospital, Cali, Colombia and officials there sent a transcontinental radio plea for three units of rare B-negative blood.

AIC Wayne Day, a "ham" radio operator and member of the 321st Headquarters Squadron, 321st Strategic Missile Wing here, was at the base MARS station on his lunch break.

He heard the plea and quickly located the blood at a bank in Fargo, N.D..

Time was running short, however and while airlift was being planned, Dr. Clara Ines at Cal Hospital radioed that the patient had less than 48 hours to live unless the blood arrived.

Again the men from MARS went to work, this time locating the B-negative blood at Gorgas Hospital in the Panama Canal Zone. Two U.S. Army sergeants from Ft. Clayton, C.Z., drove the blood to the civil airport accompanied by a Panamanian police escort. A Colombian Colonel then flew the blood to Cali.

The regular monthly meeting of the Board of Directors of the Radio Club of Tacoma was called to order at 8:00 pm by President Len Goodwin.

Those present were: Scotty Huntley K7CYZ, Bob Dightman WA7LFR, Dennis Reanier W7UBA, Joe Winter RWK, Len Goodwin WA7HHI, Kent Hoffman WA7NVX, Spike W7OS, Board members Nick Winter WA7IVO, Al Koth K7GPK and Burt Burton W7SF.

Dennis read a letter sent by him to Bob Thurston formally giving him notification of the Club's decision to withdraw its sponsorship of the 1972 Northwest Division ARRL Convention. A copy of the letter is being sent to all affiliated clubs of Puget Sound Amateur Radio Council.

Doc W7OS, advised that he had returned to Bob Thurston, all the material relative to the order of Wouff Hong.

Dennis reported on plans for a Hamfest to be held on August 19th and 20th. The Sportsman's Club. They now do all their own catering but would allow us to operate our own snack bar. Cost of their facilities would be \$200.00 for the two days plus \$50.00 for the use of the building. Trailer facilities would be \$1.50 per table per night. Cost of dinner would be \$2.20 for chicken and spaghetti; \$3.25 for rib steak. The place can seat up to 500 people. Those wishing to attend would be asked to register in advance. Registration fee to include meals since the Club requires a guarantee of a minimum number of dinners.

Emil asked about using the Waller Grange? Dennis said the Grange would not compete for price so that the Pierce County Fair grounds was available on the dates planned. The Puyallup Fair Grounds is also being considered.

Scotty suggested a good map giving directions to the selected site be printed and mailed with registration blanks. He also volunteered to conduct a transmitter hunt. He also said he could secure services of a 5-man orchestra for approximately \$65.00 which would be much more desirable than using canned music.

Dennis suggested the Hamfest be strictly a Radio Club of Tacoma affair and that it be named to reflect its sponsorship, e.g. "Tacoma Ham-fest" or "W7LK-Ham-vention". He also proposed to invite a speaker from ARRL and named Lewis G. Cloy W1ICP. He will contact various manufacturers for equipment displays. He has already contacted Swan. Also planned is a raffle.

Field Day: Len will ask Ralph Rawlings W7COP, if he will consent to be Chairman.

Loggers Bark: The press is being moved to Scotty's basement from Dick's basement since Dick is being transferred out of town. Scotty plans to have a technical article published monthly; has one of his own ready on "Lazy H Antenna" for F.M.

(cont. next col.)

Building Committee: Joe outlined progress on the building project. Planned are the following:

- (1) Heavier service outlet for the house.
- (2) Removal of two windows from the meeting room (including the bay window)
- (3) Plexiglass shield to protect the large upstairs window.
- (4) Acoustical sheet-rock for the ceiling upstairs.

Discussion was held regarding the road leading from Union Avenue thru the leased lot to the rear of the Club House, relative to possible liability for accidents to anyone attempting to use this road. The road has no legal access to Union Avenue. Len suggested erection of a barrier post and a "no-access sign" to avoid liability.

2 meter Repeater: Chairman Steve Dightman K7SSC, had no report.

Funding Committee: Dennis reported that the committee had held no meetings as yet. This sparked a prolonged discussion on the relative merits of bonds versus loans versus donations as means of raising money to improve the Club's real estate. It was pointed out that we need \$4000.00 to complete the building improvements planned and that we shall have only \$50.00 left in the building fund after the insulation has been completed. Raising money by renting the building to outside groups presents problems of increased insurance rates as well as other problems.

Fund-raising projects were discussed with much enthusiasm such as: pot luck dinners, dances, bingo games and box lunch auctions.

The need to get the antenna tower erected was emphasized.

Also discussed was the type and method of erection of a tower for the Western Washington Fair station. A chairman for the Fair station is being sought.

Discussion continued as your Secretary left the meeting at 10:30pm.

Respectfully submitted,

/s/

E.H. Burton

IT'S A PLEASURE TO SHOP AND SAVE AT THE

SHOP MART

Department Store

133RD & PACIFIC AVE., Tacoma

WEEKDAYS 11 A.M. TO 9 P.M.

SATURDAYS 10 A.M. TO 6 P.M.

SUNDAYS 12 NOON TO 5 P.M.

Paid Adv.

The regular meeting of the RCT was called to order at 8:00pm., February 9 by President, Len Goodwin and opened with the pledge of allegiance. There were 28 members present.

Visitors introduced were Roy Hyde WA7NII, Ray Simpson WA7HJR and Gregg Bennett WN7LBG.

TREASURERS REPORT:

Checking account	\$130.02
Savings account	1001.58
Building fund	117.91
Total	\$1249.51

A bill for postage in the amount of .96 was presented. Motion to pay the bill was PASSED.

COMMUNICATIONS:

Doc W7OS announced he had worked Henry Gepke WA7HFG, in Lincoln City, Oregon on the Post Office Net, which meets on 3920 KHz. at 6:30pm daily.

COMMITTEE REPORTS:

Novice training chairman, Hank W7UD asked for volunteers for teaching six-session code practice classes. Three members have already volunteered: Charlie Milhaus, Bob Weightman and Jerry Seligman. Charlie will be training at the Community Club in Fircrest, Bob at his home and Jerry at his home on Saturdays. The programs will be set up in March by the individual instructors. Interest in the project is high.

Building Committee chairman Joe WN7RWK reported good progress being made. There were 11 members at the last Saturday get-to-gether, including Elmer Rhoads WN7SEC our most recent member. This coming Saturday, it is planned to blow-in the insulation. Tubes are being stored, temporarily, in members homes. Rumors are that Dennis W7UBA was missing for two hours but finally emerged from under the club house, where he had gone to make repairs to the foundation. He deserves high marks for this hazardous and lonely task.

Library Committee chairman Bill Chovil K7VQM reported good progress with cataloging of the books and publications.

Picture Committee chairman Doc W7OS reported he had taken two more photos of members but that there are still more to be taken before the album will be complete. He passed around a photo of the trophy presentation being made by our club to the BEARS, on winning out in the Sweepstakes competition.

Convention Committee chairman Dennis W7UBA announced that ARRL President Dannals has agreed to be a guest speaker at the NW District Convention in August also that Bob Thurston W7PGY will attempt to get Prose Walker, Chairman of the FCC as a guest speaker. Barry Goldwater has been invited but it is doubtful if he will be able to come, due to his political commitments in an election year. Registration fee has been set at \$10. There is a possibility of securing a demonstration

(cont. next column)

of SSTV on the program. The Auxiliary are also making plans.

Bowling teams report. Team number 1 moved from 6th place to 5th., taking 3 points this week. Number 2 team took 2 points.

AREC Committee chairman John Austin K7CZF reported there were 17 check-ins to the net this past week. Charlie Milhaus and Hank Perrozo conducted a successful simulated emergency test on Saturday, at Fircrest, using Hanks V-W bus with portable rig on 75 meters.

Loggers Bark publisher, Dick W7RGD promised to have membership cards available for the next meeting.

Program Chairman Hank W7UD announced coming programs. March 8th meeting will be, printed circuit boards, using a camera....Paul Anton Planned program, "Antenna Tuners", "Beacons in Golf Balls".

UNFINISHED BUSINESS:

Joe WN7RWK appealed for volunteers to lay building blocks.

NEW BUSINESS:

President, Len asked for a volunteer to manage Field Day activities. (Last year's chairman was Doug Henry) He appealed to all club members to become active this year - that the competition will be keener than ever from several groups in this area.

Charlie WA7QYI said that Barry Goldwater would be in the State in June (first week) and that he might be available as a speaker. Hank W7UD proposed a regional meeting, should Barry consent to appear. Charlie Moved, Bill K7VQM Seconded, that Barry be invited to speak. PASSED.

The Auxiliary reminded members of the Pinochle party, at the club house on February 26th.

There being no further business, the meeting was adjourned.

Following the meeting, Mr. Douglas Dix, Marketing Manager for Pacific N.W. Bell, presented an intensely interesting program, with films supplemented by verbal explanations on the subject "Futuristics of High Speed Data Processing Telephone Transmissions."

E.H. Burton, Secretary

IF IT'S PLEASURE

Pd Adv.

The regular meeting of the Radio Club of Tacoma called to order by President, Len Goodwin at 8:00pm. February 23, opening with the pledge of allegiance. There were 33 members present.

Visitors introduced were Jim Sutton WA7FHD, Alan Basket WA7PVE and Harold Jopp. XYL's present were Maxine Thurston and Mishe Seligman.

It was reported that Jill Anton had been involved in an automobile collision last Saturday and was doing well. Barbara Osborne W7BYL was also reported having been ill but recovering. George Faithful W7GD reported to be ill with flu.

Treasurers report:

Savings account	\$1001.58
Checking account	130.02
Building fund	117.91
Total	<u>\$1299.55</u>

A bill for the first half of the realstate tax of \$113.21 was presented. This prompted some discussion as to the fairness of the assessment.

Dennis W7UBA Moved that the bill be paid and that all possible means should be investigated to cover the assessment. Motion PASSED.

Radio Training: Chairman Hank W7UD

Jerry W7BUN has 8 trainees signed up for Saturday mornings.

Bob Weightman WA7IPR has 4 signed up for March

Charlie Millard has a group lined up.

Howard Hanson W7MRX is planning to instruct a group.

It was emphasized that the classes are for beginners and not for those wishing to up-grade their licenses - that the latter should find other means to do so, such as listening in on the various nets.

PROGRAM CHAIRMAN, HANK W7UD announced there would be a prize for the best topic suggested for tonight's program. Topic to be in three words or less. Judges named were Chris WA7MJK and Nick W7IBO.

Future programs:

March 8. Printed circuit boards by Anton WA7ESD

March 22. Antenna tuners by Hank W7UD

BUILDING COMMITTEE:

Chairman, Joe W7RWK reported the sheet rock is still not installed completely. Dennis made another trip under the house with a 50 ton jack and looking for a beam of the proper size, which will not crush the floor joists. An appeal for more help on Saturday mornings was made.

President, Len repeated his appeal for a volunteer for Field Day Chairman.

Dennis W7UBA reported on the decision by the Board last week, to cancel club plans to host the Northwest Division Convention this year, owing to the lateness and insufficient progress made with planning the event. It was pointed out that the

(cont. next col.)

convention notice has not been published in QST and that we have merely a verbal commitment with the Puyallup Fair Committee to use their facilities.

Director, Bob Thurston W7FGY, who was present, asked Chairman Dennis to write ARRL Board Chairman requesting that our obligation to host the Convention be revoked. Bob pointed out that he has already invited President Dannals, as well as the Technical Representative of the FCC (Mr. McCloy) and that the request to cancel should be made by the RCT promptly!

On Motion by Jerry W7BUN, Seconded by George VanKleek WA7CSF, the club voted to cancel the Convention plans. PASSED.

It was Moved by Jerry W7BUN, Seconded by Joe W7RWK that the club hold a hamfest in lieu of the Convention. (This had been previously voted by the Board)

Dennis indicated there may be some difficulty in getting a favorable commitment from the Sportsman Chateau, due to a change in policy as to catering, which would make it impossible for the club to make a profit. The Sportsman's club has been requested for a similar commitment to our previous one, viz. a \$250.00 fee - they will meet to decide. He suggested holding the hamfest earlier than the dates on which the convention was to be held. Due to a conflict with the Northwest DX Club meeting in Seattle (August 19 & 20) Bob Thurston said it had always been held on the first week end following the 16th of July, heretofore. Motion was PASSED.

Don WA7BIN Moved that 50% of the profits should be turned over to the building fund. Motion DIED for lack of a Second.

Loggers Bark Editor, Scotty K7CYZ, made an urgent request to all committee chairmen to give him written reports for publication in the Bark.

PUGET SOUND COUNCIL OF RADIO CLUBS

PSCRC Chairman, Jerry W7BUN, read his report. The Everett tower case was reviewed - they have escalated expenses and need money to continue the battle.

All training sessions should be registered with ARRL, SCM's.

By W7BUN (asst. director)

Skagit Hamfest scheduled for April 22.
A reminder that the annual Banquet is scheduled for March 11th.

OLD BUSINESS

Doc W7OS announced that he had all the picture albums and that they would be on display after the meeting.

Director Thurston read a letter from John Johnson K3BNS, President of the Citizens Radio Club.

He announced a meeting on March 9th, in Washington D.C. between the executive committee and the staff of ARRL and Prose Walker. They expressed a hope that some of our recommendations would start moving at that time. The League is making some long-range planning. He also announced the League expects to make a \$3000.00 cash award to the amateur writing the best article for publication in QST, during 1972. Award to be based on popular vote, conducted in January 1973.

The new ARRL handbook will have 18 chapters completely re-written.

Doc W7OS has turned back to Director Thurston, all the Wouff Hong documents, which were to have been used at the Convention initiation ceremony.

AUXILIARY REPORT: ETHEL DEVISH W7WLX

- (1) Pinochle party at Clubhouse Feb. 26th.
- (2) Next meeting 3rd Wednesday in March at which, new crafts will be demonstrated.
- (3) March 23, Pot luck and skating party. Meet at 6:00pm at clubhouse and be at roller bowl at 7:00pm.

BUILDING COMMITTEE

Accolades to Bill Chovil K7VQM and Elmer WN7SBC for cleaning up the clubhouse today.

UNFINISHED BUSINESS:

Scotty K7CYZ asked about W7UZ club - informed they had to sell their equipment before joining our club.

NEW BUSINESS:

Dennis W7UBA mentioned the need for attention to the parking lot.

Jerry W7BUN asked about the framed certificate, to which club is entitled for having sent over 300 radiograms from the Western Washington Fair.

Joe WN7RWK announced that the upstairs room should be ready for the YL convention in June, provided members turn out to help.

There was one application for membership. Brian M. Basket WA7FVE was accepted by unanimous vote.

There being no further business, the meeting adjourned.

Following the meeting a most enjoyable talk with slides, was presented by Roy and Ethel Devish (W7AZI & W7WLX) describing their recent tour of 20,000 miles via 13 airlines to Hawaii, Fiji, Australia, New Zealand and Tahiti.

E.H. Burton (Secretary)

A recent study shows presently 1,948 life memberships, with 85 in the Northwestern Division, 2.2%. Now is the time to get that Life membership before the dues increase July 1st.

Three more petitions for rule-making: RM-19 requests the FCC grant General Class licenses Conditionals over 65, who have never been cited for violating the rules and allow those over 70 take the Advanced Class exam under supervision of a volunteer. RM-1920 would combine the present Novice and Technician classes with 10 meter operations, a renewable Novice term and Novice phone allowed on 10, 6 and 2 meters. RM-1873 would limit CW to the bottom 50 KHz. of each band with the rest exclusively for sideband. (including small Novice section)

The office of Civil Defense, Department of the Army, has contracted with the Systems Developer Corporation to make a study of the Radio Amateur Civil Emergency Service. (RACES)

The necessary quota of votes from 43 member societies of the IARU have approved Robert W. Denniston, W0DX, as its President.

In response to comments that the ARRL license manual was inadequate to prepare an applicant to pass the various classes of examinations, John Huntoon W1RW, the General Manager, compared the questions in the license manual to those sample questions issued by the FCC. Every FCC sample question is covered in the manual. The point was also taken up with the FCC staff and their response was that the license manual adequately covers the actual examinations. There have been no changes of note in the actual exams for several years. The suggestion was offered that perhaps those complaining about the license manual, have not studied sufficiently!

C.D. BUS ACTIVITY

The Tacoma Civil Defense bus had a busy month.

On February 26th the bus was situated at Cheney Field for the joint meeting of the Tacoma and Vancouver B.C. junior soccer teams. Smitty K7ATD, Dick W7RGD and Scotty K7CYZ did the work.

On March 1, 2, 3 and 4, the bus did its job at the U.P.S. Field House for the AA basketball tournament. Smitty K7ATD, Mel K7ATF, Ralph W7COB, Dick W7RED and Roy K7USF put in their time.

On March 13th the bus was called out to the Professional Building on South 9th street for the 3 alarm fire. Smitty and Dick arrived with the bus and Mel arrived shortly after. Again, the fire chief was glad to have the bus on hand to render assistance with communications and to help with the lighting with the bus's flood lights.

SPECIAL MEMBER NEWS

by W7IKG

Special Member, Bill Rohrer W7ZFY, has probably generated under more calls than anyone in the club. Some of these calls (his own, plus operating from other stations) are KR6CG, KL7ONE, KA9MM, W2AIR, W1AW, W7ZFY/mm, KC4USG, W7ZFY/2, W7ZFY/4 and of course, the rare VK0WR. He will soon be KH6, in Hawaii. Our paths nearly crossed in Hawaii, except that I left there in July '71' and he will not be stationed there until August '72'.

We have always maintained contact with phone patches and our own qso style, wherever he has been, around the world.

While stationed in Hawaii, with the "Omega Navigation System", Bill will have the opportunity to travel the Pacific rim (again) and the Indian Ocean areas. His hopes are to do some dx operating from some of the rare and exotic places that the dx gang dream about.

Margie K7AMJ and myself had dinner with Bill and his parents about 3 weeks ago, while he was travelling to Hawaii. He is now back at the Pentagon, until August or so.

Bill has been a member of the Radio Club of Tacoma since 1954. Although he can't be with us, his interest in the Club has always been the best. I know the Radio Club members join with me in wishing Bill and XYL Peggy the best for years to come.

CLUB BANQUET

The 1972 Club Banquet was held Saturday, March 11th at the McChord Air Force Base N.C.O. Club. 9 people attended and enjoyed a very delicious roast beef and chicken dinner.

The first half of the dance was a little loud but Sandy Knox quieted them down (about 60db.) when she arrived and the rest of the evening was very enjoyable dancing.

We had visitors from Everett, Olympia, Shelton, Seattle and Centralia.

Everyone seemed to be having a good time and positively, no one went home hungry.....ED

Out of town guests included K7OKC and K7AJT from Centralia, W7JWJ, W7QGP and W7HJW from Seattle, K7VINI from Bellingham, W7EWP from Morton, W7HMJ and several others from Olympia, W7DKX and K7AGH from Ocean Shores and the Lewis'd W7KSZ and K7NQR from Everett.

SLIVERS & SPLINTERS

Paul WA7ESD at home again from the hospital and getting around without the crutches.

Tim Blair back from Vietnam and settling down regular army schedules at Fort Knox Kentucky. Has a new call now, WA5CHK.

Merl and Margie (W7IKG & K7AMJ) sporting a new pick-up truck. Need a three car garage.

Bob K7IND waiting for a break in the weather to try out his new trailer.

Beryl K7NPG working a 6 day week down at the steam plant. Rather than come home for one day, LaVerne K7NKZ decided to go down and visit with him in their trailer. Guess Beryl won't have to eat beans for a few days.

Scotty K7CYZ getting the chance to catch up on a lot of ham projects while waiting for his next fob to line up,

Dick K7ITX on the air on 2 with a new HR-2.

Dennis W7ZTG and Cliff W7MFG working out the details for the two sights for the two meter repeater sights. They now have Max W7AEA involved in the details.

Art K7CYQ on the sick list. Having problems again with his shoulder.

Ralph W7COP shutting down his 2 meter rig. Too many inner-mod problems.

Bill W7ZFY visiting in Tacoma while passing thru on way to Hawaii. (See article by W7IKG elsewhere in this issue)

Dick W7RGD out checking frequencies for some of the two meter gang, with his new Heath frequency counter.

Otho K7ATD busy lining up people and equipment for the coming Daffodil parade on the 8th,

Art W7JGN finally stopped on his busy schedule long enough for one of the Bark's staff to get his picture for the club album.

Late news item. The Vancouver Washington club will be having their Hamfest on April 29th. If you want to get tickets or more information, please contact K7SUX in Vancouver.

Don't forget, this is your last copy of the Loggers Bark if your dues have not been paid up for '72' and we are sure you don't want to miss out on the news and club's activities. We don't want to lose you!

COMING PROGRAMS

HAMFEST NEWS

TH 8TH

Paul Anton Mfg. Co., presents, with pride, President and founder, Mr. Paul Anton.... His contribution to science reflects in the single sentence: "picture, if you can, a P.C. card." On March 8th, he will tell us how a ham became a nightmare... (whoops)...a reality!

TH 23RD

Ed Dudley, W7UD, program director, will present March 23 a training session, by popular demand in the national interest, on the subject "anna Tooners". Len, WA7HHI, pledged himself to there. Others are also welcome.

Members with program suggestions, please see contact "Hank" for an open date. He will tell you on the program.

RADIO CLUB ANNUAL BANQUET

by W7BUN

The members voted to hold our annual banquet at McChord AFB, NCO Club again as in past years. The date will be Saturday, March 11th. The bar is at 6:30pm, dinner at 7:00pm and dancing from 8:00 to 1:00am to the music of Sandy Knox. The fee remains at \$2.75 per person for roast beef and chicken dinner. (Price includes the tip) Members may remain for the dancing but will not be served any alcoholic beverages.

All reservations MUST be paid in advance. The money is running out so get in contact with Jerry, W7JUN, at TH 5-7652 for reservations, right away!

NEWEST MEMBER

Welcome our newest member of the Radio Club of Tacoma. Please add his name to your roster book on the pages provided for this purpose.

AN BASKET WA7PVE

O EAST VANBUREN

Y 98445

LE 7-8582

During the last meeting in February, the club members, on the recommendation of the Board of Directors, moved, seconded and PASSED a resolution to cancel the plans for the ARRL Northwest Convention.

It was then moved, seconded and PASSED that the club sponsor a Northwest Hamfest similar to the Hamfests held in the past 2 years.

The decision to cancel the N.W. convention was done after much consideration of the facts. It was felt that things were not shaping up as fast as what was necessary for a successful convention. Rather than do half a job it was decided to postpone it until a later date when the job could be done properly, as the club is capable of doing.

WOMEN'S AUXILIARY NEWS

We had another great time at Auxiliary, in February.

Inez, W7RXT, showed us how to do Crewel stitchery and needlepoint. These lessons are really fun.

March 15th., Ethel, W7WLX, will be showing her pictures of their recent trip to the South, with Inez Churchward and Ethel Devish as hostess and co-hostess.

Don't forget the annual roller skating party, March 23rd with a 6:00 pm pot luck at the club house. Those of us, who do not wish to roller skate, may enjoy a social hour at the club house, after dinner.

The April meeting proves to be very exciting, with Helen Spike teaching us how to crochet with pearls. Don't miss this one.

May will be candles and glass cutting.

Don't forget the rags in June or before.

See you at Auxiliary.....Rene Smith

REMEMBER! DUES ARE DUE!

ARRL NEWS IN BRIEF

by W7BUN Asst Director

The next meeting of the ARRL Executive Committee will be in Washington, D.C., March 11th., the same time as the Q&WA banquet and likely the same hotel. If you have any thoughts for our Northwest Director, Bob Thurston W7PGY, to take to this meeting, contact him soon.

Three petitions for changes in the amateur rules have been received by FCC: RM-1877, would prohibit delivery of amateur messages by collect phone call (except where specifically authorized); RM-1880 would delete the Novice 80 and 2 meter bands but assign harmonically related frequencies in 40, 20 and 15 meters; RM-1907 would shift SS to the high end of each phone band and would further provide 2 X 2 calls (WA2AW) for Extra - class licensees with less than 25 years service.

Roland B. Boyne, W1ANA, 77, passed away February 8th. He was the League's museum curator in recent years and had done superb work in the restoration of equipment on display in the museum.

Effective March 1st, W1AW, will move its operations to 80 KHz above the lower end of each band rather than the 20 KHz now in use. On phone 90 KHz points in the General Class phone band will be utilized; i.e. 3990, 7290, 14,290, 21,390, 28,590 and 50,190.

NOVICE TRAINING PROGRAM

The novice training program is coming along. Jerry, W7EUN, is conducting Saturday morning classes in beginning code and some basic theory.

Bob Weightman WA7IPR, Howard Hanson W7MRX and Charlie Milhans WA7QYI have their respective groups lined up to start the first week in March.

Jerry rounded up most of his group, supplemented by leads furnished through a retail outlet in town. Bob and Howard were set up with students by the chairman of this project, Hank W7UD.

Charlie got his leads from a list of names put at the Western Washington Fair booth.

Tape code material is furnished by T.C. Radio Club, a national thing of which Hank is an officer...but RCT gets full credit for the project. It is certain to get some new ham blood in the area.

Simultaneous training during March and October is hoped to help us with a review of results and well as giving us time deadlines to meet. Seem to get more done that way, or haven't noticed?

We need help to get 3 new deserving Novices on the air. Need any used equipment, working or not, transceivers, receivers, crystals, parts, ect....
Please call Don Grant, if you can spare any thing at LO 4-4508.

SICK STORY SECTION

There was this business meeting at which it was brought up that the lighting in the hall was bad. A member made a motion that the club buy a chandelier. All voted for the purchase except one member. He was asked why he opposed such a purchase?

"Well, for one thing, I doubt that anyone here can even spell the word....but mainly, I object because we don't know anything about music and nobody here can play one....and furthermore, what we really need to spend our money for is better lighting."

P.S.C.A.R.C. NEWS

by W7EUN

Due to the snowstorm, the January meeting of the Puget Sound Council of Amateur Radio Clubs was held February 11th. The next meeting will be March 24th.

The Western Washington DX Club was voted in as a member club.

Ken Carpenter, of Everett, reported on the Everett tower case; he has spent \$1100.00 in legal fees and has received \$330.00 in donations. The case is presently awaiting a hearing from the State Board of Appeals in Olympia. Donations are still being solicited.

The Radio Club of Tacoma's proposal for optional prefixes to be used in 1976 was adopted by the Council, as presented, and will be forwarded to the ARRL.

The Ham-of-the-Year judging will take place at the March meeting.

Art Henning, W7PI, the Section Communications Manager, suggests that all clubs conducting any type of amateur training classes, register with ARRL; the League receives many requests for information from would-be hams and can provide reference to local clubs this way.

SKAGIT HAMFEST

The Skagit Amateur Radio Club will hold their annual Hamfest on Saturday, April 22nd., at the Grange Hall in Bryant. (Near Arlington) Featured will be a tour to the million watt Navy radio station at Jim Creek, Bunny hunts, country store and auction, women's games, dinner, entertainment and many door prizes. Jerry, W7EUN, will have tickets and more information available at the March club meetings.

DUES ARE DUE

Dues are due for everyone. Remember they have gone up to \$8.00 this year. You don't want to miss out on any of the club's activities. The grace period will be running out at the end of March. Along with the membership, the Loggers Bark will be dropping the names on its mailing list of non-members, so contact the club's Treasurer and be counted amongst the Radio Club of Tacoma members for 1972!

CLUB MINUTES 2/2/72

The regular meeting of the Radio Club of Tacoma, postponed from the previous week due to hazardous road conditions, was called to order at 8:00 pm by President Len Goodwin, WA7HHI, opening with the pledge of allegiance.

Approximately 20 members were present. There was one visitor, Elmer WN7SBC.

The Treasurer, Kent, presented his report. Assets include \$109.82 in the checking account and in the building fund. Bills included were: fuel \$116.32 and it was moved, seconded and passed that the bills be paid.

Communications: A letter was read from Henry Gepke Jr. WA7HFG, who moved from Tacoma to Lincoln City Oregon in September. He enclosed a check for dues for the current year.

Program Chairman, Hank W7UD, asked for suggestions for future types of programs. A discussion ensued as to whether programs should be limited to radio educational topics. It was left to the discretion of the Chairman, to use his best judgment in the interests of the majority.

Minutes (cont.)

Hank also asked volunteers for novice training classes to set up a time and place for such classes at their own convenience.

Jerry W7BUN reported that three had signed up for code classes; and also that he will conduct a weekly class in theory for nine weeks, provided there is sufficient demand for it.

He also reported the Ham-of-the-Year Award is postponed to March.

The annual banquet is scheduled for March 11th at the NCO Club, McChord AFB. Tickets are \$2.75, in advance.

The Christmas party is scheduled for December 9th. An ARRL bulletin announces the resignation of President Robert Dennison, so he may devote full time to his duties as President of the IARU. He is being succeeded by Harry Dannals W7TUK.

ARRL annual dues are being raised to \$7.50 plus \$2.00 extra for family memberships.

Dennis, Chairman of the Convention Program, has invited Barry Goldwater to be the main speaker. He has also invited Prose Walker, the new Chairman of the FCC.

Jill WA7KSD reported that the pinochle party held on January 29th 1972 has a poor turn-out so another social event is planned for January 26th.

Sheet rock is being installed this weekend. Bob WA7IPR has scrounged a 125 amp 6-breaker box for \$9.00.

Doc W7OS made a passionate plea to Emil K7GPK for help in construction of a display cabinet for the museum and library area of the club house. Emil's generous offer was accepted with thanks.

It was moved by Don WA7PIN and seconded by George WA7BHH, that the funds of the W7UZ club be placed in the building fund. The motion passed.

Bond Committee: Doc W7OS and Joe W7UD will conduct a survey of club members, to ascertain the degree of interest in purchasing bonds it issued for building purposes.

Picture Committee: Doc W7OS repeated his invitation to those still not in the album, with pictures of their shacks, to contact him.

Two Meter Repeater: Steve Dightman K7SSC is planning locations for the gear and making progress. He has available some "450" rigs for any-

Doc W7OS reported that Henry Gepke has a code machine with tapes for sale for \$40.00. He now lives in Lincoln City, Oregon.

A motion by George Van Kleek WA7CSF that members of the W7UZ Club (Tacoma Amateur Radio Society) who are donating their club funds to us, be granted Special Membership in Radio Club of Tacoma, was passed.

Dick W7RGD reported he may be leaving the area and has asked that someone be chosen to learn to operate the press of the Loggers Bark.

One application for club membership from Elmer Adams WN7SBC, was accepted.

The Women's Auxiliary will hold a skating party March 23 at 6:00 pm. Tickets are \$1.00 per person.

There being no further business, the meeting was adjourned at 9:30 pm.

Respectfully submitted,

/s/

E.H. Burton

Dwayne and Patty (K7KSZ & K7NQR) made a quick visit to the Tacoma area during February.

Jill, WA7KSD, involved in an auto accident. No injuries except the back of her car has seen better days.

Barbara, W7FUL, feeling better after a recent tussle with a bug.

Joe, WN7RWK, still looking for help on Saturday mornings at the club house. The plaster has been removed and the wiring has been put in. Needs help with putting up sheet-rock. Contact Joe and he will give you details of the work that has to be done. Maybe you have a talent he needs.

The Pinochle games at the club house on the 26th had a good turn-out. Doc, W7OS, took on a about face on his luck at the card table.

Bob, W7RXS, busy fixing-up plumbing on a few mobile trailers, which got caught in the freezing weather. Plumbing came out second best. Bob hasn't checked his own trailer yet. Good luck!

Scotty K7CYZ, Dick W7RGD and Smitty K7ATD out with the c-d bus at Cheney Field.

Roy, K7USF, out with the Boy Scouts for the week-end up at the mountain. Still in contact via 2 meters.

Dennis, W7UBA, crawling out from under the club house after trying to jack the club house up.

Bob, W7PGY, getting ready to go back to ARRL headquarters for another meeting. If you have any ideas or suggestions for headquarters, you had better contact Bob, right now!

Phil, W7AQB, is now among the top DXCC members. He has promised some more QSL cards for the drooling corner of the Bark.

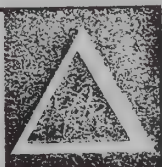

Remember, dues are due for quite a few.

THE AMBITIOUS "H"

$$A = 37\frac{7}{8}"$$

$$B = 38"$$

$$T_1 = 20"$$

SPACING BETWEEN POINTS

$$"X" = 3\frac{1}{2}"$$

APPROX 6 DB GAIN OVER A DIPOLE
THE EQUIVALENT OF DOUBLING YOUR XMITTER
POWER TWO TIMES.

USING THE AMBITIOUS 'H'

Most hams are familiar with the 'Lazy H' antenna, on the lower bands, but few have used it on the VHF bands, especially in the vertical arrangement.

The Lazy H is just that, an 'H', lying on its side. As most of us know, the majority of stations on fm are vertically polarized, so we will have to 'stand it up'. With it standing up, it is no longer a 'Lazy' H and the opposite of lazy is ambitious so we will call this version, the 'Ambitious' H.

The antenna, in the sketch, was cut and tested on 146.640MHz. Remember that one quarter inch is equal to one MHz. on 2 meters, so be careful!

With the elements cut to $37\frac{7}{8}"$ and using 300 ohm T.V. ribbon twin lead and a transmatch, the S.W.R. was brought down to less than 1 to 1. With a 4:1 balun and 75 ohm coax, the S.W.R. was 1:5 to 1. Tapping the balun $8\frac{1}{2}"$ from the open end of the stub. Again, using a transmatch with this unbalanced coax, we brought the S.W.R. down to less than 1 to 1.

The antenna is very simple to build. We used a 5' piece of 1x1 fir and cheap plastic insulators. The elements are $\frac{3}{8}"$ aluminum tubing with short pieces of $\frac{1}{4}"$ aluminum rod on the ends for adjusting for frequency.

For testing purposes on 145.35MHz., the elements were 38.5 inches. This was tested as a "Lazy H" on a.m. and the gain was not measured on this frequency.

You can find more information on this antenna as the Lazy H in the December 1966, QST and the ARRL hand book for 1969, chapter 18 page 467.

Interesting to note, this antenna is not shown in the ARRL VHF manual.Scotty

ED NOTE:

Next month the Loggers Bark will run information on building a transmatch. We will show one for the low bands and one for VHF. Used with a SWR bridge, this item is a must for antenna building and for field day, there is no other equipment more needed!

MEETING CANCELED!

(HELD FEB. 2)

Due to the inclement weather, the regular club meeting, Jan. 28th., was canceled and held on the following week.

COMING PROGRAMS

9TH

Doug Northwest Bell's, Doug Dix, will have a minute film depicting the 'Futuristics of High Data and Video Transmission', plus a talk about the function of the marketing manager of Tacoma area. This is Doug's position with

He knows all about business services, including mobile, marine and bank data. In fact, knows about the non-residential services. A interesting program!

23

and Ethel Devish (W7AZI & W7WLX) will premier pictures of their recent wanderings. Their presentation will be entitled "_____". (In 3 or less)

A name for their trip and/or its subsequent (cont next col.)

pictorial record, will be taken from the floor, in ballot form. A panel of judges will select the most appropriate or funniest suggestion. The winner will receive a prize.

Uncle Dudley (Hank) W7UD is in the process of putting together a continuing program of Novice training for the Club.

As a starter, the months of March and October will be designated as training months. This gives everyone involved or interested, an opportunity to gear up to these schedules.

A code practice format will be made available to each study group, courtesy of Tomlinson College Radio Club, of which, Hank is Chief and sanitary engineer.

There will be a short basic radio course at Bates Vocational-Technical Institute. The course will last for 9 weeks and meets every Tuesday and Thursday evening from 7 to 10pm, beginning Feb. 10th. Cost will be \$8.50. The course will cover most of the General class license material but will not include code instruction.

NEW MEMBER TO CLUB

A new member to the Radio Club of Tacoma joined our ranks during the meeting of February 3. Welcome to the Club, Elmer and we hope to see you at the meetings as often as possible.

Please add his name to your roster book, on the pages provided for this purpose.

Address all articles Scotty Huntley K7CYZ, 8Q2 South Lawrence, Tacoma Washington, 98405. Address all advertising and swap column articles to Dick Ryan W7RGD, 1220 South 9th St. Tacoma Washington, 98405. Contact K7CYZ or W7RGD for advertising rates. Swap column is free to members of the Radio Club of Tacoma Inc.. The Loggers Bark does not guarantee or verify the statements in the swap column. The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

PINOCHLE MEET

Due to the bad weather, the crowd was not as big as was hoped for. Even with the weather doing its best to discourage everyone, 11 game people showed up to play. Not all played Pinochle. A few were engaged in other card games. (No strip poker was allowed) One member in particular was winning continually and rumors had it that he was cheating, however the tar and feathers were not applied.

It was decided to try and have another get-together for cards on February 26th and hope the weather would be more cooperative. It will be pot luck and the club house will be open by 8pm.

Bring your own tar and feathers!

AUXILIARY NEWS

by Rene Smith

Those of you who didn't attend the Women's Auxiliary in January, sure missed a great time. Thanks to Pete Coombs, a friend of Jill Anton, we learned a lot about tying macrame knots.

There's more to come. February 16th we will have help with needlepoint and crewel stitchery, with Vivian Huntley and Faye Monroe as hostess and co-hostess.

March 15th Ethel Devish will show pictures from a recent trip to the South Pacific.

April 19th Ice candle making by Faye Monroe, Jill Anton and Diane Salatino.

May 17th glass cutting.

In June we will be checking rags. Please save all your old cotton rags. If you want someone to come after them, call anyone in the auxiliary. This is our best money making project.

Our annual skating party is scheduled for Thursday, March 23rd. A pot luck at 6pm sharp, at the Club house. Bring your friends and come out to auxiliary. See you there.

For details, see last month's issue of the Loggers Bark)

ARRL BULLETINS

Bulletins cont.

350 DECEMBER 2, 1971

The Federal Communications Commission has now ruled in the matter of Docket 19110 adopting lower speeds for amateur radio teleprinter equipment. Effective January 7, 1972 part 97 of the rules has been amended to permit the use of the speeds 60, 67, 75 or 100 words per minute with transmitting speed within a range of plus or minus words per minute. Further details will appear in the January issue of QST BT

351 DECEMBER 2, 1971

The Canadian Department of Communications has announced that the previous age limit of 15 will no longer apply to applicants for amateur licenses. L. through Director Eaton, has long urged this change BT

352 DECEMBER 9, 1971

For the first time in almost five years a third party agreement has been signed. Trinidad and Tobago, GY4 and the United States have agreed to permit the handling of messages or other communications on behalf of third parties, effective September 18. Messages must not be important enough to be sent by commercial channels and neither operator may have any pecuniary interest

in the traffic. This updates the list appearing on page 90 of November QST BT

NR 354 DECEMBER 23, 1971

All amateurs in the ARRL Field Organization, comprised of those sections listed on page 6 of QST, are urged to participate in the annual Novice Roundup. The 1972 event will incorporate several changes. The Roundup will take place during the period February 5 through 13. A shortened maximum operating period of 30 hours with minimum time-off periods has been adopted. The exchange will incorporate RST plus ARRL section. Separate multipliers will be available for each DX country worked. Full details on this event appear on page 69 of the January 1972 issue of QST BT

NR 357 JANUARY 13, 1972

The composition of the three ARRL Advisory Committees for this year has been announced by President W0DX. The VHF Repeater and DX Committee are all reappointments, per page 86 of September QST. The contest committee chairman is W3GRF, with members W4UQ, KH6IJ, W1BGD/2, W6DQX, W0HP, K1ZND, VE2NV, K5TSR and WAGUCE. Correspondence for any of the committees may be addressed directly to the members or routed via Headquarters BT

NR 358 JANUARY 22, 1972

The Board of Directors of the American Radio Relay League at its annual meeting in Hartford Conn., January 20 and 21, revised ARRL administrative structure to meet more effectively the challenges, amateur radio will face in the coming decade. After expressing the view that dual responsibilities of ARRL and IARU Presidencies have grown beyond the capabilities of one man, Robert W. Denniston W0DX, declined to be a candidate for re-election as ARRL President. The board chose Harry J. Dannels, W2TUK, as the new ARRL President, re-elected Charles G. Compton, W0BUO, as first Vice President and named Denniston and Roemer O. Best, W5QKF, as additional Vice Presidents. President Elect, Dannels proposed and the board unanimously voted, to seek approval from IARU societies of Robert W. Denniston, W0DX, to serve as President of the International Amateur Radio Union. John R. Griggs, W6KW, was newly elected to the executive committee. To cover rising costs of operation and to meet future needs, effective July 1, 1972, annual dues were raised to \$7.50 in the U.S., \$8.50 in Canada and will be \$9.00 elsewhere. The setting of goals and objectives in long range planning was assigned to a special ad-hoc committee, with recommendations to be submitted at the July meeting. Another special group will promote and implement the growth of the new amateur satellite service. The VHF repeater advisory committee is requested to recommend a structure of regional frequency coordination committees to facilitate repeater operation. The board examined long range plans for protection of present amateur frequencies and a program for attempting assignment of additional bands at any future high frequency allocations conference. Studies to be made by committees or others include the problems of parts procurement for constructors, establishment of VHF beacon stations, sponsorship of technical symposia and a Herbert Hoover Jr. Memorial amateur station in the West. Requests will be made of FCC for rules changes to permit technicians and higher to use 50.0 to 50.1MHz, to relax logging requirements, to require filtered DC power supplies on frequencies above 144MHz as well as below and to Grandfather from Advanced to Extra, those with 40 years amateur experience and who have reached 60 years of age. The ARRL technical merit award went to Mel Wilson, W2BOG/W1DEI. The board expressed its deep appreciation for dedicated service of elected and appointed ARRL volunteer officials and its thanks to FCC and DOC for cooperation in amateur regulatory matters the past year. Proposals, which failed of adoption included separate mobile and RITTY, DXCC and WAS awards, cash award for QST articles, putting QST on newstands and rotation of board meetings on a fixed schedule around the continent. Minutes of the meeting will appear in March QST.

WOUFF HONG REQUEST

by W7OS

Upon our request of the Director of the Northwestern Division of the American Radio Relay League, we have been given permission to put on the initiation of the Royal Order of the Wouff Hong degree at the Northwestern Division Convention of the ARRL in Tacoma by the Radio Club of Tacoma, next August, 1972.

We have received from ARRL Headquarters, all the data necessary to confer this degree but we need to know the names of all the radio hams, who have, at any time, been initiated into this Order, whether they belong to the Radio Club of Tacoma or not.

I am compiling a list of members of the Royal Order of the Wouff Hong. If you are a member or know of a member, please let me have their name, call and year they took the degree.

All, who attend this coming convention in August and are not now a member, should plan to make application and experience this very old traditional ham activity.

RADIO CLUB ANNUAL BANQUET

By W7BUN

The members voted to hold our annual banquet at the McChord AFB NCO Club again as in past years. The date will be Saturday, March 11th. The bar opens at 6:30pm, dinner at 7:00pm and dancing from 9:00 to 1:00am to the music of Sandy Knox. The price remains at \$2.75 per person for roast beef and chicken dinner. (Price includes the tip) Minors may remain for the dancing but will not be allowed any alcoholic beverages.

All reservations MUST be paid in advance. Contact Jerry, W7BUN, at TH 5-7652, for reservations or information.

by W7BUN

The Western Washington DX Club of Seattle has granted ARRL affiliation. The Romanian Radio Amateur Federation has been approved for membership in the IARU by the League.

League membership and subscribers showed a gain of 5400 for 1971 for a total of 85,859 full members and 12,298 associate and subscriptions, or a 2% increase. The Northwestern Division showed a gain of 4.6% or a year-end total of 3,754 full members.

A. Prose Walker, W4BW, Chief of the Amateur and Citizens Radio Division of the FCC, made his first appearance at the Las Vegas SAROC Convention earlier this month. He expressed the following views, which represent his own opinions and not necessarily those of the rest of the Commission:

REPEATERS (DOCKET 18803)

The concept that the "least control" is the least control will probably be applied. (2) Linkage of repeaters beyond 2 or 3 hops will not be permitted except for emergency situations. (3) Repeater users will be encouraged to set up regional frequency coordinating committees, rather than FCC specifying in and out frequencies. (4) 1 KW. in-limitation will apply instead of the proposed 5 watt limit. (5) Automatic ID will be provided. (6) Tone access will be permitted but not mandatory. (7) The question of "which call to use" will be made the subject of a Notice of Proposed Rule-Making.

NE BAND EXPANSION (DOCKET 19162)

The following appears likely:

A modest expansion of the 75 meter phone band. (2) A 50KHz increase of the 40 meter phone band, with the Novice band lowered by 50KHz. (3) No change in 20 meters. (4) No change in 15 meters. (5) No change in 10 meters. (6) No restrictions in the Extra Class segments are foreseen.

5MHz--Supporters of this proposal to "give-away" 5MHz of this 5MHz amateur band have subjected the Commission to considerable pressure, however, comments should be withheld until a Notice of Proposed Rule Making is issued, if one ever is issued.

(CONT. NEXT COL.)

EXCESSIVE POWER----The amateurs should clean up their own house by eliminating use of power in excess of that authorized, or else the FCC may specify tubes to be used in transmitting equipment.

CONDITIONAL LICENSEES--Among Conditionals called in for examination, 25% to 50% fail to appear and close to 50% fail. Experience with Technicians is similar. The FCC is quite concerned with this situation.

CALL SIGNS--A new call sign plan to indicate type of license held by the prefix of the call may be proposed.

BOARD MINUTES 12-1-71

The regular meeting of the Board of Directors of the Radio Club of Tacoma, Inc. was called to order at 8:00 pm. December 1, 1971 by President Dennis Reanier, W7UBA. The minutes of the last meeting were read and approved. Joe, WN7RWK, Chairman of the building committee, reported that a check was made on the building to determine heating requirements. We will be able to save money when insulation is installed.

It was agreed by the Board that a dues increase will be necessary for the coming year. Dues would be increased from \$6.00 to \$8.00 for full members and from \$3.00 to \$4.00 for students. Since this will involve a change in the by-laws, the proposed change will be published in the Loggers Bark.

Jerry, W7BUN, reminded us that we still have no Novice class for those who expressed interest in ham radio at our Fair Booth. We need someone to help with this project.

Dennis, W7UBA, reported that meetings will be monthly beginning in January 1972 to plan for the convention. Rex Hays W7NP, has volunteered to direct the manufacturer's display area: advertising, guest speakers, Hotel space, trailer space, prizes and ladies programs.

There being no further business the meeting was adjourned.

Respectfully submitted,

/s/

The regular meeting of the Board of Directors of the Radio Club of Tacoma, Inc. was called to order at 8:00 p.m. January 5th 1972 by President Len Goodwin, WA7HHI.

Discussion on the upcoming N.W. District ARRL Convention was the major business of the evening. Dates were fixed for August 19/20 1972. Place is Western Wash. Fair Grounds in Puyallup. A meeting between the Puyallup Boosters Club and RCT member Jerry, W7BUN produced a promise of mailing envelopes including publicity of the Valley, maps and handouts for our use.

Trailer facilities are being checked into by Dennis W7UBA, such as: sanitation, water and electricity. Problems relative to these were discussed.

Director Bob Thurston is being requested to seek speakers from ARRL HQ. Other suggestions for a main speaker were Senator Barry Goldwater and Arthur Godfrey. Dennis will write to Senator Goldwater and invite him to be our speaker.

Doc Spike, W7OS read a letter from Morgan Goodwin, W4WFL/1 Asst. Secretary for membership of ARRL regarding procedures for initiation into the Royal Order of the Wouff Hong and initiated a discussion on the possibility of organizing an initiation ceremony for Club members, at the Convention.

Dennis will appoint a Publicity Chairman. The ladies activities are being organized by Jill Anton, WA7KSD.

Rex Hays W7HNS, display chairman, requested information on the number of exhibitors we could expect. Doc, W7OS said he would make available the 1931 convention kit to the convention chairman. Since the Western Wash. DX Assn. is holding its Convention simultaneously with the N. W. District Convention, the activities of the two groups will be coordinated.

Dennis gave a rough outline on the proposed program. Stressed, would be educational activities, drawing heavily on manufacturer's expertise. Breakfasts would be held for groups having special interests such as: DX, Traffic, FM, etc.. The Banquet, on Saturday evening, would feature the main speaker, to be followed by the Wouff Hong initiation ceremony. Friday evening would be informal. Advance registration would be mandatory for the Banquet. A door-prize would be available for pre-registrants.

Vice President, Hank W7UD reported on a financing plan, involving bonds for construction for a new addition to the Club house.

Building Committee Chairman, Joe Winter W7RWK, gave his report. He stated that work on remodeling the upstairs rooms is going well. Estimated cost of the remodeling, including materials for the new addition, is \$2900. Funds remaining in
(cont. next column)

building fund are \$189.70. A short discussion followed on the relative merits of using gas and/or electricity for heating the addition. Appreciation to Kent and Nick was tendered for their help on the remodeling.

Sweepstakes results were discussed, especially RCT vs BEARS and a pledge made to do better next year.

President Len asked for nominations for the Hall of the Year Award to be in by the end of January. The rules will be provided by Jerry, W7BUN.

The list of Special Members, to be voted on are as follows:

- (1) Robert Bennett WA7FWN
- (2) Tim Blair WA7FVT
- (3) Thomas Estelita WA7LKA
- (4) Sgt. Dick Hazelmyer
- (5) Father Len Kaufer W7DXH
- (6) Dwayne & Patty Lewis (K7KSZ & K7NQR)
- (7) Bert Noll K4UVH
- (8) Lt. W.N. Rohrer W7ZFY
- (9) Omar Spaulding WA7HPK
- (10) Greta Warburton
- (11) Dewey Wilson W7HF
- (12) Robert Gates Jr. K7INE

There being no further business, the meeting adjourned.

Respectfully submitted,

/s/

E.H. Burton W7SF (secretary)

CLUB MINUTES 11-22-71

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm on November 22, 1971 with members and guests present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved.

It was reported that Don Grant's, WA7PIN, mother is ill and is in a local hospital.

The Treasurer gave the following report;

Savings account	\$1001.58
Checking account	58.70
Building fund	179.70

(cont. next page)

DENTRONIC'S CAR RADIO REPAIR

ONE DAY
PICK-UP AND DELIVERY

GOOD USED RADIOS IN STOCK

Denny W7ZTG

LO 4-3400

Jerry, W7BUN, reported that he sold the antique radios for \$10.00.

Joe, W7RWK, told of the progress of our build-project. There is now wiring, insulation and retrock to be installed. Joe thanked all of those who donated help and materials. More volunteers are still needed.

Both the C.W. and phone Sweepstakes Trophies were lost to the BEARS. A delegation from our club will attend their January 8th meeting to present the awards.

The total Club Sweepstakes scores for ARRL competition were, 507,346 from 18 entries and 1,220 from 28 phone entries.

Bill, WA7KSD, has been elected the new President of the Ladies Auxiliary. Many new and interesting activities are planned.

In regard to our coming convention, Jerry, W7BUN, said that the Puyallup Boosters will help with tours for the women and children. Jerry reminded us to be thinking of nominations for the Year Award. The application should be in by February.

Steve Dightman, K7SSC, is the new repeater committee chairman. Steve will be asking for volunteers to help with this project.

Frank Connelly, WA7GWL, who now works at ARRL headquarters, will be at the Club house next Wednesday to discuss the latest news from headquarters.

Bob, WA7IPR, announced that the two Radio Clubling teams will play each other on January 11th. We were invited to attend the contest.

Elections were held for the 1972 officers of the Radio Club of Tacoma. The following is the results:

President.....Len Goodwin, WA7HHI
 Vice President.....Henry Perozzo, W7UD
 Secretary.....Dr.E.H. Burton, W7SF
 Treasurer.....Kent Hoffman, WA7NVX
 Board (2)....1.....Nick Winter, WA7IVO
 Emil Koth, K7GFK

Members elected were by unanimous ballot by all members present.

Dennis, W7UBA, received compliments from the membership for his fine job as President of our club during 1971.

There being no further business, the meeting adjourned. We then enjoyed some films of the Christmas show, courtesy of Jerry W7BUN.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK, Sec.

The following is the annual report of the LOGGERS BARK.

The extra printing, done by the BARK, was enough to pay for the varityper, purchased some time ago. This represents \$400.00. The Club now owns the varityper (\$400.00) and the model 1250 press (\$350.00) paid for last year.

In the future, the press will be used for the Club newspaper (monthly) and any of the necessary print jobs for the club. (Stationary, membership cards, convention print jobs, etc.) If there are any volunteer helpers, we may be able to do some outside printing jobs and in that way turn in some money to the Club coffers. The present publisher will not have the available time, that the extra printing jobs requires.

GARBAGE!

The radio amateur says it's QRM.

Webster's dictionary defines it as offal; refuse.

Ecology, Inc. of Brooklyn N.Y. has another definition; by adding a few nutrients they can process 100 tons of New York City garbage and produce 50 tons of compost that sells for \$500.00 a ton.

Webster also defines the noun refuse as waste or worthless matter and rubbish. The adjective of refuse is rejected; worthless.

Should we revise Webster's dictionary or go back to the good old garbage dump?

P.S. Maybe the FCC should hire Ecology, Inc. of Brooklyn to see what they can do about the "Garbage" on 27 MHz.....ED

SLIVERS & SPLINTERS

Capt. Marv Wheeler, WB4JBS, is now home on leave from Viet Nam. Several of the RCT members have contacted him on 20 meters in Jasper, Alabama where he is enjoying a well-earned vacation with XYL Jean, WA7OII and family. Marv and Jean pass their regards to all W7DK members and friends and plan to be with us for the Northwestern Division Convention in August. Marv will leave for Viet Nam on February 4th to complete his tour there.

The Puget Sound Council of Amateur Radio Clubs meeting, scheduled for January 28th, was canceled due to the inclement weather and has been rescheduled for February 11th.

The Radio Club of Tacoma regular meeting for January 26th, was cancelled due to the weather conditions and was rescheduled for February 2nd. The Caribbean DX-pedition films will be rescheduled for a later date.

Jerry, W7BUN, will start a Novice code and theory class, to be held at his home on Saturday mornings. If you know anyone who needs help getting started and who lives in the Summit View area, call TH 5-7652 for details. Beginning date will probably be in mid-February.

The Tacoma Radio Society has donated their monies, after dis-banding, to the Radio Club of Tacoma. The club voted to turn the money over to the building fund, when and if received.

Don't forget the RCT skating party. Will be on March 23 at the skating rink on South Tacoma Way. There will be a hot-dog dinner before the skating party at the Club house. The charge will be \$1. and this includes the admission and the skates.

Don't forget that dues are due for the new year. If you mail it in, remember that they have gone up to \$8.00.

Dennis, W7ZTG, has his 2 meter repeater in operation. Input is on 146.340 and the out-put is on 146.640. During the day hours it will be carrier operated and tone operated (2100 cycles)

(cont. next column)

Slivers (vont.)

during the night. Eventually it will be tone operated 24 hours a day, when the final sites for operations are finalized and when the Baw %aw repeater is back in operation.

Paul, WA7ESD, still working on his printed circuit boards. Working up to a frequency counter. Ask him how much it cost him to make the first printed circuit board?

Bob, W7RXS, put up a new antenna for 75 and it came down right after the first big wind. Has another one back up now and in business again. New rig works good and sounds good too.

Irene Koth recovering from her recent bout with a train at a rail-road crossing. Walking on her foot now but not running any races.

Roy, K7USF, has joined the Regency gang with a new HR-2. Got a new antenna up also.. Good signal coming from the south end now.

The upstairs rooms at the Club house are looking good, due to the work of Joe Winter and his volunteer work-group. There will still be working parties on Saturdays at 10 am. Most of the wiring is done and a lot of the insulation has been installed.

Marion Wylie, K7TCY, braved the elements and showed up at the club meeting. During the meeting he presented the Club with a check for a refund on the subscriptions renewed through the club, by members. Marion operates a renewal and new subscription service. If any member renews a subscription, thru him, he will donate a percent of his profit to the Club. If all members would take advantage of this, a sizeable amount of cash could be realized for the Club. If a renewal is due on one of your subscriptions, call Marion or write him and he will do the paper work and send you a bill. This includes any special deals offered to you by the magazine or other periodical.

Remember, Dues are due!!!

JANUARY, 1972

1972 CLUB OFFICERS

Elections (concl.)

ELECTION RESULTS

The election for the "72" Club Officers was held during the last meeting of the year, as per Club By-laws.

The nominating committee presented the following names of members to the club, at the first meeting in December;

President Len Goodwin, WA7HHI
 V/President Hank Perozzo, W7UD
 Secretary Dr. E.H. Burton, W7SF
 Treasurer Ken Hoffman, WA7NVX
 Board members (2) Joe Winter Jr., WA7IVO
 Emil Koth, K7GPK

The nominations were opened during the last meeting for additional nominations. However the nominating committee apparently did a good job because no additional nominations came from the floor. All offices were filled from the nominating committee's list of candidates.

A round of congratulations to the new officers.
 (concl. next column)

The coming year will be a big one for the club, with the big convention coming up, so get behind your officers and support them in their efforts on behalf of the club. A big thank you also for the nominating committee for their work in selecting the nominees.

COMING PROGRAMS

by W7BUN

JANUARY 12TH

The Tacoma Civil Defense bus will be on display after the meeting. There are facilities to contact all public agencies, as well as amateur and CB stations in the bus. If you haven't seen the new bus, be sure to attend this meeting.

JANUARY 26TH

Three members from the Mt. Baker Amateur Radio Club, in Bellingham, went on a dx-expedition to some of the "rare" islands in the Caribbean Ocean, this past summer. They will tell us of their adventures and show pictures of the places they operated from. Don't miss this exciting program.

WSCARC NEWS

by W7BUN

The Puget Sound Council of Amateur Radio Clubs will propose to ARRL an optional US prefix, to be used in 1976 during the country's 200th anniversary. The FCC still has not assigned a docket number to the Council's petition, concerning license fees.

The 1971 Ham-of-the-year competition will be taking place soon.

The Western Washington DX Association has submitted a letter, requesting membership in the Council.

The Council donated \$10.00 to the Everett tower fight.

"YOUR LITTLE BOY LOOKS JUST LIKE A SAINT."

"YES, A ST. BERNARD."

BEARS WALK OVER TACOMA

by W7BUN

CW score -Radio Club of Tacoma 507,346 points with 18 entries.

Boeing Employees Amateur Radio Society 560,457 points with 21 entries.

PHONE score-Radio Club of Tacoma 696,945 points with 28 entries. *

Boeing Employees Amateur Radio Society 813,404 points with 33 entries.

*K7VPF, operating W7RM's station made an additional 250,275 points, which will count on our national score. Under a "gentlemen's agreement", between the two clubs, we cannot include this score, for the purpose of our local competition this year, even though Rush Drake, W7RM, joined the Radio

Bears (concl.)

Club of Tacoma in November.

While our total score for the Sweepstakes Contests were twice our total for last year and by far the greatest effort to date, the BEARS emerged from deep in their den and pulled together as never before. It now becomes our embarrassing task to take the two trophies to Seattle and present them to the Boeing club for the coming year.

The primary objective of this local competition was to encourage members of both clubs to cooperate and unite in a common effort and increase enthusiasm for contest operation. This goal has certainly been achieved, as can be evidenced by the scores and the number of club members, who participated this year.

In conclusion, we must congratulate all the BEARS for an outstanding job and thank all the Tacoma hams for a great effort and WATCH OUT NEXT YEAR, BEARS!!

Sunday Nite Movies

on Channel 11

Last week the Commission issued a report and for amending our rules, effective January 7, 1972, to allow 67, 75 and 100 wpm radioteleprinter transmissions in addition to the present "standard" of 60 wpm. This action had its origin in petitions by W8SDZ and WB2LRS and a notice of proposed rule making released by FCC a year ago. Although the latter did not include the 100 wpm provision, FCC says that comments received pointed out the general use of this speed for international communication and thus it was included in the final language.

Director Eaton advises, after many attempts over a period of some years, success has been achieved in getting the Department of Communications to abolish the minimum age for amateur licenses. Until now, an applicant had to be at least 15 years to be eligible for the test.

A third-party message traffic agreement has been signed between Trinidad and the United States, effective December 18. It has been pointed out to me that this is the first instance of "British" willingness to permit its amateurs to handle messages for third parties. Let's hope it will be reflected in the handwriting on the wall.

The usual arrangement has been effected between Korea and the U.S. for phone patching during the holiday season -- specifically, December 1 to January 3.

In addition to its random sampling of mail-communication licensees through callups, FCC is undertaking inspection of amateur station log books in several situations. One is where SSTV "playboy" picture transmission is alleged; another alleged harmful interference to net operations; third is random sampling of renewal applications to ascertain the truth of the affirmation that the activity requirements have been met.

WOMEN'S AUXILIARY

by Rene Smith

Come meet your new President, Jill Anton! This month's Auxiliary meeting was really a treat at one, thanks to Inez Churchward. Her ideas for making a cone wreath, for the holidays. We

(cont. next col.)

also had an exchange of Christmas goodies and recipes.

We have lots of great programs for the coming year. How about sharing the 3rd Wednesday night of each month, with hams wives. Watch the Loggers Bark for the news, each month.

January 19th we will have a lesson on Macrame. Please bring 5 yards of macrame yarn or plain yarn or heavy string and if you have any books on macrame, like 'Sunset type', bring it too.

February 16th Crewel stitchery and needle point.

April 19th ice candle making by Diane and Jill.

May 17th glass cutting.

June 21st---Surprise!!

No meetings in July or August. Come September we will get started early on making Christmas things.

Watch the Loggers Bark for more details.

Hope you had a Merry Christmas.

Come to auxiliary and have an exciting "72". Come anytime between 7 and 8pm. If you need a ride, please call Ethel Devish or me.....Rene.

MEMBER LETTER RECEIVED

Hi Everyone,

Just a note to say have the Merriest of Christmas's and a very Happy New Year from us. We sure wish we could be there to say it in person.

We certainly enjoy getting the club paper and reading what's going on and what everyone is doing. We all look forward eagerly each month to it's arrival. Even the older children read it now. When we lived in Tacoma, they hardly looked at it. The only bad thing about it is that it makes us very homesick and makes the time we have to spend back here, seem just that much longer.

We are sure looking forward to coming home and being able to participate again in all the things the club does. Keep that paper coming, so that we can keep up on what we are missing.

Best wishes to you all and we will see you in 18 months.

BILL PETERSON & MERLE G. POLAND
PAST PROGRAM

Mr. Merle G. Poland, head of the electrical design section for Bonneville Power Administration, gave us a very informative talk on the work done, on pre-construction research, before B.P.A. gives the final OK on new transmission lines. Mr. Poland was ably assisted by Mr. Bill Peterson (electrical engineer) and Mr. Arnie Reader (equipment operator), who demonstrated the B.P.A. truck, which is used on this research. It is hard to realize the work that goes into a project, such as this, until someone explains in detail, the effort put into it.

BPA's MOBILE VAN

MR. PETERSON DEMONSTRATING THE EQUIPMENT

Thanks to B.P.A. for presenting their program to the club by such able people. We hope to have more interesting speakers for the meetings in the near future.

The annual Christmas party was the best ever. 108 people were served. The roast beef was delicious. Anyone going hungry, can blame their bashfulness.

Among the visitors were Mr. and Mrs. Frank Sonnek, WAØJUM of Mobridge, S.D.. Frank and his XYL were passing through the area and happened to contact Jerry, W7BUN, on his 2 meter rig. He was looking for some kind of entertainment for the evening and Jerry invited him to visit with the club at the X-mas Party.

They were sharing the table with Mr. and Mrs. Harry Lewis of Seattle. Also from Seattle was Howard Hays W7HJW and xyl, Jo and their daughter. At the Hay's table, there was also Mr. Jim Grinton, K7VNE of the Mount Baker ARC. Nasty night to drive all the way to Bellingham, Jim. Thanks for coming.

Another group, who braved the wind and rain, was Don W7HMJ and xyl Barbara W7GJL, Ashley. George K7MUI and xyl Arlene Doad. Dick Williams and xyl Pat. Ira K7IEI and xyl Molly McCullough. Don Twining K7GPL and xyl Elva. All of these brave souls came from the Olympia and Shelton area.

There were our old friends from Everett, Dwayne K7KSZ and xyl Pat K7NQR and guests and again we neglected to note their names. The music was so good, that we didn't have time to visit all the tables and get all the names. The dance floor was jammed, indicating that all were enjoying the music. It was much better than some of the music in past years.

Thanks to Jerry, W7BUN, for a very fine evening

American Watchmakers Institute.

The regular meeting of the Board of Directors, the Radio Club of Tacoma was called to order at 5pm., November 3, 1971 by President Dennis Reanier, W7UBA.

The minutes of the last meeting were read and approved.

Doc, W7OS, thanked Joe Winter, WN7RWK, for his help with the homecoming pictures.

Scotty, K7CYZ, will head the committee for the building auction. Scotty also volunteered to head the repeater committee.

Jerry, W7BUN, and George Abbott, WA7BHH, will be on the nominating committee for next year's officers.

Jerry, W7BUN, is willing to edit the ARRL Director's letters for inclusion in the Loggers' Digest. Dennis, W7UBA, will talk to Roy, W7AZI, about this.

We were reminded to invite others to our meetings. We should be on the lookout for new members. Plans for financing the proposed building activities and getting these activities underway, will be discussed.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK, Sec.

CLUB MINUTES 11-24-71

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm., November 24, 1971 by President Dennis Reanier, W7UBA, with members and guests present standing and pledging allegiance to the flag.

The minutes were read and approved.

Since the Treasurer was absent, there was no Treasurer's report.

It was moved, seconded and PASSED that an insurance premium of \$48.00 be paid.

Bob Thurston, W7PGY, Northwest Division Director, gave a report on the recent ARRL executive committee meeting.

Although the report is incomplete, it looks like we have done quite well in the Sweepstakes contest. Various members reported the scores they achieved.

(cont. next column)

Dennis, W7UBA, reported that the board of directors for the Puyallup Fair grounds have accepted our request for the use of their site. Our convention will definitely be held at this place. Rex Hays, W7NP, will head the commercial display activities. All, who wish to volunteer to help with the convention planning, etc., see Dennis.

Joe, WN7RWK, will obtain the window for installation upstairs. Insulation will also be put in soon. Joe still needs more volunteers to help with the building project.

John Austin, K7CZF, said that the communication handled by the AREC, for the Christmas parade, was a success.

Scotty, K7CYZ, reported that plans and equipment for the repeater are progressing satisfactorily.

Don Grant, WA7PIN, moved that proceeds, from the auction, be added to the building fund. At this point Dennis W7UBA spoke in our absent Treasurer's behalf, however the motion was seconded and PASSED.

The nominating committee will be selecting candidates for our coming election of officers at the second meeting in December.

There being no further business the meeting adjourned.

We then stayed for the club auction, where many fantastic electronic bargains were to be had.

Respectfully submitted,

/s/

Chris Jensen WA7MJK
Secretary RCT

CLUB MINUTES 12-8-71

The regular meeting of the Radio Club of Tacoma was called to order at 8:00 pm., December 8, 1971 by President Dennis Reanier, W7UBA, with members and guests present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved.

The Treasurer gave the following report:

Savings account	\$1001.58
Building fund	256.21

Checking account \$58.70

The following bills were approved to be paid:

\$20.72 for new upstairs window

\$4.69 to Joe Winter for building materials.

Joe Winter, WN7RWK, thanked all those, who helped put in the new window. Wiring and insulation are next on the agenda.

Jerry, W7BUN, reported on the success of our Christmas party. 108 people attended, including some from Seattle, Bellingham and even one couple from South Dakota.

Doc, W7OS, reminded all new members to get their pictures taken for our historical album.

Charlie Milhans, WA7QYI, has volunteered to conduct a novice class, starting sometime in January.

The nominating committee has nominated the following members for club offices:

President--Len Goodwin, WA7HHI

Vice President--Hank Perrozzo, W7UD

Secretary--Dr. E.H. Burton, W7SF

Treasurer--Kent Hoffman, WA7NVX

Board members--Nick Winter, WA7IVO and
Emil Koth, K7GFK.

Dennis, W7UBA, announced that the board recommended the following dues increase in order to meet club expenses: Regular membership would be increased from \$6.00 to \$8.00, however the \$1.00 charge for additional family members would remain the same. Student membership would be increased from \$3.00 to \$4.00.

Jerry, W7BUN, has a hand-out available, describing a quick way to check transistors.

Our bowling teams need one more man. Contact Cliff Osborn, W7MFG, for more information.

John Austin, K7CZF, would like ideas on how to get the simulated emergency test program before the public..

It was recommended that a letter to the News Tribune editor be written to explain the difference between CB and amateur radio.

There being no further business, the meeting was adjourned.

We then enjoyed a program, presented by the Bonneville Power Administration. We all had the opportunity to tour their electronic surveillance vehicle and also learned about power line interference problems.

Respectfully submitted,

/s/

Chris Jensen, Secretary

SLIVERS & SPLINTERS

Paul, WA7ESD, home after surgery on his foot. Will be a while before he can do any dancing. Has a cast on and coming along fine.

Irene Koth getting along with her injured

(cont. next column)

foot. Just found out (after walking on it for couple of weeks) it was broken in her car accident.

Roy, K7USF, has a new 2 meter fm rig. Joined the Regency gang!

Bob, W7RXS, busy evenings and days off, putting together a new Heathkit. Won't be long and he will be on, ssb on the low bands.

Merl, W7IKG, has finally lowered the roof on Margie, K7AMJ.

Ralph, W7COP, down in bed for a couple of days with his back problems. Back up now and checking into WARTS regularly along with Dick W7RGD, Emil K7GFK and Jerry W7BUN.

Roy, W7AZL, back in 1st place at the chow line at the Christmas dinner.

Margie, K7AMJ, sticking her nose up to a cream de'cocoa after dinner. What in '2*/ is a Harvey Wabanger?

Where was Joan's (Reanier) Black Russians? They don't make them pink Joan.

Radio Club team #1 and #2 will be playing each other at the New Frontier Bowling Lanes on January 11. How about showing up and rooting for your favorite team?

Don Grant's mother is back in the hospital.

The building committee is looking for more volunteers for work on the club house. The plaster has been removed from the upstairs room and the wiring started. A large amount of wire and sheet rock has been donated to the club.

The club sold the old receivers that have been lying around the club house, for \$10.00.

The club donated \$10.00 to the legal fund of Everett to help in the tower fight going on at this time in the courts.

Doc, W7OS, announced that the club had 18 new members join the club during the year 1971. Dennis, W7UBA, collected top honors with a total of 11 new members signed up.

Scotty, K7CYZ, has resigned from the repeater committee, as chairman. Steve, K7SSC, has been appointed to head up the committee.

Marion Wylie, K7TCY, overheard on 75 meters pleasure to hear you back on Marion. Good way to start the new year off on.

Mel, K7ATF and Smitty, K7ATD out with the Cub, during the recent 3-11 fire on Puyallup Ave. They were joined later by Dick W7RGD and Roy K7USF.

Dennis, W7ZTG, is getting ready to install the first part of his new repeater system on 2 fm. All systems go! Smoke testing the rig at press time.

DECEMBER 1971

NOTICE OF PROPOSED BY-LAW CHANGE

The Board of Directors, in their meeting of November 1, proposed section 2 of the by-laws of Radio Club of Tacoma, Inc. be changed to substitute \$8.00 for \$6.00 after the words, shall be \$4.00 for \$3.00 after the words senior in college shall be.

The board feels the increase is required to normal operational and maintenance expenses this time. This article will serve as the pay notice in writing to all members, as required by the present laws of the club and a vote on the above proposal will be taken during the next meeting of January, 1972.

The following is the complete text of the proposed by-law:

2. The regular dues for all except students shall be eight dollars (8.00) per calendar year except when more than one member of the same family household is a member of the club. In such cases, one dollar (1.00) additional per member annually shall be levied. Dues for students up to and including seniors in college shall be four dollars (4.00) per calendar year. All dues shall be paid annually in advance."

Be sure to be present on the first meeting of the new year to cast your vote.

SWEEPSTAKES PRELIMINARY RESULTS

During the last meeting in November, a preliminary count was taken of the scores turned-in at that time. It was totaled as follows.

Phone points 1,092,098

C.W. points 121,752

This total 1,213,850 is a rough estimate. We expect the members, who participated but haven't been added in their score, will do so as soon as possible. We are hoping to have around one and a half million score.

QUESTION-IS WHAT CHILDREN QUEST AND PARENTS SHUN

PROGRAMS

The Bonneville Power Administration will bring their electronic surveillance vehicle from Portland to our December 8th meeting. This vehicle is a special equipped camper, mounted on a truck, designed for cross country operation. The electronic gear in the camper is used to make pre-energization surveys of proposed routes for new power lines. There will be a program to explain about power line interference problems and then we will all have an opportunity to look inside BPA's special truck.

On December 22 the club will have the special Bob Hope Christmas show. This is the uncensored movie of the Bob Hope Christmas show. (Not the version seen on television) Bring the xyl out for this special program.

January the club will see slides and movies of the 1971 expedition to the Caribbean Islands by members of the Mt. Baker Amateur Club.

REPEATER NEWS

The 2 meter repeater is slowly coming along. We have the receiver and transmitter. At the time you read this we should have the power supply working and the receiver installed and working. The receiver will be located at Scotty's, K7CYZ, qth with the receiving antenna approximately 40 ft. up. The receiver input will be 146.610 and will have a twisted pair connection to the transmitter at the club house. The transmitter will be on 146.640. It is planned to have stacked J-poles at both locations but until we can acquire same..... it will be either a sewer pipe or 5/8 wave ground plane. More on this as things develop.....ED P.S.

There is another 2 meter repeater going up in Tacoma. Denny, W7ZTG, is installing a repeater. Should be ready before the Club's is on the air. Input, so far, is 146.340. Output is 146.940.

Address all articles Scotty Huntley K7CYZ, 802 South Lawrence, Tacoma Washington, 98405. Address all advertising and swap column articles to Dick Ryan W7RGD, 1220 South 9th St. Tacoma Washington, 98405. Contact K7CYZ or W7RGD for advertising rates. Swap column is free to members of the Radio Club of Tacoma Inc.. The Loggers Bark does not guarantee or verify the statements in the swap column. The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

Repeaters (concl.)

This is designed to tie in with Baw-Faw and the Canadian repeaters. We will have Denny give us a full description in the January Loggers Bark. His repeater will be tone controlled, where-as the Club's will not. We figure that the Club repeater should be available to vacationers and travelers going thru. If they didn't know the exact tone or note, they would be out. We may go tone operation later if the need seems necessary.

NARCS NEW OFFICERS

The new officers for the Northwest Amateur Communications System are as follows:

President Lind Simonsen W7JHK

Vice President Milt Perkins W7EBV

Sec/Treas. Barbara Ashley W7GJL

Exec. Director Don Ashley W7HMJ

Also the N.A.R.C.S. have taken the job of installing and maintaining the six meter repeater on Capital Peak. This is the repeater that was formerly on Tumwater hill.

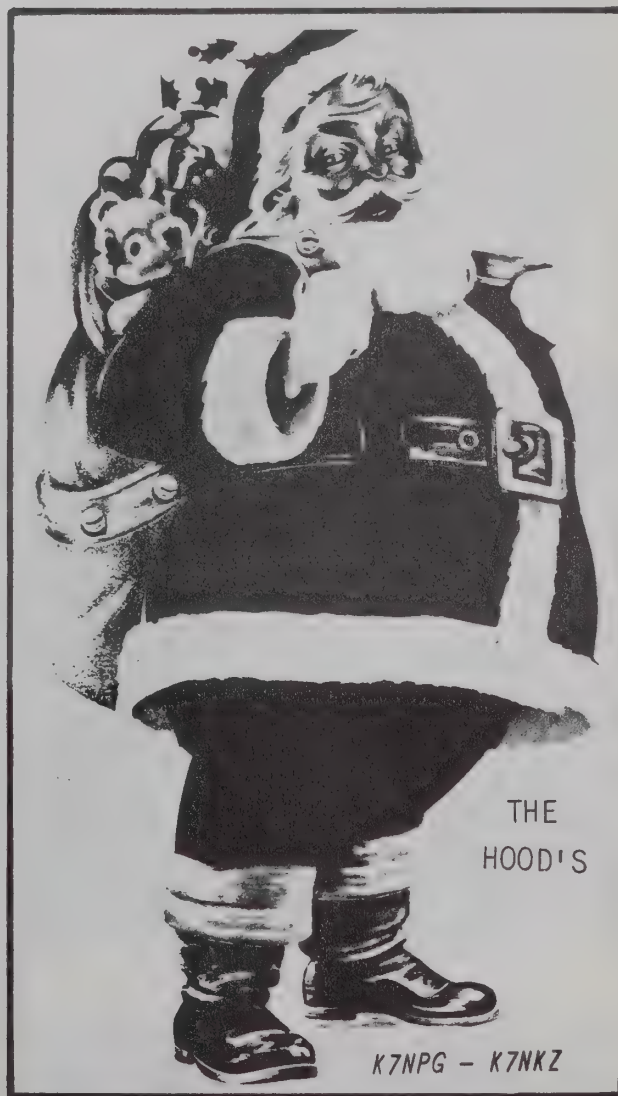

The new frequencies are: 52.525 MHz input and 53.030MHz output.

Good luck to the new officers and happy hill-topping on Capitol Peak.

DON'T FORGET, DUES ARE COMING DUE.

SANTA PARADE

The A.R.E.C. gang worked the annual Eagles SANTA Parade in South Tacoma, Saturday November 20. Everything went OK. They received congratulations from Mr. Mike Evans, Eagles Lodge Parade Director.

The A.R.E.C. hams on the job (all Radio Club of Tacoma members) were: LaVern K7NKZ, Pierce County EC, John K7CZF, area 4 AREC net control, Byrl K7NPG, Dick W7RGD, Roy K7USF and Scotty K7CYZ.

Thanks to the City of Tacoma CD for the use of their communications bus.. LaVerne says that next year she wants a couple more mobiles or walkie-talkies!

The weather was good and it was the largest crowd ever.

CONVENTION

It is official, the Club voted to acquire the Western Washington Fair grounds in Puyallup for the Northwest Division ARRL Convention, August 19 & 20, 1972. Dennis W7UBA is convention Chairman. He is going to need all the help we can give him. We do know that the banquet and dance will be Saturday

(cont. next column)

Convention (concl.)

August 19th. There will be live music. Other information will be passed along to you as they develop.

CLUB MINUTES 11-20-71

The regular meeting of the Radio Club of Tacoma Inc. was called to order at 8:00pm., November 10, 1971 by President Dennis Reanier, W7UBA, with members present standing and pledging allegiance to the flag.

The minutes were read and approved as correct. The Treasurer reported the following:

Savings account	\$1051.58
Checking account	75.78
Building fund	185.56

It was moved, seconded and PASSED that we pay the following bills:

\$7.50 Film expenses for Joe Winter, WN7RWK
(cont. next page)

Who are dedicated to the advancement of the art and science of horology.

Joe, WN7RWK, said that volunteers were still needed to help on our building project.

It was moved, seconded and PASSED that insulation and a window be purchased and installed in upstairs of the building.

Jerry, W7BUN, announced that logs and summary sheets, for the Sweepstakes contest, should be turned into the Secretary before the end of the month.

Dennis, W7UBA, described the advantages of the Western Washington State fair grounds for a convention site. After discussion, it was moved, seconded and PASSED that the fair-grounds be used as the site of the 1972 Northwest Divisional Convention.

Glen, WA7HHI and Jerry, W7BUN will contact the City of Puyallup, to find out about facilities for exhibitors at the convention site.

Scotty, K7CYZ, has volunteered to head our speaker committee.

Doc, W7OS, obtained a news chairman's handbook from the News Tribune to help us with news writing.

Doug, WA7OHD, will be leaving for California soon. We will all miss this fine club member.

Doc, W7OS, announced that the picture from the upcoming night are now ready and are in our photo albums.

Frank, W7UD, offered to head a committee to help beginners and those who want upgrading in ham radio.

Bill Chovil, K7VQM, has been donating his time to cataloging our club library.

Nominations for 1972 club officers will be open at the first meeting of November.

It is with great pleasure that we welcome to the Radio Club of Tacoma, the following newly elected members: Burton C, Coley WN7QOK; William Deathrage WN7SCN; Rush S. Drake W7RM; Glen E. Wilson WA7LON; David T. Robinson K7BBO and David Reed WN7GGI.

There being no further business, the meeting adjourned. We then enjoyed a discussion, with
(concl. next column)

various club members, as to tactics for the Sweepstakes contest.

Respectfully submitted,
/s/
Chris Jensen WA7MJK
secretary

FIELD DAY RESULTS

BY WA7OHD

The Radio Club of Tacoma upheld its reputation again this year as one of the high Field Day scorers in the nation. Final results (from QST for November '71) place us first (in a field of 5) in class 10A (10 transmitters) with a total of 5,350 points. In comparison with all other entries (in all transmitter classes) we are 13th in 822 A class entries, 2nd, west of the Mississippi and 1st in the 7th call area; certainly an excellent showing! Comparing the past three years:

	1969	1970	1971
Nr. of transmitters	9	13	10
Nr. of contacts	2832	2339	2075
Total score *1	19032	17937	5350
National rank *2	7TH	15TH	13TH

(*1) The scoring system changed for 1971

(*2) Compared with all transmitter classes

As band conditions continue to worsen the total number of contacts will naturally drop; however,

this trend generally affects everyone!

Several changes were seen in this years rules. If you feel that they were good or bad or if you can suggest others that might help the contest, do so.

The ARRL Contest Advisory Committee (W3GRF, chmn.) is open to suggestions.

SLIVERS & SPLINTERS

Jerry W7BUN and Len WA7HHI met and then camped with 4 members of the Skagit Amateur Radio Club at the Harrison Hot Springs in British Columbia, over the Thanksgiving Holiday. The group visited Chilliwack Radio Club and were warmly welcomed by the Canadian group. A very wet but enjoyable camp-out was had by all.

Several of the RCT members are planning to meet with the Mike and Key Radio Club of Kent for their Saturday, December 18th meeting at 10:00am.. If interested in attending this meeting, contact Jerry, W7BUN.

Nominating committee, consisting of W7BUN, WA7BHH and WA7NVX. Recommendations from them will be presented at the December 8th meeting. If you have any suggestions for nominations, please contact one of the committee members.

If your Sweepstakes contest entries with summary sheet has not been turned into the Secretary, please do so right away. The deadline is fast approaching.

There is a possibility that the Mike and Key Club will challenge the RCT and BEARS for next years Sweepstakes contest.

The Northwest Amateur Radio Communications System of Olympia will hold their December meeting in conjunction with our December 8th meeting, in order to attend our special program. Other visitors from the area are also expected.

Dewey, W7HF, was presented a gavel by Doc, W7OS, during the November meeting. This is for his work with the Northwest Quarter Century Club.

Bob, W7PGY, gave the club a good report on the activities at ARRL headquarters. Bob just got back from the numerous business sessions.

Joe, W7IG, was presented his Honorary Club membership certificate during the last meeting in November.

Congratulations to Donna and Steve (K7SSC) on a new son, Robert Donald, born September 30th. Mother and son doing fine. Father just recovering.

(cont. next column)

A group of club members camped out at the ocean during the Thanksgiving week-end. K7ATD and xy Rene, Bob and Inez (W7RXS & W7RXT), Beryl and LaVerne (K7NPG & K7NKZ) and Dick W7RGD. Lots of rain during the week-end but a good time was had by all.

Paul, WA7ESD, busy on making printed circuit boards. Even has xyl, Jill WA7KSD working on the layout work. From the results it looks like they make a good team.

John, K7CZF, is now taking check-ins from his mobile, on the AREC net drills. Guess the qth is lousy for hearing the weak-ones. Don't miss very many from on top of the hill overlooking the city.

The Devish's W7AZI & W7WLX are back from their vacation trip into the South Pacific.

Cliff, W7MFG, just completed his 2m fm rig. Smoked tested and still operating. Have any problems with the construction and processing of printed circuit boards, contact Cliff.

Dennis, W7ZTG, has his repeater almost operational. Has the receiver operating, all the control functions working. Just waiting for the uhf gear to arrive, hook up and smoke test it.

NOVEMBER 1971

*DON'T FORGET 'SWEEPSTAKES' CONTEST!
NOVEMBER 13-14 & 20-21*

SWEEPSTAKES LOGS AVAILABLE

Jerry, W7BUN, has Sweepstakes logs and dupe sheets for club members who are participating in ARRL November Sweepstakes contests. They will be available at the November 10th club meeting.

Remember, all entries must also have a summary sheet. They will also be available on meeting night.

All persons participating in Sweepstakes, be sure to get your completed logs, dupe sheets and summary sheet into the Club's Secretary before the 1st of November. ALL entries will be summarized and entered as a club aggregate score. Member's entries will still receive individual credit for single credit with the scoring committee at ARRL.

Remember the dates! November 13 & 14 for phone portion and November 20 & 21 for cw portion. Be sure the BEARS don't get you!!

MINUTES HOMECOMING NIGHT

by W7OS

Almost all agree that "Homecoming 1971" was a tremendous success held on our regular club meeting night, October 13th, 1971. The minutes and business were dispensed with and the evening given over to a scene seldom if ever experienced at the Radio Club of Tacoma, with our club facilities bursting with enthusiastic hams. There were 23 active members and 44 alumni, all enjoying a good old fashion eyeball chats with members of their own era, going back to 1915.

There were two, still active charter members, Dwight Mason ex7DL, Doc Spike W7OS ex7AF and 7CS. There were five alumni, Charter members; Norman J. Arndt ex7AK, Eldred E. Dupea ex7DT, Chester LaMont ex7CX and now W7ALM, Charles A. Nicholson (no call) and Ardis H. Reeder ex7CQ.

DK'S ANNUAL CHRISTMAS PARTY

by W7BUN

The Club's annual Christmas Party will be held December 4th at the McChord AFB, NCO Club, in the Cascade Room. The bar will open at 6:30 and a roast-beef and chicken buffet will start at 7:00pm (all you can eat). Following, there will be dancing and music from 9:00 to 1:00am. Ann Jones and her all-girl band will be playing popular and Western-style music. (This is not a rock group)

All reservations must be paid in advance - deadline is December 2nd. Cost of the dinner is \$2.75 per person and this includes the tip. Minors will be permitted for the dinner only.

Contact Jerry, W7BUN, (TH 5-7652) for information or reservations.

DRIVE DEFENSIVELY. BUY A TANK.

PSCARC NEWS

by W7BUN

The Puget Sound Council of Amateur Radio Club is petitioning the FCC to allow an applicant, who fails any part of his amateur exam, to be permitted to retake the entire exam one more time, within one year at any FCC Office. Bill Goodloe WA7GWJ, is preparing the final form for submission. After this has been placed on the FCC's docket, we will all have our chance to make our comment. Pete, K7IPQ, of the Mike and Key Club, will start the ball rolling, to form a repeater advisory council; the first meeting will be in November, at the Civil Defense building in Kent.

The Council issued 149 certificates for Amateur Radio Week contacts.

All Council meetings are open to anyone and members of Council clubs are especially welcome. The next meeting will be November 19th at W7HJW QTH in Seattle.

1916-1920 MEMBERS

Homecoming (cont.)

In the next era (Post World War I group) one active member, George Faithful ex7GC and now D and nine former members or alumni of the 1920 . They were William Barrett ex7TU, William ton exW7AAE, Kenneth Hager W7KQ, Herbert J. t exW7AIJ, Kenneth Keigley exW7DM, Donald Klumb 7AFO, Greg Olson exW7UW, William Reuter W7KT Harley Smith exW7AVA.

A complete list of all those who registered for coming is enclosed. We are pretty sure there e some who did not register and yet were there. Our President, Dennis Reanier W7UBA, welcomed alumni and invited them to enjoy an evening of ating re-acquainted and hoped all would come sit, whenever they could.

Our Vice President, Jerry Seligman W7EUN, gave outline of our aims and accomplishments.

Our membership historian discribed a little of Club's history and asked that our photographer ht take some individual photos of individuals, front of either our museum old time ham radio tion or the modern station. We hoped that we ld get pictures of groups such as, past Presi- ts, Charter members, 1920's era, 1930 era and e 1940. We also invited all to view our albums the individual members, the albums of group ivities and our album of Silent Keys. In the ming months we hope to get all the pictures ken, into the albums and some in the Loggers ck.

Ice cream, cake, cookies, coffee and soft nks were served by our chef Roy Devish W7AZI ladies of the Auxiliary. Our parking area was ddled by Nick inter WA7IVO, WA7NTF, WA7KID and VOID. Our photographers were W7RGD, WN7RWK and OS. Warren L. Green W7JY sent over, from ttle, his rotary spark gap and other old time r. Howard Hanson, W7MRX, arranged the old time r. Dennis, W7UBA, brought in the modern radio

20'S MEMBERS

Homecoming (cont.)

gear. Bill Chovil, K7VQM, our librarian, set up the display of the old and new group pictures and books.

The Radio Club of Tacoma, its officers and members are very grateful to Max Bice, Mr. Paul Anderson (editor of the Tacoma News Tribune) and Richard Sypher (reporter), who gave us the very good write-up on our homecoming, on page A-24 of the October 10th Sunday paper.

I think there were some others, who did not register on the information pink slips but we all agree, not to wait for another 55 years before having another "Homecoming". Next time we will emphasize the large group of our alumni between the years 1950 and 1960, who for what ever reason, are not now active.

We hope to have, soon, a pretty complete roster of the entire membership of the club, starting in 1915 and kept up to date.

There were many we could not reach by mail, due to poor addresses and there were some, who hoped to come but didn't make it. We missed them and hope that they will keep in touch with us.

We received some letters and pictures from some who were just too far away to make it and there are a few letters we hope to publish in the near future, in the Loggers Bark, all of which we are happy to hear from and some of which are here acknowledged:

Mrs. Winifred (Dow) Williams of Alaska, ex7CB & 7FG.

Mr. Walter E. Steward now of Bend Oregon.

Mr. Leslie E. Lunan now of San Bernardino Cal. ex7LL.

Mr. Gene R. Russell now Farewell Alaska exW7DRN and now KL7SDY.

Mr. C.R. Pland of Chesterfield England exNU7EFF and now G5CP.

Mr. Walter King of St. Charles, Mo. W7EIK/Ø and W6BXF.

(Concl. next page)

1930 MEMBERS

Homecoming (concluded)

Mr. Raymond F. Davies of Aberdeen, Wa. ex7AAF and now W7EHO.

Mr. Ted Bentz ex7MM of Tacoma, who is ill.

Registrations were ably handled by our Secretary, Chris Jensen WA7MIK. Reservations and name cards for the lapel were arranged by Ethel Devish, W7WLX.

My thanks to all members, who in their own way, helped me on this, the most wonderful, interesting venture of my amateur career.

Doc Spike W7OS
Club Historian

(ED'S note: see list of attending persons, elsewhere in this edition)

CLUB MINUTES 9-22-71

The regular meeting of the Radio Club of Tacoma was called to order at 8:10pm. September 22, 1971 by President, Dennis Reanier W7UBA, with members and guests present standing and pledging allegiance to the flag.

It was reported that Don Grant's mother has been ill but is improving somewhat. A card will be sent.

Treasurer's report:

Savings account	\$1144.96
Checking account	36.81
Building fund	155.60

Ed Coles, K7CZM, will take care of the QSL's for field day.

Jerry, W7BUN, reported on the progress of our club's display and operating booth at the Western Washington State Fair at Puyallup. It is a great success. The people are showing much interest in amateur radio and many messages are being relayed. Garry Martin W7GRS, has been taking our traffic (cont. next column)

from the fair. A letter of thanks will be written.

Joe Winter, W7RWK, announced that he will need help with the cement blocks, for our foundation this weekend. There were a number of volunteers.

Doc, W7OS, outlined the preparations necessary for our club's "Home-Coming" on October 13th. Addresses need to be looked up, letters need to be addressed and mailed and the club house must be made ready for our guests. Many volunteered to help with these projects.

Jerry, W7BUN, announced that our Christmas Party will be on December 4th this year. It will commemorate the 8th anniversary of the Logger Bark.

Dennis, W7UBA, discussed the progress of plans for the Northwest Division Convention, which our club will host.

Rex Hays, W7NP, reminded us to be preparing for the coming Sweepstakes Contest. The BEARS could beat us, if we are not on our toes.

There being no further business, the meeting was adjourned at 9:40pm.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK

Secretary

A group from the Radio Club of Tacoma, will be spending Thanksgiving weekend at Pete's Trailer Park, Harrison Hot Springs in B.C. About six trailers from the Skagit Amateur Radio Club will also be enjoying the get-to-gether. Side trips are planned as well as lots of soaking in the famous hot springs. Contact Jerry, W7BUN, or Len, WA7HHI, for further details.

Who are dedicated to the advancement of the art and science of horology.

AWI CODE OF ETHICS

I will not knowingly mislead, deceive or defraud the public.

I will not advertise in any manner that is untruthful or misleading.

I will not knowingly represent a watch to have been overhauled unless it has been properly cleaned and regulated.

I will not knowingly represent to the public that certain parts are required for a watch which are actually unnecessary in the repair to be performed.

I agree that it is unethical to perform any unworkmanlike or unskilled watch repairs.

I agree to conduct myself in my business and private life in such a manner as will reflect credit to myself, the American Watchmakers Institute, my fellow professionals and the entire industry.

SPECIAL PROGRAM

by W7BUN

The Bernville Power Administration will bring their Electronic Surveillance Vehicle from Portland to our December 8th meeting. This vehicle is a special equipped camper, mounted on a truck, designed for cross country operation. The electronic gear in the camper is used to make pre-energization surveys of proposed routes for new power lines. There will be a program to explain about power line interference problems and then we will all have an opportunity to look inside BPA's special truck.

LADIES AUXILIARY

by Rene Smith

Did you ever wish for a second chance? Now you have it!

LaVerne Hood, K7NKK, will show those great pictures again, that she took in Europe. I know a lot of you ladies, that didn't get to the men's club meeting the night she showed them, were sorry.

Come to Ladies Auxiliary on November 17th, at the club house, and have a great evening of slides and fun. The time is 7:00 to 8:00 for fun and games. A short business meeting and then pictures and refreshments following. See you there!

SWAP COLUMN

MAKE OFFER

TEN-TEC QRP x-cvr model FM-2B; 80-40-20 meters. CW 2 watts. Will sell or trade. Make offer.

Heathkit HW-29A "sixer" with manual \$22.00

250-TH vacuum tube in factory carton. (never used)

Make offer. Need a pair of 813s.

Contact Garry Kohtala WA7NIF.

Twisted pair 967-6659.

FORMER MEMBER LETTER (1916)

Box 752

Wrangell, Alaska

October 8, 1971

Dear Clifford-and all the boys & girls of the Radio Club of Tacoma,

To say I was pleasantly surprised to receive your letter would be putting it mildly! What memories it recalled. I surely do wish I could attend the Home Coming, Wednesday night. However I'll be thinking of you all. How well I remember the lowly "beginnings" of the Radio Club of Tacoma and now you have your own club house. A far cry from how we used to meet, here, there or anywhere we could find room.

I recall, to, the pleasurable visits to one-another's homes and how nice you boys always were to me. I remember especially one Sunday afternoon visit to Otto Nicholson's to see his pickle-bottle audion. Any new innovation was always

(cont. next column.)

Letter (cont.)

cause for a "field trip" by the rest of the gang. It certainly was from such experiments and trial (I hope NASA appreciates it) that such almost unbelievable communications are possible today in space. It was the lowly ham that helped jump from the old Ford spark gap to a rotary gap - that was really something! (Can't you still smell that ozone?)

After 36 years in the newspaper business, here in Alaska, Lew and I are now retired old folks. Our son is still in the newspaper business, in Sitka and Ketchikan; we have a daughter in Ortino and one in Juneau - all, of course, with almost grown families of their own.

However, even at my advanced age (69) I find that I haven't entirely forgotten the code. In fact, during our newspaper years I used to sometimes, copy our Associated Press news from KFS at night, rather than wait until the next day to get it from our local Army Signal Corps station. All Alaska telegraph stations were under the army and of course, government messages came first. (That was before teletype finally got up here)

I'm sorry I have no picture of myself and Wrangell doesn't boast a photographer's shop. I am just as well. I'm just a wrinkled, dried up old lady, who would do nothing, I'm sure to grace your album. However, if and when I may be in Tacoma sometime (which is not unlikely) I may just walk in on one of your meetings and demand admittance!

Sincere 73's to all old friends and best wishes to one and all of the Radio Club of Tacoma.

Ex-Ham

Winifred

SLIVERS & SPLINTERS

Frank Connelly, WA7GWL, now back at AR as an assistant in the Communications Department. Is on 14,285 to 14,295 at 5:00 to 5:45pm., looking for contacts with the local bunch.

Overheard on "Homecoming" nite; Complete directions on how to build a 75 meter coil, using mothers oats box; directions on building a

Slivers (concl.)

ear mobile antenna for a 1924 Buick.
Good luck to Roy and Ethel (W7AZI & W7WLX) on the
South Sea Island trip coming-up shortly.
Don Grant's mother is improving on her recent
illness.

Marion Wylie, K7TCY, improving on his recent
illness. Is at home and the doctor is allowing
him to operate on the rig, one hour a day.
Thanks go to Ev Syverson (former member of DK)
for donating to the club, a large collection of
magazines.

Joe Winter is looking for help to jack-up the
club house for future work on the interior. Please
contact him as soon as possible if you will be
available for this task. No further work on the
interior of the club house is possible until this
has been done. Help! Help! Help!

Dick Ohls K7ITX and Terry Denbrook K7JYA are
being reinstated into the club. Both showed up at
meeting night and decided maybe they were miss-
ing our. Welcome aboard to both.

Beryl K7NPG and LaVerne K7NKZ have a new 19'
traveler trailer. Already have tried it out with
success. Took the 2 meter rig along to keep in
touch with civilization. The trailer worked slick
and the rig went hay-wire. How about that?

Merl, W7IKG, making great headway on his QTH.
Saves much time for hamming, when you are swinging
hammer and paint brush. No complaints from
him, Margie K7AMJ.

Bob W7RXS, Inez W7RXT and Dick W7RGD back from
trip into Oregon high country. Got cold enough
last night to freeze the pipes on Bob's trailer.
All three of them took off again to Sequim Bay
Park, where they met the Smith's, K7ATD. Had a
blast on mushrooms, picked in the park.

A minute of silence was observed at the club's
meeting for George Manudsier, who joined the ranks
of Silent Keys. 73.

Smitty K7ATD, Roy K7USF and Dick W7RGD had the
club bus out for the annual city dance for the
schools. Nothing exceptional happened but this
may be because of the bus's presence on the scene.
Less work involved, compared to a 2-11 fire!!
(concl. next column.)

Splinters concl.)

Art, K7CYQ, busy working on his 2 meter rig
getting it ready for repeater operations. Good
signal coming now from the Bonney Lake area.

Ralph, W7COP, enjoying the new s.s.b. rig. Had
a long qso with former member, Dick Young (Doc)
W7JJA in Salmon Idaho.

Dennis, W7UBA, has the concrete poured for his
tower. Getting ready for SS? You betcha!

Denny, W7ZTG, has the parts now and looking for
the time to put together his rock-crusher on 2 fm.

Doc, W7OS, just now un-winding from the big
homecoming night at the club house. The club owes
him a big thank you for the tireless effort, Doc
put into that night. Everything went like clock-
work with a gigantic turn-out. Thanks Doc! Thank
yous' go to the many, who assisted him!

Late news item as we go to press. Irene Koth,
wyl to Emil, K7GPK, back home recuperating from in-
juries received in a car-train accident. Still on
crutches but feeling glad the injuries aren't a
lot worse. She looks and feels a lot better than
her car does.

73 for this month.

OCTOBER 1971

RADIO CLUB OF TACOMA, HOME-COMING NIGHT!!

OCTOBER 13TH, 1971

We, who are active in the Radio Club of Tacoma, like to think of "THE RADIO CLUB OF TACOMA" as a high school, or a college, or a university, where we can learn a little more about our hobby, HAM RADIO and to have a little fun together. And if our fortunes might have taken us away, I am sure that one of us would sometime or other, if but for one evening - we might dream of coming home to visit our Radio Club. To visit with some of those who were active when we too were active and to get to know those, who are active today. We are planning to welcome (and we hope you all will help make welcome) those of our alumni (former members) who may be able to come and visit their Radio Club on.....

HOME - COMING NIGHT

WEDNESDAY

October 13th, 1971

Please call or write to:
Mrs. Ethel Devish, W7WLX, (Reservations Chairman)
30 East 64th Street
Tacoma, Washington 98404
Telephone GR 2-4213

Let her know how much ice-cream and cake to provide and how many chairs will be needed, etc.. It should be a Home Coming Time and all active club members should participate whether on a committee or not. It can be a source of renewed acquaintances and possibly reinstatement of inactive members. We have lost a lot of members and maybe we can have regular home-coming events.

Don't forget October 13th and mark it on your calendar. See you at the Club house.

.....Doc Spike W7OS

Home Coming Night!!

OCTOBER 27

WA7NUK speaker. Will show slides and speak about the Seattle 2 meter f.m. repeater. (This was scheduled for September but was canceled due to other commitments)

CLUBHOUSE REMODELING

Due to his mother's serious condition, Don Grant has reluctantly resigned his chairmanship of the Clubhouse remodeling project. Don said, "I will be available to work on projects but can't commit myself for specific times". We thank Don for his work and wish his mother a speedy recovery.

Joe Winter has volunteered to temporarily head the project. He went to work for the City on a temporary basis 23 years ago, so looks good. Joe is looking for volunteers. Let him know your skills.

..... Dennis, W7UBA

W7OS & K7NKZ WORKING THE BOOTH

WESTERN WASHINGTON FAIR by W7BUN

The Radio Club's exhibit at the Western Washington Fair in Puyallup, was one of the most successful public relations activities the club has ever under-taken. Thousands of fair-goers were introduced to the many different aspects of ham radio. A display of old-time radio gear and a collection of home-made equipment proved to be attention getters.

The focal point, however, was the operating station on 2 and 75 meters and the public seemed quite fascinated by the monitor scope flashing, whenever the operator transmitted. A sign invited our visitors to send radiograms and a display of 340 of them took the opportunity to send a message from the fair!

A guest book was provided for visiting hams to sign and the total number of licensed amateurs in the book was 437. (This included 42 Novices, 4 calls and 14 ex-hams) The guest book provided
(cont. next column)

2 & 75 METER POSITION

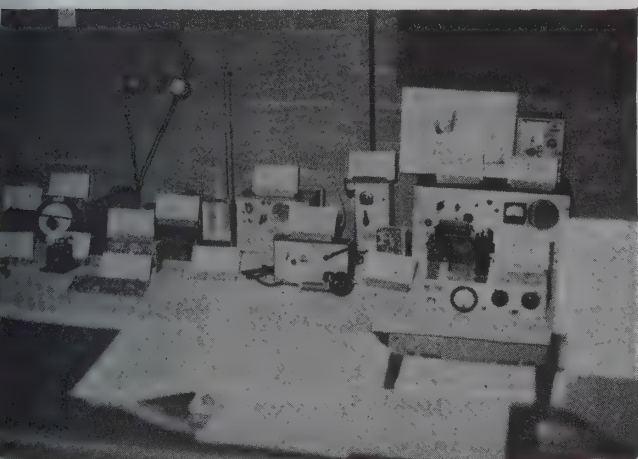

Fair (concl.)

our only problem, since many citizen banders sincerely believe they are radio amateurs and tried to sign in! The gentleman, who sold us our present club house, also signed the book.

The response to our exhibit was extremely gratifying. Many people expressed an interest in becoming licensed and quite a few ex-hams and inactive hams became enthused about getting back on the air.

There were 30 club members who helped with the operating and counter duties and many others, who helped with the installation of the station and antennas. My profound thanks to all of you.

One woman came up to our counter, grabbed my hand and shook it. She said her husband was overseas and amateurs had been phone-patching for them but this was the first opportunity she had ever had, to personally shake the hand of an amateur and say "thanks" to all of us. After that, all the effort to set up and man our display seemed completely worthwhile!

W7ZTG-WA7HXL-K7USF-FAYE

BAWFAW TRIE

On August 29 a group of Radio Club members made a visit with Dan, WA7QMV, in Castle Rock. Denny W7ZTG and xyl Diane WA7HXL, Roy K7USF and xyl Faye and Dick W7RCD arrived about 9:30am. at Dan's home. Everyone piled into Dan's and Dick's 4 wheel drive vehicles and started out on the trip up to the Bawfaw, 2 meter repeater site, located 3,300 feet above sea-level. The road up was good and no problem to negotiate for a regular car until a point about a half mile to 3/4 mile below the summit, where the grade became steeper and the road a lot rougher to navigate.

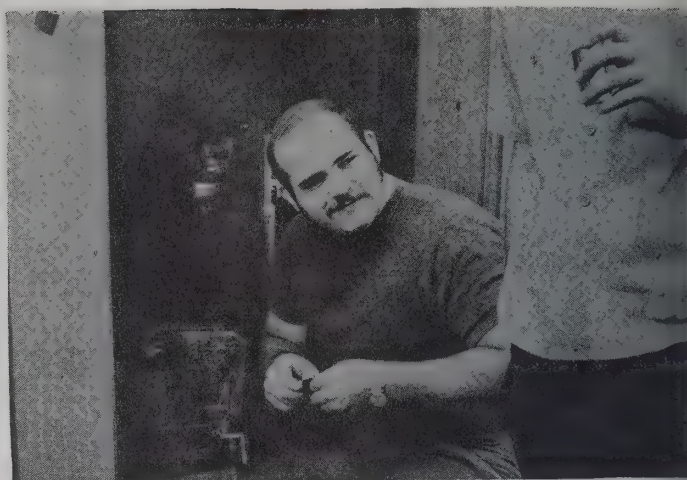

The weather, down below, was overcast but still "shirt-sleeve" type. At the repeater it was a lot cooler but still tolerable. However visibility was limited, due to the cloud layer. At times the antenna, atop a 75 foot pole, was not visible and caused troubles getting a picture of it.

Weather is one of the major problems at the location. Because of the elevation, the site is virtually inaccessible for about 7 to 9 months of the year. Even with the heat generated by the equipment, it becomes necessary to provide heat in the building during the winter months to keep the equipment operating properly.

As you approach the site the first thing that will catch your eye, is the porcupine appearance with antennas of all sorts and sizes jutting up into the sky on towers and poles. Scattered among the antenna systems, are various small buildings and towering over the whole area is an old desert-fire watcher's lookout tower.

Dan grabbed his tool box and started out, with the DK group in tow to a small shed and unlocked the door. If the shed had a half-moon cut over the top of the door, you might be able to visualize the size of the building. However, the

(cont. next column)

DAN WA7QMV

Bawfaw. (cont.)

size is no indication of the tremendous job the equipment is accomplishing inside, completely on its own, with no human control to switch or identify itself. The equipment does need a little help, occasionally, to keep up this 24 hour-a-day 7 day a week job. Unlike you or me, it doesn't need a cup of coffee to keep going but needs a soldering gun applied by an experienced hand to keep its innards in good operation. This was the purpose of Dan's trip today, along with the tour for the DK group. The repeater's identifier had hung-up on the key-down position thus inserting an audio note onto the transmitted signal. A quick check, by Dan, located the trouble maker. In a few minutes the offending trouble maker was removed. The repeated signal was then back to the clean crisp signal that it was designed to put out.

As we watched Dan make the necessary repairs, we could hear the small speaker, hooked onto the output of the receiver, blating away with hams talking in the Portland area. These stations were operating through the Portland repeater. The Bawfaw repeater requires a 1,950 cycle tone burst for at least a half second, to these signals coming from the Portland area were not being repeated.

The 1,950 cycle burst is approximately the same as "B" in the third octave above middle "C" on the musical scale. Most hams can whistle this note after a little practice but the the professional "touch", a built-in tone generator can be inserted into the audio input, which will give this short (1/2 second) tone burst. (See last month's issue of the Bark for W7EUN's schematic for tone generator)

The repeater is designed to operate with an input signal of 146.340MHz and transmit (repeat) on an output frequency of 146.940MHz. A delay circuit of approximately 4 to 5 seconds is in-

(concl. next page)

APPLICATION FOR CHARTER MEMBERSHIP

IN BAW FAW REPEATER GROUP

The Baw Faw Repeater Group (B.F.R.G.) has been formed to facilitate Communications between amateurs, and to provide funds to finance a more reliable repeater system, with continuous maintenance and improvements.

Users are in no way obligated to take up membership unless they feel that they would enjoy contributing ideas and possibly occasional help on the system.

Members will probably be called upon in the future for ideas and for their personal feelings concerning changes made to the system. All Charter Members will be advised of any major changes contemplated by the Executive Committee.

It is assumed by the Executive Committee that the majority of the repeater users will want to join the repeater group - in this way substantial improvements to the system will be made in the near future.

Amateurs wishing to become Charter Members should fill out this form and return it to the address below, along with a contribution of \$ 7.50.

A Membership card will be mailed to the Member, and a listing of Members will be sent at regular intervals.

THE INNARDS OF BAWFAW

Bawfaw (cont.)

incorporated into the transmitter. This was included so that if a incoming signal should be lost for a couple of seconds, the transmitter will stay-on the air for 4 to 5 seconds. Thus, if the transmitting station should accidentally let go of the mike button or drop his carrier for other reasons, the repeater will not shut-down. This also helps the mobiler, who might fade out for a second or two, because of changing locations. This provides a simple check for the designing of a tone generator. If after transmitting, you receive a signal back on the repeater frequency, you know you have the right pitch and have triggered the repeater. This also allows "tail-gating". If you are in contact with another station, it is possible to transmit back without the tone burst, if your carrier is on within the 4 second period, after the station being worked, drops his carrier. However, if you "tail-gate" back and forth for over a period exceeding 3 minutes or just plain rag chew for more than 3 minutes, the repeater will shut down. Then a period of approximately 20 seconds must elapse before the system can be reactivated with a tone burst. Dan explained the normal procedure would be for each member in the qos to pause between transmissions and recycle the system with the tone burst. In this manner, in normal qos, the system will operate without cutting any one off the air in the middle of a transmission. This time out is for the protection of the gear.

Due to the elevation of the repeater site, it is one of the best, if not THE BEST for north-
(cont. next column)

Bawfaw (concl.)

south repeater operation. Signals from all up-and-down the coast were copied, even on Dick's sma one watt walkie-talkie. Two-way was establish with Dwayne, K7KSZ in Everett and with the gang Portland without the aid of the repeater. Pro of the good location is evidenced by the many r lay and repeaters on police and commercial use scattered around the site.

A Motorola 80-D is used for the system, with power of 65 watts. 19 watts is dissipated in the cavity leaving about 46 watts delivered to the Gibson antenna, which is omni-directional. The antenna is rated at 4.8 db gain. The receive sensitivity is about .9 microvolt.

The gear was obtained in Portland and the control circuits, tone generator, time out equipment etc. was constructed and installed by K7QYV and K7DKV. WA7MXE assisted in the site construction. The 450MHz link to the site is terminated at the qth's of K7QYV and WA7QMV. The complete set-up was activated 4 months ago and the "bugs" have been worked out with the able assistance of the group.

The future plans call for a solid-state repeater system of the TPL or Motrac variety, for better sensitivity, higher output and reliability. It would be operated on 12vdc, providing operation in case of power failure for many hours. The present 80-D system would be retained for back up and activated into service via the 450MHz link. The system is licensed under the call WA7KZG and is licensed to K7QYV.

The Bawfaw Repeater Group (B.F.R.G.) has been

med, to facilitate the improvement and maintenance of the Baw Faw repeater. It was formed a short time ago and about 10 members have joined. There has been no meetings to date. Considering the exceptional coverage of the repeater, it was felt that it was most important that the system be functional the year round. Considering the problems already encountered during the past months, it was felt that the only feasible answer was to organize the repeater group to help finance the second system. An application blank for membership in the B.F.R.G. will be included in this issue for members, who might be interested in joining in on designing and helping out on the up-keep of the system.

After checking things out and locking up the "ohn", we started down the trail to the lower levels. Dick's gas gauge was reading "E" and that doesn't stand for extra. However he made it to the gas station without having to be pushed. Seems the gauge works in his favor, since it was calculated there was still at least 5 gallons in the tank, when he filled it up.

After a short visit with Dan, to get some facts and figures on the repeater set-up, the DK group started up the trail for Tacoma. We all agreed it was well worth the trip to see the system work first-hand".
.....W7RGD

WALLA WALLA HAMFEST

By W7WLX

A real smashing affair with eyeball qso's, score, prizes, contests, guessing gimmicks, swap shop and food that just didn't quit.

There were 476 registered but the threatened didn't show on Sunday, so the out-of-doors had good overflow room for the eyeball contacts. They enjoyed so much at these get-to-gethers. The food was wonderful and plentiful and those who ate while others were in line, quickly gave up their places at the table and there was no confusion.

The Radio Club of Tacoma was well represented, with Dennis W7UBA and xyl Joan; Bob W7SFO and xyl Phie; Dewey W7HF; Emil W7GFK and daughters Anita and Renee and Roy W7AZI and Ethel W7WLX. In all the crowd I may have missed some but those are the ones I met.

Emil W7GFK walked off with a 24 hour clock, Roy W7AZI won a pair of stereo earphones, Ethel W7WLX won one of the silver bars and the big 1st prize 5 silver bars in a beautiful case, went to Jane Michlein, W7LXQ of Roy. (XYL of Dave, W7GVG) and Dave usually pay a visit to the club and at Field Day during the year and are well known on the bands. Tickets for the prizes were 50¢ each and our tickets were in the 600's and they went out of tickets to sell for the prize drawings. It should have been a successful hamfest for

(cont. next col.)

the sponsors as well as all of us who attended.

The Minnows had their usual bazaar - bigger and better this year and there were 19 gals of the club present. They won a good share of the prizes with one even winning the grand prize.

NORTH SEATTLE VISIT

by W7WLX

On October the 21st a group of the Radio Club of Tacoma visited with the North Seattle Radio Club. Attending the visit were Oliver Larsen W7WIA, Len Goodwin W7HHI, Dennis Reanier W7UBA, Roy W7AZI and Ethel W7WLX.

Len tried to make a quick exit, when the members discussed the club subsidizing the cost of the dinner at their annual Christmas Party!

ARRL BULLETINS

Attention contesters. Upon recommendation of the ARRL Contest Advisory Committee, the 1971 Sweepstakes will be run on a trial basis with a short-end exchange consisting of message number, procedure, call, year of first license and section. The SS takes place the middle weekends of November and full rules will appear in the October issue of QST. Revised contest forms are now available from ARRL, 225 Main Street, Newington, Connecticut 06111. Please indicate whether you're planning participation in one or both modes and the anticipated number of contacts. Information on the contest, Advisory Committee appears on page 87 of the September issue AR

STILLAGUAMISH CAMPOUT

It's over, it was fun and we are looking forward to next year.

A record turn-out. Every year we have more people and more fun. There were 37 heads counted for the big meal on Saturday. Sunday morning breakfast was the mostes. Sometime, we will remember to count how many dozen eggs, pounds of bacon and gallons of hotcake batter we use. It should make for interesting figures.

There were 5 trailers and a quarter camper (Emil's K7GFK Datson) and the bunk house was full. Don't let that worry you, there was still plenty more room.

The card games were wild, the water was cold (ask the kids) and the fish were scarce, (Ask Scotty) The hike to the ice caves was attended by a good crowd and the hike to the "maiden of the woods" had 4 car loads. You could say it was well attended,

Everyone appeared to be having a good time, so let's have an even bigger crowd next year.

(cont. next column)

A special thanks to Patty & Dwayne Lewis (K7K & K7NQR) for the work they put in to acquire the park site, to make the outing the success it was.

SWEEPSTAKES CONTEST

Looking at the '69' and '70' Sweepstakes totals should start all of us at the Radio Club of Tacoma thinking about our effort this year.

From April 1970 QST: (1969 contest results)

RCT 542,599 - 24 entries

BEARS 199,346 - 14 entries

From March 1971 QST: (1970 contest results)

RCT 726,460 - 25 entries

BEARS 547,572 - 39 entries

Can you see signs of a trend in these figures? The big effort, by Chip K7VPF (increasing our total about 140,000 over 1969), the big new score by Jerry W7BUN, entry of Dennis W7UBA and the good increases by others, kept us ahead of the BEARS.

The great effort (increase of 25 entries and an increase of nearly 350,000 points) was an outstanding performance.

What we are trying to say is, if you operate 10 hours in the contest last year - make an effort to get in 20 hours this year. If you operate only on band last year, get your station and antennae in shape for other bands. Remember, 10-15 could let us down! Be ready on 80-40-20 also.

If you didn't enter at all, reserve the time for week-ends in November and let's up that 25% of W7DK members, who are participating in this club activity to much nearer the 100% mark.

Interesting also, are the club standings nationwide.

In the '69' test, RCT placed 8th, BEARS 17th.

In the '70' test, RCT placed 7th, BEARS 13th.

If we could double our totals, 3rd or 4th, just behind the big crews of the Potomac Valley Radio Club and Murphy's Marauders, is not out of sight!

It depends only on the effort of each of us. Let's go!!

IF IT'S PLEASURE

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm. August 25th, 1971 by President Dennis Reanier, W7UBA, with the members and guests standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved as corrected.

The Treasurer rendered the following report:

Savings account	\$1144.94
Checking account	66.89
Building fund	155.50

Scotty, K7CYZ, reported on the weekend at Westport. There were 32 present, though it rained most of Saturday and Saturday night but Sunday was a beautiful day. Scotty said the fishing was very good Sunday. The boat left the dock at 7:05am. and was back by 10:30am. with a limit catch. Ed, W7IKG, got the first fish aboard and Bob, W7IPR, got the biggest fish, about 30 pounds! (King, of course!) Roy, K7USF, got his camper stuck in the sand. Scotty also said there was a visitor from South Africa, who dropped by for a visit. He was an Irishman and very interesting to talk to.

Jerry, W7BUN, announced the Western Washington Fall Fair was coming soon and we have a very nice 50' pole for our antennas but the problem of getting it down, moved and set up again at the fair grounds will have to be worked out. Jerry also said we need equipment and an operating desk.

Jerry announced the coming programs. August 28, Viron White "Whitey", W7WCV, will talk on the causes and remedies of amateur TVI. September 8, Verne Hood, K7NKZ, will show slides taken on her trip to Europe. September 22, Bill Whitehouse, W7NUK from Bremerton will show slides and talk about the Seattle 2 meter fm. repeater operation. NOTE: This was canceled and will be rescheduled for October.

October 13 will be Homecoming Night. October 27 North Seattle Radio Club will visit us and there will be a very interesting program that night, so don't miss it!

Vivian Huntley reporting on plans for a rummage sale and said the sale could not be at the club house unless it be licensed.

Joe Winter, WN7RWK, reported that it will cost about \$80.00 for weed killer for the parking lot.

Dennis, W7UBA, said Roy, W7AZI, had brought some more bookcases for our library.

Scotty, K7CYZ, said the Loggers Bark can use all the help they can get.

Dennis, W7UBA, asked Joe, WN7RWK, to help with the building committee.

Dennis, W7UBA, reported for Doc, W7OS, on Homecoming night, said, Doc has put a tremendous amount of work into this and that he has some of the committee formed but he still needed more

(cont. next column)

volunteers for this project. It will take the efforts of each and every one of us to make it a success.

Jerry, W7BUN, reported the Puget Sound Council is considering petitioning the FCC about the \$9.00 application fee. After considerable discussion from the floor, a Motion was made to restructuring of application fee to licensing fee and allow the applicant to take code test without fee and if passed then pay the fee for the written exam. After much discussion, the Motion was withdrawn and a new Motion was made, to petition the FCC that if applicant fails either the code test or the written examination, the applicant would be allowed to take the examination again, within six months or one year without additional fee. This Motion then PASSED and would be presented to the Council as a recommendation.

Jerry, W7BUN, reminded every one of Washington State Amateur Radio Week from September 4 through September 12, 1971.

There being no further business, meeting adjourned at 9:25pm., after which we all enjoyed a very fine program given by "Whitey" W7WCV, on the causes and remedies of amateur TVI.

Respectfully submitted,

/s/

Bob Weightman, WA7IFR
(acting Secretary)

CLUB MINUTES 9/8/71

The regular meeting of the Radio Club of Tacoma was called to order at 8:03pm., September 8, 1971 by President Dennis Reanier, W7UBA, with members and guests present standing and pledging allegiance to the flag.

It was reported that Omar, WA7HPK, has been ill but is now recovering. A card has been sent.

Treasurer's report:

Savings account	\$1144.94
Checking account	66.89
Building fund	155.60

It was Moved, Seconded and PASSED that a \$30.00 utilities bill be paid.

Jerry, W7BUN, reported that the Puget Sound Council adopted our Club's suggested proposal, regarding the FCC petition concerning testing fees for amateur licenses.

Jerry also announced that our fair booth is progressing nicely. A meeting will be held next Wednesday, September 21 to instruct those people who have volunteered to work in the booth.

Doc, W7OS, announced that we will need at least 6 people to help with the mailing list for our planned Homecoming activity. We also need a volunteer to head the club clean up committee.

John Austin, K7CZF, announced that he has been very pleased with the growth of the AREC Net.

(cont. next page)

Jerry, W7BUN, announced that Washington State Amateur Radio Week is September 4th to September 12th. Again there is the opportunity to earn the Governor's Certificate.

John Austin, K7CZF received a request for a Loggers Certificate. This is a club activity, which needs reviving.

Rex Hayes, W7NP, will be Sweepstakes Chairman, this year. The BEARS are out to get us this year but if we win Sweepstakes this year, the trophies are ours to keep forever.

Joe Winter, W7RWK, temporary building chairman explained the needed building repairs, which would be associated with the remodeling and the new addition. It was estimated that the materials needed for this project would cost about \$1700.00 used and about \$2100.00 new.

Scotty, K7CYZ, agreed to donate antifreeze, for the club's generator.

Frank, WA7GWL, will be leaving us to work at ARRL headquarters. We all congratulate him on his appointment.

Dennis, W7UBA, announced that a dues increase may well be necessary to meet rising operating costs. This will be discussed further.

The possibility of helping the Pierce County Search and Rescue Organization with radio communications was discussed. Both pros and cons were mentioned. Jerry, W7BUN, agreed to contact Pierce County Search & Rescue.

There being no further business, the meeting was adjourned and we enjoyed a very interesting and informative slide program of LaVerne's, K7NKZ, recent trip through Europe.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK
Secretary

Sporting a new Datson pick-up with a camper, at the Stillaguamish camp.out, was Emil K7GPK. Complete with 75 meter transceiver yet! We understand that he has had a few problems with loading the antenna, after the camper went on. Could be that the Datson doesn't have a resonant frequency Emil?

A new tower is up at the QTH of Merl, W7IKR and Margie, K7AMJ. The tower isn't really new just new in a vertical position. It's pretty hard to put a beam on one, when it is in a horizontal position flat on the ground, where it has been for 3 years. Better late than never!

Ask Dennis, W7UBA, boy Tim, how he liked his roller-coaster ride at the fair. New tower up soon at Dennis' qth. In time for SS contest!

Roy, W7AZI, took Scotty, K7CYZ, 6 out of 7 games at the cribbage board. Scotty's looking for a re-match, soon!

Gene, W7BTB, building a new home, right next to his present qth. Don't cost as much to move in that way.

Roy, K7USF, sprained his ankle and on crutches for a few days. Injured himself, while out on 2-11 fire. Nothing serious, except to Roy.

Paul, WA7ESD, volunteering to come to work early at the Fair. Wanted to sit down. Just getting used to walking without the crutch.

Bill, K7VQM, busy trying to finish off the house painting before the rains set-in, in earnest.

Bob, K7IND, just getting used to looking at the light of day, after getting off the grave-yard shift. KOA-431.

Don, WA7PIN, getting directions on 2 meters on how to find the entrance to the fair grounds from the operator. Don was standing in the fair booth with a walkie-talkie. Not only that, he got the directions he asked for.

LaVerne, K7NKZ, took a ride all the way to Portland to make a phone call into Portland. What some people will do to save a long-distance call.

Ralph, W7COP, on the air with a new rig. Finally surrendered to the ssb mode. Finally admits that maybe a.m. isn't here to stay.

Late news item just received at press-time. Club member, Manussier, K7OCN, joined the list of silent-keys.

WESTPORT 71

Westport. (cont.)

WESTPORT OUTING 71

Another year, another outing at Warburton's in Westport. The biggest crowd ever and loads of fun. The fishing trip aboard the Chinook with Capt. Charlie commanding was a sell-out. The boat limited out in approximately two hours. The gang was back at the dock around 10:30 a.m.. Silver salmon was a plenty with a dabbling of Kings. King took the money for largest fish, by weight. Weightman, WA7IPR, was the lucky one. Merl Chavis, W7IKG, was the guy who grabbed the best fish, a silver, for that half of the pot. Churchward, W7RXS, although not getting his fingers on any money, can brag about hauling the best fish aboard. It may seem odd bragging about the food at DK outings but it has to be the best in the world. Loads of it. (Especially pickled onion and peas) The card games are the wildest ever but loads of fun. The turn out of Club members was the largest, or nearly so, that we have had in years. If anyone did not enjoy himself he has not put it a secret.

During the week-end the club had visitors. Dan SOS and XYL Corrie arrived and stayed for dinner (cont. next column)

on Saturday and had the club members in rapt conversation on the political aspects in South Africa. Dan is presently a member of the City Council of Johannesburg and expects to be elected as Mayor next year.

A special thanks to Greta Warburton for inviting us and putting up with our nonsense. We had a lot of fun Greta and we appreciate your hospitality.Ed.

COMING PROGRAMS

By W7BUN

Sept. 8th KaVerne Hood, K7NKZ, will show slides of her recent trip through Europe. Sept. 22nd Bill Whitehouse, WA7NUK, from Bremerton, will show slides and talk about the Seattle 2 meter f.m. repeater. Oct. 13th, HOME COMING NIGHT, is a big event-----DON'T MISS IT.....Oct. 27th a large delegation will visit us from the North Seattle Radio Amateur Club. Jerry, W7BUN, has a big program planned for this meeting. We will have more on this next month.

PUGET SOUND COUNCIL

The Puget Sound Council of Radio Clubs is going to petition the F.C.C. for a rule change. This change is the same one our Club favors (if a person fails either or all of the examination they can return once within one year and take the exam over with no further cost). Bill Goodloe, WA7GWJ, is the Chairman writing this up. If you have any comments to make or wish a copy of this change, contact Mr. Goodloe.

WALLA WALLA HAMFEST

Don't forget the Hamfest at Walla Walla on Sept. 25th & 26th. This is their 25th anniversary and promises to be a big one. Lots of prizes and lots of fun.

WASHINGTON STATE AMATEUR RADIO WEEK

By W7BUN

Washington State Amateur Radio Week will be September 4th to 12th, this year. The Boeing Employees Amateur Radio Society (BEARS) will have their Washington State QSO Party during the concluding weekend, September 11th and 12th.

The Washington State Operating Achievement Award, signed by Governor Daniel J. Evans, will be available for issue again this year. Out-of-state hams must contact 10 Washington hams during this week and Washington hams must contact 20 other Washington hams during this week. Send list of stations worked, their location, date worked, your name, call, address and a self-addressed stamped envelope to: The Puget Sound Council of Amateur Radio Clubs, 12306-80th Avenue East, Everett, Wallup, Washington, 98371.

2 METER F.M.

The A.R.A.B.'s, Amateur Radio Association of Puget Sound Inc., is planning another repeater for the Puget Sound area. This will be 2 meter f.m. power for local work. The in-put freq. has not been decided as yet. The out-put will be 5.52. More information on this later.....Ed.

THE BRAVE ONES!
WESTERN WASHINGTON STATE FAIR
SEPT. 18 - 26

We will have an exhibit showing different aspects of ham radio to the general public at this year's Western Washington Fair.

There will be old equipment, new equipment and home-brew equipment on display with poster displays explaining various activities in ham radio. Hand-outs will be furnished by ARRL and a special hand-out, just for the fair, by our Club.

Present plans are for an operating station on 2 meters. Messages will be accepted from the public.

Many volunteers will be needed to man this exhibit. Contact Jerry, W7BUN, (chairman for the exhibit) and sign up now. Oh Yes! Persons manning the exhibit will receive a pass good for the remainder of the day.

....Dennis W7UBA

Who are dedicated to the advancement of the art and science of horology.

AWI CODE OF ETHICS

I will not knowingly mislead, deceive or defraud the public.

I will not advertise in any manner that is untruthful or misleading.

I will not knowingly represent a watch to have been overhauled unless it has been properly cleaned and regulated.

I will not knowingly represent to the public that certain parts are required for a watch which are actually unnecessary in the repair to be performed.

I agree that it is unethical to perform any unworkmanlike or unskilled watch repairs.

I agree to conduct myself in my business and private life in such a manner as will reflect credit to myself, the American Watchmakers Institute, my fellow professionals and the entire industry.

are performed by members of
American Watchmakers Institute.

THE CATCHER

WILEY CREEK CAMPOUT

It is upon us! The last big Club get-together of the summer. This is the campout that was a great success last year. Dwayne, K7KSZ, has talked to Dalton Dulap, Chief Ranger of the Verlot Ranger Station, Mt. Baker National Forest. Mr. Dulap said that we are welcome to use both Cougar's Den and Eagle's Roost sections of Wiley Creek camp ground on the South fork of the Stillaguamish River. All they ask is that we leave the campgrounds clean, as we did last year and that we do not dump our trailer sink waste-water on the ground. Tents may be pitched in the already prepared tent spaces. I think we will all agree that these requests are not too-much to ask of anyone.

Some of us will leave Tacoma, Friday Sept. 10th, after work. We will unlock the chain so that anyone who wishes to enter the park Friday evening can get in. If you arrive before the chain is unlocked--stay cool--we will open it.

You don't have to have a trailer or tent to come along on this trip. The camp has two big bunk houses and two covered kitchens. All that you have to bring is a sleeping bag and something for the Pot-Luck type of eating we have. If you have room you might bring an armfull of wood. If you don't have room....don't worry. We have trucks available to take out and gather some.

Just come along prepared to have fun swimming, gold digging, fishing, hiking, card playing, bike riding, dart throwing, horse-shoe pitching, etc...

Sunday morning we will have an organized trip to the MAIDEN OF THE WOODS carving. This carving was done by a logger using a double bit-axe on the side of a cedar tree. The carving is approximately twenty feet high..... really something to see. It is well worth the

(cont. next column)

THE CATCH

Campout (concl.)

short ($\frac{1}{2}$ mile) walk on an easy trail that takes to get there.

There is lot of room at the camp. It's a very good campground for children. You will enjoy yourself here. Everyone is welcome. Yes, we will have clam fritters for Sunday morning breakfast.

Ed..K7

CLUB MINUTES JULY 28

The regular meeting of the Radio Club of Tacoma Inc. was called to order at 8:10 p.m. July 28, 1971 by President Dennis Reanier, W7UBA, with all members standing and pledging allegiance to the flag.

Jerry, W7BUN, introduced the guests.

Doc, W7OS, announced that Ivan H. Cook, W7MIX is now a silent key and although he was not a member of the Radio Club, he was a member of the Quarter Century Wireless Association; with the permission of President Dennis, W7UBA, Doc asked the members to stand for a moment of silence in memory of Ivan H. Cook, W7MIX.

The minutes of the last meeting were read and approved as corrected.

THE BIG ONE !

Minutes. (cont.)

The Treasurer rendered the following report: checking account \$101.48; Savings acct. \$1144.94; building fund \$154.00. A bill for \$11.32 for clam powder at field day was presented by the Treasurer and approved by the Club.

Dennis, W7UBA, announced that Cliff, W7MFG, Corne's father passed away. Dennis said he would check with Ethel, W7WLX, to ascertain if a card has been sent to the family from the Club.

Doug, W7OHD, reported on Field day. He said our club received a total of 52,050 points.

Jerry, W7BUN, reported on Western Washington State Fair. He said that the Fair officials will let us put up a tower; he will need operators to man the exhibit. The question of poor reception (RM) was raised; after some discussion it was decided to discuss the problem at the Board meeting.

Hank, W7UD, reported on the Novice code class. Jerry, W7BUN, announced the programs for August and September. They will be published in the Biggers Bark.

Doc, W7OS, suggested that we have a Homecoming Night at the Club. He asked if a date could be set at this time? A Motion was PASSED that October 13th will be Home-Coming Night.

Dennis, W7UBA, announced the Club picnic at Dewey, W7HF, Wilson's summer home on Hood Canal August 1st.

Scotty, K7CYZ, announced that the Salmon Bake was a success. A good number of Club members were present.

There being no further business, meeting adjourned at 9:25 p.m.. We then enjoyed a very (cont. next column)

interesting program presented by Alfred E. Jackson on trouble shooting solid state devices.

Respectfully submitted,

/s/

Bob Weightman, WA7IFR

Acting Secretary

CLUB MINUTES AUGUST 11

The regular meeting of the Radio Club of Tacoma Inc. was called to order at 8:05 pm. August 11, 1971 by President Dennis Reanier, W7UBA, with the members standing and pledging allegiance to the flag. Ethel, W7WLX, introduced the guests. The minutes of the last meeting were read and approved as corrected. The Treasurer rendered the following report: checking account, \$63.89; savings account, \$1144.94; building fund, \$155.50.

Len, WA7HHI, reported that the current expenses are running a little ahead of our income. It was Moved that this be discussed at the Board of Governors meeting. The balance of the field day bills were read and a Motion was made and PASSED to pay the field day bills.

Jerry, W7BUN, reported on Washington State Fair plans. There was considerable discussion on what bands and on what type of antennas to use.

Doc, W7OS, reported on Home-Coming Night. He said he had compiled a list of 50 names and that the list will soon be complete. Doc got a phone call from George VanKleeck, WA7CSF, saying he had a fellow named Jean Russell, W7GRN, who said he was once a member of the Radio Club. He now lives in Fairwell, Alaska and his present call is KL7FBY.

Roy, W7AZI, reported on the picnic at Dewey Wilson's, W7HF, on Hood Canal. Forty members attended. Roy also announced that the Salmon Bake was one of the biggest and best ever. The Radio Club had over 20 members present.

Dennis, W7UBA, reported for the building committee. He showed the architect's drawings of the building and explained what was recommended. A Motion was PASSED that the Club accept the architect's plans as the basic plans and proceed with the building plans as basic plans.

ONE VERY HAPPY FISHERMAN

Minutes (concl.)

Jerry, W7BUN, reported on the Puget Sound Council. He announced that the Council has inquired if the member clubs wish a repeater advisory committee be formed. A Motion was PASSED that the Club support the Council in forming this committee. Jerry also said the Council is considering petitioning the F.C.C. on the application fee (with several alternatives written in). This will be explained in the Loggers Bark and all this will be discussed at the next Council meeting, which will be at his home on August 27th. All members interested in this are invited.

Dennis, W7UBA, reminded the Club about the week-end picnic at Greta Warburton's summer home at Westport on August 21st and 22nd.

Jerry, W7BUN, announced the coming programs: August 11th, How to Eliminate Noise in Your Mobile Installation; August 25th, Viron White (Whitey) field engineer for Clover Park Education TV will give a talk on "Causes and Remedies of Amateur TVI"; September 8th, LaVerne Hood, K7NKZ, will show slides taken on her trip through Europe; September 22nd, Bill Whitehouse, WA7NUK, from Bremerton, will show slides and talk about the Seattle 2 meter f.m. repeater operation.

Dennis, W7UBA, read a letter from William W. Rassback of the North Seattle Amateur Radio Club, inviting us to attend their meeting on September 21st. The Club voted to accept the invitation.

Applications for membership were read: Harry S. Hokenson, W7LCV; John P. Hokenson, WA6ILD; Michael D. Angerstein, K7SWL and Thomas N. Kelsh Jr., WA2NPC, were the applicants. All four were voted

(cont. next column,)

into membership.

There being no further business, meeting adjourned at 9:20 p.m.. After the coffee break Jerry, W7BUN, presented a very fine program on how to eliminate noise in your mobile installation.

Respectfully submitted,

/s/

Bob Weightman, WA7IPR

Acting Secretary

SLIVERS & SPLINTERS

Don't park on the ferns Smitty, K7ATD, it costs you \$20.00. (So says the Ranger)

Roy, K7USF, has an automatic leveler on his camper. (Both axles)

If you want any broken windows in your trailer contact Scotty, K7CYZ.

A new height in trailer comfort, hi-fi comes out of the walls in Bob W7RXS and Inez's W7E trailer. They mix a hi-fi drink too!

Emil, K7GPK cussing Scotty's new outboard motor.

Art, W7JGN, sleeping off a short boat ride.

Bob, WA7IPR stealing the money for biggest fish at Westport, a 40 lb. King.

Merl, W7IKG, took the money for snagging the first fish on the same trip. Bob, W7RXS, caught the "mostest".

Dick, W7RGD, is in the market for a dog whistle tuned to the Baw Faw repeater.

Missy Chavis knows how to pkay 31 and not lose one dime. The Inc., formed by Ethel, W7WLX and Greta Warburton, went bankrupt---but fast.

No wonder Len, WA7HHI, wants the Treasurer to look at the trailer he drags. If John, K7CZF and Len come to the club outing, we will have to cut down some trees to make room for both of the rigs. What did you say Roy, W7AZI? Get a VW?

Dick W7RGD, Denny W7ZTG, Diane WA7HXL, K7USF and XYL Faye all up in the air visiting the 2 meter Baw Faw repeater. Pictures and articles next month.

John, K7CZF, has a visitor from Alaska. She drove down from Alaska and now will have to spend a day removing a few pounds of mud and grime.

See you at the Club meetings!!

To Our Former Members of

RADIO CLUB of TACOMA,

Hi - there:

The Radio Club of Tacoma, its Officers and Members have been so impressed by the long history of our club, its members, and many of their activities, and so lately we are endeavoring to develop a complete membership list and rather to-gether a pictorial history of the Radio Club of Tacoma. We are hoping as many of you as can, will join with us on our - - - -

HOME - COMING - NIGHT

October 13, 1971

Wednesday at 7:30 PM

At our club house located at, - - 1249 South Washington Street,

Tacoma, Washington, 98405

We are trying to reach as many of Our Alumni (former members of the Radio Club of Tacoma) as possible, either by mail, by our own monthly paper The Loggers Bark, by newspaper and by ham radio. So if you know of some former member, please pass the word along. - - ~~Please invite them to come too~~ - .

We are going to have some interesting equipment (old & new), some goodies to eat and best of all an opportunity to see your old buddies of the Radio Club, (some as far back as 1915) and of course some of your own age group. This is of course, if YOU come.

NOTE: Please let us know if you plan to come, so that we may make proper

arrangements.. Please call or write: Mrs. Ethel Devish W7W/LX, Reservation Chmn.
1330 East 64th Street
Tacoma Washington, 98404
Phone (206) GR 2-4213

I will be looking forward to seeing you.... 73, Doc W7OS (ex 7AF & 7CS)

VOL VIII NR 8

W7DK

AUGUST 1971

FIELD DAY 1971

FCC PETITION

FIELD DAY RESULTS

Another Field Day is behind us until next June. The score, turned in, is not the best one for DK but the best we could do with band conditions they were.

The tentative score turned in for the club is as follows: total contacts 2075, multiplied by 2 (for power multiplier) giving a total of 4150. Added to this is 50 points for message originated, 50 points for publicity proof and 1000 points for 1 generator power. This totals out to 5,250.

You will note pictures scattered thru-out this issue that were taken during the heat of battle.

No major problems developed, other than the necessary overhaul of the 10 KW generator just before the start of field day. There should have been no excuses for going hungry, since there was plenty of it and good to! The weather Gods were with us again this year.

Adding it all up, including the score, I think we had a good time.

The Puget Sound Council of Amateur Radio Clubs is considering a formal petition to the FCC to ask that the \$9.00 application fee to hold in abeyance, if the applicant fails his exam. Some of the alternatives are: (1) Give a receipt that would allow the failing examinee to return, within one year, without additional fee; (2) Allow the failing applicant to take the test just once more without further charge; (3) Refund a percentage of the fee, keeping only an amount to cover FCC's examination costs; or (4) Charge no fee if the examinee fails the code test but charge the full amount if he takes the code and written tests.

Further discussion will be held at the August 25th club meeting and discision will be made to take action or not.

COMING PROGRAMS by W7HUN

AUGUST 11TH-

How to eliminate noise in your mobile installation. All you need to know about suppressing ignition, charging, body, instrument, wheel and tire noise.

AUGUST 25TH-

Viron White (Whitey) WA7WCV, field engineer for Clover Park Educational TV, will review the causes and remedies of amateur TVI. Afterwards, he will answer questions from members about their TVI problems.

SEPTEMBER 8TH-

LaVerne Hood K7NKZ, will entertain the club with slides taken on her trip thru Europe.

SEPTEMBER 22-

Bill Whitehouse WA7NUK, from Bremerton, will show slides and talk about the Seattle 2 meter f.m. repeater operation.

"ROUGHING IT! "

MORE ON "WAY OUT WEST"

The article, entitled "From way out West" appearing in the July issue of the LOGGERS BARK, called attention to the inquiry from the radio club newspaper, Hamateur Club Newspaper, published by the Milwaukee Radio Amateur Club, Inc. as follows:

The Loggers Bark (Tacoma Radio Club) reports an interview with a 1915 member of the club. If they are trying to say that their club was organized at that time and if they can document their continuous activity, then MRAC is listening - Hard-"
I suspect that the only ones referred to were Stendo 7LV, Dwight Mason and 7CS now W7OS, Dr. Clifford J. Spike all honorary life members of the Radio Club of Tacoma, all of who were there. I can speak for myself only, having been licensed September 3, 1915 as 7CS and I have in my possession, volume 1, copy 1 of the Pacific Radio News, published in San Francisco and dated January 27, 1917. On page 37, which says that on October 20th 1916 the Radio Club of Tacoma Washington was organized at Mr. D. Mason's station on 13th street. The Loggers Bark now has a photostat copy of the Pacific Radio News mentioned)

I also have a copy of the Tacoma News Tribune (Tacoma's newspaper) with a half page article, showing the picture of the members present, giving their names and calls. This article describes a radio club on January 20th, 1917.

These are documents but I recall it did take quite a few meetings to finally arrive at this radio organization. It has had its ups and downs but I doubt if the Radio Club of Tacoma ever stopped breathing and we are going strong now!

NOTE:

..Doc, W7OS ex 7CS & 7AF

as the Milwaukee Club have any documents as to when they started. Haven't seen any dates so far!

W7HF's PICNIC

Just arrived home from the picnic at Dewey Wilson's, W7HF on Hood Canal. As usual, you who did not make it, missed the best food in the world.

There were 38 adults plus all the kids. Swimming, oyster picking and good old rag-chewing was the order of the day. The weather was grand and everyone seemed to be enjoying the gathering.

Thanks to W7HF for being a grand host and opening his summer home to the radio club.....Ed

SEPTEMBER BUSY MONTH

September is going to be a busy month for the Radio Club of Tacoma.

First; Saturday and Sunday (Sept. 11th & 12th) is the Club's camp out, on the South fork of the Stillaguamish River. This is an annual affair and one of the Club's best. Our hosts for this event are Dwayne and Patty Lewis K7KSZ & K7NQR. During the last time we had a large turn-out but there was still room for more. Activities include hiking, bike trails, fishing, gold panning and some of the best scenery in the state of Washington. Plan to be with us on this trip, you will enjoy it.

Closely following this event, will be the Western Washington State Fair. (Sept. 18th thru the 26th) The Radio Club of Tacoma will have a display in the hobby shop. This will include a display of an old time station and a modern day station, plus an operating station to demonstrate the hobby of amateur radio. We will need a lot of help on this event. There should be at least, two operators for the full nine days. Contact Jerry, W7BUN if you can lend a hand. Don't forget to see the display, as you visit the fair.

On September 15th, the ladies auxiliary will put on their rummage sale at the club house from 12 noon until 8pm. The regular auxiliary meeting will be held following the sale at 8pm.

Hope to see YOU at the doings.....Ed K7CYZ

An amateur radio course will begin September 9th at the Bates Vocational-Technical Institute. The class will meet Tuesdays and Thursdays, 7 to 10pm and cover beginning to advanced - class theory, code, FCC regulations and some practical work. Total cost for the 18 week course is \$17.00.

NEVER KNOW WHEN IT MIGHT RAIN!

NOTICE

W7DK-MEMBERS

BEWARE OF THE BEARS

At last report, the B.E.A.R.S. are coming out of hibernation - They're climbing trees, towers mountains with wire and feedline! From all indications, the B.E.A.R.S. are migrating toward Sweepsteaks!

The Sweepsteaks "big bone" has been in possession of W7DK hunters! Can the W7DK hunters hold onto the 'big bone'?

DX hunters should be climbing their own towers with wire and feedline but are they? Tree climbing is best in summer. Will the hunters be ready when they meet the B.E.A.R.S. in November?

The B.E.A.R.S. have increased their pack with many cubs.

Will you help the DK bunch protect the 'Big Bone'? We're counting on you!

DIG THAT STEREO !

BACK AT THE HOME QTH

by W7IKG

Having been threatened with bodily harm, QRM and most every thing else, by the editor, I'll have to relate some of the hamming experiences in Hawaii during the past 1½ years.

First, it's real nice to be back in the Northwest with my family and the people of DK.

My first QTH, in Honolulu, was ideally suited for ham radio - a four story apartment building, 100 feet to the roof with a 14AVS on a 20 foot pipe. A full set of radials finished off the antenna system. From the ground to the tip of the vertical, was about 132 feet. The Pacific ocean (and Waikiki beach) provided a beautiful reflector to the mainland. (I was located only 1 block from the beach)

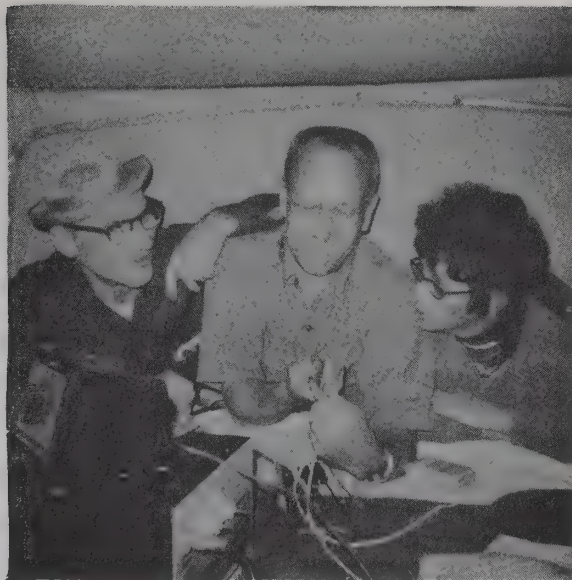

The gear was my old faithful Swan-350, driving the Swan Mark II linear. This particular linear has a very respectable history, having been around the world with Lt. Bill Rohrer on the ice breaker "Southwind". Its most notable trip was to Heard Island, where Bill operated as VK0WR.

Operating to the mainland was pretty hectic at times, especially on 20 meters. Requests for phone patches prompted me to take my Kwik Patch pack with me, on one of my trips. I made a total of 131 patches up to July, 1971.

Working DX from Hawaii was very interesting, due to the time and skip differences. Southeast Asia, the Indian Ocean area, the near east and Africa came in very good, with Europe not too strong. One of the best contacts was with a VU2 in India and I worked him consistently on 20m.

Hawaii has a power problem, I found out. The voltage varied from 204 to 210 volts. I often wondered how the frequency was doing. The gear survived and so did I.

(cont. next column)

"HE DOESN'T KNOW WHAT THAT WIRE'S FOR EITHER"

Back home (cont.)

I heard numerous stations calling for Tacoma, at various times. Where are you Tacoma hams? Seems they all work 2 meters now. My thanks to Cliff W7MFG, John K7CZF, Tom W7PK and Del W7JG for the patches. Also thanks to Jill WA7KSD.

I worked quite a few Tacoma and Seattle area stations and appreciated the weather reports. Of course, my weather report was always the same -85 and sunshining.

It's real nice to be back in Tacoma and the noise you hear on 20 meters, locally, will be.....

Merl, W7IKG

ARRL VISIT

The no-host dinner at Brads, in Tacoma, in honor of Doug Blaksley W1KIK ARRL representative, attracted a fair crowd from Tacoma and several visitors from around the state.

Doug's talk was very enlightening. The ARRL should send more men like him, thruout the country and we would like to see Doug at our convention in '72'.

OH! HI! DIDN'T RECOGNIZE YOU!

CLUB MINUTES JUNE 23

The regular meeting of the Radio Club of Tacoma was called to order at 8:05pm., June 23 by President Dennis Reanier, W7UBA with the members and guests present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and APPROVED as read.

Ethel, W7WLX introduced the visitors.

The Treasurer rendered the following report:

Savings account	\$1144.94
Checking account	331.41
Field Day account	59.60
Building account	152.60

Bill for repairs on generator for field day of \$192.05 was read, motion made and PASSED to pay same.

A report was made on an item in Hamateur Chatter, a club newspaper published by the Milwaukee Radio Amateur Club. They challenged our claim as being the oldest club in continuous operation. It was suggested that this item be turned over to Doc, W7OS, to write a letter to the Milwaukee Club to prove our claim.

Doug, WA7OHD discussed the final plans for field day, to be held on June 26 and 27.

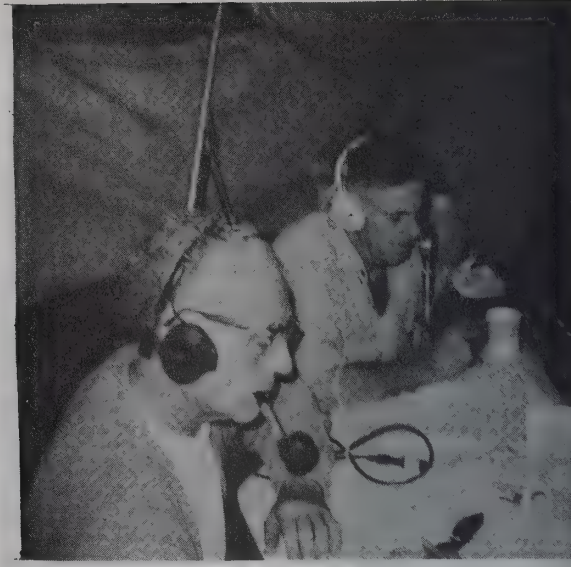

President Dennis announced the program for July 14 will be a travel film on Alaska and the July 28th meeting will be the Trouble-Shooting and repair of solid state devices by Stanley Croggins.

Ethel, W7WLX announced that the patio sale was postponed for the 17, 18, 19 of June and will now be on July 13 and 14 at Rene Smith's home.

Roy, W7AZI suggested that, as many that can, attend the Salmon Bake at Owen's Beach and also that it be a club activity. The club voted July 21 as the date for the get-to-gether.

Don Grant, WA7PIN announced that June 30th will

(cont. next column)

GET, PUFF! PUFF THAT ONE PUFF!

Minutes (cont.)

be a Planning Committee meeting to discuss fixing up the club house and all members are invited to attend.

Scotty, K7CYZ reported on the Marysville Strawberry Festival, which he helped the newly formed club, in their part of the Festival. He advised there will be an article about it in LOGGERS BARK.

Dennis, W7UBA announced there will be an A meeting with Doug Blakesley, W1KLK on July 14. The time and place will be announced later.

There being no further business, meeting adjourned at 9:15pm. After the coffee break, Jenks, K7ZVA, general Secretary of the (Tacoma) Amateur Radio Club International, gave a very interesting talk about the club and low power operations.

Respectfully submitted,

ONE CALL NO ONE MISSES

CLUB MINUTES JULY 14

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm., July 14 by President Dennis Reanier, W7UBA, with the members standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved.

The Treasurer, being on vacation, there was no treasurer's report.

Bills submitted were:

\$6.38 - gas for field day

\$32.58- light and utility

\$21.00- for dinners guaranteed for ARRL meeting

Motion was made and PASSED to pay the bills.

Visiting guests stood and introduced themselves.

President Dennis, W7UBA announced that Ernie Coli W7NIL, passed away July 13 and asked all members to stand for a moment of silence in his memory.

Doc, W7OS reported that he would be glad to write a letter to the Milwaukee Radio Club and give them a general run-down of the age of our club.

Dennis reported on field day activities and told about the 15 meter antenna mis-hap.

John, K7CZF reported on AREC activities.

Dwayne, K7KSZ reported on the effort made in forming the new HAMS club in Everett.

Joe Asplund, W7IG announced that Dewey Wilson, W7F has invited the radio club to have their picnic at his summer home on Hoods Canal, August 1.

Dennis announced the Salmon Bake at Owen's Beach on July 21.

Don, WA7PIN reported on the progress of the building and planning committee and that it is shaping up very nicely.

(cont. next column)

F-D CHAIRMAN HARD AT WORK

Minutes (cont.)

Jerry, W7BUN announced he received a letter from ARRL stating that they will furnish hand-outs and world map backdrop for our booth at the Western Washington State Fair and requested information as to whether or not we are requesting a special call from FCC. Motion made and PASSED that we would not request a special call.

Scotty, K7CYZ announced plans for fishing and camping for the younger members of the club and also the older members if they care to come along. Date set for the outing is July 24 and 25.

Don, WA7PIN announced he received a letter from Marv, WB4JBS and that he wishes to be remembered by every one.

Joe Winter, W7RWK reported that he visited the Quarter Century Wireless display at the Rocky Reach Dam and that it is well worth seeing.

Patty Lewis, K7NQR announced plans for a camp-out on the second weekend in September.

There being no further business, meeting adjourned at 9:15pm. After coffee break we all enjoyed a very interesting film on Alaska by Doug Fox travel and after the film, Dwayne K7KSZ talked

Tacoma Wa. 98408 BR 2-4704

Thomas N. Kelsh Jr. WA2NFC
Quarters 6420-G
Fort Lewis, Wa. 98433 967-5156

Also we welcome back into the club, after a long time absence:

John Sabourin W7ZTI
608 So. 304th
Federal Way Wa. 98002 WA 7-2496

TVI COMMITTEE SCORES SUCCESS

The club's TVI committee was recently asked to help a non-club member, who had an exceptionally severe TVI problem.

This 6 meter operator was completely blanking out the tv channels in a nearby apartment complex. Investigation revealed the signals were overloading the booster amplifier in the apartment's "community" antenna system. Installation of a high-pass filter, ahead of this booster, eliminated the interference.

The amateur was counselled, regarding the proper grounding of his gear and the apartment manager was advised to clean the corroded connections and to replace the old lead-in on his antenna system.

A report was made to the FCC, since they had officially entered the case. While our TVI committee is primarily for the benefit of W7DK's members, it is prepared to help others, when a request is made.

SALMON BAKES

The salmon bake at Point Defiance, July 21st,
(cont. next column)

was a good one. The club had a very good showing, plus half the people of Tacoma, which makes for a big crowd.

The entertainment was very good, for an event of this type and the salmon was prepared by an expert. (It had to be, being so delicious) This should be an annual event for our club. So see you at the salmon bakes next year.

WASHINGTON STATE AMATEUR RADIO WEEK
by W7BUN

Washington State Amateur Radio Week will be September 4th to 12th, this year. The Boeing Employees Amateur Radio Society (BEARS) will have their Washington State QSO Party during the concluding weekend, September 11th and 12th.

The Washington State Operating Achievement Award, signed by Governor Daniel J. Evans, will be available for issue again this year. Out-of-state hams must contact 10 Washington hams during the week. Send list of stations worked, the location, date worked, your name, call, address and a self-addressed, stamped envelope to: The Puget Sound Council of Amateur Radio Clubs, 1230 80th Ave. East, Puyallup Washington, 98371

SLIVERS & SPLINTERS

Ex-club member, Jim WA4DXA, can be found on 14.280 every Sunday night at 7:30 to 8:00pm local time.

Bob Gates Jr. K7INE/6 is mobile from San Francisco, 7:30 to 8:00am. below 14.250 and would like to hear from members.

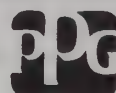

The Hazelmyers have a new harmonic. James Earl was born 10:02am August 12th weighing-in at 14 pounds and 3 oz.. Mother and son doing fine.

Jean Wheeler, WA7OII/4 keeps a schedule with WA5OFN/6 every Tuesday night at 0200GMT, 14.305-14.315KHz. Also keeps one with Billie Estili WA7MKQ/9 every Wednesday at 1700GMT at about 14.290MHz.

Merl, W7IKG is back home from the Islands for good this time.

Bob, W7RXS is clearing more land over at Fanning Island, getting ready to do some building, after getting back from vacation trip into Idaho.

Bob, K7IND missing out on the club's activities while working the graveyard shift on his new job.

Remembrance

ERNEST RIPOLI

W7NIL

1915 - 1971

During the regular meeting of the Radio Club of Tacoma, on July 14th, 1971 a memorial service was held for Ernest Ripoli, W7NIL, who passed away July 13, 1971 at the age of 56.

Ernie (as his friends knew him) was born and raised in the Tacoma area and his wife preceded his death only a short time before.

Ernie was a member of the Elk Plain Community Church, member of the Day Island Yacht Club, President of the Tacoma Pistol Team and past President of the Radio Club of Tacoma. At the time of his death, he was working as a supervisor in the radio maintenance section at Camp Murray in a civilian capacity.

He first joined the Radio Club of Tacoma on February 24th, 1948 at the age of 33. Ernie was an enthusiastic amateur and during his many years of activity, served as President of the Radio Club.

We, as amateurs, and members of the Radio Club will miss Ernie very much.....73

JULY 1971

STATEMENT BY THE GOVERNOR

(PICTUR PAGE 3)

Radio amateur operators have provided numerous services to the public throughout many years as non-commercial volunteers. During emergencies they have rendered their services to bridge the gaps where the normal communication media has been severed, thereby facilitating aid and assistance in a disaster area.

The radio amateurs, using their privately owned and operated equipment, have proven their ability to contribute to the advancement of the field of Arts and Sciences in radio communications. Daily communications with radio amateurs of other nations have enhanced international good will. In readiness for any possible war-caused emergencies, the radio amateurs maintain close liaison with Civil Defense officials through the Radio Amateur Civil Emergency Service to provide their services if may be needed. During peace time they maintain a daily network of communications throughout the nation and function as the official emergency communication arm of the American Red Cross during times of disaster.

Each year the radio amateurs of the 50 States conduct a state project. In 1971 the radio amateurs of the State of Washington will conduct a week of activity designed to enhance the relationship between the State of Washington and the other states and Canadian Provinces, through the intercommunication and exchange of messages by amateur radio.

Now, therefore, I, Daniel J. Evans, Governor of the State of Washington, do hereby designate September 6th through September 12th, 1971, as

WASHINGTON STATE AMATEUR RADIO WEEK

and call upon all citizens to join in saluting the amateur operators in expressing our grateful appreciation for the unselfish service rendered by these private individuals who contribute without enumeration to the welfare of our state and nation, both in time of emergency and in the ex-

(concl. next column)

pansion of the existing reservoir of trained operators, technicians and electronic experts.

/s/

Daniel J. Evans
GOVERNOR,

COMING PROGRAMS

by W7BUN

JULY 14TH

Doug Fox Travel Service will present movies of Alaska. If you've ever thought of visiting Alaska, here's your opportunity to get a preview of things to do and see while there. Bring the XYL out to the meeting to enjoy these very excellent films.

JULY 28TH.

Stanley Scroggins, an electronics instructor at McChord AFB and Clover Park Vocational School, will present a program entitled, "The Troubleshooting and repair of Solid State Devices". If you have had problems finding a faulty transistor in a circuit and then unsoldering and replacing it, Stan will show you the easy way. Don't miss this outstanding technical talk.

WELCOME NEW MEMBERS

The following amateurs joined the Radio Club during June. Please add them to your roster book in the space provided. We hope the new members will attend meetings as often as possible and join in on the many club projects. Once more, welcome aboard fellows.

Attention DXers. Announcement is hereby made of one addition to the ARRL countries list, Abu Ail and Jabel at Tair. These islands, located in the Red Sea, qualify for separate country status under point one of the DXCC criteria relating to a distinctively separate administration. DXCC credits for this listing may be submitted starting August 1, 1971. Confirmations submitted for this listing before August 1, 1971 will be returned without credit BT

NR 326

Adding to the list of international agreements pertaining to amateur radio, Canada has entered into a reciprocal licensing agreement with Belgium and a third party traffic agreement with the Dominican Republic. The United States now has licensing reciprocity with Jamaica and, most recently, Uruguay. Additionally, a special agreement is currently in effect to allow US and Canadian amateurs to handle third party traffic with 4U1TU, Geneva. A summary of these agreements, except CX, will appear in IARU news in the July issue of QST BT

NR 327

The world administrative radio conference for space telecommunications convened on June 7 in Geneva, Switzerland. Its mission is to allocate radio frequencies for space applications including the OSCAR series. Culminating extensive pre-conference preparation, ARRL has sent W0DX, W1RW, W1RU, and VE3CJ as members of the international amateur radio unions delegation. IARU is officially participating as an accredited observer organization in order to effectively represent amateur interests. The conference is scheduled to end July 17 AR

NTN-WARTS-WSN PICNIC

The Noontime Net (NTN), Washington Amateur Radio Traffic System Net (WARTS) and the Washington Section Net (WSN) will be having a combined net picnic on July 10th and 11th at Lake Wenatchee State Park. All hams are welcome to join in the fun. Contact Harry Lewis, W7JWJ, in Seattle for details.

MARYSVILLE STRAWBERRY FESTIVAL

(H. A. M. S.)

Unknown, to the Radio Club of Tacoma, the club was represented at the Marysville Strawberry Festival.

Scotty, K7CYZ, went to Everett to help the H.A.M.S. on the parade and boat races. At both events, it was announced over the P.A. system, that he came all the way from Tacoma as a representative of the Radio Club of Tacoma. It was also announced that we were the oldest club in the

Marysville (concl.)

U.S. and the Hams Amateur Mobile Service was the newest, which brought a big applause from the audience.

All credits should go to Dwayne, K7KSZ, the President of H.A.M.S. for the well planned participation of the Everett Club, in this event. At the Saturday parade, the parade director was riding in a mobile driven by WA7CYY, which was also the official tow-truck. The parade started with a ham at his right hand at all times. The reviewing stand had another ham with the judge and messages between these three had precedence over all other messages.

The H.A.M.S. van was at the staging area and was manned by three operators. There were mobilized every three blocks, with operators and parade officials with Boy Scout runners, along the route.

The van moved into the high school football field after the parade and supplied the PA system for the trophy awards presentation. The members of the Everett H.A.M.S. Club were well organized and should be congratulated for their excellent job well done.

Sunday was the outboard motorboat races. (As were they noisy..ed) Again the H.A.M.S. van supplied the PA for the race officials, at the launch site and finish line. The van was also in control for the mobiles and walkie-talkies along the entire 13 mile course. Again, this was well organized with portables in the starter boat, judges boat and the doctors boat, with mobiles along the route.

As planned, there were radio operators approximately over three miles along the course.

A special thanks to the Everett Herald, the Marysville Globe and the Greater Marysville Association for all the publicity given to amateur radio in association with these events.

I'm sure we will hear more about the new radio club in Everett.

.....

"HOW'D THE CROSS-EYED DISCUS THROWER DO TODAY?"
"HE DIDN'T WIN BUT HE SURE KEPT THE CROWD ALERT"

The regular meeting of the Radio Club of Tacoma was called to order at 8:05 p.m. on May 26, 1971 by President, Dennis Reanier W7UBA with members present standing and pledging allegiance to the flag.

The minutes were read and approved as corrected. It was reported that Paul Anton, WA7ESD, is in Edgemoor Hospital with an injured leg. We wished him a speedy recovery.

The Treasurer rendered the following report:

Savings account	\$1144.94
Checking account	296.38
Cash on hand	7.30
Building fund	82.20
Field Day fund	33.40
Bills:	
Postage	\$1.75
New thermostat	5.72

A motion was PASSED that the above bills be paid.

Doc, W7OS, invited us to look at the album, containing pictures he copied from the scrap book of Al Stenso K7LV. These pictures show our club in its early stages.

Jerry W7BUN, George Abbott WA7BHH and Dennis W7UBA will go to the Western Washington State Fair grounds next Wednesday, to inspect the area for our fair display, as to possible antenna locations etc..

Next Saturday morning, all are invited to help clean-up our new parking lot. Glass, debris, etc. needs to be removed. Letters of appreciation will be written to those who furnished the excavating equipment to level the lot.

A letter of appreciation will also be written to Bob Treleven for the building inspection and termite extermination, which he did free of charge.

The foundation and possible building modifications will be discussed further at the next board meeting.

Roy, W7AZI, announced that application has been made for a re-appraisal of our property.

Bob Weightman, WA7IFR, with the help of George Ankleeck, WA7CSF, installed a new thermostat in our water heater.

Ethel, W7WLX, announced that the trip to Westport and Greta Warburton's house will be on August 21 and 22.

Doug, WA7OHD, says that he still needs more help for field day. Loggers, operators are needed for antenna tuners, variacs and generators will also be needed.

Dennis, W7UBA, reminded us that the club auction and flea market will be on Saturday, June 12 at the Waller Road Grange. The women's auxiliary will provide the food.

The women's auxiliary will also be having a radio sale on June 17th through the 20th at the

(cont. next column)

Smith's home. To give donations for the sale, contact Jill Anton or May Anderson.

Although poor weather held down attendance at the Gardner's of Paradise program, there were many who helped with the sound equipment from our club. Smitty K7ATD, Roy K7USF, Hunt WA7AKW, Don WA7PIN and Scotty K7CYZ.

Novice classes will begin at the club house on June 22nd., Tuesdays and Thursdays at 10 am. Hank W7UD will conduct the classes.

There being no further business, the meeting was adjourned. We then enjoyed a program by Don Ashley, W7HMJ, who told us about VHF and FM equipment and activity.

Respectfully submitted,

/s/

Chris Jensen, WA7MJR Sec.

CLUB MINUTES 6/9/71

The regular meeting of the Radio Club of Tacoma Inc. was called to order at 8:10 pm. on June 9, 1971 by President Dennis Reanier, W7UBA, with members present standing and pledging allegiance to the flag.

The minutes were read and approved as corrected. It was reported that Smitty, K7ATD, was injured while doing some repair work on his electric stove. We wish him a speedy recovery. It was also announced that Marion Wylie, K7TCY, is feeling better. He would like more visitors.

The Treasurer rendered the following report:

Savings account	\$1144.94
Checking account	305.41

are performed by members of
American Watchmakers Institute.

Building fund \$83.30

Field Day fund 42.60

A motion was PASSED that the \$24.00 rental fee for the Waller Road Grange be paid.

\$90.30 was taken in by the club, at its auction and flea market last Saturday.

Doc Spike, W7OS, announced that the museum of the Quarter Century Wireless Association will be officially opened at the Rocky Reach Dam, this coming Saturday. He also invited anyone, who has not yet had his picture taken for the album, to contact him.

Jerry, W7BUN, reported that we are considering installing a tower as part of our set up at the coming Western Washington State Fair. However, approval of Fair officials will be required.

Dennis, W7UBA, said that the fair grounds is a possible site for the Divisional Convention, we are sponsoring. A discussion was held, regarding changing the date of the convention, however it was decided to keep it the same.

Jerry, W7BUN, announced a number of interesting programs for future club meetings.

During the board meeting on July 7, plans for modifications and improvements for the club house will be discussed. All are invited to attend.

On July 12, Doug Blakeslee, W1K1K, the assistant technical editor for QST will be in Tacoma to hold an ARRL meeting, which our club will host. The location has not yet been determined.

During a question and answer period, Bob Gates, K7IND, learned of a new use for band-aids.

Joe Asplund, W7IG, our newest Honorary member, was present this evening.

A number of members will visit the field day site, this coming Saturday, to survey the condition of antennas, etc..

The patio sale conducted by the women's auxiliary, will take place at Rene Smith's home, on the 17th, 18th and 19th of June.

Jerry, W7BUN, announced that it will again be possible to receive a certificate from the Governor for Amateur Radio Week participation next September.

The following were received into membership of the Radio Club of Tacoma: Frank J. Connolly Jr., WA7GWL; Frank Hemenway, K7CIN; Vincent A. VanDerHyde, W7GYP.

There being no further business, the meeting was adjourned. Discussion and plans for field day followed.

/s/ Chris Jensen, WA7MJK Sec.

SLIVERS & SPLINTERS

Will someone donate Rene Smith (Mrs. K7ATD) a map showing the way to Fox Island!

Ask Patty, K7NQR, which she hates worse, the rain or the bears?

No fish in Pass Lake, is there Scotty?

K7CYZ and Vivian's trailer, acting as official (concl. next column)

relief (?) stations at the Marysville Boat races. (Also ye-ole coffee house)

Smitty, K7ATD, reported recovering from his go-around with the kitchen stove. (Rather shocked what can happen around a stove)

Dewey, W7HF, has been elected as chairman of the Northwest Chapter of the QCWA.

All members are invited to make an evening of it, at the local Salmon Bakes at Point Defiance. They serve a wonderful meal and provide entertainment the whole evening. The club voted to picnic the evening of July 21 to get-to-gether. You can park above Owen's beach in the picnic area just outside 5-mile drive and take the FREE shuttle-bus to Owen's beach. Meet about 6pm or thereafter.

Max W7AEA and Gene W7BTB will not be up for field day this year but will be operating mobile from their boats, while vacationing up north in the San Juan area. Will turn in their scores with the club for field day.

Bob, K7IND, in Shelton for 2 weeks training for his new job with the State Patrol. Will be back in time for field day.

Dick Hazelmyer reported doing better now. His leg is on the mend and is working on getting his call letters.

LaVerne, K7NKZ, due back from Europe any day now. Took her camera with plenty of film. Should have some interesting pictures to show of her trip.

Dwayne and Patty (K7KSZ & K7NQR) pretty busy with all the week-end activities with the newly formed club, boy scouts and girl scout outings, and activities.

Sorry Dwayne, no hamburger from the aeronautical mobile this year.

Glen, W7CMZ, and Mrs., sporting a new travel trailer.

Paul, WA7ESD, at the last meeting in June, won a cast on his foot. Looking good but not winning any foot-races.

Art, K7CYQ, back early from vacation trip. His truck ran into his car and trailer causing about a thousand dollars damage to the rigs and cutting short the vacation trip. No one seriously injured.

See you at the club meetings. 73....

ns and discussions of Field Day, 1971. If plan to operate, log or help in any way, be e to attend this meeting

E 23rd.

world-wide Secretary of QRP International, a up of low-power enthusiasts, will tell us about organization and about the fun and advantages operating with low power. He will also bring e typical equipment used for QRP operation.

FIELD DAY

by F/D Chmn WA7OHD

Plans for W7LK's 1971 Field Day are progressing l but we still need all the help we can get, in e way of operators (especially cw) and loggers. member that field day is a 24 hour operation, so e more help we get the less strain it places on anyone. If you would like to help in any way,

(cont. next column)

you are welcome to join. Although we like to know beforehand, who is going to help, it is not essential to "sign-up". There is always lots to be done at the last minute, so if you want to join in or kibbitz, just show up!

Dates and times of "organized" activities are as follows:

June 12 (Saturday)—Work day at field day site. Set-up antennas, clean up kitchen, set-up generator, etc.. Begin early.

June 19 (Saturday)—Finish preliminary work at site. Begin early.

June 26-27 (Saturday & Sunday) Field Day! Come out anytime. Operation begins at 11am., Saturday and continues for 24 hours. Plan to arrive as early as possible Saturday (or stay over Friday night) so we will be ready to operate at 11.

The two regular meetings, before field day, will each include information for field day. June 9th we will review plans for the work party

ARRL BULLETINS

NR 322

The ARRL Board of Directors in annual meeting May 7 and 8 directed the filing of comment in FCC Docket 19162 seeking 150KHz of additional space for voice communication and expanded phone privileges for various license classes particularly at 75 meters. Under the league plan the low edge of each subband for voice would be as follows Extra 3775, 7150, 14175, 21200. Advanced 3800, 7175, 14200, 21225. General, Conditional 3825, 7225, 14275, 21325. Novice band changes would be to 7100 to 7150 and 21100 to 21200KHz. Retention of present 25 KHz segments for Extra class cw is requested. No change proposed in present ten meter band. The FCC proposed 7075 to 7100 voice assignment was felt desirable only for far Pacific possessions BT

NR 323

During the summer travel season many amateurs stop by to visit ARRL Headquarters and the Maxim Memorial station, W1AW. The League Headquarters building is open to visitors Monday through Fridays, eight thirty to four EDST, without appointment. Times other than Monday through Friday can be covered by writing ahead and arranging for a tour. Holiday closings will occur on May 31, July 5 and September 6. Printed directions to ARRL are available without charge. Send an addressed stamped envelope with eight cents postage to ARRL, 225 Main Street, Newington, Connecticut 06111 BT

NR 324

FCC has issued a notice of inquiry, Docket 19245, into the eyebank problem, the handling of traffic for non amateur organizations which FCC feels is a technical violation of section 97.39 of ITU rules. Questions to which FCC seeks answers include: should there be restrictions on amateur handling of messages for non amateur groups? If so, what

(cont. next column)

DID YOU SAY, OVER EASY?

Bulletins (concl.)

types of messages should be permitted? For which groups? Deadline for comment originally was July 1, but it seems likely that the ARRL request for delay to August 31 will be granted. Full text of the inquiry will be in the July issue of QET AR

The regular meeting of the Radio Club of Tacoma was called to order at 8:07pm. on April 28, 1971 by President, Dennis Reanier W7UBA with members present standing and pledging allegiance to the flag.

The Minutes of the last meeting were read and approved as corrected.

Doc Spike, W7OS, reported that Wayne Burnham, W7BO, is home from the hospital after a heart attack.

The Treasurer rendered the following report:

Savings account	\$1144.94
Checking account	350.16
Field Day fund	20.00
Building fund	77.20
Bills:	
City treasurer	\$ 41.64
Electric bill	27.22

It was moved, seconded and PASSED that these bills be paid.

It was felt that the assessment of our property for tax purposes, was unfair. A petition for reassessment will be filed.

A letter was received from the ARRL, offering their assistance and guidance for our divisional convention in 1972.

Forms from Bob Thurston, W7FGY, were distributed so that we could express our opinions on the proposed voice band changes.

Jerry, W7BUN, announced that the club has been accepted to have a ham station at the Western Washington State Fair.

Dennis, W7UBA, reported that Mel Pruitt, K7ATF, will be looking at our building to determine its market value.

Doug Henry, WA7OHD, requested volunteers to help with field day. Those who operated a portable band last year, will be given first choice for this year.

Roy, W7AZI, reported that the club was able to help Bob Churchward's mother-in-law by donating 2 pints of blood. Members are encouraged to donate blood to the club account.

The club has tentatively secured the Waller and Grange Hall for its auction and pancake breakfast on June 5th. Jerry, W7BUN, has offered to advertise this project on the nets.

Scotty K7CZY and Smitty K7ATD asked for volunteers to help with the Gardeners of Paradise program on May 15th and 16th at Point Defiance.

It was moved, seconded and PASSED to have the annual Mother's Day Breakfast on May 9th. Roy, W7ZI, will cook. Clean up parties were organized to prepare the inside and outside of the club house for this event.

Jerry, W7BUN, has information on high pass filters available from T-V manufacturers.

(cont. next column)

Doc, W7OS, thanked Norman Rose, WA7NDX, for his help in taking pictures for our album.

Jerry, W7BUN, was congratulated for his work in bringing us many fine programs.

Jerry Ford, WN7KYZ, described a quad he built for only \$4.70. An interesting discussion followed.

Congratulations to Charles Milhans Jr., WN7QYL, who was accepted into membership of the Club.

There being no further business, the meeting was adjourned.

We then enjoyed a program presented by Steve Dightman, K7SSC, on the construction of printed circuit boards.

Respectfully submitted,
/s/
Chris Jensen, WA7MJK/Sec.

CLUB MINUTES 5/12/71

The May 12th meeting of the Radio Club of Tacoma was called to order at 8:15 pm by President Dennis, W7UBA. There were 60 members and 6 visitors present. All stood to pledge allegiance to the flag.

Minutes of the last meeting were read, corrected and accepted.

Treasurer's report:

Savings account	\$1144.94
Checking account	344.50
F/D account	26.10
Building account	82.20

There was one bill from the City of Tacoma for 90 cents. It was voted this should be paid.

A card of thanks was received from Inez, W7RXT, for the blood that had been donated to her mother.

Jerry, W7BUN, read a letter from the ARABS, stating that they would like the club to attend one of our meetings. Jerry suggested May the 26th and said an invitation would be sent.

COMMITTEE REPORTS:

Roy, W7AZI, reported that 78 adults had eaten breakfast at the Mother's Day Breakfast. Thanks were given, especially to Ehel, W7WLX, for the

NOT ALL OF THE GALS ATTENDING, WERE MOTHERS !

Minutes (cont.)

lovely potted flowers and then to Roy W7AZI, Scotty K7CYZ, Smitty K7ATD, Chris WA7MJK, George WA7BHH and Marv WB4JBS for the cooking, waiting tables and everything else that it took to make the breakfast the success that it was.

Dennis, W7UBA, wanted to thank W7BUN, WA7PIN, WA7BHH, W7OS, WA7MJK, K7ATD, WA7KID, W7HNS, WA7CHD and Jon Wilkeson for helping to clean the club house on the inside and out the day before Mothers Day. Later, Saturday evening, there was a party at the NCO Club at McChord, for the Wheeler's, who will be leaving the area soon. Several of the members attended the party.

President, Dennis, asked if anyone had any old but sturdy chairs, if they would bring them to the club house. We just do not have enough chairs for all to sit down through the meetings.

Doug, WA7OHD, announced that the meeting, June 9th, will be for field day. Everyone going to field day should attend this meeting. Early on June 12th, there will be a field day work party at the site. There will be lots of help needed. Also, some of the bands are still open and they need operators.

Roy, W7AZI, announced he had volunteered the club's help for 4 salmon bakes, July 14-21-28 and August 4. Roy said he could do most of this but might call for some help later.

Doc, W7OS, said the scrap book was coming along fine. We spent 48 dollars for film and that all new members should make contact with him to get their picture taken. Al Stenso donated many pictures and newspaper articles, that are being put into the book. These things could not be obtained from any other place.

Ralph, W7COP, announced the fishing derby at Westport for the 22nd of August. He and W7RGD have their 5 dollars on the line. Any one else

(cont. next column)

wanting to go should pay the money to Ralph as soon as possible. The price is \$17.50 (with your own gear) and \$20.50 (without your own gear). Ethel, W7WLX, will set the dates of 21 and 22 with Greta Warburton.

Roy, W7AZI, reported the blood account was down to 5 pints and we should all drop by and give a donation.

Jerry, W7BUN, announced the meeting of May 2 will be interesting. He has a man from Olympia coming to explain all you want to know about 6 and 2 meters fm..

Dennis announced that bowling team 2 came in second place in the tournament. Jerry, W7BUN, said that we are going to need cabinets or shelves to put all our trophies in.

One more member just came in the door. We now have 62 paid members at the meeting. There were enough members to vote on the changes in the Constitution and the By-laws.

ALL CHANGES IN THE CONSTITUTION AND BY-LAWS WERE READ AND PASSED BY A UNANIMOUS YES. (One no vote was uttered on By-law 9. George WA7BHH did not like it and was going to explain but I didn't hear the reason)

Dennis, W7UBA, said the last board meeting was taken up with the condition of the building, trying to decide if this building is good enough to repair and enlarge or if it would be cheaper to sell this and try and buy a new site and put a building up. We have had 2 appraisals, one said with the building as is, that the ground was worth about \$2500.00 and if we put a foundation under the building, it would be worth about \$4500.00 to \$5000.00. The board suggested the foundation be replaced, if this could be done with donated labor it would cost about \$500.00 and could be more than made back in the sale. The members voted that before the foundation was replaced, that we hire a company to come in and inspect the building to see how bad the termites were and also dry rot, to see if it was worth replacing the foundation. President Dennis, has a company lined up that will do this inspection for around 20 to 40 dollars. Don WA7PIN, will check with the city building department and see if it is possible for us to build a 12 foot extension onto the building.

NEW BUSINESS:

Don, WA7PIN, asked for help on Sunday. They have made arrangements with the owner of the property (behind the club house) to clear the property and use it for parking. There is a contract, which will give us parking rights for 10 years if the property is not sold. Dennis, W7UBA, has a bulldozer lined up to do the work but they will also need trucks and men with shovels. There was quite a discussion on the contract. W7BUN suggested we get the contract to Bill Goodloe and let him look it over before we did the work.

(cont. next page)

is agreed to do this. A vote was taken to pay the bulldozer fuel if the work was done.

Scotty, K7CYZ, said the hot water heater needs a new thermostat. Dennis asked Bob, WA7IPR, to take care of the matter.

Jerry, W7BUN, introduced the newly-weds in our group, Lydia WN7OVO and Ed Coles K7CZM.

The meeting adjourned at 9:40pm.

After the coffee break, there was a film that Dennis borrowed from Western Washington DX Club, showing the operations of W7VSF. This was through the courtesy of W7SFA.

Respectfully submitted,

/s/

LaVerne Hood K7NKZ

Acting Secretary

MARRY NOT AN ENGINEER

from NDSU Engineer

Verily I say unto you, marry not an engineer; for the engineer is a strange being possessed by many devices; yea, he speaketh in parables which belitteth formulae and he wieldeth a big stick, with which he calleth a slide rule; he hath but one rule—a handbook.

He talketh away of stresses and strains and of the end of thermodynamics; he showeth always a serious aspect and seemeth not to know how to smile; and he picketh his seat on the car by the number of springs therein and not by the damsel's complexion. Neither does he know a waterfall except by its power, not a sunset but for its specific time.

Always he carrieth books with him and he entereth into his maiden with steam tables. Verily, though the damsel expecteth chocolates, when he openeth, he opens the package to reveal samples of a new alloy.

Yeah, he holdeth a damsel's hand, but only to measure the friction and he kisseth only to test its cohesivity. For in his eye shineth a faraway look, which is neither love nor longing but a vain attempt to remember an equation.

Even as a little boy, he pulleth a girl's hair to test its elasticity, and as a man he dismembereth different devices, for he would hold a damsel to his bosom only to count the palpitations of her heart and to reckon the strength of her material.

Alas! his marriage is a simultaneous equation, involving two unknowns and yielding a periodic function.----Anonymous.

78 adults and a few harmonics showed up for the Mother's Day breakfast. Thanks to the crew, who made it possible. (See pictures scattered through this month's edition.)

Several members from the Bremerton Club showed up for the last meeting in May. A return visit is planned in the near future.

Paul, WA7ESD, laid up in the hospital with a broken foot caused by a fall from a horse.

Bob and Inez (W7RXS & W7RXT) moved back to Fox Island for the summer months. Not on week-ends since they hitch-up to the trailer and take off at the first available chance.

Bob, K7IND, getting ready for a big antenna party at his QTH. Getting the pizzas ready Bob?

Tom, W7PK, busy helping Dwayne, K7KSZ, load-up the 5 KV generator, which Tom donated to the newly formed H.A.M.S Club in Everett.

LaVerne, K7NKZ, on her way to London as of June 1st. for a 3 week vacation.

Margie, K7AMJ, back from San Francisco and the Bay area after a visit with her number one daughter, Melinda. Merle, W7IG, made it there also from Hawaii.

Bob, K7ZVA, getting ready with his presentation of his program on QRP at the club meeting in June.

Dick, W7RGD and Smitty, K7ATD, out with the C/D bus on a 2-11 fire during the month of May. Naturally, it had to be 4 am.

Art, K7CYQ, leading up the trailer to take off once he gets off the graveyard shift.

Ralph, W7COP, still taking orders for the fishing trip at Westport but running out of openings.

Don't forget F/D. The club needs you!

PRESIDENT DENNIS PRESENTING THE SS AWARD TO CHIEF K7VPT DURING REGULAR CLUB MEETING MARCH 24

DOC SPIKE W7OS BEING PRESENTED WITH THE PSCARC "OUTSTANDING AWARD" BY PRESIDENT DENNIS

MAY PROGRAMS by W7BUN

MAY 12
Dave Hensel, CX8AAW, (ex K7LOL) from Auburn will show slides of his six years he spent in Uruguay and other South American countries installing radio equipment. Dave has some fascinating pictures of life in South America; be sure to bring your XYL out for this program.

MAY 26th
Don Ashley, W7HMJ, from Olympia, a member of the Northwest Amateur Radio Communications System, will head a group of VHF enthusiasts and present "What You Always Wanted to Know About 6 and 2 Meter FM". Discussions will be held on repeaters, mobiles, antennas, type and availability of equipment, conversion of commercial gear and troubleshooting VHF equipment. Here is your chance to learn all about VHF FM from the experts.

GRAY HAIR ISN'T SO BAD. ASK ANY BALDHEADED MAN.

MOTHER'S DAY BREAKFAST

Remember to take your mother to the Mother's Day Breakfast at the Club House on May 9th. This is the day "Mom" gets the Club's thank you. She will be Queen of the Radio Club of Tacoma. The Club will treat her to a free breakfast, with all the trimmings. No dishes or cooking for her. The men will do all the chores. A nominal fee of 50¢ will be charged to the men who want to have a breakfast with "Mom".

Breakfast will be served, starting at 8:00 am..

FUTURE PROGRAMS

June 9th - Final plans for Field Day.
June 23rd - Troubleshooting transistor circuits.
In the mill for future programs: Mobile Noise Elimination; Power Line Noise Tracing; A Ham's Tour of Communist European Countries; etc. Be sure to attend all club meetings so as not to miss out on these fine presentations.....Jerry, W7BUN

The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$3.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

WESTERN WASHINGTON STATE FAIR

The Radio Club of Tacoma will have a booth in the Hobby Shop Building. The plans so far are for a station for sending messages and demonstration amateur radio in action and a display of old time radio gear.

This is going to take a lot of help because the station will need at least three members on duty at all times.

Jerry, W7BUN, is chairman, so contact him if you wish to get in on the fun. This will be a big boost to our club and to amateur radio, so let's all pitch in and get this going.

CONFUCIUS SAY: "ONLY FELLOW SURE TO GET SOMETHING FROM FOLLOWING THE 'HORSES'...STREET CLEANER, AND YOU KNOW WHAT HE GETS! "

LADIES AUXILIARY NEWS

by RENE SMITH

The Women's Auxiliary will hold a Patio Sale in June 17, 18, 19, Thursday, Friday and Saturday, at Rene Smith's. We hope everyone will have something to donate. We will accept anything that is saleable. (Good used clothing, furniture, books etc..

Call Jill Anton, VI 7-6259 or Mae Anderson, GR 5-6278 and they will make arrangements to pick-up any donations.

The June Auxiliary meeting will be at Rene Smith's home on Wednesday, June 16th and we will tag everything and get them ready for the sale.

Thanks to Jill for a great meeting on the 21st of April. She really is clever at making Barbee Doll clothes and of socks and doilies. Had everyone doing it.

Jill is our program chairman and has many interesting things planned for future meetings. May 19th, she and Mae Anderson are planning to show slides and souvenirs from Korea.

Why not come and enjoy it too?

Due to many previous commitments, we didn't have too good of a turn-out at the club's skating party. Those attending had a great time. 21 enjoyed the pot-luck feast at the club house. We hope to see more of you next year.

EASY TO BUILD MOTOROLA TEST SET

CIRCUIT DIAGRAMS ON PAGE 7

Parts list:

- 1-50-0-50 A or 0-50 A Meter
- 1-18K $\frac{1}{2}$ Watt 5% Resistor
- 1-7 position 2 pole switch
- 1-11 pin plug (Amphenol 77PM-11)
- 1-Reversing switch (required only if 0-50 A meter used)

Misc.: Small Chassis, wire, ect.

The basic test set can be built on a small chassis or minibox large enough to house the meter and switches. For a more versatile test instrument you can add microphone and receiver output circuits (Figure 2). The microphone circuit allows a conventional Motorola microphone to be used to key and modulate the transmitter without going to the control head. The use of a speaker will allow the incoming signals to be heard.

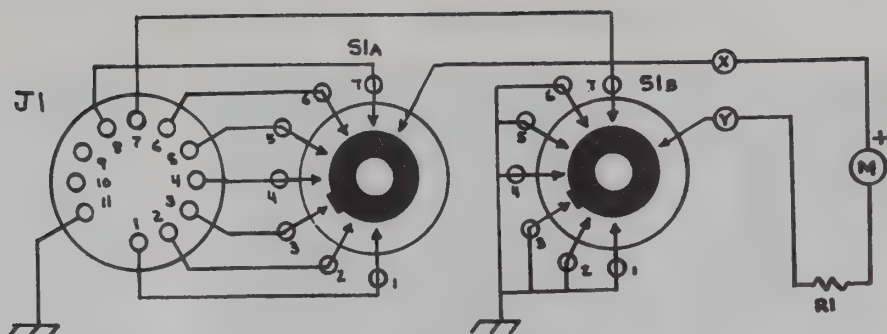

From 73 Magazine, December 1968

The Radio Club of Tacoma was well represented in the Puyallup Valley Daffodil Festival Parade.

Twelve of our members worked the parade route with handi-talkies and mobile units. We also manned the Civil Defense Bus in the staging area.

WA7AKW & WA7MJK

w7rgd photo

Members working were Bob K7IND, Chris WA7MJK, Dennis W7UBA, Len WA7HHI, Bob WA7IPR, Roy K7USF, Smitty K7ATD, Dick W7RGD, Scotty K7CYZ, Hunt WA7AKW, Denny W7ZTG and John K7CZF. Thanks to everyone for the help and hope we have ss good a turn-out next year.

(Pictures taken on the C/D bus at staging area.)

GARDNERS OF PARADISE DAYS

Remember May 15th and 16th at Point Defiance Park, the Radio Club of Tacoma is setting up and maintaining two public address systems at the affair. We are going to need help! Anyone, who wishes to assist on this public service project, contact Roy W7AZI, Smitty K7ATD or Scotty K7CYZ.

CONFUCIUS SAY: "FOR BEST WAY TO OPEN CONVERSATION.
..USE CORK-SCREW!"

NR 316

Operating Aid 14 continues to be a popular and useful ARRL aid. The convenient perforated form includes the newly updated RST system, a time conversion chart, useful phone and cw ending procedures, the ICAO phonetic alphabet and steps to follow in an emergency. To get your free copy send an addressed envelope with 6 cents postage and the notation Operating Aid 14 to ARRL, 225 Main Street, Newington Connecticut, 06111 BT

NR 317

A new and unusual contest will be held on May 15 and 16. Commemorating World Telecommunication Day the Oscar Aircraft Competition will center around the aircraft test flight of an Oscar repeater. Participants should transmit on 2 meters and listen for repeated signals on 10 meters. Special FCC permission has been granted for the test to repeat Novice and Technician signals on ten meters. Non transmitting stations may also compete. For full details and rules see May QST or send an addressed stamped envelope to Amstat, P.O. Box 27, Washington, DC 20044 BT

NR 318

A newly revised operating aid on amateur message form, called Operating Aid 9B, is now available for distribution. The 9 1/2 by 6 1/2 inch card contains full information on proper message form including details on precedences and handling instructions. One side of the form lists ARRL QN signals for cw net use as well as abbreviations, prosigns and prowords. A new addition to this side of the form is a listing of 40 commonly used International Q signals. Operating Aid 9B is available without charge. Please send your addressed stamped envelope with the notation 9B to ARRL, 225 Main Street, Newington Connecticut 06111 BT

NR 319

All radio amateurs are invited to participate in the World Telecommunication Day Contest, sponsored by the Brazilian Ministry of Communications. The cw period will take place May 15 GMT and the phone section May 22 GMT. Participants operating on any bands from 80 to 10 meters should exchange signal report and ITU zone number. Further details, including ITU zone list, are available from DENIEL, PO Box 12192000, Rio de Janeiro GB, Brazil BT

NR 320

Early this summer work will begin on the Fall 1971 ARRL Net Directory. In addition to a new listing of repeaters itemizing area served, call, input and output frequencies and access method, the directory tabulates comprehensive information on public service nets. If your public service net has not been reregistered since July of 1970, it will be necessary to do so before July 1 to ensure listing. Ask for the net registration card and the repeater registrations form AR

R-321

Individual and groups planning field day operations June 26 and 27 are reminded of the new rules appearing in the May issue of QST. Since copies of field day logs will not generally be required this year, plan to prepare your own log sheets and duplicate contact sheets now to be ready for the contest. An addressed stamped envelope with the notation field day will bring the entry package, which includes full rules a summary sheet for the entry and a sample duplicate record sheet AR

SPECIAL BULLETIN 872

Attention DXer's. A DX-pedition to the Red Sea islands of Abuail and Jabel, at Tair may get underway at 1700 GMT May 1. The operation under the call EF3ZU/A, plans either transceive on 14.232 or transmit on 14.166, listening up from 14.275. The islands would qualify as separate country status under point one of the DXCC criteria relative to a distinctively separate administration.

CLUB MEETING MINUTES 3-24-71

The regular meeting of the Radio Club of Tacoma was called to order at 8:07 pm on March 24, 1971 by President Dennis Reanier, W7UBA, with members present standing and pledging allegiance to the flag.

The minutes were read and approved as corrected. It was announced that Marion Wylie, K7ICY and Chuck Emigh W7ER are in the hospital.

The Treasurer rendered the following report:

Savings	\$1144.96
Checking	336.96
Building fund	10.70
Field day	8.00

There was an utility bill for \$29.00. A motion to pay the bill was PASSED. Thus far, 70 members have paid their dues.

Be sure to contact Don Grant, WN7PIN if you have any leads on, or ideas for new land for the club.

See Dennis, W7UBA, on any ideas for the North West Divisional Convention, which our club will sponsor.

President, Dennis, presented Dr. Clifford Spike W7OS, with the well deserved "Outstanding Achievement Award" from the Puget Sound Council of Amateur Radio Clubs. Doc received the applause of all present.

It was moved, seconded and PASSED, that \$10.00 be donated to the PSCRC.

Ethel Devish, W7WLX, announced the coming skating party and hot-dog feed, to be sponsored by the Ladies Auxiliary, on April 1st. All are invited.

Smitty, K7ATD, requested the Club's help for the Daffodil Parade. 25 to 50 people will be needed. Communications will be on 2 & 6 meters.

Chip Margelli, K7VPF, was presented a certifi-

(cont. next column)

cate from the ARRL for his out-standing achievement in the last Sweepstakes Contest. Paul Kiesel K7HTZ, was also presented an ARRL award certificate.

Doc, W7OS, announced that we now have a new book full of member's pictures. While Doc was in Hawaii, he met a former member of the club from many years back, Gene Piety KH6FP. Doc also noted that Al Stenso, K7LV, has loaned us his scrap book which is an invaluable source of much of the early history of the Radio Club of Tacoma.

The proposed changes of the Constitution and By-laws were read. These will also be published in the next *Loggers Bark*.

Doug Henry, WA7OHD, has been appointed as field day chairman for this year.

Jerry, W7BUN, has tickets for the Skagit Valley Hamfest to be held on April 17th.

Dennis, W7UBA, announced that the prize for the Washington State Hamfest (A Swan Transceiver) has finally been delivered.

It was moved, seconded and PASSED that the club have a combined pancake breakfast, flea market and auction on June 5, 1971. Don Grant, WN7PIN, moved that the proceeds from this activity be put into the building fund. This motion PASSED by one vote.

Hank, W6DIJ, has volunteered to head up a program for novice classes. Classes will be held on Wednesday and Friday at 9:30 a.m. at the Club House beginning on April 14th.

Doc, W7OS, encouraged that a museum chairman for the club be appointed.

There being no further business, the meeting

CLUB MINUTES APRIL 14

The regular meeting of the Radio Club of Tacoma was called to order at 8:05 pm. on April 14 1971 by President Dennis Reanier, W7UBA, with members present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved as read.

It was announced that Wayne Burnham, K7HBO, is now in the hospital. Marion Wylie, K7TCY, is now at a nursing center in Puyallup and is doing better.

The members and guests of the Radio Club of Tacoma stood for a minute of silence in respect for our silent key Charles Emigh, W7ER, who passed away on March 29th at 76 years of age.

The Treasurer rendered the following report:

Savings account \$1144.96

Checking account 351.36

Building fund 77.20

Field Day fund 12.40

Bills:

Wwestern Furnace \$35.35, Utilities 29.00

A motion was PASSED that the above bills be paid.

A letter was read from the North Seattle Amateur Radio Club offering to help us with our planned regional convention.

Smitty, K7ATD, thanked all those from our club who helped with communications at the Daffodil Parade.

Ethel, W7WLX, described the enjoyable evening had by those who attended the skating party and dinner sponsored by the Women's Auxiliary.

Steve Dightman, K7SSC, showed us a sample of the pack sets he has procured for many of the club members. We all appreciate Steve's work on this project.

Doug Henry, WA7OHD, the chairman of the Field-Day Committee, invited all of us to offer our help and ideas.

Due to a lack of sufficient number of members present, changes proposed for the Constitution and By-laws could not be voted on this meeting.

A motion was made that a "For Sale" sign be placed in front of the club house. It was moved, seconded and PASSED that this motion be amended to include an appraisal, which would be paid for by the club if necessary from the building fund.

(cont. next column)

This entire motion was then DEFEATED. However, it was then moved, seconded and PASSED that an appraisal of the club property be made and that this appraisal would be paid for by the club, if necessary from the building fund.

It was moved, seconded and PASSED that the club participate in the Western Washington State Fair at Puyallup this year. Jerry, W7BUN, will look into this further for us.

It was moved, seconded and PASSED that those members being listed as eligible for special membership be accepted.

In recognition for his many years of outstanding service and assistance to the Radio Club of Tacoma, Joe Asplund, W7IG, was nominated and unanimously approved for Honorary Membership.

The application for membership of Chris Taylor, WA7OJY, was read and approved.

Their being no further business the meeting was adjourned at 9:14 pm.

We then enjoyed an interesting and informative program by Bill Goodloe, WA7GWJ, and Paul Hayes, on the legal and insurance aspects of amateur radio. Smitty, K7ATD, was the moderator.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK

MT. BAKER ANNUAL BANQUET

The annual Mt. Baker Amateur Radio Club Banquet will be on May 8th this year. It will be held at the Victor Grange Hall again this year and the meal will again be a super-duper turkey feed. For those who haven't been there, the Grange Hall is at the corner of Smith Road and the Hannigan Road. The time will be, doors open at 1900 and the banquet will start at 2000 sharp. We have lots of prizes and awards and a lot of fun for all. The cost will again be \$2.75 per person and more than worth it. Get you tickets early because we must give them the attendance figure two weeks before the banquet.

CHALES M. EMIGH
W7ER
1894-1971

Charles M. Emigh was born in Seattle, Washington December 29th, 1894 and died at Tacoma, Washington, March 29th, 1971 at the age of 76 years and 4 months. Cause of death being a complication of Emphysema and a weak heart. His family moved to Walla Walla sometime previous to 1908 as he was mentioning at times that he was building receiving and transmitting equipment at this time and also visiting the United Wireless Station, operating there in 1909.

He was quite active at this time both at his station and at friends, who at times, wanted to hear what their stations sounded like at a distance.

He never felt the need to take out an amateur license until sometime late in 1914, as his call, 7CN, first appears in the 1916 callbook. Later, after World War 1, he was back on the air as 7ER and later as W7ER.

Chuck was Charter Chairman of the Northwest Chapter QCWA and as Charter Secretary, I have taken great pride in the growth and progress made in the years since 1956, when he worked so hard to get this Chapter started. Chuck never missed a meeting and spent many long hours as net control.

He was a member of the Radio Club of Tacoma, first in the year of 1932 and for a period was also active in the Tacoma Amateur Radio Society.

Services were held at the Lynn Funeral Home, April 2, 1971. The Rev. Charles U. Wagner, officiated. The casket-bearers were Roy Devish W7AZI, Alex Braidwood W7AZR, Tom Gilmore W7PK (formerly W7FUL), Dr. F. Clifford J. Spike W7OS, Charles Wible ex-W7ABE and Clifton Osborne W7MFG. Concluding services were at Mountain View Memorial Park.

WHAT TYPE PROGRAMS WOULD YOU LIKE?

By W7BUN

The life of the program chairman is not all a bed of roses. Some of the comments made recently by club members: "Programs are too technical", "Programs are too basic."; "Too many travel type presentations."; "Too many technical type presentations."; "Too many programs."; "Not enough programs" Add all these comments to the problems caused by guest speakers that cancel their commitments at the last minute and you'll realize that this is one way to get an ulcer! The ideal guest speaker, according to many club members, is an expert on his particular subject, who can convey everything he know in five minutes, without going over anyone's head or boring anyone. As we all are aware, there is no such "animal". If, however, you know of anyone who would make an interesting and informative presentation to our club, please let me know. I will take care of all the contacting, coordinating and arm-twisting. (I'm getting pretty good at that phase of this job!) I am always receptive to constructive comments on our programs, both past and future, after all you are the people that have to sit through these programs. So remember, I need your help and ideas to make my job a little easier.

FIELD DAY

by Cairman WA7OHD

The 1971 Field Day will be on the weekend of June 26-27 and as usual, W7DK plans to be out in force for the affair. Tentative plans are to operate with as many transmitters as we can get out, as was done last year and to set up early. Last year's site has been confirmed for our use again.

Rule changes for 1971 are few and include the addition of signal reports to the contact exchange and the requirement for all class A and B stations to use emergency power sources exclusively.

Comments and suggestions regarding our 1971 entry are most welcome and we request that these be made early. Likewise, anyone wishing to be on record as willing or interested in helping, in any capacity, please contact me. Novices and non-licensed individuals are essential to our success and are urged to participate.

If you wish to assume the responsibility for a particular phase of this event or would like to help in our preparations or operation, please talk to me or Dennis, W7UBA. If you captained or operated a particular band last year, your seniority will be honored for 1971, but your commitment must be made to me by May 12.

Special projects that need to be considered are the design and construction of bandpass or wave-trap filters and the repair of the club's antennas. We are also looking for the club's variacs and the smaller generators. If you have them in custody

(cont. next column)

Field Day (concl.)

or know the location of either item, please contact me or President Dennis, W7UBA.

SPECIAL MEMBERS TO DK

During the last meeting in March, the following names were proposed by action of the board members to the club, for action on as Special Member-ship. The list was voted on and PASSED.

The ones voted on are as follows;

Robert BENNETT WA7FWN, Thomas ESTELITA WA7LKA, Robert GATES JR. K7INE, Omar HAUGEN WA7HPK, Sgt. Dick HAZELMYER, Fr. Leonard KAUFER W7DXH, Richard LEARY K3RIW, Dwayne & Patty LEWIS K7KSZ & K7NQR, Bert NOLL K4UVH, Lt. Bill ROHER W7ZFY, Lt. Jim SMALL K7GPJ, Greta WARBURTON and Dewey WILSON W7HF.

LATE NEWS ITEM !

Just as the Bark was going to press, we received the news that a new radio club has been formed in Everett. After some time of thinking about forming a club, it has come about.

A meeting was held at the QTH of Dwayne and Pat Lewis (K7KSZ & K7NQR) by the amateurs in the Everett area and the start was made on the C & B and the first officers were elected. The name of the club was selected to be H.A.M.S. Inc. (Hams Amateur Mobile Service). Meetings 2 & 4 Fridays at 7pm.

More details on the new club next month.

REGULAR HOURS FOR LISTENING.

Our greatest difficulty in getting messages through is because the other fellow is not "on." Most of the stalling of messages is due to this one thing. What we must do is to have regularly established and definite times at which we will be on duty. Then if a man in Northampton has a message going West and he knows just when the station at Buffalo or Waynesfield, or Kane, for example, is working he can work with some hope. As it is, he tries at any old hour and unless the other man is a regular night hawk and sits up half the night every night in the week, he misses him.

To make it better, it is suggested that every station send out a QST followed

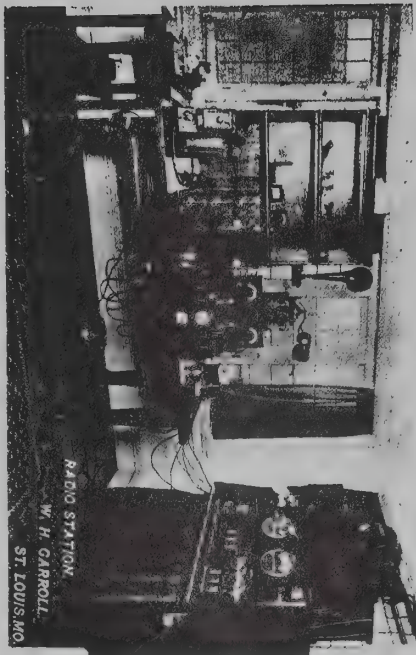

QST

December, 1915

by a QRU with his town or city at a definite hour every evening. This will indicate that this station is ready for anything coming his way.

An example of what the plan is may be taken from the way we have begun to work it at headquarters. Between 8 and 9:15 p. m. every night one of the Hartford stations sends out the following at full power: QST QST QST de LZT. ——— Hartford ? QRU Hartford ? QRU Hartford ? de LZT. ———

This makes it known that Hartford, Connecticut, is ready to receive any messages for or via it. If all other cities would agree among themselves to carry out this same plan, it would help get messages through without a doubt.

One of the best equipped Stations in the League

THE LIST OF STATIONS BOOK AND THE OFFICIAL LEAGUE LICENSE.

Another vitally important factor in securing reliable transmission is the LIST OF STATIONS book. This book must be at hand ready for instant reference at any moment. Over six hundred stations are listed in this book, and it is the one which the Government would use in attempting to work through an amateur station in case among a few stations late in the spring. The summer season came before many members had ordered it. EVERY MEMBER OF THE LEAGUE AND EVERY AMATEUR WHO HAS A STATION OR EXPECTS TO HAVE ONE OUGHT TO ORDER THIS BOOK IMMEDIATELY. It gives all the latest call letters of relay stations, their

address, the name of the owner and operator, his transmitting power, what kind of a spark gap he has, how far he can send, the

number of words per minute he can receive, his usual listening in time, what kind of a license he holds from the Government, and whether or not he has a telephone near at hand for delivering or receiving local messages. The book also contains a lot of extremely interesting letters from amateurs who are operating and covering long distances. The book is sent to any one whether a member of the League or not, upon receipt of fifty cents in stamps or otherwise, which just covers the cost of printing and distributing. Every one reading these lines is not doing his share unless he gets this book. If you have not sent in your order already, you ought to attend to it today.

December, 1915

OFFICIAL LEAGUE LICENSE.

Another important matter which will assist materially in the ordering of the official license certificate for Licensed Relay Station. This certificate is issued only to members of the American Radio Relay League who have qualified as owning and operating a practical radio relay station. The certificate is similar to the United States Government certificate, and makes a dignified document which any radio operator might well be proud of. It is sent upon paying the license fee of fifty cents, provided of course the applicant is a member of the League. If you have not obtained your license, you ought to order it at once so as to have it framed and hanging up in your operating room when the time comes that you want your station to look well. Send a dollar, and we will send your Book, package of Official Message Blanks and your License all at the same time.

APPLICATION FOR MEMBERSHIP.

Any owner of a wireless station may become a member of the American Radio Relay League by filling in an application blank and sending it in to headquarters for consideration. If the application has a practical direction, that the operator receive a working station, after he receives a message, he is made a member. No money is charged, as the League is not a money making scheme, but its sense of the word. Its single aim is to organize the different stations and wireless telegraph stations of the United States of America, so that we can relay messages between each other and thus reach every part of the country. The only money that is asked for is to pay for the List of Stations book, and the License Certificate which are charged at what they cost to print and distribute.

An application blank can be obtained by addressing a postal to Headquarters, American Radio Relay League, Drawer 4, Hartford, Conn. All orders for books or License Certificates should be sent to this address.

SPECIAL LICENSES.

As is well known among most amateurs by this time, we have secured the co-operation of the Government to the extent that where it seems desirable for the purpose of relay work, a Special License will be granted by the Bureau of Navigation, provided the applicant holds a First-Grade Commercial License, and provided he is favorably recommended by the League.

This does not mean that everybody can secure a Special License. Distinctly the reverse is the case. No Special License is issued except where it is very plain that the interests of the American Radio Relay

QST

7

League require it. Therefore, if you have a good station and hold a First Grade Commercial License and are located away from the sea coast, and absolutely require a transmitting wave length of 425 meters in order to be able to handle relay messages, there is a chance that you may secure a Special License. But, unless you can make it very plain that you meet every one of those conditions, it is a waste of time for you to think about a Special License.

The program to follow, where a station is entitled to a Special License, is to write to the Radio Inspector of your District, and secure application blanks for Special License, and after filling these in, to send them to Headquarters for consideration. If it seems desirable that the station be granted a Special License, a favorable endorsement is made upon the application, and it is forwarded to the District Radio Inspector. It is then up to the District Inspector to either favorably or unfavorably endorse after which the application is sent to Washington where the Bureau of Navigation finally passes upon the matter.

First Issue of QST No. 1 December, 1915.

After considering the matter for several months, it has finally been decided to issue regularly some kind of a bulletin to League members. During last winter, the need for this was very apparent. Many stations would have been brought together which never got together, if there had been a regular circular distributed which contained general information. The difficulty has always been how to pay for it. The members did not order the new List of Stations book and License Certificates as fast as they ought to have, and the officers had to go down in their own pockets to pay the printers bill, clerical help, postage, supplies, etc. It did not seem wise to continue to spend money on circulars or bulletins unless the members indicated enough interest to at least pay the List of Stations book.

After obtaining the views of several members and thinking it over, the President and Secretary finally decided to risk a few more dollars on a different plan. This new plan was to make the circular or bulletin take the form of a magazine, which the membership would be willing to support. Enough money would have to be put in to distribute three or four issues of the magazine in order that the amateurs throughout the country could get acquainted with it and come to like it well enough to be willing to buy it.

After much hard work, the President and Secretary out of their own pockets have produced QST No. 1. It constitutes the first bulletin of general information on relay matters, and they hope to follow it each

Don't forget the Mother's Day Breakfast at the clubhouse on May 9th. The club cannot treat your mother to a free breakfast, unless you remember to bring her to the club house.

DICK HAZELMYER in the hospital in Petersburg, Virginia for operation on old leg injury.

JIM SMALL, K7GPJ, is now out of the army and is back at MIT on a research fellowship, working on his PHD. Jim also received an Army Commendation Medal for meritorious service. Congratulations to Jim!

ROY DEVISH, W7AZI, reports the blood bank has 5 pints of blood credit with the blood bank. Remember, the new location of the blood bank is 224 So. I Street, when you are able to make the trip down to donate.

MARION WYLIE, K7TCY, getting along fine in a nursing home in Puyallup.

ETHEL DEVISH, W7WLX, will be the new President of the MINOWS.

MEL PRUITT, K7ATF, will be checking the market value of our club house, in case the club decides to make the move to new quarters.

LAVERNE HOOD, K7NKZ, getting ready for the big trip to Europe in June, getting her mug shot and the other type of shots.

BERYL HOOD, K7NPG, on the air more, now that he has a rig on 2 meters fm..

MAX BICE, W7AEA, back from a stay in Hawaii, looking well tanned.

The bowling season is over for the men's teams with team number 2 taking the 2nd place trophy for the year. Congratulations to them all! Team 1 was in there pitching up to the last 2 weeks, then didn't get into the finals. Maybe next year fellows??

STEVE DIGHTMAN, K7SSC, busy working out the details for the conversion of the 460 gear to the 2 meter band for the equipment obtained recently for a big portion of the club's membership.

DICK RYAN, W7RGD, working on the lower bands, for a change, with his new rig just obtained.

LEN GOODWIN, WA7HHI, been heard on 146.76 quite often, trying out his new HR-2 transceiver.

DENNIS REANIER, W7UBA, can be heard also nearly every evening, going home from the salt mines on 2.

NORMAN ROSE, WA7NDX, making the rounds of some club member's homes, with the club camera, taking pictures for the club's album. JERRY SELIGMAN, W7BUN, also has been making the rounds with his own camera doing the same job. Thanks to both for their assistance on this tedious job.

MARVIN & JEAN WHEELER, WB4JBS & WA7OII, getting ready to leave in May for the East. The club will be sorry to see them leave and only hope they will remember DK and let us know how things are going with them.

(concluded next column)

DEL KOHLER, W7JG, in the local store picking up parts and eyeballing the new HR-2 transceiver.

Don't forget to attend meetings, lots of good programs and projects in the mill. The club needs you!

APRIL 1971

COMING PROGRAMS

BY W7BUN

APRIL 14TH

Bill Goodloe, WA7CWJ, Seattle attorney and Paul Hayes, State Farm Insurance agent, will discuss, in panel format, the legal and insurance problems and hazards of an amateur radio station. After a brief presentation from each, the panel will answer questions from the floor. Here is your chance to get the answers to your problems concerning towers, stolen equipment, liability, loss due to fires, zoning restrictions, etc..

APRIL 28TH

Steve Dightman, K7SSC, will present the techniques for home construction of printed circuit boards. Steve is employed by a Seattle firm involved in the design and manufacture of boards and he has also done a lot of board design at home. If you have been holding off on construction of a new project because of the lack of a circuit board, now you can find out how to "home-brew" your own.

NEAR FUTURE

Mobile noise elimination - Power line noise tracing and elimination - Field Day plans - etc.. Attend all club meetings and don't miss out on any of these excellent programs!

SKAGIT HAMFEST

BY W7BUN

The Skagit Amateur Radio Club will hold their annual Hamfest at Bryant, Washington Saturday, April 17th. A tour of the navy million watt station at Jim Creek will be featured (10:30 A.M.) as well as bunny hunts, country store, auction, dinner, prizes for men and women and some excellent entertainment. No tickets available at the door, Ticket sales will be limited; don't wait until too late.

Contact Jerry, W7BUN, at TH 5-7652 for tickets. The cost of \$3.50 includes ALL activities.

THE AVERAGE AMERICAN EATS 150 COWS, 24,000 CHICKENS, 225 LAMBS, 26 SHEEP, 310 SWINE, 26 ACRES OF GRAIN AND 50 ACRES OF FRUIT AND VEGETABLES BEFORE HE IS 70. ALSO HE WILL CONSUME 9,450 QUARTS

PRESIDENT W7UBA & XYL

CLUB BANQUET

The 1971 Radio Club of Tacoma Banquet was held at the NCO Club at McChord AFB. There were 87 present. The guest of honor was Al Stenso, K7LV, the Club's first Treasurer (1915) who now resides in Eugene Oregon. Al made the trip to Tacoma especially for the banquet. Another guest of honor was Dewey Wilson, W7HF, from Aberdeen, another "old timer" member of our club.

Other guests, honoring us by their presence were Don W7HMJ and Barbara W7GJL Ashley. Barbara is the Secretary of the Northwest Amateur Radio Communications System and Don is a past President of the Puget Sound Council of Amateur Radio Clubs.

The food was "excellent" as usual and this year we had the dining area to ourselves. The music was not exactly "dancing" music to us oldies but it was good music, played by real musicians.

(NOTE:) See additional photos taken at banquet within the pages of this month's BARK.

HONORARY MEMBER LETTER

I have just returned from a two month trip to South America on a Norwegian freighter, sailing out of New Orleans. I became a very good friend of the radio operator and spent many delightful hours with him in the radio shack on the ship.

I found him a most interesting travelled under 30 having had several years of experience in various parts of the world.

One evening during our conversation I told him of our radio club in Tacoma and found that he was also a radio ham and that at his home in Norway he spent many hours with his ham gear contacting various people in the United States, when on vacation.

I gave him the call letters, W7DK, and he said that he would try and call when on his vacation at his home in Norway in May at which time he intends to retire from the sea permanently. His name is Sven Arne Johansen and the call is LA7YG.

Anyone making contact with him, I would appreciate hearing from them and would like having them to send him my best regards.

CLUB BANQUET 1971

THE ALWAYS FAITHFUL FEW

from A. F. MARS newsletter

When the meeting's called to order
And you look around the room
You're sure to see some faces that
From out the shadows loom;
They are always at the meetings, and
They stay until it's through - - -
The ones that I would mention are
The ALWAYS FAITHFUL FEW.

They fill the many offices, and
Are always on the spot
No matter what the weather, though
It may be awful hot;
It may be dark and rainy,
But they are tried and true.
The ones you can rely on are
The ALWAYS FAITHFUL FEW.

There are lots of worthy members
Who will come when in the mood
When everything's convenient, they
Can do a little good;
They're a factor in a meeting
And are necessary too - - -
But the ones that never fail us are
The ALWAYS FAITHFUL FEW.

If it were not for these faithful
Whose shoulders at the wheel
Keep the institution moving,
Without a halt or reel;
What would be the fate of meetings
Where we claim so much to do?
They surely would be failures, but for
The ALWAYS FAITHFUL FEW .

The Willamette Valley DX Club is pleased to
announce they will host the Northwest-Pacific DX
Area Convention in Portland, August 7 & 8, 1971.

CLUB BANQUET 1971

BOARD MEETING MINUTES 2/3/71

The regular meeting of the Board of Directors
of the Radio Club of Tacoma was called to order at
8:08 pm. on Wednesday, February 3, 1971 by Presi-
dent Dennis Reanier, W7UBA.

The minutes of the last board meeting were read
and approved as read.

Dennis, W7UBA, will contact Dick Ryan, W7RGD,
and have him put a "dues reminder" in the next
LOGGERS BARK, so that people don't lose their
membership through inadvertence. The By-laws
currently states that a member whose dues are 3
months in arrears will be dropped without further
action.

Doc Spike, W7OS, recommended that anyone, whose
(cont. next page)

CLUB BANQUET 1971

BOARD MINUTES (cont.)

dues are in arrears, be notified before they are dropped. Doc will write a note to Roy Devish, W7AZI, recommending further consideration of the present By-laws, concerning payment of dues.

Dennis, W7UBA, requested the Treasurer to give Dick Ryan, W7RGD, a list of those who have not yet paid their dues.

The President recommended that a person be nominated for the Ham-of-the-Year Award only if he has been outstanding in service to amateur radio.

Doc, W7OS, noted that the use of 146.76MHz. for the AREC net is causing objections from other users of this frequency. This frequency is intended for short communications and a net violates this spirit. It would be better for all concerned if the net could be moved to another frequency.

Doc, W7OS, commended Jerry, W7BUN, for his fine work in summarizing the 1970's club minutes.

It was determined that Omar Haugen, WA7HEK, is eligible for special membership. This will be voted on at the next regular club meeting.

Letters are to be sent to Dennis Goodwin, WA7HON and Larry Ziegler, WA7JPC, informing them that they are not eligible for special or student memberships under the present By-laws.

Bob Weightman, WA7IPR, reported that 21 club pictures have been sold thus far.

A letter will be sent to Max Bice, W7AEA, thanking him for his recent generosity to the club.

Dennis, W7UBA, wished the report of club statistics to ARRL, to be as accurate as possible. Plans will be made concerning this.

The prospect of getting land from Weyehaeuser for a club use does not look as promising now, therefore we must again consider the repair of of the present building, particularly the founda-

(cont. next column)

CHOW LINE
CLUB BANQUET 1971

Board minutes (concl)

tion.

Dennis will check with Jerry, W7BUN, about getting bulletins from ARRL.

There being no further business, the meeting was adjourned at 9:58pm.

Respectfully submitted,
/s/
Chris Jensen, WA7MJK
(Secretary)

CLUB MINUTES 2/24/71

The regular meeting of the Radio Club of Tacoma was called to order at 8:12 pm February 24, 1971 by President Dennis Reanier, W7UBA, with the members present standing and pledging allegiance to the flag.

The minutes of the last meeting were read and approved as corrected.

The Treasurer rendered the following report;

Checking account	\$220.46
Savings account	1144.94

GUESTS FROM OLYMPIA
CLUB BANQUET 1971

Club minutes 2/24/71 (cont.)

\$379.05 was used to purchase a transceiver, the door prize for the Washington State Hamfest of last year. The Treasurer will look into the possibility of our club being exempt from real-estate tax.

A letter from Will Rassback, WA7GRN, of the North Seattle Amateur Radio Club was read thanking us for our visit. They plan to return the visit some time in October.

Many thanks to Ethel, W7WLX, and the rest of the Women's Auxiliary for their hours of work in compiling the club statistics for the ARRL.

Jerry, W7BUN, encouraged us all to attend the annual club banquet. There will also be plenty of room for guests.

Our next club program will be presented by Dave Hanzel, CX8AAW, who will present a slide show of South American countries he has visited. Jerry also announced a number of other interesting programs for the future.

Roy, W7AZI, would like to receive more written suggestions concerning the revision of the Constitution and By-laws.

With the help of a number of volunteers, the equipment which Frank Cooper, WA7KIM, donated, has been moved to the club house. Many thanks to Frank for his generosity.

Henry Gepke, WA7HFG, has also donated equipment for which the club is grateful.

Club members were cautioned to record the serial numbers of their equipment and to be on guard against theft. There have been many recent reports of stolen gear.

Doc, W7OS, announced that we have 12 to 14 more pictures to take for our club album at present.

The President reminded us that dues are due.

Bob Thurston, W7PGY, read the annual report, which he will submit to the Board of Directors of ARRL. Bob also distributed copies of the results

(cont. next column)

FIRST IN LINE WA7BDZ
CLUB BANQUET 1971

Club minutes 2/24/71 (cont.)

of the ARRL questionnaire and thanked those who had participated.

Doc, W7OS, is our club's nomination for the Ham of-the-Year Award. The application was read, which spoke of the many contributions which Doc has made to amateur radio.

Jerry, W7BUN, announced that the Northwest Slow Speed Net is interested in buying an inexpensive duplicating machine.

Dennis, W7UBA, reported that we are still looking for possible property for a new club site. Roy, W7AZI, will check the delinquent tax rolls for a possible source of property.

The WARTS Net will sponsor a picnic in July in place of the Washington State Hamfest, this year.

Dennis, W7UBA, suggested the possibility of a combination auction and pancake breakfast for late May or early June.

Jerry, W7BUN, reminded us that the club needs more chairs. If you have one or two extra at home please bring them down to the next meeting.

The applications for membership of Terry Howard, WA7LGY, and Henry Perrozzo, W7DIJ, were read and accepted.

There being no further business, the meeting

CLUB MINUTES 3/10/71

The regular meeting of the Radio Club of Tacoma was called to order at 8:04pm., March 10, 1971 by President Dennis Reanier, W7UBA, with the members present standing and pledging allegiance to the flag.

The Treasurer rendered the following report:

Savings account \$1144.94

Checking account 304.96

63 members have presently paid their dues.

It was announced that the Yakima Hamfest will be on the 28th of March. Also the Skagit Valley Hamfest will be on April 17th. Jerry, W7BUN, will have tickets for this event next meeting.

An ARRL bulletin regarding a proposal of expansion of the voice sub-bands submitted to the FCC was read. The club may wish to state a position on this matter.

Thanks to John Rogoski, WA7BDZ, and George, WA7CSF for their fine job of remodeling the front area of the meeting room. Also George has volunteered to accompany members, who have need of being in the club house during non-meeting hours.

Bob Weightman, WA7IPR, still has a number of club pictures available at \$1.00 each.

Many thanks to Jerry, W7BUN, for his work in planning a successful and enjoyable club banquet.

Bob Thurston, W7PGY, has notified us that our application for the Northwest Division Convention has been approved by ARRL.

Roy Devish, W7AZI, read the proposed changes to

(cont. next column)

WA7HHI
CLUB BANQUET 1971

Minutes 3/10/71 (cont.)

the Constitution and By-laws. These will be printed in the LOGGERS BARK and voted on in 30 days.

Some members felt that in addition to the proposed changes read, there should also be a section added that would allow the club to expell an undesirable member. It was encouraged that suggestions, such as this, be submitted in writing.

Jerry, W7BUN, made a motion that the application form be changed to include the condition that a person shall have attended two previous regular meetings before applying for membership in the club. The motion was seconded by Len Goodwin, WA7HHI, and Scotty Huntley, K7CYZ. However it was thought that this condition might better be made part of the By-laws, rather than only a motion. Therefore this motion was tabled until the first meeting in April, when it will be discussed further.

Jerry, W7BUN, announced that Jim Grinton, K7BNI has been chosen as Ham-of-the-Year and also has been elected President of the Puget Sound Council of Radio Clubs. Our own Jerry, W7BUN, was elected Secretary.

DID YOU HEAR THIS ONE??
CLUB BANQUET 1971

Minutes (concl.)

A proposed addition to the By-laws was read, that would allow the club to receive gifts and donations. However since this proposed addition had not been published in the LOGGERS BARK, it was determined that this change could not be voted on at this time.

Club members are encouraged to renew any of their magazine subscriptions through Marion Wylie, W1CY. This is a fast and easy way and the club also receives a commission.

Members are also encouraged to renew their ARRL memberships through the club.

Don Grant, WN7PIN, made a motion, which was seconded and PASSED that the club establish a voluntary building fund. Don also donated a container and the first donation toward this fund. A separate record of the amount of this fund will be kept. Don Grant, WN7PIN, was appointed by the President as temporary chairman of the building fund.

We have been donated a two meter repeater station, provided we agree to put this equipment to use. It was moved, Seconded and PASSED that we accept this responsibility. Steve Dightman, K7SSC will be the chairman of the repeater committee. The equipment was donated by Milt Perkins, W7FPV.

A chairman for field day will be appointed next meeting.

A Motion was passed that a letter be sent to Chip Margelli, K7VPF, congratulating him for his outstanding achievement in the Sweepstakes contest. Chip was number one in the nation on phone. The club can also be proud of placing seventh in the nation in the Sweepstakes contest.

The membership committee, consisting of Doc Spike W7OS, Don Grant WN7PIN and George Abbott WA7BHH will contact members who have not yet paid their dues.

Jerry, W7BUN, announced a number of interesting
(concluded next column)

Minutes (concluded)

programs for future club meetings.

The club's TVI Committee now consists of Steve Dightman K7SSC (chairman) and Jerry W7BUN and Len WA7HHI.

There being no further business the meeting was adjourned at 9:37pm..

Jerry, W7BUN, presented an interesting movie outlining the development of the C-5.

Respectfully submitted,
/s/
Chris Jensen WA7MJK/Sec.

PROPOSED C & B CHANGES

This will serve as official notification, to the membership, of the proposed changes in the Constitution and By-laws of the Radio Club of Tacoma, Inc., as set forth by the present C & B laws.

It has been proposed that the following sections of the Constitution be changed to read as follows;

ARTICLE ONE - SECTION 1

All persons interested in amateur radio shall be eligible to apply for membership.

ARTICLE THREE - SECTION 4

The Treasurer shall receive all monies due the Club, giving a receipt therefor. Pay all bills against the Club as ordered by the membership and keep a correct account of the amount and sources of receipts and the amounts and purposes of the disbursements. He shall deposit all monies of the Club in a place of safe keeping as specified in the By-laws.

ARTICLE FIVE - SECTION 1

The Constitution may be amended by a two-thirds (2/3) vote of the total Full membership, provided that proposals for amendments are submitted in writing by three Full members at a regular meeting and that the membership has been notified thirty days (30) in advance of the meeting by the Secretary.

It has been proposed that the following By-laws be changed to read as follows;

BY-LAW 2

The regular dues for all except students shall be six dollars (\$6.00) per calendar year except when more than one member of the same family household is a member of the Club. In such cases, one dollar (\$1.00) additional per member per annum shall be levied. Dues for students up to and including senior in College shall be three dollars (\$3.00) per calendar year. All dues shall be paid annually in advance.

BY-LAW 3

Applications for membership dated prior to June 30th of any year must be accompanied by full dues

(cont. next page)

C & B Changes (cont.)

for the calendar year. Applications dated after June 30th of any year must be accompanied by three dollars (\$3.00); students, one dollar and fifty cents (\$1.50).

BY-LAW 6

A past member will be reinstated upon payment of current annual dues.

BY-LAW 9

The Treasurer will render a report on the condition of the treasury at each regular meeting. The Treasurer shall be instructed to submit a complete financial report at the first meeting of April of each calendar year.

BY-LAW 11

The club shall maintain its affiliation with the ARRL and members are encouraged to become associated with the League and take part in its efforts to promote the welfare of amateur radio.

BY-LAW 14

All meetings of the club shall be considered as open meetings. Action on applications for membership shall be considered only in that portion of a regular meeting, which shall be designated as closed by the chair.

It has been proposed that the following statement be added as a By-law of the Radio Club of Tacoma, Inc.:

NEW BY-LAW (nr. to be assigned)

The Radio Club of Tacoma, Inc., a non-profit organization is granted authority to accept such real and personal property received by bequest or device, so long as within the purpose and objects of the club, not conflicting with any law, and subject to the request of the donor and/or giver and on the approval of the membership.

(EDS NOTE)

The above listed Constitution and By-laws will be voted on during the first meeting in May during the regular business meeting as provided for by the present C & B rules.

CONTEST OPERATOR SUPREME

by Rex Hays

We've all heard on the air and have read about the hot contest operators like KH6IJ, W9IOP and W4KFC, to name a few. We also have many fine operators in W7 land and in our immediate area but the 1970 ARRL Sweepstakes Contest (phone section) found the Radio Club of Tacoma's own Chip Margelli K7VFF, the complete master over all other entries. Chip amassed the nation's high score of 173,550, with 1160 qso's and all sections.

To add frosting to the cake, Chip also placed in the top ten on the cw mode, operating at W7RM.

According to QST, Chip first tasted contest operating in 1964, when he worked 219 stations.

(cont. next column)

CONTEST OP. (concl.)

So, in a few short years he has progressed to one of the top operators. Our congratulations to Chip!

By the way, W7DK'S club score wasn't bad either! We placed 7th nationwide.

ARRL CLUB BULLETIN

It was in 1919 that ARRL first started affiliating clubs. Those of you who have QSL files back that far, will find the initial article in the August issue. On December 5th of that year ten clubs were affiliated, two of which are still active---The Milwaukee Radio Amateur's Club and the Huston Amateur Radio Club.

In August, 1920, 33 clubs affiliated and of those 33 only one, The Radio Club of Tacoma, Washington is still active.

EDS. note;

The above must be the basis for the statement made by the Milwaukee Radio Amateur's Club, that they are the "oldest continuously active radio amateur club". The Milwaukee Club and the Huston Club may hold the honor of being the "firsts" in affiliation with ARRL, but the Radio Club will challenge their claim of being the oldest continuous active radio amateur club.

The Radio Club of Tacoma was founded in October 1915, when a few high school boys, all interested in the mysteries of electronics, decided to band together and form a club to further their knowledge and interest in their hobby. Two of the original officers of the club are still around to talk of those first few years. Al Stenso, nK7LV, is living in Eugene Oregon and recently attended our club banquet at McChord. Dwight Mason is now living in Gig Harbor and keeps busy with the club's activities, through the pages of the LOGGERS BARK.

The Club incorporated in 1929 and the Articles of Corporation were filed with the Secretary of State in Olympia at that time.

The Radio Club of Tacoma, Inc., has enjoyed continuous active existence since its founding in October, 1915.

Submitting the above information, the Radio Club of Tacoma would like to hear from the

Milwaukee Radio Amateur Club and clear up the question, since we claim to be the "oldest" continuously active radio club in America.

...ED.Scotty Huntley K7CYZ

ARRL DIRECTOR LETTER

In a third FCC action, required by a Coast Guard reshuffle of Loran chain frequencies on the west coast, amateurs there will be shifted from the 1900 KHz segments, as will those in certain of the noncoastal states. This 160 meter realignment will take effect May 1 and full details will appear in the April issue of QST, which (hopefully!) will reach members well in advance of the effective date.

The Electronics Industries Association has filed a petition with the Federal Communications Commission to withdraw 220-222 MHz from amateurs and make that segment available to the Citizens Radio Service. EIA proposes a new "Class E" with 25 watts allowed, 60 foot antenna height, \$3.00 license fee, 80 channels of 25 KHz each. EIA claims CB outperforms other volunteer services in public assistance areas.

This is the second attempt by EIA in several months to invade an amateur band. It is perhaps not so well known that EIA drafted a petition seeking 146-148 for the same purpose; it never officially saw the light of day.

The Commission released a Notice of Proposed Rule Making, adopted February 24, which disposes of 15 petitions that have been pending (none submitted by ARRL). The complete text, some 10 pages is not yet in our hands but will be forwarded as soon as available and hopefully will be in time for April QST.

In brief, here are the Commission's proposals.

- (A) All 25 kHz Extra Class cw segments would be reduced to 10 kHz.
- (B) Other suballocations on the various bands, all for voice emission (except of course the Novice segments) would be rearranged as follows:

80 meters: 3750-3775 extra Class
3775-3875 advanced and extra
3875-4000 general/conditional & higher

40 meters: 7075-7100 advanced and extra, inter-
regional contacts only
7100-7150 novice
7150-7175 extra
7175-7225 advanced and extra
7225-7300 conditional/general & higher

20 meters: 14150-14175 extra
14175-14250 advanced and extra
14250-14350 conditional/general-higher

Bulletin (cont.)

15 meters: 21100-21200 novice
21200-21225 extra
21225-21325 advanced and extra
21325-21450 conditional/general-higher

10 meters: 28150-28250 novice
28350-28375 extra
28375-28500 advanced and extra
28500-29700 conditional/general-higher

SLIVERS & SPLINTERS

Don't forget to put your nickel and dimes in the field day truck when attending the meetings. Remember, this makes it possible for those terrific meals. If you still have some coins left, don't forget the building fund pot!

Marion, W7TCY, reported to be in the hospital during March.

It is with regret we report the passing of Clara, xyl of past President and long time member of the Radio Club, Ernie Ripley.

The Radio club voted to donate \$10.00 to the Puget Sound Council of Radio Clubs to help defray some of the costs of operations.

Denny, WZTG, working over the transmitter and receiver on the C-D bus getting them in shape for the Daffodil parade on the 3rd of April.

Doc, W70S, back from Hawaii after visiting on the phone, while there, with past member KH6PP and Merl, W7IKG, currently working there.

President, Dennis appointed Doug Henry, W7OHD, as the field day chairman for 1971.

A new class for Novice license will be started April 14. If you want details regarding the classes, contact Dennis, W7UBA or Hank W7DIJ.

Art, W7JGN, back from a trip south and a tussle with the fish.

Congratulations! to the Estelita's, WA7LKA,
on a baby boy born during March. Mother and son
doing fine!

Thanks to the Mike and Key Club, we now have some more old tubes to add to the museum of old gear.

Contact Jerry, W7BUN, if you plan on attending the Skagit Hamfest, including the tour of Jim Creek. Jerry has tickets available.

MARCH PROGRAMS

by W7BUN

On MARCH 10th, Dave Hensel, CX8AAW, (ex-K7LOL) from Auburn Washington will present a slide show of the many South American countries he has visited. Dave lived in Uruguay for six years and traveled extensively all over South America installing commercial radio installations. He has some excellent slides depicting life in these countries. Bring the XYL out for this very interesting program.

On MARCH 24th, Dick Moen, W7VRO, from Bellingham Washington, will show a movie of his DX-pedition to the Caribbean area last summer. Dick, a well known QSL Manager for such exotic calls as CR7IK, MP4QBB, YB9AAJ, 5H3KJ, 5H3KJ/VQ1 and 5N2AAF also owns the call of 8P6DM from the Barbades. Dick was invited to Toronto last May as a guest of the Canadian DX Association. Dick also plans to visit the Caribbean again this summer and will tell us of his future DX plans. The ladies should find this an interesting program, also, so don't forget to take the XYL to this meeting.

NORTH SEATTLE PRESENTATION

REPORT ON SEATTLE CLUB VISIT by W7BUN

On Tuesday, February 16th, 13 members of the Radio Club of Tacoma visited at a regular meeting of the North Seattle Amateur Radio Club. Included among our club members were Patty and Dwayne Lewis, K7KSZ & K7NQR, who drove down from Everett to be with us. Our President presented the Puget Sound Council of Amateur Radio Clubs, Traveling Trophy to the President of the North Seattle Club. We greatly enjoyed their hospitality as well as an interesting program showing a movie of Hurricane Camille. The North Seattle club plans to visit our club possibly in October.

FUTURE PROGRAMS

by W7BUN

APRIL 14th., Attorney Bill Goodloe, WA7GWJ, and State Farm Insurance Agent, Paul Hayes will conduct a panel discussion about the legal and and insurance aspects and problems of amateur radio.

APRIL 24th., Steve Dightman, K1VSC, will present a program on the construction of printed circuit boards.

MAY 12th., Champion Spark Plug, senior engineer will present a program on the elimination of RF noise in mobile radio installations.

MAY 26th., Final plans and arrangements for Field Day, 1971.

NEW PSCARC MEMBER

The Radio Club of Port Angeles has joined the Puget Sound Council of Amateur Radio Clubs.

Welcome to the "fold" and we hope to hear more from the "Port of Entry" city up on the straits.

The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

AUXILIARY THANKS

Thanks to Helen Asplund for a great evening at the last auxiliary meeting. The slides were the best ever. Those of you who did not attend, really missed something.

We will meet again at the club house on March 17th. We need more members. Come and let's get acquainted.

The auxiliary needs rags to sell. Bring them to auxiliary or call some one to come and get them.

Ethel does pretty good at pinochle. We had an extra table this month.

New faces were LaVerne Hood, Greta Warburton, Barbara Osborne, Betty Palmer and Inez Churchward. We really had a great time.

DON'T FORGET TO PAY YOUR DUES!

Do you have a piece of land suitable to build clubhouse on? Would you give it to the club for building site? Would you give the club a long term lease on it? (At a minimum charge)

Do you know of a philanthropist (that's a word I like) who has property they may donate or lease to us?

We need approximately one acre for a building and parking space. It should be located in the immediate Tacoma area, Fircrest, University Place, South Tacoma or Lakewood.

We desperately need more parking space and more club house room. Our present building is in a state of repair and the cost of remodeling could be prohibitive. The termites have been living high on the hog on the building for years.

The building committee realizes this is a long project, but it is necessary to take the first step.

If you have any ideas, contact Don Grant or any board member.

DUES ARE DUE FOR QUITE A FEW. WE KNOW WHO AND SO DO YOU.

W7UBA ACCEPTS SS TROPHIES FROM WA7HKD ON BEHALF DK

MEN'S BOWLING

Radio Club #2 won the first half of the season. Radio Club #1 is so far in first place for the 2nd half. You know what this could mean? A roll-off for 1st place for the year at the end of the bowling season. These fellows are real rivals in any case. You should see them every Tuesday night at 9:00pm., New Frontier Lanes. They vie for high series of the night--this is quite a fete among these champions. Their averages are all the way from 136 to 167, give or take depending on last weeks series.

It's really nice to go out and cheer for these champion bowlers. Some nights all you can cheer is, "You didn't eat your Wheaties." Some nights you even shed a tear or two. Then there are the nights you pretend you're really with another team so no one will connect you with the poor bowlers you are sitting with. Really, they are a great bunch of sports!! They enjoy having a cheering section, so come out and watch them.

On team one is Ralph Rawlings W7OOP, Otho Smith K7ATD, Bob Weightman WA7LPR, Bob Churchward W7RXS, Dick Leary K3RIW and Bob Ryan.

Radio #2 has Cliff Osborne W7MFG, Max Bice W7AFA, Dick Palmer W7QPR, Jim Churchward and Rick Upton.

They are a great bunch, come watch them!!
So there Bob!

Please check your roster book and check the entry for you. This is the only way we can update our records.

ARRL BULLETIN

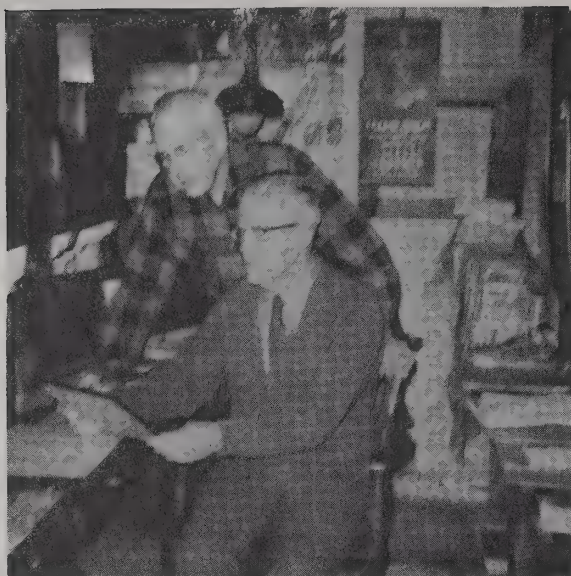

No regular Bulletin cards were received from Headquarters this month. The following are excerpts from the Director's letter.

Members of the VHF Repeater committee were re-appointed, on the basis that both FCC and DOT have regulatory changes in the works, where the committee has already been most useful and can continue to be. Specifically: W9BUB (chairman), W3ODC, W4GCE, W5VPQ, W6GDO, W6MEP, W7FHZ, W6CXW, VE3ADO, W6KW, Board liaison; W1HDQ, Hq. liaison.

CLUB PROJECT

Roy, W7AZI, reported that our Club has been invited to take part in the 1971 Gardners of Paradise program, sponsored by the Tacoma Park Board at Point Defiance Park. Roy volunteered to be the Club's representative to their meetings and to report the dates and other details. More on this next month.

DON'T FORGET, DUES ARE DUE!

**W7OS & W7UW
LETTER TO THE BARK
by W7OS**

It is a fantastic story, this digging out the early history of The Radio Club of Tacoma and it goes like this.

You will recall I have urged we pass around a book each meeting to sign in, to let us know you attended the meeting! Well, I also have urged you to write out your full name and call. In many of our historical books in the years of 1920 to 1940, it became a bad habit of abbreviating initials and so appeared one "OLE". I was pretty sure I knew who this was but until lately, when I was visited by a Mr. R. Gregory Olson, W7UW, who now lives at 1516 North Madison Street and we had a couple of hours going over the old minutes and roster books that I was sure.

"Greg", as I knew him, first appears in our study of the history of the Radio Club of Tacoma on about May 14th 1922. For a period of about ten years Greg or "Ole" was very active in the management of our club. We find him first on the House Committee and the tuning and traffic committee on 2/16/26. Then he was Secretary on 5/10/27, President 1/15/28, Vice President 7/24/28, Executive Committee 7/16/29, Secretary 5/13/30 and again Vice President 11/11/30. In those years officers were changed every six months. Greg and I almost forgot that he was Vice President in 1931 the same year that I was President and about the same time that we put on the great Northwestern Division ARRL Convention here in Tacoma.

Greg and I went over some of the old pictures together, recently, and I found that he was having trouble identifying faces, so we agreed that it is very advisable to label all pictures immediately.

I persuaded Greg to allow me to take his picture in my ham shack, since he quit ham radio many years ago.

SEE PICTURE AT TOP OF ARTICLE.

ARRL SURVEY RESULTS

3,500 questionnaires were mailed to the membership of this division with a return of slightly over 1,400. (40%) A total of 14 were returned cause of poor address.

At the time of tabulation 1,392 questionnaires had been returned. This is fantastic and greatly appreciated. Below are the results of the Survey by AGE GROUP

10 thru 19 years. (92 returns. Youngest amateur 13 years) ..20 thru 29. (193 returns) ..30 thru 39. (205 returns) ..40 thru 49. (223 returns) 50 thru 59. (370 returns) 60 thru 69. (247 returns) 70 thru 79. (49 returns) 80 and over. (5 returns) oldest amateur 87 years) No age given. (4) Total 1392.

MIRACLE-EAR HEARING AIDS Δ HEARD AROUND THE WORLD

WOW! Did the ladies ever out-shine the men in bowling. Ethel Devish, W7WLX, had a big 245, which out classes all the men and Faye Monroe had a 203, which out did what the fellows had done that week. Nice bowling girls.

SKATING PARTY

The ladies are arranging their annual skating party on April 1st. This will be at the Tacoma Roller Bowl at 78th and South Tacoma Way.

A hot dog dinner will be held at the Club house preceding the Skate-in. We need at least 50 people for the rate of \$1.00 admission and skates, so let's all come. It's a lot of fun for everyone. No admission if you don't skate. --It's even fun to watch.

CLUB MINUTES 2/9/71

The regular meeting of the Radio Club of Tacoma was called to order at 8:07pm, January 27, 1971 by President Dennis Reanier, W7UBA with the members present standing and pledging allegiance to the flag.

The minutes of January 13, 1971 were read and approved as corrected.

The Treasurer rendered the following report:

Checking account \$185.63

Savings account 1505.06

In addition to the bills mentioned as paid at the last meeting, a furnace oil bill for \$59.20 was paid. \$72.00 in dues has been received so far.

Thanks to Jerry, W7BUN, and Doc, W7OS for their work on the name plates for the Silent Key Board made by Emil Koth, K7GPK.

Pictures of our Radio Club membership are now available from Bob Weightman, WA7IFR, for \$1.00.

A reminder from Roy Devish, W7AZI - Whenever anyone in our organization needs blood, be sure to contact him so that this can be supplied from our blood bank account. Also donation may be made at the blood bank for the Radio Club of Tacoma.

Jerry, W7BUN, announced that the caravan to the North Seattle Amateur Radio Club meeting will be leaving earlier than originally planned. We will now meet at the club house at 6:15 and leave at 6:30 on February 16. Everyone is urged to attend.

John Austin, K7CZF, explained the importance of the Simulated Emergency Test taking place on January 30 and 31 and urged our active participation.

Roy, W7AZI, reported that as yet he has received no suggestions pertaining to the revision of the Constitution and By-laws. All are invited to submit suggestions in writing.

Dick Ryan, W7RGD, announced that the "LOGGERS bark" will go to press right after the last meet-

(cont. next column)

ing of the month. Anyone having material for our newspaper must have it in before that date.

Scotty, K7CYZ, has learned of a club claiming to be the oldest radio club in the United States. He has offered to write a letter for the Radio Club of Tacoma, challenging this statement.

Jerry, W7BUN, announced that no money will be collected at our banquet on March 6th. All monies for the dinner must be in at least 2 days prior to the banquet date.

The President reminded us that dues are due.

Let Doc Spike, W7OS, know if you have not had your picture taken with your station. We are trying to get everyone's picture for our album. Also notify Doc of any needed corrections on the Silent Key Board. He announced that the radio equipment from the estate of Elmer Burgstrom will be up for bid. Contact Doc for more information.

Scotty, K7CYZ, will follow up on a recent club project of finding a source of 2 meter fm handi-talkies for those interested in this type gear.

Dennis, W7UBA, reminded us to be thinking of nominations for the Ham-of-the-year award. Nominations must be completed by the second meeting of February.

Dennis, W7UBA, announced that if a letter is written to Motorola, on club stationery, they will notify us when fm equipment becomes available.

Freda Hoerr told us about Girl Scout Troop 289, who are interested in learning more about amateur radio. Bob Gates, K7IND, agreed to help with this project, which will take place in the latter part of March or first part of April.

are performed by members of
American Watchmakers Institute.

Scotty, K7CYZ, informed us that his brother-in-law George Firth recently passed away. Mr. Firth had requested that his radio equipment should be donated to our club. A letter of sympathy and of appreciation for the donation, will be sent to Mrs. Firth.

The application for membership from Mike Rolph, WA7OID, was received and approved.

Jerry, W7BUN, mentioned some of the interesting programs planned for the coming meetings.

There being no further business, the meeting was adjourned. Bob Olsen, W7DZO, presented an interesting and informative program on 160 meter activity.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK

MINUTES 2/23/71

The regular meeting of the Radio Club of Tacoma was called to order at 8:14 pm., February 10, 1971 by President Dennis Reanier, W7UBA, with the members present standing and pledging allegiance to the flag.

The Treasurer rendered the following report:

Checking account \$ 224.74

Savings account 1505.06

Bills:

Trailer License \$ 12.40

Oil 59.29

WA7IPR club expenses 2.68

A motion was PASSED that these bills be paid.

Forty-six members have now paid their dues.

The Club received a letter from Larry Ziegler, WA7JPC, renewing his ARRL membership.

Don Grant, WN7PIN, announced that the possibility of getting land for a new club house-site from Weyerhaeuser does not look promising at this time. The President, W7UBA, noted that we still need a larger club facility and a site to build it on. The Club would welcome a donation along this line. Don, WN7PIN, will write an article for the newspaper to this effect.

In the mean-time the President recommended that we again consider needed repairs to our present building.

Dennis, W7UBA, announced that Frank Cooper, WA7KIM, has donated a 100 foot tower to the club. He has also donated, for an indefinite period of time, a R-390A with all accessories, including the matching transmitter. Bob Gates, K7IND, has agreed to store this equipment for the club.

Bob, K7IND, reminded us that Mrs. Hoerr is looking for a good receiver to buy. Anyone knowing of a possibility, should contact Bob.

Jerry, W7BUN, reported on the Puget Sound Council of Amateur Radio Clubs activities and

(cont. next column)

nominated Dr. Spike, W7OS, to be our Club nominee for the Ham-of-the-Year. Doc received round of applause from all present, in recognition of his many hours of work for our club and for ham radio in general. A Motion was made and PASSED that this nomination be made unanimous.

Roy, W7AZI, announced that he has received one two written suggestions concerning revision of the Constitution and By-laws. More suggestions are invited.

Bob, K7IND, reminded us that we have a club QSL board that needs filling up.

Doc, W7OS, reported that the Club camera will be loaned to some of our members in outlying areas, so that their pictures can be added to the album. Any member, who has not yet had his picture taken, should contact Doc.

Jerry, W7BUN, urged everyone to attend the Seattle Radio Club meeting on February 16th. We will leave in a caravan to Seattle at 6:30 am.

Club pictures are still available from Bob Weightman, WA7IPR, for \$1.00.

The Club will again assist the Gardners of Paradise, with their planned activities at Pt. Defiance Park. Roy, W7AZI, has volunteered to keep the Club informed of the plans for this activity.

Doc, W7OS, pointed out the need for more room in our club house. This can be accomplished by moving the equipment cabinet from its present position to the upstairs area. Dennis, W7UBA, and Chris, WA7MJK, volunteered to help with this project.

Dennis, W7UBA, invited any member, who wishes to attend the club's board meetings, to come and share their ideas.

Ethel, W7WLX, announced that the women's auxiliary now meets on every third Wednesday, at the Club house. Wives and mothers of Club members are automatically members of the auxiliary.

Dick, W7RGD, has printed our new membership applications. Since two club members are required to sponsor a Club applicant, only the first sponsor will be credited for the purpose of membership competition. (cont. next page.)

WEEKDAYS 11 A.M. TO 9 P.M.

SATURDAYS 10 A.M. TO 6 P.M.

SUNDAYS 12 NOON TO 5 P.M.

Paid Adv.

Dennis, W7UBA, volunteered to be at the Club house by 7:00pm. on meeting nights so that the house will be open at that time.

Jerry, W7BUN, announced a number of interesting club programs coming up. On April 14 a lawyer, Bill Goodlow WA7GWJ and Paul Hayes, an insurance agent will discuss and answer questions concerning the insurance and legal aspects of ham radio. Steve Dightman's program on circuit boards will now be for the second meeting in April.

Be sure to come to the Club Banquet on March 6th. There will be good food and entertainment. Payment **MUST** be made in advance.

Mr. Burleson, WA7HKD, from the Boeing Employees Amateur Radio Society, presented the Radio Club of Tacoma the Sweepstakes trophies for having won both the c.w. and phone competition between the two clubs. Chip, K7VPF, in the preliminary results of the Sweepstakes contest, is the leader for the U.S..

John Austin, K7CZF, announced the results of the SET. 378 messages were sent from this area.

An application for membership was received from Terry Howard and Henry Perozzo. These applications will be acted upon at the next meeting.

There being no further business, the meeting was adjourned at 9:25pm..

The members then enjoyed slides from the world trip of Russ Shull, WA7EWE. Dick Hazelmeyer also presented an interesting movie of Viet Nam.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK

1971 CLUB ANNUAL BANQUET

March 6th at the McChord AFB, NCO Club. The social hour starts at 6:30pm. and dinner at 7:00pm. The cost, \$2.75 per person, payable in advance, no later than March 4th. Be sure to get your money to Jerry, W7BUN, before that date so as not to be left out on the fun.

GIRL SCOUT PROJECT

Our club has been requested by the Girl Scouts in the Tacoma area, to assist in learning about amateur radio. Bob Gates, K7IND, is looking into this matter, to see if the Club can incorporate this into our B.S.A. program. The results will be forthcoming.

THANK YOU

Our Club is now the proud owner of a 100 foot 65-G Rohn tower, R-390 Collins receiver and a PL-172 transmitter. Thanks to Frank Cooper. This is quite an addition to the Club's equipment.

Again, thank you Frank!

REMEMBER DUES ARE DUE!

A big thank you to the women's auxiliary for their help on calling the membership on the recent nose count for the League headquarters staff.

Congratulations! to Jean Wheeler on up-grading her amateur license. Call now W7OII.

Another theft has been reported to the Radio Club. Phil True, W7AQB, reports his Collins Sline stolen from his residence.

If you know of a good used duplicating machine, contact the N.W. Slow Speed net. They are in need of one at this time.

Paul, WA7ESD, at home recuperating from a broken leg suffered from an incident while he was sky-diving.

Dick, W7AGX, comparing lens with Dick, W7RGD, after having his picture taken for the club album.

Dick Hazelmeyer home briefly before being assigned to the East coast. Got to one club meeting.

Scotty, K7CYZ, fighting the wiring problem in his trailer. He had a few choice words, regarding U.L. approved wiring. Sorry can't print them.

Roy, K7USF, on a dry run with the C/D bus. The bus was called out for the soccer team play off at Cheney Field. The snow caused the game to be called off, after Roy pulled away from the bus barn.

Doc, W7OS, and XYL Helen getting things in order for that vacation trip to Hawaii, coming up.

The Club needs a new T-V interference committee. If you are interested on acting on the committee, please contact the President of the Club.

Don't forget, dues are due. After March you will no longer be carried on the Club roster or receive a copy of the Loggers Bark.

FEBRUARY 1971

W7DK ANNUAL BANQUET

By W7BUN

The Radio Club's annual Banquet will be held at the McChord AFB, NCO Club (Cascade Room) Saturday, March 6th. Bar opens at 6:30 pm.; dinner at 7:00 pm.; dancing from 9:pm. to 1 am. Dave Bunker and his group will provide the music and entertainment. This group plays all types of music, including many old-time songs. Dinner will be a roast-beef and chicken buffet (all you can eat, Dennis!) and costs only \$2.75 per person---this includes the tip. ALL reservations MUST be paid in advance by March 4th. Contact Jerry Seligman, W7BUN, at TH 5-7652 for reservations or information.

FEBRUARY PROGRAMS

by W7BUN

On February 10th, Russ Shull, WA7EWE, has traveled extensively to other countries. He will present a slide show of East and South Africa, Israel, Australia and New Guinea. Russ has presented his slide show to other groups and has received great acclaim for its professional quality. Be sure to bring the xyl out for THIS program.

On February 24thm John Chestnut, a digital computer instructor, will present basic digital and logic fundamentals. If you've been mystified by all the triangles and rectangles and integrated circuits appearing recently in the amateur publications, here is your chance for enlightenment! John has spent over 20 hours preparing for this program and has many handouts for us. He will also go into the theory of digital cw keyers. We are expecting many out-of-town guests for this outstanding program. Bring your pencil and paper so you can take notes for future reference.

CLUB PICTURE

The Radio Club of Tacoma, group membership picture has been taken. Copies are available to interested club members.

Contact Bob Weightman, WA7IPR, if you want to purchase one. The price is \$1.00 per copy.

REMEMBER DUES ARE DUE!

FUTURE PROGRAMS

by

Following is a list of future programs listed for the Radio Club by Vice President Jerry, W7BUN.

March 10th - Construction and operation of linear amplifiers.

March 24th - DX-pedition films of the Caribbean

April 14th - Construction of printed circuit boards.

Be sure to attend ALL club meetings, so as not to miss out on our fine slate of programs!

WOMEN'S AUXILIARY NEWS

by Rene Smith

It was great to see a couple of new faces at the last meeting at Ethel Devish's.

Our next meeting, February 17th at the Club House. We'll try to start at 7:30pm, so that we can have plenty of time for Helen's picture of Germany.

The new meeting nights are the third Wednesdays at 7:30pm at the Club House.

How about it? Yiu don't know what a nice evening out you are missing.

If anyone needs a ride, call me or any of the officers, listed on the second page of the Bark every month,

See you there.....Rene Smith, Pres.

HAM RADIO OUTLAWED IN CHICAGO

W6SD Carrier Article

An article in the December issue of 73 Magazine says that the city of Chicago has forbidden Amateur Radio Stations to be set up in residential areas according to zoning ordinances. The "Chicago Area Radio Club" has filed suit in district court. They deem such legislation as being unconstitutional since the city is trying to regulate a service already being regulated by the federal government. If the court favors the City of Chicago, we may all be in trouble if other cities get the same idea. By the way, the city of Chicago is willing to waive the ordinance upon the payment of a \$100.00 fee!

VISIT NORTH SEATTLE CLUB TRIP

On Tuesday, February 16th, the Radio Club of Tacoma will visit the North Seattle Amateur Radio Club. A caravan will form at the Clubhouse at 6:15pm. and will leave PROMPTLY at 6:30. The North Seattle Club paid us a visit last year and we would like to repay their visit and impress them with a large turn-out. They have planned a special program for us and we will also show them some of our Field Day pictures.

We will also be leaving the Puget Sound Council of amateur Radio Club's "Travelling Trophy" and they plan to visit the Lake Washington ARC in March to pass it on. BE SURE TO PLAN ON THIS TRIP - MAKE W7DK LOOK GOOD!

on Channel 11

January 11, 1971

FCC has issued a notice of proposed rulemaking, Docket 19110, which looks toward allowing amateur radio teleprinter operations at 75 and 100 words per minute in addition to 60 wpm. The idea came from requests for rulemaking filed earlier by W8SDZ and WB2LRS. Comments may be offered by any individual or group prior to March 1, 1971 and reply comments by March 22. February QST will have additional information BT

NR 304

February presents an excellent opportunity for every amateur to test his frequency measuring skills by participating in a ARRL Frequency Measuring Test. W1AW will transmit signals for measurement on February 14 at 0230 and 0530 GMT. This will be the evening of February 13 at 2130 EST on approximately 3524, 7011 and 14,068 KHz. The second series of test signals will be transmitted three hours later on about 3525, 7023 and 14,098 KHz. A full report on FMT results will appear in QST. W1AW will transmit the official umpire readings starting February 26. Further information on the FMT appears on page 92 of January QST BT

NR 305

The January 1971 Club Bulletin will soon be mailed to all active ARRL affiliated clubs. This issue contains the annual club survey forms which must be completed and returned to ARRL as rapidly as possible. In cases where recent officer elections have been held, the bulletin may reach a former officer. Thus, if your club is affiliated but has received no bulletin by February 15, the address of the current club secretary should be sent to Headquarters with a request for a duplicate club bulletin BT

NR 306

Despite any rumors to the contrary, FCC advises that there will be no objection to nor any citations issued as a result of amateurs handling customary test emergency traffic for the usual served agencies during the annual ARRL-sponsored Simulated Emergency Test January 30 and 31. Care should be taken to label all traffic as test traffic both in the preamble for precedences other than routine and in the text. Those amateurs not taking part in the test are asked to cooperate by avoiding use of frequencies on which test communications are being conducted AR

REMEMBER DUES ARE DUE.

Dick,

Please hold the mailing of the Loggers Bark, as I will be returning home next month. I will see you when I get home, as I plan on being at the Radio Club meeting on 10 February, 71.

I will be glad to get back in the states but I am sorry that as it stands right now, I will have to move to the East coast. I still want the Club paper after I get settled. Going to try and get my assignment changed and try to get McChord. Don't know if I can do it or not.

I have enjoyed following the activities of the club in the paper. Now I know what other people mean, when they say that the Loggers Bark is a good club paper.

O'yes! I have been studying and hope to take my Tech. exams, while I am home. My cousin will give it to me. Still having trouble with the code. Can send real good but seem to have a mental block on receiving. Still have to stop and think.

Have lots of movies to show the club on what life is like over here. I will look forward to showing them. Have the program chairman save me some time on February 10, if it is possible, O.K?

LETTER RECEIVED BY BARK

5016 No. 43rd
Tacoma Wa 98407
January 20, 1971

Mr. Huntley,

The following may be of interest to some of the readers of the Loggers Bark.

1. Our goal is to build a small digital computer.
2. We have no name as yet.
3. We do have 9 bodies in our group.
4. Also we have 50 circuit boards & a memory drum.
5. Our next meeting will be at 7pm., on Tuesday February 16, 1971 at the home of Sam Frazier 1703 So. Ainsworth, Tacoma, Washington. Or call Sam at MA 7-5623.

Thank you for spreading the word. Sorry, but I do not know when your dead line is.

Thank you,
/s/
Steven Coles

The Treasurer rendered the following report:

Checking account	\$ 105.48
Savings account	1505.06
Cash on hand	1.00
Total	\$1611.54

Before the meeting was called to order this evening, all the members present had a group picture taken.

John Austin, K7CZF, announced that Steve Moreland passed away and Vice President, Dennis, asked the members to stand for a moment of silence in memory of Steve Moreland.

Jerry, W7BUN, reported on the Sweepstakes Contest. We had 14 entries, which in round figures is 500,060. The Boeing Club had 25 entries with 400,050. We had 11 entries, on cw, with 165,000. Boeing had three or four entries, with 99,000.

Don Grant, WN7PIN, announced that a 50 foot pole and antennae were donated to the club. Vice President, Dennis, asked for volunteers to take them down.

Jerry, W7BUN, reported that the Christmas Party was a very fine party with lots of good food. 81 attended the party.

Len, WA7HHI, reported on the ham radio demonstration for the Boy Scouts. There seemed to be more interest shown among this group than the group we had before.

The question was asked about the Sweepstakes and A-1 Operator's awards and other awards that once hung on the walls of the Club House. Dennis, W7UBA, explained that they were stolen at the time the Club House was broken into. Dennis instructed Bob Weightman, WA7IPR, to write ARRL and find out if they have a record of our club awards and if we could secure a copy.

Otho Smith, K7ATD, announced that the Women's Auxiliary needs more support by having more women at their meetings. The dues? Well, no dues at all and after January 1, they will meet at the club house on the third Wednesday of each month.

Vice President, Dennis, called a recess for a coffee break, after which the meeting reconvened (cont. next column)

for the election of officers for 1971.

Nomination for President: Dennis Reanier, was nominated. There being no other nominees, a Motion was made to suspend the rules and cast an unanimous ballot for Dennis, W7UBA, for President.

Nomination for Vice President: Jerry Seligman, W7BUN and Steve Dightman K7SSC were nominated. Jerry received the majority vote.

Nomination for Treasurer: Leonard M. Goodwin, WA7HHI, being the only one nominated, again the suspension of rules and an unanimous ballot was cast for Leonard Goodwin for Treasurer.

Nominations for Secretary: Nominated were Dick Ryan W7RGD, Chris Jensen WA7MJK, Jim Hosak WA7KID and Bob Weightman WA7IPR. Chris Jensen, WA7MJK, received the majority vote.

Nomination for the Board of Governors: Nominated were Bob Weightman WA7IPR, Roy Devish W7AZI, Otho Smith K7ATD, Rex Maner W5QQQ/7, Scotty Huntley K7CYZ and Bob Gates K7IND. Two members were elected. They were Bob Gates and Roy Devish, by majority votes.

There being no further business, the meeting adjourned at 10:45.

Everyone commented on what a fine meeting we had had. We hope that the New Year brings good health and luck to all our members.

Respectfully submitted,

/s/

Bob Weightman, WA7IPR

MINUTES JAN. 13-1971

The regular meeting of the Radio Club of Tacoma was called to order at 8:10 pm, January 13, 1971 by President Dennis Reanier, W7UBA, with the members present standing and pledging allegiance to the flag.

The minutes of December 23, 1971 were read and approved as corrected.

The Treasurer rendered the following report:

Checking account	\$ 214.98
Savings account	1505.06

Bills paid; \$11.90 trailer license, \$28.20 furnace oil, \$25.15 utilities, \$48.00 insurance and \$1.00 for non profit corporation filing fee.

The members joined President Dennis in thanking Ralph Rawlings, W7COP, for repairing our furnace.

A special thankyou to Emil Koth, K7GPK, for his fine work in making our Silent Key board. Jerry, W7BUN, and Doc Spike, W7OS, are in charge of putting on the name plates.

Doc, W7OS, announced that 48 copies of the club picture taken on December 23, are now available at \$1.00 each. Doc thanked the donor of another book and fillers to hold pictures of our club members and their stations. Any member, who has not yet had his picture taken, should let Doc or another member of the picture taking committee know.

MIRACLE-EAR HEARING AIDS Δ HEARD AROUND THE WORLD

Jerry, W7BUN, announced that the Puget Sound Council of Amateur Radio Clubs has tabled the petition concerning the \$9.00 examination fee because ARRL has submitted a similar petition. Also it is now time to nominate a member for the Ham of the Year Award. This must be done before the end of February.

John Austin, K7CZF, announced that on January 30/31, the ARRL will be sponsoring a Simulated Emergency Test. (SET) More about this next meeting.

Bob Gates, K7IND, expressed his thanks to the club for their support during his Presidency.

Jerry, W7BUN, reported that the BEARS will be coming to a future meeting to present the contest trophies.

Roy Devish, W7AZI, who is reviewing the Constitution and By-laws, would like to hear from club members concerning their ideas on up-dating these documents.

It was Moved and Seconded, that a resolution allowing the club to receive gifts and donations, be added to the By-laws. This resolution will be voted on at the first meeting in March.

Jerry, W7BUN, announced that on February 16, we will visit the North Seattle Amateur Radio Club. We will meet at 6:30pm and leave at 6:45pm in a caravan from DK's Club house and attend their meeting at 8:00pm. All are invited to attend. Also the Club Banquet will be held at the McChord NCO Club on March 6th. The bar will open at 6:30 and dinner will be served at 7:00. The total charge for the dinner is 2.75.

There was a discussion concerning whether college students as well as high school students should be granted special memberships. Roy, W7AZI suggested that these ideas should be written-up and submitted to the committee reviewing the by-laws.

Ethel Devish, W7WIX, was re-appointed as the official greeter and welcomer for our club.

Jerry, W7BUN, volunteered to remain as the club delegate to the FSCARC. Roy, W7AZI, will be the alternate delegate.

Thanks and a round of applause was given to Dick Ryan, W7RGD, for his work on the new 1971 Roster book.

A special and unique award has been given to Jerry, W7BUN, recognizing his many hours of work for the WARTS Net.

Future programs were announced as follows:

Jan. 27th - Bob Olson, W7DZO, will speak on 160 meter DX.

Feb. 10th - Russ WA7EWE will show slides from his world trip.

Feb. 24th - John Chestnut will explain solid state keyer circuitry.

Mar. 10th - John Allen, W7YGN, will speak on
(cont. next column)

the construction and operation of linears.

Mar. 24th - Dick Moher, W7URO, will show his movie of the DX-pedition to the Caribbean.

Apr. 14th - Steve Dightman, K7SSC, will speak on the construction of printed circuit boards.

There being no further business, the meeting adjourned at 9:27pm.

Following the coffee break, Marv Wheeler WB4JBS, presented an interesting and informative program on first aid for victims of electrical shock.

Respectfully submitted,

/s/

Chris Jensen, WA7MJK

HAM OF THE YEAR AWARD RULES

1. The "Ham-of-the-Year" Award will be presented annually by the Puget Sound Council of Amateur Radio Clubs to an outstanding licensed radio amateur.
2. Only members of clubs which are affiliated with the Puget Sound Council of Amateur Radio Clubs as of December 31st of each year will be eligible for the award for that year.
3. Each club will submit information concerning their one choice for the award on the application form provided by the Council.
4. Achievements or qualities to be considered may be public service, emergency or rescue communications, conducting training for amateur examinations, radio experimental or construction projects and any other attributes normally associated with amateur radio. The facts presented must pertain to the year for which the award is presented.
5. The application forms will be arranged and numbered so that the Council Secretary will be able to detach the name and other identifying information before the judging takes place, to insure impartial judging.
6. The final judging will be conducted by an impartial judge or judges chosen annually by the Council delegates.

Ham-of-the-year (cont.)

- All applications must be received by the Council Secretary by the February Council Meeting for award consideration for the previous year.
- Judging will take place each February.
- The "Ham-of-the-Year" will be announced in the February Council minutes.
- The Award will be presented to the outstanding ham by the Council, at a regular meeting of the club submitting the winner's name. The presentation will be made before April 30th.
- Honorable Mention Awards will be presented to each club's nominee, in addition to the winning award. These Awards will be sent to the clubs for presentation to the nominees.
- In the event that an outstanding achievement is equally attained by more than one member of a club, the Council will consider duplicate awards. However, only one application will be accepted from each club.
- A ham who is a member of more than one club, may have his name submitted by more than one club; however, each club's application will be individually judged.

ROSTER BOOKS AVAILABLE

The new roster books have been printed and are available to members. Many of the members picked up their copy at the two meetings during January. All members are entitled to one. The first copy costs the member nothing. Second copies, if wanted, are available for 25¢ a copy. If you haven't obtained your copy, come to a meeting and pick it up.

The following are changes to be made in the new book including one new member voted in on the last meeting in January. Bare with us on the corrections and be sure to make them, so that you will be up-to-date.

Two New Bunnell Specialties

The Straight Line Renewable Contact Radio Key

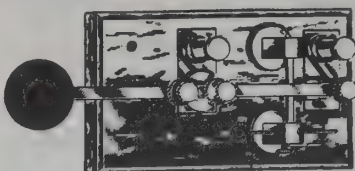

By far the BEST and HANDSOMEST transmitter yet produced. Not only are the contacts renewable, but they are kept in a straight line with perfect surface contact until completely work out, and the lever remains in its original horizontal position.

Fading signals caused by varying resistance of contact points are entirely eliminated.

Its binding posts automatically clamp the wires, making loose connections impossible.

Net Price, \$7.50

Send for descriptive circular.

The Jove Detector Holder

The most perfect of crystal holders.

Holds one or two different crystals of any form at once without the use of a clamping screw.

A sensitive point of either crystal quickly found, the correct pressure held constantly without moving a single screw or nut.

Beautifully finished and mounted on dark glazed porcelain.

Net Price, \$1.00

FIELD DAY RULES LETTER

The following letter is printed as received from ARRL in regards the recent request by ARRL, for ideas about rule changes regarding F-D.

Radio Club of Tacoma, Inc.
1249 South Washington Street
Tacoma, Washington
Attention: Bob Weightman, WA7IPR

Dear Bob,

Thanks very much for your letter indicating that the majority of your club would prefer the Field Day rules remain as is. Thanks, too, for enclosing the letter from Chip, K7VPF, who, from what I hear on the air from him, is one of your really active members - fb.

Our primary aim is to simplify the mechanics of Field Day scoring and at the same time to preserve the traditional features of the event. This may take a while but we feel that the whole matter should be investigated thoroughly before we recommend any changes.

I'll have your letter and Chip's sent to all CAC members so they can be considered carefully before any final decisions are reached.

Incidentally, congratulations on W7DK's excellent score in the 13A category for the 1970 Field Day!

Thanks again for writing.

73,
/s/
Roger, W1AX
Vice Chairman
Contest Advisory Committee

NOTE FROM BOARD MEETING

The Board will meet on the first Wednesdays of the month. This change has been made so that the ladies auxiliary can have the club house on the third Wednesdays. This will allow the auxiliary to get their announcements in the bark and should get more ladies to the auxiliary meetings.

CLUB GROUP PICTURE (reduced)

ELECTION RESULTS

The Radio Club of Tacoma held it's annual election of officers during the meeting of December 23, following the regular business meeting.

The following are the nominees for the offices nominated on December 9th and 23rd.

President - Dennis W7UBA
President - Steve K7SSC-Chris WA7MJK (declined)-
Jerry W7BUN
Treasurer - Len WA7HHI
Secretary - Dick W7RGD-Chris WA7MJK-Jim WA7KYD
Board (2)-Roy W7AZI-Bob WA7IPR-Scotty K7CYZ-
Rex W5QQQ-Bob K7IND-Jerry W7BUN-Smitty
K7ATD

Elected were:

President - W7UBA by unanimous vote.
Vice-President - W7BUN
Treasurer - WA7HHI by unanimous vote.
Secretary - WA7MJK
Board - W7AZI and K7IND.

There you have the new line of officers for the year of 1971. Get behind them and support their efforts.

THE ONE & ONLY DESERT
BARK STATEMENT

This month marks the start of the eighth year of continuous publication of the **LOGGERS BARK**. At the present time, the paper does not cost the club anything except the cost of the second class mailing, which amounts to \$18.20 per year.

This is due, in part, to the loyal advertisers who appear in the Bark each month and the other printing jobs. (Publishing another newspaper, QSL cards, commercial projects, etc..)

The following is the financial report concerning the operations:

X-MAS PARTY
XYL's

CHRISTMAS PARTY

The Christmas Party was a success, as usual, but there seemed to be a little extra something this year. It couldn't have been the food, since it is always "Par Excelent"; maybe it was the music or maybe because we had the place more to ourselves, this year.

It was a wonderful party and well attended. The last tally was 81, with visitors all the way from Everett down to Chehalis. We are sorry we did not get all the visitors names. The clubs represented were The Skagit Valley Radio Club, The Boeing Employees Amateur Radio Club, The Northwest Amateur Radio Communications System, Inc. and representatives of the Puget Sound Council of Amateurs Radio Clubs. We welcome the visitors whole-heartedly and hope they enjoyed the party. We extend the invitation to join us in our many other club activities.

The Radio Club of Tacoma extends thanks to Jerry, W7BUN, for his excelent work in getting this affair together. Good work Jerry and we hope you are chairman next year.

ARRL was represented by N.W. Director, Bob W7PGY, who was enjoying the dinner as attested to by a picture elsewhere in these pages.

Also one of the pictures shows our new President, Dennis W7UBA, as the first one in line for the roast beef. Roy W7AZI, although enjoying the food, was beaten out to the line this year.

All in all, it was a wonderful party and we hope to see more of you next year.

X-MAS PARTY

MINUTES NOV. 25, 1970

The regular meeting of the Radio Club of Tacoma was called to order at 8:10 pm by Vice President, Dennis Reanier, W7UBA, with members and guests standing and pledging allegiance to the 3.

There were 44 members and 15 guests present.

The minutes of November 11 were read and approved as corrected.

The Treasurer rendered the following report:

Checking account.....\$ 44.70

Savings account..... 1505.06

Total \$ 1549.76

Doc Spike, W7OS, announced that Elmer Bergstrom, K7LVL, passed away November 21. He started amateur radio at the age of 70 and was very active in number of nets. Doc suggested that all stand for a moment of silence in memory of Elmer J. Bergstrom, K7LVL.

Jerry, W7BUN, reported that at the Puget Sound Council meeting on November 20th, Bill Goodloe, W7WJ, has petitioned the FCC to not charge a fee for those who fail the examinations.

Roy, W7AZI, chairman of the Nominating Committee, reported that he has received one or two names but that he would welcome more names. He also announced that Ed Coles, K7CZM and, under test, Hunt Mitchell, WA7AKW, is also on the Committee.

Dennis, W7UBA, reported the progress of the building committee, said we have bids for replacement of the foundation of \$1,000 to \$1,500 and there is much more repairs to be done. The committee has another idea in mind -- to acquire a suitable site and build a club house. After all details have been worked out, a full report will be brought before the club for discussion.

Jerry, W7BUN, reminded the members to get their stepstake logs in by December 9th as they have to be mailed to ARRL and postmarked by December 15th.

(cont. next column)

X-MAS PARTY

Minutes (cont.)

Jerry also reminded everyone about the Christmas Party, December 4th, 7:00pm at the N.C.O. Club, McChord A.F.B..

Scotty, K7CYZ, made a Motion that the Radio Club of Tacoma petition ARRL to have the Northwest Division Convention in 1972 with one stipulation-- that it be in Tacoma or not more than 15 miles from Tacoma. Motion was Seconded by Len Goodwin, WA7HHI. After some discussion, motion was put to a vote and PASSED.

Doc Spike, W7OS, announced that he had received a very interesting letter from Bert Nole and along with the letter, there was a picture. (Ed's note: picture was in last month's issue of the Bark) Both will be in the Loggers Bark. Bert's father was a member of the Club in 1916. Doc asked that as many members that can to try to make contact with Bert and his father. Bert Nole was voted a Special membership last October 28th.

It was announced the Boy Scout troop at Ron's School would like to have a demonstration of ham equipment. Since Bob Gates, K7IND, headed up the last demonstration a while back, he agreed to take over the job again.

Jerry, W7BUN, announced that about a year ago the North Seattle Club visited our Club in a large number and they are very unhappy that we did not return the visit. It was voiced by the members that we will make that visit soon.

Bob Gates, K7IND, announced that there were two thefts lately -- one in Tacoma and one in Seattle. He suggested we record the serial number of all our equipment before it is too late.

Doc, W7OS, announced that we took in 30 new members this year.

Application for membership of Mark Gaunt was read and accepted.

There being no further business, meeting adjourned at 9:00pm. After coffee break, Roy, W7AZI

(cont. next page)

X-MAS PARTY CHOW LINE

Bob Weightman WA7IFR

MINUTES DECEMBER 9

The regular meeting of the Radio Club of Tacoma was called to order at 8:05pm by Bice President, Dennis Reanier, W7UBA, with members and
(cont. next column)

X-MAS PARTY W7PGY & XYZ

Minutes (cont.)

guests standing and pledging allegiance to the flag.

There were 23 members and 4 guests present.

The minutes of November 25th were read and approved.

The Treasurer rendered the following report:

Checking account.....\$105.48

Savings account.....1505.06

Total \$1610.54

The Treasurer reported that the auction took in \$92.55 for the club and that amount was added to the checking account — making it \$105.48

President Bob, K7IND, reported on the Washington State QSO Party. He said that the club received a certificate won by WF7ARW. Bob then read a letter from Roger E. Corey, W1AX, thanking us for comments on Field Day rule changes and for sending a copy of the letter from Chip, K7VPF. Bob, K7IND, also announced that we received a Christmas card from Dick Hazelmyer and that he had a Christmas card for all to sign and send to Dick.

Doc Spike, W7OS, announced that he has acquired another book for the picture album. Doc also asked if arrangements are being made for the group picture on December 23. Bob, WA7IFR, said he contacted Max Bice, W7AEA, and that arrangements have been made for the photographer for that night. Bob said he would contact Max again the next day or two as to the time. Doc, W7OS, suggested 8:30 since one member would have to get off work to be present and would have to be back at work by 9:00pm.

It was announced that it looks like we have won the Sweepstakes Trophies again this year with a score around 500,000 points or more. This will do the trick though the total score has not been tallied yet but it looks like we have much more than 500,000 points.

NOTES FROM NARCS MEETING MINUTES

During the meeting of the Northwest Amateur Radio Communications System, Inc., November 11th in Tenino, elections were held. The new officers elected are George Doak K7MVI, V-President Carl Butler W7IRW, Secretary/Treasurer Barbara Ashley and Executive Director Don Ashley.

During the meeting, Carl Holman K7PYC told of a repeater he and Chuck Colson K7IUT are installing on Tumwater hill. Will operate 6 meter FM with an input frequency of 52.525 Mc. and the output on 53.290 Mc.. The antenna will be 680 feet above sea level. Major expense to be the telephone line. All were welcome to use the repeater but he would appreciate a donation to help with the expense involved.

B.S.A. PROGRAM

The Boy Scouts program is still going strong. Last month three of our club members entertained 20 boy scouts by having them visit their ham shacks. The boys were shown the workings of ham radio plus doing a little operating themselves.

The club members participating were; Bob K7IND, Len WA7HHI and John K7SRU.

Good work fellows and let's keep this program going.

MIRACLE-EAR HEARING AIDS Δ HEARD AROUND THE WORLD

It is with regret we report the passing of club member, Steve Moreland on December 21st. Steve had been in Good Samaritan Hospital, in Puyallup for a short time. He will be missed at meetings.

In late December Dale Cook's (W7NMO) mother passed away. To the old timers of the club, Dale was a staunch supporter of the Radio Club and long time member, while living in Tacoma. Dale resides in East Stanwood now.

Dick W7RGD, Hunt WA7AKW and Smitty K7ATD were appointed to audit the club's books and the Loggers Bark's books.

Although the final figures have not been tabulated, it looks like the Radio Club will keep the two trophies for the annual contest with the BEARS Club.

Three strange faces but welcomed faces at the Club house on the meeting night of December 23 were Max Bice W7AEA, Phil True W7AQB and Jim Mashburn W7BSW. Sure would like to see more of the members at meetings once in awhile. Glad to see them and hope this is a good indication for the new year. When did you last attend a meeting??

Merl, W7IKG, home for the holidays from Hawaii but going right back before the new year.

Roy, W7AZI, sporting a cold. Seems to have settled in the throat. Almost had to go to hand signals, with his voice just a squeak.

Scotty, K7CYZ, still commuting to the Centralia area, has given up living in the trailer. Seems the walls kept closing in on him. After a month or so living in the trailer he swears the trailer is shrinking.

Thanks to Emil, K7GPK, the club has a plaque to be placed on the club's wall, for the Silent Key board. A beautiful job and we are sorry we could not show a picture of it in the paper this month. A picture was taken but it did not meet the quality needed for a half-tone negative for printing in the Bark.

Ralph W7COP and Dick W7RGD on the air with Doc W7JJA in Salmon Idaho. Doc was a regular club member while living in Tacoma, a few years back. Ralph was holding his own on AM. (40 meters)

Doc, W7OS, busy with the club's camera, contacting club members to snap their pictures for the club's album.

Happy New Year to all from the staff of the LOGGERS BARK??

K7CYZ will be his assistant.

Anyone willing to volunteer help on this activity, please contact either gentleman. The first thing on the agenda, is to find a suitable housing facility. Anyone with an idea, let it be known.

This is a huge project and everyone must do his or her part to make it a success.....ED

NEW ADDITION

The Loggers Bark will start a new page in it's pages, devoted strictly to the yl and xyl news.

Margie Chavis, K7AMJ, will be the Editor assigned to this page. All articles and news items should be sent to her.

Good luck to Margie on this project and we know that this department will bring prestige to the Loggers Bark and the Radio Club of Tacoma...ED

LOCAL NEWS ITEM

From Tacoma News Tribune

John H. Austin (K7CZF), of 8478 Eastside Drive NE, has been named to lead a group of Pierce County amateur radio operators prepared to furnish organized emergency communications in times of disasters.

The appointment was made by the American Radio Relay League of the United States and Canada.

The group will plan and organize to provide local emergency communications in the event normal communication facilities are not functioning.

AUCTION RESULTS

GOING-GOING-GONE!

W7AZI

The auction, held November 25th at the Club house, was quite successful. Anyone arriving late was obliged to stand. There was standing room only, even before the meeting came to order. We had numerous welcomed guests and a busy bidding session took place after the business meeting.

The Treasurer advises a total of \$238.00 was taken in across the table in exchange for parts and complete units. Some of the equipment was for members and guests on commission. The club will realize a little over \$92.00 for the evenings activities.

The picture above shows the auctioneer closing a sale and the other shows a part of the huge mob that showed up for the auction.

SALESGIRL: "THIS JACKET IS MADE OF COWHIDE. IT'S VERY TOUGH MATERIAL. ONCE IT HELD A COW TOGETHER."

"72" ARRL N.W. DIVISION CONVENTION

It's official now, the Club passed a motion to apply for the hosting of the 1972 ARRL N.W. Convention. We now have a job on hand that will take the concerted effort of every member, to make this a successful convention.

If accepted by the ARRL, we will keep you informed on the progress of events and will give you names of committees as soon as they have been announced.

This will be a big project and our club has done it before so there should be no reason why it can't be done again.

LETTER OF THANKS

Dear Doc:

I was so very happy to receive my beautiful certificate and membership card. I certainly appreciate your assistance in my membership becoming a reality. Please thank all the members of the club for their best wishes and please convey mine to them. I will certainly be looking forward to receiving my copy of the Loggers Bark.

I am certainly glad to hear that you and your family had such a nice trip to this part of the country. I hope to some day make the trip to your part of the country again. My one and only trip to Washington State was some 22 years ago, so I don't recall very much of it. My father and mother left for Florida this morning. They will stay there for possibly two weeks. His doctor advised that the trip would do both of them good. They are going to the Flagler Beach area.

I am enclosing a picture taken last week end of my father and myself in the shack. The picture is not as clear as I would have hoped but it is the best of several taken. Due to the design of the shack, it is rather hard to get a good composite picture.

The equipment on the desk top from left to right consists of: speaker, S-76 Hallicrafters receiver, phone patch, Swan 500 transceiver, Swan power supply. On top of the Swan power supply is a relative strength meter and behind this we have a S.W.R. bridge and low-pass filter. Below the air conditioner is **THE PICTURE**, to the right of this we have our Washington State Achievement Award. Also, not visible, we have a large picture of Mt. Rainier. To this section will be added the membership certificate.

We now have the TA-33 at 58 feet. The space to the right of the power supply is now occupied by a

(CONT. next column)

Letter (cont.)

Vibroplex Champion and an old faithful J-38, is hopefully reserved for a new Heath SB-220 linear.

As soon as my parents return from Florida, I hope we can all get together via ham radio. I am sure that you and my father will have many friends in common.

I hope that you and yours enjoy continued good health and the very best of everything. We will be looking forward to hearing from you at your convenience. We would again like to thank you and the members for this great privilege of becoming a member of the Radio Club of Tacoma. Thanks again.

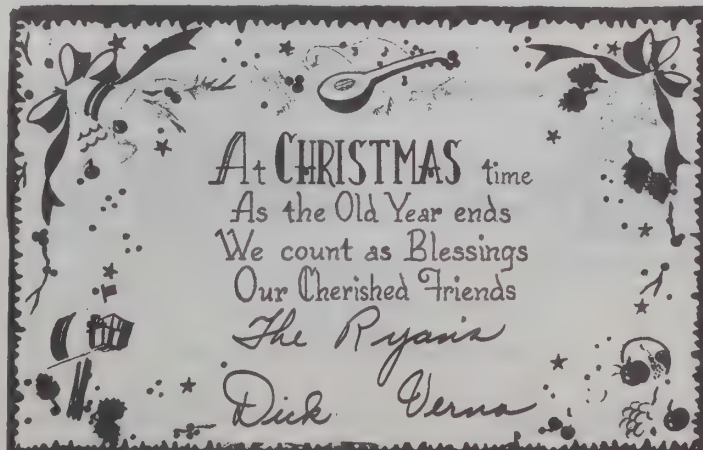

Yours truly,
Bert K4UVH

BARK VISITOR

CHET W9CTI & DICK W7RGD

As reported, last month, the BARK had a visitor. Chet Sakura, W9CTI, Editor of the monthly "Hamateur Chatter" published by the Milwaukee Radio Amateurs' Club Inc., made a visit with Joe, W7IG. The picture was "snapped" by Joe while Chet and Dick were exploring the inner-workings of the LOGGERS' "blundering bess" press.

NR 295

The ARRL code proficiency program continues to interest hams and prospective hams worldwide. Each month W1AW and W6OWP transmit qualifying runs at speeds from 10 to 35 wpm. One minute of solid copy is sufficient to qualify for the basic award or an endorsement. W6OWP will transmit a qualifying run on 3590 and 7129 KiloHertz at 0500 GMT November 5. Remember if converting to your local time that this represents 2100 PST November 4. W1AW will transmit a qualifying run on 1.805, 3.52, 7.02, 14.02, 21.02, 50.02 and 145.6 MegaHertz at 0230 GMT November 18. In converting, this takes place at 2130 EST November 17. Send your copy with your full name and address to ARRL, 225 Main Street, Newington, Connecticut 06111 BT

NR 296

FCC regulations specify that transmitters used by Novices must be crystal controlled. Variable frequency crystal controlled oscillators, also known as VKOs, are not considered by FCC as meeting the requirement. Thus, Novices should avoid using these devices currently on the market BT

NR 297

The next ARRL Simulated Emergency Test will take place January 30 and 31, 1971. This serious operating exercise tests both emergency preparedness on a community to community basis as well as long haul traffic facilities. There is a part for every amateur in the SET. Help do your share to justify the amateur service in terms of public interest, convenience and necessity. Plan to participate by coordinating with your local officials. Further information can be obtained from your Section Communications Manager, address page 6 QST. SET rules will appear in the December issue of QST AR

PARADE COMMUNICATIONS

The annual Eagles Santa Claus Parade was handled nicely by members of the Radio Club. The parade was held November 21st on South Tacoma Way instead of on Kay Street as previously held.

Dick W7RCD and Rusty Hood drove the G/D bus to handle communications. LaVerne K7NKKZ and Beryl K7NPG drove their own car representing AREC. John K7CZF and Scotty K7CZY held down the parade route.

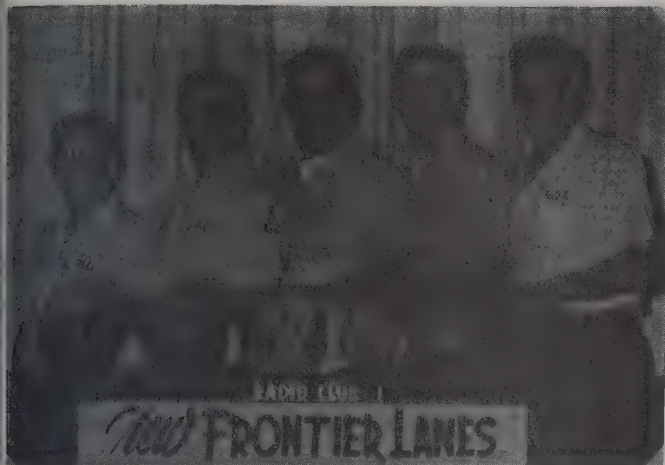

Everything went fine except the weather was pretty cold!! There were about 70 units in the parade this year.

Merry Christmas
Happy New Year!

RADIO CLUB #2

AUXILIARY NEWS

Come on gals, let's start the new year right by coming to Auxiliary meetings and supporting our new officers. We will be electing new officers on December 2nd at Donna Dightmans. How about coming and helping us out. All xyls are members of the Women's Auxiliary so it's your club. Show hubby you are interested in his hobby. We really have a great time. Why not come and take part?

The January 6th meeting will be at Ethel Devish's. Due to a more central location, we will be having meetings at the Club house starting the first Wednesday in February. We expect to have a most interesting meeting with Helen Asplund showing slides from her recent trip. Don't miss this one.

We hope to have many interesting programs during the next year. Starting with the December meeting, we will start the business meeting at 8 o'clock, just in case anyone must leave early, we'll be through in time.

Fun and games before and after if you like. Why not come and see how much fun we really have.

See you all at Donna's. If you need a ride, call any officer who are all listed in the Bark.

Alfryda Hoerr

The above picture was taken during the November meeting. Doc, W7OS, is seen presenting one of our newest members, the certificate of membership and card of membership, given to each new member upon joining the club. Alfryda does not have an amateur call yet but is working on the situation. Several of the club members have been helping her to get a receiver going to help her learn the code. Good luck to one of our newest members!

ELECTION OF NEW OFFICERS

It's that time again. Nominations will be on the first meeting night of December (9th) and final nominations and election will be held December 23rd. If you know of anyone you want in office, you may contact Roy W7AZI, Ed K7CZM or Hunt WA7AKW who represent the nominating committee and in this way, speed things up.

Be sure to attend and vote. Let your voice be heard.

MEETING MINUTES 10/28/70

The regular meeting of the Radio Club of Tacoma was called to order at 8:05 pm by President Bob Gates, K7IND, with members and guests standing and pledging allegiance to the flag.

There were 35 members and 8 guests present.

The minutes of October 14 were read and approved.

(Cont. next column)

"A magical thing and sweet to remember
The song of a bird in the dark of December"

May you have a very Merry Christmas
and a very Happy New Year

MR. and MRS. BERYL HOOD and RUSTY

ed.

The Treasurer rendered the following report:

Checking account.....	\$129.53
Savings account.....	1505.06
Cash on hand.....	6.50
Total	\$1641.09

Reports of sickness: It was announced that Steve Moreland is in the hospital with a broken hip and Roy Devish's (W7AZI) mother is in the hospital again.

Bob, K7IND, reported on proposed Rule changes for Field Day, asked for suggestions that might make Field Day a little easier.

Bob, K7IND, reported that he and his crew ran into trouble installing an antenna at Mrs. Hoerre's house. They tried to install a dipole in the attic and found that not only did they have enough room but the attic had aluminum insulation so the only thing to do was to install an outside antenna.

Len, WA7HHI, read a communication from the Puget Sound Council requesting a list of volunteer examiners from our club to give Novice and Technician examinations and several volunteered.

Bob, K7IND, announced that December 4 will be the club Christmas Party, at McChord NCO Club. Tickets are \$2.75 per person. Only 100 people will get in so get your reservations early. Contact Jerry, W7BUN, for reservations.

Dennis, W7UBA, announced that November 11, Bob Thurston, W7PGY, will be with us and give us a rundown of what is going on at ARRL. November 2 is auction night.

Application of Bert B. Nole, K4UVH, was read and Doc Spike, W7OS, made a motion that the club grant Bert B. Nole a special membership. The motion was seconded and PASSED.

(cont. next page)

Minutes (cont.)

Applications of Joseph N. Winter, Sr. and Richard S. Leary, K3RIW were read and accepted.

There being no further business, meeting adjourned at 8:55 pm.. After the coffee break, Dennis, W7UBA, presented a discussion on the Division Convention in 1972.

Respectfully submitted,

/s/

Bob Weightman, WA7IPR

MEETING MINUTES 11/11/70

The regular meeting of the Radio Club of Tacoma was called to order at 8:10 pm. by President, Bob Gates, K7IND, with members and guests standing and pledging allegiance to the flag.

There were 22 members and 6 guests present.

The minutes of October 28 were read and approved.

Doc Spike, W7OS, introduced a very lovely lady, Mrs. Freda Hoerr. She hopes to become a ham soon.

The Treasurer rendered the following report:

Checking account.....\$ 90.07

Savings account..... 1505.06

Cash on hand..... 8.00

Total \$1603.13

Bills read: Rent of a movie projector \$3.25

Fuel oil bill 30.08

Utilities 28.14

Total \$61.30

Motion was made, seconded and PASSED to pay the bills.

Roy, W7AZI, Chairman of the Nominating Committee, asked if any member had someone in mind that would like to see in office. Please give their names to him or Ed Coles, K7CZM or Hunt Mitchell, WA7AKW. Nominations will be December 9th and elections on December 23rd.

Jerry, W7BUN, announced the Sweepstakes Contest on November 14th and 15th phone and November 21st and 22nd cw.. He said the rules were much the same as last year's club rules except no points for messages and that he has a copy of the rules for anyone that wishes one. He also said that the Boeing Club is really going all out to win this year, so we need all the members working all bands we can get. The deadline for all logs to be in the hands of the Secretary by December 9th.

Jerry also announced the Christmas Party on December 4th.

Doc, W7OS, reported on the picture album he is compiling of the members in their ham shack's and read a list of members he has yet to get. He hopes to have them soon. With just a little cooperation from the members on this list, he will make it.

Bob, K7IND, asked that someone take the

(cont. next column)

Minutes (cont.)

antennas back to the Field Day site.

Jerry, W7BUN, read an ad about an item called variable crystal control. Instead of it being a break for the Novice, it is very much illegal.

Dennis, W7UBA, announced November 23 as auction night. So don't leave your wallet at home this time.

Applications for membership of: Mrs. Freda Hoerr, Paul M. Anton WA7ESD, Jill F. Anton WA7KSD, Gerald D. Ford WN7KYZ, John S. Kiesel WN7OTT, Paul J. Kiesel K7HTZ, were read and accepted.

There being no further business, meeting adjourned at 9:00 pm after coffee break, we all enjoyed a very fine talk on ARRL by Bob Thurston, W7PGY.

Respectfully submitted,

/s/

Bob Weightman, WA7IPR Sec.

SLIVERS & SPLINTERS

Congratulations to Bob Weightman on up-grading his amateur license. New call is WA7IPR.

Mel K7ATF and Roy K7USF had the C/D bus out November 23rd to the County/City Building for the expected troubles at the Federal Building. As it turned out, they were not needed.

Dick W7RGD and Smitty K7ATD had the bus out also the previous week to train a new driver.

Radio Club #2 bowling team is tied for first place in their league. Still bowling on Tuesday nights starting at 8:45pm. (See pictures elsewhere in this issue)

Smitty K7ATD and xyl Rene on a week vacation down on the ocean beaches enjoying the cold and damp weather.

Remember the Sweepstakes log's must be in the hands of the Secretary by the first meeting in December to count on the club's aggregate score. This applies to the contest with the BEARS also.

Merl, W7IKC, planning on being back state-side in December for the holiday season, then back to Hawaii.

Al, K7LV, had quite an article in the News Tribune regarding his part in radio in the Tacoma area back in the days when radio was the coming thing.

The Churchward's W7PXS & W7RXT are back from a camping trip and have a story to tell about trailer jacks.

NOVEMBER 1970

SWEEPSTAKES CONTEST by W7BUN

Every member is encouraged to participate in the 1970 Sweepstakes contest. At stake are the beautiful trophies we won last year from the Flying Employees Amateur Radio Society. After their humiliating defeat last year, it is reported that the BEARS are "up-in-arms" and will be doing their best to take the trophies home. We need the help of each and every club member in both the phone contest (Nov. 14th and 15th) and the cw contest Nov. 21st and 22nd) weekends.

Even if you are able to make a few QSO's, it will add to the club's total effort. Rules for the BEARS versus Radio Club of Tacoma contest are printed in full elsewhere in this issue of the Loggers Bark.

The ARRL rules are in the October issue of QST. You must turn in your logs to the club secretary at the December 9th meeting.

Jerry, W7BUN, will have logs, dupes and summary sheets available.

CLUB'S ANNUAL X-MAS PARTY

This year we again will have our Christmas party at the McChord AFB NCO Club. The date is **FRIDAY EVENING, DECEMBER 4TH**. The bar opens at 5:30, roast beef and chicken buffet at 7:00, dance from 9:00 till??? to the music of Sandy Knox and her 6 piece orchestra and floor show. All reservations **MUST** be paid in advance. \$2.75 per person (includes tip) Only the first 100 people will get in, so don't wait until the last minute. Minors may attend dinner only. Contact Jerry, W7BUN, for information or reservations or send your money to 2306-80th Ave. East, Puyallup, Washington 98371.

CLUB PICTURE TO BE TAKEN

Don't forget the Club picture is to be taken during the second club meeting in December. Everyone should plan on being in this picture. It has been several years since the club has had a group picture. Don't miss being in this one.

NEW CLUB MEMBERS

The following list is the list of the newest members of the Radio Club of Tacoma. We wish to welcome them to the club and hope they will attend meetings as often as possible and join in the many activities of the club.

Please enter their names into your roster book in the space provided:

POTLUCK DINNER

The Pot-Luck dinner, held on October 16th at the clubhouse, attracted approximately 50 people. (No exact count taken)

The food was as usual, "excellent!" The kids were as noisy as usual and the general chatter went on all night.

This is an annual affair and you, who missed it really passed up some good food.

See you there next year.

'MY HUSBAND WAS NAMED MAN-OF-THE YEAR.'

'WELL, THAT SHOWS YOU WHAT KIND OF A YEAR IT'S BEEN.'

A HOME PERMANENT IS A MOTHER WITH SMALL CHILDREN.

You may visit the station of another amateur and operate it under his call if he is present under your own call as a "portable", if he isn't. This procedure is relatively new; it stems from a FCC interpretation of the word "Control" as requiring the licensee's physical presence. If you are operating under the friend's call, you use his log; the privileges available to you depend on both your and his class of license. If you're a Extra and he's a General, when you operate under his call you must stick to General Class privileges. If you operate under your own call from a friend's station, you must sign as a "portable" and enter the contacts you make in your own log. If the operation extends beyond 48 hours, you must notify the FCC district engineer as outlined in the rules.

NOTE: The above information taken from the 64th edition of the ARRL License Manual, Page 64

The ARRL Executive Committee met today to examine nominating petitions filed by members for league directors and vice directors. By reason of nomination of but one eligible candidate the following were declared elected, the Hudson Division director Harry J. Dannals W2TUK, Northwestern Division director Robert B. Thurston W7PGY and Roanoke Division director Victor C. Clark W4KFC. Also declared elected was Roanoke division vice director Phil Wicker W4ACY. Wherever the committee found valid petitions naming more than a single candidate for these offices and the candidates meeting the requirements as to league membership and freedom from any commercial radio connection, ballots were ordered to full members concerned covering contested offices. Such candidates by division are:

Central for director, Haller W9HPG, Williams W9JVF

Central for Vice Director, Ebnetter K9GSC, Metzger W9PRN.

Hudson for Vice Director, Ostrey WB2TUL, Zak K2SJO.

New England for Director, Chapman W1QV, Macdonald W1PEX, Maguire W1IF.

New England for Vice Director, Campbell WA1DVE, Corey W1AX, Rogers W1DFS, Sullivan W1HHR, Thompson W1TWG.

Northwestern for Vice Director, Bennett W7QLE, Justice K7WWR/WA7KTV.

Rocky mountain for Director, Cotterell W0SIN, Sampson W7OCX.

Rocky mountain for Vice Director, Auten W0ECN, Moore W7CQL, Wageman W0BUR/K5MAT.

Southwestern for Director, Elser W6FB, Griggs W6KW.

Southwestern for Vice Director, Bingham WA6DRQ, Dahlman W6UEI, Stilwell W6NJU.

West Gulf for Director, Albright W5EYB, Bryan W5IQ.

West Gulf for Vice Director, Poston W5AJ, Vice W5VCE.

As soon as ballot returns have been counted in late November, results of all these elections will be given in a further bulletin from this station BT

SWEEPSTAKES CONTEST RULES

Boeing Employees Amateur Radio Society versus The Radio Club of Tacoma annual competition for high scores in ARRL Sweepstakes Contest.

The following 8 rules were the initial rules adopted by both clubs in 1969:

1. This shall be an annual contest between the Boeing Employees Amateur Radio Society and The Radio Club of Tacoma and shall continue until terminated by mutual agreement of the 2 clubs.
2. The object of this contest will be the attainment of the highest total scores in the annual ARRL phone Sweepstakes and cw Sweepstakes Contests.
3. Two trophies will be awarded, one for the phone contest and one for the cw contest. The cost of the trophies and engraving will be equally shared by the two clubs.
4. The trophies will be a "traveling type" and will remain in the possession of the winning club until the following year. In the event that one club wins either trophy for three (3) consecutive years, that club will retain permanent possession of that trophy and a new trophy will be purchased the following year. In the event that neither club wins a trophy for three consecutive years, the club that has won the greatest number of times during a five year period will retain permanent possession of that trophy and a new trophy will be purchased the following year.
5. The winner will be deemed the club with the highest total score for each mode as announced in QST Magazine. If one club is obviously the winner of either mode, then the scores reported to the ARRL by the club secretaries will be used to determine the winner, without waiting for the published results.

(NOTE Message points have been eliminated for 1970)

6. These rules will be reviewed annually by both clubs, after the Sweepstakes rules have been announced in QST but before the actual contest has taken place.
7. In case of any unresolvable conflict between the two clubs over these rules or about this competition, the trophies will be retained permanently by the club that has won each one the greatest number of times.
8. The trophies will be presented to the winning club by a delegation of members from the losing club at a regular meeting of the winning club.

(The following rule was adopted by both clubs in 1970)

9. Eligible scores for the purpose of this competition will be only those scores submitted by bona-fide club members, operating single-operator class and using their own or other

(cont. next column)

Contest (cont.)

bona-fide club member's station and location. Multioperator scores will be allowed only from the two respective club stations. (K7NWS and W7DK) provided that both club stations are operated in any particular Sweepstakes Contest. However, either or both club stations may be operated as single-operator category by a bona-fide club member. A bona-fide club member is any club member who regularly attends club meetings.

THE OLD MODULATOR SAYS;

Have you ever looked in that junk box and come up with an object you couldn't identify? Well, I did just that the other day.

I found a model R-48 Johnson key. "Key!?" What on earth kind of a lock does that funny looking thing fit? It can't be a door key.

After much research, I found that a "key" is used to turn electric current on and off. Knowing something about electric current I could understand that. But who would want to turn on and off a light bulb with an odd looking switch like that? Besides it won't stay on unless you hold the lever down.

More research turned up that it is used for "keying" a cw transmitter. A transmitter! I've got one of those things. But it doesn't have a "key"; it has a microphone.

CW may be the clue for the "key's" use; again more research turned up some interesting facts. It seems back in 1844 a fellow named Samuel Morse tapped out his timeless message, "What has God Wrought?" This new language has saved many lives and proved to be a very reliable way of communicating. When adverse atmospheric and weather conditions disrupt other forms of communications, cw gets through long after other modes are lost in the noise.

There are several of the younger members in our club that are very good cw operators. Some of us older more experienced "phone" operators could take a lesson from them. CW is not a vanishing mode of operation like many hams think. Let's get on the "key" a little more often and then we won't need the excuse that we are a little "rusty."

MIRACLE-EAR HEARING AIDS Δ HEARD AROUND THE WORLD

LIFE IN SAIGON

by Dick Hazelmyer

Saigon is the capital city of South Vietnam with a population of approximately two million people. After many centuries of evolution, in which the Vietnamese people developed their own culture and mode of life, Vietnam became subject to French domination as a French colony for almost 100 years. Today in the capital city of Saigon, the visitor can readily see the effects of French culture on the Vietnamese way of life.

The Vietnamese men now wear western clothing but we can still see, in the country, men with their long hair tied up, wearing the traditional "Ao Dai" generally black, reaching to their knees. Ordinarily, they wear black pyjamas at work in the rice fields.

Vietnamese women are generally small and they still keep the traditional dress or "Ao Dai", with its close fitting bodice and long flowing slit-sided tunic, worn with the pantaloons (white or black), which today are getting tighter in the leg.

Shopping in Saigon is fascinating, particularly for the ladies. The main shopping areas, in the city, is the Tu-Do Street and Le-Loi, as well as the Saigon Central Market. Articles of great interest and of traditional design are to be found in the VN handicraft Development Center. Here, there is always available a brilliant display of the ornaments and articles of interest to be found in Vietnam that are representative of the culture of the country. In addition to this, tortoise-shell jewelry, comprising earring bracelets, etc., as well as ladies purses and cigarette cases can be found here, which are unique to this part of South East Asia. No one should leave this land without acquiring a few examples of the Vietnamese hand-painted silk pictures, which are available on the sidewalks of Saigon.

Transportation in Saigon is rather inexpensive. You may use either taxis, cycle or a pedicab. Cycles are three-wheeled motor driven vehicles that resemble a motorcycle pushing an armchair. They are naturally faster than the pedicabs and emit vast quantities of dense blue smoke from their two-stroke engines. The pedicab are three wheeled pedal operated, trishaw, built on the same idea as the cycles. (A bicycle pushing an armchair)

Saigon is indeed fortunate in the supply of fresh vegetables that are easily obtainable from the rich mountain resort and garden areas of Dalat. There is also an abundance of fresh meat, fish and sea food. The surrounding countryside is rich in fish and shrimps, which abound in the rivers and canals of the area.

Here, in Saigon, one would not know that a war rages just outside of this capital city, other than an occasional terrorist action in the downtown area or near the Presidential Palace. Every-

Saigon (cont.)

one says, "we are safer in Saigon, than in any city USA."

F-D SUGGESTIONS LETTER

Field Day rules have been expanded over the years to the extent that they have become very difficult to administer. They require a lot of paper work for the participants and an enormous amount of work by the Headquarters Staff.

We would like to simplify the rules without losing any of the traditional features of Field Day. To help us with this task we are asking the top 5 entries in each category in the 1969 Field Day for their ideas.

How do you feel about the present Field Day rules? Can you suggest any way to simplify them?

It seems to us that the scoring should continue to give credit for emergency power, low input power, batteries, message handling, etc., as these are all representative of emergency operation. A recent poll in the CD Bulletin indicated that many would also like a geographical multiplier - that is, credit for working different geographical areas such as sections, states, etc. Do you agree and if so, how could we do this?

Would you please send any suggestions and ideas you may have to W1AX who is coordinating a study of Field Day rules by the CAC, His QTH:

Roger E Corey, W1AX

60 Warwick Drive

Westwood, Mass. 02090

Also please indicate how many of your members were involved in preparing your suggestions and if you could reply by December 1, 1970, we'd appreciate it.

After we get all the ideas in, we'll try to blend them all together and come up with an improved set of rules that will be easier for everybody.

Thanks for your help!

73,

Len Chertek, W3GRF

Chairman, Contest Advisory Committee

ED note:

Get your ideas to President Bob, K7IND

PITTSBURGH PAINT
CENTER

2108 So. Tacoma Ave.

MA 7-3174
Paid Adv.

The regular meeting of the Radio Club of Tacoma was called to order at 8:05pm by President, Bob Gates K7IND, with members and guests standing and pledging allegiance to the flag.

There were 26 members and 3 guests present.

The minutes of September 9th were read and approved as corrected.

The Treasurer rendered the following report:

Checking account	\$1368.15
Savings account	440.08
Hamfest account	1071.88

Bills read:

Bill for light bulbs and coffee \$3.00

Postage for qsl cards \$1.00

Motion made, seconded and **PASSED** to pay them.

Roy, W7AZI, reporting on the Blood Bank, said he never thought he would ever have to call on the bank for blood, but he did and found the Club had no credit. He made some calls and in a short time had 9 pints, so now the club has a credit of 6 pints. Roy said the Club's 6 pints credit is only good for one year so donors have to give blood each year to keep our credit current.

Doc, W7OS, mentioned that the blood need was for Roy's mother.

Chip, K7VFF, gave a very interesting report on the QSO Party.

Doc, in adding to Chip's report, said we had made contact with K4UVH, Hendersonville, Tennessee who was the grandson of one of the original members of our club.

Scotty, K7CYZ, reporting on the campout September 12 and 13, said there were five trailers and we had the camp all to ourselves. Everyone there had a wonderful time and plan to make it a yearly event.

Dennis, W7UBA, commented on what a lovely feed they had at the QSO Party.

Bob, K7IND, asked Roy, W7AZI, to head the Constitution Committee. He said we are not going to rewrite the Constitution but just go over it and recommend the necessary changes.

Dennis, W7UBA, reported on the building and the needed repairs and hopes to have a more complete report at the next meeting.

Bob, K7IND, read rule changes for the Sweepstakes this year which were submitted by the Boeing Club. A considerable discussion followed this.

It was suggested that the club vote Mrs. Greta Warburton a special member. Motion made, seconded and **PASSED** that Mrs. Greta Warburton be given a Special Membership.

It was announced that there will be a potluck dinner October 16 at 6:00pm at the clubhouse.

Dennis, W7UBA, talked about the club-sponsored Division Convention in 1972, two weeks prior to the National Convention.

(Cont. next column)

There being no further business, the meeting adjourned at 9:25pm after coffee break.

Howard, W7MRX, gave a very interesting talk on low powered transceivers and converting C.B. rigs to amateur bands. He also showed slides on the screen of different circuits and explained the changes that could be made.

Respectfully submitted,

/s/

Bob Weightman WN7IFR

MEETING MINUTES 10/14/70

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm by President, Bob Gates K7IND, with members and guest standing and pledging allegiance to the flag.

There were 30 members and 5 guests present.

The minutes of September 23 were read and approved.

Treasurer rendered the following report:

Checking account	\$272.52
Savings account	1505.06
Total	1777.58

The Treasurer reported that he closed out the Hamfest account and deposited the money in the savings account and that we still have an outstanding bill for one transceiver - about \$360.00 and \$100.00 loan from the general fund to Hamfest account. After those bills are paid, the balance will be what the Hamfest made.

Bill for \$143.00 for fire insurance for three years was read. Motion was made and **PASSED** to pay the fire insurance.

President, Bob Gates K7IND, read communication from ARRL on Rule changes for Field Day.

Roy, W7AZI announced that he was asked to head a committee to up date our Constitution and said Ed Coles, K7CZM, has consented to help. Roy asked if anyone has any suggestions, please contact him or Ed.

Scotty, K7CYZ, announced he will be working out of town and could not continue as QSL Manager.

SHOP MART

Department Store

133RD & PACIFIC AVE., Tacoma

WEEKDAYS 11 A.M. TO 9 P.M.

SATURDAYS 10 A.M. TO 6 P.M.

SUNDAYS 12 NOON TO 5 P.M.

Paid Adv.

arv Wheeler WB4JBS/7 offered to take over that job.

Dennis, W7UBA, reporting on the building repairs next recommended we not go ahead with the repairs until we have received more bids.

Len, WA7HHI, read the rule changes of the Sweepstake Contest between Tacoma and Boeing Club. Motion made, seconded and **PASSED** to accept the rules as read.

Chris Jensen, WA7MJK, reported that Doc Spike, W7OS, asked for help to install an antenna for Mrs. Hoerre. She hopes to become an amateur radio operator soon. Several offered to help.

Ed Coles, K7CZM, gave us a very interesting talk about his trip to Europe.

Dennis, W7UBA, announced the programs for the next four meeting nights:

Oct. 28 - Discussion on the Division Convention

Nov. 11 - Bob Thurston, W7PGY, talk on ARRL

Nov. 25 - Auction night

Dec. 9 - Group picture and nominations

Dec. 23 - Elections

It was also announced that Nov. 14th and 21st are the Sweepstakes contest.

Applications for membership of Charles R. Anderson K7ONA, Norman Frederick Rose WA7NDX and Penny Salatino W7ZTG and wife Diane WA7HXL were read and all were accepted.

There being no further business, meeting adjourned at 9:10 pm. After coffee break all enjoyed a very interesting slide show and talk given by Don Riebhoff, K7CBZ.

Respectfully submitted,

Bob Weightman W7IFR

SLIVERS AND SPLINTERS

Chris, WA7MJX, in the process of erecting a new Hy-Quad on a Rohn 45 tower to 50 feet, to go along with his Swan 400.

Believe it or not; Dennis, W7UBA, is in the process of getting back on the air and is starting by building a 10 meter beam.

Had a visit with Dwayne and Patty Lewis, Sunday October 25th. Had a very delicious lunch and an interesting con-flab. K7KSZ and K7NQR are still very active on 2 meter fm.

Smitty K7ATD and Bob W7RXS working on their 2 meter fm mobile units. Have a lot of fun fellows.

Smitty and son Glen, W7CMZ, are back home with a deer apiece. (Four legged, of course)

Scotty, K7CYZ, happy with new job in Centralia. Staying in his trailer during the week and coming home on Wednesdays and week-ends.

Steve Moreland suffered a broken hip while in the soldiers home above Orting. Is presently in Good Samaritan Hospital in Puyallup.

(Cont. next column)

Roy, W7AZI's mother is in the hospital. Here's wishing her a speedy get-well.

The Club's fire insurance has been paid for another 3 years. Don't forget to watch the smoking during club meetings.

A letter received by the club from Special member, Fr. Len Kaufer, W7DXH, advising of his new traveling position. Will be in Saipan, Mariana Islands for some time.

Ed, K7CZM, back from his vacation trip to Europe with interesting stories. Described his visit to the Vatican amateur station, HV3SJ.

Joe W7IG and friend Chet Sakura W9CTI ex-W7DLN, spent evening visiting Dick W7RGD. Chet is currently from Milwaukee, Wisconsin and is on vacation, out here in the west. He is also the editor of the Hamateur Chatter. Chet wanted to see the workings of the Loggers Bark. Had a nice visit over a cup of coffee and an exchange of printing information. If any member has a qsl card, received from Chet in the past years, please contact Dick. Chet would like a copy of it. It seems the qsl card is a home made type and he would like a copy since he did not keep one himself. Dick will copy it and return the card to you, none the worse for wear.

John, K7CZF, busy building his own sluice box for searching for the yellow stuff. Busy presently, on the baffle plates.

Merl, W7IKG, back from Hawaai for a visit. Will be going back by the time we go to press. Visited the club during the last meeting of the month to get reacquainted with the gang.

Another 2-11 fire during the month, seen Smitty K7ATD, Mel K7ATF, Ralph W7COP and Dick W7RGD out with the C/D bus on the scene.

Berl, K7NPG, has just about finished the new ham shack addition to the house. Quite an addition and readily available to the living quarters.

Emil, K7GPK, has also, pretty well completed his home building. Still some cupboards to complete. Might also mention that in last month's Bark, we inadvertently left out of his ad, that the power-lawn-mower he had for sale is a riding

W7DK

OCTOBER 1970

WASHINGTON STATE QSO PARTY

By Chip K7VPF

Pierce County is on the map! As a result of the 1970 Washington State QSO Party, W7DK's reputation as a contest club has been established in the minds of many. Here's how it went.

Saturday morning, September 12, saw Chip showing up at the clubhouse at 0900 and getting reprimanded by the WF7ARW crew for not being there an hour earlier. One antenna remained to go up, the club's TH-4 tribander, which had been assembled and tested at Chip's location with FB results. (SEE PICTURE ELSEWHERE IN THIS ISSUE)

After some joking around, it was erected on the C&G crank-up tower, in fine fashion, with just minutes to spare. It was to be put on 15 phone to work the WAE Contest for European multipliers.

At 2000, WF7ARW went on the air. Stinko! Activity was down and something was funny with the tribander. (Little was heard from Europe) A few signals were heard though, including some jerk with 3 quacks in his call, working Europeans. Twenty was doing fairly well, in fact quite well, considering activity. The 15 meter monobander was then put into operation and unholy problems started appearing. We had expected cross-talk difficulty from the start and we were not without the problem. We HAD overlooked "ye olde power company substation", 1 block away at a beam heading of about 20 degrees. So much for Europe!

After a couple of hours we got matching units properly distributed and things started to pick up. Rex, W7NP and Dennis, W7UBA, were picking them up on 20 cw and ssb, respectively. Marv, WB4JBS, was having a ball on 15 ssb and the rest of the crew were waiting for a band to open up.

About 0000 GMT, Chip heard a strange accent in the pile, turned the beam Northwest and suddenly 15 ssb came alive with hundreds of JA's calling WF7ARW. With the aid of some Japanese, acquired during Amateur Radio Week, I was able to work a fairly good run and Marv, who had been taking notes at the side, sat down and to the shocked

(cont. next column)

AUTHOR AT KEY

amusement and delight of many, started rattling them off in Japanese with his drawl added for flavor. Things were picking up.

Back on 20, the boys were convinced and finally found someone to talk to them on 75 ssb and WA7KTD and WA7MVH were starting to make ham on 40. Oh yes, our novice station, under control of WN7OYN, made some novices very happy indeed. FB!

The multipliers were there, all right.
(cont. next page)

COMING PROGRAMS

NOVEMBER 25th..Club auction at the club house.
Lots of goodies!

DECEMBER 23rd..New club group picture to be taken after the business meeting.

Antarctica called me during a brief stint on 20 ssb and 2M1AAT/K was worked in short order. Roy is leaving the Kermadecs soon and we were lucky to be able to work him. KJ6, KX6, VK, ZL, etc. kept 20 busy all night, while 40 was going full steam and poor Doug had micked the band and was without companionship. 15 ssb was good for JA's until almost midnight and we were greeted by many "Yakai, 59, CO7, Tokyo, OK Pierce County but please your Country? I know not of WF7. So please..."

HOW DO WE GET IT UP?

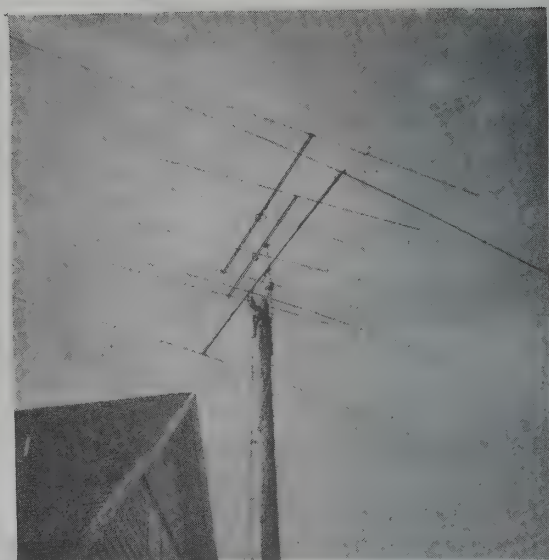

Sunday morning brought more multipliers, headaches and more quack-quack-quack. 15 cw picked of several Americans and ONE German to save embarrassment! 20 cw caught a long-path opening to Africa and managed to work a ZE and a Z63, South-West Africa. We couldn't work a plain, old fashioned ZS. No, we had to work the hardone! We also picked up an I1 on LONG PATH. Long path to Italy is tough, especially, when you discover the linear bandswitch is on 15, when the I1 is on 20. But, we worked him anyway!

The rest of the day saw UB5, UY5, UTS and one UO5 worked on 20, in addition to lots of W's. Good rates were found there, as well as on 15, where many were to be found. Particularly in the advanced class band.

As the day wore on, multipliers popped in on 20 and 15 and by the time it was all over we had a respectable total.

All told, we made 1,222 qso's in all states, 6 provinces and about 30 countries. I am not sure of our multiplier total, as of this date, but it was in the neighborhood of 85 or 90. I think congratulations are in order for Rex, W5QQQ, for his fine performance in taking second high in Pierce County and probably Washington State as well.

(cont. next column)

POINT ME TOWARDS THE DX!

In closing, I would like to thank all the crew for bringing gear down and giving of their time and talent to make WF7ARW a smashing success. We know our mistakes and next time the effort will be that much better. I feel also that we learned some things, which will pay off for field day.

I think a good time was had by all and I think the acquisition of the special call went a long way toward improved publicity for W7DK.

"OK got Pierce County, etc., but what was that call? Was that a WF7??"

DON'T LEAVE THEM ALONE

I was talking when I should have been listening. Now I have to come up with some kind of a story.

Guests at our meetings are something special. If they are already amateurs, they have something in common with us. If they are there to see what ham radio is all about, they don't have too much in common with us. So we should all try to make them feel at home and talk to them about ham radio and get them interested in what we are doing. I have seen a few times when the guests were left to fend for themselves. We need new members and this is one way of getting them. So take a few minutes and have an "eyeball" with them. Explain ham radio and maybe answer any questions they might have. Then invite them back again.

73, THE OLD MODULATOR

MYSTERY CONTEST RESULTS

The Mystery Contest, held at the September 9th club meeting is as follows.

1st place; Jim W7BSW. Marve WB4JBS and Howard W7MRX tied for second place. Third place went to Oliver W7WAH.

BIG ONE COMES ABOARD

NOTES FROM P.S.C.R.C.

The following is an excerpt from the minutes of the Puget Sound Council of Radio Clubs meeting of September 18th:

Don, W7HMJ, reports that the NARCS would like to see the Council take some action on the FCC filing fees. After much discussion, the President appointed Van, K7CTP, to contact Bill Goodloe, WA7GWJ and Bob Thurston, W7PGY and together lay-out the proper format for a petition to the FCC. The Council will petition the FCC for Proposed Rule Making in this matter. The Council will not object to the fees charged for an amateur license, only to the fact if an examinee fails his test, he receives no refund or anything else for his money. The Council will propose that this filing (or application) fee should be changed to a license fee, only to be charged upon the actual issuance of an amateur license.

In addition to the petition, letters of attachment will be formulated for members of Council Clubs to sign. It was felt that individual letters attached to the petition would increase the prestige of the petition in the FCC's opinion. Van will send the petition and letter formats to the Secretary, who will duplicate them in sufficient quantities and send them to the member clubs for their approval and signatures.

MEANWHILE BACK AT CAMP

(W7RXT & W7WLX)

LADIES AUXILIARY MEETING

The Ladies Auxiliary meeting will be held at Margie Chavis's home during the month of October. The November meeting will be at the home of Fay Monroe's. The last meeting of this year, with elections, will be at the home of Donna Dightmar.

Remember ladies, you are automatically a member of the auxiliary, when your husband or son joins the Radio Club. Why not mark your appointment book with these dates and see what the auxiliary is doing to help the Radio Club. Meetings are always on the first Wednesday of each month.

CONVENTION NEWS

During the September 23 meeting the subject of holding a Northwest Division Convention was brought up to the floor by Dennis, W7UBA. He pointed out the fact, that if we wanted to put one on in '72, the bid would have to be made shortly. A lively discussion ensued on the pros and cons of such an undertaking. The final decision made during the meeting was to table the question until the next meeting night, which will be October 14th. So if you have any questions or opinions on this matter, be sure to attend the meeting in October to cast your vote.

THE ONES THAT DIDN'T GET-A-WAY (39)

MINUTES OF MEETING 8-26-70

The regular meeting of the Radio Club of Tacoma was called to order at 8:15 pm by President Bob, K7IND. The members and visitors opened the meeting by standing and pledging allegiance to the flag.

There were 24 members and 6 visitors present.

The minutes of the August 12th meeting were read and approved.

Treasurer's report:

Checking	\$1120.58
Savings	440.08
Total	\$1569.66

Of this total \$1076.88 belongs to the Hamfest account.

Chip, K7VFF, reported on the progress to hold Amateur Radio Week. The date is September 6 thru 13th. DK will be operated under the special call of WF7ARW. There will not be a display in the G/C Building because the space is being used for one of the county offices.

Westport: Scotty reported on the fishing. There were 13 men and boys that went on the boat. There were 39 fish brought back. Roy, K7USF, caught the first fish and Paul Rawlings caught the largest. (32 lb. King Salmon) Scotty, K7CYZ, and Ed, K7CZM, also played a few holes of golf, no score given. A motion was made and passed that Secretary write a letter to Mrs. Warburton and thank her for the grand time had by all that were there.

Doc, W7OS, brought the books with the pictures of the club members. If your picture is not in either book, then please make arrangements with Scotty, K7CYZ, to have it taken.. Doc asked that a letter be sent to Max, W7AEA, and thank him for all the pictures he had turned in and all the work he went to, to get as many pictures as he had.

The Loggers Bark has now purchased a camera and
(cont. next column)

IT FOUGHT LIKE HE--

MINUTES (cont.)

it will be taken to all club events, so that pictures will be taken.

Doc read for the third time the additions to be added to the by-laws. Voted on by the members and PASSED.

Bob, K7IND, asked for a garage to store the big generator in and Margie, K7AMJ offered hers.

Dennis, W7UBA, is trying very hard to get a committee to help him get the building surveyed and put in better shape.

Bob, K7IND, asked that everyone be very careful of setting something afire with cigarettes and to please carry all the used coffee cups back to the kitchen.

Meeting was adjourned at 9:00pm.

Respectfully submitted,

/s/

LaVerne Hood K7NKZ

Acting Secretary

MINUTES OF MEETING 9-9-70

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm by Vice-President, Dennis Reanier W7UBA, with the members and visitors standing and pledging allegiance to the flag.

There were 34 members and one guest present.

The minutes of August 26th meeting were read and approved as corrected.

(cont. next page)

The Treasurer's report:

Checking account	\$1378.15
Savings account	440.08
Hamfest account	1076.88

The bill for \$5.00 for a gift certificate as first prize for tonight's Mystery Component Contest was presented. A Motion was made and PASSED to pay the same.

Chip, K7VFF, reporting on the Amateur Radio Week and the station activity at the clubhouse, said we made about 1,000 contacts with 20 to 30 countries already. We still have the two big days Saturday and Sunday, coming up.

Scotty, K7CYZ, volunteered QSL Manager for Amateur Radio Week.

It was announced that George Abbott, WA7BHH, is in poor health. Also Steve Moreland is in a nursing home.

It was suggested that the club furnish food for the operators during the qso party. Motion made, Seconded and PASSED.

Scotty, K7CYZ, announced the campout to be at Monte Cristo and all members not participating in the qso party are welcome. Details will be in the Loggers Bark.

Doc, W7OS, reported on the club history that he has compiled, so far and said Chris Jensen, WA7MJK has consented to help him in this work. It is a big job. Doc also recommended that a date be set for another club group picture. After some discussion, the members settled on the second meeting in December will be the club group picture taking.

Jerry, W7BUN, announced that there being some discussion on rules changes for the November Sweepstakes. Dennis, W7UBA, suggested taking this up at the board meeting.

Chip, K7VFF, suggested that we have a standing contest committee. This too was referred to the board for study.

Jerry, W7BUN, announced September 26th and 27th will be the Walla Walla Hamfest.

Ed, K7CZM, announced that Elmer Bergstrom, K7LVL, donated some ham gear to the club for their auction. Dennis, W7UBA, suggested that we hold our auction in November. After some discussion, it was settled that the second meeting in November to have our auction.

Jerry, W7BUN, reported Swan has ham transceivers on the market, that by adding one wire, can be used on the Citizens Band Radio. After 19 letters, with all but one from this area, Swan has removed it from the market.

Len, WA7HHI, wished to compliment Scotty, K7CYZ and his staff, for their work on the Loggers Bark. Dennis, W7UBA, congratulated the Loggers Bark Staff and asked for a round of applause.

There being no further business, meeting adjourned at 9:15pm after coffee break, a number of

(cont. next column)

the members participated in the Mystery Component Contest and a good time was had by all.

Respectfully submitted,

/s/

Bob Weightman W7VIFR

Secretary

ARRL DIRECTOR'S LETTER#1370

Over the past several years there has developed what in my view is a most serious difference of opinion with the staff of the Federal Communications Commission as to what various sections of long-standing amateur rules actually mean and how they should be interpreted and applied.

This difficulty arises from a number of responses by the FCC staff, at various levels, to queries from individuals. The contents effectively reverse policy (or at least procedures) accepted for three decades to my personal knowledge and actually, I believe, considerably longer than that.

These newest interpretations strike at the very heart of organized amateur radio in denying our right to continue to engage in such activities as voluntary communications for most boat races; parades; sports car rallies; charity drives (March of dimes telethons); election results; Eye Bank network and the like. Of course we amateurs have been undertaking such projects almost since ham radio began. They have been thoroughly publicized through newspaper stories and magazine write-ups and the Commission has certainly been aware of them. (It is indeed somewhat further incongruous to have a Chairman of the Commission publicly praise the Eye Bank network as a major amateur contribution and then have the staff declare the operation in violation!)

In any event, I believe such activities, besides complying fully with both the spirit and letter of the rules and being a public service in themselves, are an essential part of amateur self-training in organized communications-teamwork in planning for a real emergency. For this reason, as Chairman of the Amateur Radio Services Subcommittee of the National Industry Advisory Committee, I have addressed the Honorable Robert Wells, Defense FCC Commissioner, per copy attached expressing great concern that under these new staff interpretations, the task assigned to my group is almost hopeless.

An excerpt from a recent Commission letter to an amateur illustrates the basic problem:

Section 97.39 provides that an amateur station license may not be issued to nor for the use of any organization except a bona fide amateur radio organization. This section prohibits the use of any amateur station on behalf of a non-eligible organization and expresses the concept of an amateur radio organization as

(cont. next page)

one that conducts non-profit, non-commercial hobby-type activities. Further, the rule applies to any amateur station transmitting a message on behalf of a non-amateur organization regardless of whether the particular station originated the message or is relaying the message from another amateur station. The foregoing is true no matter how meritorious the non-amateur organization may appear and is consistent with previous actions taken by the Commission.

The first sentence of this excerpt is, in my opinion, the only one in the entire paragraph, which is not susceptible to challenge. The second sentence, where it continues "and expresses the concept...." is pure fantasy; the referenced section neither says nor implies any such thing! The third sentence is the most alarming: it attacks a fundamental right the amateur radio service has maintained, without serious challenge, for 40 or more years. FCC now says, in effect, that you and I may not (except perhaps in actual emergency) handle a message for even the American National Red Cross. Such a ruling, if applied uniformly, would outlaw amateur "show" stations in most instances; it would make illegal the KF7BSA-type operations during Boy Scout Jamborees; it would outlaw such operations as the Post Office Net. As mentioned, the Commission has already informed the Eye Bank network that its operation is contrary to amateur rules. As to the final sentence of the quoted paragraph, the adjective "consistent" applies properly only to Commission actions of the past year or two; these recent actions are totally at odds with established procedures for many previous years. And there has been no change in language of the rules to cause such abrupt switches in rulings.

The Commission bases its position on the phrase in Section 97.39, "nor for its use." My appraisal is that none of the present FCC staff was involved when this phrase was added to the amateur rules more than 30 years ago, do not know why it was added and apparently have not taken the trouble to find out.

At one time it was possible for an organization to hold an "amateur" license -- the New York Times, for example and various schools and colleges. Eventually the undesirability of such a situation became obvious and so a rule was added to prohibit non-amateur organizations from holding amateur licenses. But then there were a few instances where an employee took out an amateur license, primarily for the purpose of circumventing the rule; or a "dummy" radio club was set up to hold the company license. The "nor for its use" phrase was added only to stop this kind of evasion. It was NEVER intended to prohibit an amateur engaging

(cont. next column)

in the aforementioned activities, or handling any kind of message he chose -- including negotiations for the sale of the Brooklyn Bridge! -- so long as he received no compensation for it, direct or indirect.

General Council Booth and I had an informal meeting with appropriate staff members of the Commission about a year ago on the application of this phrase. We thought it had helped clear the air. But the situation is getting worse instead of better. I believe this matter needs careful attention on our part (the attached letter does not speak for ARRL), and I am asking the Executive Committee for specific guidance at its meeting next month. General Counsel Booth is similarly concerned and I believe will have some recommendations for procedure at that time.

Incidentally, it has been informally suggested that we petition the Commission for a change in rules to "permit" the aforementioned activity. I think this approach is absolutely ridiculous; we might as logically petition the Commission, after 60 years, to "permit" amateur radio itself!

I feel that we certainly cannot live with a situation where the language of a long-standing amateur rule can be applied in different ways, in some instances totally contradictory to each other, depending solely on who in FCC at the moment happens to be assigned the task. As personnel changes occur, we could never be sure just how the Commission might interpret these same rules (or others) five years from now...or ten or twenty.

Sincerely yours,

/s/

John Huntoon W1LVQ

General Manager

DIRECTOR'S LETTER

Swan has brought out a new unit, model 1011, "10 Meter and Citizens Band Transceiver," which has caused a bit of uproar in amateur ranks. Basically a 260 watt, 10 meter sideband and cw transceiver, it also includes a tunable receiver for the Citizens Band. A footnote in the announcement points out that "In the citizens band position the transmitter relay circuitry does not function."

There is, in my view, merit to the charge that the footnote is an open invitation to CBers to jump the relay and run high power on 27 MHz. It is something like the earlier and rather shameful use of small-print footnotes, "This unit illegal on the Class D Citizens Band" at the bottom of full page ads on 27 MHz linear amplifiers -- run prominently in popular CB magazines who had few readers other than Class D! But this is not primarily a matter of concern for us.

(cont. next page)

The thrust of amateur complaints is that promotion of this unit in magazines catering to CBers will provide the maximum temptation to operate without licenses on the ten-meter band, using "Big Joe" and similar station identifications often heard on 27 MHz when skip conditions exist. I have trouble accepting this charge. Most anyone anytime, can walk off the street into a radio distributor store and buy most any piece of ham gear and bootleg with it if he chooses. And for a heck of a lot less than the \$499 price of the Swan, he can get a multi-band job and thus bootleg capabilities on other bands to boot! The same argument applies to amateurs -- who would want to pay that much for a 10-meter-only unit? Something doesn't make sense.

Although one is in the current issue of CQ, we have not (yet) been offered an ad on this unit for QST. At this point I do not know whether it will be accepted; emotion is running too high to make a rational judgement at this point. I did, however, want you to know we are aware of the problem.

EDS note: See following Director letter.

DIRECTORS LETTER

Swan has ceased promotion of the 1011 combination ham/CB unit I mentioned in an earlier letter, because of adverse reaction from the amateur ranks. (The first production run will be sold as planned, however.) I believe this is a most commendable and courageous step on Swan's part -- quite in contrast with some of the manufacturers in or borderline with the CB field.

In connection with the forthcoming plans for Oscar 6, the third party agreement between Australia and the United States permitting such communications on matters relating to the satellite will continue until four months after the new satellite ceases to transmit. The Oscar 6 satellite, still in the planning stages with a launch hoped for late 1971, is to have an active life time of one year or more. Amsat, the Radio Amateur Satellite Corporation, continues to welcome membership. For details write Box 27, Washington, DC 20044 BT

NR 288

A footnote has been added by FCC to the allocations table for the amateur forty meter band. It reminds amateurs that the frequencies 7100 to 7300 KHz are assigned to the broadcasting service in ITU region one covering Europe Africa the Near East and USSR, and region three covering Oceania and the remainder of Asia. The basic principle governing regionally shared frequencies is equality of right to operate, as for instance avoidance of interference. The footnote also prohibits operation on 7100 to 7300 KHz by amateurs in the following places, all within region three. Baker Canton, Enderbury, Guam, Howland, Jarvis, Palmyra, American Samoa and Wake Islands. Further information will appear in November QST BT

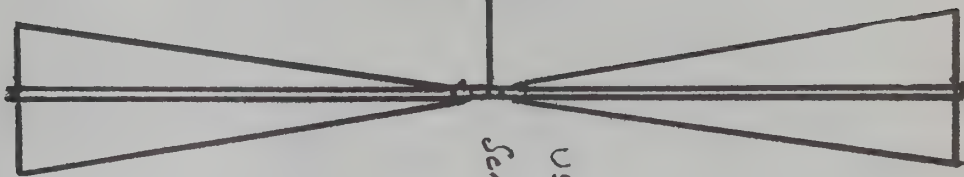

NR 289

October QST will carry full details concerning the new ARRL 160 meter contest to be held the second weekend in December. The initial format provides for all cw operation, with ARRL sections as the multiplier. Extra points will be given for DX contacts. A unique feature will be the reporting method. A copy of your log will not be required unless specifically later requested by ARRL. However, a special summary sheet and QSO record sheet must be submitted to constitute a valid entry. A addressed stamped envelope sent to ARRL, 225 Main Street, Newington, Connecticut 06111 will bring you the 160 meter contest package. This includes the special summary, a newly designed Operating Aid 6 and a chart of top-band allocations BT

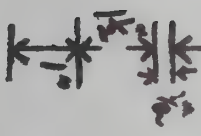

NR 290

The beginning of the Fall operating season is also the time of renewed interest in club activity. Amateurs in the process of starting or revitalizing a radio club are reminded of the continuing availability of the ARRL club kit. This material includes information on club organization, activities, affiliation, training and programs. For your free copy of the ARRL club kit, send a addressed ten by thirteen inch envelope, bearing twenty cents postage. Please include your club name. Address your requests to ARRL, 225 Main Street, Newington, Connecticut 06111 AR

SCOTT
 K7EL

The camp-out, on the Stillaguamish River, near the Verlot Ranger Station was a huge success. Trail bosses, Dwayne and Patty Lewis did a wonderful job of arranging for the club to have a campground all to ourselves. The camp-ground consisted of a large cook shack (card room) with a good stove and hot water. The latter was provided by an ingenious idea of trail-boss K7KSZ. Three bunk houses with eight bunks in each, two unsmelly "chick sales" and all located on the banks of the river rounded out the picture. A more beautiful camp site you will never find!

The turn-out was very good, considering the other activities the club was participating in. There was talk of making it an annual affair. We hope that this can be arranged. If so we will set the date far enough in advance so as not to conflict with other "goings-on". In this way, more club members can take advantage of this outing.

The kids had a ball "shooting the rapids" and all got wet but no reports of pneumonia as yet. The elders enjoyed themselves, playing cards, fishing and Dick, W7RGD had his gold dredge and sluice pans working with the help of several would be miners.

Bob W7RXS, Dwayne K7KSZ, John K7CZF and Steve K7SSC had their trail bikes with them and spent several hours on the many roads and trails in the area. Everyone enjoyed the outing and said that they wanted to have one next year.

A special thanks to Dwayne K7KSZ and Patty K7NQR Lewis for the time and effort they made, arranging the camp-out.

The club members who attended were; Dwayne K7KSZ, Patty K7NQR and family Johnny, Danny and Vicky; John K7CZF and xyl Gertrude; Smitty K7ATD and xyl Rene with grandsons Jerry and Eric; gold-digger Dick W7RGD; Steve K7SSC and xyl Donna with baby Debbie; Beryl K7NPG and xyl LaVerne K7NKZ with son Rusty; Scotty K7CYZ and xyl Vivian with son Scott; Marge Hazelmeyer with daughter Lusan, son Mike and number 2 daughter, Terry Jo.

See you next year on the banks of the Stillaguamish river.Ed

NEW SPECIAL MEMBER

During the last meeting of September, the members proposed a new Special Membership to the Radio Club of Tacoma. Mrs. Greta Warburton, xyl of the late member and silent key, Stan W7LIR. A unanimous vote was cast in favor of the proposal and Greta is now the newest Special Member of the Radio Club of Tacoma.

WITH EVERY RIGHT THERE IS A RESPONSIBILITY. JUST ONCE, I WISH SOMEONE WOULD DEMAND HIS RESPONSIBILITY!!

Jim Hosack, WA7KTD, has been bringing donuts and other goodies to the meetings to be served with the coffee. Thanks Jim, they sure are good!

Bill Rohrer, W7ZFY and xyl Peggy were in Tacoma, visiting from N.Y.C., to visit Bill's family. Took a trip down into California before returning to the Coast Guard station at Governor Island.

Everyone loved Scotty, K7CYZ, for his clatter fitters at the big camp-out at Everett. Everyone but Dick, W7RGD, had some - he over-slept.

Dennis, W7UBA, did a very fine job at the September 9th meeting, while our President, Bob K7IND was sick. Thanks for the very f.b. effort Dennis and get well soon to Bob.

Also get-wells go to Roy Devish's mother, who recently underwent surgery. To Steve Moreland who took a fall, while in the Orchard Park nursing home. To George Abbott, WA7BHH, under the weather. Get well to all you fellows and gals.

Overheard Cliff W7MFG calling xyl Barb W7UYL on the air. Cliff was mobiling and calling on 29.6. Who said 29.6 is dead? Dick W7RGD answered by Cliff having difficulty hearing due to the ski stations drowning him out.

Mel, K7ATF, walking around with bills in his hands. With two Jr. ops going to the University, the bills keep coming in.

Ralph, W7COP and xyl Tykie just getting over a bout with colds. Got rid of the cold just in time to go back to work after vacation.

Art Wing, W7JGN, getting ready for a business trip to San Francisco for a week. Does it take a whole week for the business Art?

Art, K7CYQ, broken wrist is all mended. However it reminds him that it was broken when-ever the weather turns cold and nasty.

Howard, W7MRX, busy taking pictures of his converted C.B. rigs to send in with his article for publication in QST at a later date.

Berl, K7NPG, off on a bird hunting trip with Jr. op Rusty. Berl in process of finishing of a new room on the qth for a ham shack.

Don't forget to attend meetings! Lots of projects coming up.

SEPTEMBER 1970

AMATEUR RADIO WEEK ACTIVITIES

By K7VPF

In conjunction with Washington Amateur Radio Week and W7DK'S celebration of 50 years of ARRL affiliation, the Radio Club of Tacoma, Inc. has applied for and has been granted special, temporary authority, to operate a station at the clubhouse during the period September 6 to 13th., 1970, using the call WF7ARW. During the week WF7ARW will be a single operator station, operating as much as time will permit.

For the Washington State QSO Party, September 12th and 13th, WF7ARW will be operated, multi-operator, multi-transmitter on 80-10 meters ssb and cw.

Current plans call for three transmitters to be operated simultaneously throughout the contest. The club's 3 element yagis have been brought down from the F-D site and with any kind of luck, will be erected on the utility pole in the back yard. Trap dipoles are planned for 80 and 40 meters and tribander and 18 AOV will also be put up, if at all possible.

QSL's for WF7ARW should be sent via W7DK, with self-addressed, stamped envelope only. Otherwise the cost of QSL-ing will become prohibitive. Hope we can work YOU during the contest.

Be sure you get on yourself!

NEW BY-LAW VOTED IN

The new by-law, as proposed and printed in last month's Bark, was voted on and passed during the regular club meeting. The new by-law will be included in the new roster book to be printed this fall.

FINAL F-D NOTE

President, Bob K7IND, announced the final score as turned into ARRL, on the club's efforts on F-D.

The club had 2,390 contacts on all bands and with the bonus points the final score, as submitted, was 17,937. A good job, well done, by all!

Prize Time

HAMFEST

COMING EVENTS SEPTEMBER

The 24th annual W7DP, Walla Walla Hamfest, at Jefferson Park Field House in Walla Walla will be held on September 26th and 27th. Attend the swap shop, antiques, home brew contest and many other activities. Prizes for the biggest ham, best QSL displayed, most unique condensers, etc.. Over 100 prizes-free coffee-free registration. Details from WA7LOQ or W7GVG.

Skagit Amateur Radio Club salmon bake. Located at Oak Harbor City Park, Saturday September 12th. Pot luck dinner at 1:00pm. Bar-B-Q salmon free. Camping and trailer space w/hookups \$2.00 per night. Salmon Bar-B-Q by world renowned chef, Orv Marler, W7REC.

NEW AMATEUR CLASSES

The Bates Vocational-Technical Inst., 11th and Yakima, Tacoma will start a new Amateur Radio class September 10th. Classes will be held Tuesdays and Thursdays, 7 to 10pm. It will be a starter class beginning with basic code and theory and will progress to the Novice, General and Advanced levels. The class will run for 9 weeks and costs \$8.50.

ACTION News

on Channel 11

By W7UBA

Our Radio Club of Tacoma, Inc. sponsored "1970 Washington State Hamfest" was a large success. Every person, who contributed his or her talent and time, has reason to be proud.

Total paid registrations was near \$360.00. Many took advantage of the camp facilities. On Sunday morning 26 trailers or truck camper units, 10 tents and 2 sleeping bags were counted in the camp area.

The club even realized a profit. Total income from the Hamfest will be very close to \$1,900.00 and the final cost figure will be a little over \$1,100.00, leaving approximately \$700.00 to the good.

W7JWJ announced that the WARTS net, NTN, NWSSB net, WSN and the Cracker Barrell net would like to sponsor next year's Hamfest and would invite the CBN to join in sponsorship if their bid is accepted. No one objected and their bid was accepted.

A sincere thank you to every person, who helped. Your support and help was tremendous. Every person, I asked for help, responded 100%. Each bit of help, large job or small, made the Hamfest the success it was.

Dennis Reanier W7UBA

1970 W.S.H. Chairman

NOTE: Pictures found in this issue of the Hamfest were taken by Tom Winter and John Rogoski.

SEPTEMBER CAMP OUT

Any club member, that will not be participating in the Washington State Qso Party during amateur radio week, is invited to join in a week-end at Monte Cristo, on a camp out. Several members and families are going to meet at the Lewis's, K7KSZ, in Everett on Friday evening, September 11th and go on up to a camp ground Saturday morning, Sept. 12th..

To get to the camp ground, turn off interstate 5 in Everett onto highway route 2, which goes to Snohomish. As you cross the viaduct or bridge, follow the signs to Lake Stevens Highway (204) to junction with highway 9. Go north on 9 about 4 miles to the junction with highway 92. Turn east on 92 to Granite Falls, then follow the signs to Verlet and Silverton. Go through Verlet and when you pass the new road to Mt. Pilchuck, watch the small camp grounds on your left. We are not sure which camp ground we will be in, but we will mark it plainly.

If you arrive at Monte Cristo, you have gone too far,

To go to the Lewis's, don't turn onto 204 but go straight off the bridge and up the big hill to 92nd place East, turn right one block. The address is 2026-92 Place East, Everett.

Lots of places for tents, trailers, campers or just a sleeping bag. Bring your fishing pole along also.

ROSTER BOOK CHANGES

No new members to the club during the month of August. Only one change noted for the roster book or the month.

RADIO COLLECTION ON DISPLAY

The historical radio collection of the N.W. Chapter of QCWA is now on display at Rocky Reach Dam on the Columbia river near Wenatchee. 16 large glass cases house the major portion of the collection showing the development of radio from the early spark days to the advent of the "all electric" broadcast receivers. A remainder of the collection is in storage at the power house awaiting completion of an extension of the building in 1972, which will contain an electrical museum being gathered by the Chelan County FUD, owners and operators of the power facility.

The NW Chapter museum collection was the original idea of Howard, W7OE and Doc, W7OS, about 15 years ago. Material has been donated by members over the years until there are over 400 cataloged items. Some fine pieces have been donated, such as a complete 1916 spark station by Glenn, W7EG. Jeff, K7RZZ, has been doing a fine job in the restoration of equipment.

The Rocky Reach museum is in a rather unique situation. It is housed in the power house on a gallery overlooking the generator floor. There are displays of Indian artifacts, pioneer items and material from the archeological explorations along the Columbia River before the dam construction. A park on the river bank is a recreational area open to the public and was the site of a recent Central Washington Hamfest. The 1971 annual meeting of the Chapter will be here. About 10,000 visitors will view the museum this year. The radio display was setup by Marge, W7GXI, Ivan,

MINUTES JULY 22, 1970

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm by President Bob Gates, K7IND, with the members present standing and pledging allegiance to the flag.

There were 26 members and 4 guests present.

The minutes of July 8 were read and approved.

The Treasurer rendered the following report:

Checking	\$1261.59
Savings	440.08
Total	1701.65

Bills were read; utility bill \$20.00. Motion made and PASSED to pay the utility bill.

Dennis, W7UBA, reported on the Hamfest, saying that he feels it was very much a success this year and he wished to thank each and every one for their help and he said without their help it would not have been such a success. Again many thanks.

Doc, W7OS, announced that Dennis, W7UBA, should be commended for a very fine job as chairman of the Hamfest. It took a lot of hard work on his part to put such a fine Hamfest together and he (Doc) made a Motion to the Radio Club of Tacoma, in affect, that the Radio Club of Tacoma be ever grateful to Dennis and his committee for the hard work during the Hamfest and Field-day. Motion was Seconded and went on record.

Jerry, W7BUN, announced that September 6 through 13th, will be Amateur Radio Week and QSO Party.

Bob, K7IND, announced that the QSO party will operate from the club house and he said there will be no Loggers Contest this year.

Jerry, W7BUN, announced that a number of hams are getting together at Lake Wenatchee, August 15.

Dennis, W7UBA, asked for suggestions for programs.

Application for membership of Donald M. Grant, WN7PIN, was read and accepted.

Roy, W7AZI, reported that the Loggers break-

(cont. next column)

I'd go \$5.00 but not a penny more!

Minutes (cont.)

fast was a success and made a nice profit.

There being no further business, meeting adjourned at 9:10pm. After the coffee break, we all enjoyed a very fine slide show of Newfoundland given by our Treasurer, Len Goodwin, WA7HHI.

Respectfully submitted,

/s/

MINUTES AUGUST 12

The regular meeting of the Radio Club of Tacoma was called to order at 8:00pm by President Bob Gates, K7IND, with the members present standing and pledging allegiance to the flag.

There were 30 members and 1 guest present.

The minutes of July 22 were read and approved.

The Treasurer rendered the following report:

Checking	\$1450.22
Savings	440.08
Total	1890.30

Hamfest account balance \$1148.95.

Roy, W7AZI, reported that the annual Salmon Bake was a success, for which the club furnished the P.A. system each year as a club project.

Chip, K7VPF, reported on the QSO party coming up in September, during amateur radio week.

Bob K7IND, Field day chairman, reported that the club made 17,937 total points with the count as follows:

2,339 contacts
14,937 points
2,600 power
200 publicity
200 message originated

Jerry, W7BUN, reported on the club contest between the BEARS and our club and said there will be some changes in the rules. Dennis, W7UBA, suggested we form a small committee to draft some rules to be submitted to the BEARS for their approval. Bob, K7IND, said we would discuss the

Loggers Breakfast

Minutes (cont.)

Dennis, W7UBA, suggested we start thinking about having the Division Convention in about 2 or 3 years.

Doc, W7OS, announced that he worked our newest member, WN7PIN, in a matter of a few hours after he received his license.

Chip, K7VPF, announced that all DX contest will be August 22, starting at 3:00am.

There being no further business, meeting adjourned at 8:50pm after coffee break, Ken McCoy presented a very wonderful program and slide pictures on tracking and recovering scientific balloons.

Respectfully submitted,
/s/
Bob Weightman, WN7IPR, Sec.

COMING CLUB PROGRAM

Don't miss September 9th meeting. There will be a surprise fun contest following the meeting. There will be prizes for the winners. No details at this time on the nature of the contest. You will just have to show up to find out...

WESTPORT PICNIC

Well, Greta Warburton did it again!! W7DK, would like to thank you, Greta, for the wonderful time we all enjoyed at El Shacko in Westport. The weather was so nice and the crowd had the best time ever.

We went down on Friday evening, in order to enjoy the extra day in the fresh salt air. Friday night, we enjoyed a nice dinner cooked by Dick, W7RGD. He did a very nice job, cooking for 6 females.

Between the Cribbage games and Pinochle, it kept everyone busy until bedtime. The teen-age members built a nice bonfire and roasted marshmallows.

Saturday was spent beach combing, rock hunting and just playing around. Bets were made on the arrival time of Ed, K7CZM. Scott Huntley won the pot. Roy, W7AZI is the uncontested Yard Darts champion. I believe Inez, W7RXT, is the uncontested crab eater. Lots of champions were made that week-end.

After a big dinner the teen-agers decided to build up the bon-fire and sing. Scott, Rusty, Tim, Buff, Missy, Wendy, Michelle and Marty had a singing contest. Lyman, Greta's Nephew, had a harmonica and he and Rusty led the singing. Meanwhile the rest started a 31 card game. After Art, W7JGN, beat me out of 15¢, I decided to quit. Anyone but Art! Everyone retired about 1:00am. The poor fishermen had to be up at 3:00am for Greta's famous fisherman's breakfast.

Sunday was spent cleaning up the cabin trailers and the grounds outside. One last meal and we all headed for home.

From the Radio Club, Greta, a big thank you!

.....K7AMJ

EDS note: See article elsewhere on fishing trip.

MINIATURE P.A. (POOR MAN'S STYLE)

by Howard Hanson W7MRX

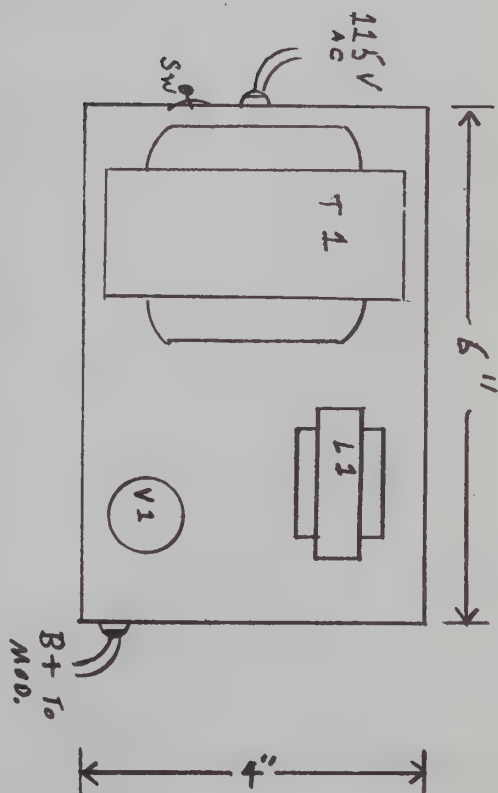

For some reason, most of the clubs and organizations I become associated with, are chronically short of cash. Possibly this is because I am usually in the same condition myself and you've all heard the old story about how 'Like attracts Like'. Anyway; one of my groups came up with a requirement for an intermittent-use P.A. system. They also came up with a request for me to help them out (since I had once incautiously admitted to being an electronics man) and an apologetic smile, when I asked how much money they wanted to spend. Calling on the old ham spirit, I went downstairs and started to sort through my 'junk-box' of parts accumulated over the past 20 years. Eventually I came up with an old power supply that had once powered a converted Command Receiver. built on a small chassis 3"x4" and furnished 240 volts at 80 ma plus 6.3 VAC at 3 amps. I also found several carbon microphones, which brought to mind an old "Hints & Kinks" circuit for a low powered A.M. modulator. This circuit is the one used except that I changed from a modulation

transformer designed for a 5,000 ohm load, to a speaker transformer designed to match 3.2 ohms.

This little rig is hardly hi fi (certainly not with a carbon mike) but is clear and crisp on voice announcements and has been run steadily for several hours at a time with no apparent harm. Most of the parts were found in my "junkbox" except for an 8 inch speaker, costing about \$2.50 and 40 feet of lamp cord at 5¢ per foot. Unfortunately, the two transformers used, didn't have identifying marks, so I can't give you manufacturer or model numbers, however it should be no great trick to look through a catalogue & pick out (1) Microphone transformer; Carbon mic to push-pull grids and (2) Speaker transformer; 5,000 ohm plate-plate to 3.2 ohms voice coil. The amplifier, exclusive of the microphone, speaker and power supply is mounted on an aluminum plate 2½" by 3", fastened to the power supply chassis with self-tapping screws.

See opposite page for schematic of diagram.

EDS note. Just received word that another article, by Howard, has just been accepted for a future article in QST Magazine.

Fi - 1.5A

We are now on the "Chinook" headed for the bar. The weather is good, (a little foggy) lot different from a year ago, The fishing was "Par excelant!"

Roy Monroe, K7USF, took the money for first salmon on board and Bob Weightman, WN7IFR, had the biggest fish of the fellows in the pool. Bob's fish weighed in at 29 3/4 lbs. after it was cleaned so it went over the 30 pound mark when pulled over the side. Paul Rawlings had the biggest and most fish of the day but was not in the pool. Bet P.D. gets into the pool next year!

Bob Chrchward, W7RXS, caught the smallest fish and Rusty Hood caught the strangest. (An eel about a foot long.)

The day was real good with only one person feeding the fish. Rusty didn't get to fish very long and Tim Ryan wasn't feeling too good but got an all day fishing trip. The boat limited, so every one had 3 fish. There was thirteen men aboard and Dick, W7RGD, caught the thirty-ninth salmon.

Also we came in with about forty pounds of bass aboard, when the day was over.

The trip was a huge success and every one is looking forward to next year.K7OYZ

EDs note: Pictures of the fishing trip will appear in the next edition.

SLIVERS & SPLINTERS

Dennis, W7UBA, settling down after a very successful Hamfest. Overheard him mumbling something about, we are ready now for a Section Convention.

Max, W7AEA, back on the job, looking good and feeling good, looking forward to the upcoming bowling season with the two radio club teams.

Margie, K7AMJ, busy weeding, cutting, canning, eating and giving away beans from her back yard farm. Might mention, also, her corn is as high as an elephant's eye.

Ethel, W7WLX, busy going over a bottle full of fancy rocks and agates picked up off the beach,
(cont. next column)

during the Westport picnic.

President, Bob K7IND, made the trip to Seattle and upgraded his amateur license. Getting ready for the upcoming amateur week by squeezing in a few more KHz. operating room. Add Rex Maner to the list also. Congratulations to both!

One of the club's newer members, Don Grant also passed his examination and now will be known to 1 and all as WN7PIN. Congratulations Don!

Dick Hazelmeyer mailed a letter to the Loggers Bark regarding the location he is stationed in. Received the letter a little late to be included in this issue but will publish it next issue.

Thanks to Emil, K7GPK, for removing the excess growth on the Radio Club's lawn!

Chip, K7VPF, busy getting ready for the upcoming radio amateur week. Lots of antenna work and arrangements to be made for operators.

Ralph, W7COP, and xyl Tykie just getting over a week of colds. A heck of a way to end up his last week of his summer vacation. Did get in a week over at the summer place on the Peninsula.

Dick W7RGD and Roy K7USF had the C-D bus out to Cheney Field for the recent Rock music festival and had to move the bus. The crowd on tight-wad-hill were throwing rocks and the bus was a big target. No windows broken but a few near misses.

Bob, WN7IFR, off to Hawaii for a summer vacation trip.

Art, W7JGN, holding onto his fishing pole with one hand and eating a hard boiled egg with the other, during the Westport fishing trip.

It is with regret we report the passing of Vivian Huntley's mother during the last week of August.

Joe, WA7IVO, worked a QSO with Bert K4UVH just recently. Bert reported that his father was out of the hospital after his recent operation and is doing fine. Is now on a 2 week vacation trip in the middle west states. Also the Knowles will be looking for more Radio Club members on the band during the upcoming amateur radio week.

Remember, the summer months are running out, school will be starting and the fall season will be upon us. Make a special effort to come to meetings. There are projects coming up and the club needs a good turn out to make them possible.

See you at the club house!

AUGUST 1970

FIELD DAY

Field Day (and night) went off with a bang, as usual. Howling kids, squaking receivers and clicking transmitters.

Bob, K7IND, says that we checked off approximately 16,000 contacts points. The exact tally is not available at press time.

The food was excellent, as usual, thanks to Roy, ZAZI and Ethel, W7WLX, and all the ladies who lent the hot dishes and salads. Also to the ladies who helped out with the k-p duties, thanks. Hope you enjoy the pictures, elsewhere in the paper.

note (We will have pictures and an article on the hamfest in the next issue of the LOGGERS BARK)

PART OF THE F-D SITE

WESTPORT

Don't forget the outing at Westport, August 22 and 23. Even if you don't fish, you are invited. We always have a ball, so come on down. There is plenty of room in the bunk house or you can bring tent, trailer or camper or just sleep in the sand. Lots of room and lots of fun, so don't forget.

LADIES AUXILIARY NEWS

Don't forget the auxiliary meeting, September 1st at Joan Reinier's place, 204 Normandy Road South, Seattle. The meeting starts at 8:00pm.

The October meeting will be held at Margie Chavis's home, 5640 South Yakima. Let's see some new faces at the meeting this fall as well as the familiar ones.

YES, SIR,' SAID THE OLD MAN, 'I'LL BE NINETY TOMORROW, AND I HAVEN'T AN ENEMY IN THE WORLD.'

A BEAUTIFUL THOUGHT,' SAID THE VISITOR.

YES, SIR,' WENT ON THE OLD MAN, 'I'VE OUTLIVED THE BASTARDS!

NEW MEMBERS

Welcome to the following new members to the Radio Club of Tacoma. Please enter their names in your roster book in the pages provided for this purpose. We hope the new members will come to the meetings regularly and participate in the club's many activities.

HE WOULD LIKE TO ATTEND MORE OFTEN
by W7CS

I was called by one of our members, who apologized for not attending the meetings of our radio club more often. He said he reads the **LOGGERS BARK** and it helps him to keep up on the club activities.

I asked him what he had been doing and I found out that besides his regular job of being a postal clerk, he has been enrolled in the Vocational school, electronic classes, studying to improve himself for the up-coming electronic modernization of mail distribution systems and I found also, that he went over to the FCC Office and took the first class radio phone tests. On July 16th he was granted this class license.

I am proud to have had a small part in giving to him his Novice examination a few years ago. Even at that time, as I recall, he went over only a month or so later and took his General. Wouldn't be a bit surprised to hear that he has gone over for his Advanced and Extra amateur licenses.

Congratulations to William E. Chovil (Bill) K7VQM, a real busy boy.

CLUB MINUTES 6-24-70

The regular meeting of the Radio Club of Tacoma, was called to order at 8:10pm. by President, Bob Gates K7IND, with the members present edging allegiance to the flag.

There were 22 members and 3 guests present.

The minutes of June 10th were read and approved as corrected.

Treasurer's report:

Checking	\$447.61
Savings	440.08
D account	50.65
Bank of America	96.00
Total	\$1034.34

It was announced that Max Bice W7AEA is home
(cont. next col.)

from the hospital and doing very well and plans to be back to work at the office very soon.

Roy W7AZI read a letter from ARRL, QST announcing the Washington State Hamfest that will appear in the July QST. A copy of this letter went to all the clubs.

Dennis W7UBA reported the Hamfest is moving along nicely and that we will devote much of the time at the next meeting, July 8th, on Hamfest planning and hopes for a good turn out.

President Bob K7IND, chairman of the Field-Day, discussed the final plans for F-D and announced that he wanted all the logs turned in not later than July 22nd.

Doc W7OS read the rules on how the Silent Key Board will be governed and also read off the list of silent keys as prepared at this time.

Jerry W7BUN announced that Chris Jensen WN7MJK has passed his General Class.

Applications for membership, of Tommy S. Taylor K7BFX was read and approved.

There being no further business, meeting adjourned at 9:05pm. After the coffee break, we all enjoyed a very fine program on American Patriots by Bill Goodlow, WA7GWJ.

Respectfully submitted,

/s/

Bob Weightman WN7IPR

CLUB MINUTES 7-8-70

The regular meeting of the Radio Club of Tacoma was called to order at 8:15pm. by President Bob Gates K7IND, with the members present standing and pledging allegiance to the flag.

There were 27 members and 11 guests present.

There was no treasurer's report, due to the Treasurer, Len Goodwin WA7HHL, being on vacation.

A bill of \$9.63 for gasoline for field day was

Minutes. (cont.)

read and a **MOTION** made, seconded and **PASSED** to pay the gas bill.

President Bob reported that we made about 16,000 points on field day.

Chip K7VVF suggested the club petition the FCC for special call sign to be used for the Washington QSO party, during Amateur Radio Week, in September. **MOTION** made, seconded and **PASSED**, that the club make application to the FCC for special call and Chip was appointed chairman.

Roy W7AZI announced that in the past years, the club took on a project of a display during Amateur Radio Week and suggested that two complete stations, (one displaying the early day amateur radio stations and one of the present) be set up at the County/City Building. Roy was appointed to make the arrangements to set up these radio stations and Larry WA7JPC was appointed chairman to man the station at the County/City Building.

Applications for membership of Joseph H. Winter Jr. WA7IVO was read and **APPROVED**.

There being no further business, meeting adjourned at 8:40pm. and after the coffee break, we got to the business at hand in planning the final plans for the coming Hamfest.

Respectfully submitted,

THE BEST KIND OF -DX-

by W7OS

Those of you who read the **LOGGERS BARK**, will recall an article in the November 1969 issue, in which we reported making contact with K4UVH, Bert Noll, located in Hendersonville, Tennessee. In the article he had a picture of the early founders of our Radio Club of Tacoma, way back in 1916, in which he pointed out pictures of his father, Bertram Noll and his grandfather, both of whom were members of the club and then along comes Bert, K4UVH, a later generation of hams. It has been interesting to make these contacts for them and for us.

Our latest communications from K4UVH indicates that his father has been very ill, so we all join the Noll family with good wishes and our prayers for a very speedy and complete recovery for one of our founders, Bertram F. Noll.

We know that when Bert is able to, he will tell us more of what happened to them during these long many years when we lost track of them. Such as what happened to the grandfather Bertram John Noll?

K4UVH is working hard for his DXCC and also the Washington State QSO Party on September 12-13, 1970. This will give us an opportunity to again work K4UVH. (I think) We hope he will send us a frequency and time schedule, so we can hear how his father is recovering.

Again our best wishes from all the membership of the Radio Club of Tacoma.

New horizons in amateur radio will be opened through Oscar 6, now being planned by Amsat, the Radio Amateur Satellite Corporation. The satellite is to have an active life time of one year or more and will be usable by relatively unsophisticated amateur stations for DXing, contests, traffic handling, etc. You can take an active part in this exciting amateur program through membership in Amsat. Both club and individual memberships are available. For full details, write the Amsat Membership Committee, Post Office Box 27, Washington, DC 20044 BT

279
The first reciprocal operating agreement, between the United States and Costa Rica, was signed in September of 1964. Since that time, over 40 countries have ratified such arrangements permitting amateurs of one country visiting or residing in the other to operate their own stations there. The latest in this series of successes is the reciprocal agreement just concluded with Brazil, effective June 19. This updates the tabulation, as well as the special Canadian listing, appearing on page 73 of May QST BT

280
The FCC on July 1 acted on its Docket 18802, adopting a new schedule of higher application and license fees. This action was taken despite strong protests from nearly every radio service. For example, the ARRL opposition statement appears on page 80 of June QST. The new fee schedule becomes effective August 1, and is as reported on page 82 of April QST BT

282
All amateurs are invited to participate in the ARRL September Frequency Measuring Test, September 2. This FMT will be open to all amateurs and results will be tabulated in QST with average accuracy comparisons. Remember that the September 2 GMT date falls on the evening of Friday September 11 for most participants. Full information on this new FMT appears on page 68 of the August issue of QST AR

It has been brought to our attention that one of our younger members has graduated from Stadium High School with honors.

Chip, K7VPF, graduated in the top ten of a class of 450. He had the highest average for boys in the class.

Chip also received an elaborate slide rule, an Engineer's Handbook, the Faculty Phi Beta Kappa Award and an Elk's Scholastic award. He will enter the University of Washington in September to work for an E/E. Congratulations Chip on your hard won honors.

SLIVERS AND SPLINTERS

The Huntley's (K7CYZ) have returned from their vacation. Tanned a little, and all in one piece, but not their trailer. Ask young Scott how he likes rattle snakes?

Smitty K7ATD and xyl Rene are on vacation in Canada. (Bring your trailer home in one piece Smitty!)

Merl W7IKG is home for a stay from Hawaii. Planning on attending the fishing trip at Westport.

Cliff and Barbara (W7MFG & W7UYL) are on a two week tour up into Canada. They are no doubt, enjoying some of the nice weather that is elsewhere in the country.

Bob & Inez (W7RXS-W7RXT) have a new dog named Daisy. Cute dog but beware of leaving any shoes, socks or anything else movable lying around. You might find it burried in the back yard.

Emil K7GPK back from a trip east. Had to use all his skills to get back. Seems he wanted to get back but the car was fighting him all the way.

We are sorry to report the passing of a long time former member of the Radio Club. Ray Estep, W7LRF became a silent key August 7th just before press time.

JULY 1970

WESTPORT PICNIC

Remember August 22 and 23 is the picnic and fishing party at Warburton's, in Westport. Better get your name on the fishing list as the boat is nearly full. Call Ralph, W7COP, right away at R 2-0052 for reservations.

The meals are pot-luck and there will be plenty to eat. Games, hiking, clam digging and many other items of fun are scheduled. For those who can't have to get up early Sunday to go fishing, there are many new and interesting card games going on Saturday night. Even the fishermen get involved in the cards till late at night.

See you at Westport for a galla week-end.

NEW ITEM

Starting this month, the **LOGGERS BARK** will start printing the minutes of the previous month for the benefit of the out-of-towners and members who for one reason or another cannot attend meetings. This will keep the members posted, as to what is going on in the club during meetings.

FEED BACK

In the June issue of the "Bark" we reported that the club received a donation of a very fine code machine. The article was misleading, as to the donator of the machine. We want to correct this fact and give credit where credit is due.

The code machine was donated to the club by Anthony Christina W7JGW. Thanks to Tony!

"I'M LOOKING FOR ADVENTURE, EXCITEMENT, BEAUTIFUL WOMEN." CRIED THE YOUNG MAN TO HIS FATHER AS HE PREPARED TO LEAVE HOME, "AND DON'T TRY TO STOP ME. I'M ON MY WAY."

"WHO'S TRYING TO STOP YOU?" HIS DAD SAID. "I'LL GO WITH YOU."

LET'S ENCOURAGE EM

by W7OS

I guess my interest in sightless folks goes back a very long way and over many years. I have admired their courage, their cheeriness and their almost super human skills as they move about among those of us who by good fortune have our sight.

It has been my good fortune to become acquainted with many of our ham brothers, who have by some super effort, conquered the code, the technical know-how and have obtained their amateur license, but my friends that isn't the real problem, that is only the beginning, for I have seen them operate ham stations with such skill that I didn't know they were sightless until I had the privilege of having an eyeball qso with them.

I regret that my memory fails me when I would like to recite for you the names and calls of **ALL THOSE**, that I personally have had the privilege of knowing. Several in our modern days are; Dick K7AJT, Shorty W7EQJ, Sparky W7EEA, Les W7PJO, Pete W7CYR and Clay KL7BEK to name a few. These are to be commended, believe me.

Only a few years back our own W7FVY, Clyde J. Creswell, who became sightless in his later years, joined the ranks of silent keys. I had the rare privilege of being close to and helpful to Clyde. He thought so much of this, his Radio Club, that he left his transmitter (Ranger with braille markings on the controls) to the club, only to have it stolen from the club recently.

More recently, the club was called up by two women, Mrs. Freda Hoerre and Debbie Cook, who want to become hams and we are trying to help them. WA7HFG has loaned his code oscillator. K7CYZ has loaned his receiver, so that she can copy code practice, put on by Pete, W7LEC each morning. Pete has gone over to her home to help. Our Secretary, WA7IPR has written to ARRL for the packet of information available to the sightless,

BY-LAW PROPOSED

After due consideration, by the Board of the Radio Club of Tacoma, Inc. and upon their recommendation, the following new by-law was proposed on the floor of the club meeting on June 24th, during the regular scheduled club meeting. The following is the by-law presented to the attention of the members as per the present by-laws. The motion will be put before the club and voted on during the meeting on August 12th.

The **BARK** will endeavour to print the complete Constitution and by-laws in the August edition, as ammended and completed, including the proposed by-law, if passed.

NEW BY-LAW AS PROPOSED:

That a **SILENT-KEY MEMORIAL BOARD** be established and maintained.

That a plaque to each **SILENT-KEY MEMBER** of the Radio Club of Tacoma, Inc., to include, Name, Call (if any) and year deceased be imprinted.

Members appearing on the roster of the Radio Club of Tacoma Inc., at the time of becoming a **SILENT-KEY**, shall automatically be placed on the Memorial Board.

Any past member, who's passing is brought to the attention of the Board of the Radio Club of Tacoma, Inc., shall be placed on the **SILENT-KEY** Memorial Board.

Once a name appears on the Memorial Board (except by error) it shall never be removed.

ARRL BULLETINS

If you're planning portable or mobile operation this summer, a special ARRL form can be used to insure that you give all of the required information to the proper FCC office. Send your addressed stamped envelope to ARRL, 225 Main Street, Newington, Connecticut 06111 requesting Form S43A. Please indicate how many FCC districts you will be operating within. If planning to visit ARRL and WIAW during the summer months, note that regular hours are 8:30 to 4:00 EDT, Monday through Friday without appointment. Other times can be covered by writing and arranging for a tour. Printed directions are available without charge BT

NR 275

At the May 1970 ARRL Board Meeting, a motion was adopted that the ARRL Communications Department initiate a 160 meter band contest oriented to promote activity in this band of frequencies. Top band enthusiasts are urged to forward their ideas on dates as well as format for such a contest to the ARRL Contest Advisory Committee, as an aid to formulation of rules for this event. CAC addresses appear on page 62 of February QST BT

NR 276

At the conclusion of the June 27 through 28 ARRL Field Day, all participants are urged to report promptly to ARRL. Full information on summarizing results appears on page 60 of May QST. Logs and summary sheets must be postmarked no later than July 27 for QST listing. Photos of your setups identified with call, club name and transmitter class, as well as comments on your activity, are welcomed. Appropriate publicity material and message copies must be attached to your log for bonus credit. Address your FD entry to ARRL, 225 Main Street, Newington, Connecticut 06111 BT

NR 277

This year the ARRL National Convention will take place in Boston under the auspices of the Federation of Eastern Massachusetts Radio Clubs. The Statler Hilton Hotel will be Headquarters for the 3 day event starting September 25. Among the features scheduled are FCC examinations, exhibits, technical talks, a space communications session by AMSAT, a bus trip to ARRL Headquarters, as well as special programs on fm repeaters and the annual meeting of the New England DXCC. For further information see July QST or write the FEMARA, care of John McCormick, W1KCO, 572 Berkley Street, Taunton, Massachusetts 02780 AR

NOTHING IS PERFECT!

If anyone has come across the call WN6AFV (2), you are probably wondering why it is listed that way! It just so happens that there are two Novices that have been issued the same call by the FCC!!

WN6AFV (1) is a resident of Huntington Beach, his license doesn't expire until the end of this year, while #2 has a few days less than two years to go with his. The FCC has been informed and will probably blame this fiasco on a poor old computer. This is now standard operating procedure! No mention of the fact is made that the computer only does what it is told to do by a human programmer!

Meanwhile, Clark (1) has told Mike (2) to go ahead and use the call until the problem is untangled by the FCC.

The regular meeting of the Radio Club of Tacoma was called to order at 8:20PM by President, Bob Gates, K7IND with the members present standing and pledging allegiance to the flag.

There were 20 members and 3 guests present.

The minutes of May 13th were read and approved as corrected.

Checking acct. \$378.21

Savings acct. 440.08

F-D acct. 32.13

total \$850.42

Bills read; were the utility from City Light, oil bill from Western Furnace and Corp. fee. **MOTION** was made and seconded to pay same. **PASSED**.

Doc, W7OS, announced that, Clyde D. Abbott, W7EW, passed away May 17 and the honorary pallbearers were members of the Quarter Century Wireless Club and Charles M. Emigh, W7ER, underwent heart surgery.

Dennis, W7UBA, reports that the Hamfest is moving along ok but reminds the members to get their registrations in. Dennis also announced that the program for June 24th will be Gill Goodlow, who will give us a very interesting talk. More on that will be announced at the June 10th meeting.

President Bob asked for volunteers to cut the grass around the club house.

Chris, W7MJK, reports nothing new from the Boy's Club but that we are ready, when they are.

Ed Coles, K7CZM, reports on the fishing trip at Westport on August 23 and that Ralph Rawlings, W7COP, is handling the reservations and that 7 names on the list but no deposits; so get that \$5.00 deposit to Ralph if you want a spot on the boat.

President, Bob K7IND announced that there were three members to be added to the special membership list. They were Pvt. Tim Blair, Merl Chavis and Sgt. Dick Hazelmyer. **MOTION** was made and **PASSED** that the club add their names to the list of special members.

President Bob asked for a committee to look over the By-Laws for possible changes or additions such as new members and bequests. Think it over!

Applications for membership of Gary Kohtala and Marvin W. Wheeler were read. **MOTION** was made, seconded and **PASSED** to accept Gary and Marvin as members.

There being no further business, meeting adjourned at 9:15pm.....Sec. Bob Weightman

SLIVERS AND SPLINTERS

Seems everyone is off on vacations. Marge Hazelmyer off to Spokane for a week or so. Donna Dightman, xyl of Steve K7SSC, took the Jr. op and went to Montana for 2 weeks. Hope they all have good trips.

Bob Weightman, WA7IPR, contemplating a trip to Hawaii in August.

Inez, W7RXT, is spending her days, staring through her telescope. Seems there is a neighbor who likes to swim, a-la-natural. Both Churchwards just returned from their vacation trip to the south.

There will be a new call sign, out of Hawaii. Margie, K7AMJ, is leaving for the Islands for one week. She is taking 3 big suitcases but only one dress and a few unmentionables. However, there will be a new k-w station on the air shortly, when O.M. Merl, W7IKG, fires up the rig.

Maxm W7AEA, is back home recovering from an operation and doing fine. His doctor, Del W7JG, is making him slow down for awhile. Max, of course, is ready to go back to work.

Joe, W7IG, raking hay on the runway to make ready for the Club's visit on field day. Running the tractor in amongst the members's cars, who were busy putting up antennas and checking out rigs.

Gene, W7BIV, talking with Dick, W7RGD, trying to figure out a way to use Dick's gold dredger to dredge out the harbor at Gerie's place so that he can moor the boat in front of his home.

The Hood's household getting back to normal after the recent wedding of Bonnie. Beryl K7NFG, busy moving several yards of dirt and gravel getting ready to put in a new driveway along side of the house. LaVerne, K7NKZ, busy tying up ends, getting ready for the camping vacation in July.

Cliff, W7MFG, out on the C-D bus with Smitty, K7ATD, answering another 2-11 fire at the old Pagoda at 38th and South Tacoma Way. More smoke than flames on this one and of course, the bus had to be parked directly in line with the smoke.

Hunt, WA7AKW, back at the club house meetings in June after a long vacation trip with Pinky. Good to see you back Hunt. Will be looking for you at field day.

Steve Moreland back to club meetings after a stay at the local hospital.

Dennis, W7UBA, busy winding up the paper work for the Hamfest. Took time out to show up at the work party at Joe's for the antenna work party.

Don't forget, this year there will be meetings all during the summer months. Keep up with the activities and don't miss any of them.

MOTHER'S DAY BREAKFAST

Quite a crowd turned out for the annual Mothers
ay Breakfast at the Radio Club's clubhouse. 60
people were fed a delicious pancake, bacon and egg
breakfast.

All mothers were presented with a beautiful
message, made by Ethel Devish, W7WLX.

Thanks to the willing cooks and dish washers,
it was really great. KP duties were handled by
by W7AZI, Smitty K7ATD, Scotty K7CYZ, Bob K7IND
and Ed K7CZM. The mothers really appreciated it.

WESTPORT FISHING TRIP

Now's the time to sign-up for the fishing
trip at Westport. Ralph, W7COP, is taking the
reservations this year, so call him now to get on
board. You will be required to make a \$5.00 de-
posit now and the balance paid at the office of
the charter boat on the morning you go out. The
deposit will have to be in Ralph's hands by June
5th. There are only 13 spaces available on the
boat, so get your reservation in now! Call Ralph
at BR 2-0052.

NEW SWEDISH MOVIE IS SO SICK IT HAS BEEN RATED R.

SMITTY, K7ATD, WITH THE C-D BUS DURING THE DAFFO-
DIL PARADE.

CLUB EQUIPMENT NOTICE!

Jerry, W7BUN, is the custodian of the club's
equipment and he would like to know, who has our
variacs and other club equipment. The gear was
loaned, with the understanding, that it would be
returned within a reasonable time. They have not
been returned at this time, so check your ham
shacks and let us get this equipment back or at
least on record, where it can be found. The clubs
equipment is over-due on inventory, so help
Jerry out by letting him know.

NR 270
Effective April 26 W1AW will change to Eastern Daylight Saving Time. The full operating schedule for the summer month appears in May QST. Newly revised copies of the printed information will shortly be available without charge from ARRL, 225 Main Street, Newington, Connecticut 06111. Please enclose an addressed stamped envelope to expedite your request. The ARRL National Traffic System will, as usual, operate one hour earlier by GMT effective 2300 GMT April 26 BT

NR 271
The ARRL Board of directors in annual meeting May 1 and 2 directed the filing of strong opposition to restrictive FCC proposals on VHF repeaters. The League will request rules permitting maximum privileges such as chain linking, code access optional rather than mandatory, crossband operation permitted, elimination of restrictive subbands. The board discussed all aspects of radiotelephony subbands on lower frequencies and decided it was not in best interests of U.S. amateurs to propose expansion at this time. The board established a permanent structure of advisory committees, continued the present two on contests and VHF repeaters and announced a new one on dc matters. The VHF repeater committee in particular was commended for outstanding work on FCC rules proposals. Family and blind membership fees were raised to two dollars to more nearly represent true costs. W3GKP and W4HHK jointly received the ARRL technical merit award for outstanding achievements in moonbounce communication. National convention was approved for Labor Day weekend 1972 in Long Beach Calif. Studies in depth were ordered on several additional matters, such as reduced teen age membership fees, W1AW daytime code practice and bulletins, a League station on West Coast, payment for articles in QST, retired staff employee pensions, a series of articles on construction of hand held emergency car and interference to solid state home entertainment devices. A list of manufacturers supplying free high pass tv filters will be assembled and published. Subjects discussed but rejected were a move of W1AW frequencies, a propagation column in QST, mandatory meetings of the board twice yearly, and a promotional book aimed at teenagers which the board felt needed further study. Directors ordered the sponsorship of a 160 meter contest and change to 175 the current 100 miles limit for affiliated club aggregate contest scores. Charles G. Compton, W0BUO was newly elected as first Vice President and incumbent W.M. Groves, W5NW, was given a standing ovation for his 5 years of dedicated service to ARRL and made an honorary VP. Robert Thurston, W7PGY, was elected to the vacancy on the executive committee. Carl Smith, W0BWJ, is a new additional Vice President and Gilbert L. Crossley, W3YA, a new

Honorary VP. All other officers and executive committee members were reelected. Highlights of the meeting will appear in June QST and full minutes in the July issue BT

NR 272

A group of amateur stations at various colleges calling itself the student informational network is operating on 75, 40 and 20 meter voice. Some stations in the network have said that their activity is with the approval of ARRL and FCC. This statement is totally false repeat false. As indicated in the February 1969 QST editorial the League deplores the use of amateur radio for this kind of activity. At the same time, the league points out that the malicious interference which has occurred as a reaction to the student activities is patently illegal and equally undesirable. Nevertheless the questions raised are purely regulatory and thus the matter is entirely within the jurisdiction of FCC, which is monitoring the activity BT

NR 273

In connection with FCC Docket 18803, proposed VHF repeater rules, the Commission has extended to June 15 the deadline for comments at ARRL request. The deadline for reply comments is similarly extended to July 7. The text of Docket 18803 as well as the report of the ARRL VHF Repeater Advisory Committee appears in the April issue of QST AR

FIELD DAY OPERATING NOTES

By K7VPF

I have been asked by several club members to write an article, based on the material I presented at the May 16th meeting. My talk concerned itself, primarily with cw procedure but many of the points I will bring up carry over into phone operating as well. The object of all procedures is to make the most contacts and the way to do this is to get a big, steady pile of stations after YOU!

The first consideration, in cw operating in a contest, is the speed at which you send. There is a common misconception that the faster you send, the more qso's you are going to make in a given time. This is quite often incorrect. If you have a very large pile-up of good operators after you, it may be possible to crank away at 40 to 50 words per minute and work up to 2 or 3 per minute. This is most often observed in dx contests with big-signal stations such as KH6IJ, EØGEN, ZD8J and others, who will have quite a following. It is highly unlikely that dear old W7DK is going to have a pile several hundred deep develope at any time. The major problem is that once the excitement of the first few hours has passed, there is the long haul of the not-so-quick or inexperienced operators, who make up the major portion of our contact volume. Yet I have gone around to a few of the operating positions at DK and have seen the boys sending cq after cq with the bug or keyer going 50 to 55 words per minute with no replies and they can't for the life of them understand what is wrong with the rig or the antenna. The real problem was not in the equipment at all but in the simple fact that they were sending so darn fast that they were scaring quite a few potential qso's away.

Vic Clark, W4KFX, has a code wheel, which pounds away a steady, almost monotonous cq'ss, cq'ss,...and if you have ever heard him in the sweepstakes contest you know what a following he keeps. If you can work one to two contacts per minute and keep them coming at 25 wpm, you're not going to take a back seat to anybody!

The contest, itself, can be started a bit early with the help of a little trick, which has proved very effective for me in past contests. Fifteen minutes before the start of the contest, begin a QST at about 20 wpm right in the busiest part of the band. For field day such a message might read, "QST QST QST de W7DK/7 W7DK/7 BT. The 1970 ARRL field day contest begins in 15 minutes BT Pse stand by on this frequency for station W7DK/7 of the Radio Club of Tacoma Wash AR qst qst....." This tactic has a tremendous effect of arousing interest. Then about 15 seconds before the start begin "ok nw cq fd de W7DK/7 fd k." There will be at least ten or fifteen stations waiting like hungry vultures to gobble you up!

(cont. next column)

F-D (cont.)

The required exchange in the field day contest is the station location. This is usually accomplished by exchanging ARRL sections but the name of the town, county or Country, if it is a dx station, is fine.

So now that the contest has been going 5 seconds and you pick out W4ABC calling you. You send "W4ABC Wash K". He will probably give you a similar short exchange (with his own section) but he may give you an RST and ask for a report. You then send a 5nn (for 599) and then immediately go into a "cq fd de W7DK/7 fd k". Whether he received the report or not matters very little, since the rst is nonessential information and by going into the cq, you will probably get another station calling you, if not quite a few, since many will stick around for a second shot at you. Here, then is a capsule summary of a good field day exchange:

"cq fd de W7DK/7 fd k"

"W7DK/7 de W4ABC k"

"W4ABC wash k"

"r 4r Tenn k"

"tu cq fd de W7DK/7 fd k"

I prefer to break into a cq rather than a qrz for several reasons. For one thing, qrz is a considerable longer word group to send than cq. Second, a cq call has a greater drawing potential on cw than does qrz. I think the opposite is true on phone. Again, the secret is not in the speed which you send but rather in the quickness of your operation. Many will argue on the basis, that qrz means, "who is calling me?" which might be an optimistic way of saying "come and get me!"

So now that 15 minutes have passed and you've worked a good string of 20 or 25 stations, when you are suddenly greeted by silence following your cq fd. Grab that offset tuning and look quickly to see if (or where!) someone is calling you. If you don't hear anything in about 5 to 8 seconds, grab the keyer and start up a 3x2 cq fd and if nobody replies to this, it's time to qsy. This brings us to another important facet of contest operating-working the band. To make the most effective use of a band opening, a technique known as "exposure," which simply means getting your signal heard by as many people as possible. To use 15 meters as an example, I would probably make my qst and begin the contest on about 21.035 MHz or right in the middle of the activity. If and when that frequency goes sour, I would then move up the band 10 KHz to 21.045MHz, find a spot with less than 5 stations on top of it and hit the switch to start the cq machine. In doing this, I have exposed myself to a whole new set of stations huddling around 21.045 MHz and I ought to be able to work a good string. When it gets slow on 045, I'll go to 055, etc., until I run out of activity. When that happens, I go back down the band and start another sweep, 5KHz off from where I started.

(cont. next page)

F-D (cont.)

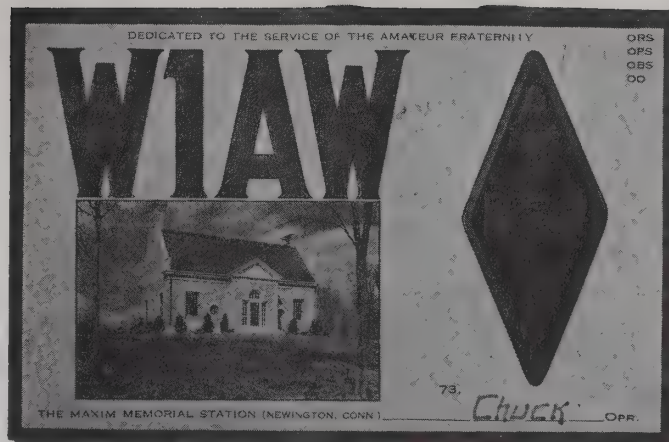

Since I began on 21.035MHz, I would go down to 21.030MHz to start my second sweep and then working my way back up the band in 10KHz increments. In this process, I will have covered every 5KHz of the band. Then it's back to 21.035 and start the process all over again. Remember-call cq to get the station coming at you-don't waste time by calling them when the band is good.

A bit earlier I made mention of a cq machine. Rex, W5QQQ, KA2RM, etc., has fixed up a very simple means of keying the transmitter with the output of a tape recorder. I highly recommend such a device, if power drain considerations will permit. A phone a cq off of a tape recorder is of great benefit. Anyone, who was in the 1969 phone sweepstakes, knows how maddening "cqss cqss ss W5Queen Queen Queen portable seven.." became! It is really amazing what can be accomplished in the time that the tape is drumming up business and I think you should all consider it seriously. Talk to Rex or me for details.

One more item, which I found appalling while going through last year's logs, was the fact that many of the bands, which were open at night, were unattended! Fifteen meters was in until 3:00am, so I know 20, 40 and 80 were capable of sustaining communication. If the band appears to be flat, swing your antenna if possible and put out a directional cq - a cqueu was of tremendous benefit to me last year when I was convinced the band was dead. There are thousands of Japanese, Europeans and other dx stations available during the contest and they can be enthusiastic about working a W7! So don't shut down, just because 2's have disappeared; if you need sleep, get someone else to fill in for you but, except in hopeless situations such as 10 meters, at night W7RM was heard in JAL at midnight and worked at midnight Asia time, so even 10 may yet be kicking! Keep that signal on the air calling cq, even if you only work 5 or 10 stations per hour.

I hope that these suggestions will be of benefit to many of you. W7IG has a superior radio location and we ought to tear up the rest of the United States!

LETTERS RECEIVED BY CLUB

The following two letters were received by the Club's secretary:

919 So. Lawrence
Tacoma, Wa. 98405
May 4, 1970

Radio Club of Tacoma
1249 So. Washington

Re: Gardners Paradise Days 1970
Dear Sirs:

This is to thank you for the very fine job the club did at the Gardners Paradise Days Entertainment. Much of the success of the program rests with this kind of help.

Very sincerely,
/s/
Ted Magnusson, Program Chmn.
Gardners' Paradise Days

Tacoma Washington

WOMEN'S BOWLING

The women's bowling league had their roll-off on May 12th. None of the radio club girls came in 1st or 2nd but we won our share of trophies.

Ethel Devish, W7WLX, won high series handicap with a 706. Lyn Asplund won high game scratch with a 225. Ethel also won the achievement award.

The 88's team won last place. Team consisted of Ethel Devish, Vivian Huntley, Verna Ryan and Margie Chavis. Their trophies read "We Tried."

Marge Hazelmeyer and Margie Chavis won money for high series and high game in the roll-off.

Hope to see some of the club members wives out there next season.

COMING SALMON BAKES

The 9th annual Salmon Bakes, at Owens Beach, will be attended by the Radio Club of Tacoma, who furnish the public address system. The schedule calls for the 4 successive Wednesdays, July 15, 22, 29 and August 5. Anyone wanting to help on this public service job, contact Roy, W7AZI.

Be sure to take in a few of these affairs, if not all of them. The meals are delicious and the entertainment is superb. -- Don't forget, July 15 is the first night.

A.R.E.C.

Check-ins are up. Looks like it is going to be a good summer with lots of activity, in spite of vacations and summer picnics.

Thanks again for all the check-ins and we are listening for new calls all the time.

...LaVerne K7NKZ

SLIVERS & SPLINTERS

Bob Thurston, W7PGY, Northwest Director, has been appointed to the ARRL Executive Committee.

Mrs. Stan Warburton has invited the Radio Club to Westport this summer for the annual picnic and fishing trip. Thanks Greta.

Dwayne, K7KSZ, has loaned the club a record on Amateur Radio for the blind. Also donated to the club, is a code machine in excellent condition.

It is with regret, we report the passing of Del Kohler's (W7JG) mother and Clyde Abbott, W7EW. Clyde was very active in amateur radio and a member of the Quarter Century Wireless Club.

The Keselburg's, K7MQJ & XYL, have a future YL op-- a new baby girl. Congratulations Dick & Gloria.

Merl, W7IKG, in Honolulu Hawaii. Not on vacation but working. Job is supposed to run until August. Aloha nui Merl.

The Devish's, W7AZI & W7WLX, back from a short trip into Idaho. Took the camper, of course!

Verna Ryan back from a trip to Reno. Didn't break the banks but paying all her bills with nickels now.

Slivers (cont.)

The Churchward's, W7RXS & WURXT, off on a trip to Arizona in their new camper, now that the bowling season is over.

The Hood's, K7NPG, K7NKZ and Rusty, and Dick W7RGD and brother Bob and family off on a camping trip to search for that elusive gold stuff. Dick has a new powered sluice dredge to try out. The Hood's are taking time out from their preparations for the upcoming wedding of daughter, Bonnie in June.

Emil K7GPK and family getting ready for the graduation exercises of number one daughter, Kay, in June.

John, K7CZF, has plenty of application blanks for the coming Hamfest. It's later than you think and suggest you contact John at your earliest convenience, if you don't want to miss out.

Hank, WA7HFG, is now using his new post office box number for all his correspondence. Since he obtained his amateur license, he has had his request in to the post office for the box. The box number? 73 of course!

Scotty, K7CYZ, loaned out his new trailer to daughter and son-in-law Glenn for a vacation trip. Now Scotty doesn't have to worry about putting the first dent in it. You guessed right.

Jim, W7BSW, getting ready to work with the Boy's club, selling fireworks in their annual stand. Going to be available this year for F-D Jim? We need your help.

Roy, K7USF, sporting a new Mustang.

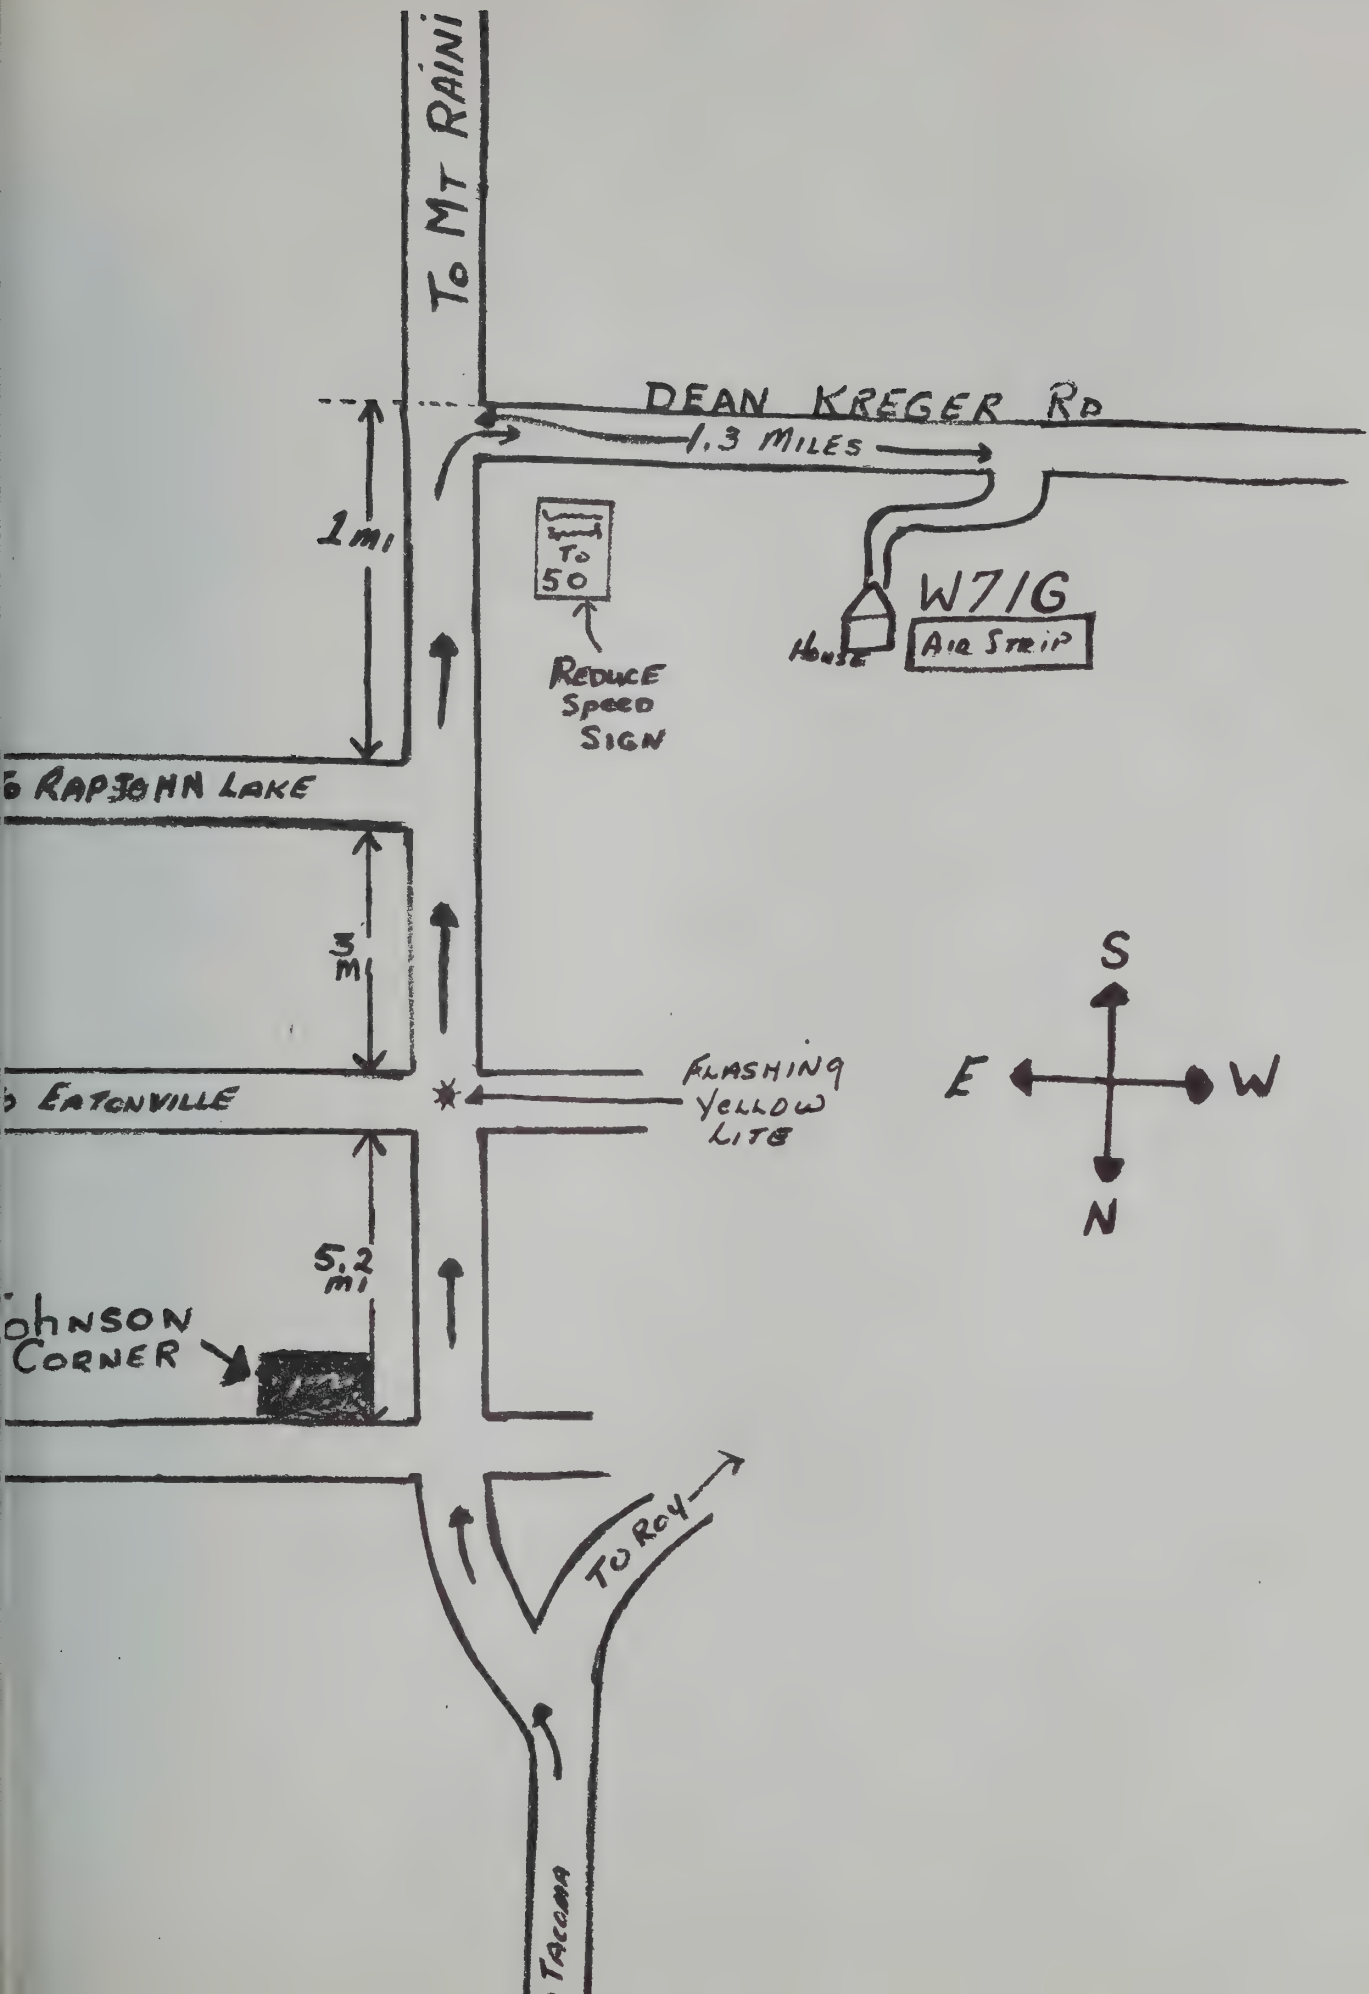

Cliff, W7MFG, helping W7RGD by drilling a hole in Dick's trailer for an a.c. outlet. All the time during the drilling, Cliff was mumbling some unkind words about a certain female amateur in the club, who was not helping him during the final play-offs at the bowling tournament. He missed out on the big pay-off by one pin.

Ralph, W7COP, working on the boat, getting it ready for this summer.

Thelma Rohrer vacationing in New York. Going to visit with Bill W7ZFY. (Currently using W2AIR)

Jerry W7BUN and Len WA7HHI having troubles with Len's hook-up connector on the pick-up, while trying to hook it up to the club's 10kv generator. Moved the generator from the State Patrol's vsi lane to Lens place, to check it out for F-D.

Happy vacationing to all.

EDITORIAL

Our club was extended an invitation by the Northwest Boy's Club to assist them organize a ham theory and code class. These fellows are in the 13 to 18 year old group. This is a real opportunity for the club to really perform a public service. It is a program that the C.Bers cannot take away from us, since the boys want to become radio amateur operators.

This will be a large order for the club, that won't be left to just a few. Every member of the club should give as much time as possible and then a little more to be sure the project is a success. The Boy's club needs help for the boys, who cannot afford the cost of tuition to learn our hobby. They need help to demonstrate to the boys how to set up and operate a ham station.

So to repeat, this is a golden opportunity for the Radio Club of Tacoma to gain recognition.

Push - Rush - Push.....Editor

CLUB BREAKFAST

The club voted to have the annual Mother's Day breakfast on May 10th., at the club house. Breakfast will be served from 9am till noon. All members, Grandmothers and wives of members will be treated with a free breakfast of pancakes, bacon and eggs with the trimmings. A fee of 50¢ will be charged for others.

As usual, the men of the club will cook, serve and do the dishes in order to honor the ladies of the club. If you want to help out on the work party, please contact Roy, W7AZL. It doesn't take a big crew but if you want to get in on the fun, be sure to let Roy know, so that he can arrange it so that everyone, wanting to participate, can get a chance.

NOW YOU BELIEVE YOU UNDERSTAND WHAT YOU
THINK I SAID - BUT I'M NOT SURE YOU REALIZE THAT
WHAT YOU HEARD IS NOT WHAT I MEANT!

FIELD DAY REPORT

The field day preparations are coming along without any problems, so far. The time period has been voted on and decided by the club. Location has been set for Joe's, W7IG and the food committee is rolling along as usual.

Any member, who has been in charge of a band or worked on a specific band in the past years and wants to sign up for the same, must contact the President before May 27th, to be assured of working the same band and mode this year. No one will be turned down to operate on F-D, regardless of whether he has worked before but you must notify the President for a specific band. After May 27th the bands will be up for grabs.

The sign up board will be at the club house at every meeting before field day so why not come to meetings and look the board over and put your name or call on the board. Remember, you need not have a call to operate on field day. You can log on the dupe sheet, help with the leg work and antenna erecting. To have a successful field day score it takes much more than just beating the key or yaking on the mike!

See you at the sign-up board at the clubhouse, next meeting.

DOCTOR: "I CAN'T SEEM TO FIND THE CAUSE OF YOUR SICKNESS. FRANKLY, I THINK IT'S DUE TO DRINKING."

PATIENT: "IN THAT CASE I'LL COME BACK WHEN YOU'RE SOBER."

Smith PFC Bruce Reali Vivian Huntley
(picture by Madigan Public Affairs Office)
Madigan General Hospital, Public Affairs Office
Release April 8, 1970

I'LL BE HOME SOON----Mrs. Rene Smith, left
Mrs. Vivian Huntley of the Tacoma Radio Club
Auxiliary record PFC Bruce J. Reali's message to
folks back in Ketchem, Idaho. The radio-
gram was sent out later in the evening, on March
when the amateur radio club went on the air
broadcasted the message to his hometown. Air
Sergeant Richard Hazelmyer hosted the ladies
their rounds of the Madigan General Hospital
recording radiograms of convalescing
patients.

The Radio Club's Auxiliary has been active
Tuesday afternoon at Madigan, as you can see
the above picture and article from the Madigan
General Hospital, Public Affairs Office article.
The ladies of the auxiliary visit Madigan
Hospital and take messages from the patients,
which are later put on the nets for traffic hand-
ling by the club's net members. Also active in
this program but not in the picture or mentioned
in the article, are Margie Hazelmyer, Donna
Huntman, Ethel Devish and Mae Anderson.
The club owes the ladies a big thank-you for
providing the contact work for the club in this worth-
while project. We thank you and I'm sure the
patients do also.

RUSS CHRYST W7ATB

It is with deep regret we must report the
death of a long time member of the Radio Club of
Tacoma. The BARK learned of this just as we were
going to press.

Russ was born in 1893 in Leroy Illinois. He
moved to California in 1910 and there he got
interested in electronics. This was back in the
days before licenses were issued.

He came to Washington State in 1917, joined the
army and took a wife. After w.w.1 he decided to
take up residence in Washington, where he was
discharged from the service in 1919.

During w.w.2 Russ taught code and theory at
Clover Park School.

Russ passed away on April 24th, after several
months of illness.

Russ will be missed by the club, young and old
alike....73

The amateur radio satellite Australis Oscar 5 has reached the end of life. All amateurs who received the satellite's signals are urged to send a report to AMSAT, Box 27, Washington, D.C. 20044. Each report will be acknowledged with an attractive QSL. Of special interest are reports of the 2 meter signal after February 13, and reports of the 10 meter signal after March 8, to determine who was last to hear the signals. Satellite observations during the March and 9 solar eclipse and auroral activities are also sought BT

NR 266

A bulletin transmitted in February advised that Western Union facsimile equipment would soon be available through selected affiliated clubs. Late advice from W3PYW who is handling this for ARRL indicates WU is reorganizing surplus disposal channels causing a minor delay. However, both fax and teleprinter gear will again be released in the near future. Meanwhile W3PYW is firming up appropriate arrangements with selected clubs to assure equitable distribution. Please do not write or call ARRL or W3PYW. When arrangements have been completed another bulletin will be issued with further details. It is hoped that an article on conversion of the available desk fax units can be run in an early issue of QST BT

NR 267

Attention DXers. A reply has now been received from the Radio Sports Federation of the USSR furnishing a breakdown of the new UK series of call signs in use by Soviet club stations. A UK1, 3, 4, 9, 0 followed by any letter, a UK2F, a UK6A, E, H, I, J, L, P, U, W, X, Y; indicates Russian SFSR. A UK2A, C, I, L, O, S, W; White Russia. A UK2B or UK2P; Lithuania. UK2Q, UK2G; Latvia. UK2R, UK2T Estonia. UK5O, Moldavia. UK5 followed by any letter except O; Ukraine. UK6F, O, V; Georgia. UK6G, Armenia. UK6D, C, K; Azerbaijan. UK7, followed by any letter, Kazakh. UK8H, Turkoman. Radio Club of Tacoma
1249 S. Washington St.
Tacoma, Washington 98402

Dear Mr. Secretary:

I have certainly enjoyed receiving the Loggers Bark, but recently my address has changed.

I am now starting my second and last year of active duty with Uncle Sam's Army. When I get out, I'll go back to Massachusetts for a few more years of school and then perhaps, I'll be able to get back to GOD'S country. I expect to get a German call in about a month.

Best regards to the Radio Club. I wish I were there.

Please correct my mailing address to read:

DON'T YOU BELIVE IT!

"The check's in the mail."

"I was just sitting in the school bus minding my business."

"24 easy payments."

"I haven't got a thing to wear."

"Plenty of seats in the rear of the bus folks."

"I just smoked my last cigarette."

"The light was green."

"Sure I voted for him."

UHF DISCUSSION

During the last meeting of the club, in April, a further discussion of the club's activities on the u.h.f. bands was held.

It was decided that the 6 meter band would not be dropped, but that the 2 meter band was more suited to the club's needs. It was stressed that the club is losing out to the C.B.ers on many of the cities functions, where communications were needed and also in C.D. activities. This was due to a lack of portable equipment. Smitty, K7ATD, advised previously, that if the club would settle for a band and frequency to be utilized, he would like that the Tacoma C.D. authorities would cooperate in getting the necessary crystals and equipment to work with the club's members.

A motion was made from the floor, seconded and passed that 2 meters FM. would be used for most of the portable equipment. A tentative frequency of 146.64 was picked to set up on for current activities.

Further discussion was held on the availability of equipment to operate on 2 and numerous questions came from the floor as to prices, operating equipment, conversion data, schematics to build, etc..

The committee assigned to this matter, will be making further reports on any further changes or developments.

POET'S RETREAT

THE RADIO OPERATOR

By WA7JPC

The man of radio is tried and true,
Must come to work though he may feel blue
From lack of food and very little rest,
In time gone by passed his endurance test.
His operating procedure, a set routine
Is preserved from boredom as is easily seen
By the communications messages which are sent
Be sure he knows exactly what is meant.
And does his best to fulfill the duty
Of his trade.

He starts with transmitter
And into mike transmits with lights a flicker
His intent to beam to Africa did aim
To call CQ on fone to play the game
And listen to the game
And listen to the static oh so loud
To signals which are always very weak
But lo! a signal from so far and bleak
A place as Liechtenstein
He throws to talk to the country before unheard
And hitch up to prepare a new friend
To make today.
Pity, his fuse just blew.

A.R.E.C.

With the fishing season open and summer near at hand, we know that a lot of us will be out camping or traveling somewhere every chance we get, so keep your mobiles in working order and be ready for any emergency that may come up.

We will be taking check-ins all through the summer months as best we can. Don't forget the first and third Wednesdays at 7:30pm. (0230z)

SLIVERS AND SPLINTERS

Congratulations to one of the club's newer members, John Wilkinson on obtaining his Novice License during April. No call letters received at press time.

Del Kohler, W7JG, has just upped his DXCC award certificate by 2 more call areas.

Dick Hazelmyer enroute to Saigon with the Airforce at press time to be stationed there for some time. Dick has promised the BARK to send us some news and articles from there.

Len, W7ZZL, showed up for work at the Daffodil parade with a new 35mm camera. Got some good color shots of the parade along with Dick, W7RGD, who has a new Minox camera. Len's 5 watt pack-set was used for the 2 meter link on the bus during the parade. George, WA7CSF, couldn't make it to the parade but loaned his pack-set for use and it got a work out.

Doc, W7OS, making arrangements with Max, W7AEA, for processing some pictures for the club's members pictures.

Smitty, K7ATD, gave report on the civil-defense bus activities during the month of April. With 2-11 fires, parades and activities up at the field house, he has been kept busy.

Ralph, W7COP, has completed the fence around the QTH. How about trying to load-it-up as an antenna Ralph? At least it would keep anyone from leaning on it.

If Rex, K7VCX, owes you a QSL card, now is the time to get it. Just had the BARK print up 500.

Beryl & LaVerne (K7NPG & K7NKZ) daughter, Bonney has recently won a Danforth Graduate Fellowship for advanced study for the Ph.D. degree. This will provide tuition and living expenses for up to 4 years of study in preparation for a career of college teaching. Congratulations to Bonney!

Don't forget the Hamfest meetings at the club house on the first Wednesday of each month until July.

There are several members who have not paid this years dues to the club treasurer. So if you meet a member of the club, you might mention to get their dues in and keep active in the ham fraternity. As of this month, all delinquent dues members will NOT receive a copy of the Bark. The rate has not changed over the many years. Still \$6.00 for full membership and \$1.00 per each family associate member. Students attending school up to and including High School, have full membership for .300 per year.

Dave, WA7ASV, home and out of the army. Nice to have you back Dave.

While listening on the bands have overheard several hams making plans to attend the Hamfest in Tacoma. Have you made your reservation yet?

Don't forget to attend meetings!!!

SKAGIT HAMFEST by W7BUN

The Skagit Hamfest will be Saturday, April 11th, at Bryant, Washington, 9 miles north of Arlington. In addition to the usual transmitter hunts, swap shop, dinner, after-dinner program and many fine prizes, there will be a tour of the million watt Navy radio station at Jim Creek. All those going on this tour must be at the Bryant Range Hall by 11:00 o'clock. Tickets are \$3.25 for the dinner and all activities. (\$2.25 for children under 12-dinner only) There will be no tickets sold at the door.

Contact Jerry, W7BUN, at TH 5-7652 for tickets or information. The Skagit Hamfest is always a successful affair - let's all attend and pick up some ideas for our own Hamfest this year.

COMING PROGRAMS by W7UBA

April 8, 1970

Field Day discussion and preparation.
What should our objectives be?
We've been close to the top (second place) before, tops in our class and tops in the seventh call area. Shall we go for broke? What do you think? Think about it and come prepared to discuss it.

April 22, 1970

Les "Lucky" Whitaker, W7CNK/KL7GGZ will tell us about his VHF activities including the very first 20 MHz. earth-moon bounce contact.

Lucky will bring some equipment to show and play some tapes of moon bounce signals.

TO GET A PICTURE OF HOW MUCH A BILLION DOLLARS IS, TRY THIS: IF A COMPANY STARTED IN BUSINESS BACK IN THE YEAR 1 A.D. THAT WAS CAPITALIZED FOR A BILLION DOLLARS, AND THAT BUSINESS LOST \$1000 A DAY SINCE ITS FOUNDING, THE COMPANY WOULD STILL BE IN BUSINESS TODAY AND WOULD NOT GO BROKE UNTIL 800 YEARS FROM NOW.

WARREN GREEN
CLUB SPEAKER MARCH 11th

DUES ARE OVERDUE

Some of you will be receiving this copy of the LOGGERS BARK, even though you are overdue with your club dues. This is your gratis copy. Next month, there will be no copy so if you want to keep up with the club's activities, get in touch with the treasurer or better still come to the next meeting.

SCOUTS CONTACTED

Several members of the club met with the Boy Scouts at the Fawcett School on Monday the 16th of March and gave a demonstration of ham gear in operation. The program was well presented and the boys enjoyed the program. The Scouts were divided into groups and will visit the hams at a later date to see a station in actual operation.

They were also informed of the radio courses being conducted at the club house, every Saturday afternoon.

REVOLUTIONARY NEW DEVICE ANNOUNCED

The sensitivity of your receiver or receiver section of your transceiver can now be doubled by the installation of an inexpensive Wave Intensifier (pictured below). The complete kit sells for under \$10.00, and can be installed in less than 30 minutes. It will be available at your local radio supply house April 1st.

SKATING PARTY

by Scott Huntley

There were blisters and bruises on some Radio Club members, after March 19th. That was the day the club held it's annual skating party and pot luck.

There was a lofty crowd of fifty at the club house and most of the crowd went to the skating rink and for about 3 hours, everyone enjoyed their spills, bumps and bruises.

NR 262

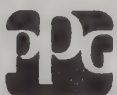

The Federal Communications Commission has issued notice of proposed rulemaking, docket 18,802, to raise application and license fees so that its entire budget will be covered by revenues from licensees. League Lines in November 1969 QST gave advance warning of the possibility. Under the proposals, amateur application fees would rise to nine dollars for new, renewed or upgrade licenses, four dollars for modified licenses and 25 dollars for special call signs. Citizens radio service application fees would rise to 19 dollars along with taxicabs, etc. but commercial radio operator fees would stay where they are now. A new television station license could, however, cost as much as 50,000 dollars. Comment deadline is April 20 and reply deadline May 11, 1970. ARRL members wishing to express a view on the docket should be in touch immediately with their respective directors as listed on page 8 of QST. Further information will appear in the April issue BT NR 263

FCC has issued a notice of proposed rulemaking governing amateur repeaters above 50 MHz. Key features include relaxed logging of day and time period, technical and operating conditions, automatic identification at intervals of 15 minutes or less; whistle-on or other coded access; 600 watt input; no cross band, chain repeaters; multiple outputs; licensee must monitor and control repeater directly or by radio. Proposed channels, subject to change after comments by interested amateurs, are inputs 52.5 - 52.7, 146.3 - 146.6, 223.1 - 223.3, 447.7 - 448.9 and outputs 53.0 - 53.2, 146.9 - 147.1, 224.1 - 224.3, 449.1 - 449.3 and above 1215 MHz. Comment deadline is May 15. More information will appear in April QST BT NR 264

Attention Canadian amateurs. In connection with the Australis Oscar 5 amateur satellite experiment, third party communication has been authorized between Canadian amateur stations and Australian amateur stations on matters relating to satellite experiments. These arrangements, which are effective immediately, will continue for a period ending four months after the satellite ceases to transmit. The two meter beacon of the satellite has ceased transmissions due to low battery power. The 29.450 MegaHertz beacon is now turned on for continuous operation. Modulation of the 10 meter signal has been much lower than nominal. Details of the launch will appear in the April issue of QST AR

C-D REPORT ON ACTIVITIES

by K7ATD

Again this year the C-D bus has been asked to be the communication center for the Daffodil Parade on April 11th. As we have combined communications with the Tacoma P/D, fire dept., all city hospitals, water dept., light dept. and ham band and citizens band, it makes an ideal headquarters unit for the parade. This year, as in the past, we will martial the parade on one frequency, police the parade on another frequency, handle emergency and police coordinating communications on the police frequency and be on stand by on the fire frequency. Much help from all amateurs is needed as operators and messengers. The C-D bus will be positioned at the start of the parade at 1st and Stadium Way. This year we will have the cooperation of the Webb-Foot Jeep Club and the Trail-Blazers Motor Cycle Club as well as the Radio Club of Tacoma and the Pierce County Citizen Band Club. Anyone wishing to help, come to the bus position by 8:00am April 11th.

The C-D bus has been active in the past few weeks. First we were asked to provide power for the P.A. systems at Cheney Field, when Mayor Johnston welcomed the soccer teams of Washington, Oregon and British Columbia. Right in the middle of this service we were called to a multiple alarm fire at Salishan. Two weeks before this, we were called to service for a 2-11 fire at the Silver Springs Brewery. Sunday night, March 22, saw us in service again at a 2-11 fire at the B & J Food Center at 32nd and Portland Avenue and before this we furnished communications on March 13 and 14 at the U.P.S. Field House during the basket-ball finals. See you all later...

Smitty K7ATD

PAST HISTORY OF CLUB

As most of you know, Doc W7OS is compiling the past history of the Radio Club of Tacoma and it's members. Doc would like to get more information on past members. If you know of any past members, who may not be on the list, please get in touch with him and pass the information along.

WOMEN'S AUXILIARY NEWS

by Rene Smith

Let's take a trip with the Women's Auxiliary! If you would like to take a trip and can't find the money or the time, come to the Women's Auxiliary meetings on the first Wednesday night of each month.

Last month we spent a wonderful hour and a half in Norway, with Helen and Joe Asplund. Thanks to Helen, it was really a special evening.

The month before we had a great time with Margie, Merlyn and Merlynda in Acapulco, Mexico and a very special trip to New York in January.

Next month (April) at Mae Anderson's home, we will leave for Korea.

For you girls, that haven't been attending the meetings, don't know what you have been missing.

Mae's address is 5101 So. Park Ave.. Be there anytime between 7pm to 8:30pm. We will have a short business meeting at 8:00 and depart for Korea 8:30 sharp.

The month of May, we will be going to Helen Asplund's in Eatonville and to Vivian Huntley's (with a special surprise) in June.

Picture by K7ATD

GRETA WARBURTON

HELEN SPIKE

AMATEUR RADIO CLASSES

The amateur radio theory and code classes, held every Saturday afternoon at the club house by the Junior Auxiliary, will not meet on Saturday April 4th and 11th.

Larry, WA7JPC, advises that they can accommodate a few more pupils in the class, so if you know of anyone who wishes to learn about amateur radio, send them over to the club house. The price is right and the instructors know what they are doing.

AREC REPORT

by K7NKZ

Now that we are a little less dis-organized and are holding regular nets twice a month on two frequencies, we are getting more checkins all the time. Thanks to everyone.

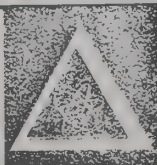

We will be looking forward to still more new checkins and would like to keep things active through the summer months.

K7CYZ "LOGGERS BARK" EDITOR & XYL VIVIAN

SLIVERS AND SPLINTERS

John Austin, K7CZF, has been appointed chairman of the reservations committee for the hamfest.

The Chavis QTH (W7IKG & K7AMJ) busy with preparations for the upcoming wedding in April of number one hamonic Merlynda.

Hank WA7HFG all settled down in new QTH.

Dick Hazelmyer getting ready for his move to Saigon.

The Hood's (K7NFG & K7NKZ) now monitoring 2fm full time with their new Hy-Gain antenna. Trying to figure out an antenna system to put up for the low bands.

Hard to catch the Huntley's at home on week-ends, now that the camping season is coming up.

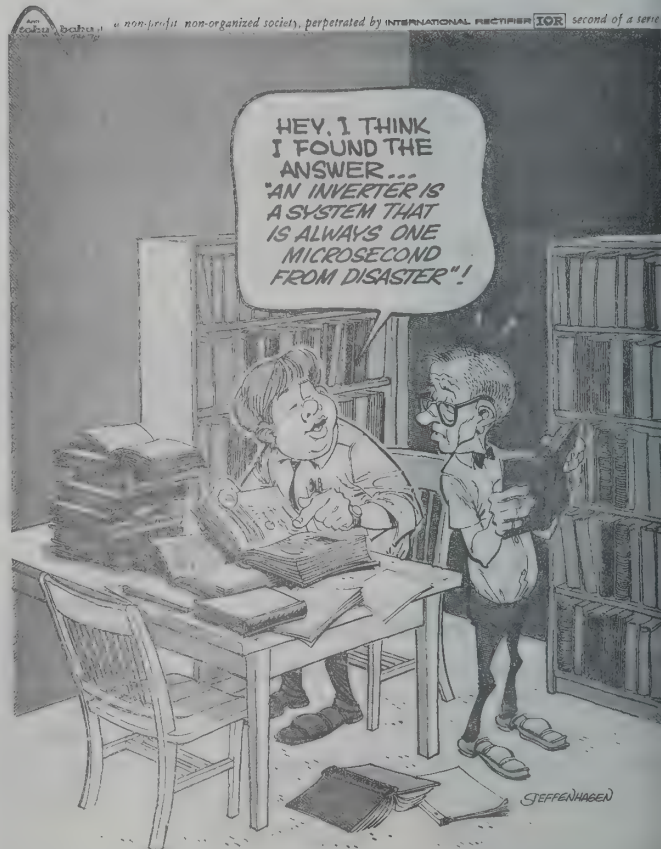

Ralph, W7COP, not interested in contacts. Putting up a new fence around the house. Might try loading it up on 20, Ralph.

Helen Spike, xyl of W7OS, back from a short visit at the local hospital. Doing fine.

Where was Len W7ZZL during the visit to the City Light Building on the last meeting night of the month? Everyone who visited that night was running their fingers thru Len's equipment. If you're missing anything Len, better come to meetings and check around.

Bob, W7RXS, had a good series at the regular Tuesday night games at the Bowlero. Came up with a 600 series during March.

No contacts this month, so this column is necessarily short. How about letting us know what you are doing during the month?

CLUB AUCTION

The auction, held at the last club meeting, was very successful one. The gear was donated by s. Stan Warburton and the club received over \$65.00 from the sale. The Radio Club of Tacoma tends their hearty THANKS to Greta Warburton.

SKAGIT VALLEY CLUB TRIP

Let's go to the Skagit Valley Radio Club's monthly Saturday morning meeting and breakfast at 7:30 a.m. on Evergreen Way. The time is Saturday morning, March 7th at 8:00 a.m..

Dwayne K7KSZ and Patty K7NQR have been gracious enough to offer their back yard as a parking area for self-contained campers and trailers, for those who would like to go up Friday night.

If you are interested in going please call Cheryl or La Verne at 848-3135.

'S NOTE:

Map drawn for directions to Dwayne's home elsewhere in this month's Bark.

ARRL PAST HISTORY

The Loggers Bark publisher has just completed photographing several pages of the first issue of the QST Magazine. The club has an original copy of this issue, in the records of the past history of the club.

From time to time we will publish a page or two of this issue, that you might see the state of the art back in 1915. This month you will find the front and back cover of this first issue of QST.

BOY SCOUT ACTIVITY

On March 9th, the Radio Club will have a representative at the Fawcett School. He will meet with the Boy Scouts of America, regarding a demonstration of amateur radio. Included, will be instructions on how to obtain an amateur license.

PROPOSED FCC DOCKET

Just as this month's Bark was going to press the staff received information on a new FCC rules proposal coming up, regarding the fees for FCC licenses.

The Congress has given the FCC a directive, in effect, to attempt to make the Commission more self-supporting. The FCC, in order to comply, is raising the license fees for all radio services.

The proposed rule changes proposed by the FCC, will raise the fees on amateur licenses from the former \$2.00 for changes to \$4.00. New licenses from \$4.00 to \$9.00. The special 2 letter call fee of \$20.00 to \$25.00.

Interesting to note, the \$8.00 fee for C.B.'er's has been proposed to \$19.00.

The closing date for filing letters for or against the proposed rule's changing will be in April and the usual 14 copies are required.

We are sorry that the complete information could not be obtained in time for this issue. We will of course, have more data in the next issue and only hope it will be in time so that those who wish to file will have the necessary time to meet the deadline.

AMATEURS ON T-V

On March 14th, KINT-TV, channel 11 will have a special show at 2pm. The title "Hams' Wide World!" So stop pushing that lawn mower for an hour and tune in for an interesting show.

COMING PROGRAMS

MARCH 11th.

Warren Green, guest speaker.

Discussion and preparations for new club film.

MARCH 25th.

Meeting held at City Light Bldg. (35th & Union)

Meeting in cafeteria & tour of facilities.

The "Loggers Bark" is the official publication of the Radio Club of Tacoma, Inc., 1249 South Washington Street, Tacoma Washington, 98405. Address all articles Scotty Huntley K7CYZ, 802 South Lawrence, Tacoma Washington, 98405. Address all advertising and swap column articles to Dick Ryan W7RGD, 1220 South 9th St. Tacoma Washington, 98405. Contact K7CYZ or W7RGD for advertising rates. Swap column is free to members of the Radio Club of Tacoma Inc.. The Loggers Bark does not guarantee or verify the statements in the swap column. The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

DUES ARE DUE

Just a reminder, that dues are due for all club members. Actually they were due in January but the by-laws allow a member to be carried until the end of March before the delinquent member is dropped from the roster.

Remember, 50% of your dues is for your subscription to the Loggers Bark and the Bark will also drop you from the mailing list after March.

So keep your membership current. Get those dues in before you are dropped from the roster and miss getting your club activities report, via the Loggers Bark.

"BETSY ROSS WAS AN OLD SEW AND SEW"

MELVILLE E. (BOB) MCCULLOH
W7DCB

On February 12th, Bob McCulloh, W7DCB, died in Tacoma. Bob was one of the first members to be counted in the Radio Club of Tacoma. Although he did not belong to the club at the time of his passing, he did still have a current call. (W7DCB)

Bob was born and raised in Tacoma and was working as a radio and T-V repairman. Bob's age was 77 this year.

He is survived by a son Gordon of Onalaska, a sister, Mrs. Herman Weber of Olympia and two Grandchildren. 73

SLIVERS AND SPLINTERS

The Smiths (K7ATD), Huntleys (K7CYZ) and Archwards (W7RXS & W7RXT) spent a very nice weekend at the ocean in their trailers. Is there any other members, who would be interested in going together on a trailer outing?

The Hoods (K7NPG & K7NKZ) and Huntleys (K7CYZ) spent a wet week-end on the Cowlets river in trailers.

Spud VanKleeck, WA7CSF and wife down with the bug.

Ethel Devish, W7WLX, bowled an even 200 in the Loggeretts League.

Emil, K7GPK, can be heard on 75 meters again. About that for some good old QRM?

The Gilmores, W7FUL, had company from Canada a couple of weeks.

The Chavis's W7IKG & K7AMJ are back from a flight to California for the DX meeting. Met our club member, Bill Rohrer, W7ZFY, who was one of the guest speakers. Bill is using W2AIR call sign back at Governors Island, where he is presently stationed.

Roy Monroe, K7USF, is trying out a new rig. Working quite well with it.

Dick W7RGD and Beryl K7NPG looking over plans to build a sluice box for the big mining operation this summer.

Ralph W7COP out with the c.d. bus on another fire. Mel K7ATF had the bus out also all Saturday afternoon at Cheney Field. During the activities there, another 2-11 fire was called. Mel was away with flying dust. Can't be in places at the same time.

Due to other commitments, Al Wallace WA7BZY, missed the club he will not be able to participate in the club's activities and therefore will be renewing his membership for 1970.

Bud and Alice Young (W7HMQ & W7WHV) have been traveling extensively but are presently back in the area. From the looks of things lately, they have brought back the sunshine with them.

ROSTER BOOK CHANGES

The following names and addresses should be added to your roster book. Both names are the two newest members voted into the Radio Club during the month of February.

Thomas A. Estelita WA7LKA
Quarters 2554-A
Fort Lewis Washington 98433 968-4339

Jon Wilkinson N.C.
4423 North 11th.
Tacoma Washington 98406 SK 2-1107

Welcome the new members at the next meeting and we hope the newest members will attend as many meetings possible and take active part in the club's many projects.

M.J.B. NEWS

On the first of February, the Radio Club of Tacoma received 1 case of coffee and a new 84 cup coffee maker. This was in exchange for the M.J.B. coffee lids and tea bag package covers.

Thanks to M.J.B. and the many members who turn in the lids to make it possible.

New Mesco Radio Apparatus

ROTARY SPARK GAP

A Rotary Spark Gap is required in every transmitting station by the Federal authorities, for the reason that this type of gap produces a pure wave of low damping decrement. It also increases the efficiency of any transmitting station.

This Rotary Spark Gap emits a high musical note, more easily heard than the ordinary spark gap, and at greater distances than the note from the station.

Any type, and cannot be mistaken for static or other atmospheric disturbances, a fault common with the stationary gap due to its low frequency note.

The rotating member has twelve sparking points mounted on a hard rubber disk and is carried on the motor shaft.

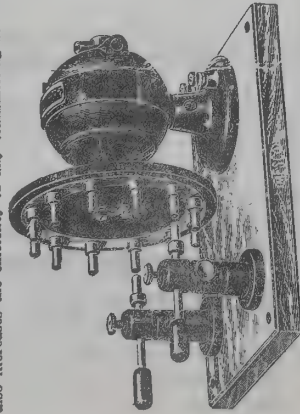

Also fitted with two stationary electrodes with special adjusting devices.

The Gap can be successfully used on any of our spark coils or transformers up to and including 1000 watts.

Only the standard Globe Motor is used, which will operate on 110 A. C. or D. C. circuits and attains a speed of 4,500 R.P.M. Also made with our

Globe Battery Motor, which can be operated on a six-volt circuit.

List. No.	Price
222 Mesco Rotary Spark Gap, 6 volt	\$15.00
223 Mesco Rotary Spark Gap, 110 v., A. C. or D. C.	13.00
216 Rotary Unit only, with two Stationary Electrodes, 1 3/16 in. shaft	5.00

UNIVERSAL DETECTOR STAND

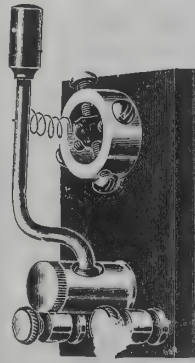

This Stand has a heavy brass cup, with four binding screws, capable of holding crystals up to and including 3/8 in. diameter.

A hollow standard encloses a brass ball. Through an opening in the wall, a brass arm with hard rubber handle is secured fast to the ball, making a ball and socket joint, allowing it to be adjusted at any angle or used in any position.

A hole for the introduction of different sized wires extends through the center. A set screw on the side of the arm binds the wire.

Supplied with two binding posts. All mounted on a heavy genuine hard rubber base 2 1/4 x 4 1/4 x 3/4 in. All metal parts nickel plated. A spring rests on the ball in the hollow standard and sets into a cup under the adjusting screw, so that varying pressures can be exerted on the crystal. Remaining portions of every description.

List. No.	Price
248 Universal Detector Stand	\$3.00

It is pocket size, 8x4 1/2 inches, contains 248 pages, with over 1,100 illustrations, and describes in plain, clear language all about Bells, Push Buttons, Batteries, Telephone and Telegraph Material, Electric Toys, Burglar and Fire Alarm Contrivances, Heated Appliances, Electric Alarm Clocks, Medical Batteries, Motor Boat Horns, Electrically Heated Appliances, Battery Connectors, Switches, Battery Gauges, Wireless Telegraph and Telephone Apparatus, etc. There exist a thousand and one ways of using these devices may be used, and to know what is best for your purpose read this catalog. It costs you nothing.

SEND FOR OUR NO. 17 MANUAL WIRELESS TELEGRAPHY
You should have it even if only superficially interested. Around about you every day you read of some marvelous occurrence in wireless telegraphy, a distinguished part. It may not be entirely clear to you which is responsible for it. To the student of Wireless Telegraphy, the manner of this is now published for the first time.

We ask ten cents (\$0.10) for it—give you a coupon receipt which can be applied on any order amounting to One Dollar (\$1) or more.

Send your name and address now, and get one of the most complete, comprehensive and reliable wireless pamphlets published.

I

Remembrance

Edwin E. Moe, (Ed - ex 7AG) passed away February 6th, 1970 at the age of 71 years. Ed was born in Bisbee, North Dakota August 19, 1898 and lived in Tacoma since 1904.

Ed was an HONORARY LIFE MEMBER of the Radio Club of Tacoma, Inc., having been instrumental in the early formation of the club in the years of 1915-1916, when he was elected to be the first Secretary of the Radio Club. He was licensed in about 1916 as 7AG and continued his amateur activities until the war came along but did not continue much after the war.

Ed was an instructor for 25 years at the Tacoma Vocational-Technical School retiring in 1963. He was a member of the Boilermakers Union. He had many hobbies among which were old coins, rock tumbling but he never lost his interest in amateur radio. In the last year, as his health failed, I took over to him the Quarter Century Wireless Association's, Drake 2-C receiver so that he could listen to what goes on in ham radio. He loved to listen to the c-w signals.

Ed is survived by his XYL, Lillian E.; a son Kenneth G. of Tacoma; two daughters Mrs. Dorothy Casedy of Arcadia, California, Mrs. Ruth V. Hazen of Half Moon Bay, California; two brothers of Tacoma, Peter and Clifford D. Moe; sister Mrs. Hannah Hazelton of Tacoma and seven Grandchildren. Ed was always so cheerful inspite of the tragic loss of his son and part of his family in Alaska, a few years ago.

We can all be proud of the important part Ed played in the history of the Radio Club of Tacoma. I know all will miss Ed as much as I do,

73, Doc W7OS HONORARY MEMBER

With the passing of our dear Charter Member, Edwin E. Moe (ex-7AG), many recollections of the past were brought to mind. In fact I located an old diary during the year 1916 and I quote- "March 16th. Went up to Ed Moe's house this evening with Ted Drake (ex 7DK) Ed showed us a number of new radio projects that he was working on."

In those early days, Ed and I spent many Sundays together, going along the waterfront and when a ship was in would go aboard and call on the radio operator. One particular instance, that I remember, was calling on the Grace Dollar and meeting the operator. His name as I recall it, was Karl Soderstrom and the call letters of the ship was W.S.F.. Whenever the ship was coming to Tacoma, he would call one of us by radio and let us know their arrival time and we would go down and call on him. This friendship lasted for many years.

In Ed's passing, we have all lost a sincere friend of the Radio Club of Tacoma. His gentleness and kindness to all concerned should set an example for all.

Dwight A. Mason (ex-7DL) CHARTER MEMBER

In the fall of 1915, about eleven amateurs met in Dwight Mason's basement and organized the Radio Club of Tacoma.

Ed, 7AZ, was the first Secretary elected to the club and his participation helped to make the club what it is today. He must have been proud, as the rest of us Charter Members are, to see from a humble beginning, the growth of our club as it is today. Ed is gone now, but he left a part of himself with us and we won't forget him.

Alvin Stenso, K7LV CHARTER MEMBER

NR 258

Australis Oscar 5 continues to operate successfully on 144.050 and 29.450 MegaHertz. Modulation of the 10 meter signal has been much lower in amplitude than nominal. Amateurs receiving signals from the satellite are urged to send reports to Amstat, Box 27, Washington D.C. 20044. Special reporting forms are available without charge from this address by sending an addressed stamped envelope. Reception reports will be confirmed. Continue to listen to WIAW bulletins for orbital predictions and further information about Australis Oscar 5 BT

NR 259

Western Union is offering surplus facsimile equipment for distribution among amateurs under the same conditions as are now set up through ARRL for distribution of surplus teletype equipment. Pending determination of the degree of amateur interest, the same clubs now distributing teletype gear will be asked to handle facsimile as it is released by Western Union. Most units are desk type and will need modification prior to use by amateurs but arrangements are being made for publication of details. Currently needed are volunteer clubs in the Seattle and Spokane Washington areas since none is currently authorized. Further inquiries are invited to Frank C White W3PYW, who is coordinating the program for ARRL at 2706 Harmon Road, Silver Spring, Maryland 20902 BT

NR 260

Provided their correct club mailing address is on file, each active ARRL affiliated radio club should receive the January 1970 Club Bulletin during the next few weeks. This issue contains the annual club survey forms which must be completed and returned to ARRL as rapidly as is possible. In cases where recent officer elections have been held, the bulletin may reach a former officer. Thus, if your club is affiliated but has received no bulletin by March 2, it is suggested that the address of the current club secretary be sent to Headquarters with a request for a duplicate club bulletin BT

NR 261

The Federal Communications Commission has now acted on Docket 18540. Effective March 23, amateur activity under a foreign license will be creditable toward the two year service requirement for eligibility to take the Extra Class license examination. Likewise, such activity will count toward the 25 year service requirement for two letter calls. Further information will appear in April QST AR

HAMFEST NEWS

The Radio Club has voted to sponsor the "Washington State Hamfest" again this year.

I have said quite a bit about hamfests, in general and pushed for us to sponsor this year's hamfest. Consequently I have been appointed chairman for this year. See what happens, when you can't keep your mouth shut!

We intend to make this the best hamfest in Washington to date.

We need your help!

Let me know your ideas and talents, so that we can spread the work load around.

The location will be at the Sportsman's Chateau, same as last year. The date has been firmed up for July 11 and 12 but the area will be open for campers on Friday the 10th.

Please contact me anytime. Phone at work is BR 2-3181 and the home phone in the evenings is Seattle CH 3-6160.

There will be a meeting on the first Wednesday of each month at the club house 8:00 pm until the month of July.

ard has been received from FCC that a third party traffic agreement has been made with Korea for the period December 23 through January 3 only. This will permit an exchange of holiday morale traffic between armed forces personnel and their families at home. The temporary agreement is good only for the specified period of December 23 through January 3, Korean time BT

254

The United Kingdom United States reciprocal operating agreement has now been broadened to include the following areas: Bahamas, Bermuda, British Honduras, British Virgin Islands, Cayman, Falkland Islands, Antigua, Dominica, Grenada, St. Lucia and St. Vincent. This information will appear briefly in the forthcoming February and more fully in March BT

255

An exciting new challenge for award minded amateurs officially came into being on January 1, 1970 with the inauguration of the ARRL Five Band Worked All States Award. Contacts with the 50 United States made after that date count towards this achievement. Full rules for the 5BWAS appeared on page 51 of October, 1969 QST. A WAS outline map and Operating Aid number eight, which contains an alphabetical state listing, are available to aid your 5BWAS record keeping. When requesting this material, please send an addressed stamped envelope to ARRL, 225 Main Street, Newington Connecticut 06111 BT

256

FCC has now taken final action in Docket 18508. Following up an ARRL proposal of some years back, the two meter cw subband will change from 147.9 through 148.0 MHz to 144.0 through 144.1 MHz. Additionally, the F-1 subband on ten meters which is currently 29.0 through 29.7 Mhz will change to 28.0 through 28.5 Mhz. These changes become effective March 2. Details will appear in March QST BT

257

Australis Oscar 5 was successfully launched at 1301 GMT, January 23. It began transmitting on 144.450 and 144.050 Mhz at 1237 GMT. Australis Oscar 5 is in a circular orbit at 790 nautical miles with an inclination of 102 degrees and an orbital period of 115.1 minutes. Each equator crossing will progress westward by 28.8 degrees. NASA will transmit orbital predictions Monday through Friday at 1345 and 1900 GMT on regular cw bulletin frequencies in addition to all regular official bulletin schedules AR

THERE WAS A TIME WHEN STUDENT BODIES WERE MAINLY INTERESTED IN STUDENT BODIES.

ETHEL W7WLX & VIVIAN HUNTLEY

Each meeting night, after the business part of the meeting, the President says, "We will take a break for coffee and cookies" and the mad rush starts for the kitchen. We always take it for granted the coffee will be ready and the goodies laid out neatly on the counter and it is!

Here, in the picture, is part of the reason why everything runs so smooth in the KP section of the club. The Ladies Auxiliary are there ahead of time to make sure the clock works are well oiled with coffee.

So here's a bleep on the bug and a toot on the mike for the gals of DK!

AMATEUR RADIO COURSE

Bates Vocational-Technical Inst. (formerly Tacoma Voc-Tech Inst.) has an Amateur radio course available, which runs on Tuesday and Thursday 7 to 10pm. The course consists of code, radio theory, practical work, FCC regulations etc. The class runs for 18 weeks and will prepare the student for Novice, General or Advanced license exams. Cost is \$8.50 for each 9 week session.

MIRACLE-EAR HEARING AIDS Δ HEARD AROUND THE WORLD

NOTE FROM W7PGY N.W. DIRECTOR

Docket 15928 was amended by the Commission in their September 1969 order, and was put into effect on November 22, 1969. This precluded any action by the Board to request a review or revision of the restricted segments at this time; However the Planning Committee (of which I am chairman) will continue its study of band occupancy and we are requesting assistance from amateurs in each Division to monitor certain selected segments. This will assist us in making a comprehensive report at the next Board meeting. It is recommended that interested amateurs monitor the following band segments for a minimum of thirty minutes each time: 3525-3700; 3700-3800; 7025-7150; 7150-7200; 7200-7300; 21,025-21,150; 21,150-21,250; 21,250-21,350 and 21,350-21,450. Those amateurs monitoring may select dates and times of their own choosing. Additionally, it would be of help to provide some monitoring information on occupancy of the presently divided U.S. phone band segments. This information gathered from your reports will be used in our Committee report and recommendations on phone sub-band expansion. Please send all information to me prior to March 1, 1970. ...Bob W7PGY

CLUB RECEIVES FUNDS

During the January meeting, Marion Wylie, K7TCY, turned over to the club treasurer a refund on the monies received from club members on their magazine subscriptions and renewals.

For the benefit of the new club members and a reminder to the older members, please remember to place your subscriptions and renewals to any and all magazines with him. Marion will get you the best deal available at the time and he credits the club with a percent of the cost, which he periodically presents to the club. Thus you get a good deal and the club benefits also. Call or contact Wylie at home, 815-11th street N.W. Puyallup or TH 5-2907.

YOUNG BLOOD PROGRAM INAUGURATED

Chris, WN7MSK, has contacted several of the local Boy's clubs in regards to the Radio Club putting on some ham radio gear demonstrations.

The clubs contacted, welcomed the hams action. Some of the Boy Scouts have requested to enlist in this program.

This could be one of the better programs the Radio Club could undertake. Each member should give a little of his time and gear to carry through on the program. We will need stations, where we can bring the boys in to see the gear in action. The equipment should be capable of being set up at their club meetings and have operators to demonstrate the gear to them.

They are eager and we should be willing to carry the program to them. ... Editor K7CY

COMING PROGRAMS

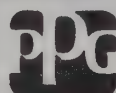

During the first meeting of the month of February, the club will have an auction. It has been some time since we have had one and this promises to be quite exciting. Greta Warburton, xyl of our late member Stan, W7LIR, has donated many pieces of equipment and parts to the club to auction off. There are receivers, transmitters and many parts to be auctioned off. Come early to look over the parts and be sure of getting a seat.

On the second meeting in February (25th) we will have a program put on by the Washington State Patrol. The speaker will be Trooper Ed Leif, who will have films to augment the program. One film will go into the details of tire hydro-planing, a very controversial subject. The program will be followed by a question and answer period... W7UBA

53.40 MC. INTERFERENCE LOCATED

Interference on 53.40 MC was halted after 3 hours and much searching over a wide spread area. The Civil Defense Hospital net in King County operating on 53.38 MC was responsible. The Bloo Bank personel, evidently became annoyed at the noise of their squelch, caused by our Saturday noon AREC Net and someone discovered that if the button on the mike was pushed in, their problem (the noise) was solved; so they taped it up.

The following letter accompanied the above QSL)
 Radio Club of Tacoma Inc.
 49 South Washington
 Tacoma Wash. 98405

Gentlemen:

Inclosed please find one of your club's old
 me "QSL" cards from back in 1926. This card
 along with many others was acquired by me after WM
 Shaw W6BWK became a silent key. Thought the club
 might appreciate having this little gem.

Please acknowledge receipt. Thanks.

73 Edward C Brichta W6RSY
 /s/

 2 Wellsbury Court
 Palo Alto, California 94306

Dear Ed: Refer your radio msg. recvd 1-18-70
 your letter & 1926 QSL rcvd 1-21-70

Thanks very much for taking the trouble to send to
 the little gem as you call it, the QSL card sent
 to by the Radio Club of Tacoma on June 22, 1926 to
 Radio Amateur 6BWK via the Radio Inspector San
 Francisco, California.

Several things are unique about this QSL card.
 The thing is that it should find its way back home
 after all these years. The prefix "U-7DK" is very
 strange to some of our younger members, although I
 and some few others (very few now) are still
 around the club for this is one of the oldest
 Amateur Radio Clubs in America. I helped form it
 in 1915/1916 and I knew the signer Kennedy but can
 not recall his call. (personal call)

Sorry to read that W6BWK, W.T. Shaw is Silent
 Key.

Thanks very much for all the members of the
 Radio Club of Tacoma, Washington.

73, Doc W7OS (7AF-1919) (7CS-1915)

/s/
 Past President of the R.C.ofT Inc., (5 times)

THESE ARE DUE FOR QUITE A FEW, WE KNOW WHO AND SO DO
 YOU.

DROOLING CORNER

ROSTER BOOK CHANGES

The following subjects are the newest members
 of the Radio Club of Tacoma and we wish them all
 welcome and hope they attend the meetings as often
 as they can and join in the many activities
 afforded all club members.

Last month our newest member listed was listed
 with an incorrect call and the correct information
 is as follows;

G.W. Manussier K7OCN. Please except our apologies
 K7OCN and all the rest of us will correct our
 roster books.

THANKS

Thanks to everyone for participating in the
 AREC Simulated Emergency Test this past week-end.

The activity was down from last year but
 every thing went off very nicely.

Tnx, K7NKZ

SLIVERS AND SPLINTERS

Doc, W7OS, announced a 3 way tie for the award to the member signing up the most new members into the club during the year, so it was decided to give each of them a credit towards next years record. In the past it has been the custom to award a years free dues to the member signing up the most members.

The club is without a TVI Committee at the present time. If you are interested in serving the club in this manner, please contact the President K7IND.

Thanks to Ed, K7CZM, the club has a new award on the club house wall. He recently applied for and received the WAC award. At the same time he requested a duplicate WAS award, which he earned for the club some time ago and was later lost from the club house, and one was sent to replace it.

Congratulations to Kay Koth (harmonic of Emil, K7GPK) for placing 1st in her division, in the Mt. Rainier League. She's pretty accurate with her 22 rifle.

It's been a long time, but Bob W7RXS, checked into the Wednesday night AREC drill on 2 PM. Sure nice to hear you Bob.

Several members are busy getting an education. Merl W7IKG, taking Spanish at TCC. Margie K7AMJ, taking a legal steno course at the vocational school.

A few of the club members are rushing the camping season. The Churchward's W7RXS & W7RXT; The Smiths K7ATD; The Huntleys K7CYZ, all took off for the ocean beaches for the week-end during the last part of January.

Last reported Flu-bug victim, Beryl K7NPG. Verna Ryan just getting over the bug after Dick W7RGD brought it home to her.

Tim WA7FVT has added a prefix to his name. Private Tim Blair. Stationed at Fort Lewis at the present time.

Steve K7SSC is figuring out ways to photograph printed circuits diagrams for making the printed circuit boards. Trying to work out a system whereby he can use the clubs layout camera.

President, K7IND, trying to make room for the massive turn out for the last club meeting in Jan. Biggest turn out in the past several years.

Dr. Kohler, W7JG, received his usual call from the hospital while attending the meeting in Jan.

After three years of sitting at the head table at the meetings, Hunt WA7AKW, was enjoying sitting in the audience at the meetings in January.

Wanted - Show card printer. Contact President Bob K7IND.

Remember dues are due.!

CLUB BANQUET

The Club Banquet will be held at the Top-of-the-Ocean on February 28th. Cocktails from 7:00 to 7:30 pm. Dinner will be at 7:30 pm. Smorgasbord and all you can eat for \$7.50 per couple. Dancing will follow the dinner. Minors are all welcome to attend. Now is the time to make your reservations. Call TH 5-0344 and ask for Len WA7HHI.

THANKS

A big "THANKS" to Doc W7OS and all the QCWA members for being so considerate during the S.E.T. This is the second year that they have moved their net off the frequency and let us use it, and we do appreciate it very much.....AREC Members

JANUARY 1970

FROM THE PRESIDENT'S DESK

I want to thank the membership for their confidence in me by re-electing me as their president for another year. I am looking forward to the next year as one which will see this fine organization really come to life again.

I know that with every member doing whatever HE or she) can to help, the year 1970 will go down in the books as the best yet.

I hope that all of you had a Merry Christmas and that the New Year will be a joyous one.

...President Bob K7IND

PAST PROGRAMS

The slides of Jerry, W7EUN's, Hawaii vacation were well received by the members of the Radio Club. The preceding week we were treated to the opposite type scenery, when Del Kohler, W7JG, viewed his slides of the mountain tops of Washington.

Both gentlemen's pictures were tops in their fields and expertly narrated. In two short weeks we were transported from Washington's snow swept, rock studded highest mountains to a sun filled and lower be-decked Hawaii.

Thanks Del and Jerry for letting your fellow club members share your vacations with you.

LICENSE PLATE BILL

(from W6SD Carrier)

Note: Their foot is in the door again!

CONFUCIUS SAY: "MAN REALIZE MEANING OF HAPPINESS WHEN HE GET MARRIED..BUT THEN FIND OUT..TOO LATE!"

EDITORIAL

This is the end of 6 years of writing, typing, photographing and printing the *Loggers Bark*. It has been very hard sometimes to find things to write about and also the time to write it. Not being a writer, made the job doubly hard!

Do to pressures at home, this will be the last issue that I will be your editor. I hate to give it up because Emil K7GPK, Scotty K7CYZ, Dick W7RGD and myself, were the originators of this paper. But all good things must come to an end and I'm sure you will find a replacement, which will surpass my knowledge as a writer or editor.

I have enjoyed these past 6 years, serving the club in this manner and I want to thank Scotty and Dick, my faithful assistants, who never failed me every month. I'll still be around to help when needed.

.....73 Margie K7AMJ

COMING S.E.T.

The time is here again for the RACES-AREC S.E.T. January 24th and 25th, to be exact.

Read the January issue of QST for the details. Volunteers, please call me at home, evenings or during the day on week-ends.

The details will be worked out for our SET, as soon as we have determined how many will be participating.

If you don't have the time to fully participate please be sure to check in anyway.

...LaVerne, K7NKZ

The "Loggers Bark" is the official publication of the Radio Club of Tacoma, Inc., 1249 South Washington Street, Tacoma Washington, 98405. Address all articles Margie Chavis K7AMJ, 5640 South Yakima, Tacoma Washington, 98408. Address all advertising and swap column articles to Dick Ryan W7RGD, 1220 South 9th St. Tacoma Washington, 98405. Contact K7AMJ or W7RGD for advertising rates. Swap column is free to members of the Radio Club of Tacoma Inc.. The Loggers Bark does not guarantee or verify the statements in the swap column. The Loggers Bark is published monthly at 1220 South 9th Street, Tacoma Washington, 98405. Subscription rates per year are \$.50 for members of the Radio Club of Tacoma and \$1.00 for non-members. Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

BARK'S LOSS

The LOGGER'S BARK has lost one advertiser, who has advertised in our pages since the beginning of the publication. Harold Conger's Mobil Service station is going out of business, to make room for new office buildings. Mr. Conger will be taking over the position of C.O.P. in the city of Fircrest and we wish him luck with his new duties to the community.

We would like to thank all of our advertisers, new and old, for their contributions to the paper which makes it possible for our readers to receive this paper each and every month. We wish them all a prosperous new year in their various trades and services.

Don't forget, you as a subscriber to the paper can help contribute to the support of the paper by mentioning the fact; "I saw your add in the LOGGERS BARK" when you are using the service or in the place of business that is advertising on these pages.

THE AGE OF CHIVALRY CERTAINLY IS NOT DEAD. IF A TEENAGE GIRL DROPS ONE OF HER BOOKS, ALMOST ANY BOY IN THE CLASS WILL KICK IT BACK TO HER.

Remembrance

Stanton Warburton JP., W7LIR, affectionately known to all as Stan, was born in Tacoma Washington on January 11th, 1900. Those of us who attended the Radio Club of Tacoma meeting on December 10th., 1969 were shocked to receive the word that Stan had passed away suddenly, an hour before. A true SILENT KEY MEMORIAL was held and those who knew him best gave their eulogies.

Stan's life was full, having studied at Stadium High School, the University of Puget Sound and having activities in numerous businesses both in Tacoma and Alaska. He was founder and longtime manager of the Pierce County Taxation Bureau. He was retired, four years ago.

Stan was a member of the Immanuel Presbyterian Church; Tacoma Elks; Bohemian Club in San Francisco; Lebanon Lodge Nr. 104; F&AM of Tacoma; Affi Temple Shrine of Tacoma; The Scottish Rite, where for 18 years he ran the coffee bar at all reunions; The Tacoma Moose Lodge; Tacoma Chamber of Commerce; Pacific Northwest Bird and Mammal Society; (where he was considered a real authority on bird life) Washington State Historical Society; Radio Club of Tacoma, which he joined on March 23, 1948 and among the many Radio Club activities he prepared the Mother's Day Breakfast each year and enjoyed preparing the clam chowder for the midnight snack during the field day activities annually. He belonged to Kappa Sigma Fraternity, Tacoma Realstate Board, Sportsman Club, UPS Board of Trustees and the Board of Directors of the Franke Tobey Jones Home. He was a LIFE member of the Northwest Chapter Quarter Century Wireless Association.

Members of the Radio Club of Tacoma joined the survivors; his wife Greta M.; son Stanton III; a sister Mrs. L.D. Boyle; Niece Mrs. Betty Guggolz and two Nephews, Mr. Lyman Burke and James R. Burke, at a memorial service held at Buckley King Funeral home with internment at the Mt. View Cemetery.

We express our sympathy to the members of his family. We will all miss Stan very much.

..... Dr. F. Clifford J. Spike W7OS

"To be forever remembered, is life's greatest gift" and I will always remember Stan.

A man with so many interests makes a wonderful traveling companion and my first trip with Stan came about because he wanted so much to operate mobile at least part of his return trip from Atlanta. Having flown east, we arranged for me to meet him in Denver with his car. Mobile we did. Contacts by the hour for most contacts, greatest DX, etc., got so intense that we ran out of gas in Montana just because we didn't notice the gauge. Stan was thrilled to have W7FUL, Tom Gilmore break in with cw from KL7 land on our contact with a New York station. Even the contact with South Africa took 2nd place to that.

On a trip to the Kispiox, I went along primarily to provide the extra license for the great quantities of fish to be brought home. Stan took care of all the planning -- Canadian amateur license, top rack and plastic bags for the fish, antifreeze for car and men, best of food, etc -- so of course we had a fine time. It was hard to watch 2 grown men cry when we had to return with no fish but the drive was wonderful and Stan had endless stories of birds, Washington State history, Canadian metal deposits or whatever the scenery brought to his well informed mind.

Stan's genuine interest in people surpassed his many and varied other interests. He was constantly thinking of ways to get the gang together, challenging me to hotcake contests, fishing trips at Westport, planking salmon in his basement, instigating the club Pinochle sessions (even providing the first trophies) and talked of next having a coffee making contest with W7WLX.

Stan was a connoisseur of coffee and took great pride in being in charge of the coffee at home, lodge or wherever. As much as he would like to support club projects he could hardly face up to MJB.

I could go on and on about the many 10,000 Catfish problems we worked out together, political differences we discussed, diets we tried, etc., but I guess you know I won't forget any of it or my true friend.

..... Roy Devish, W7AZI

I can't say too much about Stan that hasn't been said already in the papers.

His only son, Stanton III lives in Decatur Illinois, is single and has been in Tacoma since his father's death but will be returning to Decatur later.

Stan had a great number of different interests and while he was not too active in any one of them, he was proud of his different affiliation with these groups and always wanted to do his part. He was very non-assuming.

He had many prominent friends and they valued his council in the activities he participated in.

He was not seeking honors, but wanted to be counted, in any organization or movement he believed in.

I met and visited with Stan several times a week and will surely miss him.

Ed Cole K7CZM

THE PSCARC HAM OF THE YEAR AWARD

1. The 'Ham-of-the-Year' award will be presented annually by the Puget Sound Council of Amateur Radio Clubs to an outstanding licensed radio amateur.
2. Only members of clubs which are affiliated with the P.S.C.A.R.C., as of December 31st of each year will be eligible for the award for that year.
3. Each club will submit information concerning their one choice for the award on the application form provided by the council.
4. Achievements or qualities to be considered may be public service, emergency or rescue communications, conducting training for amateur examinations, radio experimental or construction projects or any other attributes normally associated with amateur radio. The facts presented must pertain to the year for which the award is presented.
5. The application forms will be arranged and numbered so that the Council Secretary will be able to detach the name and other identifying information before the judging takes place, to insure impartial judging.
6. The final judging will be conducted by an impartial judge or judges chosen annually by the Council delegates.
7. All applications must be received by the Council Secretary by January 31st, for award consideration for the previous year.
8. Judging will take place each February.
9. The 'Ham-of-the-year' will be announced in the February Council minutes.
10. The award will be presented to the outstanding ham by the Council, at a regular meeting of the club submitting the winner's name. The presentation will be made before April 30th.
11. Honorable Mention Awards will be presented to each club's nominee, in addition to the winning award. These awards will be sent to the clubs for presentation to the nominees.
12. In the event that an outstanding achievement is equally attained by more than one member of a club, the Council will consider duplicate awards. However, only one application will be accepted from each club.
13. A ham who is a member of more than one club, may have his name submitted by more than one club; however, each club's application will be individually judged.

LOGGERS BARK ANNUAL REPORT

by W7RGD

The following is a financial report to the club members of the Loggers Bark status. This year has been a busy one with the monthly publication of the Bark and the new monthly publication of the Northwest Chapter of APCO, which has a slightly larger subscription than the club's paper. There were numerous other printing jobs along with QSL cards and the Hamfest printing work.

Also during the year, the club obtained the 2nd class mailing permit which has been a big savings to the club. The normal cost of mailing the bark has averaged about \$1.50 per month compared to the cost of \$8.50 per month previously.

The paper has cleared enough and put aside the cost of the printing press. So now the club owns it's own 1250 Multilith printing press.

DUES ARE DUE!!

ARRL BULLETINS

R 248

The FCC has taken final action in Docket 18506 relating to maritime mobile operation. Effective December 31 such operation may take place from 7.0 to 7.1 MHz by United States amateurs when on or over the high seas. This portion of the 40 meter band is a world wide exclusive amateur allocation. Further information will appear in January QST BT

R 249

FCC has issued a special Christmas call sign for the first time. WX3MAS will operate in the Christmas City, Bethlehem, Pennsylvania from December 15 through January 1, on all bands 80 through 10 meters, cw, teletype and sideband. Operation may also take place on 6 and 2 meters. Distinctive confirmations will be sent in response to your full size envelope with postage addressed to the Delaware Lehigh Amateur Radio Club, W3OK, 719 Callone Avenue, Pennsylvania, Bethlehem 18017 BT

R 250

A reciprocal operating agreement has been in effect between France and the United States since July 1, 1966. This initial accord provided for metropolitan France and Corsica, but no other French territory. Word has now been received of the immediate extension of that initial agreement to cover all French possessions. Similarly, French amateurs may now operate in Puerto Rico and United States possessions. Further details will appear in February QST BT

R 251

The next ARRL Simulated Emergency Test will take place January 24 and 25, 1970. This is a serious effort designed to test local emergency plans and procedures under simulated emergency conditions. The test will include all Amateur Radio Public Service Corps amateurs, in AREC, NTS and RACES in local and nationwide exercises. You are urged to contact your local Emergency Coordinator immediately(*) while there still remains time for you to be worked into SET plans and do your part to help justify the amaceur service in terms of public interest, convenience and necessity. SET rules will appear in the January nssue of QST AR

BEARS & BCT CONTEST

1. This shall be an annual contest between the Boeing Employees Amateur Radio Society and the Radio Club of Tacoma and shall continue until terminated by mutual agreement of the two clubs.
2. The object of this contest will be the attainment of the highest total scores in the annual ARRL Phone Sweepstakes and CW Sweepstakes Contest.
3. The trophies will be awarded, one for the phone contest and one for the cw contest. The cost of the trophies and engraving will be equally shared by the two clubs.
4. The trophies will be a 'traveling type' and will remain in the possession of the winning club until the following year. In the event that one club wins either trophy for three consecutive years, that club will obtain permanent possession of that trophy and a new trophy will be purchased the following year. In the event that neither club wins a trophy for three consecutive years, the club that has won the greatest number of times during a five-year period will obtain permanent possession of that trophy and a new trophy will be purchased the following year,
5. The winner will be deemed the club with the highest score for each mode as announced in QST Magazine; this score will include "message points" awarded by ARRL since these are a part of the Sweepstakes Contest. If one club is obviously the winner of either mode, then the scores reported to ARRL by the club secretaries will be used to determine the winner, without waiting for the published results, or the added "message points".
6. These rules will be reviewed annually by both clubs, after the Sweepstakes rules have been announced in QST, but before the actual contests have taken place.
7. In case of any unresolvable conflict between the two clubs over these rules or about this competition, the trophies will go permanently to club that has won each one the greatest number of times.
8. The trophies will be presented to the winning club by a delegation of members from the losing club at a regular meeting of the winning club.

The next auxiliary meeting was decided to be held at Marge Hazelmyer's home and will be on the 7th of January.

The Junior Auxiliary has not contacted the staff members of the PARK to give their results of elections, but am sure they will by our next printing.

Now that the results are in, let's get behind the elected members and support them in keeping the club active and in the "TOP NOTCH" group. The club was organized and is operated, for but always remember, what can YOU do for the club.

ABOARD THE C-D BUS DURING THE HOOP-GO-ROUND AT THE FIELD HOUSE. C-B DISPATCHER.

ELECTION RESULTS

Nominations and elections have been completed for the Radio Club of Tacoma and the Ladies Auxiliary during the month of December.

The nominating committee placed the name of Bob Gates, K7IND, on the list and there being no others nominated from the floor on either night, he was re-elected by unanimous vote of the membership.

For the position of V-President, the committee placed the name of Dennis Reanier, W7UBA, on the list. Rex Maner, W5QQQ's name was submitted from the floor and the new V-President will be Dennis.

The position of Secretary, saw the two names of Bob Weightman, WA7IPR, and Rich Anderson, K7ONA, placed on the ballot. Bob was re-elected to the position.

For the position of Club Treasurer, the committee placed the name of Gene Dodge, W7BTU, and there were 4 more names added to the list from the floor. Len WA7HHI, Rex W5QQQ, Otho Smith K7ATD and Hunt WA7AKW. Hunt declined, after having served for 3 years in this capacity, and we might add, having done a "JOB WELL DONE". Len was voted in as the Club's new Treasurer.

The final positions were voted on for the two Board members and Scotty K7CYZ and Omar WA7HPK were elected to fill the positions. In addition to the two that were elected, Al WA7BZY and Roy W7AZI were nominated from the floor.

The Ladies Auxiliary held their elections during their meeting at Verna Ryan's home in December and the following is the result of the voting.

President, Rene Smith; Vice President, Ethel Devish; Secretary-Treasurer, Donna Dightman; Board members, Helen Asplund and Verna Ryan.

JERRY W7BUN SPEAKING DURING ANNUAL X-MAS PARTY

K7NQR, K7KSZ AND K7IND VISITING DURING DINNER

SLIVERS AND SPLINTERS

It is with deep regret that we report the passing of Lydia Branchflower's husband during the month of December.

Long time, past member, Chuck Emigh, W7ER, is in the hospital. Also Burnham, K7HBO, has been hospitalized. Ed Moe, is now home from the hospital recuperating.

A work party was organized and the club's porch roof repaired. Thanks to Bob K7IND, Emil K7GPK, George WA7CSF and Hank WA7HFG.

There will be a complete report on the proposed transmitter hunts and building contest during the first meeting of the new year.

There were 81 people present for the club's annual X-Mas party at the N.C.O. Club at McChord. The food was excellent, as usual, and the music was good.

A trophy case for our several trophies, was brought up during the meeting in December. A permanent, attached to the building type and preferably locked, was suggested. More on this later.

Hamfest, co-chairman, Dennis W7URA requested suggestions in writing be sent to him. Not too early to start working on it.

Jim Hosack has passed his Advanced Class license. Congratulations!!

Dwaine Lewis has passed his 2nd class commercial license.

The new club representative to the P.S.C.B.C., is Larry Ziegler, W7JPC. Jerry, W7BUN, will be his alternate.

The club must have an inventory of all of the club's test equipment and gear for the new year. Please contact Jerry, W7BUN, who has been appointed the club equipment custodian.

Merl W7IKG and xyl Margie K7AMJ are back from vacation trip to Mexico. Lots of stories to tell and slides of the trip.

The Churchwards (W7RXS & W7RXT) have a new cougar in the family garage.

Happy New Year!!

NOTE FROM MEMBER

I want to thank each and every one that has been so very nice to send me such nice cards, while I was ill. Thanks a lot.

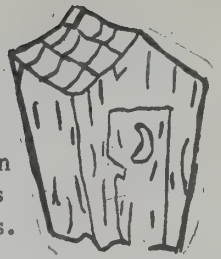

.....Sophia McCullough

POET'S RETREAT

FRIENDSHIP

by Omar Haugen

My old friend likes to pound the brass
Showing who's boss in anyone's class.
Although the Morse is out of date,
He's branded still as a 'hamer's' great.

Being a 'ham' for so many years,
The sound of chirping fills his ears.
He lives a life to help the young,
And his honest efforts are not unsung.

DECEMBER 1969

NEW CLUB CONTEST

The Radio Club of Tacoma and the Boeing Employees Amateur Radio Society (BEARS) joined together to sponsor a contest between the two clubs. The contest will be an annual affair each year during the Sweep Stakes contest. Each club donated \$17.79 to cover the cost of winners cups and the engraving costs.

The cups will be awarded each year to the club having the highest club score for the phone section and the c.w. section. The club winning either or both cups will get to retain them for that year. If one club can win either cup for 5 years in row, the cup will become the property of that club permanently. In any event at the end of 5 years, the club with 3 years or more of the 5 will then take custody of the cup and a new cup will be purchased for the next period.

One of the conditions of the rules states that the loser of each year will present the cup to the winning club, at one of the winning club's regular business meetings. Thus with 2 cups to be awarded, it would be possible to have an exchange of visitors to each club.

It is apparent, at this time, that the Radio Club of Tacoma has won the phone section award for this year but the outcome of the c.w. section has not been determined. One good thing to come out of this contest, so far, is a real good turn out as made from the two clubs.

CHRISTMAS DINNER

Get your reservations in for the Christmas party right away. Jerry, W7EUN, is taking reservations now. They must be in and paid in advance before December 6th.

Contact Jerry at home, TH 5-7652 or at work 84-5423, McChord AFB. Do it now!

YOU'LL NEVER SEE A BLIND PERSON IN A NUDIST CAMP.

W7MPX

GUEST SPEAKER-MEETING NIGHT OF NOVEMBER 26TH

NEW PROJECTS

During the last meeting in November, the subject was brought up on having transmitter hunts for club members and friends. The consensus of the members present, was that they should be held on Sundays rather than on week nights as they were previously. Also converters and their availability was discussed. There are apparently converters for 6 meters readily available at reasonable cost.

Scotty Huntley and Rex Maner were appointed to dig into the subject and bring information to the next club meeting. (December 10th)

Building projects were also brought up during the meeting but nothing definite was set up. More on this later after the membership has had a chance to think over what type of contest to put on, regarding what, where and why.

EAGLE'S PARADE

by K7NKZ

The Eagle's 12th annual Santa Claus Parade went off on schedule at 2:00 pm Saturday, November 22.

Area #4 AREC furnished communication for the parade, which started at 9th and Kay street and finished as it came down 13th street and turned in front of the Eagle's Lodge.

Approximately 45 marching bands and drill teams participated.

The last float was what it was all about; Santa Claus tossing candy to the children along the way.

Thanks to K7CSF, K7OSN, K7SSC, W7RGD, WA7JPC and K7NPG.

Don't forget to check into the net every 1st and 3rd Wednesdays at 7:30pm.

R 245
 The ARRL Board of directors held a special board meeting at Hartford, Conn., Nov. 1, 1969, to consider a set agenda of subjects. Among its actions were agreement on the principle of accepting technician licensees as communicators rather than experimenters, studies of changes in band occupancy and of disaster preparedness among amateurs resulting from incentive licensing, approval of national conventions in Boston in 1970 and Long Beach, Calif., in 1971, providing for attendance of Vice Directors at one board meeting during their term of office on approval of the Directors. A special committee was formed to draft a constitution and by-laws for the ARRL foundation. Other actions included instructions to publish a final report of the VHF repeater advisory committee in QST and request comments from members, petition FCC to grant counterpart call letters to amateurs moving from one call area to another, a special award to retiring QSL manager W4DMA, a special committee to study board procedures and a resolution congratulating retiring FCC Commissioner Rosel Hyde on completion on an outstanding career in the Commission. The Board will meet again in May 1970 and at that time give further consideration whether or not to provide for regular meetings twice instead of once annually. Complete minutes will appear in the February issue of QST-BT

R 246
 In connection with the Australis Oscar 5 amateur satellite experiment, third party communication has been authorized between United States amateur stations and Australian amateur stations on matters relating to satellite experiments. These arrangements, which are effective immediately, will continue for a period ending four months after the satellite ceases to transmit. Australis

Remembrance

A
MEMORIUM
of
W7CBE

Elwyn Ansel Eastman
(EASTY)

Easty was 71 years on his last birthday, July 21st and attended his Radio Club with us only a month ago and took sick only a few days after and passed away on Friday November 14, 1969.

Easty was born in Lewiston, Idaho July 21, 1898. He lived at 3360 East Laurelhurst Drive, N.E. Seattle.

He was retired from Travelers Insurance Company, where he was claims adjuster.

Easty was active in the Seattle Casualty Adjustors Association, College Club, Seattle Yacht Club, Alpha Tau Omega Fraternity, Military Order of World Wars, MARS Radio system, The Quarter Century Wireless Association (Northwest Chapter) and was chairman for the Seattle Red Cross Disaster Relief.

Easty first joined the Tacoma Radio Club and

was initiated on March 1, 1932. He was initiated along with Charles Wible, Vernon Kienast, Kenneth Ashley, Carl Forsberg, Fred May, Norman Moberg and Marvin King on the evening of March 1, 1932.

His activities took him to Seattle and he was reinstated into the Radio Club on October 12th 1966. He was also a member of the ARRL and held an Advanced Amateur radio license.

He was an ardent, enthusiastic member of the Radio Club of Tacoma and drove over to Tacoma very often the last several years.

Easty is survived by his wife Margaret Tapping Eastman and a brother Verne of Falls Church, Virginia. Burial at Bayview Cemetery, Bellingham, Washington.

We of the Radio Club will miss Easty and we extend our sympathy to his family.

By Dr. F. Clifford J. Spike W7OS

COMING PROGRAMS

by W7BUN

December 10th...

Del Kohler, W7JG, ardent mountain climber, will present a slide show of the 6 major Washington mountain peaks. Del has been associated with the local Mountain search and rescue organization and is well known among the amateurs in the dx fraternity. If you don't have the urge to climb, be at this meeting to see your mountain peaks from a club easy chair. Also there will be nominations from the floor for club elections.

December 17

Election night for 1970! Also Jerry, W7BUN, will show slides of his Hawaai vacation last summer.

NEXT MONTH

Slide tour of the Heath plant and introduction of Heath's new 2 k-w linear amplifier SB-220.

Antenna program by W7RM, (ex-W7ESK) Local antenna experimenter who has a $2\frac{1}{2}$ acre antenna farm.

QSL CARD'S

Do you have your QSL card up on the board at the club house yet? It is beginning to fill up a little. Your editor received a card from Claude, WA7BVF and it is now displayed up on the board. You should come to a meeting and meet some of our new members and bring your card with you,

RADIO CLUB OF TACOMA DOESN'T NEED THE PSCRC.....

but the Puget Sound Council of Radio Clubs needs the Radio Club of Tacoma's participation.

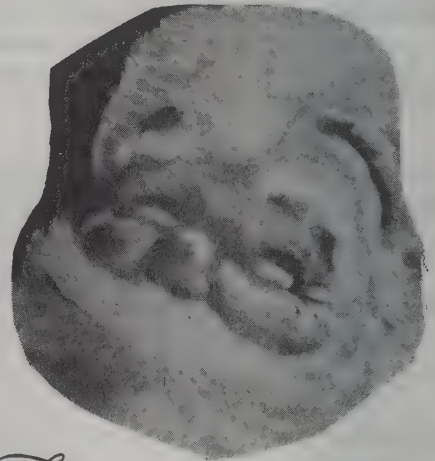

Jerry, W7BUN, has been a delegate of the R.C.T. for many years and now feels it is time for someone else in the club to represent the club at the monthly council meetings. Jerry will continue to act as an alternate.

The council acts as an interchange of ideas between radio clubs of our area and also represents a larger number of amateurs than any single club.

If interested in becoming our delegate, contact President Bob Gates and let him know.

MILLION DOLLAR TVI CASE

General Counsel Booth, who has kept in regular consultation with W4GJO's attorneys in the "million-dollar" TVI case, now has word that the lawsuit against the ham has been dropped. At the same time QM Gridley agreed to drop his own countersuit for harassment. No damages were awarded either way. The strong and effective defense waged by GJO's attorneys undoubtedly was a major factor in the outcome.

"The charm of Christmas lies in the thought that we live in the memory of our friends."

TRANSISTOR CLASSES

by WA7JPC

Anyone wishing to learn about transistors and as two night a week free, may take a course at the Clover Park Vocational School. The course is \$10.00, the text book is \$7.50 and the lab manual \$4.00.

I've been taking Transistor I since September. I have covered theory and have built circuits onainers.

The next course is another \$10.00 and is titled Transistor II, which will run until June. Transistor I will be re-run from January to June. If you want to understand transistor, for general knowledge or to pass FCC tests, this course is great.

The course will be either Monday-Wednesday or Tuesday-Thursday. It will be announced later.

ROSTER BOOK CHANGES

Welcome to the following new member of the Radio Club. Be sure to include their names in our roster book, on the pages provided for this purpose. We hope to see them at the Radio Club meetings regularly.

Dwayne Day WN5WDB
Box 3174 CMR 2
Chord AFB

German Texas.

P.S.C.R.C.

by W7BUN

The Puget Sound Council of Radio Clubs has decided to present an annual "Ham of the year award" to the outstanding amateur among the memberships of the council clubs. Each club will be given an opportunity to nominate its outstanding member for consideration.

COMING ELECTIONS

Don't forget the club elections on December 17. There will be nominations from the floor December 14th and 17th, with the election following on the 17th.

This is a very important meeting, so try to make it if at all possible.

Christmas Party. Don't forget the deadline for reservations will be just about run out by the time you are reading this, so get in contact with W7EUN now!

Smitty, K7ATD and Dick W7RGD were called out for a 2-11 fire with the C-D bus on the 24th. It was like old home week for them since the fire was at the Ross mill at 19th and East D. This is the third fire at the same place, that the bus has been called to. I'll bet the insurance people go over the remains with a fine tooth comb.

North Seattle Amateur Club will have their X-mas party at the Wharf restaurant in Seattle December 3. Contact K7CTP for information and reservations. The cascade club of Everett will have their free X-mas party December the 17th in the basement of the county Court house in Everett. There will be Bingo, prizes, etc., contact K7GZI for further details.

Honorary club member, Ed Moe is currently in the hospital. The nature of his ailment is unknown to the Bark at this time.

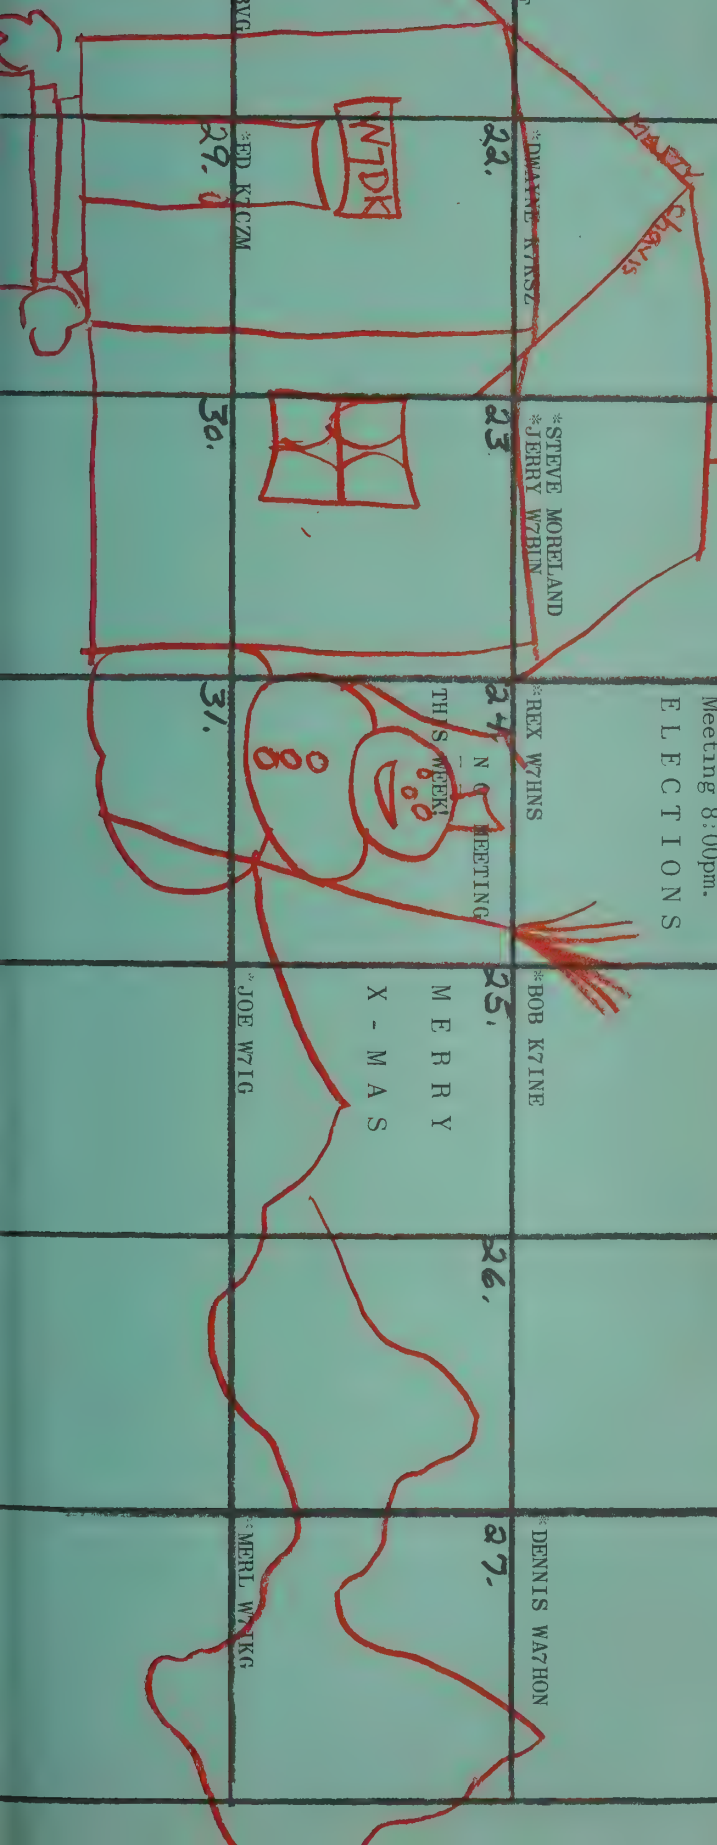

Hank Gepke, WA7HFG, put his foot through the club's front porch roof at the work party at the club house. He is non-the-worse for the ordeal but the porch will have to be patched up. The material for the job has been obtained and another work party will be needed for the job along with some other necessary work on the club house.

Still no conclusions regarding the MARS station for the club house.

It appears the Club will be the host for the State Hamfest this coming year. Merl W7IKG and Dennis W7UBA will be the co-chairman, so be ready to receive a call for your help.

VOL VI NR XI

W7DK

NOVEMBER 1969

FROM THE PRESIDENT'S DESK

I feel that the majority of our members are very active in the club. However, for many, this period of activity lasts for about six hours a month, or, in other words, only during meeting time. Since our yearly dues allow us to be full time members, let's start getting active every day of the month, not just during meeting times.

How many of us talk to other hams in the Tacoma area every day and even though we know they are not members of the club, don't bother to mention that there even is a Radio Club of Tacoma? How many times does someone stand up at a meeting and say "I volunteer to do such-and-such" and come next meeting we all find that it hasn't been done yet because "I completely forgot about it" or "I've just been so busy that I haven't had the time to get it done". As busy as some of us appear to be, I am surprised that we get any attendance at all at the meetings.

Let me close with this offering: "The best way to get something done, is to do it." And now, fellow members, let's start getting something done.
..... President Bob K7IND

MEETING CHANGES

The regular meeting dates have been changed by club vote, for the month of December. Due to Christmas eve falling on the regular meeting night on December 24th, the club voted to change that meeting night to one week earlier. Thus the two meeting nights in December will be on the second and third Wednesday instead of the usual second and fourth. This means the election night meeting will be on the 17th. Be sure to attend and vote for your choice.

AT LEAST ADAM NEVER HAD TO LISTEN TO EVE BRAG ABOUT THE OTHER MEN SHE COULD HAVE MARRIED.

COMING PROGRAMS By W7BUN

November 12

Dick Engh, ex W7GDW and now KS6LIE, will visit the Radio club and relate his experiences in American Samoa. He will show slides and tell of the life he lived there. Dick was there for a year, working with the t-v and radio stations on their education for children and adults. During the time he spent there, Dick was on the amateur bands and was on the receiving end of being a rare piece of dx.

November 26

Former club member, Howard Hanson, W7MPX, who is the author of numerous QST articles will talk to the club and show some of his present and future projects, including the "junk box transistor checker" in the October issue of QST. An avid experimenter, Howard has many unusual and new ideas to discuss so be sure and don't miss this meeting.

Among future programs planned, will be a representative of the Heath Company, who will demonstrate the new Heath 2kw linear and other Heath products. There is planned a talk by a local antenna expert in the near future so be sure to attend all meetings so as not to miss all the coming attractions.

QSL BOARD

The club has a new qsl board mounted in the club house and it is hoped that every member of the club will mount his own card on it. If you can't get to meetings to post it yourself, get it to a member who can or mail it to one of the officers of the club and he will post it for you. The board has only a few mounted on it now so let's see how quick we can fill it up.

IF THERE'S SO MUCH HATE IN THE WORLD, HOW DO YOU ACCOUNT FOR THE POPULATION EXPLOSION?

R 242
ams throughout the United States have expressed
interest in seeing that immigrants who have taken
at first papers toward citizenship be permitted
to apply for amateur licenses. S-1466 is the num-
ber of a bill co-sponsored by 22 Senators current-
ly under consideration which would permit this.
Many radio amateurs wishing to support S-1466
have also indicated their unawareness of the
channels to follow. Full information along this
line appears on page 74 of July QST BT

R 243
Concurrent with the October 26 shift to standard
time throughout the country, W1AW will resume its
full Winter schedule. Code practice will take
place at 0030, 0230 and 1400 GMT, which converts
to 4:30 pm PST, 6:30 pm PST and 6:00 am PST.
November QST will note expanded W1AW operating
time as well as the first morning qualifying run,
scheduled for December 10. The full W1AW schedule
is available upon request of ARRL, 225 Main
Street, Newington, Connecticut 06111. An address-
ed stamped envelope will help to speed a copy to
you BT

R 244
Amsat, the Radio Amateur Satellite Corporation,
reports that an early winter launch of the
Australis Oscar 5 Satellite is likely. The
amateur satellite is designed to transmit on
144.450 MHz and 144.050 MHz. Amateurs interested
in tracking the satellite should review the QST
article series beginning in the July issue. The
orbit of Australis Oscar 5 is expected to be
essentially the same as the example used in the
October QST tracking article. Special reporting
forms are available without charge from Amsat.
Send an addressed stamped envelope to Amstat, Box
1, Washington, D.C. 20044. Listen to W1AW
bulletins for further information on the launch AR

Pd Adv.

In last month, October 1969 issue of the
Loggers Bark, for the second time reported the
early formation of the Radio Club of Tacoma on
October 20, 1916 and now it is real fitting and
interesting to report a recent qso which occurred
about like this;---

During our annual Loggers Contest, Jerry W7EUN,
was called by K4UVH, Bert B. Noll of 121 Maureen
Drive, Hendersonville, Tennessee, who told Jerry
that he had a picture of the Radio Club of Tacoma
taken about 1914, which showed his father and his
grandfather and that they both knew Howard Reichert
7HR our first President. He said, 'I will make
a copy of the picture and send it to you and
possibly you can identify some of the others in
the picture for me.'

The picture did arrive and we found that these
are the same family which were actually reported
in the Tacoma News Tribune article, dated January
21, 1917, which displayed this same picture and
gave the names and list of the members of the
Radio Club of Tacoma at that time. Only the names
were printed in apparent error as Mr. Bert Noel Sr.
and Bert Noel Jr., both members of the Radio Club
and reported their address as 5027 South Yakima,
Tacoma, with no registered calls.

We now have two more faces in our first picture
identified, thanks to Bert Noll K4UVH. Jerry re-
quested that I send information as to the identi-
fication of the others in the picture, and I have
done so. Also mailed to him is a copy of our 69
roster book so that Bert can try for a loggers
certificate. (*)

The most interesting part of this story seems
to me is that we are so proud of our heritage of
those who started this historic radio club and to
have a grandfather, then father and now to find
their next in line to be an amateur. Wouldn't it
be notable to have Bert Noll K4UVH apply for mem-
bership and join his father and grandfather in
this, their Radio Club of Tacoma!

To this end I have included an application for
membership with the roster book sent to Bert. I'm
sure all of our membership join me in thanking
K4UVH and his father Bertram Noll for this inter-
esting information and contact.

We hope to hear more from Bert and his father
Bert too.

Submitted by your membership historian of the
Radio Club of Tacoma, Inc. on October 1969, 53
years later....

73 Doc Spike W7OS

(*)EDS NOTE: Copies of this month's Loggers Bark
will be mailed to the Noll's.

WHEN A MAN REACHES AN AGE TOO OLD TO SET A BAD
EXAMPLE, HE CAN THEN START GIVING ADVICE.

ATTENTION ARRL MEMBERS

Henry Gepke, WA7HFG, club member announced at the club meeting in October that the post office is presently making a check on the delivery dates of the QST magazine into the Tacoma area. When receiving your QST magazine in November, please note the date and put it on the cover of the magazine before you forget it and pass the information on to the President of the club and he will see to it the data is passed on to Henry. There have been complaints about the late delivery of QST and this is the way the post office can trace the routing and determine if there is a delay and if so, where and why.

CLUB BANQUET

The club's annual Christmas party will be held at the McChord AFB, NCO Club, Saturday December 6th. There will be a roast beef and fried chicken buffet, followed by dancing to the music of Gary Van and his band.

Jerry, W7EUN, is taking reservations at this time. Reservations must be paid in advance for reservations so be sure to contact Jerry. This will be the last chance to remind you in the pages of the Loggers Bark.

ROSTER BOOK CHANGES

We have one new member to report for the month of October. Please add him to your roster book on the pages provided for that purpose.

J. Chris Jensen WN7MJK SK 9-3910
3620 North 12th
Tacoma, 98406

Welcome to the club Chris and we hope you will attend as many of the meetings as possible and join in on the many activities of the club. New address change for;

WESTPORT WORK PARTY

Stan, W7LIR, and xyl Greta are well pleased with the results of the work party at their Westport cabin,

Greta, now has a light switch on the front room lights and the kitchen sink plumbing is working like new once more. So the cabin is now ready for next summer.

The work crew consisted of Roy W7AZI, xyl Ethel W7WLX, Scotty K7CYZ, xyl Vivian and son Scott and Tom Morgan. Stan and Greta, of course, kept the fire going and the coffee hot.

LOAN COMPANY SIGN-"WE OFFER MONTH-TO-MONTH

SLIVERS AND SLIVERS

The editor of the 'Bark', Margie K7AMJ, is back from her month's vacation across the States with lots of pictures and stories to tell.

Ask Roy, W7AZI, about the fish that got away on the jetty at West Port.

Glen, W7CMZ, has a story also about the Grouse that got away, and Scotty, K7CYZ, has a story about the jack rabbit that did likewise.

It is with regret we report the passing away of President Bob Gates mother and the father of Bob Churchward. The club's sympathies go to both members and their families.

The Boy Scout Jamboree has come and gone without the boy scouts contacting the club to make arrangements. Contact was made in plenty of time but the scouts apparently forgot the dates or did not want to participate on the air.

The traveling trophy is back at the club house again. The new rules to get rid of it are that the club in possession must deliver to another club rather than another club visiting to pick it up.

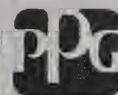

Don't forget the pot-luck dinner at the club house on the 10th of this month.

The hanger door has been constructed and mounted on the hanger at Joe W7IKG's place in token of the club's appreciation for the use of his place on field day.

Hunt, WA7AKW, advises the club is approximately \$90.00 dollars ahead on the Hamfest at the present time. Still some bills to be paid and some to collect.

During the last meeting of the month, Doc W7OS, was presented with some of the old minutes of the club from back in the early 1900's that were found in one of the rooms in the club house, when the members were moving stuff out for the work parties.

The two radio club bowling teams met head-on out at the Bowlero Lanes on the 21st. Team two had all the pins wrapped up as far as team one was concerned on the first two games. Went into the final third game 125 pins ahead but team one woke up and came through when the pins were down and totals added up, they had split the four games down the middle. Two apiece. Had quite a rooting section going for both sides.

OCTOBER 1969

FROM THE PRESIDENT'S DESK

The club has been offered the chance to engage a most worthwhile project of running phone patches between servicemen in S.E. Asia and their families in the U.S..

Since the club's application for MARS membership has been lost in the shuffle, I have done some thinking on this problem and have come to the following conclusions. We must be prepared to run the station 7 days a week, 365 days a year. Therefore any member who is willing to give some time to this project, please call me and leave your name. If we can get enough, 2 men operating hams, (and I'm sure we can) I will bring up the subject at the first meeting in October.

If we do not get enough response from the membership, I will assume we do not want to re-apply for MARS membership and the subject will be dropped.
.....President Bob K7IND

BOY SCOUT JAMBOREE

by W7BUN

The 12th annual Boy Scout Jamboree on the air will be held the weekend of October 18th & 19th. Jerry, W7BUN, was appointed by the club President to contact the Area Scout Executive Officer to defer our club's participation. Jerry contacted Herb West, who will place a notice in "Trails" the local scout newspaper. All hams who wish to help in this worthwhile effort, contact Jerry, and he will arrange to have up to six scouts visit our hamshack on the evening of Saturday, October 18th. 4U1ITU at Geneva, home of the World Scout Bureau, and K3BFW, headquarters station of the Boy Scouts Life Radio Club will be on the air. Frequencies to be used are 3940, 3990, 7240, 14290 and 14990 kHz. Here's a great opportunity to show off your radio to some youngsters, who might just get interested in becoming hams themselves.

COMING PROGRAMS

by W7BUN

October 8th.-On the first meeting of October, we will be visited by the North Seattle Amateur Radio Club. For entertainment of our guests, we will show our new colored Field Day film. It is hoped to have the sound track added to the film for this showing. Let's all turn out and meet our guests, and show them our finest hospitality.

October 22.-Harry Lewis, the ARRL Sections Communications Manager, will present "A Synopsis of the History of Amateur Radio". Harry, W7JWJ, gave this talk to a Seattle club last month, and it has since been widely acclaimed as an extremely interesting presentation.

ARRL SWEEPSTAKES

Jerry, W7BUN, has ordered 300 logsheets and 30 dupe sheets from ARRL for the November Sweepstakes Contest. Contact Jerry at the club meetings or at home (phone TH 5-7652) for your logsheets. Let's make a good showing for the club this year. Turn in all your logs through the club Secretary. Remember, the phone portion is to take place the weekend of November 8 and 9 and the cw portion will be held the following weekend, November 15 and 16.

X-MAS PARTY

The Radio Club's annual Christmas party will be held at the McChord AFB, NCO Club, Saturday, December 6th. There will be a roast beef and fried chicken buffet, followed by dancing to the music of Gary Van and his band. Bar opens at 6:30 dinner at 7:00 and dance from 9:00 to 1:00. Price will be \$2.25 and this includes the tip. Reservations MUST be paid in advance and the deadline for reservations will be December 3rd. Contact Jerry, W7BUN, for reservations or details.

NEW TACOMA CLUB

On October 20, 1916, the Radio Club of Tacoma Washington, was organized at Mr. D. Mason's station on 13th Street. The following officers were elected:

President, H. G. Reichert
Vice President, D. Mason
Secretary, Edwin Moe
Treasurer, Alvin Stenso

A committee for drafting the Constitution was chosen, consisting of three club members.

Up to the present time the Tacoma Wireless Amateurs have had no Radio Club regardless of the large number of radio enthusiasts in that city.

The purpose of the club is to promote the interests of Radio Communication among its members and other radio operators on Puget Sound.

A meeting of the club is held every Thursday evening at 817 North 13th Street, order being called at 8 o'clock.

All correspondence should be addressed to the Secretary, Mr. Edwin Moe, 4118 N. 16th Street, Tacoma, Washington.

(Taken from the Pacific Radio News October 1916.)

THE POET'S RETREAT

The jurors gave the verdict,
One dark October day,
They convicted Old Man Static
To his cell across the Bay.

'Twas no surprise to radio "hams",
Commercial men as well--
Old Static keeps the ether jammed,
Does things we would not tell.

His buzzing, rumbling, heavy click
Caused more than one harsh word,
From men who to their tuners stick,
And nothing else they heard.

They cuss Old Static up and down,
From Nome to Panama,
His name has gained world wide renown,
His spirits spread afar.

In summer when the nights are warm,
He starts out on his task,
He raves about from eve till morn
And travels mighty fast.

He spits his fire to and fro
For six long summer months,
Conditions then do better grow
And he stops his funny stunts.

In Winter time he disappears,
You wonder where he goes,
In JAIL, that's where he sits in tears,
We've told you something no one knows.

IN APPRECIATION

The Radio Club of Tacoma, committee working with the club museum of old radio gear, has on several occasions written notes in the Loggers Bark and made announcements at the meetings urging all of us to be on the lookout for historical radio gear and historical writings and publications, to be sure that they are preserved and do not find their way into the familiar garbage can or garbage dump.

Recently several of our members and friends have sent and brought in items for which the committee wishes to express the thanks of the Radio Club.

Bob Weightman WA7IPR brought in a most interesting crystal (triple) detector and a Jefferson radio tube charger.

Roy Devish W7AZI brought in two items we needed to fit out the old transmitter, donated by Herbert Holt (a 0-500 ma meter and a brand new 100TH tube)

Paul Taylor WA7HNL brought in a Vibroplex bug and Paul made some contacts with the boys at the Laffayette Radio and Electronics 3863 Steilacoom Blvd. SW, Mr. Gordon Jamssen, manager and Jim Blaine WA7EBI who donated two full boxes of real nice items including many tubes, telephone hand microphone, and early radar tubes.

George Abbott WA7BHH, Herb Holt ex-W7AIJ, Ed Moe ex-7AG, Dick Hazelmeyer, Tim Blair WA7FVT, Len Wickstrom W7ZZL and others have also donated pieces for our museum.

We of the Radio Club of Tacoma are grateful and we hope we all will keep the museum and our library in mind.

Thanks for the help..... Doc, W7CS

POT LUCK DINNER

Don't forget the annual Pot-Luck dinner at the clubhouse. The Ladies Auxiliary have announced the date as November 10th and 6:30pm. This has always proved to be a very welcomed club activity in the past. This is a chance to hold that eye-ball qso over a good meal. If you have never attended one of these get-to-gethers, take it from one who has, you won't regret it.

CLUB ACTION

The club voted to build and install a new gate for the front of the airplane hanger up at Joe and Helen Asplund's place. In this manner, the club can show its appreciation for the use of his farm for the activities on field day.

In the same vane; some of the club members are going to Westport October 4th and 5th to do some 'fixing up' on Stan and Greta Warburton's shack, in appreciation for the use of the place during the fishing trip and the picnics, these past many years.

ROSTER BOOK CHANGES

We have no new members to the club for the month of September, to report. The following are changes in addresses or phone numbers.

Rex Maner K7VCX

George Abbott, WA/BHH, will attest to the fact that a tow-truck is a very solid object. His car totaled out but George came through with only bruises and scratches.

Russ Chryst, W7ATB, is home, up and around now, and is feeling very good and looking for visitors.

Hunt Mitchell, WA7AKW, says the Hamfest account is finally beginning to straighten itself out.

This year's Loggers Contest attracted 7 entries. The results have not been finalized as yet.

Jerry Seligman, W7BUN, is getting the Sweepstakes entry blanks and log sheets from ARRL and will hand them out at the October 8th meeting.

Still no leads or information on the missing equipment that was removed from the Club House or information from the Tacoma police department.

The editor of the 'Bark', Margie Chavis, K7AMJ, is on a vacation on the East Coast for the month of September and part of October. The Q.M., Merl, W7IKG, has talked to her via amateur radio with the help of another member, Bill Rohrer W7ZFY, who is stationed on the East Coast. Margie expects to be back in time for the next issue of the 'Bark'.

Bob Weightman, WA7IPR, is back from a visit to his daughter's on the East Coast.

Scotty Huntley, K7CYZ, is sporting a new 16 foot house trailer. All ready for the hunting season.

Bob, WA7IPR, advises the museum room at the club house is now completely wired and ready for the next step in the construction work.

It is with regret that we report the passing away of Mel Pruitt, W7ATF's mother. The club's condolences go to Mel and his family.....73

W7DK

SEPTEMBER 1969

FROM THE PRESIDENT'S DESK

Now that summer is over, hope to see more of you at the meetings. We have many important things to discuss and much work needs to be done. I would like to see our museum room finished soon as well as some very important maintenance on the club house.

All these things need to be finished before winter arrives. We also have some interesting club projects in mind as well as some real FB programs coming up.

So come on guys and gals, support your club and come to the meetings.

...73 Bob K7IND

COMING HAMFESTS

The Skagit Amateur Radio Club will have it's annual Salmon Bake Saturday, September 6, starting noon at the Oak Harbor Salt Water Park. This will be a pot-luck dinner but the club will furnish the barbequed salmon. For the amateurs, who have trailers or tents, there will be space available to set up. This outing has always been well attended in the past and should be a good chance to renew old acquaintances and start some new ones. See you there!

The Walla Walla Hamfest will be on Sunday, September 21. The guest of honor will be our own club member of many years, Dewey Wilson W7HF. The details are listed elsewhere in this month's paper with a full page add, supplied by the W.W. club DP.

PAST PROGRAM

The next column has Bill W7ZFY, just before his talk to the club members, during the club meeting August. His talk included color slide pictures, which were worth a million words. Bill has returned to duty on the East coast, after being with the club at Westport. (see next column.)

BILL W7ZFY - PRESIDENT K7IND

MEMBER SAYS

For many years I have enjoyed the thrill of trying to complete a QSO, or contact with each and every member of the Radio Club of Tacoma, but so far I haven't been able to make it 100%. Maybe I am not fortunate to have enough time to spend at it, or perhaps we are getting enough new members to just keep out of my reach. Anyway, I hope that some day I will make my goal.

The up-coming Loggers Contest, September 6th and 7th will be a good time to give an extra effort, and I hope that all those who have not made a contact with W7OS, will find time.

Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

COMING PROGRAMS

by W7BUN

On September 24, the club will be honored again by a visit from Mr. Raymond Kendall. Ray visited the club and gave a talk on electronics and transistor theories last January 8th. He is very well versed on the subject and plans to go further into the subject matter with actual diagrams and circuits.

Mr. Kendall is presently an instructor at McChord AFB and has graciously donated his time to continue the subject he started in January. Let's not let him down by a poor attendance.

The first meeting of the month (10th) will be auction night so bring your money and parts you
(continued next column)

PROGRAMS (cont.)

wish to donate to the club that night. At the present time the club does need more gear and parts to make it a successful auction.

The fall season is upon us now, fellow members so we should bring our club meeting attendance back up in numbers. The club house has plenty of room so don't dissappoint our program chairman by not being there. The programs have been widely varied over the past and should have filled the requests of all members and not just a few, so will see you at the meetings!

W7HZ PICNIC

Where were all you club members the day of Dewey's picnic on Hoods Canal? We had the usual good weather and lots of good food but very few hams. The Churchwards, Devishes, Warburtons and Chavis's were there to eat. Bob Weightman got there in time to play yard darts and a game or two of horseshoes. We, that were there, had a great time and want to thank Dewey again for his hospitality.

WESTPORT DERBY AND PICNIC

I'm sure the people who didn't show up at Stan, LIR's place at Westport August 22 and 23, will be there next year. We had 41 people there and the parking lot was full of cars, tents and trailers. There were plenty of places to sleep and enough food to make Fort Lewis happy. The campers fared better than the fishermen!! They came down just to enjoy the outdoors and indoor games but the fishermen came for mainly to catch fish! Well a few did catch fish, a few got sea-sick and a few just went for a pretty wet ride in a boat. The first fish was caught by Bob Ryan. Dick W7JGN, Dick W7RGD and Jack Stewart caught a fish also. (Dick's being barely legal)

Merl W7IKG, Scotty K7CZY, Bob K7IND, Bob W7IPR, Ralph W7COP, Roy K7USF, Bill W7ZFY, Scott and Tim Ryan just went along for the ride. The warnings were up at 10am, so the boat was out in early!

Of course Friday night was spent playing a new board game that kept everyone up until after midnight.

Saturday, we had 2 games of yard-darts and one horseshoe game going. This kept everyone busy challenging each other to see who would remain champion. No one lasted too long.

Saturday night was another round of cards! It was a game! It really kept you on your toes. When the boats returned Sunday, we started getting ready to leave. After a good dinner we started home and I do believe this is the biggest turn-out (cont. next column)

ARRL BULLETINS

NR 232

The FCC has released the following information. The ITU has been recently informed of the withdrawal of restrictions regarding radio communications between amateur stations in Thailand and those in other countries. Authorization will be granted for the Thai nationals only. However, for any foreign national a reciprocal agreement is required. This information updates the list appearing on page 82 of August QST BT

NR 233

All amateurs are invited to participate in the ARRL September 13 Frequency Measuring Test. W1AW will transmit signals for measurement at 0130 GMT September 13, which represents the evening of September 12 for most United States and Canadian amateurs, on approximately 3557 7089 and 14,068 kiloHertz. A second series of signals for measurement will be transmitted at 0430 GMT on approximately 3568 7088 and 14,091 kiloHertz. Although Official Observers only will receive individual reports, any amateur may submit his results for possible QST Honor Roll listing. In addition, the official readings will be transmitted via a special W1AW bulletin on or about September 25. Further information appears on page 100 of August QST BT

NR 234

Public service communication has been a traditional responsibility of the amateur service since the very earliest days of our hobby. The Amateur Radio Public Service Corps implements this function. ARPS is discussed in detail in the ARRL Public Service Communications booklet, a complete manual for amateur radio emergency and traffic operation. This publication is available without charge from ARRL Headquarters, 225 Main Street, Newington, Connecticut 06111. An addressed legal size envelope with twelve cents United States postage will help to expedite your copy BT

NR 235

The twelfth Boy Scout Jamboree on the Air will be held from 0001 GMT October 18 through 2359 GMT October 19, 1969. Several special stations will be on the air for the occasion, including 4U1TPU at Geneva, home of the World Scout Bureau, and K2BFW, headquarters station of the Boys Life Radio Club. A fraternal get-together rather than a contest, it provides an opportunity for scout chats and for amateurs to demonstrate ham radio to scouts. For help in locating a scout unit near you, try the local Scout office listed in your phone book or write ARRL. Further details will appear in October QST AR

CHEERFUL PEOPLE, THE DOCTORS SAY, RESIST DISEASE BETTER THAN THE GLUM ONES. IN OTHER WORDS, IT'S THE SURLY BIRD WHO CATCHES THE GERM.

RULES FOR LOGGERS CONTEST

1. The contest will hereafter be referred to as the 'Loggers Contest'.
2. The contest is only among members in good standing in the Radio Club of Tacoma Inc.. The object is to publicize the Radio Club of Tacoma (W7DK) and the Logger Certificate, and try to make as many contacts with any other amateur radio station as possible.
3. The contest will be held from Saturday, September 6, 1969 1600 PST to Sunday September 7, 1600 PST.
4. Any band, frequency, power or mode may be used, within the provisions of the FCC regulations, but only one contact will be counted for each station, regardless of frequency or mode.
5. In order to count a contact as valid, it must be a two way contact, and the log must contain the date, time, signal report and the station's QTH.
6. To count toward a score, one point will be allowed for each contact, except that any novice contestant will be allowed 4 points for each contact when using his novice call. Five additional points will be allowed to a contestant who receives from a station with which he is in contact, a valid request for a Loggers Certificate and enters such information in his log. The information will include the call of the stations claimed and the dates of such contacts.
7. There will be 5 prizes awarded for the five highest scores, one or more must be novice operators.
8. Each contestant should submit a log of his operations to the contest committee by October 8, 1969.
9. All entries shall become the property of the Radio Club of Tacoma Inc., and the decisions of the Logger Contest Committee shall be final.

 692 am Navy mars net also use rttty

P.S.C.R.C.

The Puget Sound Council of Radio Clubs will again issue an Operating Achievement Award Certificate, signed by Governor Dan Evans during Amateur Week, September 1 through the 7th.

Amateurs from outside the State must work 10 Washington State amateurs to qualify for the award. Amateurs from inside the State must work 5 other Washington State amateurs to qualify.

The list of the calls, with their qth's and where worked should be submitted to the PSCRC, c/o Awer A McChord AFB, Washington 98438.

During the PSCRC meeting the subject of a possible contest between the member clubs was brought up. Give it some thought and bring your ideas to the meeting. Jerry, W7BUN, will take them to the council meeting.

As noted in the ARRL Bulletins, the Boy Scout jamboree will be coming up in October and the club should give it some consideration. The past 2 years the club didn't do too much. Three years ago, several club members did and a good time was had. It isn't too early to get the ball rolling on this.

Other: "WASH YOUR ARMS."

Senior: "FOR LONG OR SHORT SLEEVES?"

HEARD OR SEEN AT WESTPORT

One very green President, very pale Coastguard officer, five beautiful fish and tons of green water.

Merl and Scotty discussing (or cussing) the Highland Golf Course in Cosmopolis.

Bob Ryan trying to get the horseshoe pegs to stay under the horseshoes.

Ethel Devish trying to get the dart rings in range.

Merl and Ed playing boy scout with the wood heater.

Art Wing paying to learn a new card game.

Ask Vivian Huntley why we didn't have any blueberry hot cakes?

Stan Warburton adding some dry grounds to the wet coffee.

"Bill, W7ZFY, is a dirty dart player."

"Jean Gates cheats at cards!!"

Roy Devish overslept Saturday morning and Stan had to fix the hot-cakes.

MISSING GEAR

The Radio Club has some missing pieces of gear etc. from the club house. Missing are;

390 Collins receiver

4350 RME receiver

Johnson Ranger transmitter

Electric wall clock

Coffee urn

Certificates (in frames)

Wall plaque

If anyone has these items or have knowledge of where they might be, please contact our club President, Bob Gates K7IND, and let him know.

If none of our members have these items, we will have to assume, they have been stolen, although the club house shows no signs of a forced entry. If you have any ideas, contact Bob and let him know as soon as possible.

SLIVERS AND SPLINTERS

We are Happy to report that Russ, W7ATB, is home from the hospital and able to have company. He would like to see some of you club members.

Dick Eng is now back in the States and will be staying. Just got back during the last week of August and just getting settled down.

Thanks to Bob Weightman, WN7IPR, the club museum is the proud owner of a triple detector and a tube charger, donated by him.

During the August meeting, Hunt Mitchell gave a report on his bandaged finger. Said, "can't sign any checks". Sounds like the club might prosper at Hunt's discomfort.

Ray Etherington, a good friend to the club, is in St. Joe Hospital recuperating from surgery.

The club voted and approved the Jr. Auxiliary's formation. At present they are working on a program of classes for new ham operators. Good luck

During the August meeting a motion was put before the club and passed, that the club will have 2 meetings during the summer months instead of the present custom of only one. Under discussion the problem of too many problems coming up that no action could be taken for 30 days in some instances.

Beryl and LaVerne, K7NPG & K7NKZ, have made their last move. (they say) Will be on the lower bands as soon as Beryl can figure out how to get an antenna up among the trees and still get out.

A few of the daughters of the Radio Club members were wondering, what happened to the Jr. club members during the picnic at Westport? You missed a good picnic fellows, in more than one way.

Roy, W7AZI, getting the boos from fellow members for suggesting having breakfast at 6am during the recent picnic at Westport. Among them xyl, Ethel W7WLX.

Emil, K7GPK, reports that his family did not win any prizes in the local salmon derby this year. Too many activities around the qth, so did not enter this year.

Bill, W7ZFY, and xyl Peggy started back to the east coast. The car broke down a short way out so returned to Tacoma. Bill then decided to try and catch a salmon and that fell thru when the Coast Guard sent the fishing fleet back onto the beach. This was adding salt to the wound, since Bill had already donated his breakfast to the fish for their cooperation. I guess some days are that way, Bill. Maybe next time?

Smitty K7ATD and xyl Rene are back from their vacation into the north land. Got back in time to go to Westport picnic. Smitty was helping-out Stan, repairing the bunk house windows.. No rest even on your vacation, huh Smitty?

Don't forget the regular club meetings fellows and gals. Fall is falling and winter is coming and we

CLUB BOWLING

The radio club will have 2 men's bowling teams again this year. They will bowl at Bowlero Lanes on Tuesday nights at 8:45. The following members are signed up to bowl. Team 1 are;

Bob Weightman WN7IPR

Ralph Rawlings W7COP

Bob Churchward W7RXS

Otho Smith K7ATD

Team 2

Max Bice W7AEA

Cliff Osborne W7MFG

Dennis Reanier W7URA

Dick Palmer W7WQT

Roy Monroe K7USF

Maybe we can get 5 more for another team. These fellows really have a good time out there. Let's give them some support this year and go out and cheer them on.

Radio Club team 2 says, 'we are taking first place this year.'

SUNDAY CONTESTS

FREE REGISTRATION! -- Be sure and sign the Book for each member of the family!
Registration Prizes -- For the XYL a 7 piece Dessert set.. For the
OM, a 1969 ARRL Handbook.. And for the Harmonic -- a Telegraph key!

* * * * *

BEST QSL CARD wins a prize! Post your card on wall; let everyone know you are present!
XYL cards will win (1) 7 piece glassware set, (2) Manicure set, and (3) Tote bag!
OM Cards will win (1) one year subscription to Ham Radio Mag, (2) Transistor Manual,
and (3) Portofile!

#####

Youngest Ham present (age) will get a new Key; The Oldest Ham (YL or Xyl) will get
a free RCA Tube Manual... And the Ham coming furthest Distance will get
A REAL BIG BOTTLE. (He'll maybe need it)

Participate in the YL-XYL Scrambled Kitchen Words Contest.. Top four winners each will
receive a BIG GIFT BAG donated by Cracker Barrell Net.. (Cheezits?)

And don't overlook the YL-Xyl MYSTERY JARS -- 2 Contests.. Prizes include (1) Flower
Vase, (2) Serving Tray) AND (1) Silver Bon Bon, (2) Manicure set..

AUGUST 1969

HAMFEST 1969

The 2nd annual State Hamfest is over! We hope those who attended the Hamfest are as satisfied as we are.

Never has a project that I have been chairman ran so smoothly and enjoyable as this!! It was a great pleasure to hear the people, who worked so hard with me to make it a success, say "next year we'll try this..". When something goes so well, everyone is ready to do it again.

I want to give a very special tnx to my right hand man, Dennis W7UBA. He did a tremendous job. Working with him was Scotty, K7CYZ, who never stopped to catch his breath hardly. Young Scotty did his fair share along with Easty, W7BE, selling the raffle tickets. Ed, K7CZM, did a great job with the dinner. He had the tables set up and ready to go in no time flat. Roy, W7ZI, and Smitty, K7ATD, had a tremendous breakfast, which produced a fair amount of cash. John, W7ZF, spent the first day covering the registration desk. A special tnx to Paul, WA7HNL, along with Henry, WA7HFG, who were always there when you needed them. Rene Smith did a great job on the tables and had a fair crowd there to enjoy them.

The ladies auxiliary had quite a snack bar on Thursday and did a real fine business. Those gals were pretty and fair hash slingers. Ethel W7WLX and Vivian Huntley were the bosses and they really had an enthusiastic crew.

The archery demonstration handled by Lind Olson, was well attended by the people there. The demonstrators were members of the Sportsmen's Club.

Thanks to Bob, WA7IPR, who sat out at the road to make sure no one got lost.

A lot of credit is given to the Jr. Auxiliary members Scott WA7IYZ, Omar WA7HPK, Larry WA7JPC, Mike K7FVT and Jim WA7KTD. They spent most of their time selling pop and ice cream bars to build their treasury. The rest of the time they

spent helping the girls do dishes.

Steve K7SSC, Chip K7VPF, Rex K7QQQ and any others I missed, I wish to thank. Every one there from the club, responded when asked to help.

Last but not least, those of you who did your share before the hamfest and couldn't attend. Dick W7RGD spent 3 solid weeks getting the program ready plus all the stationery and other printing job. Cliff W7MFG and XYL Barbara W7UYL did a lot of letter typing and answering. LaVerne K7NKZ, who got the registration started and Art W7JGN, who helped purchase the women's prizes. Art did come out for a while.

If I left anyone out, please call me as I want to make sure everyone gets their special tnx.

Well gang, are we ready to go again next year? Let's hear from you members.

Thanks again....

Merl W7IKG

PUYALLUP RIVER RACE

by WA7FVT

K7IND, K7INE, K7CZM, W7TRA and WA7FVT served as communications for the Puyallup River Boat Race. The river was high and rough. 39 boats entered the race and about 16 finished. There were boats that lost their motors, some that flooded and some that didn't even get started.

It was a fair day for the race and we could have used more stations along the route but we did ok, thanks to W7TRA mobile, who went on a hill and served as net control. WA7FVT was at the starting line in the water, K7CZM was at the half way point and K7IND at the finishing point.

The Web-footers (jeep club) also were there to help with the race.

Don't forget the picnic at Dewey's August 10th.

Also remember the fishing trip and picnic at Stans place at Westport on August 24th.

W7HF PICNIC

It's that time of the year again!! Dewey, W7HF, has cordially invited the Radio Club to his place on Hoodscanal. He always orders nice weather for the day, so let's all go and take advantage of his hospitality and enjoy a good time!!

Bring a pot luck dish and your swim suits.. It would be nice to see a good turn out this year and show Dewey we appreciate his generous offer.

See you there August 10th.

YOU'LL REALIZE THAT THE DOG IS MAN'S BEST FRIEND
AS SOON AS YOU START BETTING ON THE HORSES.

The Jr. Auxiliary had a picnic on July 19. Attending were WA7JFC and WA7IYZ. This wadn't so bad, considering they had girls along also.

The picnic had been planned for Owen's Beach with a menu of hot dogs, pop, corn chips, patato chips, patatote salad etc.

After arriving it was discovered that the fireplace was jammed so full we couldn't roast the hot dogs. The only alternative was to eat them cold, so we did. About five minutes and five upset stomachs later we threw away the garbage and put the left overs into the car and took off for Fort Nisqually. After 20 minutes or so we decided to walk to the bay via the multitude of trails. The trail we picked was fine for several hundred yards, however it soon led to a cliff with about a 15 foot drop and then a steep trail. Needless to say we didn't continue any further.

The next stop was the zoo. Unfortunately, we wasted too much time in the morning and had to quit the zoo almost as soon as we got there.

That's it for this time but the next picnic we'll try to fill up a page of the club paper.

Another field day has come and gone. The turn out was not as great as the previous year, but it didn't dampen the spirits of the participants and a good time was had by all. The average meals served were for 45 persons.

The club actually made more contacts but the total score was down about 200 points. Total score for 1968 was 19,414 and this year we had a total of 19,252. We operated with 9 stations this year as apposed to 11 last year.

It was also noted that we had numerous visitors this year, including a visit from the air as noted in the picture.

If you can't recognize Tim, WA7FVT, it was because he was too wound up working his station. Even during the slight rain squall we had, Tim buttoned up the flaps and kept right on going. This, I think, represents the spirit of f-d.

This aircraft actually flew into the f-d site and back out again. If you were there and watched it come in you almost expected Orville Wright to get up down from the one and only seat stuck way up front.

There were beards aplenty at the doings also. Since the Tacoma Centennial was still in full swing they were left on and a picture was taken for the club album.

A new project at ARRL Headquarters involved preparation of introductory amateur radio material for the 12 to 16 age group. Any amateur in this age group, as well as older ones, is invited to participate in this project. Address your ideas on what the publication should contain, what age reading level should be involved, as well as comments on theory coverage to ARRL Headquarters, 225 Main Street, Newington, Connecticut 06111 **BT**

NR 230

Effective January 1, 1969, the ARRL Advisory Committees became active in the fields of contests and repeaters. This pilot project is designed to afford a greater opportunity for amateurs to register their ideas and opinions within these specialty areas. Adequate response is vital to help these volunteers reflect the wishes of members of the Advisory Committees appears on page 62 of March **BT**

NR 231

Attention DXers. Announcement is hereby made of the deletion of Ifni from the ARRL Countries list. Only contacts made before May 13, 1969 will be creditable toward the Ifni listing. Contacts with stations located in the former Spanish territory of Ifni made after that date will be counted toward the Morocco listing. This deletion will affect Honor Roll totals as of August 1, 1969. Therefore, Honor Roll submissions for the month of September 1969 will be based on deleted totals of 312 CW/F and 311 Phone **AR**

HAMFEST SIDELIGHT

by W7OS

One of the nicest sidelights to attending a Hamfest such as the one which the Radio Club of Tacoma sponsored, is the new friends we all make. If we do our work well and make a good impression on those other Hams who come to visit Tacoma, some few will want to join with us enjoying the wonderful fellowship and apply for membership in the Radio Club of Tacoma. I'm exceedingly happy to announce that I have received the application from a XYL ham living in Seattle. I am sure many of you know her well on many nets.

Mrs. E. Charline Larson WA7DXI

850 N.E. 86th, Apt. 2

Seattle Washington 98115

(better known as DIXI)

Her application will be presented at our next regular meeting in August. I hope that you all will help me make her welcome when she first is able to attend our meeting. We all hope that she will take pride and enjoy her affiliation with us in the Radio Club of Tacoma.

"Is your girl a blond?" "Yes, she's a SUICIDE blond - she dyed by her own hand."

UPPER LIMITS

by WA7FVT

Six meters has been open to Alaska. KL7GLL has been in mostly on am and cw. KL7FNL and wife have been in on ssb and cw for short periods of time.

California, Texas, New Mexico, Michigan, Indiana, Wisconsin, Iowa, Dakotas and a few other States have been picked up.

It has been reported that Japan has been worked by quite a few stations. Only the am boys are working Japan. Seem there are no ssb stations over there.

Have heard some of our club members getting back on the air. Overheard were Doc, W7OS, Hunt WA7AKW, Cliff W7MFG, Dick K7MQJ and Scott WA7IYZ.

On two meters fm, there is talk of putting a repeater up on the mountain for communications between the east side and west side.

Two meters am is picking up. The main freq. is 145.35. Have been told that there are stations on trying to work WAS on two. Might be done!

Keep your ear open to the vhf bands and you might hear dx, fm, am, ssb, rtty, fax, rag chewing and cw.

VHF DIRECTORY FOR WASHINGTON

The following is a list of the frequencies used around the State on the vhf bands. We will run it two months issues and will list the 2 meter frequencies this month and the 6 meter frequencies September.

- 0.090 fm Output of Capitol peak navy MARS rptr.
Input to Arlington navy MARS rptr.
- 8.410 fm Input Capitol peak navy MARS rptr.
Output Arlington navy MARS rptr.
- 7.750 fm DX channel for 20 meter dx'ers
- 7.330 fm Canada popular fm frequency.
- 7.210 fm Yakima rptr output (rcvs on 145.260)
- 6.940 fm C.D. work & public service work
- 6.880 fm C.D. work on Thursday nights
- 6.760 fm Largest N.W. fm net freq. Input freq.
to Seattle rptr. (output on 146.580)
- 6.580 fm Output Seattle rptr. (2 inputs freqs.
of 146.76 & 146.34)
- 6.340 fm Mobile calling freq. for Seattle rptr.
(Output on 146.580)
- 5.260 fm Yakima rptr input. (output on 147.210)
- 5.350 am Local calling freq. for largest 2 meter
am net. Active mostly evening after 8
- 4.200 ssb SSB calling freq. for stations Canada
to Oregon
- 3.950 am Airforce MARS net. Also airforce rtty
freq. on Tues nights 8pm local time.
(mode AFSK)
- 3.700 am Output Arlington navy MARS rptr.
Input to Capitol peak navy MARS rptr.
- 2.950 am Input Arlington navy MARS rptr.
Output of Capitol peak navy MARS rptr.

Next month we will list the frequencies used on the 6 meter band. If you know of any other nets or activities on this band and would like to have them listed, contact K7MWC, 1518 So. Pearl Street, Seattle. Phone RO 2-7738.

W7HF PICNIC

It's that time of the year again!! Dewey, W7HF, has cordially invited the Radio Club to his place on Hoodscanal. He always orders nice food for the day, so let's all go and take advantage of his hospitality and enjoy a good meal!

Bring a pit luck dish and your swim suits. It would be nice to see a good turn out this year and now Dewey we appreciate his generous offer. See you there August 10th.

TEEN HAPPENINGS

by WA7FVT

Omar, WA7HPK, has been elected as President of the Junior Auxiliary of the Radio Club of Tacoma.

Larry, WA7JPC, has a new Swan 500 and is working dx on ssb.

Scott, WA7IYZ, has been on six meters with K7CYZ's rig and working the local hams on six. Welcome to six Scott.

Jim, WA7KTD, has received his General class ticket and has a new receiver from Dennis of C&G. He is working now on a transmitter and maybe he may have a kw on the air with the tubes he won at the Hamfest.

Tim, WA7FVT, is working on 2 meters am and 220 am and cw. Will be looking for skeds on 220.

WESTPORT OUTING

All you fishermen, get your confirmation for the Westport fishing derby. There are only 13 places on the boat and if you haven't confirmed a place by August 13th, you're out of luck. Please get your \$5.00 reservation fee to Hunt, WA7AKW, by that date and confirm it with me.

Here is the list; 1. Scotty Huntley 2. Scotty Huntley 3. Dick Ryan 4. Merl Chavis 5. Ralph Rawlings 6. Dick Weightman 7. Art Wing 8. Bob Weightman 9. Bob Gates 10. George Van Kleek 11. Roy Monroe.

Don't forget, Stan's place at Westport, August 23 and 24.
..... Merl W7IKG

SLIVERS AND SPLINTERS

Watch out for Ethel, W7WLX! She tries to get people to run red lights. It's a good thing Scotty, K7CYZ, pays attention to the law.

Saw Gene, K7EEK and XYL, Hazel recently. We hear they read our paper from time to time. Maybe they will make a club meeting soon.

Members Bill, W7ZFY and XYL Peggy are here from Maryland for his sisters wedding. He may make a meeting, while here in Washington.

Russ, W7ATB, in the hospital. Will be looking forward to seeing you back in the swing of things soon Russ.

Beryl K7NPG, LaVerne K7NKZ and Dick W7RGD back home from vacation trip up the Alaskan Hiway. Be sure to ask them to see their gold they panned in Eastern Washington.

Bob, WA7IPR, getting ready for a vacation trip back to the East coast to visit relatives.

The Churchward's Bob W7RXS & Inez W7RXT getting ready for their son's wedding in August. The last one of the harmonics to leave home.

Merl W7IKG and XYL Margie K7AMJ just getting over the turmoil of the Hamfest and starting again for the wedding of daughter Marie in August.

Short column this month due to everyone on vacations and having one meeting a month during the summer months. More next month. (we hope)

JULY 1969

FROM THE PRESIDENTS DESK

On this holiday eve, I think we should take a moment to reflect on the true meaning of the "Fourth of July". In these troubled times of strife and dissention, we need, I feel, to remind ourselves that this country of ours is the greatest nation on the face of the earth.

This 'greatness' was not achieved easily but with much sacrifice on the part of many. Even though our fair land may be deeply troubled today I have faith that we, the people, will emerge a stronger and better nation.

Happy Holidays to all and I will see you at the club house on the 2nd. Wednesday of July.*

Eds. note: Remember one meeting only in July.

HAMFEST

As a means of identification, we would like to have every member of our club to purchase a simulated straw hat from Dennis W7UBA. These hats are only 60¢ each and will be of great help to anyone wishing information or directions at the hamfest. Don't be left out, get one early.

We would like to encourage all our members to get to the Chateau as early as possible on Saturday the 12th. This Hamfest is going to be great so pitch in wherever you are needed. There will be a job for everyone of you. Don't be afraid to volunteer for anything.

If you haven't sent your registration in yet, please do so soon. Remember the deadline for pre-registration is July 7th. You save an extra 50¢ plus get into the drawing for the HW12. It's well worth it.

Everyone's coming, so will see you there.

.....Merl W7IKG

THE NEIGHBOR'S HOUSE IS FULL OF COLLECTORS ITEMS.
EVERYONE THEY BOUGHT FURNITURE FROM IS STILL TRY-
ING TO COLLECT.

NEW MOTION PASSED

A motion was made at the last meeting in June to recite the "Pledge of Allegiance" before beginning our meetings. This practice will start immediately. This is something that is done at all ball games, public meetings and most private ones. It is a good practice indeed.

BUILDING CONTEST

The judging of our Club's building contest was held last meeting night of June and three amateurs from the Cascade Radio Club visited us and were the judges for the contest. Thanks a lot fellows for coming all the way from Everett to help us out. We will be visiting your club soon to repay the visit.

The winners were as follows;

Bob K7IND first place for a two meter am receiver, which was a beautiful job, Omar WA7HPK second place for an impedance and swr bridge, which was well built, Scotty K7CYZ third place for a six element, two meter quad and fourth place was taken by Hugh Hanna for a S.W. receiver kit.

Thanks to all the other entries. Sorry there were not enough prizes for everyone participating in the contest. Better luck next time to all.

Thanks again to the Cascade Radio Club, who helped to make the project a success..Scotty K7CYZ

ATTENTION LADIES

The Auxiliary will have a snack bar at the Hamfest on Saturday from noon until 5:00 P.M. Most of you have been contacted, but if you weren't, please bring a homemade pie. We don't want to run out and I know we can sell every one.

Ethel Devish and Vivian Huntley are in charge and can use any help you can give.

OLD POSTMEN NEVER DIE. THEY JUST LOSE THEIR ZIP.

DX COLUMN

by W7AQB

The month of June was very good, DX-wise. Conditions on 15 and 20 meters were exceptionally good toward the last of the month.

A mornings listening on 15 c-w yielded such goodies as TA2, SVØ, EA9 and VQ9/A/EC (Gus Browning on Brudevici Cay).

As most DX-ers know, HS (Thailand) is now ok for W/K stations to work. HS3BA was worked at 1357Z on the 29th at 14210. He was 5-8.

Conditions should be good through July, but some disturbances must be expected.73

ROSTER BOOK CHANGES

We have one new member to add to the club roster book (page 20) for this month of June.

Leonard Goodwin WA7HHI
12702-94th Ave. East
Puyallup 98371 TH 5-0344

Leonard joined the club during the first meeting of June. Welcome to the club and we hope to see you often, at the club's activities and regular meetings.

'YOUR HAIR NEEDS CUTTING BADLY,' REMARKED THE BARBER.. 'IT DOES NOT,' EXCLAIMED THE CUSTOMER IN THE CHAIR.. 'IT NEEDS CUTTING NICELY.. YOU CUT IT BADLY THE LAST I WAS IN HERE.'

In the last editorial by our President, the problem of how to save our Radio Club was brought up. Projects unfinished as of yet are likely to remain unfinished for at least ten years, he wrote and probably right. What is the problem with our club? Why are there so few volunteers to help with these projects? Our President called it apathy. Let's look one step deeper into the problem and call it simply giving up.

As was pointed out, two or three years ago when a project was mentioned 'A verticle forest of hands' were raised to volunteer their assistance. Now, however, few hands are raised without threats or cajoling. Must the blame for this necessarily fall upon the individual members, or, perhaps, upon the conditions which occur after people have volunteered.

In any organization like our club, there must be a spirit of cooperation if there is to be success. Beyond that, there must be a feeling among its members of working as a unit and for the benefit of the club. After people have volunteered for projects, however, it often happens that all of the members of the working group do not share these feelings. Most of them will work hard for the club, but there are always a few who are working for their own benefit and prestige. This attitude makes it impossible for a group to work as a unit any more, causes hard feelings among club members, and virtually guarantees that either the project will go unfinished or it will not be as successful as it might have been. This kind of attitude, moreover, discourages those usually willing club members from volunteering, for they no longer receive any enjoyment out of their efforts. It's no wonder so many of the hard working people in the club are simply giving up.

The President is right. If we are to save our club we must all join together and work for it. More than this, however, we must all put aside our private concerns and jealousies and work for the benefit of the club rather than for our own personal glory. If this can be done, then we can save our club from falling into oblivion.

CONSTITUTION OF THE JUNIOR
AUXILIARY TO THE RADIO CLUB OF TACOMA, INC,

PREAMBLE

We, the members of this auxiliary, being desirous of securing for ourselves the pleasures and benefits of the association of persons commonly interested in amateur radio, by furthering better co-operation among its members, developing individual efficiency, and furthering the interest of amateur radio in the general community do hereby constitute ourselves the Junior Auxiliary to the Radio Club of Tacoma, Inc., and do enact this constitution as our governing law.

ARTICLE ONE

- Section 1: Only those persons who are voting members of the parent club, Radio Club of Tacoma, Inc., shall be eligible for membership.
- Section 2: Voting rights in this auxiliary will be given inly to those under 21 years of age.

ARTICLE TWO

- Section 1: The officers of this club shall be: President, Vice President and Secretary-Treasurer.
- Section 2: The officrrs of this auxiliary shall be elected semi annually by secret ballot. The newly elected officers will take over their duties at the next regular or special meeting.
- Section 3: Vacancies in office shall be announced one regular meeting before the office is vacated and the office shall be filled, upon another secret ballot for this office, at the second regular meeting after notice has been received.
- Section 4: Officers may be removed from office by a three-fourths (3/4) majority vote of eligible voters present at the meeting.

ARTICLE THREE

- Section 1: It shall be the duty of the President to call to order and to preside at all regular and special meetings of this auxiliary, to announce the business before the meeting in its proper order to state and put all questions properly brought before the auxiliary, to preserve order and decorum and to conduct the meeting according to the rules of order adopted. He shall enforce due observance of this constitution and its by-laws.
- Section 2: The Vice President shall assume the duties of the President in the absence of the latter. He shall also organize any programs presented to the

CONSTITUTION (cont.)

auxiliary.

- Section 3: The Secretary-Treasurer shall keep correct minutes of all correspondence and read all communications. He shall perform all such duties as are inherent in or pertain to the duties of his office or are required by the By-laws. If the auxiliary has any monies, he shall give a report of the condition of the finances after reading the minutes of the previous meeting.

ARTICLE FOUR

- Section 1: The By-laws shall provide for conduct at regular or special meetings. At all meetings, one-third (1/3) of the members present shall constitute a quorum for the transaction of business pertaining to the auxiliary.
- Section 2: Robert's Rules of Order shall govern all proceedings of this auxiliary unless otherwise specified in the By-Laws.

ARTICLE FIVE

- Section 1: The Constitution may be amended by a two-thirds (2/3) vote of the membership present, provided that proposals for the amendments are submitted in writing by three (3) voting members in good standing at a regular meeting and that the membership has been notified in advance of the meeting by the Secretary-Treasurer.

ARTICLE SIX

- Section 1: If there is any conflict between this auxiliary, Constitution and By-Laws, and the Radio Club of Tacoma, Inc., Constitution and By-Laws, the latter shall superceed those of this auxiliary.

SLIVERS AND SPLINTERS

It was great to see Betty and Dick Ohls at a meeting again. Let's see if we can get them to come again.

Another stranger at the last meeting was Bill W7SMZ. Welcome back Bill and be sure to come again.

Scotty and Vivian Huntley are off on their vacation up to Canada. They're getting all rested up for the Hamfest.

We saw the Hazelmyer's YL picture in the magazine section of the Tacoma Tribune. She was showing off her sewing in the 4H conference. Nice work Liz Ann.

Helen and Joe W7IG, had a nice open house on their 25th. Wedding Anniversary. It was held at the Ohop Grange Hall. Don't you get some kind of medal for bravery now Helen?

Joe and Helen will be leaving July 7 for a trip to Norway.

Sophie, xyl of Pob W7SFO, is back home again from the hospital and doing fine.

The Churchwards, Bob W7RXS & Inez W7RXT, are on vacation up in the Lake Louise area in the Canadian Rockies. Should be back at press time.

Dick Engh, KS6DE, (W7GDW) has moved from his former location but will have his gear on the air and looking for DK on the bands during field-day. Dick is on the air on Sundays about 10:30 pm our time, around 14,230 looking for Radio Club members to chew the rag with.

Dave Noonan is back from a short visit to the local hospital. Dave and xyl are former members of DK.

Also back from a short stay at the hospital, is Gertrude, xyl of John, K7CZF.

Rex, K7VCX, back from Japan after 2 years and getting back on the air.

Gene, W7BTV, had a motor konk out on him, in his boat and had to replace it. Luckily the motor held out for him long enough to get the boat back into it's berth. The boat (Cey-Q) is back to normal now and ready for the summer months.

Dennis, W7UBA, busy wrapping up things after the annual sale and inventory, getting ready for field day.

Jim, W7BSW, unable to be at field day. Tied up with a Boy's Club project for that week-end.

SLIVERS (cont.)

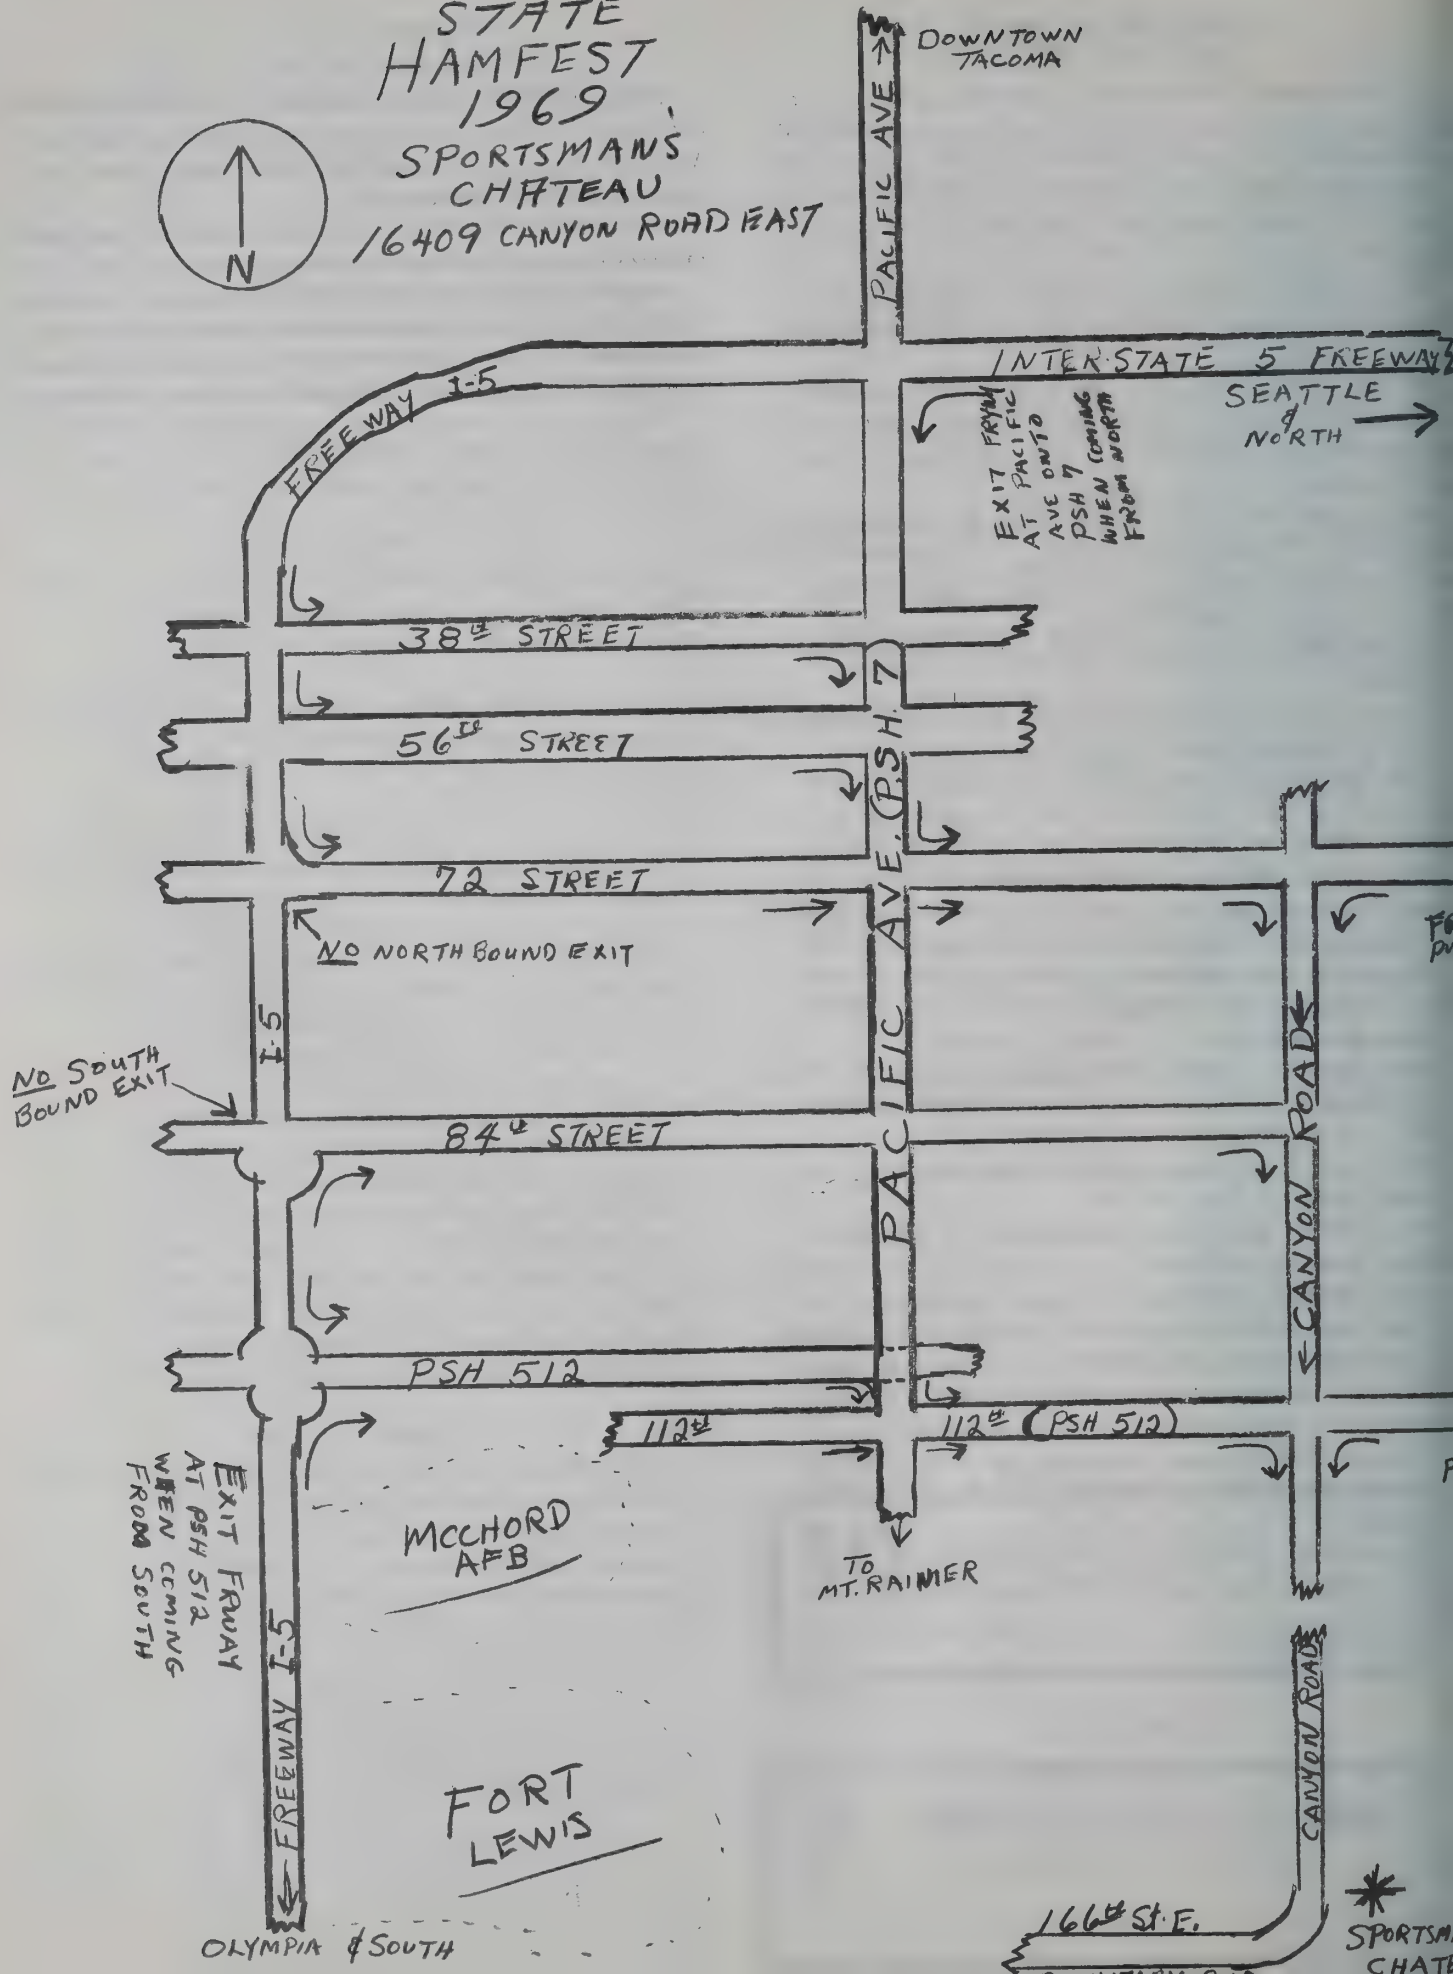

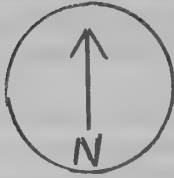

Ralph, W7COP, made another dry run with the C-D bus. Called out for the 2-11 fire on Pacific Ave but was secured before he no more than got away from the bus depot.

Mel, K7ATF, and Smitty, K7ATD, had the bus out on display in the Tacoma Centennial Parade.

Smitty K7ATD and Dick W7RGD handled traffic from civil defense headquarters during the recent simulated attack. Numerous messages were exchanged with headquarters in Olympia with no troubles.

THE LOGGERS BARK

VOL VI NR VI

W7DK

JUNE 1969

FROM THE PRESIDENT'S DESK

I am deeply concerned over a developping trend, which if it continues, will see the end of the Radio Club of Tacoma. This trend, call it apathy, or a lack of a better term, has gradually crept upon us in the past two years or so.

Not so long ago, when volunteers were asked for a veritable forest of hands shot up amongst the members but now it takes threats, coercion and a lot of begging to get anything done. There are, at the present time, many projects still unfinished; and at the rate things are progressing, most of these projects will still be unfinished ten years from now. So, as your President I ask for your help in saving the Radio Club of Tacoma from an untimely death. Get involved in your club, or see it fade into oblivion! The choice is YOURS!

Bob K7IND

NEW OFFICER ELECTED

There was an election of a new secretary for the Radio Club during the meeting May 14th. Bob Weightman, WA7IPR, was voted in unanimously by the membership present.

The previous secretary, vacated the position to take over the duties of the President so an election was required by the by-laws.

Good luck Bob on a tedious job.

CONTEST FINALS

Don't forget the building contest, you club members! The dead line is June 11th.

The Cascade Radio Club of Everett has volunteered to come down and be the judges. Let's show them some top-notch building.

TWO HEADS ARE BETTER THAN ONE BUT WHO CAN AFFORD THE PAID CUTS?

WESTPORT PICNIC AND FISHING

The Radio Club of Tacoma will journey to Westport on the weekend of August 23 and 24 for the annual fishing and picnic party. Stan Warburton, W7LIR has again graciously invited the Club to stay at his place in Westport. The food will be potluck for all the meals so come prepared. For the fishing we have again secured the 'Chinook' with Captain Chas. Murphy as our skipper. Sunday, August 24 will be the day of the fishing and the fee will be the same as last year, \$15.68 which includes bair and tax. Pole rental is extra in case you need the gear. Contact Merl Chavis, W7IKG for reservations at GR5-2241. Be sure and get your name on the list early as there were some people left behind last year. A \$5.00 deposit is required with the balance when you check out at the Charter office on Sunday morning. Please pay your deposit to Merl and get your name on the list. We have room for only 14 people so act now!

COMING PROGRAMS

JUNE 11

The finals of the construction contest will be held during the meeting. The Cascade Radio Club of Everett has volunteered to send a group of their membership to act as judges.

JUNE 25

The meeting will be turned over to a thorough going over the ground rules and operations of field day. If you intend to attend field day, this will be a must meeting for you.

Don't forget the second and fourth Wednesdays for your Club meetings.

HAMFEST MEETING

The next Hamfest meeting will be held Monday, June 9 at the clubhouse at 8:00 pm. Have you done your share yet to make this a succedsful venture for the Radio Club of Tacoma?

Permission is given to use any portion or all of articles published in the Loggers Bark if a by-line is included. Second class postage is paid at Tacoma, Washington, 98405.

UPPER LIMITS

The sun spot activity is building fast, so keep your ear open on six meters. This is an indication of aurora and you have to be fast. This summer should be good, maybe we can get some dx on field day.

Haven't been on the air very often lately so can't give you much of a report on what's going on.

If any of you have anything to get into this column, ship it to me at 802 So. Lawrence Tacoma, 98405 and we will get it in pronto, Scotty K7CYZ

DX COLUMN

by W7AQB

The month of May presented a variety of conditions, ranging all the way from excellent to virtually nil. We experienced very heavy sunspot activity about the middle of the month, which practically wiped out 15 and 20 meters. However some good DX was heard or worked, including YB0AB, CR8AI, UM8KAA, VK9KY, FR7ZL/T (Tromelin Island), VK9BA, VK9XI, OY9LV and several others.

Skip to the Pacific rim was good at times, occasionally extending to the Indian Ocean areas and Africa.

QSL's received at AQB--PX0EP and VK0WR.

Incidentally, Bill Rohrer W7ZFY/VK0WR on Heard Island fame, will be visiting in this area in July or August.

FEEDBACK

Last month the Loggers Bark printed an error and we would like to correct it before some one purchases more material than what is needed.

Refer back to the diagram and notes on the sewer-pipe antenna for 2 meters. The overall length was printed as 47½ inches. The correct length should have been 59 inches. We hope no one purchased parts for the short length unless you have a metal stretcher around the shack.

MOTHERS DAY BREAKFAST

We had a good turn out this year but would have liked to seen some of the new members and heir families. The food was delicious, as usual, ven without Roy W7AZI and Ethel W7WLX.

You can see by the pictures that the table was ot empty long.

The preoccupied people in the picture are; left o right-far side of table 'Pinky' Mitchell, xyl f the well dressed gent on her left, Hunt WA7AKW, aVerne K7NKZ and hidden at the far end of the able is her son 'Rusty'; on the near side is cott and Vivian Huntley (son and xyl of Scotty 7CYZ) and the next good looking gent is Beryl 7NPG.

Don't forget this is an annual event so hope to ee more of you next year.

FOR SALE

Our V-W camper that has served us so well on all club outings is now for sale.

1965 - 52 hp engine, 24 miles to the gallon excellent tires - side tent and 10 meter trans-mitter and receiver on 29.6 MHz. For more info call W7WLX or W7AZI at GR 2-4213.

ROSTER BOOK CHANGES

We have one new member to add to the club roster book (page 20) for the month of May.

Richard Hamlin WA7KMA

10506 Friday Street

Tacoma, 98499 Phone JU 4-0826

Dick joined the club during the last meeting of May. Welcome to the club and we hope to see you , often at the club's activities and meetings.

W7DK would like to offer its condolences to Al Stenso, KuLV, who lost his wife recently.

Al, an Honorary Member of W7DK, was the first secretary of the Radio Club of Tacoma.

(SB35 being signed on May 2, 1969)

Left to right; Sen. Nat Washington
 Sen. Nat Washington-chairman of Sen. Trans. Comm.
 W7EUN Jerry Seligman-Sect. PSCARC
 W7EQ Bill Watson-SCM & Head of license plate Comm.
 W7CJL Tom Reno-BEARS
 W7HMJ Don Ashley-Pres. of PSCARC
 Rep. Stu Bledsoe-Sprkr. of the House
 Gov. Dan Evans signing SB35

The following is the text of the Bill.

The following procedures have been established by the Washington State Department of Motor Vehicles for the processing of applications for Amateur Radio License plates. Time and confusion will be saved if the instructions are followed as outlined.

1. Forms and information required:
 - a. Department of Motor Vehicles form 'Application for Special Plates for Radio Amateurs'. Available only from the Department of Motor Vehicles.
 - b. Application for Certificate of Title, form SF3766, available at your local auditors office or from the Department of Motor Vehicles.
 - c. Photofact or Zerox of your FCC Amateur Radio License.
 - d. Check or money order for \$8.00 (\$5.00 for plates, and \$3.00 for changes to the title.)
 - e. Your car title if you are the title holder with no lien holder.
2. All applications are to be forwarded directly to the Department of Motor Vehicles, Licensing Division, Attn. LaVerne Dershey, Olympia, Washington, 98501.
3. The application form 'Application for Special Plates' must be notarized as provided for on the form.
4. On the title application, show your present license plate number on the space provided titled 'Previous license plate number'; and your Amateur Call sign in the space titled

'License Plate Number'.

5. If your title is subject to a lien, show the name and address, if the lien holder in the space provided. It will not be necessary to obtain your title from your lien holder. The department of Motor Vehicles will make the necessary arrangements for the changes of your title directly with the lien holder.
6. All applications should be typed or clearly printed except for signatures.
7. The applicant must be the registered owner of the vehicle.
8. Amateur Radio Plates are valid only if supported by a valid FCC license. Upon renewal of Your FCC license, a photofact or zerox copy should be sent as soon as possible to the Department of Motor Vehicles. Expired Amateur licences render the plates illegal, however if a renewal application is on file with the FCC the intent of the law will be fulfilled.
9. Yearly tabs for Amateur Plates follow the same procedure as for any other plates, and no special applications are necessary.
10. Amateur plates are transferrable to a new car upon trade-in. Your dealer can handle the details when the title to your new car is processed.
11. Those Amateurs who now have Amateur plates and wish to obtain the new reflectorized plates may do so by obtaining an 'Application for Replacement Plates' from your local Auditors office, enclose \$5.00 and send directly to LaVerne Dershey, Department of Motor Vehicles, Olympia, Washington 98501. You must return your old plates upon receipt of the new ones. You can use the same envelope to return the old ones.

WASHINGTON STATE LICENSE PLATE
 COMMISSION, W7BQ, W7GHJ, W7HJJ,
 W7AZI, K7CLL.

ARRL BULLETINS

NR 218

Once each year the League produces a comprehensive directory of all nets whose primary function is public service. Early this summer work will begin on the Fall 1969 Net Directory. If your public service net has not been reregistered since July of 1968, it will be necessary to do so before July 1, 1969 to ensure listing in the coming tabulation. Remember that all public service nets are eligible for listing in this free directory and that the deadline for registration is July 1. Full details appear on page 65 of May QST BT

NR 219

The ARRL Board of Directors held its annual meeting at New Orleans May 2 and 3, 1969. Among its actions are requests to FCC for Technician privileges in the whole two meter band and on 29.5 to 29.7 MHz, a one year wait for extra class instead of the present two years, and multiple speeds for RTTY. ARRL will also support 7 MHz maritime mobile operation, RTTY on 28.0 to 28.5 MHz and a move of the cw band on two meters to the low end. VHF repeaters will be covered each month in the vhf column of QST and there will be repeater information in the 1970 handbook. A separate booklet on repeaters was authorized, as well as a beginners book for Junior High School students. There will be an attempt to get courses on amateur radio into more schools. In League affairs, the board decided on an additional meeting scheduled for November 1, 1969, travel of directors to national conventions, and formation of a foundation to which amateurs may leave bequests for scholarships and the like. In the activity field, a five band worked all states award was approved, a VHF beacon will be established, and morning code practice from W1AW will be tested for six months. DXCC members at the 250 level may submit cards in groups of ten, in addition to the present bpl award, a new award will be established to recognize net attendance, phone patch handling and similar services. The ICAO alphabet, already used by the military and many amateurs, becomes the ARRL standard. The board rejected motions to shift W1AW from its present frequencies, to start a propagation column and to ask for extra phone space for those areas of the U S outside the mainland. However, the board will study expansion of the U S phone bands, in consultation with amateur radio societies in other countries. Director Victor C Clark W4KFC was newly elected to the executive committee replacing Director Smith W0BWJ who had declined reelection. Other members continued in office. As part of the ARRL preparation for the world conference on space, the board brought its fund for the defense of frequencies back up to 100,000 dollars. Studies were ordered on a west coast

official ARRL station and on ways of speeding delivery of QST to members. A summary of the meeting will appear in June QST and full minutes in July BT

NR 220

Some time between May 15 and 20, a new voyage will begin by the Norwegian ethnologist Thor Heyerdahl. In hopes of proving that ancient Egyptians made a similar voyage from the old world to the new world, Heyerdahl will attempt crossing the Atlantic in a reed boat. Operation, under the call LI2B, is expected on 20 meter phone during the 100 to 120 day voyage BT

NR 221

If you are traveling this summer, and are planning to operate portable or mobile, a special ARRL form can be used to insure that you give all of the required information to the proper FCC office. Send your addressed stamped envelope to ARRL, 225 Main Street, Newington, Connecticut 06111, requesting Form S43A. Be sure to indicate how many call districts you will be operating within AR

NOTE

The Puyallup River Boat race will be run July 20th this year.

Hold this date open and contact Len, K7ZZI.. He will need a lot of help. We will have more on this matter in the July Loggers Bark.

HEL P

Please--let's have some help in finishing the library-museum room in the upstairs of our Club house. George WA7CSF needs help. Give him a call at SK 9-2448 and volunteer some time.

FIELD DAY NOTES

The Club's field day chairman advises all things are go for the annual outing at Joe's, W7IG, place by Eatonville. Only one band has

Pd Adv.

not been filled. Any one interested in operating 2 meters, contact our field day chairman, Bob Gates, K7IND, as soon as possible.

There are some things to be discussed regarding operations and times that will be discussed during the meetings in June so be sure to attend all the meetings before field day to let your views be known.

The usual reminder to all the old hands and members who have not been to Joe's for field day; don't repeat don't drop any metal pieces on the ground like small pieces of wire etc since this can cause serious illness and even death to Joe's cattle that range the area after we leave, and do not operate your cars up and down the landing strip. Once your car is in place, if your location is off the runway leave it until time to leave. If you have small-fry with you watch them around the airstrip, since the field is used often and planes come in for landings when you least expect them.

You will find a map, showing how to get to Joes place elsewhere in the paper along with a reminder sheet as to what to take along with you.

See you at the club house for the latest details for field day. Let's make this one the big one

The Devish's, W7AZI & W7WLX, are back from their cross country vacation in Florida. Said the new V-W camper run like clock work.

Bob and Inez, W7RXS & W7RXT, are enjoying the good weather at the summer home on Fox Island. Beryl and LaVerne, K7NPG & K7NKZ, were over for one week-end to enjoy the weather with them. No reports of any great salmon fishing yet, but we are sure Bob will be sure to mention it when he nails one with his famous polar bear lure.

Steve Dightman, K7SSC, and his lovely wife showed up at the club's breakfast.

Gene Dodge, W7ETV, had visitors at his new QTH. Seems Bob W7RXS took his visitors by boat up to Gene's front yard, and had a rag chew.

Easty, W7CBE, getting back to normal after all the preparations for his XYL's big program presentation at the Seattle Civic Auditorium in May. The real work is always behind the scenes.

Tom, W7FUL, and xyl Mona enjoyed a camp out for the week end at the north end of the Long Beach Peninsula. Beautiful weather to go along with the outing.

The Huntley's, K7CYZ, were back out to the Tacoma ball park and got to see the Tacoma team win a game for a change.

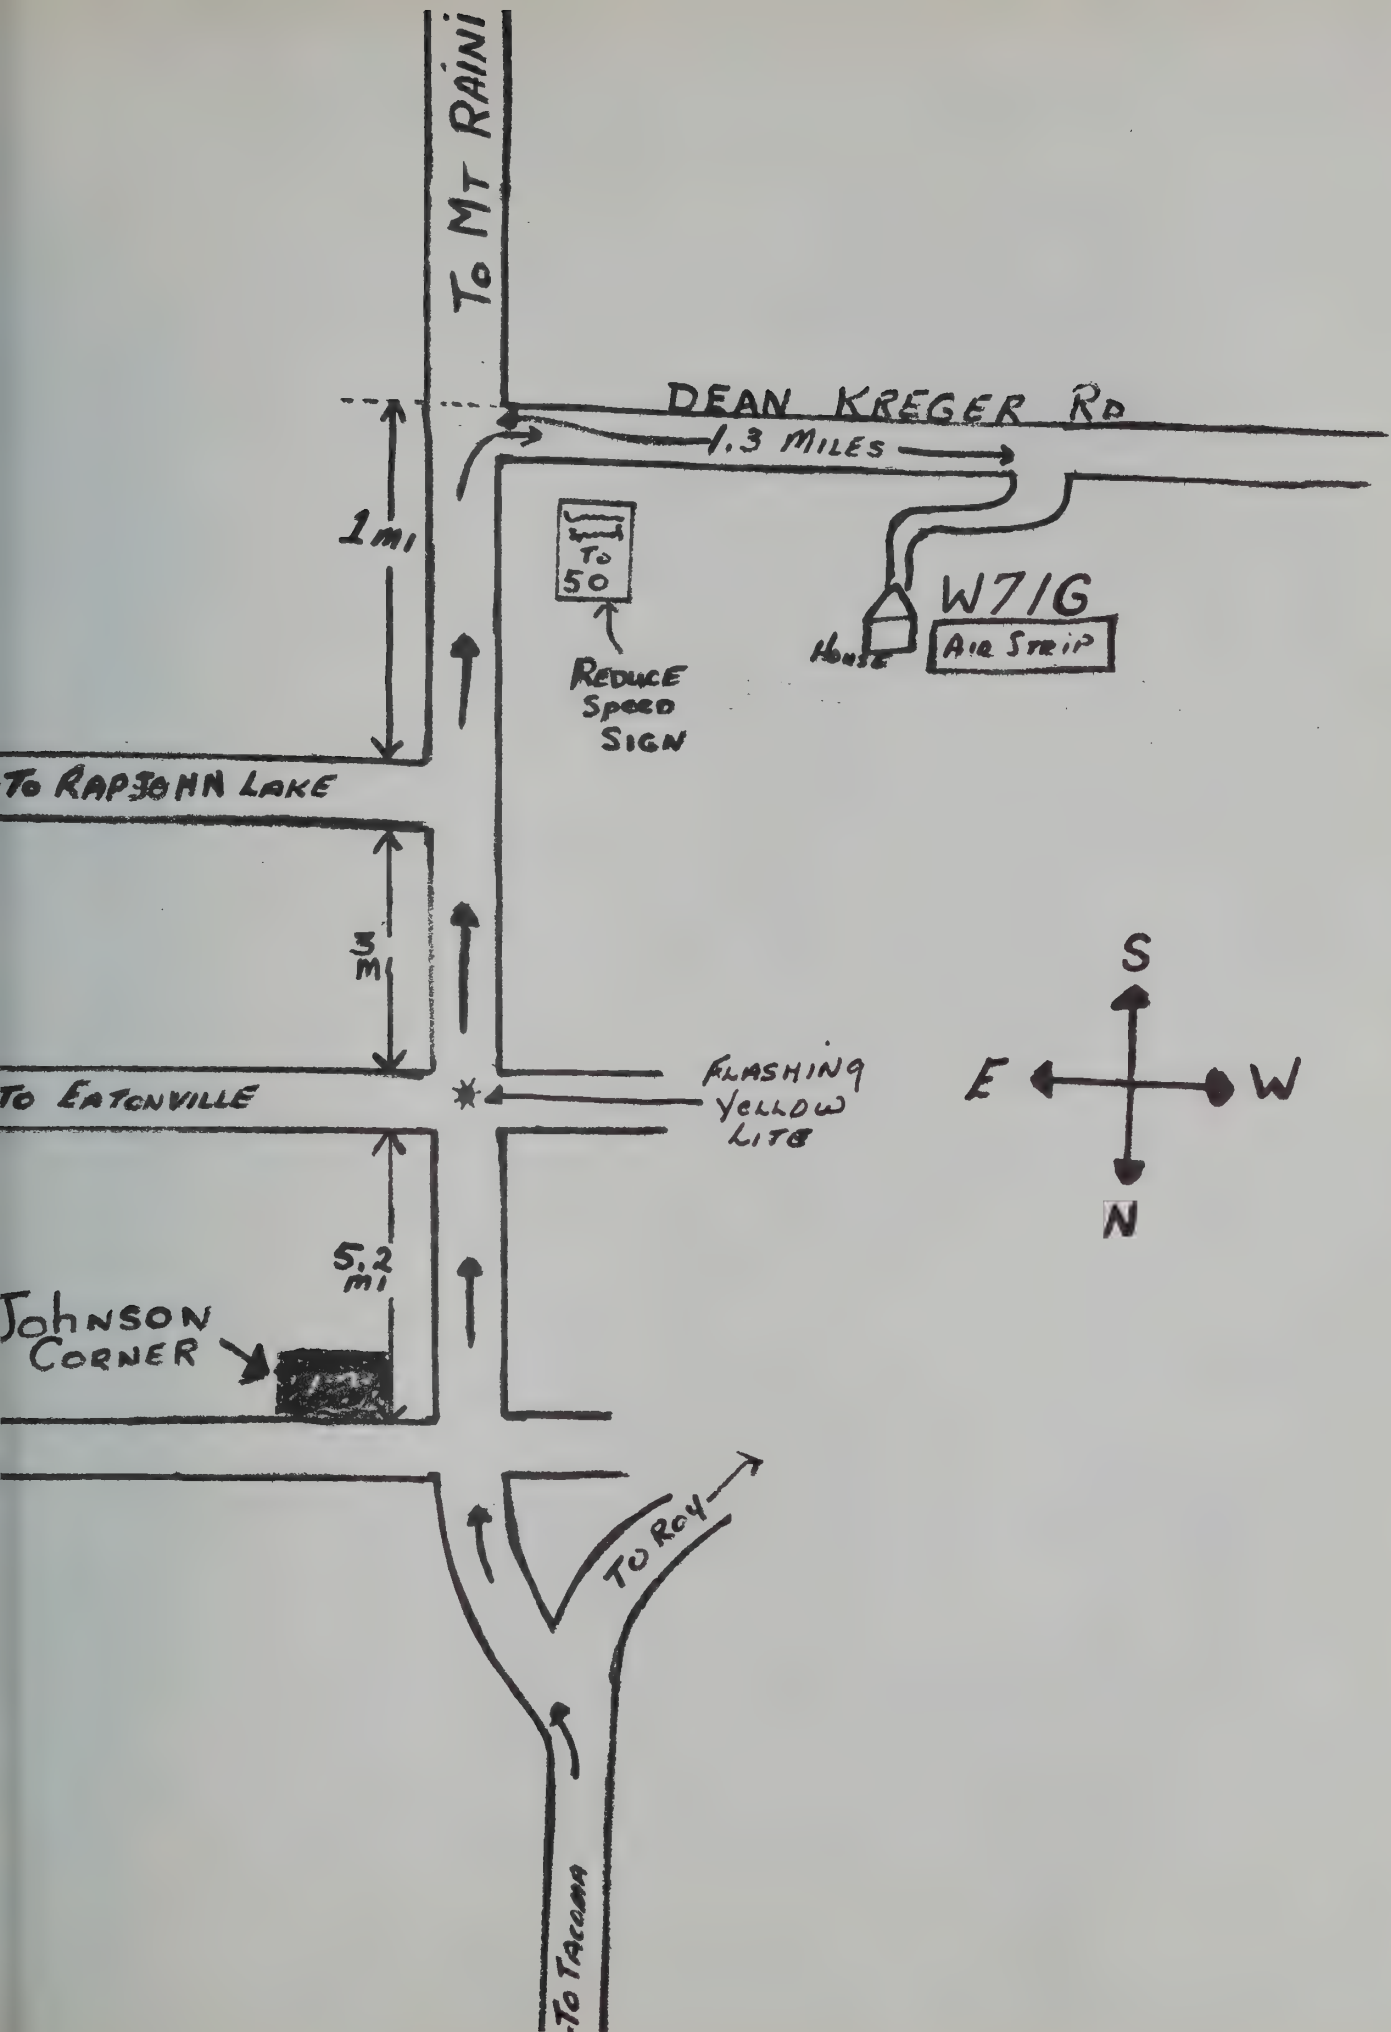

The bowling season is over and neither team won a trophy for the club, however team one did make it to the finals and were beat out of the running by 18 pins. Cliff, W7MFG, went hog wild on the final night and took several honors. A few of the other members took prizes also.

Ralph, W7COP, spending week-ends, when he can, over at their beach place. The heavy work has been done but there is always one more job to be done. Getting more time however to sit around and enjoy the fruits of his labor. Caught a batch of Cutthroat on one week-end.

Otho K7ATD and Mel K7ATF had the c-d bus out for another 3-11 fire during May. It was a hot one, and luckily no serious injuries.

Doc, W7OS, and xyl Helen attended the Hood's wedding. Caught Helen in the kitchen, just couldn't stay away from helping out in the kitchen.

Observed Stan, W7LIR, at the regular club meeting. Long time between visits to the club Stan. Stan made an offer of the use of his cabin at Westport in August for the picnic and fishing trip. We hope there will be a good turn-out to show our appreciation for the use of the facilities.

READ AND WEEP

Editorial

Any ham working with communications at the last Affodil Parade could readily see why the C.B'er is so easily pushing us aside in the emergency and parade handling tyoe of communications. It is our own fault, so go ahead and weep. The CB'er is not only out-ranking us, they are out-equipping us, outclassing us and out-and-out manning us.

For each 'ham' on that job there were ten CB'ers! For each piece of 'ham-owned' equipment there were fifteen CB-owned rigs. The ham had to use off-frequency, borrowed rigs from the Utility departments of the City. The CB'er used his personally owned, on frequency gear that he was familiar with.

Weep with me my friends-have a good cry; but---how many truly portable emergency type rigs could the hams, in our club, muster in say an hours notice? How many portable base type stations could we set up throughout the city of Tacoma, to receive the walkie-talkie, handy-talkie, pack-set type of equipment needed in this day and age to take care of a small emergency, let alone a major disaster?

The home-type emergency station, that you talk cross country with is not enough! Who is going to be out in the field gathering the information needed to feed these stations? We could put a gas driven generator in a coaster wagon to feed our 50 watt ssb rig with, just to talk five blocks away with?

Far be it from me to condone what goes on on the CB band; we are not talking on that subject now. That is a different situation and we have no one to blame but ourselves.

We have two choices; we can acquire (build or buy) the proper equipment, see that it is on the proper frequencies, that it works properly and is not a hunk of junk. We should be organized so that we know what, where and how we are to work.

(cont. next column)

EDITORIAL (cont.)

The CB'er is!

The second choice? Go out and buy a bigger crying towel (we admit it's cheaper) and give the work to the CB'er. In business and sports they say that 'competition is healthy'. Let's hope our competition has injected the hy-po that will put us on the road to recovery...K7CYZ asst. EC.

WASHINGTON HAMFEST

Bob Thurston, W7PGY, and wife, Florence, are the latest additions to our Hamfest registry. Get your registrations in early, you club members and save the chairman some headaches. The next hamfest meeting will be May 19th.

THANK YOU!

On behalf of the Radio Club, I would like to say 'Thank You' to George Abbott, WA7BHH, who donated the paneling for finishing our upstairs room at the Club house.

Also, because he won't be here for the Hamfest, he has donated his tickets to the Hamfest as a prize for the building contest.

Thank you George.ed. Margie K7AMJ

TO MAKE ENDS MEET. GET OFF OF YOURS!

POET'S RETREAT by Emil K7GHK

Here I sit, all broken hearted
Turned on my rig, but the fuse departed.
It went where all dead fuses go,
To the hunting grounds of the shot slo-blo.

It was the last, as luck would bear,
Now how do I get on the air?
The tinfoil is handy, so here it goes.
I turned on the switch and the blue smoke arose.

The sparks did fly, the transformer went.
The air filled with a burning scent
I shut the rig off but the damage was done.
I swore like a trooper and son-of-a-gun.

The moral of this story goes,
That tinfoil makes darned poor slo-blos
Leave the rig off and just retire,
Until a new fuse, you can aquire....

MANY A TEENAGER IS GROWING UP TO BE THE KIND OF
KID HIS PARENTS WOULDN'T LET HIM PLAY WITH.

R 214
 four times a year, during the ARRL quarterly CD parties, many amateurs become interested in the activity called a CD Party. This operating event is limited to competent radio amateurs in the ARRL Communications Department Field Organization. These appointees serve amateur radio and the public in the many fields of VHF, emergency planning, bulletin transmissions, traffic handling, all modes and signal observance. Only ARRL appointees and League Officials may participate in the quarterly CD Parties. All qualified amateurs are urged to contact their Section Communications Manager, page 6 QST, to see how best they too can serve along the lines of their natural operating interests BT

R 215
 Field Day 1969, June 28 and 29, will retain all of the popular features introduced in 1968. Only one change takes place this year permitting those clubs who prefer to set up ahead of time to do so. If set up time takes place before 1900 GMT June 28, the group may operate no more than 24 consecutive hours out of the 27 hour Field Day period. ARRL Affiliated Clubs have been mailed advance copies of the complete rules which, additionally, will appear in May QST. Entry forms are available without charge from ARRL, 225 Main Street, Newington, Connecticut 06111. When writing for your logs, please indicate the number of transmitters planned to be operated simultaneously and the approximate number of contacts anticipated. Allow four weeks for regular mail BT

R 216
 The FCC has proposed rule making to adopt the ARRL petitions requesting an exclusive c.w. band from 144.0 to 144.1 MHz instead of the present one at the top edge of two meters and to permit F1 emission for radioteletypewriter from 28 to 28.5 MHz. The comment date is June 11. A brief report will appear in May QST with full details in the June issue BT

R 217
 Effective April 27 W1AW will change to Eastern Daylight Saving Time. The full operating schedule for the summer months will appear in May QST. Newly revised copies of the printed information will shortly be available without charge from ARRL, 225 Main Street, Newington, Connecticut 06111. Please enclose an addressed stamped envelope to expedite your request. The ARRL National Traffic System will, as usual, operate one hour earlier by MT effective 0000 GMT April 28 AR

BREMERTON HAMFEST

The 35th annual Bremerton Hamfest is being held May 17th. This is one event everyone should try to attend. It is one of the very best in the State!!

Tickets are \$4.00, which includes all activities and dinner.

Activities planned are: Tour of the Missouri-prizes, eyeball qso's, code contests, Bingo, bunny hunts and a swap and shop.

If you need any further info, contact Connie Littleton, K7VVA, 1228 East Bay Street, Port Orchard, 98366.

Let's see a good turn out from W7DK!

THANKS TO W7OE

We would like to say a big Thank You to Howard Pyle, W7OE, for a donation of some early editions of CQ's, QST's, Popular Electronics and other magazines to help fill up our library. Howard read about our need in the Loggers Bark. Thank you Howard!

George, WA7BHH, and Bob, K7IND, had nothing but praise to say of his ham shack. They both came home and started cleaning house after seeing the lay-out in Howard's shack in such an orderly manner. We could all use some lessons here. What's your secret Howard?

MUSEUM AND LIBRARY

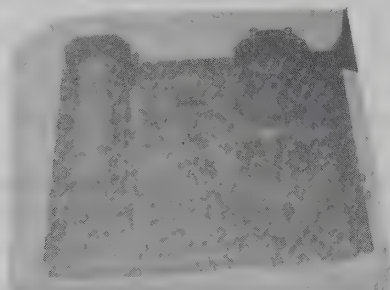

by 'Doc' W7QS

The Radio Club of Tacoma, Inc., in its many years of existence has seen tremendous changes in amateur radio equipment since its beginning in 1916.

The Radio Club of Tacoma and the Board members started its own museum of early wireless equipment and a library so that some of these precious items will be preserved. Some of our members have already donated pieces such as the loose coupler, shown in the picture, item number RCT-1. Manufactured by Ralph Krows Electric Company of Seattle and donated by one of our early members, Mr. Herbert J. Holt, whose call was W7AIJ and who, for a long time, was Treasurer of the radio club. It is believed that this loose coupler was used in era 1916 - 1920.

The other item shown is NR. 26 of the Northwest Chapter, Quarter Century Wireless Association Museum, a crystal receiver with a Clapp-Eastment crystal detector with a Murdock variable condensor and a home built two (2) slide tuner. This was used in the era about 1914 and was donated by -- W7AYL.

Both of these items and many other pieces have been restored by the careful and artistic, skillful work of Mr. 'Jeff' Nelson, K7PZZ, of the QCWA museum committee.

Ed Moe formerly 7AG, and Honorary Member of the Radio Club of Tacoma, has donated many pieces of early radio gear and several hard to find items for the library, including issue number 1 of QST.

Howard Reichert, 7HR, Honorary Member of the Radio Club of Tacoma (Silent Key) donated two quench gap spark plates, he cast himself.

The QCWA is going to loan, for display, from its museum, many items. They have a large display at the Rocky Reach Dam Museum near Wenatchee.

Any member who has or knows of any early wireless radio equipment or items for the library,

(cont. next column)

MUSEUM (cont.)

which should be preserved, should donate them to the Radio Club of Tacoma museum and library, before they get lost or damaged.

UPPER LIMITS

Haven't been too active on six as of late, so can't give you an accurate report. We hear that the South Pacific Islands have been in and the East Coast is coming through via Aurora. The local fellows on 51 MHz. are very active lately so maybe six is coming out of its slump.

Can't say the same about ten. Although the East Coast and Alaska are coming in, there are very few people on the band. Should give ten to the Technicians and watch it come alive.

Two seems to be the popular vhf band these days. The rig was down for a couple of weeks and when we got it back on we were strangers. Didn't recognize half the calls on the band. Glad to hear all the new am stations and several new ssb boys down on 144.3. The am fellows hang around 145 to 146 MHz. and are usually horizontal with their beams. After hearing two meters laying dormant for so many years in the North West, it is a joy to crank up the old rig and spend an evening with the fellows. That is the reason we have neglected six as of late.

See you at the Hamfest in July.....Scotty K7CYZ

HEAD TABLE ANNUAL BANQUET

JUNIOR AUXILIARY by WN7KTD

The Junior Auxiliary of the Radio Club of Tacoma met for the second time, Thursday April 24, to elect officers and select a suitable name for the newly formed organization.

Omar, WA7HPK, was elected as chairman and Larry WA7JPC as secretary-treasurer. Others in attendance were Scott WA7IYZ, Tim WA7FVT and myself.

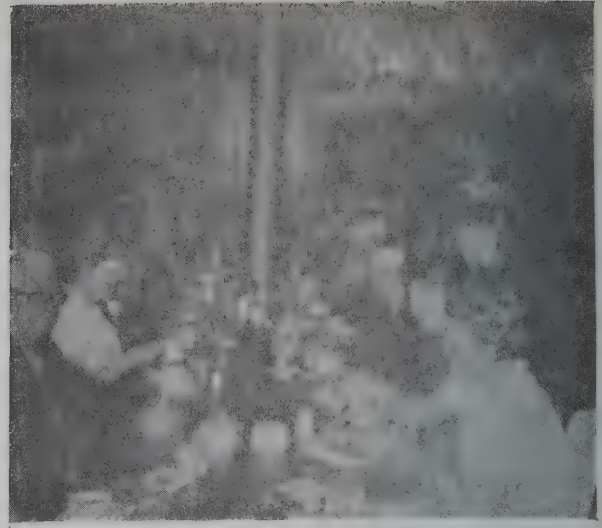

The President of the Radio Club, Bob Gates and Doc Spike were present to help organize ourselves and put down certain objectives of the Junior Auxiliary. One of the prime objectives is to get W7DK on the air every Saturday afternoon and whenever possible. W7DK was on the air both Saturday and Sunday afternoon. Saturday until six pm and three pm on Sunday. We operated on 80/75, 40, 15 and 6 meters.

Our plans for the future are going to include contests to see how many parent club members can work some or all of the Junior Auxiliary members and many other activities such as code and theory courses for anyone interested in becoming hams.

To be a voting member, you must first be a student or full member in the parent club.

There is no intention of segregation. The main purpose for forming the auxiliary, is to involve teenage activities. There is no age limit but to be able to hold either of the two offices, you must be under 21 and a voting member of the parent club.

Junior Auxiliary frequencies will be 3725-3726 KHz and W7DK's monitored frequency, 29.6 MHz. It is anticipated to have a 6 meter frequency also.

picture by W7RXT

PART OF THE CROWD ANNUAL BANQUET

COMING PROGRAMS

MAY 14th

After a short business meeting, we will travel to the National Bank of Washington Electronic Computer Center on Center Street for an interesting tour of some of the latest and most sophisticated electronic equipment in our area. Since only 25 persons will be able to go through at one time, all those who ~~don't~~ go on May 14th, will be able to go on May 28th.

MAY 28th

A long awaited social get-together. Cakes and goodies will be supplied by the Women's Auxiliary. All those who didn't go to the N.B.W. Computer Center on May 14th will be able to go this evening.

BABY PICTURE

We have no picture for you this month. No pictures slipped to the staff of the Loggers Bark.

Last month's picture was of Patty Lewis, K7NQR. Running pictures of the Lewis's two months in a row sort of simplified the guessing for last month.

We are still looking for pictures, so dig thru those old pictures and get one to us.

FIELD TRIPS

Visit to the Amateur Radio Association
of Bremerton - January - 22 members
Delegation to Skagit Hamfest - April -
15 members
Trip to Evans-Atkinson Astronomical
Observatory - May
Delegation to Washington State Hamfest
in Yakima - July - 19 members

FIELD DAY - JUNE 1968

1st in '7' call area
3rd in 11 transmitter class
5th Nationally by points
5th Nationally by number of contacts

PROJECTS AND EVENTS

January - auction of radio gear.
February - annual banquet - 102 attending.
March - Annual Hot-dog dinner and skating party - 34 attending.
April - communications for Tacoma's Daffodil Parade.
May - Communications for Puyallup River Boat Race.
June - Communications and PA system for Garden of Paradise flower show.
June - Communications and radio cars for Eagles Convention.
July - Received sanction to have 1969 Washington State Hamfest in Tacoma.
August - Picnic on Hood Canal - sponsored by W7HF - 64 attending.
August - Picnic at Westport - sponsored by W7LIR - 32 at picnic.
August - Salmon fishing derby at Westport - 14 participating.
September - Annual club's Loggers Contest in conjunction with Wash. Amateur Radio Week.
September - Auction of radio gear.
October - Potluck dinner at clubhouse - 34 attending.
November - Club participation in APRIL Sweepstakes.
November - Communications and PA for Eagles Santa Clause Parade.
December - Christmas party - 101 persons attending.

TEAMS, GAMES AND CONTESTS

Horseshoe tournament in summer; bowling teams (2 men's teams and women's league).

OTHER ACTIVITIES AND ACCOMPLISHMENTS

Life membership in club established in April - museum of old-time radio gear set up -
participation in Simulated Emergency Test (SET) in January with 57 stations and 29
mobiles - Mother's Day breakfast in May with 63 attending - Doc Spike W7OS received
club's highest award, honorary life membership, in June for his 50 plus years of
outstanding support of the club - helped Mt. Rescue Council with search for persons
lost on Mt. Rainier in February - Friday hidden transmitter hunts - AREC Net on 1st
and 3rd Wednesdays - Code practice on hour before club meetings - Loggers Park, monthly
newspaper and annual roster book - account at Flood bank - Test equipment available to
members - 29.6 MHz and 51.0 MHz monitored continuously - TVI committee headed by
GDP - Women's Auxiliary meets 1st Wednesday each month - Radio Club meets 2nd and
4th Wednesdays - Board meeting on 3rd Wednesday - Clubhouse at 1249 So. Washington St.
Tacoma Phone SK 9-2040.

Congratulations to Tom Gilmore, W7FUL, on his passing the amateur Extra Class.

Another Churchward is back in Tacoma. Dennis Churchward and family have moved up from California. Will be working in Seattle for Lockheed at their shipbuilding plant.

Roy and Ethel, W7AZI and W7WLX, drove to the Skagit Hamfest in their new V-W camper. They will soon be leaving for Florida on a vacation trip.

Verna Ryan is back from her one week stay at the hospital with a clean bill of health. She is already back out on the bowling lanes getting back into the swing of things. Currently she is in at the tables in Reno. Good Luck Verna.

Merl and Margie, W7IKG and K7AMJ, are enjoying a two week visit from number one daughter, just back from graduation from Western Airlines School. She will be reporting to Salt Lake City for assignment to flights from there.

Beryl and LaVerne, K7NPG and K7NKZ, have moved again. They are now back to their original qth, minus a tower and beam however. May be awhile before it goes back up again, what with both of them busy getting ready for the coming wedding of Connie.

Max W7AEA and xyl M.J. are back from their trip to Pango Pango and should have some interesting stories to tell. Max was back on the bowling lanes the second night back in town.

Dick, W7RGD, had the C.D. Bus out at the Tacoma College, on display for the students interested in forming a new radio club on the campus.

Emil, K7GPK, holding his head and wondering what to do. Seems he is getting ready to build the cupboards in the new house and at the current prices for plywood he doesn't know whether to wait and see if the prices come down or get them now before they go higher in price.

We had a pleasant visit, during the April meetings, from Sophie McCullough. She looked as fit-as-a-fiddle and ready to exchange quips. Sure good to see you back among the members again, Sophie.

Scotty, K7CYZ, and xyl Vivian enjoying a visit from number one daughter, home for a few days. Sharon took brother, Scott, out to watch the Tacoma baseball team get beat.

Ralph, W7COP, back to work after having a reaction from Penicillin. At first he thought he had the Measles. That's kids stuff, isn't it Ralph?

News just received! SB-35, the amateur license plate bill has been passed. This means the former \$5.00 fee will be back in force. The effective date in force is unknown at this time but normally goes into effect 90 days after it is signed into law. We will endeavor to keep you posted as to the actual date.

Due to business, George WA7PHH has had to resign as our Club President. According to the Constitution of the Club, Article two section 3: Vacancies occurring between elections shall be filled by special ballot at the first regular meeting after the resignation is announced. George made his announcement at the April 9th. A special election was held at the April 23rd meeting and the members present elected Bob Gates as our new President, to preside for the rest of 1969. You have the loyal support of the club behind you Bob.

MOTHER'S DAY BREAKFAST

Sunday May 11th is Mothers Day and the club will again have a free breakfast for them. The men will be charged the usual 50¢. Roy, W7AZI, the club's official cook will be on vacation.-- but do not fear because Scotty, K7CYZ, will take over the spatula and serve up the delicious hotcakes you have ever tasted.

SKAGIT HAMFEST

With some 20 members of the Radio Club of Tacoma, we enjoyed a very nice Hamfest presented by the Skagit Valley Radio Club. The day was spent in numerous activities with a very nice dinner. A singing group from Anachortes entertained with some barber-shop singing and to climax the evening some nice prizes were given. (The Tacoma folks brought their share home) This was a very well run affair and the chairmen for the Washington State Hamfest came home with some new ideas.

APRIL 1969

FROM THE PRESIDENT'S DESK

Here it is, another month has gone by.

Our annual banquet was held on March 22nd at the Top of the Ocean and a swell feed was had by all that attended.

We are going to get together some work parties, to get some of the work completed at the club house. We would like to get as much work done before the hamfest. Don't be surprised if I give you a phone call for one of the work parties.

I want to thank all the members for their attendance at the meetings, but would like to see some of the other members attend the meetings. We have been having some very good programs.

Thanks to Mr. Dodge, for bringing the boys from the Mt. Tahoma High School Radio Club. These boys are very interested in ham radio.

I want to wish Dick Ryan's mother Verna a speedy recovery from her illness.

.... George WA7BHH

COMING PROGRAMS

by W7BUN

April 9th - Ward Helms, W7SXM, of Redmond recently returned from Antarctica, where he participated in the University of Washington's VLF, long-wire antenna experiment. The long-wire-sub-station, located 13 miles west of Byrd Station, conducted experiments with an 18 mile long antenna. Ward has some fascinating slides and many interesting experiences to present to us.

April 23rd - A recent rash of articles in ham magazines are concerned with building devices utilizing digital techniques. The first part of a two-part series to present basic digital theory to the radio amateur will be presented by Jerry, W7BUN. This first part will deal with binary arithmetic and other types of logic used in digital devices. In May, the actual logic of flip-flops and gates will be presented. These presentations will be quite basic and should prove interesting to everyone.

ARRL NEWS

The Federal Communications Commission has moved to issue orders suspending the operator licenses of three midwestern amateurs -- WA0HQO, WA0KYU and WA9KEA -- primarily for alleged obscenities but also involving false signals, failure to identify properly and malicious interference. Orders were also issued to show cause why the station licenses should not be revoked.

Field Day rules for 1969 are being changed in only one respect -- participants may set up in advance, but in such event are allowed a maximum of only 24 hours operation. This change had the informal concurrence of the new Contest Advisory Committee.

SKAGIT HAMFEST

by W7BUN

The Skagit Amateur Radio Club will hold its annual "Skagit Hamfest" on Saturday, April 19th, at Bryant, Washington. Tickets are \$3.00 and this includes dinner and door prize drawings. This is a well established and very successful event and certainly our own Hamfest Committees should attend and pick up some pointers.

There are many excellent doorprizes, a trip to Jim Creek (million watt transmitter) professional entertainment after a fine dinner, bunny hunts, women's and children activities, etc..

Let's all support this hamfest and we'll be sure to have more support for our own, this summer. Contact W7BUN for tickets or information.

DID YOU KNOW?

Did you know that Wahkiakum County does not have an amateur radio station in the entire county? Try working mobile or portable down there and see how popular you become with the worked all counties boys.

K7???

This month's picture is of a member of the club in good standing. Although she may not live in the Tacoma area, she is still interested in the activities in Tacoma.

Last month if you guessed that the picture was Dwayne Lewis, K7KSZ, you get a grade of 100.

AREC NET

As any wide-awake ham can tell, spring is on the way.

With this rare annual event, net activities, as well as other on the air activities, drop off a little to give us time to catch a breath of fresh air and a ray of sunshine.

Incidentally, the ocean was beautiful and the weather near perfect Sunday (20th). Saturday was wild, windy and stormy. We had a wonderful time, thanks to help from family and friends.

However, let's try to keep things going through the summer months. Enough to keep the nets alive and we'll look forward to a big growth before the end of the year.

Thanks to everyone for the help and cooperation on the Wednesday night check-ins.... LaVerne K7NKZ

CLUB BANQUET

The 1969 banquet is under our belts. There were 46 people attending and all were well fed.

Those who did not dance to the wonderful music were busy visiting among new and old friends.

George Abbott, WA7BHH, our new President, spoke a few words on what was in store for us for the coming year. Mrs. Spike said one word and Doc decided to cut his speech short. You guess the one word Helen said.

Next year let's have 92 and twice as much fun.
(EDS NOTE) PICTURES OF BANQUET NEXT MONTH.

VOLUNTEERS NEEDED

At the March meeting we had Bob Dodge, a teacher of visual handicapped boys, with 5 of his students, to observe the workings of our club.

These boys have a vision problem and are very interested in ham radio. I'm sure these boys could use a helping hand in getting started on their way to a novice license.

Contact the editor, if you'd like to spend some time teaching these boys some code.

FIELD DAY

Bob Gates, K7IND, has volunteered to be our 1969 Field Day Chairman. Bob will have a run-down on activities for field day in a later issue of the Loggers Bark.

One announcement at this time. Any ham wishing to have his name as head of the station he worked last year, must contact Bob by April 23rd. After that date the band will be up for grabs.

CLUB BUILDING CONTEST

Don't forget the Building Contest is under way. Get your pliers and soldering iron busy and get in on the fun. Anything you want to build, pertaining to ham radio. There will be prizes for the winners, so let's have some real good entries.

Those desiring to increase their code proficiency should take note of a variety of aids available without charge from ARRL Headquarters. The package includes a reference guide for new operators and code trainees, a complete WIAW schedule with time conversion chart, full information on ARRL qualifying runs and a list of code practice stations. Send your self addressed stamped envelope to ARRL, 225 Main Street, Newington, Connecticut 06111 **BT**

NR 211

With the coming of the travel season, amateurs will be taking advantage of reciprocal operating agreements. Amateurs traveling across the Canadian United States border should apply for an operating permit 30 to 40 days in advance. W/K licensees apply to the Post Office Department, Century Building, Lisgar Street, Ottawa, Canada or its six regional offices. Canadians apply to the FCC, Washington, District of Columbia 20554. Travelers visiting elsewhere should allow at least two months for processing of requests. Write to ARRL headquarters for details on a particular country **BT**

NR 212

Operating Aid 14 continues to be a popular and useful ARRL aid. The convenient perforated form includes the RST system, a time conversion chart, ending signals, the ARRL and ICAO phonetic alphabets and steps to follow in an emergency. To get your free copy, send a stamped self addressed envelope to ARRL, 225 Main Street, Newington, Connecticut 06111 **BT**

NR 213

On March 19 FCC issued a notice that there is no longer any objection to communications between its amateurs and those stations in Thailand which use their United States call letters followed by the slant HS indicator, with the concurrence of the Thai government. Contacts with HS prefix stations remain prohibited. Additional information reveals that Indonesia and the United States have agreed to permit amateurs of one country to operate their stations while visiting in the other, effective immediately. Other banned country and reciprocal operating information appears in IARU News, April QST **AR**

C.W. OPERATION CAN CAUSE HEARING LOSS

by W7JG (PARASITE)

During the past several years, I have subjected approximately fifty old-time amateur radio operators, to test of their hearing ability. These "old-timers" were all hams who predominantly operated C.W.. These tests were made on an audiometer, which shows a curve relating hearing ability to audio frequency. The preliminary results have produced a most interesting notch in the audiometer curve from about 1500 cycles to about 4,000 cycles. This notch is different and much more pronounced than the normal physiologic loss due only to age. This notch averaged as much as 40 to 60 decibels more than what would be considered normal. I suspect that long years of listening to code has caused a certain amount of destruction of the hair cells in the cochlea of the ear. These hair cells are supposed to respond to the various audio frequencies, and any malfunction of them would contribute to a loss of ability to hear these frequencies. I plan to do more research before drawing too many conclusions. I wish to perform more sophisticated audiometry tests and bring in to the picture such variables as the use of ear phones, listening volume levels, and the relationship of the audio pitch preferred by the operators in comparison to the frequencies where the hearing loss is most evident.

UPPER LIMITS

Six meters has come to life. The openings are of short duration but are good. Several of the club members have worked some good dx and this summer should be real interesting. Don't forget, you have to have an antenna to be heard or to hear. Don't try to compete with the big boys with a wet noodle.

Actually the big news, is the surprising amount of new stations on two am. It must be the fm fellows spilling over onto am. V.H.F. interest has finely reached the North West.

220-430 and 1296 mc interest is growing fast and should be on a par with the East coast soon.

Some very good surplus gear is hitting the market and antennas are easy to build, so see you soon.
Scotty K7CYZ

DID YOU KNOW?

Did you know that Wahkiakum County does not have an amateur radio station in the entire county? Try working mobile or portable down there and see how popular you become with the worked all counties boys.

SLIVERS AND SPLINTERS

Bill, W7ZFY, has been heard from Herd Island, on 20 according to Tom W7FUL and Del W7JG.

Stan, W7LIR, wrecked his car, going to Westport during March. On one hurt except one poor deer.

Tom W7FUL, LaVerne K7NKZ and Beryl K7NPG had an accidental eyeball qso with K7SZY, down from Bremerton, while down at Westport on the 23rd of March. While down at Westport, Beryl found out that his truck does not run on fumes. He was very fortunate and had a CB'er see his antennas and stopped to give him a lift to the nearest station.

Merl, W7IKG, lost a tower and his 10 meter beam to the March 22nd wind storm. This should be a lesson to check your guy wires periodically.

Congratulations to Paul, WA7HNL, and xyl Bonnie on the birth of a son February 23rd.

Congratulations to Max W7AEA, Dennis W7UBA and Bob WN7IPR for their good bowling. 206, 205 and 201 respectively. Verna Ryan had a 502 series on the Tuesday am Loggerettes League.

The traveling trophy has changed its rules to obtain it. Instead of members of a club going to the club for a visit to take it away, the club that has it must go visit another club and give it away!

Bob, K7IND, announced during the March meeting, that a Swantenna was stolen from a fellow amateurs car. If any one approaches you with a good deal for a mobile antenna, let Bob know.

The club has set the date for the 'Loggers Contest'. It will coincide with the Boeing Contest. Should be a lot of contacts available that week-end of September 6 and 7.

Max, W7AEA, is in the process of buying a 34' boat. Also Max and xyl M.J. will be leaving for American Samoa for a vacation. Will be visiting some of the other islands in the area.

Verna Ryan is home from a weeks stay at Tacoma General Hospital. Doing fine and trying to get used to the idea of no bowling the rest of this season.

MARCH 1969

FROM THE PRESIDENTS DESK

Another month has gone by and with it, we hope, our winter weather. Attendance to meetings should increase.

On February 24th I made a trip to Olympia for the hearings on the license plate bill. It was a great pleasure to see how many friends the amateur radio organization have in our Senators and Representatives in Olympia. The meeting was held in House Chambers room 2 and was presided over by Representative Conner. The meeting was held on HB190 and after the discussion was over, the committee decided to forget about HB190 and to send SB35 as amended back to the Senate with a do-pass recoendation. Speaking with Representative Beck, after the hearing, he said that we have nothing to worry about, that he thought the bill would be passed with no problems. Although, there could be a monkey-wrench thrown into it if the Washington Association of Broadcasters tried to make the amendment that they tried to get into HB190. It seems that they would like to have their station calls on their license plates. One of the reasons given was that when they go into the riot areas, they would like to use unmarked cars. We have the backing of the motor vehicle division on SB35 as it now stands but if an amendment from the broadcasters is attached, the DMV in all probability will not back it.

All amateurs, in the state, should write a thank you letter to some of the supporters that are trying to get this bill passed. Our best supporter is Jack Nelson of the Department of Motor Vehicles, Olympia, Rep. C.W. Beck of Port Orchard and Mr. Dave Gilbert of the Spokane Auto Club.

The North Seattle Radio Club will be holding an auction on March 18, at 8:00 pm at the City Light sub. utility building at 99th and Stone. The auction will consist of approximately 4 truck loads of equipment. This equipment was the

President's Desk (cont.)

property of Dusty Rhodes, W7LZJ, and all proceeds will go to Dusty's widow. All amateurs are extended and invitation to attend.

Don't forget our annual banquet at the Top of the Ocean on March 22nd.

Don't forget to get your application for the club building project, which starts on March 12th. and will run for three months.....George WA7EHH

HAMFEST

Have you made your reservations for the Ham-fest? Come on you club members, let's get them in now. The pre-registration prize is a real nice one and you save 50¢ also.

Here's our list to-date. Get your name in the paper next month:

Ed Coles
George Abbott
Bob Gates
Beryl Hood
LaVerne Hood
Doc Spike
Otho Smith

George VanKleek
Bob Weightman
Hunt Mitchell
John Austin
Gertrude Austin
Easty Eastman

The next HamFest committee meeting will be held March 17th at the club house at 8:00 pm. Please be there, the time is growing short. The detailed plannülg needs to get rolling now.

COMING PROGRAMS

FINALE OF THE R.F. COOKING DEMONSTRATION

COMING PROGRAMS

by W7BUN

March 12th.

Thomas Campbell, WA7FJC, from Renton, who wrote the 'Cover Plaque Award' article in January QST 'A 1969 Model 50 mc Transistor Transceiver', will speak to the club on techniques of building transistorized vhf gear. He will also bring some of his home-made equipment to demonstrate his ideas. We are promised a most educational program.

March 26th

Alex Braidwood, W7AZR, a member of the club will show slides of the European Countries, 'from the North British Isles to the Boot of Italy.' Alex and his xyl have traveled all over the world and his pictures are always fascinating and his knowledge of the countries they have visited is tremendous. Be sure to be with us for a very interesting evening.

AREC

Now that the S.E.T. is over, we are looking for something, besides check-ins, to hold our interest and a training program seems to be in order.

Merl, W7IKG, has volunteered in some training sessions in traffic handling and message passing. This won't be too formal, to start with, as I think that several of us are quite new at traffic handling. So come on everyone and get into the thick of it from the start. This will not only prepare us for emergencies, but will help in every-day traffic net operation. If you are already an experienced traffic man, don't laugh at us, who are not. We want to improve all members, in the art and can use your help in doing it.

LaVerne K7NKZ

DUES ARE DUE! DON'T MISS OUT ON THE ACTIVITIES. (3)

ROSTER BOOK CHANGES

We have two new members to the Radio Club since the first of this year. Welcome to the club fellows and hope you both attend meetings regular and participate in the club's many activities.

Jim Hosack WN7KTD

SK 9-8841

1916 No. Huson

Tacoma, 98406

Paul Cook

549-2240

9th Ave.

Fox Island, 98333

Both new members should be entered into your club roster book. Enter their names on page 17 at the bottom of the page or if you prefer to start a page for new members only, put them on page 20. Now, while you have the roster book out, we will list the other corrections and additions necessary to bring it up to date.

Turn to page 4 and correct the call WA6BHH to read WA7EHH. This is the second line in the 3rd paragraph.

Page 6 there are two corrections. Correct the call WA7IPR to read WN7IPR. Also correct W7JPC to read WA7JPC.

Page 7 add new call after W7ZZL of WN7KTD Jim Hosack.

Page 8 correct address of Max Bice to read, Rt 6 Box 1747.

Page 9 correct call of Merl Chavis to read W7IKG.

Page 11 add the member, who was left out, at the bottom of the page. John Hills, K7SRU, 7918 East 126th, Puyallup 98371 and phone TH 5-8084.

Page 13 correct Lloyd Larson to new address, 6415 No. 46th, Tacoma 98407.

Page 16 correct Weightman's call to WN7IPR.

Page 17 correct Wickstrom's address to new address 3502 Oas Drive West, Tacoma 98466 and the new phone number LO 4-1631. Also on the same page correct the call of Ziegler to WA7JPC.

If you have made all of these corrections, your roster book will be up to date. The publisher would like to apologize to the members for the errors made in the printing and will take one step down the ladder of perfection.

K7???

This month's picture is of a current member of the club. You will most likely find him on the 2 or 6 meter bands. Can't say much more or you would guess his name quite easy. Answer next month.

How about it? Have you found that picture to keep the club members guessing? Slip it to a member of the Bark's staff.

PUBLIC SERVICE NOTICE

Our club has been requested to work the Garden of Paradise show and the Park Board's Salmon Bakes again this year.

Roy, W7AZI, will be the chairman for these two activities.

Along this same line, the club has had a feeler from the Puyallup river race committee. It is not official, as yet, but we are sure the club will be out to assist on the race.

The Dafodill Parade comes up in April but have no information on it yet except that the route has been changed from the usual Broadway down 9th to Pacific Ave. and out to Puyallup.. Will be staged by the Stadium bowl, down Stadium Way to Pacific, then out the usual route, this year.

So keep the portable and mobile rigs tuned up and the batteries in readiness. The different chairmen will be calling for help in the very near future.

DUES ARE DUE FOR QUITE A FEW

WE KNOW WHO AND SO DO YOU.

NR206

Despite recent rumors and on the air statements by individual amateurs, the Thailand ban has not been lifted. For United States stations, the ban is still in effect with HS XU XV and 3W8 stations. For Canadians, the above list applies, plus JY and XW8. Keep this in mind during the February and March ARRL International DX Competition BT

NR207

All amateurs who participated in the ARRL Simulated Emergency Test on January 25 and 26 are urged to make sure that their part was included in reports submitted by their Emergency Coordinator or net manager. ECs NET Managers are reminded that the deadline for reports and photos is March 15 BT

NR208

The ARRL Intruder Watch is now into its fifth year of operation, with an impressive record of reports leading to intruders being removed from the amateur bands. Additional work and constant vigilance are necessary. Volunteers, with two or three years amateur experience and good receiving equipment, who can spend two hours a week logging the calls of non amateur stations in the amateur bands would be welcomed. Volunteers please write the Intruder Watch, ARRL, 225 Main Street, Newington, Connecticut 06111 BT

NR 209

The ARRL Board of Directors meets annually in May to formulate the course of ARRL affairs during the coming year. The full members of ARRL elect the Board which has the overall responsibility for managing the affairs of the League. This democratic process is effective only to the extent that the membership participates. Now is the time for members and affiliated clubs to communicate with their division director at the address shown on page 8 of any 1969 QST AS

W7DK CONSTRUCTION CONTEST RULES

Contest (cont.)

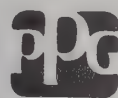

1. In the interest of furthering the technical knowledge of its members, and for providing an incentive towards construction of 'homebrew' projects, the Radio Club of Tacoma, Inc. announces the W7DK Construction Contest.
2. All members of the Radio Club of Tacoma, Inc., regardless of license status, are eligible to participate, so long as they are members in good standing on the closing date of the contest.
3. The contest will run from March 12th through June 11th, 1969. All items will be on the judging table not earlier than 7:30 pm nor later than 9:00 pm on Wednesday, June 11th. The judging will take place immediately following the business portion of the Club's regular meeting at the club house, 1249 South Washington Street.
4. The judges will be three (3) non-interested members of a neighboring radio club. The judges must hold a technician, general or higher class of amateur license.
5. The prizes will be announced by the contest committee, and will consist of 1st, 2nd, and 3rd place prizes. In the event of a tie, duplicate prizes will be awarded.
6. Participants in the contest may build any type of project desired, providing that it pertains to amateur radio communications. Cost and complexity will not enter into the contest. Only one entry will be permitted per member. Suggested projects are: SWR bridge, field-strength meter, grid-dip meter, mobile or fixed converter, electronic keyer, receiver preselector, receiver SSB adaptor, etc..
7. All contestants will be required to sign a statement that their project was constructed in its entirety between March 12th and June 11th, 1969 and that said member actually PERformed the work of construction. It will be each contestant's responsibility to bring any and all accessories necessary for the judges to check operation of their project and to be prepared to demonstrate the operation if called upon by the judges.
8. The system of judging will be based on a point system. The complexity of the project or the expense involved in the construction will not be considered as factors in the judging. Each contestant will be given a basic 10 points. Points will be deducted as follows:

Handicap for years of experience...	5 point max.
Licensed 15 yrs or more.....	5
Licensed 10 to 15 yrs.....	4
Licensed 6 to 10 yrs.....	3
Licensed 3 to 6 yrs.....	2
Licensed 12 months to 3 yrs.....	1
Licensed less than 12 months.....	0

(cont. next column)

Points will be awarded as follows:

Usefulness and application	5 point max.
Indispensible item to the amateur	5
Extremely useful item	4
Frequently used item	3
Occasionally used item	2
Rarely used item	1
No application to amateur work	0
Quality and skill of workmanship	5 point max.
Professional quality work	5
Very high quality work	4
Average quality work	3
Fair quality work	2
Poor quality work	1
Shows no knowledge of const.	0
Appearance	5 point max.
Commercial appearance	5
Above average appearance	4
Average appearance	3
Haywired appearance	2
Messy appearance	1
Very sloppy appearance	0
Operation	5 point max.
Operates excellently	5
Better than average operation	4
Average operation	3
Operates (needs further adjust.)	2
Operates but unusable	1
Will not operate at all	0
Safety	5 point max.
No hazard under any condition	5
Unsafe under certain cond. of use	4
Safe only if extra caution used	3
Minor shock hazards present	2
Dangerous shock hazard present	1
Immediate danger of electrocution	0
Ease duplication by club member	3 point max.
Uses common parts-easy align-adj.	3
Common parts but difficult adj.	2
Uses spec. or hard-to-find parts	1
Couldn't be built by average ham	0

The Yakima Amateur Astronomers, 509 No 6th street Yakima 98901 and the Tacoma Astronomers 2207 So 41 street Tacoma 98409 and other astronomy clubs in the Northwest wish to hear from hams who are willing to notify said clubs of aurora skip. These clubs are trying to photograph low latitude aurora. The Tacoma Astronomers Inc. have a 120 ft. long rhombic antenna which they hope to use for detecting aurora and meteor scatter. A receiver is still needed for the rhombic.

2 METERS

The AREC Net, on 2 meters f.m., is going over far above our expectations. A block diagram is now being edited and will be ready for publication in the April issue of the Loggers Bark. A copy should be ready for each member very shortly.

This net is designed to be an inter-county, mutual assistance net and we plan to have all counties in Western Washington. At present, we have Skagit, Snohomish, King, Pierce, Kitsap and Clallam Counties. We are meeting in Olympia with amateurs from Thurston, Lewis and Mason Counties on March 12th to recruit stations from these areas. Each county will have a control station, with as many mobiles and portables working through them.

2 meters is growing, in the Northwest, so fast it's hard to keep up with the activities. Several new stations have shown up on am. Portland is down-band around 144.5 to 145. Tacoma and Seattle are still hanging around 145.35 with a few around 145.6 to 146. 2 fm is all the way from 146 to 148. The 20 meter dx hounds are around 147.750. The Canadians are around 147.3 to 147.35 with a repeater on 147.35.

Remember the Tacoma RACES frequency on 2 am. is 145.6, when you get your am transmitter. Be sure to get a crystal for this frequency or a good vfo.

..Scotty K7CZ

SKATING PARTY

Believe it or not it's skating time again! The auxiliaries annual skating party will be held March 27th at the roller bowl on South Tacoma Way.

There will be a pot luck hot dog feed at the club house at 6:00 pm, before the skating party, with the auxiliary providing the hot dogs.

This is a family affair so let's see all you members out to this event. The price is 90¢ per skater.

ATTENTION LADIES

I'm told the xyls read the Bark more thoroughly than the OMS. I'm hoping that this is true, then when Vivian Huntley or I call you sometime later, you will know what we want.

Vivian and I are in charge of the Snack Bar for the Washington State Hamfest, July 12 and 13 at the Tacoma Sportsmen's Chateau. We plan to sell sandwiches, salad and coffee and perhaps pie on Saturday between noon and 5 P.M. Profits, if any, will go into the treasury of the Auxiliary. There will be profits if the food is donated by our good Xyls and that is where the phone calls will come in. First, of course, you'll hear from the phone committee for Field Day food (June 21 and 22) so we want you to be forewarned.

In addition, the snack bar is going to need 'behind the counter' help during the hours we operate, so we'll be glad to have volunteers for an hour's duty, if you are going to attend the Hamfest.

In the meantime we hope you'll try to make it to the Auxiliary meetings where we will have an evening of fun and can exchange ideas about this and other activities to the benefit of all.

....Ethel W7WLX

BOWLING NEWS

The two men's bowling teams have bowled in the city tournament with out getting into the winning column. As one member said, 'That was a \$30.00 practice session.'

However, both teams turned out for their regular bowling the following Tuesday night and bowled way over their normal averages. Both teams would have placed in the money, if they could have done as well during the tournament. Guess that's the way the ole mop flops.

On February 10th, the teams turned in several 500 series games and one 647 series. Otho, K7ATD, had a 231 game. Dennis, K7UBA, took the honors for both teams that evening. Took the league's high handicap series, for this year, with a 205-216-226, grand total of 647. Needless to say, both teams took all 4 games that night.

The following week things were not as good. Both teams managed to wrestle a game a piece from their opponents.

Don't forget to get out and root for your favorite team on Tuesday nights, at the Bowlero Lanes at 8:45 pm.

FROM A MEMBER

Is anyone interested in skipping the program meeting night and having a few eye-ball QSO's and getting acquainted with old and new members for a change? If you are, please say so at the meeting. I for one miss the gab fests over coffee, after the meeting. I might start coming to meetings again myself.

....Beryl K7NPG

by Rene Smith

For years the Woman's Auxiliary has tried different methods to get a good turn-out for the meetings. Some have worked for a time but the same people are the ones that show up for the activities. Maybe the new idea will catch a few of the newer members wives and mothers.

The hostess and co-hostess will be at the club house at 7:00 on meeting night and the members that want, can come for an hour or so of 'fun and games'. Everyone will bring a 'white elephant' for the first meeting and these will be used for prizes. The business meeting will be at 9:00 and after that more games or cards if you care to. This sounds like a nice evening away from all that QRM, the men and kids create. Take advantage of this girls and please try to make it to a meeting.

Pres. Rene Smith

AF-67 Elmac with 8' of cable

Brand new - - on the air once for check out.

Still in original packing case with manual.

\$40.00 - -Contact Bud Lefler BR 2-1782 evenings.

A new organization, a break off of the QRP International, has been formed. Here is a brief of it sent to the editor by Howard Pyle, W7OE.

The primary objective of the Guild is to provide a group of members who, by example, encourage wider use of only the necessary power to effect reliable communication, by the amateur field in general.

To avoid the mistakes of other organizations in expanding beyond territory which could be effectively administered and which has led to their deterioration, the Guild has confined their functional territory to the states of Washington, Oregon and California only.

The name, Pacific Amateur Radio Guild was chosen for a number of reasons. The word 'Pacific' definitely localizes its' area of activity to the West coast. 'Amateur Radio' in the name immediately identifies it as a ham radio activity.

More information on this organization as it becomes available.

THE LOGGERS BARK

1220 So. 9th.
Tacoma, Wn. 98405

VOL VI NR 11

W7DK

FEBRUARY 1960

PRESIDENT'S DESK

I want to take this opportunity to thank the members of the Radio Club of Tacoma Inc. for placing your confidence in me by electing me as the President of the club. I will do my best to fulfill the confidence that you have placed in me. Also, I think you have elected very capable officers to assist me in performing my position as president of the Radio Club of Tacoma Inc..

We need the assistance of all the members of the club to assist us in keeping W7DK as an active working organization, so let's all endeavor to attend all meetings.

I would like to see the projects started at the club house completed during this year. We have a lot of work ahead of us for this year, and we will need the cooperation of all club members.

Our biggest project for the year will be the Washington State Hamfest and our Chairman, Merl Davis W7IKG, will need all the help that we can give him to make this event a successful endeavor. So if you have not signed up with one of the committees, get in touch with the chairman of the committee you wish to work on and make your wishes known.

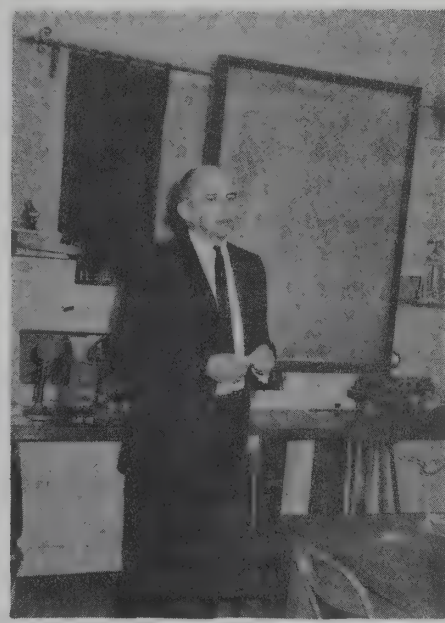

I have appointed Merl, W7IKG, as Sgt. of Arms and hope that all members will assist him to keep order during the meetings.

We have some very interesting programs coming up, so as not to miss any of the programs we hope to see you all at every meeting.

Jerry, W7BUN, will make the arrangements for our annual banquet, and will notify us as to the date.

Thank you all, once again, and hope to see you at the meetings. George WATBHH

REMEMBER DUES ARE DUE! YOU DON'T WANT TO MISS OUT ON THE BENEFITS OF CLUB MEMBERSHIP! THE BEST SOLUTION TO AIR POLLUTION IS TO EXHALE only.

Pictured above is Mr. Raymond Kendall as he started his talk on electronics and transistor theories during the meeting of January 8. It is hoped that Mr. Kendall will visit the club again in the near future for further discussions on the subject he is so well versed in.
.....

NOT TOO LONG AGO, AMERICANS WERE HAPPY, MADE AN EASY LIVING, AND ALL WITHOUT WELFARE OR GOVERNMENT AID.....THEN THE WHITE MAN CAME....

COMING PROGRAMS

FEB.12...Movies on history of Boeings by Bob, K7IND.

FEB.26...Electronic cooking demonstration. by Harry Lewis, W7JWJ. Will begin promptly at 8:00 P.M. before the business meeting. Short program will follow the regular meeting.

CLUB HISTORY

Just a note to club members that Bob, WN7IPR, is still the Club Historian and is looking for pictures, clippings, etc for the club scrap book and album. The Bark has recently turned over to Bob a large bunch of pictures of club members and their activities. Look around and if you have any news items or pictures of activities of the club or members, contact Bob and he will be glad to get them into the clubs records. Remember, anything you have to turn over to him, check and see if you can put a date on the reverse side for him so that in future years, when everyone has forgotten the details, at least the date will be known. Along that same line, you might even mark the names and call letters of the subjects in any pictures that are turned over to him.

COMING PROGRAMS

On February 12, the club will be entertained with pictures on the history of Boeings Aircraft Company. The pictures will be presented by one of our own members, Bob K7IND.

The last meeting of the month, February 26, we will have Harry Lewis, W7JWJ, with us to give the long awaited demonstration of electronic cooking. This has been scheduled for the club before but due to other commitments, had to be postponed. We hope nothing goes wrong this time so that we can see and have explained to us this exciting new field. The demonstration will be given before the business meeting, 8:00 pm sharp! If you come to the club house 5 minutes after 8pm, you will miss out on this, so be sure to be there before the actual meeting time. This would be a good night for the fellows to bring the XYL along, so that she might enjoy the program.

There will be a short program, to be announced, following the business meeting. See you at the club house!

"The meeting of the Radio Club of Tacoma will come to order," and so it goes again for the nineteenth time. This is the way it starts and these are the fellows who have been charged with the duties of leading the club this year. Left to right, they are Secretary Bob K7IND, President George WA7BHH and Treasurer Hunt WA7AKW, Let's get behind them and help them make this a year to remember.

When you have "Early American" decor in your home you can't have modern looking ham gear. On a recent visit to Dwayne, K7KSZ, and Patty, K7NQR, at their new QTH in Everett we found they had gear to match their home. Dwayne has built an old crank telephone into a 2 meter remote control. Using the receiver as such and the crank to change frequency, the instrument works quite well.

To keep in with the style, Dwayne has the clothes to match the scene also.....Dick Hazelmyer

SENATE BILL 35

Our Amateur Radio License Plate Bill has now been signed by Senator Nat Washington of Ephrata, Chairman of the Senate Highways Committee, and prefiled with the Legislature.

The Bill will now be identified as;

As per previous information distributed, the bill as drawn by your License Plate committee calls for a return to the original language of the law prior to the changes made by the 1967 Legislature. Primarily, the bill calls for a return to a \$5.00 extra fee rather than \$30.00 as imposed in 1967. The bill also removes the provisions for "personalized" plates which had also been written into the Amateur License Plate law, and suggests that if such additions to the laws are deemed justified or desirable, separate provisions be provided and identified apart from the Amateur Radio License Plate Section of the Washington State Laws.

For those clubs still contacting Legislators, we have a little information that there may be some attempt to ask for more than \$5.00. Figures of \$7.50 and \$10.00 have been mentioned. This will no doubt be brought up in the committee hearings. It is therefore extremely important to bring to the attention of all Legislators contacted, the breakdown on what Amateurs are paying in other states. Anything over \$5.00 will place Washington highest in the country with the exception of Maine which has a \$10.00 fee.

Your committee needs the reports back as soon as possible so do not wait until you finish them all, but send them as you complete them. We have already gathered valuable information from those received so far. It is important that your committee have as much information as possible before meeting with the legislative committees.

It was not the intention of the committee to exclude Amateurs who are not members of clubs from donating to the cause. Donations of 50¢ to 1.00 are suggested to those individuals which may be sent to the committee treasurer, Don Ashley, W7HMJ 1909 So. Franklin St., Olympia, Washington.

This picture was just recently taken while visiting the MARS station at McChord AFB.

The graph indicates a record of the phone patch totals for the years 1966, 67 and 68. The bottom line indicates the totals for 66. The uppermost line is the 68 totals. As you will note, they have handled over 5 thousand phone patches in 2 different months. This represents a lot of hours and many happy servicemen in the South Pacific. The station has worked on a 24 hour basis many a day.

While taking this picture, the operator was in the process of completing several patches. The phone operator had 3 or 4 parties on hold waiting there turn to be patched into the rig. A job well done fellows.

D-X MEMBER

Jim, W7BSW, reported to the Bark that he just recently worked one of our members, Bill Rohrer, W7ZFY, located presently on Heard Island, operating under a VKØ call. Bill expects to be there about 3 weeks. (till approximately Feb. 10th.) After that time he will be traveling around the world on the ice breaker, South Wind.

Bill expects to be back visiting in Washington during the month of June. If you want a contact with him watch for him this month on 14.345 at 2100Z or 1:30 pm our time.

Jim also advised that Bill Bennett, W7PHO, is leaving January 17 for Trinidad and other VP areas and will be operating both phone and c.w.. The c.w. frequencies he will be operating on will be 14.025 and 21.025. Phone bands will be 14.285 and 21.385. He will be operating there for about 3 weeks.

PIERCE COUNTY AREC

I would like to thank everyone for the help and cooperation this past week-end, January 25 and 26, during the National SET.

It was a big success and the check-ins and traffic was more than I had expected. It gave the boys on the traffic nets a real work out.

Had a short qso with Bill Watson, W7BQ, at the end of our Sunday session. His guess at that time was that Washington State should stand high in the National ratings. He should know, because he was in the thick of it all, all the way.

Thanks again to everyone and we will see you on the air again the first Wednesday of February.

.,.... LaVerne, K7NKZ

CONSTRUCTION CONTEST

The club voted to run a construction contest similar to the one we had in 1961. The idea is to stimulate the "home brew" aspect of amateur radio.

The rules will be based on those of the 61 contest and will be read at the next meeting, February 12th.

ARRL BULLETINS

NR 202

New interstate tariffs filed by the various telephone companies with FCC have been allowed to go into effect as of January 1, 1969, though many matters remain in dispute. Devices such as phone patches will be permitted through an interface leased from the phone companies. Installation charges vary widely, but monthly rentals of the interface are expected to be about fifty cents. In some states, interstate tariffs paralleling the federal rates have not yet been accepted by the public utilities commission BT

NR 203

A strike by dockworkers along the Atlantic and Gulf Coasts has caused suspension of all regular sea mail, including letters and QSL cards as well as packages and magazines, between the United States and Europe, Africa, the near east and the Caribbean Islands. Sea mail to Central and South America, India, Pakistan, the far east and the Pacific continues to be handled through west coast ports. Air mail and air parcel post shipments are still being accepted to all points, and first class airlift mail to Puerto Rico and the Virgin Islands is still ok BT

NR 204

All amateurs are invited to participate in the 1969 ARRL International DX Competition, the first and third weekends of February and March. Full rules appear on page 64 of December QST. When requesting the new convenient logging forms please be sure to include your zip code along with your name and full mailing address. All forms are returned third class unless sufficient first class postage, a minimum of twelve cents, is supplied AR

MAILING NEWS

The "Loggers Bark" is about ready to switch over to second class mailings. The paper work has been started and is in the process of being approved or disapproved by the post office. This may be the last mailing as first class mail, so if your March paper is a little late getting to you, you will know that we have switched over. The delivery time will probably be longer but the savings to the club more than make up for the slight inconvenience.

PIERCE COUNTY RACES REACTIVATED

LaVerne Hood, K7NKZ, has been appointed Pierce County Radio Officer by Pete Miller, Pierce County civil defense director.

LaVerne will be reorganizing Pierce County C.D. Net on six meters. Look for her on 51 mc. first and then she will get things going on the C.D. frequencies.

LaVerne will be meeting with the different Pierce County Department heads to find out what each department needs concerning radio communications. She will be needing a lot of help so be expecting a call from her. This is not limited to club members but to all amateurs in the county.

SLIVERS AND SPLINTERS

Jim, K7TVO, is in the hospital for minor surgery.

John, K7CZF, has a new car. (Chrysler) No mobile unit in it yet.

Former member of the radio club, Mike Deal is teaching school at the Puyallup Jr. High School.

Don Perry, K7QLC, on the air on six meters. Better come to the club meetings, Don and have an eye-ball QSO with some of the guys you are working on the air.

The Chavis's (W7IKG & K7AMJ) number one daughter, Merlinda, has been accepted for stewardess training with Western Airlines. Will be leaving in February to start her training.

Ralph, W7COOP, has a new canopy on his pick-up truck but still no mobile rig in it. What's it going to be Ralph, 10, 6 or 2?

Lloyd, K7IUD, donated some equipment to the radio club for the next auction. Thanks Lloyd.

Report for new members joining the club during 1968, shows a total of 9. This is pretty low considering 1967's total of 37. Jerry, W7BUN, takes the honors for bringing 3 new members in and LaVerne, K7NKZ, took second honors with 2.

Roy, W7AZI, reports the running lights for Joe, W7IG, are almost ready to present to Joe. These are the lights for his landing strip, that the club voted for in appreciation for the use of Joe's qth sight for field day.

Bob, K7IND, reports that son Bob Jr., K7INE, is listening in aboard ship to state-side while off the coast just south of the DMZ line off of Vietnam.

Len, W7ZZL, has moved to a new qth and busy getting back on the air on 2 meters. The work on the repeater will have to wait awhile for the weather to break.

Roy, K7USF, recovering from a bad laceration to his left hand. Had to have several stitches to put him back together again. Stitches are out now and the hand is back to normal. Didn't keep

(cont. next page)

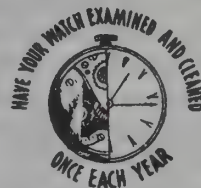

SLIVERS (cont)

him from bowling.

Hunt, WA7AKW, and xyl "Pinky" almost didn't get back home from a recent visit to their summer place. Couldn't get the car up the incline from the beach place, due to the compact snow and ice on the incline. With the help of neighbors, they were able to make it up the hill and back into town.

Tom W7FUL and Scotty K7CYZ down with the Flu bug. Jerry, W7BUN, back on his feet after a session with the same type bug.

Max, W7AEA, shoveling snow out of the boat to keep it from sinking with the extra weight, Anyone for volley-ball with snow balls?

THE LOGGERS BARK

VOL VI

W7DK

JANUARY 1969

FROM THE PRESIDENT'S DESK

As outgoing President of the Radio Club of Tacoma, I wish the club continued success and want to thank the people that worked with me. It was an honor to act as your leader.

The Christmas party was a sell out. We certainly want to thank Jerry Seligman, W7EUN, for making the arrangements - fine food - fine music and congenial people. I regret that some of our faithful members could not get reservations.

George Abbott, WA7BHH, and his staff of officers for 1969 have been elected and 'crowned' and are ready to go. I feel confident that the club is in good hands. They will continue to need your support, so that we can finish some of those projects that we started but never quite completed.

Our largest endeavor for 1969, The Wadlington State Hamfest will be on us, July 12 and 13 before we know it. Merl Chavis, W7IKG, has called a meeting for January 16 at the clubhouse at 8:00 pm. All interested members are requested to be there, especially the sub chairmen.

I am gratified to see some of the younger members taking an active part in the club. I expect to continue to be active in the club and let's see more of our members do the same.

I hope you have all had a Merry Christmas and that you have a happy and prosperous New Year.

... Sincerely, Ed K7CZM

ELECTION RESULTS

Our new slate of officers for 1969 are: President George WA7BHH, Vice President Jerry W7EUN, Secretary Bob K7IND, Treasurer Hunt WA7AKW and board members Roy W7AZI and Doc W7OS. Our club should do quite well with such a group as this.

The first appointment our new President made was a Sergeant-at-arms, who will be Merl, W7IKG.

(cont. next column)

ELECTION (cont.)

He will be there to keep the law and order.

See you at George's first meeting, January 8, 1969.

REPETITION

by Club member

It seems that repetition is creeping into ham radio more than we should allow it to. This is not only true of everyday qso's but on the nets, drills and even in our everyday lives. This is not to be construed as wrong, as a certain amount of this type of repetition is needed, to maintain order and procedure. But when the same names, doing the same activities, with the same procedure all the time, time after time, then repetition looms its ugly head.

What of the newcomers to your group? Do you give them the chance to participate? Do you share with them the same knowledge you have of the workings of the inner circle (if that be the case, heaven forbid), or the get togethers of the group?

Let's beat this ugly beast into the back-ground where he belongs. Extend your helping hand to the stranger in your club, the new member or young beginner. Let your repetition be the kindness and cordiality that you extend to these people. That type of repetition is priceless.

UPPER LIMITS

Sounds like six is picking up. Tim, WA7FVT, reports that on December 10th, Oregon, Nevada, Arizona and Mexico were in. He said that he and another station in Seattle were the only stations to work Mexico, that day. We understand that the band has been open into the south west very regular this last month.

The repeater on Capital Peak came to a premature halt due to the early snow. So it looks as though we will have to wait until spring to get up there.

The check-ins for A.R.E.C. on 2fm have surpassed all expectations. Glad to see so many interested stations.

Hope Santa brought you the things you told him to and we wish you a very happy new year.

DON'T FORGET DUES ARE DUE!

AMATEUR LICENDE PLATE BILL

by W7BUN

The Washington State amateur plate bill committee sent a packet of information to the club in December and past President Ed Cole assigned Jerry W7BUN to head a committee to visit the 23 Senators and Representatives in the geographical district covered by the radio club of Tacoma. A Wallace WA7BZY volunteered to assist Jerry in this project.

As of the end of December, the committee has personally visited 10 of these legislators and discussed Senate Bill Nr 32, which reduces the fee of amateur call letter plates from \$30.00 to \$5.00. All of the legislators already contacted, have expressed their settiments in support of the bill. Definate appointments have been made to contact the remainder of the legislators after the holiday season.

This bill has been prefiled in the state senate by Senator Washington of Grant County and co-sponsored by Senator Prichard of Seattle. Radio clubs all over the state have received simular packets from the license plate committee and all clubs are busily engaged in contacting the Senators and Legislators.

DK CHRISTMAS PARTY

A very nice crowd turned out for the annual Christmas dinner held at the NCO Club at McChord AFB. It was so nice to see so many of the newer members there. The count was 101 members and friends. The food, as usual, was very delicious. The music left a little to be desired but the fellowship and holiday spirit was really nice,

What should we have next year? Any ideas, friends? Let's hear them now! If a hall is to be rented, we need our name on the list. Call an auxiliary officer, so they can bring it up at their February meeting.

Some of the people seen at the party were Darrell W7GDP and his wife Alice. It's been quite awhile since we've seen these two. It was nice to meet the wife of Paul WA7HNC. One of our long time members, Dewey W7HF was there with Joe W7IKG and yxl Helen.

Let's see you at our 1969 meetings.

ROSTER BOOK

The roster book is in the final stages of printing at this time. We will have them put together and ready for distributing at the first meeting in January. So if you want a new roster book, be sure to attend the first meeting and meet your new officers and pick up your personal copy. For the members who can not attend we will mail out a copy, however this will be considerably later.

Your last roster book had to last for two years but in the future we will endeavor to have a new one out each year, at the first part of year. Don't forget to post the new members to the club each month as they are listed in the pages of the Bark and make the necessary changes of addresses and phone numbers as they are also posted each month in the Bark.

Thanks to the membership for your patience in the long delay of printing.

BABY PICTURE

Sorry we don't have a picture for you to guess about for this month. No one has slipped a picture to a staff member.

Last month's picture was of George VanKleeck.

Come on members, let's have that picture for future issues.

TEEN HAPPENINGS

by WA7FVT

WA7HPK will be getting a double sideband station pretty soon. Omar has been working the last of the Sweepstakes.

WA7JPC has turned in a jargon paragraph to his English class. It was on sweepstakes exchange with WA7BYP of Portland. The teacher said, 'I hope you can read this Larry because I can't.' Larry got two pluses and A-plus is the best grade you can get. Larry has been working the sweepstakes and has turned in his log. Most of his activities are on the c.w. bands.

WA7EDD has a program twice a week on radio station KPLU f.m.. Ken is also working on computers and is in the process of building one. He is active on 6 meters phone. Ken has been home during the X-mas vacation period.

WA7FLI is living in an apartment in Seattle and going to school. He is attending Seattle University and will be home during the X-mas vacation.

WA7FVT has just received his MARS license. He has been working dx on 6 meters. Tim has also been working on the club's library and is still looking for donations of QST, CQ, 73 and Popular Electronics.

Chip, K7VPF, has been working the sweepstakes and should place very high. He likes to work dx when he can.

WA7HON has been having receiver problems. He should have them fixed pretty soon,

WA7IYZ, Scott, is working phone most of the time. He borrowed a SX-101 over the holidays.

Larry, WA7TPC, has not been heard in the cw band for awhile. Broke the push-to-talk switch on his D-104 mike.

Most of the student members of the club are still working on their Logger Certificates. Keep up the good work.

WA7JPC and WA7IYZ were nominated for board members in the current election. They lost out to W7AZI and W7OS. Next time they might do better.

If any member has any electronics books please contact WA7FVT. We still need them for the club library.

DROOLING CORNER

COMING PROGRAMS

by W7BUN

On January 8, Mr. Raymond Kendall will conduct a one hour talk on elementary transistor theory. Mr. Kendall conducts training on support equipment for the airforces F-106 jet fighter and also teaches electronics and transistor theory. He is an excellent instructor and here is your chance to find out how those transistor circuits work.

January 27, the radio clubs treasurer, Hunt WA7AKW will show us his slides of sunny Italy. Hunt is an excellent photographer. We can be assured of an interesting program.

ARRL BULLETINS

NR 198

ARRL efforts to keep the six meter band fully open to all holders of renewable amateur licenses have again been rejected by FCC. It denied RM 1352, most recent petition of the League in this matter, which can be found in Happenings of the Month, November QST. While FCC did reiterate its intention of watching the restricted segments closely for possible future changes, it feels that the Docket 15928 version of incentive licensing needs longer trial and changes now would be premature. Thus the restriction of 50.0 to 50.1 MHz to Extra and Advanced licensees, which became effective November 22, continues to be in effect BT

NR 199

Word has been received from the Federal Communications Commission that a third party traffic agreement has been made with Korea for the period December 21 through January '3 only. This will permit an exchange of holiday morale traffic between armed forces personnel and their families at home. The temporary agreement is good only for the specified period of December 21 through January '3 BT

NR 200

The Federal Communications Commission has changed the eligibility requirement for Novice. Effective January 24, 1969 anyone not licensed as an amateur by fee in the twelve months prior to his application will be able to take the novice test and received a 2 year license. However, fcc denied the ARRL request that current holders of Technical class license also be made eligible. Full details will be in the February issue of QST BT

NR 201

The next ARRL Simulated Emergency Test SET will take place January 25 and 26, 1969. This exercise is a serious effort to test local emergency plans and procedures under simulated emergency conditions. It will include all amateur radio public service corps amateurs and arec nts and races. There will be local exercises and nation wide traffic handling activities, including traffic for the red cross, ARRL, civil defense and other agencies. You are urged to contact your local emergency coordinator now while there still remains time for you to be worked into the SET plans and help to justify the amateur service in terms of the public interest, convenience and necessity AR

WOMEN'S AUXILIARY

The women's auxiliary met December 4 at the club house. The officers elected for the new year were: President Rene Smith, Vice President Ethel Devish, Sec-Treas. Fay Monroe, Board members Vivian Huntley and Marge Hazelmyer.

There will be no meeting in January. The next meeting will be February 5th. Let's start the new year out with a good turn out.

SLIVERS AND SPLINTERS

It was nice to see our newly re-elected N.W. Director and member, Bob Thurston W7PGY at our December meeting. Congratulations Bob!

The Rich Anderson's K7ONA, spent the holidays in Spokane.

The Monroe's K7USF, Roy and Fay are snug in their new house. Had open house party.

The 'Everett Space Needle' will soon be sending out radio waves. The owner, Dwayne K7KSZ, has it almost up.

Be careful, when planning your next bank hold-up, Jim K7TVO is now in the detective division of the Tacoma police department.

What's happened to Russ Chryst, W7ATB, haven't seen him at meetings or on the air recently?

Steve, K7SSC, officially announced his engagement New Years Eve. The YL is Donna Selle and the plans for the wedding will be announced later.

Due to the holiday season, we have not had the opportunity to see or talk to the members this month to report on their activities, so this column will necessarily be short.

PHONE PATCH NEWS

From W6SD Carrier

Information has recently been received that as a result of the Carterfone Case the Bell System had developed a phone patch unit for Amateur and MARS station use. This unit, known as the F-57984 Voice Coupler is supposed to be available at the present time, but local Pacific Telephone Business Office has no information on it. (Calif.)
